Graduate Assistant for Evaluation and Assessment

The Center for Digital Innovation in Learning (CDIL) is looking to hire a graduate student to assist with ongoing evaluation and assessment efforts of the Center. The qualified candidate will have experience in educational evaluation methods, including at least two of the following areas: designing surveys, running descriptive and basic inferential statistics, visualizing data, running focus groups, analyzing qualitative data, or performing program evaluations. S/he will be open to learning new methods of evaluation and learning new software programs to manage, analyze, and/or visualize data. In addition, s/he must be able to write clearly and succinctly for a general audience (i.e., for non-specialists) and be a self-starter who can work independently. S/he must also have a deep interest in evaluating teaching and learning, as well as a desire to understand and help to shape BC’s approach to teaching and learning technologies.

The individual in this role will work on-site in CDIL for 15-20 hours per week during the academic year and the summer, with an annual stipend between $17,250 and $23,000, depending on the number of hours per week worked. The start date for this position is February 3, 2020.

To apply, please send a resume and cover letter to John FitzGibbon (john.fitzgibbon@bc.edu).
