

Really Simple SMUG?

RSS with MetaLib and SFX

What is RSS?

- Really Simple Syndication
- Rich Site Summary
- RDF Site Summary

Why use RSS?

- Simple format
- No junk or spam
- Timely
- Reusable
- User control

RSS Readers

- A.K.A News readers
- A.K.A Feed readers
 - Sharpreader
 - Newsgator
 - NetNewsWire
 - Amphetadesk

RSS with SFX and MetaLib (1)

- Recently received journals
 - List from Library System
 - OpenURL used to link to SFX menu
 - Provides Full-text links and ToC links

RSS with SFX and MetaLib (2)

- Search results
 - RSS feed
 - OpenURL links
 - Link to Full-text, and addition to e-shelf

RSS with SFX and MetaLib (3)

- New Resources in MetaLib
 - By Category or by date
 - Use existing X Server function
 - Link to resource in MetaLib

RSS with SFX and MetaLib (4)

- Display of RSS in MetaLib
 - Would allow news feeds
 - Other 'Resource lists' (e.g. Latest Resource from Artifact)
 - Recent Serials received

RSS with SFX and MetaLib (5)

- Food for thought...
 - Updating GKB using RSS?
 - Publish e-shelf as RSS (link to 'reading list' functionality)?
