“Minors” for Connell School of Nursing students

Minors outside of the School of Nursing: CSON students may minor in another subject in the College of Arts & Sciences or the School of Education by completing the requirements outlined in the University Catalog. Students should meet with the chairperson of the department offering the minor and complete the required form. Most minors require 18 credits of specified coursework.

Special minors for CSON students may be added to your program of study by meeting with the undergraduate Associate Dean. Options include:

1. **CSON Hispanic Studies minor**: Requires 18 credits in Spanish or Hispanic Studies approved by the undergraduate Associate Dean. These may include courses taken in the language of Spanish while studying abroad or Community Health Nursing Clinical taken in Nicaragua, Ecuador or other approved location. To determine whether a course may be applied to the minor, check with the undergraduate associate dean.

2. **CSON Psychology minor**: the minor would be awarded to CSON students who complete 18 credits in psychology. Courses should include PSYC1110 (Introduction to Psychology as a Natural Science) and PSYC1111 (Introduction to Psychology as a Social Science). Students who received AP credit for PSYC1110 and PSYC1111 may select alternate courses. Psych-mental health nursing theory and clinical may NOT be applied to the minor. Courses that may be applied to the minor include the following (or others approved by the undergraduate associate dean, including psychology course take abroad):

   - ADPS1100: Introductory Psychology (Evening College; no credit for ADPS1100 if PSYC1111 was taken)
