

BOSTON COLLEGE AUDIT KEY

The following is information that will help you to read and understand your degree audit. Read both your audit and the audit key carefully to understand what is required of you in order to graduate from Boston College. Included are your core requirements and the requirements for your major (if specified).

“ *** ” to the left of the requirement indicates that this core requirement is complete

In “EX” column:

If ‘AP’ appears in this column, this means that course equivalency was granted through a qualifying score on an advanced placement exam or through a college course taken on a college campus during high school or over the summer immediately following high school graduation. We do not accept dual enrollment credits for placement. **Students do not earn credit through AP at Boston College.** However, qualifying scores can place a student out of core requirements.

If ‘T’ appears in this column, credit was granted through a course transferred from another institution.

In “CR” column:

The number of credits accepted.

For example, o3 = three credits
 o6 = six credits
 o4 = four credits
 o8 = eight credits

Students in A&S must take 120 credits, CSOM 120 credits, LSOE 120 and CSON must take 117 credits in order to graduate.

Language Proficiency Requirement

Arts and Sciences and Carroll School of Management Students: Prior to graduation, all students **must** demonstrate proficiency at the intermediate level in a modern foreign language or in a classical language. Proficiency may be demonstrated by:

1. earning a 3 or better on an AP exam (a grade of 4 is required on the Latin AP exams) **OR**
2. earning a 550 or better on the language SAT II exam (A score of 650 is required for the Latin SAT II exam) **OR**
3. successful completion of the second semester of course work at the intermediate level **OR**
4. taking one semester above the intermediate level **OR**
5. successful completion of four years of a foreign language in high school (School of Management students only).

School of Nursing and Lynch School of Education: No language proficiency requirement.

Courses counting toward degree not matched to above requirements:

These are courses that were accepted as electives. You will receive this credit, but the courses do not fulfill requirements in the core or in your major. If one or more of these electives might match a major requirement you must see the Director of Undergraduate Studies in your dept to have the course(s) moved into the appropriate major requirements. (See list of Directors of Undergraduate Studies found on the accepted student website) The admission office can only count courses as elective or core, you must speak directly to the department about having courses count toward your major.

Please Note:

1. Cultural diversity courses taken outside of Boston College can only fulfill the core requirement in cultural diversity with specific approval from the core committee. Contact Father Arthur Madigan at 617-552-3847 or via email arthur.madigan@bc.edu to inquire if a course from your previous institution can be used to fulfill this requirement.
2. Statistics does **NOT** fulfill the math core requirement. College Algebra and College Trigonometry are **NOT** transferable to BC.
3. Pass/Fail courses do not transfer to BC unless the transcript specifically indicates that a "Pass" means that the student earned a 'C' or better in the course.
4. BC does not award credit in transfer for internships.
5. "Unevaluated" courses are courses for which we need a course description or syllabus. Please send to the office of transfer admission as soon as possible.
6. "Unverified" courses are courses for which we do not have official grades. Please have these official transcripts forwarded to the transfer admission office as soon as possible.
