Psychology of Motivation
Moore, Kristina
Spring 2023
Understanding human motivation extends beyond instincts, drives, needs, and rewards. This course explores motivation from multiple lenses including biological, cognitive, social, and developmental approaches. Students will examine psychological theories and principles of motivation from biological motives like hunger, thirst, and pleasure to more contemporary social-cognitive views involving self-efficacy, self-determination, competence and control, attribution, and achievement goal theories. Students will consider applications to relevant contexts including the classroom, the workplace, social relationships, and performance.

PSYC227401
Sensation and Perception
MacEvoy, Sean P
Spring 2023
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.

PSYC332901
Psychophysiology of Stress
Ivkovic, Vladimir
Spring 2023
This course explores the psychological and physiological factors underlying stress, including basic principles of psychophysiology and fundamental concepts of stress. Topics include emotion, motivation, multitasking, attention, arousal, and distraction. Physiological mechanisms underlying stress will be examined relative to health and abnormal behaviors, such as addictions, mood disorders, and violence. Students will be instructed in methods of stress control, including cognitive behavioral techniques and meditation.

**PSYC333101**  
**Developmental Psychopathology**  
**Tishelman, Amy C**  
**Spring 2023**  
This course provides an introduction to the field of developmental psychopathology, an area of psychology that combines the topics of developmental and abnormal psychology in order to facilitate an understanding of maladaptive behavior within a developmental framework. Course material emphasizes how aspects of development bear upon the subsequent adaptation of an individual and will generate an appreciation of normal and pathological behavior in the context of the individual, his or her developmental history, and current conditions. Examples of specific topics include the developmental impact of parent-child attachment, child maltreatment, peer relationships, and resilience in development.

**Credits:** 3  
**Room and Schedule:** Gasson Hall 202 Tu 06:00PM-08:30PM

PSYC334501
Social Motivation
Zimbler, Mattitiyahu
Spring 2023
How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

**Credits:** 3  
**Room and Schedule:** 245 Beacon Street Room 125A TuTh 03:00PM-04:15PM

**PSYC334601**  
**Close Relationships**  
**Zimbler, Mattitiyahu**  
**Spring 2023**  
This course will explore the many psychological mechanisms that play a part in close personal relationships. Using psychological research as our foundation, students will be led in discussions and about attraction, love, lust, and other topics pertinent to close relationships. Students will be asked to think deeply about the social constructs that influence human preferences, and the biopsychosocial processes at play. The course will begin by dissecting the concepts of attraction and love. Once a basis for understanding these fundamental concepts is established, we will progress into discussions about attachment theory and interpersonal dynamics such as jealousy, power, stigmatization, and communication. All matter of relationships (interpersonal, homosexual, asexual, heterosexual, polyamorous, etc.) will be discussed across topics. Lastly, we will finish the course discussing the portrayal of sex in the media and online, and its implications on sex education and sexual understanding.

**Credits:** 3  
**Room and Schedule:** 245 Beacon Street Room 215 TuTh 04:30PM-05:45PM  
**Satisfies Core Requirement:** None  
**Prerequisites:** PSYC1111
PSYC336001
How Extraterrestrials Think
Hartshorne, Joshua K
Spring 2023
This course covers what we know about the minds of extraterrestrials. You might think that we
don't know anything about extraterrestrials on account of the fact that we haven't met any. In
fact, study of human cognition has taught us a lot not just about humans, but about what is and
isn't possible. So we actually can make some definitive statements about what aliens must be
like (assuming there are any). For instance, it can be shown that society could not exist if we did
not have memories, so we can be fairly certain that any extraterrestrials who are advanced
enough to have large-scale societies must have memories. In short, thinking about
extraterrestrial cognition allows us to hold up a mirror to humanity and ask why we are the way
we are, and whether there are other ways to be. The course will involve approx. 50% reading
relevant findings from psychology and 50% analyzing depictions of aliens from film and
literature. There will be three units: alien perception, alien morality, and alien language.

PSYC336401
Poverty and Neurodevelopment
Bernhard, Regan
A growing body of research shows that poverty shapes the way children's brains develop. Children who grow up in low-income households show reduced gray matter in parts of the brain essential for memory, planning, and decision-making. However, simple interventions, like providing low-income mothers with a small monthly supplementary income, can dramatically mitigate these effects. How does poverty change the brain, and why do interventions like these help? In this class we will investigate the effects of poverty on the developing brain, focusing on understanding the physiological mechanisms involved. We will also learn about existing interventions, study their efficacy, and explore possible future interventions.

**PSYC336601**  
**Social and Emotional Development**  
**Rosen, Karen**  
**Spring 2023**  
In this course, we will explore developmental changes in social and emotional functioning from birth through adolescence. We will study the beginning of emotion expression and the emergence of attachment relationships, the development of emotional regulation, and the socialization of children during infancy. We will then continue to examine emotional changes and social development through toddlerhood, early childhood, middle childhood, and adolescence. The influences of parents, siblings, peers, and caregivers will be examined, as will the issues of individual differences, stability and change, and coherence of development across contexts and over time.

Infancy
Cordes, Sara J
Spring 2023
How do babies perceive the world? What do they understand about people and objects? What draws them to other people? How do they achieve the beginnings of symbolic thought and language? What about these early skills are distinctively human? Looking at the first few years of life, this course reviews past and current research, providing an understanding of the interactive role of nature and nurture on this very important period in human development. Students will present course readings, participate in class discussions, and work with infant behavioral data.

PSYC336901
Understanding the Social World: Social Cognition in Humans and Other Animals
McAuliffe, Katherine J
Spring 2023
This course will address the puzzle of how we make sense of our social world by focusing on questions such as: how do we carve our world into meaningful social groups, understand what others are thinking and maintain productive cooperative relationships? These questions will be tackled using both developmental and comparative approaches, with the goal of understanding how social cognition takes shape over childhood and what aspects of human social cognition are shared with other animals.

PSYC337101  
**Cognitive Neuroscience**  
**Ritchey, Maureen**  
**Spring 2023**  
What happens in your brain when you are secretly paying attention to a conversation at the next table? How is that conversation recorded into memory? Cognitive neuroscience aims to address such questions by exploring the brain mechanisms that underlie human mental processing. This course will examine the neural basis of core cognitive processes, including perception, attention, memory, action, and language (identified using techniques such as functional MRI, event-related potentials, and lesion studies). Other mind-brain topics that will be considered include hemispheric specialization, neural plasticity, frontal lobe function, and consciousness.

PSYC337301
Associative Learning Theory
Lamoureux, Jeffrey A, PHD
Spring 2023
This course examines fundamentals of learning theory. We will examine principles of classical and instrumental learning in animals and will discuss the human application of these principles in the home, classroom and clinical settings. We will focus heavily on classic and recent experiments designed to assess the processes and content of associative learning. Lastly, we will consider whether animals simply acquire stimulus-response tendencies, or if they have a more cognitive representation of their world, again focusing on how we can even ask this experimentally. This course was formerly titled "Learning and Motivation," and the content has not changed.

PSYC338601
Psychopharmacology
Lamoureux, Jeffrey A, PHD
Spring 2023
This course explores psychopharmacology, the science of drugs and behavior. We will discuss synaptic neurochemistry as associated with a number of specific mechanisms of drug action and outline brain circuits which mediate drug actions such as reward. Major classes of psychotropic drugs will be introduced, including both drugs of abuse and psychotherapeutic agents used in the treatment of mood disorders and psychosis.

Credits: 3  
Room and Schedule: Stokes Hall 195S MWF 02:00PM-02:50PM  
Satisfies Core Requirement: None  
Prerequisites: PSYC2285 or an equivalent neuroscience course.  
Corequisites: None  
Cross-listed with: None  
Frequency: Annually  
Student Level: Undergraduate  
Comments: None  
Status: Offered

PSYC339301  
Neuroscience of Pain  
Mott, Devin  
Spring 2023  
This course explores the neuroscience of both acute and chronic pain. Topics include nociceptive and sensory systems, molecular basis and modulation of pain, neuroanatomy of peripheral and central pain circuits, pain pathologies, and pharmacological and non-pharmacological treatments. This course will be exploring pain through a bio-psychosocial approach looking at the interaction of environment and pain perception.

Credits: 3  
Room and Schedule: Stokes Hall 195S TuTh 08:30AM-09:45AM  
Satisfies Core Requirement: None  
Prerequisites: PSYC1110  
Corequisites: None

PSYC403901
Research Practicum in Child and Adolescent Clinical Psychology
Schneider, Barry H
Spring 2023
This practicum focuses on research inspired by the assumption that faulty interpersonal interactions are at the core of psychological disorders of children and adolescents. Research methods for studying both peer and family relationships are considered as well as standard tools for the identification of participants for clinical research. Students will participate in the analysis of data on interpersonal relationships and adjustment. They will learn to interpret the data and write a manuscript in APA style.

Credits: 3
Room and Schedule: Fulton Hall 423 M 09:30AM-11:50AM
Satisfies Core Requirement: None
Prerequisites: PSYC1120

PSYC404101
Research Practicum in Sport and Exercise Psychology
Moore, Kristina
Spring 2023
This course introduces students to research in sport and exercise psychology. Course content will focus on the various methods used to study psychosocial aspects of sport, exercise, and physical activity. Students will become familiar with quantitative and qualitative methods by examining current research in the field and participating in hands-on, collaborative research assignments. Students will also choose a topic related to course content, conduct a literature review, design a study, collect and analyze data, write a scientific paper in APA style, and present their findings.

Credits: 3
Room and Schedule: O’Neill Library 246 Tu 01:00PM-03:30PM
Satisfies Core Requirement: None
Prerequisites: PSYC1120
PSYC404301
Research Practicum in Social and Cognitive Methods
Heberlein, Andrea S
Spring 2023
This course explores how questions are asked and answered in social and cognitive psychology, focusing on discussions of articles and the conduction of a series of research projects and demonstrations. We will cover topics including research ethics, constructing experimental variables, experiment design, a few specific types of methods and their uses/constraints, and how to write an APA-style research report.

Credits: 3
Room and Schedule: Stokes Hall 286S MWF 01:00PM-01:50PM
Satisfies Core Requirement: None
Prerequisites: PSYC1120
Corequisites: None

PSYC406001
Research Practicum in Developmental Psychology
Topper, Stacee S
Spring 2023
This course is designed to serve as an overview of the research methods used in the study of Developmental Psychology. Over the course of the semester, you will become comfortable with all aspects of the scientific method. While completing a semester long research project proposal, you will learn to identify research questions, design a thoughtful scientific study, and propose statistical analyses. Students will gain experience reading, analyzing, and critiquing current research in developmental psychology. By the end of course, you will be familiar with the different methods used in developmental research and become critical consumers of research in this area.

Credits: 3  
Room and Schedule: Mcguinn Hall 30 Tu 09:30AM-11:50AM  
Satisfies Core Requirement: None  
Prerequisites: PSYC1120 and PSYC2260

PSYC417301  
Research Practicum in Judgment and Decision-Making  
Bernhard, Regan  
Spring 2023  
This course explores the scientific study of how different cognitive systems interact with environmental factors to shape individuals' preferences, choices, and judgments. We will discuss empirical research articles related to judgment and decision making and conduct our own experiments. We will cover topics including research ethics, constructing experimental variables, experiment design and methodologies, and how to write an APA-style research report.

Credits: 3  
Room and Schedule: Mcguinn Hall 303 M 09:30AM-12:00 Noon  
Satisfies Core Requirement: None  
Prerequisites: PSYC1120 and either PSYC1110 or PSYC1111  
Corequisites: None  
Cross-listed with: None  
Frequency: Annually  
Student Level: Undergraduate
PSYC417701  
Research Practicum in Cognitive Neuroscience  
Thakral, Preston P  
Spring 2023  
This course introduces students to the research process in the cognitive psychology of memory. Research in memory examines how people encode and retrieve information (e.g., personal experiential information and world knowledge). Topics will include implicit memory, explicit memory, semantic memory, and working memory. Class readings will come from journal articles. Students will analyze these articles and lead class discussions. The ultimate goal is to have students propose a novel study and possibly carry out a research project. This will entail reviewing the relevant literature, identifying a novel research question, designing an experiment, interpreting results, and writing up the experiment in publication format.

Credits: 3  
Room and Schedule: 245 Beacon Street Room 215 TuTh 09:00AM-10:15AM

PSYC443301  
Addiction, Choice, and Motivation  
Heyman, Gene M  
Spring 2023
This is a writing intensive course. Students write weekly prompts on course readings. The readings are drawn from the research literature on addiction and choice. The drug research includes biographical accounts, epidemiological studies, and experiments on drug effects and drug choice. The choice research includes studies with animals and humans that test simple quantitative models of rational choice and impulsiveness.

**PSYC443601**  
**Clinical Fieldwork in Psychology**  
**Rosen, Karen**  
**Spring 2023**

Seniors only. Priority will be given to students who are in the Clinical Concentration. This course will provide students with an opportunity to integrate theoretical and empirical work in clinical psychology with the real-life experience of working in a clinical setting. Students will select, together with the professor, a field placement (e.g., hospital, community clinic, day treatment center, shelter, emergency hot line, preschool classroom, prison). Students' work in the field will involve at least eight hours per week with weekly, on-site supervision. Weekly class meetings will focus on the discussion of issues relevant to the direct application of mental health services to child, adolescent, and adult patients.

**PSYC554201**  
**Theories of Human Emotion**  
**Russell, James**  
**Spring 2023**  
This seminar covers the major psychological theories of human emotion, beginning with the classic writings of William James and continuing to contemporary controversies about the nature of emotion. Some of the questions to be considered are whether or not there are basic emotions, the relation of emotion to cognition and action, and whether emotions are innate or learned through our particular culture. The focus is on biological, social, and cultural subdisciplines of psychology, but contributions of anthropology, philosophy, and other disciplines will be discussed as well.

**Credits:** 3  
**Room and Schedule:** Mcguinn Hall 303 F 10:30AM-01:00PM

PSYC556401
Computational Models of Cognition
Hartshorne, Joshua K
Spring 2023
Introduction to computational theories of human cognition. Focus on principles of inductive learning and inference, and the representation of knowledge. Computational frameworks covered include Bayesian and hierarchical Bayesian models; probabilistic graphical models; nonparametric statistical models and the Bayesian Occam's razor; sampling algorithms for approximate learning and inference; and probabilistic models defined over structured representations such as first-order logic, grammars, or relational schemas. Applications to understanding core aspects of cognition, such as concept learning and categorization, causal reasoning, theory formation, language acquisition, and social inference.

Credits: 3
Room and Schedule: Fulton Hall 423 TuTh 10:30AM-11:45AM
Satisfies Core Requirement: None
Prerequisites: Two courses in computer programming and undergraduate courses in developmental psychology and cognitive psychology. Students who do not have this background should consult with the instructor on how to prepare.

PSYC558301
Molecular Basis of Learning and Memory
Christianson, John P
Spring 2023
Persistent yet pliable behavioral adaptations are the result of learning and memory. The goal of this course is to provide an introduction to the fundamental cellular and molecular mechanisms that permit the storage and retrieval of information. After a primer on cellular and molecular neurobiology, students will read and discuss the seminal works on the following topics: intrinsic (cellular), synaptic and morphological plasticity, molecular mechanisms of consolidation, modulators of memory systems, and diseases of memory. The course participants will select additional topics for discussion and writing assignments.

**PSYC660101**
**Structural Equation Modeling**
**Ryu, Ehri**
**Spring 2023**

This course provides an introduction to the theory and application of structural equation modeling (SEM). The topics are basic concepts of structural equation models, path models with measured variables, measurement models, confirmatory factor analysis, structural equations with latent and measured variables, and extensions and advanced application. The course assumes that you have already completed a course in multivariate statistics. LISREL will be used to perform statistical analysis.

RLRL102001
The Immigrant in Film and Literature
Wood, Christopher
Summer 2022
All class discussions and assignments will be in English. The experiences of the displaced, the exile and the immigrant have inspired great literature and cinema in the Spanish speaking world. This course will delve into a variety of narratives about the perilous journeys of Central Americans and Mexicans making their way to the North, the terrifying voyages of the brave and desperate people crossing to Spain from North Africa, and the struggle to adapt to new social, cultural and linguistic realities. Students will read, in English translation, short stories, short novellas, and first-hand accounts of immigrant experiences and watch several Spanish-language movies with English subtitles.

Credits: 3
Room and Schedule: On-line Asynchronous
Satisfies Core Requirement: None
Prerequisites: None

Conducted in Portuguese. This beginning course is designed for students with little or no knowledge of the Portuguese language. It is an introduction to the language and cultures of the Portuguese-speaking world: Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, Cape Verde, Sao Tome and Principe and East Timor. Students will be engaged in basic activities and conversation, read simple texts, and study basic grammar structures and vocabulary (personal and family information, daily routines, food, housing, hobbies).

SLAV206501  
**Society and National Identity in the Balkans**  
Dakova, Mariela  
Fall 2022  
An overview of ethnic, cultural, and religious diversity among peoples of the Balkans (Albanians, Bosnians, Bulgarians, Croats, Greeks, Macedonians, Romanians, Serbs, Slovenes, Jews, Turks, and gypsies [Roma]). It is a study of what constitutes the various parameters of identity: linguistic typologies, religious diversity (Catholicism, Orthodoxy, Islam, and Judaism), culture, and social class. An analysis of the origins of nationalism, the emergence of nation-states, and contemporary nationalism as a source of instability and war in the Balkans will be considered.  
**Credits:** 3  
**Room and Schedule:** Gasson Hall 207 MWF 12:00 Noon-12:50PM  
**Satisfies Core Requirement:** Cultural Diversity
SLAV212101
Intermediate Russian I
Kogan, Leon
Fall 2022
A review of major difficulties in Russian grammar with extensive practice in reading, translation, paraphrase, and analysis of selected Russian texts. This course continues in second semester as SLAV2122 (SL052).

**SLAV241701**  
**Continuing Polish I**  
**Lin, Tony H**  
**Fall 2022**  
This course is the continuation of first-year Polish, but certain heritage speakers may find this course helpful as it covers grammar (cases and verbal aspect) in depth. During the semester we will continue to expand our knowledge of Polish language and culture, focusing on grammar and grammatical accuracy, both classical and contemporary culture, and news/current events. Two major goals of this semester are: 1) to develop vocabulary for a variety of daily situations; and 2) to expand the number of verbs and verbal structures that you know actively. These skills are grounded in the ability to produce grammatically correct sentences most of the time, and in the possession of a broad, active vocabulary. This course continues in the second semester as SLAV2418.

**Credits:** 3  
**Room and Schedule:** Lyons Hall 208 MWF 02:00PM-02:50PM  
**Satisfies Core Requirement:** None  
**Prerequisites:** None  
**Corequisites:** None

SLAV205301
Introduction to Comparative Slavic Linguistics
Woolhiser, Curt F
Spring 2023
An introduction to the history and linguistic typology of the Slavic languages. We will begin with a brief survey of the reconstructed Common Slavic proto-language and its relationship to the other branches of the Indo-European language family. We will examine the disintegration of Late Common Slavic into three main subgroups: East, South, and West Slavic. Our survey of the modern Slavic languages will focus on the most important similarities and differences with regard to their writing, sound, nominal and verbal systems. Using a variety of modern Slavic languages as examples, we will also address topics of current interest to linguists worldwide: language, ethnic identity, and political borders; language ideology and standardization; the role of language contact in linguistic evolution, and language endangerment and language revitalization.

Credits: 3
Room and Schedule: Lyons Hall 208 MWF 11:00AM-11:50AM
Satisfies Core Requirement: None

SLAV216901
Introduction to Slavic Peoples and Cultures
Lin, Tony H
Spring 2023
Introduction to Slavic Peoples and Cultures (formerly Slavic Civilizations) is a gateway course that satisfies the Cultural Diversity core and is required for both Russian and Slavic majors. The course is designed to familiarize students with major topics, such as languages and religions in Eastern Europe, and the formation of nation states and identities. Special attention will be paid to major events in Slavic cultural history, from the appearance of Slavs in history to the rise and fall of the Soviet Union and Yugoslavia. We will study these events not only through literary texts but also works of art, music, and film. The course is taught entirely in English with no prerequisites.

Credits: 3
Room and Schedule: Lyons Hall 315 MWF 10:00AM-10:50AM

SLAV516301
Nabokov: Seminar
Shrayer, Maxim
Spring 2023
The translingual achievement of Vladimir Nabokov. A close examination of Nabokov’s Russian and American periods, with particular attention to connections among his aesthetics, ethics, and metaphysics and to questions of language and style, sexuality, authorship, identity, and exile. Readings include selected Russian and English novels and short stories, Nabokov’s autobiographical and discursive writings and poetry, as well as exemplary stories by Anton Chekhov and Ivan Bunin. Knowledge of Russian is not a prerequisite. All discussions, readings, and papers are in English. Undergraduates may enroll with instructor's permission.

