Total: 39 courses required or at least 124 credits for the Class of 2014 and beyond.

It is the student’s responsibility to read the Boston College catalog, to review their degree audit, to know the requirements and to take the appropriate number of courses and credits to graduate.

Most students who choose a semester abroad do their full practicum in the spring of senior year. Students doing their full-time teaching follow the school district calendar, not the BC calendar.
