Managing for Social Impact: Innovations in Responsible Enterprise,
Tiziana Dearing and Mary Cronin of the Carroll School of Management. *The book debuted as a #1 New Release in Business Ethics on Amazon.*

This book presents innovative strategies for sustainable, socially responsible enterprise management from leading thinkers in the fields of corporate citizenship, nonprofit management, social entrepreneurship, impact investing, community-based economic development and urban design. The book’s integration of research and practitioner perspectives with focused best practice examples offers an in-depth, balanced analysis, providing new insights into the social issues that are most relevant to organizational stakeholders. This integrated focus on sustainable social innovation differentiates the book from academic research monographs on stakeholder theory and practitioner guides to managing traditional Corporate Social Responsibility (CSR) programs.

*Managing for Social Impact* features 15 contributed chapters written by thought leaders, industry analysts, and managers of global and local organizations who are engaged with innovative models of sustainable social impact. The editors also provide a substantive introductory chapter describing a new strategic framework for enhancing the Return on Social Innovation (ROSI) through four pillars of social change: Open Circles, Focused Purpose Sharing, Mutuality of Success, and a Persistent Change Perspective.