SOCY100101
Introductory Sociology
Bolin, Jessica L
Summer 2022
Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor. This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

**SOCY103001**  
**Deviance and Social Control**  
**Uyan, Deniz**  
**Summer 2022**  
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

**Credits:** 3  
**Room and Schedule:** On-line Asynchronous  
**Satisfies Core Requirement:** Cultural Diversity, Social Science  
**Prerequisites:** None
SOCY225101
Food, Power, and Politics
Nakazato, Hiroshi
Summer 2022
This course will seek to provide an intellectual and analytical-driven framework around the question of food as an integral part of any human experience, but particularly our experience with food through across cultures. We each have a unique opportunity to understand better the role of food in each of our lives as we move through this summer program by examining our own cultural and political assumptions and those of others from a new point of view. We can appreciate the lenses brought by other individuals, cultures and places to the acts of eating and producing food. Finally, we can express the human experience of food in ways that represent our understandings, experiences and vision for a healthy, just and pleasurable relationship to food in ways that can be shared and appreciated by others. In eating and producing food, we exist simultaneously in a deeply personal and communal place, a place of the present, past and future in which we are never more and less than human.

SOCY356201
Environmental Sociology I
Thombs, Ryan P
Summer 2022
This is an upper-division seminar that provides an overview of theoretical and empirical work in environmental sociology. After a brief introduction to the origins of the field, the seminar will cover topics that are representative of what is current in the area, especially bodies of empirical research that are national, international, and global in scope, and with particular attention given to how large-scale social institutions and organizational forms impact the environment. We will focus on the social dimensions of environmental impacts, the anthropogenic drivers of environmental impacts, and sociological research on solutions to environmental crises. A key takeaway of the course is the necessity in taking a structural approach to the study of socioenvironmental relationships. Attention will also be given to how environmental sociology makes fundamental contributions to interdisciplinary research in environmental studies and sustainability science. The course is required for all Environmental Studies majors.

SOCY100102
Introductory Sociology
DiDonato, Sandra J
Fall 2022
Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor. This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

SOCY100201
Introduction to Sociology for Healthcare Professions
Goldman, Alyssa W
Fall 2022
Do not take SOCY1002 if you have already taken SOCY1001. Only one of these courses will count toward the major or minor. This course is designed to present the fundamentals of sociology to an audience of future healthcare professionals. Attention is given both to micro-level (interpersonal) and macro-level (organizational) behavior. One of the major goals of the course is to enable students to ground themselves and their families sociologically, by examining their own community and social class origins. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY103601
Introduction to Latin American Societies
Morello, Gustavo, SJ
Fall 2022
The aim of this course is to introduce students to sociology while exploring Latin American societies. The course will start with a general presentation of both sociology and Latin America. We will discuss what sociology is, and the different ways of studying societies. We will take some time to study the birth of modern Latin American nations. Relying on this historical background, we will explore Latin American societies through sociological concepts such as race, gender, social violence, religion, sports, and culture. Finally, we will pay attention to U.S.-LA relations and the fact of Latino people living in the United States.

SOCY107201  
*Inequality in America*  
*Spangler, Eve*  
*Fall 2022*  
This course examines class inequity in American society. It not only describes how the rich, the poor, and the middle classes live, but also how they relate to one another. Topics include the strategies used by the rich for maintaining the status quo, the hopes cherished by the middle class for improving their position, and the obstacles that keep the poor in their place. Students can choose between readings that emphasize the dynamics of inequality as they are enacted by men or women, and by people of color or Caucasians.

SOCY108901  
*Women and the Body*  
*Hesse-Biber, Sharlene*  
*Fall 2022*  
This course covers Western cultural pressures on women to be super-slender. We analyze biological, sociological, and feminist perspectives on the body especially with regard to issues of beauty and body image and sexuality. We analyze how race, ethnicity and class intersect to create differences among women's relationship to their bodies. In what way do biological perspectives illuminate as well as cloud understanding of women's relationship to their bodies? We explore mass-mediated pressures on women's bodies through films, women's magazine, reality TV, and social networking sites. We examine the plastic surgery industry and the growing trend toward "designer bodies."

SOCY109201
Peace or War
Derber, Charles
Fall 2022

Offered every semester. We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World but also new conflicts with Russia and China, especially in the explosive 2022 conflict in Ukraine. In the first part of the course, we explore core theories of the roots of war and the changing international positions of Super-powers such as the US, Russia and China. In the second part, we focus on the 20thcentury Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism," as well as genocidal conflicts such as Rwanda and Sudan, and the Russian invasion of Ukraine. The fourth section explores the United Nations, social activism among students, and other routes to peace.

Global Implications of Climate Change
Gareau, Brian J, PHD
Fall 2022
Climate change is one of the defining issues of our time. Decisive and swift action to mitigate carbon emissions is needed in order to prevent catastrophic events and unhealthy environments for future generations. Societies worldwide will need to adapt to a new environmental reality. However, the causes, effects, and costs of climate change are not equally distributed, which raises ethical questions about responsibility and justice. This course will encourage critical engagement with and personal reflection on these important issues, covering the science behind climate change, the roles that social, political, and economic conditions play in understanding and internalizing climate change, and the different roles of governments, businesses, religious communities, and individuals for enacting (or preventing!) ambitious solutions to climate change.

Growing Up Gendered: Socio-Cultural Perspectives onto Gender in Contemporary Society
Hesse-Biber, Sharlene
Fall 2022
To what extent is anatomy destiny? We discuss key concepts of sex vs. gender. We delve into the critical societal forces that normalize a gender binary male and female. We address biological, sociological and psychological frameworks that maintain the sex/gender binary across the life cycle (childhood through adulthood). How is our gendered identity constructed? What impacts do families, schools, the mass media and our social relationships on and off-line reinforce or challenge our gender identity? Our sexuality? How does our gender and sexual identity intersect with other dimensions of individual identity such as race, class, ethnicity and sexual preferences? We examine the cultural pressures on women to be slender and men to be muscular body and ways in which conformity to these body image ideals can lead to eating disorders and gendered violence. The class includes lectures, small group discussions, and group reflection projects.

Introduction to Social Work
Ryan, Sarah E
Fall 2022
This is a Social Work course available to undergraduate students. Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

Research Methods
Bolin, Jessica L
Fall 2022
Required for the Sociology major. This course acquaints students with the range of research methods used in sociological work. We cover the philosophical assumptions which underlie a scientific approach to the study of social life, and consider the interplay of data method and theory. In addition to presentation of specific techniques, we will also consider questions surrounding the politics and ethics of research in the social sciences.

SOCY222501
Introduction to Feminisms
Erol, Ali E
Fall 2022
Fulfills Women Writer's requirement for ENGL/LSOE majors. This introductory course offers both an overview and a foundation for understanding the various movements that make up what has come to be called the feminist movement in the U.S. Because systems of privilege and disadvantage shape women's and men's identities and social positions in multiple and unique ways, Introduction to Feminisms analyzes gender from an interdisciplinary approach and applies numerous academic disciplinary methods to the study of gender, including history, literature, psychology, and sociology, and explores women's and men's experiences within various cultural contexts, including socioeconomic class, race and ethnicity, religion and spirituality, nations of citizenship, origin, and generation.

SOCI228001
Society and National Identity in the Balkans
Dakova, Mariela
Fall 2022
An overview of ethnic, cultural, and religious diversity among peoples of the Balkans (Albanians, Bosnians, Bulgarians, Croats, Greeks, Macedonians, Romanians, Serbs, Slovenes, Jews, Turks, and gypsies [Roma]). It is a study of what constitutes the various parameters of identity: linguistic typologies, religious diversity (Catholicism, Orthodoxy, Islam, and Judaism), culture, and social class. An analysis of the origins of nationalism, the emergence of nation-states, and contemporary nationalism as a source of instability and war in the Balkans will be considered.

SOCI322201
Closed on Sundays: Religious Change in Modern Societies
Morello, Gustavo, SJ
Fall 2022
What is going on with religion in our world? How do we understand it? What is the role of religion in contemporary societies, if any? We will explore the current answers to these questions, and also devote time to reading the classics. We will explore what the 'Founding Fathers' of sociology (Marx, Durkheim, Weber, and Du Bois) had said about religion, and also study the main theoretical frameworks to understand religion from a sociological perspective: secularization and rational choice theories. Finally, we will debate new trends in understanding religion in our globalized societies. Students will gain knowledge on the classics of the sociology of religion, the main theoretical discussions, and the contemporary trends in the field. It will cover some theoretical and methodological perspectives, as well as research literature, and include different geographical and cultural region.

SOCY325401
Community Advocacy and Research Engagement
Abowd, Thomas P
Fall 2022
CARE is a two-semester course (SOCY 3254/3255) that offers leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In fall, students in SOCY3254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In the Spring, students sign up for SOCY3255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

SOCY330401
Race, Ethnicity, and Popular Culture
Uyan, Deniz
Fall 2022
To get sociology credit for the major or minor, you must register for SOCY3304. This course will examine how racial and ethnic groups have been stereotyped in popular culture and how these stereotypes have changed over time. The course will look at stereotypes of Africans, African Americans, Native Americans, Asian-Americans, Asians, and European Americans. Students will also explore theoretical questions on the relationship between culture, politics, and ideology.

Credits: 3
Room and Schedule: Mcguinn Hall 413 TuTh 03:00PM-04:15PM
Satisfies Core Requirement: Cultural Diversity
Prerequisites: Students taking this course must have taken at least one other sociology course. Familiarity with postmodernism, postcolonial studies, and gender and/or race theory suggested.

SOCY331001
Studies in Crime and Social Justice
Hedges, Jessica D
Fall 2022
Crime and social justice are considered not as distinct, but indivisible constructs produced through specific knowable institutional/personal practices. Course allows students to analyze perspectives on the process through which laws and criminal justice institutions have been/continue to be constructed; situate crime study within a "power reflexive" framework, while being attentive to the operation of race, class, and gender as features of contemporary social relations/institutions; discuss contemporary intellectual and practical efforts challenging existing conceptual and political structures relating to crime and social justice; and imagine/articulate institutions paralleling the vision of social justice developed throughout the course.

**SOCY331601**  
**The Sociology of W.E.B. DuBois**  
**Magubane, Zine**  
**Fall 2022**  
This course explores the life and theoretical works of W.E.B DuBois. It is also a historical sociology of the emergence of sociology as an academic discipline. The course explores why mainstream American sociology has been so slow to recognize the contributions of W.E.B DuBois to the founding of the discipline. The course is also a rigorous exploration of the major theories he developed with regards to racism, capitalism, imperialism, colonialism and sexism. The course concludes by exploring the enduring influence of W.E.B DuBois with a particular emphasis on how his work informed and continues to inform scholars of post colonialism, race and ethnicity, inequality, and identity.

**Credits:** 3

SOCY332201
Consumption, Health, and the Environment
Ouimette, Monique
Fall 2022
There are many health and environmental impacts associated with consumption activities, yet such impacts often remain hidden or obscured in the course of everyday life. In this applied course, students will examine health and environmental issues associated with consumption activities. Over the course of the semester, students will learn concepts from environmental health, environmental sociology, the sociology of consumption, and public policy. Each student will engage in an original preliminary research project on a contemporary issue related to consumption and environmental health. Students will develop an understanding of the power dynamics and inequalities associated with identifying, defining, managing, and mitigating the health and environmental impacts of consumption activities. Skills, perspectives, and analytic frameworks learned in this course will be useful for students in their roles as individual consumers, citizens, and professionals.

SOCY335801
Gender and Sports
Kim, Kyoung-yim
Fall 2022
This course uses sport to understand gender relations in a society. The course examines the ways that gender and intersections of race, class, and sexuality are produced by and within relations of power, and how normative definitions of gender and its intersections underpin normative practices in sport, health, and physical cultural contexts. Drawing on feminist scholarship, this course provides a critical insight into the history of gender relations, and how gender is used to reproduce and resist inequalities in sport, health, and physical culture.

SOCY335901
Sports in American Society
Kim, Kyoung-yim
Fall 2022
Sociology Majors Only; will not be offered next year. This course provides a critical entry point into the sociology of sport in American society that examines the sociological role of sport in the making of American society and culture, as well as the reverse. The purpose of the course is to better understand sport as a social institution, and to analyze the dynamic interplay of economic, political, social, and other forces within which forms of sport and physical activity have been developed, implemented, and contested in America.

Social Justice in Israel/Palestine  
Spangler, Eve  
Fall 2022  
This seminar provides the intellectual underpinnings for an immersion trip to Israel/Palestine in January. Students in this course must commit to the trip and, upon their return, to a project that uses the knowledge they gained in Israel/Palestine. The seminar will include a review of the Israeli and Palestinian history, an analysis of the contested theological claims to the land, and an examination of conflict resolving strategies focusing on cross-border groups operating in Israel/Palestine (e.g., Prime, Combatants for Peace, Parents Circle). Finally, we will consider possible economic futures for the area under both one and two state scenarios.

American Economic Crisis and Social Change  
Derber, Charles  
Fall 2022
Course is offered every semester. This course offers a new way to think about American and global capitalism, focusing on our values, our intertwined economic, environmental and social crises exploding in the 2008 Wall Street meltdown, the coronavirus economy, the new militaristic economy after the Ukraine crisis of 2022, and the extinction threats of energy and climate change. We examine economic problems include growing poverty and inequality, an insecure job market, and the failure of many of our industries and corporations to compete globally. We also examine our social crises, involving the growth of violence, family breakdown, global warming, systemic racism, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system toward a more just, sustainable and democratic economy and society.

SOCY339101
Social Movements
Kadivar, Mohammad Ali
Fall 2022
Social movements have played a major role historically, helping bring about much that is often taken for granted: democratic governance, chattel slavery's demise, women's suffrage, the 40-hour work week, and basic environmental regulations. Today, movements remain central to social change, but just as in the past, they are often denigrated, from the left and the right. This course critically surveys movements across time, space, and ideology, though we focus on the US, with particular attention to the modern climate justice movement and conservative countermovement. Students will learn concepts and tools from social movement theory while applying them experientially.

Credits: 3
Room and Schedule: Gasson Hall 204 TuTh 03:00PM-04:15PM
SOCY356201
Environmental Sociology I
Thombs, Ryan P
Fall 2022
This is an upper-division seminar that provides an overview of theoretical and empirical work in environmental sociology. After a brief introduction to the origins of the field, the seminar will cover topics that are representative of what is current in the area, especially bodies of empirical research that are national, international, and global in scope, and with particular attention given to how large-scale social institutions and organizational forms impact the environment. We will focus on the social dimensions of environmental impacts, the anthropogenic drivers of environmental impacts, and sociological research on solutions to environmental crises. A key takeaway of the course is the necessity in taking a structural approach to the study of socioenvironmental relationships. Attention will also be given to how environmental sociology makes fundamental contributions to interdisciplinary research in environmental studies and sustainability science. The course is required for all Environmental Studies majors.

SOCY358101
Mining Big Data for Social Sciences
Chen, Ruilin
Fall 2022
This course provides a hands-on, semi-technical introduction to the methods and ideas of Computational Social Science. Lying at the intersection of Computer Science, Statistics and Social Science, the emerging field of Computational Social Science uses large-scale behavioral data, otherwise known as "big data", to study and measure human behavior with precision largely thought impossible just a decade ago. Throughout the semester, we will look at some big data sources such as network data and text data and the innovative methods that are being used to analyze them. Each week, students will have the opportunity to practice different methods by using Python to analyze interesting data sets ranging from online review data collected from Yelp and Airbnb to human mobility data collected from cell-phones. While the course is open to advanced undergraduate students from all majors and disciplines, the majority of the materials will be drawn from sociology and criminology. Students are expected to have some basic understanding of quantitative methods, but no prior programming experience is required.

SOCY365201
Trauma, Culture & Coping
McGuffey, Clifton S
Fall 2022
This seminar will introduce students to various approaches to trauma and traumatic impact. The course is designed for students who seek a scholarly understanding of trauma, as well as those who plan to provide direct services (e.g., therapists, social service workers, etc.) and/or to inform policy. We will examine the sociological, psychological, and service oriented and policy implications of these approaches. Multiple types of trauma will be conceptualized and investigated. Larger socio-cultural forces will be examined in analyzing both the exposure to and recovery from traumatic events. The seminar will be highly attuned to differences based on race, class, and gender.

**Urban Sociology**
**Satcher, Lacee**
**Fall 2022**
This course examines urban lifestyles, problems, development, and change from a sociohistorical perspective. The course provides both theoretical and practical background for critical analysis of various urban conditions, wherein students can identify and apply practical solutions to these problems. A major experiential learning component is field work and ethnographic research in core urban Boston neighborhoods.

Sociology of Visual Culture: Images and Power, Resistance and Change
Pfohl, Stephen J
Fall 2022
Visual cultures are today entangled within pulsating webs of suggestive electronic imagery. Some images fascinate us. Others make us afraid. Dominant images captivate our attention in ways that are steeped in heterosexist, racialized, militarized, nationalistic, and capital-intensive coloniality. This seminar explores the iconic power of visual images in media-saturated global society. How do visual images influence our imagination of others and ourselves, our pleasures, ethics, and politics? In exploring this question, seminar participants are invited to engage with a variety of artful sociological approaches to the study of visual culture--critical perspectives on sensate ways of seeing and their power.

SOCY667001
Technology and Culture
Griffith, William
Fall 2022
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

SOCY770001  
Computational Sociology  
Fan, Wen  
Fall 2022  
This course provides a hands-on, semi-technical introduction to the methods and ideas of Computational Social Science. Lying at the intersection of Computer Science, Statistics and Social Science, the emerging field of Computational Social Science uses large-scale behavioral data, otherwise known as "big data", to study and measure human behavior with precision largely thought impossible just a decade ago. Throughout the semester, we will look at some big data sources such as network data and text data and the innovative methods that are being used to analyze them. Each week, students will have the opportunity to practice different methods by using Python to analyze interesting data sets ranging from online review data collected from Yelp and Airbnb to human mobility data collected from cell-phones. While the course is open to advanced undergraduate students from all majors and disciplines, the majority of the materials will be drawn from sociology and criminology. Students are expected to have some basic understanding of quantitative methods, but no prior programming experience is required. On top of the weekly homework, graduate students are also expected to submit a computational report at the end of the semester as the final project.

SOCY770301
Multivariate Statistics
Sarkisian, Natalia
Fall 2022
This course assumes knowledge of the material covered in SOCY7702; that is, a solid background in Stata and a relatively recent course in basic statistics. Much of the course will deal with multiple linear regression, including topics such as data preparation and transformations, analysis of residuals and outliers, interaction terms, linearity concerns, model fit, and interpretation of results. We will also introduce logistic regression, mediation and panel data analyses. This course does not require a knowledge of matrix algebra or calculus.

SOCY770601
Longitudinal Data Analysis
Sarkisian, Natalia
Fall 2022
This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The course will focus on panel data management and analysis, with topics including change models, fixed and random effects models, GEE models, and mixed models. All analyses in the course will be conducted using Stata, but no previous Stata experience is necessary.

**Social Inquiry Research Seminar**

**Sarkisian, Natalia**

**Fall 2022**

Required for graduate students. This course presents the wide range of alternative research methods available to and widely used by the social researcher. Among those considered are the following: survey research, observational field research, intensive interviewing, experimental research, historical analysis, and content analysis. Considerable attention will be given to comparisons among these alternative methods, to an assessment of the relative strengths and limitations of each, and to issues related to research design and proposal writing. In the context of these alternative research methods, attention will be given to problem formulation, measurement, reliability, validity, sampling, and ethical considerations.

SOCY771501
Classical Social Theory
Seim, Joshua D
Fall 2022
Required for graduate students. Focusing on the work of Marx, Durkheim, and Weber, the course traces the philosophic, intellectual, and social history of the ideas, themes, concepts, and schools of thought we now call "classical sociological theory." Supportive thinkers will also be discussed as they contributed to the emergence and establishment of modern sociological thought.

SOCY776101
Second Year Graduate Writing Seminar
Babb, Sarah L
Fall 2022
This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry. The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects.

Dissertation Seminar  
Sarkisian, Natalia  
Fall 2022  
This is a continuing research workshop which covers all stages of the research process, from conceptualization and theory development through data analysis and writing. The workshop is intended primarily for sociology graduate students working on dissertation proposals, dissertations, and/or comprehensive exam papers. Others will be welcomed on a case-by-case basis. The group meets bi-weekly, with individual meetings with the professor as necessary. All students who are writing dissertations are strongly recommended to enroll in this workshop, at least for one semester.

Sociology Courses: Spring 2023

SOCY100101
Introductory Sociology
Parry, Ashley
Spring 2023
Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor. This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

**Credits:** 3

**SOCY103001**  
**Deviance and Social Control**  
**Pfohl, Stephen J**  
**Spring 2023**

This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

SOCY103101
Society and Environmental Transformations
Thombs, Ryan P
Spring 2023
Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods. Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

SOCY104901
Social Problems
Uyan, Deniz
Spring 2023
This course is an exploration of different sociological approaches to the study of social problems and social trends in contemporary society. It examines the linkages between social structures/institutions, culture and human experience. The course emphasizes theoretical research issues, especially how, and to what degree, the understanding of social problems are a direct result of the processes used to define social problems as well as the research methods and procedures used to investigate them. Students will learn to critique popular discourses from a critical sociological perspective and will be encouraged to form their own opinions and critiques.

**SOCY107201**  
**Inequality in America**  
**Spangler, Eve**  
**Spring 2023**  
This course examines class inequity in American society. It not only describes how the rich, the poor, and the middle classes live, but also how they relate to one another. Topics include the strategies used by the rich for maintaining the status quo, the hopes cherished by the middle class for improving their position, and the obstacles that keep the poor in their place. Students can choose between readings that emphasize the dynamics of inequality as they are enacted by men or women, and by people of color or Caucasians.

