

Kronos Workforce Timekeeper Group Edit Results

Group Edits are changes made to multiple employees at a single time rather than individually, thus saving time. Groups of employees can be selected from the Genies or a HyperFind Query. It also allows the manager to be consistent in their changes as they are processing a change to a group as a whole. Group Edits can be applied to various tasks. For example: Approving Timecards and Pay from Schedules.

It is very important that you choose the correct employees from the Genie. The employees can be individually highlighted or under the Actions menu > Select All.

Select the appropriate action from the menu bar for the group of employees selected. If a dialog box appears, select yes to confirm the group edit. Select the Group Edit Results from the General Tab in the top navigation bar to view the results.

The screenshot shows the Kronos Workforce Timekeeper interface. At the top, there are navigation tabs: Timecard | Schedule | People | Reports. Below this is the title 'BC-RECONCILE TIMECARD' and 'Last Refreshed: 3:13PM'. There are two dropdown menus: 'Show' set to 'All Home' and 'Time Period' set to 'Current Pay Period'. There are two buttons: 'Edit' and 'Refresh'. Below these is a table with columns: Dept ID, Name, Total Paid Hours, Missed Punch, Early In, and Late In. The table contains seven rows of employee data. An 'Approvals' dropdown menu is open over the table, showing options: Approve and Remove Approval.
