Student Panel: How is the Education System on MY Country?

We are hosting a student panel, where our International Graduate Students will be the speaker. The general topic for this student panel is "How is the education system in my Country?". We would like to invite our International Friends to talk about the educational system of their native country, how different or similar is it to the US education system and if they could change one thing about the educational system of their native country what would it be. Additionally, our friends are encouraged to enact a classroom scene, if they would like. Please click HERE, if you would like to Participate or Attend.

WHEN: - Thursday, November 19th, 2015 ;
4:00 pm—06:00 pm
WHERE: - McGuinn Hall 521