**Credits:** 3

SOCY109201
Peace or War
Derber, Charles
Spring 2023
Offered every semester. We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World but also new conflicts with Russia and China, especially in the explosive 2022 conflict in Ukraine. In the first part of the course, we explore core theories of the roots of war and the changing international positions of Super-powers such as the US, Russia and China. In the second part, we focus on the 20th century Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism," as well as genocidal conflicts such as Rwanda and Sudan, and the Russian invasion of Ukraine. The fourth section explores the United Nations, social activism among students, and other routes to peace.Satisfies Core requirement for: Social Science

SOCY109601
Aging and Society
Best, Latrica E
Spring 2023
"Age doesn't matter unless you're a cheese," quipped actress Billie Burke (the Good Witch in *The Wizard of Oz*). Nevertheless, age does matter within societies. This class will cover specific topics in four general areas of sociological study: roles and relationships (e.g., within the family), inequalities (e.g., ageism), institutions (e.g., health care), and social change (e.g., the aging of the population). By the end of the course, you will have acquired a new approach to thinking about how you and others age in the social world and the ways in which age is portrayed in the media.

**SOCY150901**

**Planet in Peril: The History and Future of Human Impacts on the Planet**

**Parthasarathi, Prasannan; Schor, Juliet, PHD; Wright, Robin**

**Spring 2023**

The 21st century opened with crises of climate, bio-diversity, and eco-system functioning. In this class we address ecological overshoot from the perspectives of sociology and history, emphasizing the role of inequality, the state, inequality and power. The course combines contemporary analyses with a long historical record of human impact, considering both the familiar and the novel in the realm of ecological challenges. We devote substantial attention not only to causes but to solutions. Topics to be covered include: the Columbian exchange, forests, agriculture, water, climate change, toxics, and population. Solutions include state policy, social movements, individual action and social innovation.

Introduction to Social Work
Ryan, Sarah E
Spring 2023
This is a Social Work course available to undergraduate students. Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

SOCY222501
Introduction to Feminisms
Barko, Emily B
Spring 2023
Fulfills Women Writer's requirement for ENGL/LSOE majors. This introductory course offers both an overview and a foundation for understanding the various movements that make up what has come to be called the feminist movement in the U.S. Because systems of privilege and disadvantage shape women's and men's identities and social positions in multiple and unique ways, Introduction to Feminisms analyzes gender from an interdisciplinary approach and applies numerous academic disciplinary methods to the study of gender, including history, literature, psychology, and sociology, and explores women's and men's experiences within various cultural contexts, including socioeconomic class, race and ethnicity, religion and spirituality, nations of citizenship, origin, and generation.

SOCY225001
Perspectives on War, Aggression, and Conflict Resolution I
Johnson, Spencer K
Spring 2023
The Faith, Peace, and Justice Program at Boston College sponsors this course as an introduction to the field of Peace Studies. This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacebuilding.

SOCY237901
Language and Ethnicity
Thomas, Margaret
Spring 2023
An examination of how we use language to regulate power relations among social groups and of how individuals define personal identity through speech. Case studies include: the linguistic representation of social class membership, dialect geography, Native Americans and U.S. language policy, the Ebonics controversy, and arguments for and against maintaining public language standards. Emphasis on the status of language and ethnicity in the United States, viewed in cross-cultural perspective.

Tattoos and Religion. Studying a neglected spiritual practice.
Morello, Gustavo, SJ
Spring 2023
This course explores tattoos as a religious practice, from a sociological perspective. There are no previous requirements for this class; we will read some sociology classic authors during the course. We will investigate contemporary religious, spiritual tattoos in the U.S., the Americas and Europe. After paying attention to the role of tattooists, we will study Pierre Bourdieu’s field theory to discuss who has the power to define if tattoos are religious practices or not.

SOCY325501
Community Advocacy and Research Engagement
Abowd, Thomas P
Spring 2023
CARE is a two-semester course (SOCY 3254/3255) that offers leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In fall, students in SOCY3254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In the Spring, students sign up for SOCY3255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

**Race, Ethnicity, and Popular Culture**

**Magubane, Zine**

**Spring 2023**

To get sociology credit for the major or minor, you must register for SOCY3304. This course will examine how racial and ethnic groups have been stereotyped in popular culture and how these stereotypes have changed over time. The course will look at stereotypes of Africans, African Americans, Native Americans, Asian-Americans, Asians, and European Americans. Students will also explore theoretical questions on the relationship between culture, politics, and ideology.

**Credits:** 3

**Room and Schedule:** Mcguinn Hall 413 MW 11:00AM-12:15PM

**Satisfies Core Requirement:** Cultural Diversity

**Prerequisites:** Students taking this course must have taken at least one other sociology course. Familiarity with postmodernism, postcolonial studies, and gender and/or race theory suggested.

**Corequisites:** None

**Cross-listed with:** None

**Frequency:** Periodically in the Spring
SOCY330901
Restoration and Resistance: International Innovations in Criminal Justice
Hedges, Jessica D
Spring 2023
This course will enable students to develop sociologically informed, globally situated, and politically meaningful definitions of crime, punishment, and social justice by surveying international social movements and initiatives seeking criminal justice reform. At the conclusion of the course students will be expected to envision and articulate a criminal justice innovation of their own.

SOCY332201
Consumption, Health, and the Environment
Ouimette, Monique
Spring 2023
There are many health and environmental impacts associated with consumption activities, yet such impacts often remain hidden or obscured in the course of everyday life. In this applied course, students will examine health and environmental issues associated with consumption activities. Over the course of the semester, students will learn concepts from environmental health, environmental sociology, the sociology of consumption, and public policy. Each student will engage in an original preliminary research project on a contemporary issue related to consumption and environmental health. Students will develop an understanding of the power dynamics and inequalities associated with identifying, defining, managing, and mitigating the health and environmental impacts of consumption activities. Skills, perspectives, and analytic frameworks learned in this course will be useful for students in their roles as individual consumers, citizens, and professionals.

SOCY336801  
**Masculinity, Sexuality, and Difference**  
Ingram, Brett D  
**Spring 2023**
Satisfies Critical Issues Course requirement for the class of 2021 and beyond. This course will examine constructions of masculinity and sexuality in Western society from a critical cultural perspective. We will consider the ways in which cultural narratives about acceptable masculine behaviors and attitudes catalyze social conflicts, reinforce established power hierarchies, and organize the modes of being available to people of different gender identities and sexual orientations. We will also evaluate the liberatory potential of emergent discourses and practices that seek to cultivate greater acceptance of diversity, and promote social healing. There will be a concentrated focus on popular cultural forms (especially television, film, music, sports, and social media) that are particularly influential to contemporary men and boys.

**SOCY337501**
**American Economic Crisis and Social Change**
**Derber, Charles**
**Spring 2023**
Course is offered every semester. This course offers a new way to think about American and global capitalism, focusing on our values, our intertwined economic, environmental and social crises exploding in the 2008 Wall Street meltdown, the coronavirus economy, the new militaristic economy after the Ukraine crisis of 2022, and the extinction threats of energy and climate change. We examine economic problems include growing poverty and inequality, an insecure job market, and the failure of many of our industries and corporations to compete globally. We also examine our social crises, involving the growth of violence, family breakdown, global warming, systemic racism, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system toward a more just, sustainable and democratic economy and society.

SOCY340201
Comparative Revolutions
Kadivar, Mohammad Ali
Spring 2023
What are revolutions? Why do they happen? How do they happen? What are their consequences? This course critically engages with these questions, and reviews the main answers presented in the social scientific literature on the revolutions. In addition to a theoretical understanding of the revolutionary processes, the course also presents case studies of some of the classic examples of revolutions such as the Haitian and Russian revolution, as well as more recent revolutions such as the uprisings in the Arab World. Through reviewing the literature and case studies, we also examine how the meanings and dynamics of the revolutions have changed from the early 20th century to the 21st century.

Credits: 3
Room and Schedule: Stokes Hall 105S TuTh 03:00PM-04:15PM
SOCY356201
Environmental Sociology I
Jorgenson, Andrew K
Spring 2023
This is an upper-division seminar that provides an overview of theoretical and empirical work in environmental sociology. After a brief introduction to the origins of the field, the seminar will cover topics that are representative of what is current in the area, especially bodies of empirical research that are national, international, and global in scope, and with particular attention given to how large-scale social institutions and organizational forms impact the environment. We will focus on the social dimensions of environmental impacts, the anthropogenic drivers of environmental impacts, and sociological research on solutions to environmental crises. A key takeaway of the course is the necessity in taking a structural approach to the study of socioenvironmental relationships. Attention will also be given to how environmental sociology makes fundamental contributions to interdisciplinary research in environmental studies and sustainability science. The course is required for all Environmental Studies majors.

SOCY440001
Racialized Medicine  
Best, Latrica E  
Spring 2023  
This course is designed to introduce students to sociological and other interdisciplinary approaches to how race and racism are defined, employed, and contextualized in health and medicine. Though we will cover an array of theoretical perspectives regarding race and its impact on health, the core theoretical underpinnings of this course are rooted in the racialization process. The contemporary readings address four themes: theoretical and methodological perspectives of race, racism, and health, social processes and the racialization of health, health inequities across the life course, and institutional pursuits of health equity. We examine the importance of intersecting identities throughout the course.

SOCY493101
Important Readings in Sociology
Schor, Juliet, PHD
Spring 2023
This course is designed as the first in the sequence of courses required of students who have been admitted into the Sociology Department's Undergraduate Honors Program. Ordinarily, students will take this course during the spring of their junior year. The purpose of this seminar will be to read and discuss a series of books that are generally thought to be important contributions to the field. The books chosen will reflect a range of substantive issues, methodological approaches, and theoretical perspectives. The abiding question throughout this seminar class will be the following: What are the characteristics of powerful and compelling sociological work?

**Credits:** 3  
**Room and Schedule:** Stokes Hall 205S Tu 09:00AM-11:20AM  
**Satisfies Core Requirement:** None

**SOCY496301**  
**Senior Honors Thesis**  
**Morello, Gustavo, SJ**  
**Spring 2023**  

After having completed their research proposal in SOCY4961, Students in the Undergraduate Sociology Honors Program then complete the data collection, the analysis, and the writing of their senior thesis during the spring of the senior year. In SOCY4963.01 students complete their thesis research under the direction of their faculty advisor.Ordinarily, students are expected to complete their thesis by April 15, approximately two weeks before all senior honors students present the findings of their research in a public meeting.

SOCY553001
Studies in Crime, Deviance, and Social Control
Pfohl, Stephen J
Spring 2023
This seminar involves a critical sociological exploration of social control and the deviance that powerful forms of control exclude, marginalize, and silence. How do gendered, class-based, and racialized formations of power influence what society views as normal and what it labels as deviant? What prompts people to resist dominant rituals of social control? Of particular concern are new global technologies of control and resistance; racialized policing and mass incarceration; the management of madness; omnipresent surveillance; elite and governmental wrongdoing; and the global trafficking of people, sex, drugs, body parts, weapons, terrorism, and mesmerizing media images that fascinate and create fear.

Contemporary Race Theory
Magubane, Zine
Spring 2023
To get sociology credit for the major or minor, you must register for SOCY5597 rather than cross-listed course. This class will explore how various contemporary writers engage with the question of race, both in the United States and transnationally. We will look at social constructionist theories of race, postmodernism, feminist theory, critical legal studies, and the intersection between contemporary race theory and queer theory.

SOCY667001
Technology and Culture
Griffith, William
Spring 2023
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

SOCY767701
Social Movements Graduate Seminar
Kadivar, Mohammad Ali
Spring 2023
Contentious politics and social movements have exerted a significant influence on politics and society across the globe over the last two centuries. What are the conditions under which people protest and sustain contentious collective action? When social movements emerge how do they evolve? What are the consequences and impacts of protest and social movements? These are some of the main questions that structure this course. In this course, we particularly adopt a global perspective with an emphasis on protest in the global south, but also pay attention to major studies of social movements in the US.

Room and Schedule: 245 Beacon Street Room 102 MW 09:00AM-10:15AM
SOCY770401
Regression Models for Categorical Data
Fan, Wen
Spring 2023
This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The major topics of the course will include OLS regression diagnostics, binary, ordered, and multinomial logistic regression, models for the analysis of count data (e.g., Poisson and negative binomial regression), treatment of missing data, and the analysis of clustered and stratified samples.

SOCY771101
Empirical Research Seminar
Babb, Sarah L
Spring 2023
This course guides first-year sociology graduate students into launching an effective scholarly research project. Students revise and/or make progress on the projects they proposed in SOCY7710, read and analyze multiple examples of methods in action,” and peer-review their classmates’ work. Students also conduct multiple exercises designed to better understand different ways to do effective sociological research. Prerequisite for SOCY7711 is a grade of "B" or better in SOCY7710

**SOCY771601**  
**Contemporary Social Theory**  
**Seim, Joshua D**  
**Spring 2023**  
Required for graduate students. This seminar is a graduate level introduction to contemporary social theory. It concerns the historical context and development of a wide variety of perspectives used by social theorists to make sense of multiple social worlds. It also concerns the ways in which social theories are themselves sociologically constructed. Theoretical frameworks addressed include: functionalism and cybernetics; symbolic interactionism and pragmatism; exchange, behavioral, and conflict perspectives; feminism; Marxism; phenomenology and ethnomethodology; critical race theory; queer theory; structuralism and poststructuralism; as well as postcolonial and postmodern theories of the subject and power.

SOCY776101
Second Year Graduate Writing Seminar
Babb, Sarah L
Spring 2023
This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry. The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects.

SOCY777901
Environmental Sociology Workshop I
Schor, Juliet, PHD
Spring 2023
The environmental sociology workshop is a bi-weekly, two-semester workshop facilitated by faculty in which students meet, discuss, and present their work and occasionally read recent articles or books in the field. Students interested in completing a thesis, area exam, or dissertation in environmental sociology are expected to participate. SOCY7779 is a one-credit course suitable for PhD students beyond coursework, who can register for SOCY7779 in lieu of Doctoral Continuation. For the three-credit version, see SOCY7780.

SOCY998101
Dissertation Seminar
Sarkisian, Natalia
Spring 2023
This is a continuing research workshop which covers all stages of the research process, from conceptualization and theory development through data analysis and writing. The workshop is intended primarily for sociology graduate students working on dissertation proposals, dissertations, and/or comprehensive exam papers. Others will be welcomed on a case-by-case basis. The group meets bi-weekly, with individual meetings with the professor as necessary. All students who are writing dissertations are strongly recommended to enroll in this workshop, at least for one semester.

ARTS111501
Imagination and Creativity in Irish Landscapes
Ivy, Candice M
Summer 2022
This hands-on study abroad course is open to students of all levels of artistic background and areas of concentration. This course comprises a uniquely immersive and field-based study at the Burren College of Art--based within the renovated remains of a sixteenth-century castle on the west coast of Ireland. The surrounding landscape is the Burren, a one-of-a-kind ecological land mass of limestone, formed under an ancient ocean, and fostering ecosystems containing flora and fauna unique to the area. Culturally, the region is home to numerous unearthed remains of historical dwellings, tombs, and artifacts, which further sculpt the terrain. Through individual and collaborative creative projects using a variety of media, students use the terrain to investigate, question and expand upon firsthand observation and analysis of relationships between cultural and natural systems. Course content will consist of trips to regional sites, field based research, creative workshops, lectures and art production supported by local ecologists, artists, story-tellers and historians.

**Credits:** 3

**ARTS115601**  
**Introduction to Photoshop and Illustrator**  
**Cole, Caleb**  
**Summer 2022**

This is a course to explore, critique and produce 2D digital media projects. Through critical research, students garner insight into what specifically intrigues them about an artwork, and how to utilize these ideas in their own work. The class will focus on design and production in Adobe Photoshop and Illustrator. Students will become familiar with digital illustration, design, photo manipulation, compositing, and printing. All assignments must be accompanied with evidence of research, and the class will be treated as a portfolio class.*Does not fulfill Arts Core requirement.

ARTS116301
Introduction to Digital Photography
Muldowney, Greer R
Summer 2022
Students must have a digital camera, and a laptop for classes. In this course, students will become familiar with how to create a photograph with a digital camera, and how to use photographic techniques to control the look of an image through post-production techniques. These will be developed with good digital asset management practices by using Adobe Photoshop. Students will also learn an introduction to photographic history and visual literacy. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. All those participating will need to have a DSLR that shoots in RAW and is at least 10 megapixels to take this course.*This course does not fulfill the Arts Core

ARTS116302
Introduction to Digital Photography
Muldowney, Greer R
Summer 2022
Students must have a digital camera, and a laptop for classes. In this course, students will become familiar with how to create a photograph with a digital camera, and how to use photographic techniques to control the look of an image through post-production techniques. These will be developed with good digital asset management practices by using Adobe Photoshop. Students will also learn an introduction to photographic history and visual literacy. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. All those participating will need to have a DSLR that shoots in RAW and is at least 10 megapixels to take this course.*This course does not fulfill the Arts Core

ARTS225001
Graphic Design
Reeves, Brian A
Summer 2022
This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems, including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

**Issues and Approaches to Studio Art**  
**Cooper, Mark**  
**Fall 2022**  
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

**Design: Seeing Is Believing**  
Weisberg, Debra  
**Fall 2022**  
Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks "good" without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110501  
**Making Prints/Making Books: An Introduction to Printmaking and Book Arts**  
Stigliano, Stephanie  
**Fall 2022**
In this course, students will be introduced to the world of printmaking and book arts through practical, hands-on assignments. Students will learn to make relief prints, and will leave the class with a book designed from their prints. Art in book form tells a story with words, images, structure, and material. The developmental process of making a print is akin to the building of a narrative. Both of these graphic arts have existed in tandem throughout history. They are ways to communicate ideas to a broader public, so it makes sense to explore them together in the classroom. Students who are just learning to draw and accomplished draftsmen can both benefit from making prints and books. Each assignment will balance technical, conceptual, and formal goals. We will discuss the design basics of line, shape, texture, light and shadow, space, and composition. The printmakers will create series, sequences, and variations on a theme. We will look at books and prints from different eras and cultures, and take advantage of the college’s numerous collections. There will be written components, such as an observational response to a single print and a reflection on an individual book work. The students will present their artwork as the focus of group discussion and critique. Additionally, they will receive individual feedback during each class meeting.

ARTS110901
Design is Human
Burns, Jennifer L
Fall 2022
Design today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

**Innovation through Design Thinking**

Rutirasiri, Chokdee R

**Fall 2022**

Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

ARTS220601  
Drawing 2: The Art of Portraiture  
Chong, Sammy  
Fall 2022

Classroom activities will include demonstration, lecture, and critiques. Basic drawing skills are strongly recommended. This drawing course focuses on the genre of portraiture, both in theory and in practice. The Mona Lisa, carnival portraits, and everything in between they all share the same initial approach to the figure. We will first hone in on the structure of the head. From there, we will use value, shapes, and color to create strong portraits with charcoal, gouache, and watercolor pencils. Along with traditional methods we will explore contemporary approaches to portraiture, with differing uses of format, composition, and color schemes.

ARTS220701
Urban Design for Complexity and Sustainability
Littell, Matthew
Fall 2022
The course explores the changing demands on urban environments in the twenty-first century and the newest policies, technologies, and design approaches that are being developed to address them. Topics will include analyses of the factors that shape the physical form of cities, including zoning and regulatory contexts, real estate development patterns, transportation infrastructure, environmental challenges, and aesthetics. The material will be introduced as case studies and surveys, with presentations by design professionals, city officials, and real estate developers. Students will gain literacy in zoning, real estate metrics, planning, and issues related to architectural design and large scale urban design. The semester will conclude with a final project synthesizing many of the topics covered.

ARTS223501
Intermediate Digital Art: Animation
Friedman, J Georgie
Fall 2022
This course will offer an introduction to understanding new and experimental approaches to creating animations. Through screenings, class discussions, and critiques students will analyze aesthetics, concepts and harbor their own, to be made apparent in their assignments. In learning the time-based program Adobe After Effects students will learn how to edit, layer, create, and generate material. Students will gain an understanding of animation, motion graphics, and post-production techniques. Areas covered include gifs, storyboarding, special effects, text animation, and short-form narrative.

**Credits:** 3

**Room and Schedule:** Devlin Hall 401F Tu 09:00AM-12:00 Noon

Fall 2022
An introductory studio course in the theory, methodology, methods, and techniques related to architecture design. Through a series of lectures, discussion, in-class exercises, and take-home assignments, including drawing, CAD, and model-making, students will develop the basic competency to solve a pre-determined architecture design problem. By the end of the course students will have produced a graphic, 3-D and written representation of their design solution and make a public presentation.

ARTS225701
Costume Design
Burgess, Quinn M
Fall 2022
ARTS226101
Intermediate Photography: Techniques, Formats
Muldowney, Greer R
Fall 2022
This course will focus on understanding and mastering the aesthetic and technical relationships among light, film, and camera, and emphasizes the development of a personal photographic vision. The class will serve as a forum for demonstrating photographic processes and equipment, critiquing work, and examining the work of contemporary artists and traditional masters within the medium to develop a visual literacy. Students are expected to produce work in series and to present a final portfolio. This course requires additional work outside of class time.

