RESEARCH AND ACADEMIC COLLABORATIONS

| | |
|--|--------------|
| Contributor to an interdisciplinary research project, proposed for funding by the NSF Project title: "Habitats." This is a development project designed to increase knowledge about threats to biodiversity and ecological health among young people (ages 13-25) who are not currently interested in ecological issues. | 2010-Present |
| Co-Principal Investigator of an international multidisciplinary research project involving researchers from the USA, Mexico, Spain, and China. Project proposal submitted to the National Science Foundation's Human and Social Dynamics program. Received highest rating in 2008, asked to be resubmitted for 2009. Project title: "Agents of Change: Environmental Governance, Competition, and Sustainability in Global Strawberry Production." Project participants: John Borrego (PI, UC- Santa Cruz); Brian J. Gareau (Co-PI, Boston College); Carol Shennan (Co-PI, Center for Agroecology and Sustainable Food Systems (CASFS), UC- Santa Cruz); E. Melanie DuPuis (UC- Santa Cruz); Joji Muramoto (CASFS); Steve Gliessman (UC- Santa Cruz); Manuel Delgado Cabeza (Universidad de Sevilla); Andres Pedreno (Universidad de Murcia); Yolanda Trapaga (Universidad Autonoma de Mexico [UNAM]); Wenwei Ren (Fudan University, China); Yang Zhong (Fudan University); Marcos Lopez (UC- Santa Cruz); Liu-Xue-Dong (UNAM), \$1,475,000. | 2005-Present |
| Founding Faculty of the Alternative Agrifood Researchers Without Borders (AARWB) A collective, international endeavor designed to encourage PhD students to draw upon the expertise of faculty where local expertise may be scarce in this area. If a student wishes to conduct research on a specific agrifood topic involving alternative developments, a search of the faculty on the AARWB could yield a person with specific expertise or interest similar to that of the student. The same applies with local, regional, national interests/expertise. http://alternativeagrifoodrwb.ning.com/ | 2009-Present |

- The Association for Environmental Studies and Sciences (AESS)** 2008-Present
 Pioneering member of this interdisciplinary association. AESS “seeks to strengthen teaching, research and service in environmental studies and sciences, and to improve communication across boundaries that too often divide the traditional academic disciplines – the physical, biological, and social sciences, and the humanities – that need to be brought to bear in understanding and dealing with environmental problems and solutions. The association works to support the professional development of Association members not just as individuals but also to advance Environmental Studies and Sciences as a whole.” www.aess.info
- Participant on an IGCC-funded research project** with John Borrego (UC- Santa Cruz), 2006-2007
 Michael Watts (UC- Berkeley), Brian J. Gareau and Marcos Lopez (UC- Santa Cruz), \$15,000.
- ISA Junior Sociologists Network** 2006-Present
Founding Committee Member and Member of Editing Committee of the International Sociological Association’s “Section of Junior Sociologists and Activists.” The network aims at providing a platform for junior academic scholars at the beginning of their academic careers (graduate students and early career faculty) as well as for social practitioners, independently of their thematic research interests.
http://www.isa-sociology.org/junior_sociologists_network.htm
- Agro-Food Studies Research Group** 2003-2008
 The Research Group for Agro-food Studies at UC- Santa Cruz is a multi-disciplinary collective of graduate students and faculty dedicated to research on issues of broad concern in the field of Agro-Food Studies.

PEACE CORPS- HONDURAS COLLABORATIVE AND ADMINISTRATIVE DUTIES 1997-1999

Community Sustainable Development/Community Assessment

- **Regional Conference Facilitator-** Initiated and lead a series of regional conferences concerning plans of the future for Cerro Guanacaure. Created a set of discussions dealing with ecotourism, private land conservation, wildlife biodiversity inventories, protected area management and sustainable community development. Instructed six mayors, governmental employees, international aid organizations, town council members and other community leaders interested in these topics.
- **Post Hurricane Mitch Reconstruction Project-** Directed two town councils in a post Hurricane Mitch reconstruction project of 30 houses in Honduras. Administered funds to repair damaged homes. Facilitated the proposal and project planning and wrote detailed progress reports for U.S. funding organizations.
- **Community Analysis-** Created a 50-question survey to conduct a community analysis in 12 rural communities located in Protected Area Cerro Guanacaure- 240 interviews in all. Originated a community-based appraisal and implemented it in four rural communities. Supervised various sustainable community development projects resulting from a series of meetings mediated in three communities.
- **Water System Management-** Coordinated the formation of a community water board in rural Honduras for a 20-house system. Educated the 12 water board members in watershed management and water system care.

Wildlife/Forest Conservation and Environmental Education

- **Flora/Fauna Biodiversity Inventory -** Conducted a two-year flora/fauna biodiversity inventory in the Cerro Guanacaure Protected Area in Southern Honduras. Organized a team of biologists, university students and local leaders to identify animal and plant species in the Cerro Guanacaure area. Compiled data for a technical report, managed \$6,000 in project finances and presented the results to Honduran professionals.

- **Ecotourism Promotion**- Designed and distributed 500 posters nationwide for eco-tourism promotion of the protected area Cerro Guanacaure. Mobilized elementary school students and teachers in the planning process. Managed \$1,400 in project costs.
- **Reforestation**- Organized the maintenance of two tree nurseries for reforestation projects involving 30 participants and 34,000 seedlings.
