

2009

Ebru Erberber

Analyzing Turkey's Data from TIMSS 2007 to Investigate Regional Disparities in Eighth Grade Science Achievement

Kathleen L. Trong

Using PIRLS 2006 to Measure Equity in Reading Achievement Internationally

Yun Xiang

Ethnic Differences in Achievement Growth: Longitudinal Data Analysis of Math Achievement in a Hierarchical Linear Model Framework

2008

Wei Tao

Using the Score-based Method to Accommodate Local Item Dependence in Health Surveys

Kevon Tucker-Seeley

The Effects of Using Likert vs. Visual Analogue Scale Response Options on the Outcome of a Web-based Survey of 4th through 12th Grade Students: Data from a Randomized Experiment

2007

Alka Arora

Creating a TIMSS 2003 Problem-Solving Scale and Examining the Problem-Solving Achievement of United States Eighth-Grade Students in TIMSS 2003

James Cheng

Of Seeds and Soils: The Overall, Relative, and Differential Impact of Student Involvement on Postformal Reasoning Development

Tiffany Cooper

The Effects of Supplemental Educational Services on Student Achievement

Sarah Enterline

Socio-Cultural Diversity in Elementary Classrooms: The Relationship between Structural and Curricular Diversity and Motivation

Lisa Famularo

The Effect of Response Format and Test-Taking Strategies on Item Difficulty: A Comparison of Stem-Equivalent Multiple Choice and Constructed Response Test Items

Carolyn Fidelman

Course Evaluation Surveys: In-class Paper Surveys Versus Voluntary Online Surveys

Helena Miranda

Predictors of Technology Use for Elementary School Teachers in Massachusetts: A Multilevel SEM Approach

2006

Jie Li

Examining the Effect of Accommodations for Special-Needs Students in NAEP through Model-Data Fit Analysis

2005

Jing Miao

High School Graduation Rates: Alternative Methods & Implications

2004

Craig Hoyle

Examining NAEP Inclusion Strategies for Excluded Students with Disabilities and Students with Limited English Proficiency

Christine Mills

Investigating the Existence of a Unidimensional Scale of Student Perceptions of Resident Assistant Capabilities

Maria Jose Ramirez

Understanding the Low Mathematics Achievement of Chilean Students: A Cross-National Analysis Using TIMSS Data

Miguel Ramos

Using Program Theory to Evaluate the Thomas Gardner Extended Services School

Kathleen Rhoades

Testing in the News: A Frame Analysis of Educational Testing News

2003

Lisa Abrams

Teaching, Learning, and Accountability: A Comparative Analysis of Special and General Educators' Views Toward State Testing Programs

Damian Bebell

Examining and Understanding Teachers' Use of Technology

Susan Henderson

The Affective Outcomes of a Jesuit Secondary Education: A Validation Study of the Student Profile Survey

Ann Kennedy

Interpreting the Progress in International Reading Literacy Study (PIRLS) Scale

Julie Miles

Family Influences on Educational Achievement: A Multiple Group Comparison

Jere Turner

Examining An Art Portfolio Assessment Using a Many Facet Rasch Measurement Model

2002

Mildred Asano

An Analysis of a Proposed Scoring Scheme for an Entry-Level Public Safety Examination to Minimize the Occurrence of Adverse Impact

2001

Hui-Ling Chen

A Cross-National Study of Factors Influencing Mathematics Achievement for Eighth Grade Students

Susan Gracia

Staff Development Strategies, Organizational Contexts, and Teacher Characteristics Associated with Positive Impacts on Teachers' Attitudes and Practices

Catherine Horn

Diversity in a Race-Neutral Setting: An Empirical Analysis of the Potential Effectiveness of Alternative Selection Criteria in Creating Racially/Ethnically Diverse Student Bodies at Texas Public Universities

Steven Stemler

Examining School Effectiveness at the Fourth Grade: A Hierarchical Analysis of the Third International Mathematics and Science Study (TIMSS)

2000

Marguerite Clarke

Quantifying Quality: Technical Issues Surrounding US News and World Report's Rankings of US Colleges and Graduate Programs

Amie Goldberg

The Effects of Test Delivery Mode, Review Options, and Computer Experience on Examinee Performance on the Graduate Record Examination General Test

Kelvin Gregory

The Two Parameter Multidimensional Random Coefficients Multinomial Logit Model

Kevin Marshall

A Longitudinal Analysis of School to Career Programs in the Boston Public Schools

Laura O'Dwyer

Extending the Application of Multi-level Modeling to Data from the Third International Mathematics and Science Study

Yueh-Hsia (Moonset) Yu

The Development of a Functional Math Inventory in the Rasch Framework - An Integrated Approach for Constructing Instruments for Assessing Students with Severe Disabilities

1999

Edward Fierros

Examining Gender Differences in Mathematics Achievement on the Third International Mathematics and Science Study (TIMSS).