Credits: 3
Room and Schedule: Devlin Hall 9 Th 02:00PM-05:00PM
Satisfies Core Requirement: Arts
Prerequisites: Prerequisites: Photography I (ARTS1161), Intro to Digital Photography (ARTS1163), or with permission of the instructor after portfolio review

ARTS330601
Drawing 3: Expanded Practice
Austen, Hartmut
Fall 2022
Fresh ideas and approaches to drawing are essential for the creative development of a department and its students. This class will explore both traditional and new conceptions of what drawing can be. We will conduct our investigation using traditional materials as well as new media in the service of crossing and pushing established boundaries. Utilizing and deepening our understanding of "mark-making" we will further explore drawing's breath and expanse across disciplines as well as its potential to expand on the what it means to 'draw from observation'.

Credits: 3
Room and Schedule: Devlin Hall 413 M 02:00PM-05:00PM
Satisfies Core Requirement: None
Prerequisites: Two previous studio classes (one in drawing) or permission of instructor.
ARTS332101
Painting 3: Layered Image
Lacey, Sharon
Fall 2022
This is a hands-on painting course that explores ways to develop and construct new imagery. We will seek challenging approaches to the organization and composition of painting space through layered and juxtaposed images. The many possible sources for imagery may include, but are not limited to, personal memorabilia, cultural references, museums of science and natural history, text and the internet. Class time is organized around painting, complemented by slide lectures, critiques, readings, and gallery visits.

Issues and Approaches to Studio Art
McLeod, Marla L
Spring 2023
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

Design: Seeing Is Believing
Weisberg, Debra
Spring 2023
Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks "good" without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110501
Making Prints/Making Books: An Introduction to Printmaking and Book Arts
Stigliano, Stephanie
Spring 2023
In this course, students will be introduced to the world of printmaking and book arts through practical, hands-on assignments. Students will learn to make relief prints, and will leave the class with a book designed from their prints. Art in book form tells a story with words, images, structure, and material. The developmental process of making a print is akin to the building of a narrative. Both of these graphic arts have existed in tandem throughout history. They are ways to communicate ideas to a broader public, so it makes sense to explore them together in the classroom. Students who are just learning to draw and accomplished draftsmen can both benefit from making prints and books. Each assignment will balance technical, conceptual, and formal goals. We will discuss the design basics of line, shape, texture, light and shadow, space, and composition. The printmakers will create series, sequences, and variations on a theme. We will look at books and prints from different eras and cultures, and take advantage of the college's numerous collections. There will be written components, such as an observational response to a single print and a reflection on an individual book work. The students will present their artwork as the focus of group discussion and critique. Additionally, they will receive individual feedback during each class meeting.

Design today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

**Innovation through Design Thinking**

Rutirasiri, Chokdee R

Spring 2023
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Introduction to Photoshop and Illustrator
Cole, Caleb
Spring 2023
This is a course to explore, critique and produce 2D digital media projects. Through critical research, students garner insight into what specifically intrigues them about an artwork, and how to utilize these ideas in their own work. The class will focus on design and production in Adobe Photoshop and Illustrator. Students will become familiar with digital illustration, design, photo manipulation, compositing, and printing. All assignments must be accompanied with evidence of research, and the class will be treated as a portfolio class.*Does not fulfill Arts Core requirement.

This is a course to explore, critique and produce 2D digital media projects. Through critical research, students garner insight into what specifically intrigues them about an artwork, and how to utilize these ideas in their own work. The class will focus on design and production in Adobe Photoshop and Illustrator. Students will become familiar with digital illustration, design, photo manipulation, compositing, and printing. All assignments must be accompanied with evidence of research, and the class will be treated as a portfolio class.*Does not fulfill Arts Core requirement.

ARTS116101
Photography I
Muldowney, Greer R
Spring 2023
This course is an introduction to 35mm black and white photography, with particular emphasis on exploring the potential of the photographic image and its related light-sensitive materials. Topics to be covered include exposure, film development, printmaking, and mounting for presentation. Class time will be devoted to slide lectures on the work of historical and contemporary visual artists, critiques of student work, and darkroom demonstrations. Students will have weekly photographing and printing assignments, and a final project portfolio. This course requires additional work outside of class time.

ARTS116301
Introduction to Digital Photography
Muldowney, Greer R
Spring 2023
Students must have a digital camera, and a laptop for classes. In this course, students will become familiar with how to create a photograph with a digital camera, and how to use photographic techniques to control the look of an image through post-production techniques. These will be developed with good digital asset management practices by using Adobe Photoshop. Students will also learn an introduction to photographic history and visual literacy. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. All those participating will need to have a DSLR that shoots in RAW and is at least 10 megapixels to take this course.*This course does not fulfill the Arts Core

**ARTS220801**  
**Drawing the Figure (Drawing II): Observation to Expression**  
**Chong, Sammy**  
**Spring 2023**  
Together we will venture into a world of the body as represented through drawing materials on 2D surfaces. You will learn techniques and approaches to drawing the figure and will work in the studio from a live model. Studio work include: drawing the body; revise those ideas; developing finished drawings; researching historical and contemporary innovations and doing creative copies of these master works; working from memory and contextualized imagination; translate sensory experience through the representations of the body.

**Credits:** 3

ARTS222301
Painting 2: Observation and Abstraction
Austen, Hartmut
Spring 2023
This intermediate level course reviews and expands on fundamental painting skills acquired in the foundation painting course primarily with oil paint. Students work on assigned and individual projects that highlight both historical and contemporary methods and concepts of the discipline. Some projects are based on direct observation while others utilize found images, memory and imagination in order to promote the development of a personal and expressive painting style.

**Credits:** 3

ARTS223601
Digital Art: Print-Based Media
Dept, Dept;Engstrom, Courtney M
Spring 2023
This intermediate level course builds on the foundational skills taught in the introductory Photoshop, Illustrator, and Digital Photography courses, with an emphasis on developing students artistic ideas, personal style, and technical printing skills. The class introduces students to a variety of digital printing materials, which can range from fine-art papers, transparencies, adhesive papers, canvas, fabrics, etc. Technical demonstrations will help students refine their skills for creating high-resolution images in Photoshop and Illustrator; large-format printing; print color correction; etc. Based on the best format for students artistic ideas, projects may range from stand-alone images, sequence/multiples, artist books, interdisciplinary collage works, laser cutting, print-based installation pieces, etc.

ARTS225001

Graphic Design

Reeves, Brian A

Spring 2023

This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems, including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

Stage Design I

Tiala, Crystal

Spring 2023
This course will concentrate on contemporary professional design practices and theories for the stage. Students will study the evolution of theater design and will investigate the development of imagistic design forms, produce effective spatial environments and create ideas through rigorous research of imagery. Processes will include script analysis and the study of imagery as well as techniques in drafting and model building.

ARTS228701
Creative Webdesign
Brewer, Kristoffer T
Spring 2023
This introductory course will provide art students the basic skills to extend their art to the internet allowing them to create an online portfolio and artistic presence, learn how to promote and market their art, and more. Digital design, how to take physical art and make it digital, an introduction to open source (community based and free) Content Management Systems (CMS) such as Drupal, along with design coding skills (Cascading Style Sheets - CSS), and more will be taught. No prior experience or prerequisites required.

ARTS330501
Advanced Graphic Design: Typography & Publication
Reeves, Brian A
Spring 2023
This course provides a conceptual, aesthetic, and technical immersion into the appreciation, use, and creation of typefaces on behalf of print and screen-based work. Students engage in critique and discussion as they work independently and collaborate to conceive and design compelling projects, including an exhibition catalog. Emphasis is placed upon both experimentation and fine-tuning with enhanced sensitivity to typographical factors affecting legibility and perception. Students gain a contemporary and historical awareness of the subtleties of various letterforms and of the people and contexts from which they arose. Tools used will include Adobe InDesign and Illustrator, open-source-type design tools, and an online portfolio site of their choosing. While no prior coding experience is required, simple markup and styling for web display will be explored. For proofing and final output of print-based projects, students will be expected to use lab printers and the on-campus printing service. Pre-requisite: ARTS 2250: Intro to Graphic Design or the equivalent. Students with experience using Illustrator and InDesign who feel qualified, but haven’t taken ARTS2250, may contact the instructor with a statement of interest and portfolio of their work.

ARTS331901
Advanced Digital Media, Moving-Image Projects
Friedman, J Georgie
Spring 2023
This class is for advanced digital-media art and film students working in any moving-image medium (video art, experimental film, animation, programing-based imagery, video and performance, etc.) to refine and develop their ideas, skills, and presentation methods. This class is highly recommended for all Art Majors/Minors who want to incorporate moving-image elements into their thesis work. Though a variety of advanced techniques in Adobe Premiere, After Effects, and other programs will be demonstrated, students are REQUIRED to be proficient with the equipment and programs used in their type of moving-image production. Based on individual goals set in the beginning of the semester, students are expected to complete 3-4 short to medium pieces, or one larger piece over the semester. Students are asked to investigate methods for moving-image presentation and viewer experience/interaction beyond the traditional "movie" screen or monitor, including: multi-channel works; object-based or site-specific video installations; interactive pieces (triggered by motion, sound, or physical inputs); or mobile based pieces that utilize geo-location or augmented reality; etc. Based on a students goals, independent research and skill building may be required. Class sessions will be a mix of screenings, reading discussions, technical demonstrations, in-class work time, peer workshopping, and class critiques of students' projects. Artist talks or exhibition visits may be assigned, based on local event programming. The goal of this class is for students to refine their concepts, polish their formal and technical skills, and make deliberate presentation choices, so all elements add meaning to their moving-image works.

Credits: 3

ARTS332801
Senior Minor Project
Chong, Sammy
Spring 2023
This course is limited to Studio Art Minors in their senior year or by permission of the instructor. This course comprises hands-on studio work and readings that address contemporary issues in the visual arts. It is an upper level class for those with a serious interest in art making and visual thinking. Students are expected to work in a medium of their choice with which they are familiar. Studio assignments will be developed out of the issues explored in the readings. Students are expected to produce a body of studio work and to make an oral presentation that situates their work in relation to the topics under investigation.

ARTS333501
Advanced Digital Design: Designing Spaces
Cook, Morgan M
Spring 2023
Preference will be given to majors and minors in Studio Art. This course explores the possibilities of using 3D modeling software to design and describe 3D spaces and objects. Beginning with a solid foundation in the principles of architectural drawing and 3D modeling, students will develop their spatial design skills and build software proficiency in parallel through creative projects, readings, and short essays. Students will draw on their personal experiences of the built environment to create new 3D works. Key course concepts will be drawn primarily from the fields of architecture and sculpture, with additional materials from the fields of art and architectural history, photography, industrial design, and graphic design. This course provides an opportunity for upper-level art students interested in design to create a large amount of portfolio-quality work, and final projects are student-driven. Students should have a working knowledge of the Adobe Creative Suite before taking this course.

ARTS336101
Intermediate Photography: Conceptual and Studio
Muldowney, Greer R
Spring 2023
This production course explores the potential of the photographic medium through both color and black and white pictures. Working with current photographic digital imaging technology and techniques, students will advance their skills in digital-image capture and high-quality output as well as analog printing. Lectures and assignments will concentrate on both traditional photographic-based picture making and digital technologies. Students will be expected to develop their own project ideas and to work in series. This course requires additional work outside of class time.

Theatre Courses: Summer 2022

THTR117001
Introduction to Theatre
Cronin, Brian P
Summer 2022
This is a survey course for primarily non-majors. Its aim is to impart an appreciation of the theatre as an artistic and humanizing experience. There will be discussion of the various elements that contribute to the development of theatre as a specialized art form including historical and cultural influences, staging styles and techniques, and the multiple genres of dramatic writing. Several plays illustrating the above will be read and attendance at selected performances is required.

THTR337201
Contemporary Theatre and Drama in London
Cummings, Scott T
Summer 2022
This site-based, four-week, summer course abroad examines the current theater scene in London and the artistic and historical legacy that has led to it. Through attending plays, visiting historical and cultural landmarks, classroom lecture and discussion, and writing exercises, we will study representative plays from the Elizabethan era up to the present day. Particular emphasis will be placed on the theatre of William Shakespeare and on recent trends in British playwriting. While the course is classroom-based, our primary 'text' will be the city of London itself, the theatre capital of the English-speaking world. Attending theatre productions (and writing and talking about them) is central to the course.

### Theatre Courses: Fall 2022

**THTR101101**  
**Theatre Production Lab I: Scenery Run**  
**Swift, Russell L**  
**Fall 2022**  
The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to scene shifting, prop running, rigging, and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

THTR101201
Theatre Production Lab I: Wardrobe Run
Burgess, Quinn M
Fall 2022
The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. For this lab, through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to wardrobe and makeup. In a semester, students will work on one departmental production during dress rehearsals and performances. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

THTR101301
Production Lab: Acting Practicum
Jorgensen, Luke R
Fall 2022
Theatre majors who have been cast in a role of significant size in a faculty directed Theatre Department production may use the role for one credit counting towards their production lab requirement. The actor must perform all duties of the role in a professional manner. The director of the production will typically serve as the teacher of record. Selected roles counting toward credit will be determined by the Theatre Department in advance of auditions.

THTR101801
Elements of Theatrical Design Lab
Burgess, Quinn M; Swift, Russell L
Fall 2022
This lab is required to be taken concurrently with THTR1140. Students will be assigned to a backstage crew for one of the shows during this semester to learn the processes and procedures for running a live theater performance. This one-credit lab will count toward the production lab requirement for majors and minors.

THTR102101
Theatre Production Lab II: Scenery and Paint Prep
Swift, Russell L
Fall 2022
The Scenery Construction and Scenic Paint Prep Lab will introduce students to the skills necessary to construct, rig, and load-in scenery; layout and paint scenery; be introduced to the variety of tools and techniques used in scene painting and construction. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production. Skills will be developed in construction techniques that include wood working, metal working, fabric manipulation, and rigging, design layouts, painting on large scale, and more. Safety procedures that relate to these areas will be taught and practiced. Students will work on departmental productions during the semester. The work that students do will vary and will be determined by that student's individual abilities and interest, as well as the needs of the specific production that we are working on. Discuss paint or construction preferences with the instructor. Students will complete 26 hours of lab work over the course of the semester. No previous experience is required.

THTR102201
Theatre Production Lab II: Costumes Prep
Azevedo, Jesse
Fall 2022
The Costume Shop Prep Lab will introduce students to basic hand and machine sewing skills through hands-on training and practice in cutting and sewing. Students will use these skills in the preparation of costumes for theatre department productions during the semester. The work that students do on those productions will vary by student and will be determined by the needs of the productions and individual abilities and interest. Students sign up for weekly hours in the shop.

THTR102701
Theatre Production Lab II: Dramaturgy
Cummings, Scott T
Fall 2022
The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

THTR103101
Theatre Production Lab III: Assistant Scenic Designer
Tiala, Crystal
Fall 2022
For this lab, students will assist the scenic designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the scene shop. They will assist with such activities as research, the creative development of the design idea, model building, drafting, properties research, and interacting with the scene shop and scenic painters.

THTR103901
Theatre Production Lab III: Assistant Stage Manager
Traub, Adele N
Fall 2022
Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901
Advanced Production Lab: Stage Manager
Traub, Adele N
Fall 2022
Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR112001
Elements of Dance
Kim, Sun Ho
Fall 2022
This course is designed to develop the student's knowledge and experience of dance as an art form. The elements of dance used in ballet, modern and jazz will be introduced along with the principles of composition. The aesthetics of dance as an art form will also be studied. Students will be reading texts as well as viewing dance works in live performance and on video. This course will provide a groundwork for students who wish to do further work in technique, composition, and performance.

THTR114001
Elements of Theatrical Design
Adelberg, Jeff; Burgess, Quinn M; Tiala, Crystal
Fall 2022
This course is designed for majors and minors. Minors, please get permission from Theatre Department to enroll. This course introduces students to the design and composition of the stage: scenic, lighting, costume, and sound. By the end of the class students will have a working knowledge of the processes involved in design and will have the ability to effectively compose and design visual and audial components of a performance. The class will utilize creative and collaborative processes that can be applied to any creative work. It is recommended for anyone interested in design and directing. Students must also enroll in the associated one-credit lab THTR1018. Required for Theater Majors.

Introduction to Theatre
Thompson, Susan W
Fall 2022
This is a survey course for primarily non-majors. Its aim is to impart an appreciation of the theatre as an artistic and humanizing experience. There will be discussion of the various elements that contribute to the development of theatre as a specialized art form including historical and cultural influences, staging styles and techniques, and the multiple genres of dramatic writing. Several plays illustrating the above will be read and attendance at selected performances is required.

**Credits:** 3

Dramatic Structure and Theatrical Process
Cummings, Scott T
Fall 2022
This foundational course provides a thorough introduction to theatre and drama study. It is geared towards, though not limited to, Theatre majors (or prospective majors) in their first year. Dramatic texts are studied as blueprints for performed events. Students will read a wide range of plays in order to develop play analysis skills and to gain an awareness of how structure shapes meaning. Fundamental aspects of theatrical process and production are also taken into consideration.

THTR170301
Performing the Immigrant Experience
Stahl, Megan E
Fall 2022
The show-stopping lyrics, "Immigrants: We get the job done," are from the Broadway smash *Hamilton*. The production's resonance with our contemporary zeitgeist serve as a potent reminder that the history of the United States is truly a story of immigrants. This course examines the impact that such immigrant experiences have had on the narratives told in American theatre, and analyzes the ways in which diasporic communities have used the stage to challenge the power dynamics of a dominant cultural hierarchy. Through the plays and theatrical movements studied in class, students will investigate the construction and performance of immigrant identities by Irish, Italian, Jewish, African, Asian, Latinx, and Middle Eastern theatre practitioners in the United States.

Acting II: Voice, Speech and Text
Riggin, Patricia
Fall 2022
Voice and speech are major tools not only for actors but for anyone who wants to communicate more effectively. In this course, the essential workings of the human voice, methods to free it from tensions and habits, ways to achieve a stronger and healthier voice, and exercises to develop its power and agility are explored through a series of vocal/physical exercises. This work is applied to theatrical texts throughout the semester. An awareness of the magnificence of the vocal instrument and a greater range of expressiveness with this gift are nurtured in this class.

THTR223901
Stage Management Basics
Traub, Adele N
Fall 2022
This course is a lecture/laboratory course with the major emphasis on the practice and application of the art and science of stage management. Course work will include a thorough investigation of the theory and principles of human resource management, as well as technical production. Discussions will include production preparation, rehearsal management, union rules, working relationships, and all essential skills of a professional stage manager. Special emphasis will be placed on the application of theory to actual stage management situations.

History of Theatre I
Hecht, Stuart J
Fall 2022
This course follows the simultaneous development of the actor, playwright, architect, and director from the Egyptian theatre through to the Elizabethan and Jacobean theatre. The course will also study the development of dramatic structure and form over time. In a larger sense, it will examine the role and function of theatre in each successive society, determining how the stage reflects the social, political, and cultural concerns of each age.

THTR228601
The Chorus, Ancient and Modern: Forms of Communal Performance and the Body Politic
Sapsford, Thomas D
Fall 2022
This course investigates a particular form of cultural institution developed in ancient Greece, the chorus. It begins by exploring how the ancient chorus both praised and questioned the political systems that facilitated it before considering how choral performance in the modern period has been an effective tool for propaganda, revolt, and riot. Alongside works by ancient Greek poets, students look at a range of modern performance genres such as opera, ballet, sporting ceremonies, Broadway musicals, and flash mobs. Students also gain experience of communal performance themselves through participation in a series of practical movement and singing workshops.

THTR334701
Costume Design
Burgess, Quinn M
Fall 2022
Students are not required to have advanced drawing skills to take this class. There are several class sessions devoted to learning and practicing drawing and painting techniques. The art of costume design integrates artistic imagination with the practical concerns of theatrical production. The course is designed to help students develop the fundamental skills used by costume designers, focusing particular attention on character analysis, period research, and visual communication. The course will include a series of exercises and projects to develop skills in figure drawing, rendering in various media, fabric selection and color. Students will learn how to communicate character, mood and style through costume following two learning tracks: (1) developing the concept and theory of the design and (2) communicating the design through figure drawing and rendering.

THTR334901
Lighting Design for the Stage
Adelberg, Jeff
Fall 2022
This hands-on course serves as a foundation in the art and science of creative lighting design. Learn how to use light the way artists, scenographers, designers, filmmakers, photographers, directors, architects, and numerous others do every day: to effectively tell a story. Introductory exercises in perception and psychology will lead to intensive experimentation with various sources of light to create 2D images or 3D environments. Composition, form, color, time and movement will be explored, as well as the basics of lighting technology.

THTR336201  
Playwriting I  
Cummings, Scott T  
Fall 2022  
This writing-intensive course offers a practical introduction to the art and craft of writing for performance. Students will engage in numerous writing exercises that highlight the special demands and opportunities of writing for the stage. Emphasis is placed on finding ways to contact and release the theatrical imagination and on mastering the basics of writing a solid dramatic scene. Exemplary plays by established playwrights will be studied as appropriate, but the overwhelming emphasis is on student writing.

