

**Instructions for First Time CDM Downloads**  
<http://cdm.codeplex.com/>

When you click on the Downloads Tab you should see a box on the right entitled 'Other Downloads.' A new user should click on the August 2010 Full Install.

User should download:

- 1) Full Database Backup file

Then, the two items under "Other Available Downloads"

- 2) Help Manual Web Pages
- 3) Installation Instructions for Full Install

There is a note at the bottom that says this shares base files with the Incremental Release. The user then click August 10 2010 - Incremental Release.

Then user should download:

- 4) CDM 08/10/2010 Web Server Installer
- 5) ASP.NET Version 3.5
- 6) Crystal Reports for VS2008
- 7) Update web.config

Then open the installation instructions document to go from there.