Jessica (Murphy) Greene

The Organizational Climate of the Catholic Secondary School

Cengiz (James) Gulek

Using Multiple Means of Inquiry to Gain Insight into Classrooms: A Multi-trait Multi-method Approach

Kathleen Haley

Watkins-Farnum Revisited: Application of the Rasch Model to Measures of Musical Performance

Dana Kelly

Interpreting the Third International Mathematics and Science Study (TIMSS) Achievement Scales Using Scale Anchoring

Michael O'Leary

The Validity and Consistency of Findings Across International Studies of Mathematics and Science Achievement: A Comparison of Outcomes from IAEP2 and TIMSS

Michael Russell

Teaching Writing on Computers: A Follow-Up Study Investigating the Relationship Between Computer Use and Performance on Paper and Computer Versions of Open-Ended Tests

1998

Ismael Carreras

Institutional Characteristics of Importance at the College Search Stage among Latino High School Students

Susanne Hanson

The Effects of Race and Gender of Protagonists and Respondent in Judging the “Wrongness” of Various Activities

Marianne Lescher

Portfolio Assessment: Have Teachers’ Expectations Been Realized? An Investigation into the Implementation of Portfolio Assessment Practices in Literacy Development in Four Elementary Schools

Denise Wallace

Voluntary Postsecondary Dropout, Transfer, and Persistence among Students with Passing Grades at Four-Year Institutions: A Longitudinal Model

1997

Christine Lyons

Elementary Teachers Preferred Instructional Methods for Teaching Reading and Their Relationship to Student Reading Achievement

Ann Margaret Jones

Differential Effectiveness: Catholic and Public School Fourth Graders’ Performance on the 1992 NAEP Mathematics Assessment

Sonia Stryker

Predicting Institutional Persistence in First-Year Community College Students

1996

Judith Johnson

Admissibility of Students To PhD Programs In Counseling Psychology

1995

Jeanne Hubelbank

Meaning of Primary and Intermediate Level Elementary School Teacher Grades

Michelle Smith

A Quantitative Analysis of Critical Thinking Abilities, Learning and Study Strategies, and Academic Achievement in Associate Degree Nursing Students

1994

Eugenio Gonzalez

Estimating IRT Ability Parameters for Extreme Scores When Using The Likelihood Estimation Procedures

Frank Williams

Comparison of Classical Measurement Theory, Rasch and Linear Logistic Trait Models

1993

Nancy (Fazekas) Berkowitz

Nurses' Attitudes Toward Caring For HIV-Infected Children

Valerie Hunt

Critical Care Nurses' Attitudes and Knowledge Level Regarding AIDS And The Care Of AIDS Patients

Amelia Kreitzer

Teachers' Use and Opinions of Textbook-Supplied Tests in Mathematics

Brian Savage

Linguistic Predictors of SAT Antonym Item Difficulty: Identification And Employment

1992

Beverly Ferrucci

A Comparative Analysis of A Teacher Preparation Program For Preservice Secondary Mathematics Teachers In The United States And The Union Of Soviet Socialist Republics

Kenneth Newton

Standardized Tests and Teacher Expectancy Effects

Gordon Pierce

A Comparison Of The Identification Of "Depth" As Used In Item Classification By The ICCP To The "Difficulty" Of Those Items As Measured Using The Rasch Model Analysis.

1990

Sue Leibowitz

Measuring Change in Sensitivity To Ethical Issues In Computer Use

Jeanette Matrone

The Effect of A Staff Development Program On Nursing Case Management Competencies And Patient Outcomes In The Acute Care Setting

Elizabeth Mitchell

Adolescent Writers: Impact of A Metacognitive Revision Routine On Writing Quality And Types Of Linguistic Changes And The Role Of Selected Personological And Writing Covariates

Christine Rivers

A Model To Increase Job Satisfaction And Productivity In The Services

Maria Sannella

Characteristics Relating To Female Superintendents and Assistant Superintendents Of Schools In The Commonwealth Of Massachusetts