THTR337801
Creative Dramatics
Jorgensen, Luke R
Fall 2022
This class investigates the power of drama to educate, inspire and empower the individual. The course focuses on drama pioneers whose work crosses over borders between the fields of education, theater, drama therapy and social justice. This is a hands-on investigation of theories and techniques and will include working with local middle school students to observe and apply ways of making drama with adolescents. Creative Dramatics is essential for activists, directors and for teachers in obtaining additional certification to teach drama. Subjects include storytelling, improvisation, Commedia Dell’Arte, drama therapy, Theatre of the Oppressed, and Theatre for Youth. It examines the work of Viola Spolin, Augusto Boal, Winifred Ward, Jerry Grotowski, and Jacob Moreno.

THTR339001
Critical Perspectives
Mohler, Courtney
Fall 2022
Through thoughtful exploration of key texts, students will be introduced to myriad theatrical traditions of the world. Lectures, assignments and in-class discussions will give students the tools to analyze the structure, style, and themes of a given text as a blueprint for performance. In order to understand the significance of the playwrights thematic and stylistic choices, we must understand the historical, cultural, and political context in which they wrote. To this end, we will critically engage with selected historical and contemporary analyses that illuminate key aspects of the works and corresponding dramatic traditions.

Theatre Courses: Spring 2023

THTR101101
Theatre Production Lab I: Scenery Run
Swift, Russell L  
Spring 2023  
The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to scene shifting, prop running, rigging, and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

Burgess, Quinn M; Swift, Russell L
Spring 2023
This lab is required to be taken concurrently with THTR1130. Students will be assigned to a backstage crew for one of the shows during this semester to learn the processes and procedures for running a live theater performance. This one-credit lab will count toward the production lab requirement for majors and minors.

The Scenery Construction and Scenic Paint Prep Lab will introduce students to the skills necessary to construct, rig, and load-in scenery; layout and paint scenery; be introduced to the variety of tools and techniques used in scene painting and construction. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production. Skills will be developed in construction techniques that include wood working, metal working, fabric manipulation, and rigging, design layouts, painting on large scale, and more. Safety procedures that relate to these areas will be taught and practiced. Students will work on departmental productions during the semester. The work that students do will vary and will be determined by that student's individual abilities and interest, as well as the needs of the specific production that we are working on. Discuss paint or construction preferences with the instructor. Students will complete 26 hours of lab work over the course of the semester. No previous experience is required.

Theatre Production Lab II: Costumes Prep
Azevedo, Jesse
Spring 2023
The Costume Shop Prep Lab will introduce students to basic hand and machine sewing skills through hands-on training and practice in cutting and sewing. Students will use these skills in the preparation of costumes for theatre department productions during the semester. The work that students do on those productions will vary by student and will be determined by the needs of the productions and individual abilities and interest. Students sign up for weekly hours in the shop.

Theatre Production Lab II: Dramaturgy
Mohler, Courtney
Spring 2023
The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

**Theatre Production Lab III: Assistant Costume Designer**

**Burgess, Quinn M**

**Spring 2023**

For this lab, students will assist the costume designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the costume shop. They will assist with such activities as research, pulling from stock, shopping, special construction projects, wigs, ensemble costuming, and being a liaison during dress rehearsals. Students will work on one departmental production during the design process through dress rehearsals. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal.

THTR103901
Theatre Production Lab III: Assistant Stage Manager
Traub, Adele N
Spring 2023
Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901
Advanced Production Lab: Stage Manager
Traub, Adele N
Spring 2023
Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

**Ballet II**  
**Takaishi, Amane**  
**Spring 2023**  
This course is designed for an intermediate level. All levels are welcome. The aim of the class is to develop strength, flexibility, and alignments. New concepts of ballet introduced are coordination and musicality within exercises at the barre and center practice. Exercises across the floor incorporate bigger jump steps in allegro and traveling turning steps such as piques. Students learn a group dance and a solo variation from classical ballet repertories. The Dance Anatomy course is recommended to help your understanding of ballet movements.

THTR113001
Elements of Stagecraft
Burgess, Quinn M; Swift, Russell L; Tiala, Crystal
Spring 2023
This course is required for theatre majors and minors, but it is also open to interested non-majors by permission. Minors please get permission from Theatre Department for registration. This course introduces the craft, skill, and safety of technical theatre production. Students will learn the basics of professional practices of the theater industry behind the scenes. A significant portion of time will be spent in the theater workspaces learning common practices of production. Students will be exposed to the basic industry safety standards, scenic construction, hanging and focusing lighting equipment, costume construction, drafting and painting for the stage. Students must also enroll in the associated one-credit lab THTR1017. The course is recommended for future educators or anyone entering the performing arts industry. Required for Theater Majors.

Room and Schedule: Robsham Theater 142 F 12:00 Noon-01:50PM
Satisfies Core Requirement: None
Prerequisites: THTR2210
THTR222101
Contemporary Dance I
Kim, Sun Ho
Spring 2023
Contemporary dance is an introductory class open to everyone. In this studio course, students will gain a greater understanding of the basic concepts of a variety of styles of contemporary dance techniques based on modern dance, jazz and pop-culture dance such as hip-hop, funk and other dance forms seen in the media. Also, the course will address how dance might incorporate other disciplines like film, visual art, architecture, physics, literature, etc., into a new cross-disciplinary dance form and create a unique type of dance expression and perspective. Appropriate dance attire is required.

THTR224701
Makeup Design for the Stage
Burgess, Quinn M
Spring 2023
This course introduces students to basic makeup techniques for the stage. Students will study makeup design principles and develop a mastery of applied techniques. Using the theories of highlight and shadow, and an examination of facial anatomy and how it changes with age, the student will learn to change the look of the face to suit different characters. Emphasis will be placed on character analysis and research, and translating that into a makeup design. Time will also be given to study various styles of makeup (e.g., fantasy, cartoon, period makeup, etc.) and special-effect makeup.

**Theatre Skills: Stage Lighting Process**  
**Adelberg, Jeff**  
**Spring 2023**  
This course is for students interested in production assignments in Lighting Design. Building on the foundation of Lighting Design, we will learn the process of turning lighting ideas into executable designs. All stages of the design process will be covered, including concept development, drafting light plots and all types of lighting paperwork, and the cueing/tech process.

THTR330201
Movement and Dance for Stage and Screen Performers
Kim, Sun Ho
Spring 2023
This course is designed for the students who are interested in performing on the stage or screen (particularly actors, dancers, singers and musical theater performers) who use the body as an artistic instrument, to introduce and train practical skills and techniques that are required for performance such as period dance and movement, stage violence and combat, movement improvisation for scene work, partnering skills, non-verbal communication and unitizing movement and dance for theater and film. This course also will be instructive for students who are interested in theater and dance education, health care (physical therapy, nursing), public speaking and any artistic practice that requires understanding the physicality and mobility of human body.

THTR332301
Dance for Musicals II
Leduc, Lindsey
Spring 2023
Specific dress and footwear will be required. Students will expand on their knowledge of jazz, tap, modern/contemporary dance, ballroom, world dance and others. Influential choreographers' styles and characteristics of past and present will be analyzed and learned through the study of their repertoire. Such repertoire might include pieces from West Side Story, Fosse, Chicago, and Thoroughly Modern Mille, among others. Continued emphasis will be placed on the individual students' exploration of dance technique, physical conditioning, and artistic expression. Audition techniques will be emphasized. Each class will consist of a body warm-up, strength and flexibility training and choreographed combinations.

THTR337601
American Musical Theatre: Making Space for All
Hecht, Stuart J
Spring 2023
With roots in both Europe and America, the musical has reflected both the best and the worst of the American experience, yet Broadway remains a site to express, explore and consistently redefine the nation as a whole. From Irving Berlin to Lin-Manuel Miranda, Oscar Hammerstein to Stephen Sondheim, Ethel Merman to Billy Porter, Ragtime to A Strange Loop, this class will provide an overview of the musicals evolution, from inception to the present, with close looks at specific composers and shows, and with an eye toward how it has restricted and given voice to the marginalized, past and present. This will include changing trends in music and dance. Students will study original texts, some secondary materials, watch film, listen to recordings and discuss issues in class. There will be a midterm and final project OR final exam. This course satisfies the 300-level lit/crit/history requirement for Theatre majors and minors.

THTR337701
Fashion and Decor: A Cultural History
Burgess, Quinn M; Tiala, Crystal
Spring 2023
Trends in fashion and interior decoration simultaneously shape and are shaped by the culture from which they grow. When we look at styles of a particular period, we see reflections not just of personal taste, but also social values, political and economic developments, influence of popular culture, new technology, and the overall mood of the period. Through lectures, discussions, and visual research projects, this class will examine trends in fashion and décor as they relate to the cultures of the eighteenth, nineteenth, and twentieth centuries, highlighting the correlation between fashion, decorative arts, architecture, and interior design.

Reckless Creativity and the Physical Actor
Pinkham, Bryce A
Spring 2023
A class for performers and creatives seeking to rediscover and unlock their own brand of reckless creativity. Give over to the ferocious generosity and simple joys of the clown through physical play and collaborative invention. Find the funny in everything from the mundane to the majestic through solo and group exercises rooted in play and collaborative invention. Craft personalized physical comedy in line with the tradition of masters like Charlie Chaplin, Buster Keaton, Lucille Ball, Eddie Murphy and more. Reevaluate your relationship with all forms of drama and creative arts through the fearless sensitivity and imaginative child mind of the clown. Seek to understand how laughter can be a powerful tool of connection that shortens the distances between all of us.

THTR339201
It’s Not a Moment it’s a Movement: BIPOC Plays for the 21st Century
Mohler, Courtney
Spring 2023
In this course, students will analyze dramatic scripts, performances, and manifestos created by BIPOC dramatists and theatre makers of the 21st century. Lectures, group work, writing assignments, and in-class discussions will explore how theatre can offer insight into the most salient challenges facing our world. Focusing on new North American works, students will read plays that address racism, police brutality, sexism, queerphobia, climate change, gun violence, classism, and xenophobia. Of equal importance, many of the plays we will read will also imagine more equitable futures, offer solace of community, and create space for liberation. To understand the significance of the playwrights thematic and stylistic choices, we must understand the cultural and political contexts in which they write. To this end, we will critically engage with selected historical and contemporary commentary that illuminate key aspects of the works.

THEO143001
Buddhism and Christianity in Dialogue
Lee, Tiffany L
Summer 2022
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

**Hinduism and Christianity in Dialogue**  
**Mylroie, Mary K**  
**Summer 2022**

It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO108839
Person and Social Responsibility I
Hevelone, Suzanne J
Fall 2022
Enrollment limited to freshmen, sophomores, and juniors. The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

THEO109001
Perspectives on Western Culture I/Perspectives I
Bloechl, Jeffrey
Fall 2022
Freshmen only The course introduces students to the Judeo-Christian Biblical texts and to the writings of such foundational thinkers as Plato, Aristotle, Augustine, Aquinas, Luther, Bacon, Descartes, Hobbes, Locke, Kant, Hegel, and Kierkegaard. The first semester considers the birth of the self-critical Greek philosophic spirit, the story of the people of Israel, the emergence of Christianity and Islam, and concludes with a consideration of medieval explorations of the relationship between faith and reason. Attention will also be paid to non-Western philosophical and theological sources.

**Credits:** 3

THEO134101
Peaceful Conflict Resolution Methods
Nielsen, Richard P
Fall 2022
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

THEO136101
Praying Our Stories
Ponsetto, Daniel P
Fall 2022
Significant experiences of God's presence are often thought of as extraordinary. They are moments we might expect while on retreat, during community worship, or while sitting under the stars. We might assume that to find God we must transcend our mundane life and get to another place. This course will explore how God is in fact more likely, and thankfully, discovered in the ordinary. Ignatian spirituality does not distinguish between secular and sacred, work and prayer, or God and "real life." Instead, it is about finding God in our lived experience and cooperating with God to transform that experience.

THEO140201
God, Self, and Society
Gribaudo, Jeanmarie, CSJ
Fall 2022
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?

Satisfies Core requirement for: Theology (Christian Theology)

THEO142001  
The Everlasting Covenant: The Hebrew Bible  
Jordan, Jeffery V, OFM  
Fall 2022  
The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143001
Buddhism and Christianity in Dialogue
Vale, Matthew
Fall 2022
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143003
Buddhism and Christianity in Dialogue
Vale, Matthew
Fall 2022
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

Credits: 3
Room and Schedule: Stokes Hall 115S TuTh 10:30AM-11:45AM

THEO143101
Islam and Christianity in Dialogue
Delong-Bas, Natana J
Fall 2022
This course engages the quest for truth and meaning in the faith traditions and practices of Islam and Christianity through the lens of comparative theology. We will use textual, historical, social, cultural, and gender analyses to examine and reflect on understandings of God, scripture, worship, sacred rites and rituals, religious law, and membership in the faith community, in addition to a comparative approach to Biblical and Quranic narratives, characters, and concepts of prophethood and saints, with special emphasis given to Jesus, Muhammad, and the Virgin Mary. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143201
Hinduism and Christianity in Dialogue
Cornille, Catherine M; Zeng, Qi
Fall 2022
It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

**THEO170101**  
**Spiritual Exercises: Engagement, Empathy, Ethics**  
**Robinette, Brian**  
**Fall 2022**  
This course introduces students to a variety of spiritual exercises that have helped shape the Christian theological traditions of the East and West. Focusing on figures and texts from antiquity to the current era, such a study presupposes that theology is not merely a theoretical enterprise but a way of life. Drawing upon insights from other disciplines (e.g., philosophy, psychology, the arts) as well other religious traditions, the course highlights the perceptual, emotional, and cognitive transformation of the human person or what Ignatius of Loyola, founder of the Jesuits, called care for the whole human person (cura personalis).

THEO170201
God and the Good Life
Pope, Stephen J
Fall 2022
This course examines paradigmatic modern Christian accounts of what constitutes a good human life. Key topics include the relation between virtue and human flourishing, the meaning of faith and its relation to reason, the relation of charity and justice, hope in the face of suffering, sin and grace, aesthetics as an avenue for self-transcendence, and personal and social transformation. Key figures include St. Ignatius of Loyola, Kierkegaard, Dostoevsky, Tolstoy, Chekov, and Dorothy Day. It is taught as an Enduring Questions course in tandem with Thomas Epstein's course "Tolstoy to Chekhov: What is the good life?"

THEO170701
Geographies of Imperialism: Theology of Colonization
Delong-Bas, Natana J
Fall 2022
This is an Enduring Question course for Freshman only. Register for both THEO1707 and HIST1716. The age of empires is past—or is it? In this course, we examine the enduring ideas of empires and their challengers through the present day, using the lenses of history and theology (Christianity and Islam). Beginning with the traditional geographies of maps, we explore how empires colonized not only territories with physical borders, but also bodies and minds, using race, gender, sexuality, ethnicity, education, laws and institutions. Using the British and French empires in the Middle East and North Africa as case studies, we will identify and question how to overcome the boundaries still imposed on people today.

THEO171001
Flawed Founders: King David and the Theology of a Political Hero
Vanderhoof, David
Fall 2022
The portrait of King David in the books of Samuel and Kings does not offer direct access to ancient Israel's royal dynastic founder. Layers of praise and polemic intertwine with embellished biography and searing criticism to create a complex portrait. Was he a pious shepherd boy who slew the giant Goliath and rose to fame or a Machiavellian politician who exploited his predecessor, King Saul, and the numerous women in his life? The biblical account of David's rise to the throne, his royal accomplishments, and his private failings, have aroused conflicting interpretations through the ages. At the same time, the dynasty founded by "the man after God's own heart," ruled Israel or Judah for nearly 400 years, while later Jews and Christians idealized David's image. Jesus of Nazareth, of course, was understood as a descendent of the great king. How should readers of the Bible appreciate David, the significance of his accomplishments in political terms, and his ongoing influence in theological reflection about the ideal ruler, justice, and the relationship between God and King? The course will focus on the biblical narrative, on contemporary non-biblical records, on archaeological evidence, and on the image of David in later texts and artistic images. Modern methods of biblical scholarship will guide the inquiry, but attention will also be given to the philosophy of history and to evaluation of literary artistry in the Bible.

THEO172201
The Formation of Early Christian Thought: A Theological Examination
Hunter, David G
Fall 2022
How did Greco-Roman philosophy contribute to rational Christian theology? These courses address the enduring question of the relationship between faith and reason. In the early Christian era leading intellectuals attempted to integrate the Jewish and Christian scriptures and traditions with rational philosophy. They employed Greek and Roman philosophy to reflect upon foundational issues in metaphysics, human psychology, epistemology, ethics, and God’s action in time. We will examine important concepts, arguments, and theories of ancient pagan philosophers (Plato, Aristotle, Seneca, Epictetus, Plotinus) and trace their adoption and adaptation by leading Christians (Justin Martyr, Origen, Lactantius, Athanasius, Augustine).

THEO211401
When Gods Begin Again: Intro to African and African Diaspora Religions
McElwaine, Michelle L
Fall 2022
This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yorùbá and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santería, Brazilian Candomblé, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

THEO216001
The Challenge of Justice
Pope, Stephen J
Fall 2022
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

Credits: 3

**THEO229101**  
**Philosophy and Theology of Community I**  
**Sweeney, Meghan T**  
**Fall 2022**

This seminar explores the nature of community, with particular focus on community in the American context. Some of the central historical, cultural, political and religious forces that have shaped both American community and the American understanding of community are examined. These questions are initially approached from an historical perspective with an assessment of philosophical ideas which were dominant in the political thinking of the American founders. The seminar then considers the historical development of those ideas in light of the way they are concretized in political practice, arriving at an assessment of contemporary American thinking on community.

THEO280001
Race, Freedom, and the Bible in America
Gillihan, Yonder
Fall 2022
Discourse about American identity, purpose, and ethics has drawn on Scripture for its themes, terms, and claims to authority, from the nation's political genesis as a refuge for English Puritans to its current incarnation as "secular sanctuary" of ethnic and religious pluralism. This team-taught course surveys uses of the Bible and other "American Scriptures" in discourse on race and civil rights, focusing on its use by political opponents. Assigned readings, essays, and discussions will survey specific meanings that scriptures have acquired at critical historical moments, and what the multiplication of interpreters, methods, and meanings implies for prospects for unity.

Credits: 3
Room and Schedule: Stokes Hall 213S F 02:00PM-04:25PM
THEO326101
Spirituality and Sexuality
Mc Dargh, Harry J
Fall 2022
How does our experience of ourselves as sexual beings open us to the experience of the holy, and conversely, how might our desire for God be intimately related to our sexual desire and longings? These are the questions that will be the focus of our work. Not a course on sexual ethics, this course is an exploration of the complex interrelationship of sexual and spiritual desire as both are reflected upon in the Christian spiritual tradition.

This course addresses how Christian theology and the churches view and respond to violence. It will explore biblical and theological portrayals of violence, especially Jesus' death on a cross as salvific. It will then focus on violence, injustice, and transformation in three areas of Christian social ethics: war and peace, racial justice, and gender equality. Finally, it will consider theological re-appropriations of Christ's cross as a response to violence.

**THEO336001**  
**Living Truthfully: Way to Personal Peace and Social Change**  
**Penna, Anthony**  
**Fall 2022**  
The primary purpose of this course is to examine the proposition that it is better to tell the truth than tell the lie. Too often, we are tempted to live out an illusion. The personal and social costs of keeping an illusion pumped are steep. Personal peace and courage are born when we settle in on the truth of our identity and dare to live it. In short, this course proposes that the larger life is possible when we come home to the smaller life that defines us as individual women and men.

THEO491101
Independent Study
Department, Department
Fall 2022
This course offers students the opportunity to study a topic of personal interest, working independently under the supervision of a faculty member within the Theology Department. A student may obtain the consent of a faculty member to serve as his or her instructor by contacting the faculty member directly. The instructor, working with the student, decides on the nature of readings and related activities involved as well as the precise form of scholarly work required.

THEO500201
Women and Gender in Islam
Delong-Bas, Natana J
Fall 2022
This course explores women and gender roles in Islamic history, civilization, and societies, beginning with the pre-Islamic period and continuing through the present. The goal is to present women and women's issues as central to the main narrative of Islamic history, rather than as a side story. This course explores questions related to both historical and contemporary religious interpretation and practice, Sunni, Shia and Sufi, as well as the impact of religion and gender constructs on women's access to the public sphere, positions of leadership, and legal status.

THEO534801
New Testament Ethics
Perkins, Pheme
Fall 2022
An introduction to ethical reflection in the New Testament which will treat the teaching of Jesus in the Sermon on the Mount (Matt 5-7 and parallels), select parables (Luke 10-19 and parallels) and moral formation in Pauline churches (Gal, 1 Cor). Individual modules will treat (a) social justice and concern for the poor; (b) love commands; and (c) sexuality, marriage and family. Students are introduced to ethical material from both Jewish and Stoic sources that deal with comparable topics.

