One of the things that sets the Boston College Experience apart from other programs is that as a participant in our program you will take courses through the Boston College Summer Session. That means you will be sitting in class with other BC undergrads and students from other universities. This is an opportunity for you to really explore different areas of interest or to see if the career path you think you want is really right for you. We recommend that you choose the courses that seem the most interesting to you. If you are taking AP classes or other college level work, you should take a different course in BCE. For example, if you have taken or plan to take AP Biology, it is not likely that your future university would accept credit for both your AP Biology courses and our Biology courses since they cover similar content.

Academic Advising and Course Registration

Choosing your courses is important and our academic advisors are here to help! Our academic advisors can help you decide what courses are best for you, and will meet with you throughout the six weeks if you have questions about your course work or career path.

Some of you already know which courses you are interested in or you have applied for one of our specialty academic programs in math or writing. If so, please double check the dates and times the two courses meet to ensure there are no conflicts. The list of interdisciplinary courses can be found at [http://www.bc.edu/schools/summer/bce/academics/InterdisciplinaryCourses.html](http://www.bc.edu/schools/summer/bce/academics/InterdisciplinaryCourses.html).

Once you have chosen your course(s) you can register by filling out this google form [http://goo.gl/forms/29mhxmnmKH](http://goo.gl/forms/29mhxmnmKH). Registration occurs on a rolling basis so submit this form soon before courses begin to fill. If you change your mind at a later date, you can contact me to see if you can switch courses.

Some of you may want to talk to an advisor and discuss which courses might be a good fit for you. If so, please call our office at 617-552-3800 and ask to set up a phone appointment with an Advisor. It is important that you identify yourself as a BCE student when you make this appointment.

A note about French and Spanish courses

Language courses are taught in two consecutive 3-week courses, meaning if you want to take French or Spanish, you must take part one and two (and cannot take other courses).

A note about Biology

If you are interested in Biology you MUST make an appointment to talk to one of our advisors. This is a very intensive option and we want to make sure that there is a strong interest and a high level of academic readiness for students choosing these courses. It is important to note that if you choose Biology you must take both Biology courses and you may not take any other courses during the 6 weeks.

We are very excited to have you here at Boston College this summer and we are working hard to make sure that your BC Experience is the experience of a lifetime!
