*Knowledge rate refers to the percentage of graduates for whom knowledge of their first destination career outcomes has been obtained. This includes survey data provided by students through Institutional Research, Planning, and Assessment; the National Student Clearinghouse; and knowledge shared by academic departments and other internal Boston College sources.

The following numbers highlight a few of the programs and experiences that help Boston College students achieve their professional goals:

- 82% of students have done a practicum, internship, or field work.
- 80% of students have done a practicum, internship, or field work.
- 14K students and counting have joined the Boston College Career Community on LinkedIn.
- $250K in grants to fund unpaid internships of students.

Members of the Class of 2016 participated in a wide range of activities during the course of their undergraduate careers.

1/3 of students who responded participated in three or more community service activities.
