INTERNAL TRANSFER APPLICATION 2018:
Boston College undergraduate students may apply for transfer consideration into Lynch School Applied Psychology & Human Development or Teacher Education majors. To be eligible, students must:

- have a minimum 3.0 grade point average.
- have a record free of academic deficiencies.
- complete at least four semesters of full-time study in the Lynch School.
- transfer after completing freshman year or during either term of sophomore year.

Students must make an appointment with either Dr. Julia DeVoy, Associate Dean of Undergraduate Students in the Lynch School, Maureen Raymond, Associate Director, or Jill Pickener, Assistant Director to explore the Lynch transfer process. To schedule an appointment, stop by Campion 104. Following the appointment, students may be invited to submit the following transfer application materials:

- Internal Transfer Application Form
- Adjust Major Form
- Application for Admission to Teacher Education Programs (required for students who plan to pursue a teacher education major i.e. Elementary or Secondary Education)
- Academic Integrity Form
- Personal Essay: a 250-word essay that provides a thoughtful rationale for becoming an Applied Psychology or Teacher Education Major. This essay must be typed.

**Applied Psychology and Human Development**
Accepted transfer students who declare the Applied Psychology and Human Development major must also select a minor from the following options for fulfilling graduation requirements. Students must choose one of the following: a minimum 18 credit minor in MCAS, any open minor offered in CSOM, a minor in Leadership in Higher Education and Community Settings in Lynch, or an Interdisciplinary Major offered through the Lynch School.

**Teacher Education Majors**
- Students who declare Elementary Education must enroll in a second major in the Morrissey College of Arts and Sciences, declare Applied Psychology and Human Development as a second major or declare an Interdisciplinary Major offered in the Lynch School.
- Students who declare Secondary Education must enroll in a second major in the Morrissey College of Arts and Sciences in a specific licensure area: English, History, Mathematics, Biology, Chemistry, Environmental Science, Physics, or Classics.

**Other Information**
All applicants will be notified of their transfer status via email at the end of the term in which an application is made. If the application is successful, an academic advisor will be assigned. Students who plan to study abroad must make an appointment with Associate Director, Maureen Raymond as early as possible for the study abroad planning process. The social science and cultural diversity core may be fulfilled by taking APSY1030 and APSY1031. Language core is not required for Lynch School.

**Transfer packet:** application, declaration, academic integrity forms may be obtained and submitted to Campion 104.
INTERNAL TRANSFER APPLICATION 2018:
Students interested in applying to transfer into the Lynch School must complete the information below and provide additional information listed on the instruction page.

Procedure for Declaring / Changing a Major or Minor:

Majors indicated upon admission to Boston College are not considered ‘official.’

All Lynch School undergraduate students must ‘officially’ declare their majors via completing one or two forms and submitting them to the Office for Undergraduate Student Services, Campion Hall 104. Forms are available in Campion Hall 104 and on the Lynch School website: http://www.bc.edu/schools/lsoe/

1. Adjust Major/Program of Study form (required by all students.) Students will indicate their Lynch School major, interdisciplinary major or MCAS major, in addition to any minors.

2. Application for Admission to Teacher Education Programs form (required by students pursuing a teacher education major or minor.) A minimum grade point average of 3.0 is required to officially declare a teacher education major.

Students may declare a major in Applied Psychology and Human Development as their primary Lynch School major and Elementary Education majors may also choose Applied Psychology as their second major.

Declaring MCAS majors or minors: Students who plan to declare any MCAS major or minor should list the discipline on the Lynch School declaration form. All MCAS minors should be declared through the Lynch School of Education. **Note: If a specific minor requires an application, students will be required to follow any specific school-based instructions and be accepted into the minor before it will be added to the student’s record.**

Declaration forms will be reviewed and processed by the Lynch School. Students may check their records electronically to confirm that their declarations have been processed. If the forms are incomplete or if the student does not meet the required grade point average to ‘officially’ declare their majors, the student will be notified via email. In most cases, the student may reapply at the end of the next academic semester. If a student is uncertain whether or not he/she has ‘officially’ declared his/her majors or minors, the student should check with a staff member in Campion 104.

**Please note:** The following minors or concentrations may be added to a student’s program but they do not fulfill the minimum graduation requirement of an 18 credit minor for APHD majors. These include: Special Education Concentration, TELL Concentration, Middle School Math. Students must also declare another minor. Please inquire in Campion Hall 104.

Students may declare a major/minor at any time, however, declaration forms that are received too close to the pre-registration period may not be processed in time for a student to easily register for required courses under the new major.
Application for Admission to Teacher Education Programs:

This form MUST accompany all declarations of major for students who are declaring a teacher education program.

Boston College expects all students to adhere to the accepted norms of intellectual honesty in their academic work. Any forms of cheating, plagiarism, or dishonesty or collusion in another’s dishonesty are a fundamental violation of these norms.

