# BOSTON COLLEGE 

Fact Book

1971

OFFICE OF

PREFACE

The following pages of this booklet comprise the Boston College Fact Book, 1971. The purpose of this publication is to provide a ready source of basic factual information about the university and its resources. This year, the Fact Book serves as a pilot project for a publication which can be updated annually. It is by no means an exhaustive presentation of all information flowing in and about Boston College, but it should provide a broad overview of the status of the university as of the Fall of 1971.

The information contained herein was obtained from various offices on campus which maintain the source data. Although every effort was made to standardize the data, some minor inconsistencies may occur since related data may have been compiled and summarized at different points in time. The staff of the Office of Institutional Research and Planning wishes to express its sincere appreciation to all contributors for their excellent cooperation in assembling the data for the Fact Book.

As a project which is intended to provide a service to the academic and administrative personnel at Boston College, it is hoped that the Fact Book will be helpful to you and will enhance your understanding of the scope and progress of the university. The Office of Institutional Research and Planning welcomes any criticisms, suggestions or corrections which will improve the usefulness of this publication.
