5. When you select “Connect” you will be brought to a new web page that is associated with your device. Please enter your device or app login information. By entering your login information, you are allowing the portal access to your information.

*Note: In most cases, data from your connected application or device will display on the login page within 15 minutes. Allow up to 24 hours before contacting support. Do not disconnect and reconnect your device from the platform if data is not syncing as your data will not be counted for the challenge while disconnected.*
