

## TRAVELING SEMINARS

*The Traveling Seminars are designed to give the students who sign up an opportunity to visit 'behind the scenes' or 'after-hours' at various cultural resources at BC itself and in the greater Boston area in the company of faculty with expertise or experience in the relevant field and to meet the professionals who work therein; we hope thereby to give students greater insights into the workings of these institutions and into the subject matter with which they deal and to expand their ideas about opportunities for research or careers open to them.*

### Upcoming Traveling Seminars:
