Purpose, Audience, and Organization of This Handbook......................................................... v

Chapter 1—Self-Direction: An Overview.................................................................................... 1-1
  A. What is Self-Direction?........................................................................................................ 1-1
     Current Availability of Self-Directed Services ................................................................. 1-2
  B. Key Program Design Decisions.......................................................................................... 1-2
     Employer Authority and Budget Authority. .................................................................. 1-5
     Benefit Determination...................................................................................................... 1-7
     The Use of Representatives. .............................................................................................. 1-8
     Employing Family Members ............................................................................................. 1-9
     Participant’s Status as “Employer” or “Co-Employer” .................................................... 1-10
     Supports for Self-Direction ............................................................................................... 1-10
     Ensuring Quality ............................................................................................................... 1-11

Resources.................................................................................................................................. 1-17
  Publications. .......................................................................................................................... 1-17
  Web-Accessible Resources .................................................................................................. 1-19

Citations, Additional Information, and Web Addresses.......................................................... 1-21

Chapter 2—Legal Authority ......................................................................................................... 2-1
  A. Medicaid............................................................................................................................. 2-1
     Evolution of Self-Direction in Medicaid HCBS ................................................................ 2-1
     Basic Features of Self-Direction of Medicaid HCBS ......................................................... 2-3
     Federal Medicaid Statutory Authorities ........................................................................... 2-5
  B. Self-Direction in other Federal and State HCBS Programs .............................................. 2-18
     Older Americans Act Programs ........................................................................................ 2-18
     Veterans Administration Programs .................................................................................. 2-19
     State-Funded HCBS ........................................................................................................... 2-20

Resources.................................................................................................................................. 2-22
  Publications. .......................................................................................................................... 2-22
  Web-Accessible Resources .................................................................................................. 2-22

Citations, Additional Information, and Web Addresses.......................................................... 2-24
# Chapter 3—Involving Participants in Program Design, Implementation, and Evaluation

Chapter 5—Individual Budgeting ........................................... 5-1
   A. Essential Elements of Individual Budgeting ........................... 5-1
      Practicing Person-Centered Planning .................................. 5-3
      Individual Budget Methodologies ...................................... 5-4
      Determining Needs ...................................................... 5-5
      Service Planning ....................................................... 5-6
      Budget Setting (Calculating the Budget Amount) ..................... 5-7
      The Spending Plan ..................................................... 5-9
   B. Authorizing and Modifying Individual Budgets ....................... 5-11
      Monitoring and Managing Individual Budgets ......................... 5-12
   Resources ........................................................................ 5-13
      Publications ..................................................................... 5-13
      Web-Accessible Resources .............................................. 5-15
   Citations, Additional Information, and Web Addresses ............... 5-16

Chapter 6—Counseling ............................................................ 6-1
   A. Key Components of Counseling ........................................ 6-1
      Traditional Case Management ........................................... 6-3
      Federal Requirements ..................................................... 6-4
   B. Developing a Counseling System ....................................... 6-4
      Counseling Service Models ............................................. 6-5
      Counseling and Financial Management Services .................. 6-8
      Determining the Payment Source for Counseling .................. 6-8
      Allowing Sufficient Time for Counseling ............................. 6-9
      Setting Rates for Counseling Activities ............................... 6-10
      Authorizing Counselors to Approve Most Budgets .................. 6-10
      Controlling Costs ......................................................... 6-11
      Providing a Choice of Counselors ...................................... 6-12
      Setting Caseloads ......................................................... 6-12
   C. Ensuring the Quality of Counseling Services ......................... 6-13
      Setting Qualifications .................................................... 6-13
      Training ....................................................................... 6-14
      Monitoring and Oversight of Program Design Elements .......... 6-15
      Readiness Reviews ....................................................... 6-17
Resources ................................................................. 6-18
Publications ............................................................ 6-18
Web-Accessible Resources ............................................ 6-19
Citations, Additional Information, and Web Addresses .......... 6-20

Chapter 7—Fiscal/Employer Agent Services ....................... 7-1
A. Overview of Financial Management Services .................. 7-1
What Are Financial Management Services? ....................... 7-1
Employment Status of Workers in Self-Direction Programs .... 7-5
B. Fiscal/Employer Agents: Key Characteristics .................... 7-6
Government Fiscal/Employer Agents ................................. 7-6
Vendor Fiscal/Employer Agents ....................................... 7-9
C. Key Issues For States Using Government and Vendor F/EAs to Provide FMS . . 7-12
Need to Obtain F/EA-Agent-Related Knowledge .................. 7-12
Verifying State and Local Tax, Labor, and Workers’ Compensation Insurance Requirements ........................................ 7-12
Need to Assess States’ Data and Information Systems Capabilities to Implement F/EA Services ........................................ 7-12
Determining Whether F/EA Services Will Be an Administrative Function or Program Service ................. 7-13
Determining How Many F/EAs to Use ............................... 7-13
Allowing Sufficient Time to Set Up F/EA Services ................. 7-14
Establishing Reimbursement for F/EA Services .................... 7-14
Transitioning Participants From One F/EA to Another ............ 7-16
Coordinating FMS with Counseling Services and Ensuring Effective Communication Between F/EAs and Counselors .................. 7-16
Need to Assess Initial Readiness and Monitor the Ongoing Performance of F/EAs ........................................ 7-17
D. Key Issues for Government and Vendor F/EAs .................. 7-17
Staying Up-to-Date with Federal, State, and Local Tax, Labor, and Workers’ Compensation Insurance and Medicaid Requirements ........................................ 7-17
Developing and Maintaining a Government or Vendor F/EA Policies and Procedures Manual ........................................ 7-17
Developing and Maintaining Effective Information Systems Capabilities ........................................ 7-18
Developing and Implementing Effective Customer Services, Including Orientation and Training for Participants ........................................ 7-18
E. Promising Practices Related to the Provision of Government and Vendor F/EA Services

Advances in F/EA Information Technology
Timely Participant Budget Reports
Timely Payment of Workers
Maximizing the Availability of Cost Effective Workers’ Compensation Insurance
Using Credit Unions as Vendor F/EA

F. Outstanding Issues

Clarifying Federal and State Tax Procedures Related to F/EA Operations
Implementing Effective Data and Information Systems Infrastructure
Determining Effective Reimbursement Rates for F/EA Services
Recruiting More Workers’ Compensation Insurance Agents to Broker and Carriers to Underwrite Policies for Self-Direction Program Participants
Addressing the Disconnects Between IRS Procedures and Medicaid Freedom of Choice of Provider Rules When a Participant Changes F/EA Mid-Year
Obtaining Health Insurance and Other Benefits for Direct Service Workers

Resources

Publications
Web-Accessible Resources

Citations, Additional Information, and Web Addresses

Chapter 8—Quality Management in Self-Direction Programs

A. Elements of a Quality Management System: Overview

B. Design Elements of a Quality Management Strategy

Ensuring that Service Plans Reflect Individual Needs Through Use of a Person-Centered Planning Process
Establishing Operational Policies, Procedures, and Practices
Informing Key Players of their Rights, Roles, and Responsibilities
Providing Criminal Background Checks
Managing Risk
Ensuring the Availability of Backup Services
Managing Critical Incidents
Developing Responsive and Timely Methods to Meet Changing Needs
Providing Orientation and Training for Workers
Establishing Policies and Procedures for Participants to Return to the Traditional Agency Model—Voluntarily and Involuntarily ................................. 8-11

C. Discovery Elements .................................................. 8-11
   Obtaining Information from Participants .................................. 8-11
   Monitoring .................................................................................. 8-12
   Critical Incident Management Systems ......................................... 8-12

D. Remediation Elements ...................................................... 8-13

E. Improvement Elements ...................................................... 8-14
   Systematic Collection and Review of Data ..................................... 8-14
   Integrating, Analyzing, and Using Data to Improve Quality ............... 8-14
   Establishing a Quality Improvement Committee ............................... 8-15
   Targeted Quality Improvement Projects ......................................... 8-16

F. Overview of Federal Medicaid Requirements for HCBS Quality Management .......................................................... 8-17

Resources ................................................................................. 8-19
   Publications .................................................................................. 8-19
   Web-Accessible Resources ............................................................. 8-21

Citations, Additional Information, and Web Addresses ..................... 8-24

Chapter 9—Self-Direction and Health Care ........................................ 9-1

A. Health Care Needs of People with Disabilities ............................ 9-1

B. Ways in Which Self-Direction Can Facilitate Access to Health Care ...... 9-1
   Improved Access to Long-Term Rehabilitative Therapies .................. 9-2
   Improved Access to Medical Transportation .................................... 9-2
   Reduced Costs of Dependence on Medical Technology ...................... 9-3

C. Nurse Practice Acts: How They Can Hinder or Facilitate Health-Related Personal Assistance Services .................................................. 9-4
   Nurse Delegation ........................................................................... 9-5
   Exemption ...................................................................................... 9-6

D. Concerns about Health and Safety Risks and Liability for Poor Health Outcomes .......................................................... 9-7
   Risk Management Strategies in Self-Direction Programs ..................... 9-8
   Legal Liability: A Review of Court Cases ......................................... 9-12

E. Incorporating Self-Direction Options in Managed Care Plans ............. 9-17
Participants ................................................................. II-4
Participants’ Representatives ........................................ II-5
Legal Guardians ............................................................. II-5
Support Broker Agent & Agency ....................................... II-5
State and Local Program Staff .......................................... II-6
Financial Management Service Agent & Agency ................ II-6
State Administrators ...................................................... II-7
System Administrators ................................................... II-7
Guest Users ................................................................. II-8
Primary Features of the CDM ............................................ II-8
Participant File ............................................................. II-8
Participant Spending Plan/Monthly Expenditure Statement .... II-9
Reports ........................................................................... II-9
Ability to Tailor the CDM to Each State’s Program ............... II-11
Costs and Resources to Implement the CDM ....................... II-12
Costs ............................................................................. II-13
User Manuals & Training ............................................... II-13
Enhancements .................................................................. II-14
Endnotes ........................................................................ II-15

Appendix III—History of Self-Direction .............................. III-1
Origins, Development, and Expansion ............................... III-1
The Independent Living Model and Movement .................... III-1
Social Services Programs Pre-Medicaid ............................ III-2
Medicaid Programs ........................................................ III-2
Resurgence of Interest in Self-Direction .............................. III-3
Citations, Additional Information, and Web Addresses .......... III-6
