A major of 36 credits (12 courses) in a specific subject in Arts & Sciences is required. *At least 8 courses in an A&S major must be completed before students can register for a full practicum.* Students pursuing Secondary Education cannot take an Interdisciplinary major and be certified.

Most students who choose a semester abroad do their full practicum in the spring of senior year. Students doing their full-time teaching follow the school district calendar, not the BC calendar.

It is the student’s responsibility to read the Boston College catalog, to review their degree audit, to know the requirements and to take the appropriate number of courses and credits to graduate.
