Comment

The statistic that the

Democratic Party had

not won the Senate in

all 16 years of

presidential elections

since 1984 is alarming.

That is why it is so

important for

Democrats to unite and

fight for their
democratic rights.

The other side of the

story is that the

Republican Party has

been running unopposed

for a long time.

This is why it is so

important for

Republicans to fight

for their
democratic rights.
