DIRECTOR of SPIRITUAL CARE

Kalamazoo, Michigan – Borgess Health is seeking a full-time Director of Spiritual Care to lead the development and implementation of a continuum of spiritual care services for patients, families and associates at Borgess. The Director will align services and programs to the organization’s mission, goals and strategic initiatives, as well as the needs of those served and with the standards of practice for the profession of spiritual care.

Requirements:
Comprehensive knowledge of religious philosophy and guidance counseling at a level normally acquired through completion of a Master’s degree in Theology or equivalent training in an accredited religious seminary or theological school plus a minimum of 2 units of clinical pastoral education certification by or accrediting body preferred.

Approximately two to three years progressively more responsible related work experience in a patient care environment necessary to integrate the administrative and educational aspects of a Spiritual Care program with the medical well-being of patients.

Interpersonal skills necessary in order to effectively interact with patients, families and employees, often during periods of crises, and to lead and direct department personnel.

Administrative skills necessary for program development, communication, budgeting, developing policies, and managing the activities and development of the professional staff.