**Cheating** is the use or attempted use of unauthorized aids in an exam or other academic exercise submitted for evaluation. This includes data falsification; the fabrication of data; deceitful alteration of collected data included in a report; copying from another student’s work; unauthorized cooperation in doing assignments or during an examination; the use of purchased essays, term papers, or preparatory research for such papers; submission of the same written work in more than one course without prior written approval from the instructors involved; and dishonesty in requests for either extensions on papers or make-up examinations.

**Plagiarism** is the deliberate act of taking the words, ideas, data, illustrative material, or statements of someone else, without full and proper acknowledgment, and presenting them as one’s own.

**Collusion** is assisting or attempting to assist another student in an act of academic dishonesty.

As part of your scholarly development, you must learn how to work cooperatively in a community of scholars and fruitfully utilize the work of others without violating the norms of intellectual honesty. You have a responsibility to learn the parameters of collaboration and the proper forms for quoting, summarizing, and paraphrasing.

Faculty members who detect any form of academic dishonesty have the responsibility to take appropriate action. The faculty member also has the responsibility to report the incident and the penalty to the Department Chairperson and the appropriate Class Dean. The report will remain in the student’s file until he/she graduates.

If the gravity of the offense seems to warrant or if the faculty member prefers that another academic authority decide the matter, he or she may refer the case to a Dean. In addition, if the student is unwilling to accept the faculty member’s decision, he or she may choose to have the matter adjudicated either by the Undergraduate Dean or by an Administrative Review Board. The section of the College of Arts and Sciences in the Boston College Undergraduate catalog and the Lynch School website have further details about this process.

Academic integrity is a very important matter. If you have any questions in any of your courses about what is allowed or not allowed, please discuss the matter immediately with the instructor.

**I have read this statement concerning the standards of academic integrity expected at Boston College and I agree to adhere strictly to all of these statements.**

Lynch School of Education
Majors and Interdisciplinary Majors

There are three primary majors available to students in the Lynch School: Applied Psychology and Human Development, Elementary Education and Secondary Education. Students majoring in Elementary Education and Secondary Education must pursue a second major. Elementary majors may choose a second major through the Morrissey College of Arts and Sciences, the Applied Psychology and Human Development major, or an Interdisciplinary Major designed for Lynch School of Education students. Students majoring in Secondary Education must choose a specific Arts and Sciences major such as English, Latin and Classical Humanities, Mathematics, History, Sciences, foreign language.

Students choosing Applied Psychology and Human Development, as their primary major, may opt for a second major or interdisciplinary major in place of the required minor. Students may choose a minor offered through the Morrissey College of Arts & Sciences (MCAS), or a minor in the Carroll School of Management (CSOM) or the Leadership in Higher Education and Community Settings offered through the Lynch School (LSOE). Lynch School students should seek advice regarding minor options at the Office for Undergraduate Students in Campion Hall 104. Another option for APHD majors is the BA/MSW program offered through the Graduate School of Social Work. Students interested in Social Work must apply by the end of their sophomore year. All inquiries should be made in Campion Hall 104.

Interdisciplinary Majors

Mathematics/Computer Science major is recommended for students who have had four years of high school mathematics and wish to follow sequence of this major in place of the traditional math major because of their intended career objective.

American Heritages major centers on American heritage from literary and historical perspectives.

Perspectives on Spanish America major is available for students who have completed at least two years of high school Spanish and who are interested in developing language skills and a better understanding of the sociological explanation of historical and contemporary events in Latin America and peninsular Spain that affect students and others in the United States.

General Science major teaches general scientific theories and principles. Students follow the sequence in place of traditional specific science discipline. The major includes courses from four science disciplines: Biology, Chemistry, Physics and Geology. Secondary Education students cannot pursue this major and be certified.
Minors and Concentrations offered by Lynch School for Lynch School Students

Leadership in Higher Education and Community Settings – Applied Psychology and Human Development majors who are interested in college student development and in the applications of psychology to work settings in institutions of higher education, in local and international non-government organizations and/or in community-based programs. Limit of 15 students per class.

Middle School Math Minor – Lynch School students in Elementary majors with either a Mathematics or Math/Computer Science major, OR Secondary majors with a major in Mathematics are eligible. While the minor does not lead directly to middle school mathematics certification at Boston College (we do not offer any middle school certification), it does fulfill the National Council of Teachers of Mathematics requirements for middle school teachers of mathematics. With this minor, acquiring middle school mathematics certification in Massachusetts should not be difficult.

Special Education Concentration – Lynch School students in all majors who are interested in special education are eligible. This concentration is designed to enhance the ability of future professionals to meet the needs of an increasingly diverse population of children in America’s schools.

Teaching English Language Learners Concentration – The TELL/ESL concentration satisfies the Massachusetts requirements for subject matter knowledge for Teachers of English Language Learners. Lynch School students seeking licensure in Elementary or Secondary Education may apply to the Mass. Dept. of Education for TELL as additional certification. Students must complete the program and pass TELL teacher test.

Minors and Concentrations offered by MCAS specifically for Lynch School Students

In addition there are specific minors available to Lynch students such as:

Educational Theatre – designed for students who have an interest in the teaching and practice of theatre in school and institutional settings.

Communications – designed for students interested in a broad range of careers including business, education, government, health, marketing, public relations and graduate study.
