The Boston College Campus School serves students with multiple disabilities including complex health care needs. The program provides student centered educational and therapeutic services in a school based setting. The Campus School staff includes full time certified special-education teachers, speech and language pathologists, physical and occupational therapists, full-time nurses, music therapists, a teacher consultant to the visually impaired, eagle eyes, nutrition specialist, and transition planning. The stimulating environment and challenging instruction of the Campus School encourages the individual growth of each student.

The Campus School is generously supported by the Boston College community in a variety of ways - most noticeably by over 100 Campus School Volunteers. The Volunteers branch out into various sub-committers, each of which works towards a specific aspect of the group's overall mission. In addition to their direct participation in the daily lives of Campus School students, the Volunteers work diligently in the greater community to promote awareness and raise funds for the Campus School. Our roles as advocates is perhaps our most crucial.

The Campus School Classic is the school's primary community fundraiser. The Classic raised over \$50,000 last year.

## Sponsorship

All of the following sponsorship opportunities are available for purchase by individuals and/or corporations.
