Course Description

What can be known? How can we know it? How does one's worldview influence the process of social research? What are the stages and processes of research? What research should be done? This course will introduce you to basic concepts, methods, and issues involved in both quantitative and qualitative social science research. We will consider the interplay of theory, epistemology, methodology, and method, exploring the multiplicity of paradigms that shape how one chooses to approach and conduct social science research. This course will focus your thinking on the broader issues surrounding the production of knowledge, and we will consider the many ethical issues that may arise within the context of the research process.

Course Objectives

- *Discover your epistemological position and gain an understanding of how you will approach and conduct research as a social scientist.
- *Develop an understanding of the various methodological tools available to sociological researchers and be able to decide what methods are appropriate for particular research questions.
- *Acquire research skills by collecting, analyzing, and interpreting a variety of data.
- *Develop a proposal for research on a sociological topic of your choice.

Required Texts (available in bookstore and on reserve)

*Hesse-Biber, Sharlene and Patricia Leavy. (2006). *The Practice of Qualitative Research*. Thousand Oaks, CA: Sage Publications.

*Neuman, Lawrence W. (2006). *Social Research Methods: Qualitative and quantitative approaches*. Sixth edition. Boston, MA: Allyn and Bacon.

Course Requirements

Class participation (20% of your grade)

Much of the learning will take place in the classroom through participation in class discussions and small group exercises. It is expected that when you are in class you will participate. I am not in the habit of taking

attendance; however excessive absences and lateness will be noted as this has an effect on group participation. In-class exercises are not graded; however, they offer applied learning and prepare you for your graded assignments. Over the course of the semester, written assignments on the readings will be assigned and will count towards your class participation grade.

Assignments and due dates (40% of your grade)

You will be asked to complete five assignments (3 graded and 2 ungraded) in addition to the final paper (a research proposal) over the course of the semester. You will receive a handout with more specifics for each assignment well before the due date. The ungraded assignments will eventually become a part of your final research proposal, which will be graded.

GRADED ASSIGNMENTS

Assignment 1 (10%)	Epistemological position paper	Due date:	Thurs., Jan. 31
Assignment 4 (15%)	Survey data collection and analysis	Due date:	Tues., Mar. 18
Assignment 5 (15%)	Interview data collection and analysis	Due date:	Thurs., Apr. 17

UNGRADED ASSIGNMENTS

Assignment 2	Research Question	Due date:	Thurs., Feb. 7
Assignment 3	Literature Review	Due date:	Thurs., Feb. 21

Final Paper: Research Proposal (40% of your grade) **Due date: Tues., May 6**

You will be asked to prepare a research proposal on a sociological topic of your choice. The final report should be between 12-15 pages in length, double spaced. More specifics on this project are covered in the attached final paper handout also available on WebCT. All assignments are available on WebCT.

Late work. If you have extenuating circumstances, you must come see me BEFORE the due date to discuss a possible extension; otherwise you will lose 5 points each class period the assignment is late.

A note on academic integrity

In regards to this course, there will be many times when we will work in groups. Sharing of information and ideas are encouraged. However, when working on individual assignments, it is expected that you do your own work. When using published work, you must cite the work. If there are any questions on proper method of citing, please see me. For more information on Boston College's academic integrity policy, please visit: <http://www.bc.edu/integrity>.