Credits: 3
Room and Schedule: Mcguinn Hall 437 M 04:30PM-06:50PM
Satisfies Core Requirement: None
Prerequisites: Introductory course in either New Testament or Ethics.
Corequisites: None

THEO537201
Patristic Greek I
Schatkin, Margaret
Fall 2022
This course is continued in the spring as THEO5373 New Testament Greek II. This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

THEO537801
Jesus in Story and History
Darr, John A
Fall 2022
Although Jesus himself did not write anything, many of his early followers wrote about him. We are left with a number of intriguing questions about how and why these early Christian authors portrayed Jesus as they did, and about how their portraits of him relate to the historical Jesus of Nazareth. This course will address these literary, theological, and historical issues in two parts: (1) a thorough literary-critical analysis of the diverse characterizations of Jesus in the canonical gospels; and (2) an in-depth evaluation of the modern historical-critical attempts to reconstruct a "historical" or "real" Jesus behind the earliest depictions of him.

THEO547420
Jews and Christians: Understanding The Other
Langer, Ruth
Fall 2022
This course is an exercise in interreligious learning sponsored by the Boston College's Center for Jewish-Christian Learning. Interreligious dialogue requires interreligious understanding. This course will build a foundation for genuine dialogue between Jews and Christians by posing fundamental theological questions in a comparative context. Students will gain an understanding of the other tradition while also deepening their understanding of their own, discussing such matters as the human experience of God, the purpose of human existence, the nature of religious community, and the ways that the communities respond to challenges, both contemporary and ancient.

Eating and drinking are primordial human experiences that nourish individuals, sustain communities and are at the heart of rituals in many religions. In the Judeo-Christian tradition meals play an important part in the unfolding dialog between God and humanity. Christians believe in a privileged encounter with the Lord Jesus in the Eucharistic meal of bread and wine. Eternal life is portrayed as a great banquet in God's presence. This course articulates a theology of the Eucharist that takes meal as its point of departure. It examines how this central Christian action both shapes the divine-human relationship and informs our response to contemporary issues such as creation and ecology, hunger and suffering, solidarity and exclusion, hope and eternity.

THEO700501
Christian Ethics and Migration
Heyer, Kristin E
Fall 2022
This course examines the phenomenon of global migration from a Christian theological perspective. Texts from social scientific, legal, and policy perspectives will frame the phenomenon of contemporary migration. The seminar will then undertake ethical analyses of migration paradigms, policies and practices in light of resources from the Christian tradition, considering questions related to globalization, citizenship, economic justice, gender, family ethics, and integration.

**THEO702801**  
**Contemplative Theology**  
Robinette, Brian  
**Fall 2022**  
This seminar explores major figures, texts, and trends in contemplative approaches to theology. By "contemplative" it is meant a disposition of deep openness and receptivity, a working familiarity with silence, hiddenness, and the implicit dimensions of thought, feeling, and awareness. More than a study of figures and texts that exhibit a broadly contemplative sensibility, the seminar inquires into the practice of contemplation (e.g., ways of attending, the cultivation of skills, the formation of habits, etc.) and the way such practice bears upon (or might bear upon) theology itself. Classic figures and texts will be treated alongside contemporary trends of contemplative renewal.

**Credits:** 3  
**Room and Schedule:** Simboli Hall 135 W 01:00PM-03:50PM  
**Satisfies Core Requirement:** None

**Frequency:** Periodically
THEO702901
Biotechnologies, Health, and Theological Ethics
Vicini, Andrea, SJ
Fall 2022
In dialogue with scientists, philosophers, and theological ethicists, the doctoral seminar examines current advances in developing scientific disciplines and studies their ethical challenges for health and society by relying on theological ethics. After reflecting on biotechnology in general, in its two parts the seminar focuses, first, on biotechnologies that directly affect human health by considering human genetics (genetic information, research, testing, screening, editing, therapy, pharmacogenomics, and enhancement), stem cell research, regenerative medicine, oncofertility, and neuroscience. Second, the seminar studies new biotechnologies that indirectly regard human health: synthetic biology, nanotechnology, cybertechnology, robotics, artificial intelligence, transhumanism, posthumanism, and astrobiology.

THEO704201
Augustine's City of God
Hunter, David G
Fall 2022
This course offers a close reading of Augustines City of God. While the immediate occasion was the sack of Rome by Alaric (410), Augustines thought on the two cities had been germinating for several years. Partly an apology for Christianity, the book offers a sweeping survey of human history from Adam to the eschaton, as well as searching reflections on Christian existence in the present age (saeculum). He treats topics such as the nature of bodily existence, Christian participation in the political order, the value of ancient philosophy, the role of the emotions, divine providence, and the interpretation of Scripture.

THEO744301
Comparative Religion: History and Methods
Cornille, Catherine M
Fall 2022
The comparative study of religions has evolved through different stages of methodological reflection since its establishment as an autonomous discipline over a century ago. Questions concerning the nature and goal of comparison and the possibilities and limits of understanding individuals belonging to other religions remain at the heart of any engagement with religious pluralism. We will explore these questions through a study of the theories of early phenomenologists of religion such as Gerardus Van der Leeuw, through the work of Mircea Eliade and his critics, and up to the contemporary approaches of figures such as Jonathan Z. Smith.

THEO759601
Synoptic Studies: Recent Issues
Roth, Dieter T
Fall 2022
This course focuses on recent issues in the study of Matthew, Mark, and Luke. Particular emphasis will be given to recent trends in studies of the Synoptic Problem, the Q source, the relationship of Marcion's Gospel to Luke, the parables, and the textual transmission of the Synoptic Gospels. Furthermore, in order to better understand Matthew, Mark, and Luke in both their historical contexts and contemporary receptions, attention will also be given to significant recent contributions to the study of these Gospels from a variety of hermeneutical perspectives.

This doctoral seminar will be devoted to the reading of primary texts from three periods in the work of Edward Schillebeeckx (1914-2009): (1) the early existential-phenomenological retrieval of Thomas Aquinas's theology of sacraments; (2) the shift to historical consciousness and hermeneutics during and after Vatican II, particularly exemplified in his Christology; (3) the shift to critical theory and its critique of modernity, leading to an historical praxis of mysticism and politics in the light of a suffering world.

THEO800901
Theology, Ethics, and Politics
Cahill, Lisa
Fall 2022
How can Christian ethics respond to the intractability of historical evil and the difficulty of structural change? This course will work on the borderlines of political theology, public theology, liberation theology, Christian social ethics, and Catholic social teaching, reading for example, Bohoeffer, Moltmann, Solle, Day, Niebuhr, Murray, Hauerwas, Sobrino, Katongole, and additional examples of global Christian ethics and politics.

**Methods in Theology**  
Wilkins, Jeremy  
**Fall 2022**
In the late 1960s, Karl Rahner asserted that theology's new partners in dialogue were the human and social sciences. Increasingly in answering new and perennial questions, contemporary theology has partnered with archaeology, sociology, cultural studies, psychology, world religions, and forms of critical theory. This course considers various methods in doing theology as well as some of theology's significant dialogue partners.

Theology Courses: Spring 2023
THEO108901
Person and Social Responsibility II
Troxell, Mary S
Spring 2023
Enrollment limited to freshmen, sophomores, and juniors The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

**Person and Social Responsibility II**
**Troxell, Mary S**

**Spring 2023**
Enrollment limited to freshmen, sophomores, and juniors. The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

Freshmen only The course introduces students to the Judeo-Christian Biblical texts and to the writings of such foundational thinkers as Plato, Aristotle, Augustine, Aquinas, Luther, Bacon, Descartes, Hobbes, Locke, Kant, Hegel, and Kierkegaard. The first semester considers the birth of the self-critical Greek philosophic spirit, the story of the people of Israel, the emergence of Christianity and Islam, and concludes with a consideration of medieval explorations of the relationship between faith and reason. Attention will also be paid to non-Western philosophical and theological sources.

Shea, Henry J, SJ
Spring 2023
Freshmen only The course introduces students to the Judeo-Christian Biblical texts and to the writings of such foundational thinkers as Plato, Aristotle, Augustine, Aquinas, Luther, Bacon, Descartes, Hobbes, Locke, Kant, Hegel, and Kierkegaard. The first semester considers the birth of the self-critical Greek philosophic spirit, the story of the people of Israel, the emergence of Christianity and Islam, and concludes with a consideration of medieval explorations of the relationship between faith and reason. Attention will also be paid to non-Western philosophical and theological sources.

THEO134201
Peaceful Ethics: Social Action Leadership Methods
Snyder, Joshua R
Spring 2023
The course focuses on methods we can use individually and together in addressing ethics issues and in helping to build and maintain ethical communities and organizations within different types of political-economic environments and realities. Methods considered include: ethics reasoning, dialogue, and persuasion methods; win-win negotiating and incentive methods; win-lose, nonviolent forcing and compliance methods; internal due process and governance methods; and alternative institution building and social movement methods.

God, Self, and Society
Potter, Laurel M
Spring 2023
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?
Satisfies Core requirement for: Theology (Christian Theology)

**THEO142001**  
**The Everlasting Covenant: The Hebrew Bible**  
**Vanderhooft, David; Zeng, Qi**  
**Spring 2023**  
The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO142203
The Sacred Page: The Bible
Kimmel, Joseph
Spring 2023

The Bible has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of biblical texts in terms of the central concerns of the core curriculum will be the primary goal of THEO 1422 The Sacred Page: The Bible. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143001  
**Buddhism and Christianity in Dialogue**  
**Vale, Matthew**  
**Spring 2023**  
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism--understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

**Credits:** 3  
**Room and Schedule:** Stokes Hall 461S TuTh 12:00 Noon-01:15PM  
**Satisfies Core Requirement:** Cultural Diversity, Theology

THEO143101
Islam and Christianity in Dialogue
Delong-Bas, Natana J
Spring 2023
This course engages the quest for truth and meaning in the faith traditions and practices of Islam and Christianity through the lens of comparative theology. We will use textual, historical, social, cultural, and gender analyses to examine and reflect on understandings of God, scripture, worship, sacred rites and rituals, religious law, and membership in the faith community, in addition to a comparative approach to Biblical and Quranic narratives, characters, and concepts of prophethood and saints, with special emphasis given to Jesus, Muhammad, and the Virgin Mary. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

In 1974, the Vatican explicitly called on Catholics to understand Jews as they understand themselves. In our world of dialogue and post-Holocaust repair of relations, Jews similarly ought to understand Christians. This course will explore key topics in the contemporary Christian-Jewish dialogue with the goal of both enabling this understanding of the other and enhancing self-understanding. Students who do not identify with either tradition are welcome to enrich this conversation. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO172301
Faith, Ethics, and the Sciences in the 21st Century
Pope, Stephen J; Powell, Russell C; Vandewall, Holly R
Spring 2023
This is an Enduring Questions course and is open to FRESHMEN only. You must take PHIL1723 with this course. The rise of modern science has raised and continues to raise a wide range of questions for both religious belief and religiously based morality. The sciences have made it clear that the cosmos is much older and much bigger than the pre-moderns had recognized. The sciences are often taken as challenging traditional views of religion, morality, and the world. Contemporary critics regard religion as either obsolete or a threat to humanity. Why have the modern sciences been taken to carry these implications and need they be taken in this way? Alternatively, can the sciences play a constructive role in how we think about faith, ethics, and human nature? Can contemporary believers fully accept the findings of science? If so, how might doing so influence how believers think about God and God's relation to the world. This course will be team-taught by a philosopher and a theologian who have been researching the relationships between natural science and religious belief. We will explore the implications of modern physics and evolutionary biology for Jewish and Christian understandings of human origins, the good life, and ethical responsibility for ourselves, our communities, and our wider natural world.

THEO200201
Trajectories in Contemporary Theology
Hinsdale, Mary Ann, IHM
Spring 2023
This course will begin with an exploration of contemporary developments in theology, giving particular attention to the Second Vatican Council as a watershed event not only for Catholicism but, in some sense, for the development of Christian theology in general. The remainder of the course will explore post-conciliar, theological trajectories in three to four of the following fields: 1) comparative theology, 2) systematic/constructive theologies, 3) liturgy and sacraments, 4) theological ethics, 5) Biblical studies. This course is restricted to theology majors and minors.

THEO211401
When Gods Begin Again: Intro to African and African Diaspora Religions
McElwaine, Michelle L
Spring 2023
This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yorùbá and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santería, Brazilian Candomblé, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

THEO216001
The Challenge of Justice
Snyder, Joshua R
Spring 2023
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

THEO223001
Mass Incarceration: Philosophical and Theological Perspectives
McCoy, Marina B
Spring 2023
This course will explore problems of justice in relation to incarceration in the United States with particular attention to attention to race, social class, gender, and immigration status. Students will read authors writing on the philosophy of race, gender, and class in relation to incarceration, the phenomenology of solitary confinement and the concept of "social death," church documents and theological works on incarceration, and works on restorative justice and other models of justice that serves the common good. Catholic Social Justice teachings and discussion will also be a part of the course. The course will also address interconnections between immigration and incarceration. This course will be offered as a PULSE elective, in which students undertake four hours per week of service in the City of Boston at institutions such as Suffolk Country Jail and non-profits that provide transitional services for returning residents or formerly incarcerated individuals or that advocate for prison reform. The PULSE office will vet and coordinate students' placements and serve as a liaison with community partners.

**The Bible and Ecology**

**Darr, John A**

**Spring 2023**

In this course we will: (1) identify and analyze a variety of Biblical understandings of how humans relate to nature, from the Genesis creation accounts to St. Paul's notion of a liberated creation; (2) evaluate the influences of these Biblical ideas on current trends in theology, ethics, and ecology; and (3) explore ways in which religious world views hinder and/or enhance efforts to protect and preserve the environment.

THEO224101  
Roman Religion  
Eshleman, Kendra J  
Spring 2023

The Romans lived in a world full of gods; religion affected every part of Roman life, from politics to warfare to entertainment. Christianity took shape within this world, and Roman religion, especially the mystery cults, has often been regarded as a model for the early church. Yet the Roman concept of 'religion' has very little in common with modern, Judeo-Christian-influenced notions. In this class we will explore the theory and practice of religion in the ancient Roman world, as reflected in ancient literary texts, as well as in epigraphic and archaeological evidence. Themes include the nature of Roman worship, from state cult to magic and mysteries, the interplay between religion and politics, and the development of Christianity in its pagan context.

**Perspectives on War, Aggression, and Conflict Resolution I**  
**Johnson, Spencer K**  
**Spring 2023**  
The Faith, Peace, and Justice Program at Boston College sponsors this course as an introduction to the field of Peace Studies. This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacebuilding.

What are the Ten Commandments? Why are there three versions in the Bible? Why are they displayed on the U.S. Supreme Court building, when the Supreme Court has blocked their public display in multiple high profile cases? This class surveys the origin and historical meanings of one of the Bible's most iconic and frequently cited texts: the Ten Commandments (AKA the "Decalogue," an English term that comes from Greek and means "Ten Laws"). The heart of the class is a ten-week comparative study of major historical interpretations of each of the ten laws. Interpretations that we will consider include ancient writers, Medieval theologians, Catholic and Protestant theologians and Church documents. We will consider how the Ten Commandments have been interpreted from a variety of perspectives, including historical-critical, systematic-constructive, in legal theory, and from critical liberationist perspectives, including feminist, Black, queer, and post-colonial. Students will be evaluated on team research and presentation assignments, and on three brief research/reflection essays.

This course introduces students to classic texts and themes related to human and divine love. Through a careful study of primary texts, both in theoretical and narrative formats, the course is designed to promote extensive classroom conversation and written reflection as we consider forms of love such as affection, friendship, erotic attraction, and agapeic service. Other important themes that will emerge in our study include: freedom, rivalry, suffering, death, beauty, conversion, heroism, and vocation. By situating the dynamics of human and divine love in this way, the course offers an opportunity to reflect upon the meaning of the human condition.

The Ethics of Global Public Health and the Common Good  
Vicini, Andrea, SJ  
Spring 2023  
Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes. International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

THEO359901
Early Christian Gospels
Roth, Dieter T
Spring 2023
Christian Gospels contain stories about Jesus, and though the best-known stories about Jesus are found in the four canonical Gospels in the New Testament, there are many additional early Christian Gospels with far less familiar stories about and purported teachings of Jesus. This course introduces students not only to the the New Testament Gospels, Matthew, Mark, Luke, and John, but also to numerous non-canonical Gospel texts. In this way, students will gain greater awareness of the diversity of early Christianity and its Jesus traditions along with deeper insight into early Christian communities.

Sexualities and Spiritualities

Weiss, James M

Spring 2023
Can you be Queer and spiritual? Trans or non-binary and religious? Straight, hooking up, and Catholic? Can you combine pleasure and piety? Of course you can. But how? This course surveys progressive thinkers examining the close relationship of sexuality, gender, the body, and spirituality. We look at evolving views of marriage and single life. We reflect on sexual violence. We ask how traditional religion distorts or supports these issues. Catholic, Protestant, and Episcopal authors explore developments and disagreements! -- that nurture authentically spiritual sexuality. The aim is to promote understanding and care for self and others. Graduates and undergraduates welcome.

THEO500701  
Mahayana Buddhism: Thought and Practice  
Vale, Matthew  
Spring 2023  
This course explores Mahayana Buddhist thought, meditation practice, narrative, and ritual practice across Asia. We consider texts ancient and modern. After a basic introduction to Buddhism, we take up topics ranging from meditation, to compassion, nirvana, emptiness, Buddha nature, Zen, and Mahayana Buddhist ethics. Our focus is on fundamental theological questions: What are the causes of suffering? How can meditation and ethical practices illuminate sufferings causes, and put an end to them? What is the state of unconditioned awareness, freedom, and joy that lies beyond suffering? Most importantly, what does this all have to do with me? No background in Buddhism is required.

Israel in Jewish Theologies
Langer, Ruth
Spring 2023
Israel, both the people and the land, are central to Jewish theology as concrete manifestations of God's covenants. This course will explore the evolving meanings of these concepts from the Bible to today, looking at themes like peoplehood, life in the land, exile from it, and (messianic) return. The second part of the course will focus specifically on the theologies of a range of modern Jewish thinkers, with the goal of helping students to understand aspects of contemporary Israel and its meaning to world Jewry.

Much of our artistic heritage was commissioned to embellish places of worship and to deepen understanding of the ceremonies celebrated there. These works of art offer often-ignored insights into Christian sacraments that complements more traditional theological approaches. This course seeks to deepen our appreciation of Christian sacraments by acknowledging painting, sculpture and architecture as a locus theologicus. Both historical and thematic in approach, it explores sacramentality, incarnation, iconoclasm, typology as well as selected themes from sacramental theology. The course will include off-site visits.

**THEO550901**  
**Theology and Mental Health**  
**Antus, Elizabeth**  
**Spring 2023**  
Mental health conditions and mental distress have become more visible in our public discourse today. Focusing on depression, bipolar disorder, and schizophrenia, this course asks the following questions: how has the Christian theological tradition understood what we now name as mental illness? How do contemporary psychiatric and psychological approaches enhance theological approaches to mental illness, and vice versa? How and why do mental distress and suicidality especially affect LGBTQ people, indigenous communities, and white men? How can we cultivate proper self-love while processing shame in a healthy way? How do we talk well about mental health without obscuring the structural injustices bound up with imperial, ableist, sanist white supremacist heteropatriarchy? In exploring these questions, we will articulate together what it means to do theology, to work for justice, and to build a society that serves everybody.

Undoing Anti-Judaism in the Church
Joslyn-Siemiatkoski, Daniel
Spring 2023
The purpose of this course is to develop strategies by which the anti-Judaism endemic to Christian traditions can be recognized and undone. This course will begin with an examination of the development and workings of Christian anti-Judaism. Attention will then turn to how such anti-Judaism has entered into Christian life and practice, especially within the context of teaching, preaching, and worship. The course will conclude with developing new approaches to resisting anti-Judaism in Christian contexts and public spaces.

THEO579601
Shared Scripture ? Divided Faiths: The medieval Jewish-Christian encounter over the Hebrew Bible / Old Testament
Van Liere, Franciscus
Spring 2023
This course will explore the history of medieval Christian Hebraism and its consequences for the perception of the Jewish other. Starting with Jerome, Christian scholars have seen the Hebrew Bible, rather than the Septuagint, as the authoritative version of the Old Testament. In the course of medieval history, this led Christian scholars to seek contact with Jews and Jewish sources, to better understand this text. In various ways, these encounters shaped Christians perceptions of Jews, both in negative and positive ways. The course will survey the work of patristic and medieval authors such as Jerome, Bede, Andrew of Saint Victor, Nicholas of Lyra, Paul of Burgos, and Matthias Doering.

**THEO701701  
Resurrection Theology: A Decolonial Perspective  
Mendoza-Alvarez, Carlos  
Spring 2023**

This course will analyze the resurrection of Jesus of Nazareth confessed by the Church as messiah dead for our sin and risen for our salvation (Romans 4: 25). The original event of the messianic time and of the Christian tradition will be analyzed in a decolonial perspective as a source of meaning for the survivors of all times. Drawing on trauma studies, social sciences and the phenomenology of vulnerability as a lens to inhabit the biblical texts on the empty tomb and the apparitions of the risen Crucified One, the course will propose a horizon of meaning and hope in the midst of the civilizational collapse of our time of systemic violence.

THEO729101
Moral Agency
Heyer, Kristin E
Spring 2023
This course explores the topic of moral agency through texts in theological ethics treating autonomy, human rights, conscience, and sin. It also incorporates interdisciplinary literature that considers ways in which agency is impacted by social practices, structures, and cultural norms. Case studies will be incorporated to consider how concrete social questions may impact standard understandings of autonomy and agency and the influence of nonrational factors on human freedom.

THEO759701  
**Prophecy and Empire: Assyria and Babylon**  
**Vanderhooft, David**  
**Spring 2023**  

Mesopotamian imperial polities Assyria, Babylon, and also Persiarepresented a nearly constant threat to the kingdoms of the Eastern Mediterranean during the period between the ninth and late sixth centuries B.C.E. The kingdoms of Israel and Judah, like their neighbors, absorbed punishing military defeats, but also many cultural and material influences. One group of intellectuals, the prophetic figures in Israel and Judah, consistently responded to these Mesopotamian influences. This course examines a selection of prophetic texts from the Hebrew Bible as evidence for the intellectual and cultural engagement with the Assyrian, Babylonian, and Persian polities. Biblical texts will be studied alongside Mesopotamian and other epigraphic West Semitic texts to understand how prophets perceived and accounted for the Mesopotamian influences. Modern methods for reading prophetic texts will be introduced, alongside examination of Assyriological scholarship on the historical and archaeological contexts of these texts. The material culture of Israel and Judah, but also of the urban centers of the East, can also illuminate the political valences of prophetic texts.

**Credits:** 3  
**Room and Schedule:** Stokes Hall 105S Th 10:00AM-12:25PM
THEO759901
Theological Exegesis in Early Christianity
Magree, Michael C, SJ
Spring 2023
In this course students will read ancient Christian authors as part of a long tradition of attempting to understand God through the reading of sacred texts. The course will cover three basic topics, which will be kept distinct even while the class examines them simultaneously. The first topic is early Christians' own understanding of, and consistency with, the principles of their exegesis, especially the "rule of faith." The second topic is the early Christian practice of scriptural exegesis, especially as this exegesis was relevant to doctrinal and theological debates, and to preaching. The final topic is the social and religious context of the principles and practice of Christian exegesis. To this end I am assigning significant readings in non-Christian sources to provide context for the Christian ones. The course will proceed in a generally chronological fashion, in order to allow students to note patterns of development and change over time. Selected secondary readings will be assigned for each session as a way to introduce students to the ongoing scholarly discussions in this field. All readings will be in English translation, though students with facility in the original languages are encouraged to employ this in their reading and research. The course is aimed at doctoral students in Historical Theology/History of Christianity, though there should be significant material appealing to students in Biblical Studies, Systematics, Comparative Theology, and Ethics.

THEO789401
Philosophy for Theological Ethicists
Kaveny, M Cathleen
Spring 2023
The purpose of this class is to introduce theological ethicists to some philosophers who have been influential in discussions in theological/religious ethics over the past fifty years. The particular aims are threefold: (1) to allow students to engage with major works of philosophy; (2) to enable the seminar to collectively familiarize itself with the discussions these works have generated in the field of theological ethics; and (3) to encourage doctoral students to engage deeply with one or more of these philosophers in articulating and pursuing questions that will animate their own research, including their comprehensive exams. There are four basic areas covered (1) distributive justice (Rawls, Sandel, Walzer, Nozick); (2) virtue theory (MacIntyre, Nussbaum); (3) rights talk (Finnis, Dworkin, Glendon (on international law)); (4) cosmopolitanism (Appiah, Benhabib). Students will be required to produce two 12-15 page papers; one assessing the role of a philosopher's thought in the field of theological ethics, and the second furthering the student's own work in either comprehensive exam prep or dissertation research.

THEO797701  
Twentieth Century Catholic Moral Theologians  
Keenan, James F, SJ  
Spring 2023  
The course looks at the most important works that shaped Catholic Theological Ethics in the twentieth century. It analyses the innovative works of Lottin, Tillmann, and Gilleman whose works challenged the classical paradigm of manualists like Davis, Jone, Ford and Kelly. The course then looks at Häring, and at the roots of proportionalism that result from that same Council. The legacy of Fuchs as well as twentieth century papal encyclicals are also studied. The course concludes with the emerging work of Latin American liberationists, American feminist and black moral theologians, African inculturationists, and Asian theological ethicists

THEO820301
Topics in Grace
Shea, Henry J, SJ
Spring 2023
This seminar will explore diverse topics in a theology of grace from both an historical and systematic perspective. Specific consideration will be given to the salvific will of God and predestination, the distinction of nature and grace, the role of participation in justification, sanctification, and divinization, the relation of grace to distinct contexts and forms of life, and the liberating and social dimensions of grace in the coming Kingdom of God. Selected authors will range from Paul, Gregory of Nyssa, Augustine, Aquinas, Baez, and Molina to Henri de Lubac, Karl Rahner, Hans Urs von Balthasar, Roger Haight, and Kathryn Tanner.

THEO850301
Authority of Scripture
Perkins, Pheme
Spring 2023
A seminar investigating the emergence and development of the Christian Bible from the first to the fourth centuries C.E. This seminar will discuss the development of a New Testament canon as well as different views of Biblical writings as revelation that developed along with competing claims to a secret or higher truth in "esoteric," non-canonical works of the same period. Students will explore the understanding of Scripture in four early Christian exegetes: Irenaeus, Origen, Eusebius and Jerome. This seminar will incorporate a survey of scribes, book circulation and the role of reading circles in antiquity.

UNAS227301
BC Internship in Tokyo
UNAS330801
Modernism in Paris
Epstein, Thomas; Williams, Shannon
Summer 2022
Start and End Dates for this course change from year to year. Please contact the Office of Global Education for more information. This course is both a study of Modernism as a broad cultural phenomenon and an encounter with the city of Paris. In each of the course's four weeks we will have twelve hours of class meetings, three museum visits, three guided walks, and one concert. Exploring Modernism as a cultural phenomenon that begins in a 'crisis of Tradition' we will concentrate on the period between 1900-1930, when Western civilization became a beehive of 'experiments' and 'revolutions' in all the arts and in society. Reading literary and philosophical texts, studying art works and artists' statements, we will not seek a unifying style to Modernism but a series of shared questions. Moreover, as we experience twenty-first century Paris and each other, we will try to understand the legacies of Modernism as they relate to our present. Readings include Eliot and Apollinaire, Proust and Kafka, Klee and Picasso, Pirandello, Weber, Benjamin and Breton. The course is conducted in English.

UNAS101601  
**Designing Your Career: An Exploration Course**  
**Raposa, Tara**  
**Fall 2022**  
This course is open to sophomores, juniors and seniors in the Morrissey College of Arts and Sciences, Woods College of Advancing Studies, and Applied Psych majors within the Lynch School of Education. Please note that this course is not open to freshman. In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

Innovation through Design Thinking
Rutirasiri, Chokdee R
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Can the study of modern mathematics and the natural sciences prove to be a genuine liberation of the human spirit? This unusual question will form the central theme of this course. The course will explore major developments in the fields of mathematics, biology, physics, chemistry, and the earth and space sciences from ancient Greece, through the modern scientific revolutions of the seventeenth century, and into the twentieth century achievements and paradoxes of modern number theory, the discovery of DNA, relativity theories, quantum mechanics, and contemporary cosmologies.

New Scientific Visions I/Perspectives IV
McKaughan, Daniel J
Fall 2022
A two-semester sequence (UNAS1119-1120 and UNAS1121-1122) Total of 6 credits each term
Can the study of modern mathematics and the natural sciences prove to be a genuine liberation of the human spirit? This unusual question will form the central theme of this course. The course will explore major developments in the fields of mathematics, biology, physics, chemistry, and the earth and space sciences from ancient Greece, through the modern scientific revolutions of the seventeenth century, and into the twentieth century achievements and paradoxes of modern number theory, the discovery of DNA, relativity theories, quantum mechanics, and contemporary cosmologies.

Peaceful Conflict Resolution Methods
Nielsen, Richard P
Fall 2022
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

Why is health care so interconnected with policy, law, and economics? If health is our greatest happiness (Thomas Jefferson), why is U.S. health care such a mess? We have rights to vote and free speech, but do we have a right to health? With the global COVID-19 pandemic, access to health care and health insurance have become more important than ever in the pursuit of life, liberty and health. Topics include the history of our health care system, prescription drug costs, vaccine mandates, the opioid crisis, youth vaping, and sports-related concussions. Such complex issues are best understood through interdisciplinary study. Through the lens of contemporary problems, students will learn basic principles of economics and law, and examine how they intersect to drive health policy involving enduring questions of government authority and individual autonomy, morality and ethics, social justice and human rights.

Coming of Age: Crisis and Calm Revealed through Literature
Michalczyk, Susan A
Fall 2022
Core Renewal: Enduring Questions For Freshmen Only What does it mean to come of age? What experiences define us, as we make our journey through life? How do we process those moments of crisis and calm, so that we can become better prepared to engage effectively in all that life holds for us as adults? Exploring written narratives of the adolescent experience provides opportunities for personal growth, for understanding of this challenging transition, and for recognizing common patterns and bonds we all share. Through analysis of narrative techniques, students explore approaches to storytelling that create a pact between author and reader that encourages consideration of their stories

From Hiroshima to K-Pop: Historical Perspective
Hwang, Ingu
Fall 2022
This is an Enduring Questions course and is open to FRESHMEN only. You must take UNAS1717 with this course. How did East Asia emerge from the wreckage of the Second World War to become the dominant political, economic, and cultural force it is in the world today? How did East Asia emerge from the wreckage of the Second World War to become the dominant political, economic, and cultural force it is in the world today? What is the relationship between politics and popular culture? Since 1945, East Asia has experienced the Cold War, civil war, communist revolution, modernization, capitalism, democratization, and economic booms and busts. It has also become a powerhouse producer of popular and art cinema. In these paired courses students will explore the relationship between politics and culture as they learn how historians and filmmakers have grappled with the tumultuous events of the past 75 years.

**Maternity and Science: Neuroscience & Genetics**

Black, Jessica M

Fall 2022
In what ways is the maternal experience informed and determined? Birth is one of the building blocks of the human experience. Throughout history, cultures around the world have developed specific beliefs, traditions and rituals regarding menstruation, pregnancy, birth, and infant care. These are related to the societal structures in which they have emerged. An understanding of these beliefs and traditions and the society in which they have developed is an important part of delivering culturally competent reproductive health care. In addition, specific populations have been and continue to be mistreated by the medical establishment regarding pregnancy and birth, including Indigenous communities, prisoners, people living in poverty, and African Americans. It is essential to be aware of historically mistreated populations to create a health care system based on justice and equity. In this survey course, a number of topics related to the historical, societal, and cultural elements of reproductive health will be discussed through the lens of public health.

UNAS171901
The Rule of Law and the Complex Meaning of Justice
Cassidy, R M
Fall 2022
This is an Enduring Questions course and is open to FRESHMEN only. You must take ENGL1729 with this course. How do societies define justice, and what role do lawyers, authors, and dramatists play in illuminating the many complex issues underlying this concept? In this course we will explore the range of experiences of law for its ministers (lawyers, judges, law enforcement agents) as well as for its recipients/supplicants (citizens, plaintiffs, defendants and victims). We will first begin with the question of what is justice and approach that issue from the standpoint of political theorists. What does justice mean? Is it fairness? equality? morality? maximization of utility? We will use Michael Sandels' *Justice: A Reader* as an introductory text to major political theorists on the justice question, from the ancients to the moderns. We will then examine how the law is mobilized and deployed by professionals as an instrument of justice. What do we mean by the rule of law, what roles do lawyers and judges play in safeguarding and promoting the rule of law, and what, if anything, does the rule of law have to do with justice? A set of topics has been selected to develop an understanding of the situational and systemic demands under which legal actors perform their roles in the United States. For this part of the course we will use Lord Thomas Bingham's reader *The Rule of Law*. The course concludes with an investigation of where lawyers stand in American society today, assessing whether they have succeeded or failed in their larger ambitions to protect the rule of law and to serve as architects of a just society. If not, how might they better serve both society and themselves in uncertain times? For this latter part of the course we will examine the work of two lawyers, one a criminal defense lawyer and one an environmental litigator, in the texts *Just Mercy* and *A Civil Action*.

**Real Estate and Urban Action: Transforming Communities and Increasing Access to Opportunity**  
McCullagh, Neil P  
Fall 2022
The course explores concepts of social economic and racial inequality with a focus on the interaction between housing, labor markets, and the ultimate accumulation of wealth. Housing will be examined through a study of the history of affordable housing, an exploration of the transformation of Columbia Point Public Housing Development to Harbor Point, and an applied simulation. Labor markets will be explored at the theoretical level (e.g., labor supply/demand, human capital, discrimination), before diving into data and literature on how changes over the last 40 years have expanded inequality. The course will conclude with how the lack of both affordable housing and quality labor market opportunities can interact to restrict intergenerational wealth accumulation and opportunity. The course will challenge students to explore and test solutions for transforming distressed communities into safe, desirable neighborhoods that produce better outcomes for all residents through field projects, simulations, and a practical final project.

UNAS172508
Real Estate and Urban Action: Transforming Communities and Increasing Access to Opportunity
McCullagh, Neil P
Fall 2022
The course explores concepts of social economic and racial inequality with a focus on the interaction between housing, labor markets, and the ultimate accumulation of wealth. Housing will be examined through a study of the history of affordable housing, an exploration of the transformation of Columbia Point Public Housing Development to Harbor Point, and an applied simulation. Labor markets will be explored at the theoretical level (e.g., labor supply/demand, human capital, discrimination), before diving into data and literature on how changes over the last 40 years have expanded inequality. The course will conclude with how the lack of both affordable housing and quality labor market opportunities can interact to restrict intergenerational wealth accumulation and opportunity. The course will challenge students to explore and test solutions for transforming distressed communities into safe, desirable neighborhoods that produce better outcomes for all residents through field projects, simulations, and a practical final project.

**Credits:** 0

**Room and Schedule:** Stokes Hall 201S M 06:00PM-07:25PM

**Satisfies Core Requirement:** Cultural Diversity, Social Science

Reckoning with Incarceration: The Stories that Must Be Told

Wells, Celeste C

Fall 2022
How do U.S. beliefs around justice, dignity, vengeance, safety, and rehabilitation shape administrative practices of incarceration and their effects on those imprisoned, their families, and their victims? We will consider the ways that the universal needs of justice and safety are understood by the legal system, social institutions (e.g., schools), popular culture, as well as victims and perpetrators of crime, and the families of both. Both courses will take for granted that the current mass incarceration system has been designed to focus on retribution versus rehabilitation and that ever-increasing mass incarceration rates are predicated on a legal system demonstrated to mete out justice unequally. Each class will examinesaid beliefs through the differing lenses of social science and literature.

Community Advocacy and Research Engagement  
Abowd, Thomas P  

Fall 2022  
CARE is a two-semester course (SOCY 3254/3255) that offers leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In fall, students in SOCY3254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In the Spring, students sign up for SOCY3255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

McGillicuddy-Logue Fellows Senior Seminar  
Wells, Celeste C  

Fall 2022
The course is restricted to a cohort of students who have participated in the broader McGillycuddy-Logue Fellow's program. This course is the culmination of the McGillycuddy-Logue Fellows Program. It is intended to help students reflect and expand upon their experiences in the program, including both academics and service. The final product of the course will be an electronic book, to be made available to the Boston College community and beyond via O'Neill Library's Open Access system. Each student will contribute a chapter dealing with a global policy issue of particular interest and relevance to them.

**Cross Currents Seminar: Thinking About Race**  
**Astacio, Chasneika; Bell, Karl**  
**Fall 2022**  
The Cross Currents: Thinking About Race seminar explores the concept of race; the effects of race on individuals; the presentation and negotiation of race in society; and the role of race at Boston College. The topics covered in the course are not only important, but also complex and provocative. The seminar is an opportunity to have candid conversations with others who are also exploring race and its effects in society. The seminar will help develop your understanding and intellectually through discussions with other students.

UNAS333201
Cross Currents Seminar: Thinking About Economic Inequality and College Student Life
Howell, Burton
Fall 2022
This seminar will look at the consequences of economic inequality in the lives of high financial need undergraduates studying at elite universities. Students will apply what they are learning in other classes to daily campus life. We will ask questions about the challenges of thriving at an affluent institution. The class includes readings from memoirs of low income students at Princeton, Vassar, Saint Michaels, Stanford, and Boston College. This course is recommended for Montserrat students.

Cross Currents: Thinking About Law and Economics (and Psychology)
Felter, John K
Fall 2022
In this seminar, we will explore how traditional and behavioral economic theories apply to the positive and normative analyses of laws, legal issues and legal systems. Incorporating psychology, we will investigate how behavioral economists have challenged or complemented the rational choice theory of traditional economics. To enjoy this seminar, no prior knowledge of law, economics or psychology is required. The assigned readings, response papers and meeting discussions will enable you to understand and to discuss all the topics that we will explore and to contribute to and actively participate in meeting discussions. This seminar will be provocative and stimulating not only for students who are interested in pursuing professional careers in law or economics or psychology or public policy, but also to a wider audience of students who are intellectually curious about how law, economics and psychology can be applied in real world situations and what influences the decisions and choices that we make in our daily lives.

Cross Currents: Thinking about Multicultural Leadership
Strzepek, Mitchell J; Thrasher, Howard
Fall 2022
This seminar is designed for sophomore students in the Fr. Rutilio Grande, S.J. Intercultural Experience community. The Fr. Rutilio Grande, S.J. Intercultural Experience for sophomores is home to students who share a passion for exploring issues of diversity and social justice and becoming agents of social change. This community is for students who are committed to leadership development, and who see leadership as a collaborative process to promote social change. By participating in the seminar, students will have the opportunity to further develop their own leadership skills, explore their passions, and apply knowledge in order to have a positive impact on their community.

Cross Currents Seminar: Thinking about Intercultural Competency
Goode, Matthew L
Fall 2022
Students entering the workforce today, no matter what profession or field of study, need to be equipped with the knowledge, skills, and attitudes to successfully interact with colleagues, clients, customers and communities who are different from themselves. This seminar will help students develop their knowledge and skills through intentional exposure to relevant theoretical materials, meaningful and structured interactions with diverse groups of people, and reflection on the impact of these experiences on their own identities and their relationships with others. Experience with domestic and international diverse populations will be explored.

Designing Your Career: An Exploration Course
Raposa, Tara
Spring 2023
This course is open to sophomores, juniors and seniors in the Morrissey College of Arts and Sciences, Woods College of Advancing Studies, and Applied Psych majors within the Lynch School of Education. Please note that this course is not open to freshmen. In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

Innovation through Design Thinking
Rutirasiri, Chokdee R
Spring 2023
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Global Ethics and Pragmatic Solidarity  
Estelrich Barcelo, Bartomeu; Lykes, M B  
Spring 2023  
This interdisciplinary seminar offers participants an opportunity to critically reflect upon selected philosophical and social scientific readings and their lived experiences towards understanding multiple local and global systems and structures that give rise to and sustain social injustice. Specifically, you will begin by exploring your social positions at the intersection of 'race,' gender, social class, sexuality, ethnicity, language, abilities, etc. You will develop criteria for understanding the multiple local and global contexts in which you live towards exploring options for taking actions alongside individuals and communities directly affected by social injustices. You will also explore how action-reflection processes can contribute to clarifying your self-understanding and social position vis-à-vis each other and those with whom you act locally and globally.

Why Do the Wicked Prosper?: Portraits of Good and Evil in Literature
Michalczyk, Susan A
Spring 2023
This is an Enduring Questions course and is open to FRESHMEN only. You must take FILM1702 with this course. At the heart of so many stories told through the centuries, the question: Why do the wicked prosper? remains without an answer, as authors and artists offer endless interpretations, lessons with or without morals, to an audience eager for explanations. Students will have opportunities to study narratives of heroes and villains, and reflect upon the ways in which writers influence how we think about good and evil in the world, how we react to the unfairness we see happening around us, and how we come to terms with our own choices and understanding of the complexities of human nature.

Credits: 3

The "Other" Americans: Representation and Reality in Asian America  
Oh, Arissa H; Tran, Anthony D; Yang, Hongyan  
Spring 2023
This is a Complex Problems course and is open to FRESHMEN only. You must take HIST1621 with this course. Asian American history is American history. It is simply not possible to understand why the United States looks the way it does today without understanding the roles American interactions with Asian nations and people have played in the development of US society. Despite being key figures in immigration, trade, and foreign policies and domestic contests around race, class, gender, and sexuality, Asians in America are continuously (un)seen as the Other Americans. This course will explore the history and mediated representations of Asians in the US to understand how US society has constructed Asians in America, and how Asian Americans have sought to speak for themselves. By analyzing primary sources, films, television, and digital media - as well as producing their own media based on historical materials - students will critically engage with US history as both historians and media producers to examine the complex ways Asian Americans have shaped America itself.

**Credits:** 3  
**Room and Schedule:** 245 Beacon Street Room 102 TuTh 09:00AM-10:15AM  
**Satisfies Core Requirement:** History II, Cultural Diversity, Arts  
**Prerequisites:** None

**Institutional Disparity: Equity and US Education**

Black, Jessica M

Spring 2023
In what ways do inequities and disparities in education associate with biological, psychological and social development in children and adolescents? This course will examine the structure and process of education as an institution in contemporary society, focusing primarily on educational settings and schooling in the United States. You will learn how to apply key neuroscientific and educational psychology principles to the study of education with an emphasis on how educational systems function to both reproduce and challenge longstanding social inequities. We will examine how key concepts such as toxic stress, sense of belonging, marginalization, bullying, identity formation, and sleep inform educational attainment and trajectories of children and adolescents in formal and informal school settings. Through such examination, we will consider the many ways that education differentially allocates resources, expectations, and opportunities.

Community Advocacy and Research Engagement
Abowd, Thomas P
Spring 2023
CARE is a two-semester course (SOCY 3254/3255) that offers leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In fall, students in SOCY3254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In the Spring, students sign up for SOCY3255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

Cross Currents Seminar: Thinking About Race
Bell, Karl;Mashmasarmi, Denise
Spring 2023
The Cross Currents: Thinking About Race seminar explores the concept of race; the effects of race on individuals; the presentation and negotiation of race in society; and the role of race at Boston College. The topics covered in the course are not only important, but also complex and provocative. The seminar is an opportunity to have candid conversations with others who are also exploring race and its effects in society. The seminar will help develop your understanding and intellectually through discussions with other students.

Cross Currents: Thinking about Multicultural Leadership
Tepper, Zachary; Thrasher, Howard
Spring 2023
This seminar is designed for sophomore students in the Fr. Rutilio Grande, S.J. Intercultural Experience community. The Fr. Rutilio Grande, S.J. Intercultural Experience for sophomores is home to students who share a passion for exploring issues of diversity and social justice and becoming agents of social change. This community is for students who are committed to leadership development, and who see leadership as a collaborative process to promote social change. By participating in the seminar, students will have the opportunity to further develop their own leadership skills, explore their passions, and apply knowledge in order to have a positive impact on their community.

Cross Currents: Thinking about Discernment
Anderson, Carly C; Papula, Marissa
Spring 2023
This class will introduce students to the Ignatian practice of discernment through selected readings, class discussion, and praxis. Students will draw upon their undergraduate experience and postgraduate aspirations in order to develop the skills to discern such as reflecting, listening, imagining, seeking the guidance of wisdom figures, and evaluating ones orientation to questions of ultimacy. At the end of this class, students will be able to utilize Ignatian principles of discernment towards holistic vocational concerns including relationships, professional pursuits and social justice.

Cross Currents Seminar: Thinking about Intercultural Competency  
Lowe, Patricia N; Nussbaum, Adrienne J  
**Spring 2023**  
Students entering the workforce today, no matter what profession or field of study, need to be equipped with the knowledge, skills, and attitudes to successfully interact with colleagues, clients, customers and communities who are different from themselves. This seminar will help students develop their knowledge and skills through intentional exposure to relevant theoretical materials, meaningful and structured interactions with diverse groups of people, and reflection on the impact of these experiences on their own identities and their relationships with others. Experience with domestic and international diverse populations will be explored.

Faith, Peace, and Justice Senior Project Seminar
Sweeney, Meghan T  
Spring 2023  
Open only to senior students in the FPJ Program. This course provides the finishing touch for students in the program for the Study of Faith, Peace, and Justice. Students enrolled in the seminar work closely with a faculty project advisor from the department of their major and present the preliminary results of their project study in the seminar. Students and faculty responses to the presentation will help shape the presenter's project into a finished form. The seminar provides a unique opportunity for the individual student to integrate several years of study in the Program while at the same time learning about an interesting range of issues from fellow students.

Responding to Campus Sexual Assault

Humphrey, Kimberly A; Rhodes, Elizabeth

Spring 2023

Available to all Boston College graduate students. According to current statistics, there is likely at least one survivor of sexual assault in any college classroom. Understanding that faculty members are a crucial and largely untapped resource in addressing this reality, RCSA provides future faculty in all disciplines with skills and resources to effectively respond to campus sexual assault wherever they are teaching. With content pertinent to all disciplines and a hands-on methodology, the seminar honors the potential and limits of faculty intervention in this context. Participants will acquire (1) awareness of common symptoms of survivorship and how those symptoms can relate to education, (2) tools to identify students who may need extra support without infringing on privacy, and (3) greater confidence in responsible and compassionate response to student disclosures, within the parameters of legal requirements. The program will enrich participants' professional background as well as provide them with unique training of interest to potential employers.

Global Public Health and the Common Good
Courses: Summer 2022

PHCG121001
Public Health in a Global Society
Edmonds, Joyce K;Hawkins, Summer S
Summer 2022
This foundation course presents public health as an interdisciplinary science focused on health promotion and disease prevention at the population level. The course provides an overview of the history of public health, global burden of disease, sub-disciplines of public health, maternal/child health, and nutrition, and emphasizes the collaborative nature of the field through examples in research and practice. An inherent principle in public health is advancing social justice and this course, and the public health sequence more broadly, focuses on at-risk populations, reducing health disparities, and improving health equity at the population level.

PHCG121001
Public Health in a Global Society
Longacre, Ashley;van de Water, Brittney
Fall 2022
This foundation course presents public health as an interdisciplinary science focused on health promotion and disease prevention at the population level. The course provides an overview of the history of public health, global burden of disease, sub-disciplines of public health, maternal/child health, and nutrition, and emphasizes the collaborative nature of the field through examples in research and practice. An inherent principle in public health is advancing social justice and this course, and the public health sequence more broadly, focuses on at-risk populations, reducing health disparities, and improving health equity at the population level.

**Maternity and Science: Society, Culture, & Public Health**  
**Casebolt, Megan**  
**Fall 2022**

In what ways is the maternal experience informed and determined? Birth is one of the building blocks of the human experience. Throughout history, cultures around the world have developed specific beliefs, traditions and rituals regarding menstruation, pregnancy, birth, and infant care. These are related to the societal structures in which they have emerged. An understanding of these beliefs and traditions and the society in which they have developed is an important part of delivering culturally competent reproductive health care. In addition, specific populations have been and continue to be mistreated by the medical establishment regarding pregnancy and birth, including Indigenous communities, prisoners, people living in poverty, and African Americans. It is essential to be aware of historically mistreated populations to create a health care system based on justice and equity. In this survey course, a number of topics related to the historical, societal, and cultural elements of reproductive health will be discussed through the lens of public health.

**Credits:** 3

PHCG212001
Introduction to Epidemiology
Longacre, Ashley
Fall 2022
Epidemiology is the study of the distribution and determinants of health and disease in populations, and the application of this knowledge to improve health outcomes. This course will provide an introduction to the basic concepts and methods of epidemiology. Topics will include: measures of disease occurrence and association, study design, basic statistics, reading and interpreting published epidemiological studies, and special topics (e.g. chronic disease epidemiology, outbreak investigations), with an emphasis on critical thinking and application.

PHCG213001
Global Public Health Law
Chirba, Mary Ann; Wirth, David
Fall 2022
This course will examine the critical role of law in creating and implementing social policy and achieving (or at least seeking) social justice. Through the lens of current global trends, it will study the ways in which laws and regulations operate to promote and protect—as well as impede—both individual and public health at the local, national, and international levels. Specific topics may include the following: global differences in the definition of health care as a human right, expanded trace in agricultural products, domestic threats to public health, anthropogenic organic compounds, and the integrity of resources of the global commons. This course is designed to instill the policy-makers of tomorrow with the active skill set necessary to grapple with new public health challenges as they arise.

Room and Schedule: 245 Beacon Street Room 214 TuTh 10:30AM-11:45AM
PHCG321001
Contemporary Issues in Public Health
Hawkins, Summer S
Fall 2022
This course provides students the opportunity to apply the foundational skills of public health to contemporary public health issues. The course integrates data and research to begin a more in-depth examination of the major burdens of disease and several emerging areas of concern. With a consistent goal of reducing health disparities, the course identifies population-level risk factors as well as evidence-based interventions for health promotion and disease prevention. Principles and concepts learned in Public Health in a Global Society are reinforced through specific health conditions, behaviors, and topics.

In this course, students will take the theories and disciplinary practices learned in other global health courses and learn how to apply this knowledge in practical situations. A series of case studies describing real life global health programs, policies, and interventions will be used to present how many diverse disciplines were necessary to address complex public health programs. The case studies will also illustrate the importance of community-based and participatory methods in the day to day work of public health. Students will also assess the case studies to determine best practices and lessons learned from each case that they can then apply in their own future global health work.

PHCG170201
Institutional Disparity: Equity and Global Health
Casebolt, Megan
Spring 2023
This is an Enduring Questions course and is open to FRESHMEN only. You must take SOCY1728 with this course. This class will be focused on answering the following question: How do we, as a global society, perpetuate inequalities and disparities in health? And why do we continue to tolerate them? Using a combination of documentary films, scientific studies, case studies, and statistical analysis, we will assess how people around the world experience health and health care differently. Specifically, this course will focus on disparities in health outcomes and the accessibility of healthcare services based on race, ethnicity, education, income, class, caste, sex, gender, sexuality, place, and environment and how the identities intersect. The social determinants of health model will be used to frame these disparities. This class is paired with a sociology class assessing equity and education and there will be cohesion between the two sessions, with specific sessions that will be touchpoints between the courses.

PHCG200001
Spatial Data Science and Applications
Pan, Susan S
Spring 2023
We live in a digital and data-intensive era, and geospatial technologies have penetrated every aspect of our lives, from digital maps and location services on our smartphones to managing city infrastructure, natural resources, and the environment. The principal purpose of Spatial Data Science (SDS) is to find patterns within massive spatial data and solve data-intensive and location-based problems facing people almost daily. This course primarily aims to familiarize students with the basic concepts of spatial thinking, geospatial technologies, AI and Machine Learning, and cloud-based platform used to create a Digital Earth. It is an introductory course that focuses on how geospatial data is visualized, explored, and analyzed in digital formats. This course is intended to equip students with the basic skills to locate, gather, and use spatial data for predictive analysis, pattern detection and clustering, decision-making with location-enabled data, etc. This course also provides several case studies for a deeper understanding of how spatial data can be used to monitor, assess, and predict climate change, food and energy security, water and air quality, and public health (e.g. the spread of COVID-19).

PHCG312001
Cancer Epidemiology
Straif, Kurt H
Spring 2023
Cancer is the second leading cause of death today in many countries around the world in the aftermath of the epidemiological transition. Globally, cancer incidence will increase from an estimated 18.1 million new cases in 2018 to 29.5 million new cases by 2040, with the majority of the increase expected in low- and middle-income countries. Cancer is not a single disease, but comprises a broad spectrum of diseases. This course will provide the student with a thorough understanding of the biology and classification of tumors, the global descriptive epidemiology of cancer incidence, mortality, and survival. No country can treat its way out of the rising global burden of cancer. Therefore global cancer control strategies must focus on primary and secondary prevention of cancer as the most effective response to these public health challenges. The first step in cancer prevention is to identify the causes of human cancer and to determine what works in cancer prevention. The aim of the course is to provide the student with the knowledge and skills to identify relevant cancer types, their established and suspected risk factors and established measures of primary and secondary prevention (screening) of cancer, globally, regionally, and nationally. Within and between countries the poor are often more affected by cancer, therefore cancer control must also aim to reduce the social inequalities in cancer.

The Ethics of Global Public Health and the Common Good
Vicini, Andrea, SJ
Spring 2023
Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes. International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

Children's Health and the Environment
Landrigan, Philip J
Spring 2023
This course will provide students with fundamental understanding of the powerful influence of the environment on health and disease in children. It will enable students to understand why children are uniquely sensitive to toxic chemicals and other environmental hazards and how toxic exposures in early life can influence risk of disease across the life span. It will familiarize students with the major environmental hazards of our time, including lead, mercury, pesticides, and air pollution as well as with the links between the built environment, climate change, and children's health. Using case studies, it will explore the linkages between children's environmental health and social justice. It will conclude with a discussion of options and strategies for translating science to public policy to prevent diseases of environmental origin in children.

TMCE727601
Ecowomanist Ethics
Harris, Melanie L
Summer 2022
Ecowomanism is an approach to environmental ethics that centers the perspectives, theoretical analysis, and life experiences of women of color specifically women of African descent. It focuses on the ways these womanist voices contribute new attitudes, theories and ideas about how to face the ecological crises we are living in today. This course will introduce students to foundational conceptual frameworks and methods in ecowomanism. The environmental activism of three historical figures, Fannie Lou Hamer, Harriet Tubman and Alice Walker (not in historical order) will serve as the base for our study. During the course students will learn how to apply Womanist virtue ethical method by which to glean significant values from the life work, writings and activism of the aforementioned figures. As a learning community we will also apply an ecowomanist method and engage womanist intersectional race-class-gender and anti-oppression forms of analysis as we examine links between oppressions suffered by women across the globe and oppressions suffered by the earth.

TMCE721601
Virtue Ethics
Daly, Daniel J
Fall 2022
This course introduces the emerging field of Christian virtue ethics. The course begins with a study of the theological and philosophical theories of virtue that have shaped contemporary Catholic and Protestant accounts of virtue. Attention is given to the relation of virtue theory and the virtues to: the Gospels and the life of Jesus; the Christian community; theological anthropology; human happiness; the natural law; and moral norms. The course also discusses the academic and pastoral uses of virtue ethics through the examination of contemporary cases in light of the virtues.

TMCE716401
Call and Response: an Introduction to the Moral Life
Iozzio, Mary Jo
Spring 2023
This course introduces the primary sources of the Catholic moral traditions from the Commandments and Beatitudes to the moral and theological virtues as a call and response to Christian discipleship. Attention will be given to the tradition's warrants aligned with moral thought and the philosophical traditions of the virtues and the natural law. Key subjects considered are freedom, authority, sin, conscience, and virtue as well as discernment of the ways to be in a world paradoxically coherent with and contrary to the invitation God extends to all, development of those skills and practices that contribute to growth as a moral agent, and recourse to the remedies of failures encountered along the pilgrim's way.

TMCE808201
Social Sin, Responsibility, Accountability and Justice
Iozzio, Mary Jo
Spring 2023
This course builds on Catholic social teaching found in the magisterial documentary history and brings the insights on social sin to bear on responsibility, accountability, and justice. Attention will be given to primary sources in light of the contemporary critique of abusive/sinful practices among persons with institutionalized power and authority exposed in anti-racist, post-colonial, and liberation thought. The course a) presents the common good as justice developed in these traditions, b) explores responsibility for the social, economic, educational, health, legal, and political status of vulnerable persons, and c) considers accountability by realizing the preferential option for the poor.

TMTM200801
Introductory Latin: Summer Intensive
Harkins, Franklin T
Summer 2022
This elementary course in Latin presumes no prior study of the language. Basic principles of Latin phonology, morphology and syntax will be treated in classes and reinforced by regular homework exercises and their review in class. Emphasis will be placed on the vocabulary that is appropriate to the various theological disciplines. This course is highly intensive and requires significant weekly work and a fair measure of independent learning. Students will be expected to master the basic grammar and most common vocabulary. There will be optional review sessions held on Friday May 27, June 10 and June 24.

**Jews and Christians: Understanding The Other**  
**Langer, Ruth**  
**Fall 2022**
This course is an exercise in interreligious learning sponsored by the Boston College's Center for Jewish-Christian Learning. Interreligious dialogue requires interreligious understanding. This course will build a foundation for genuine dialogue between Jews and Christians by posing fundamental theological questions in a comparative context. Students will gain an understanding of the other tradition while also deepening their understanding of their own, discussing such matters as the human experience of God, the purpose of human existence, the nature of religious community, and the ways that the communities respond to challenges, both contemporary and ancient.

New Testament Greek II
Kakavas, Maria
Spring 2023
The main objective of the course is to be able to read the New Testament in the original. This is the second part of the two-semester course where we will finish all Croy's lessons, provided that a good understanding and working knowledge of the material has been attained. We will cover a chapter every two class meetings, and the third meeting we will have a review, a quiz, and may introduce a new chapter depending on the progress. The students will be expected to master the basic grammar and most common vocabulary of the New Testament Greek, complete all assignments on time and participate actively in class.

TMTM728701
Undoing Anti-Judaism in the Church
Joslyn-Siemiatkoski, Daniel
Spring 2023
The purpose of this course is to develop strategies by which the anti-Judaism endemic to
Christian traditions can be recognized and undone. This course will begin with an examination
of the development and workings of Christian anti-Judaism. Attention will then turn to how such
anti-Judaism has entered into Christian life and practice, especially within the context of
teaching, preaching, and worship. The course will conclude with developing new approaches to
resisting anti-Judaism in Christian contexts and public spaces.

TMTM728801
Israel in Jewish Theologies
Langer, Ruth
Spring 2023
Israel, both the people and the land, are central to Jewish theology as concrete manifestations of Gods covenants. This course will explore the evolving meanings of these concepts from the Bible to today, looking at themes like peoplehood, life in the land, exile from it, and (messianic) return. The second part of the course will focus specifically on the theologies of a range of modern Jewish thinkers, with the goal of helping students to understand aspects of contemporary Israel and its meaning to world Jewry.

Events over the past decade have illustrated how antisemitism, racism, and Christian nationalism are intertwined ideologies. This course will offer a historical and thematic investigation into how these three ideologies emerge within Christian contexts, the ways in which Christian theologies and institutions inform them, and modes of resistance to them. A core outcome of this class will be to recover and generate theological positions that actively counter these ideologies.

TMTM729001
Shared Scripture ? Divided Faiths: The medieval Jewish-Christian encounter over the Hebrew Bible / Old Testament
Van Liere, Franciscus
Spring 2023
This course will explore the history of medieval Christian Hebraism and its consequences for the perception of the Jewish other. Starting with Jerome, Christian scholars have seen the Hebrew Bible, rather than the Septuagint, as the authoritative version of the Old Testament. In the course of medieval history, this led Christian scholars to seek contact with Jews and Jewish sources, to better understand this text. In various ways, these encounters shaped Christians perceptions of Jews, both in negative and positive ways. The course will survey the work of patristic and medieval authors such as Jerome, Bede, Andrew of Saint Victor, Nicholas of Lyra, Paul of Burgos, and Matthias Doering.

Popes and the Papacy: From Peter to the Present
Mooney, Catherine
Fall 2022
A survey course on the papacy from St Peter to Francis I with attention to spiritual, theological, and institutional contexts. We will explore issues such as papal primacy, ground-breaking teachings and councils, influential women, controversies including the crusades, Protestant Reformation, church expansion in the global South, infallibility, the Holocaust, racial and social justice concerns, the role of the laity, womens ministries, and gender topics. Papal relations with the Jesuits receive special attention. Lectures with regular opportunities to discuss primary source readings and their relevance today.

Discernment and Prayer in the Spiritual Exercises of St. Ignatius
Geger, Barton T, SJ
Spring 2023
This is a Graduate level online course. A study of the spiritual doctrine of St. Ignatius Loyola as articulated in the text of the Spiritual Exercises, but with reference to other texts such as Ignatius' Testament, letters, and the Constitutions of the Society of Jesus. The focus is how Ignatius' treatment of prayer, discernment of spirits, and discernment of God's will, work together to form a "contemplative in action."

TMHC717901
History of Western Christianity III: Catholicism from the French Revolution to Vatican II
von Arx, Jeffrey
Spring 2023
What John OMalley, S.J. calls the Churchs "long nineteenth century," from the French revolution to the 1950's, although often considered a period of secularization, was also a great age of renewal for the Roman Catholic Church. It witnessed a tremendous institutional growth of the Church, the assertion of doctrinal and administrative control from Rome known as ultramontanism, the flowering of spirituality and devotional life, and the spread of the faith from Europe throughout the world by means of extensive missionary activity. This course will consider the institutional and intellectual transformation of the Church in the nineteenth century, but will also pay close attention to changes in popular piety and the social role of the Church. Focus will be both topical and regional.

TMHC722801
Introduction to Thomas Aquinas
Harkins, Franklin T
Spring 2023
This course provides an introduction to the theology of Thomas Aquinas (c. 1225-1274) in its historical, intellectual, and institutional contexts, with a focus on reading and understanding the primary texts of Thomas (in English translation). The course considers Thomass treatment of central theological topics including the nature and extent of theology, the status and interpretation of Sacred Scripture, the existence and essence of God, divine providence and predestination, Gods triune nature, creation, human nature, evil and sin, grace and its effects, merit, faith and its relationship to reason, the Incarnation, Christs passion and death, His resurrection and ascension, and the sacraments. Throughout attention will be given to Thomass assumptions and working method as a scholastic master and the uses he makes of various authorities (scriptural, patristic, philosophical, etc.) in the development of his theology.

Credits: 3
Room and Schedule: Simboli Hall 130 F 09:00AM-12:00 Noon
Where Two or Three are Gathered: A History of Religious Life in the West
Molvarec, Stephen J, SJ
Spring 2023
This course will consider broadly and in narrative fashion the existence of religious life and religious communities in the history of the church, primarily in the West. From the early days of the church, intentional communities have existed. Eventually, communities of desert monastics arose and monastic rules developed. Religious life came to be ordered in particular ways, eventually in what we would think of as religious orders with governing structures, but also in the form of confraternities and lay movements. This course will explore instances of religious life - lay, vowed and clerical - from the deserts to the cities, from patristic times through the medieval, modern, and postmodern periods. The course will consider not only arrangements and institutions, but also the spirituality of various groups and the attempt to follow Christ more closely by Christian women and men throughout time.

Credits: 3

TMHC803101
Seminar: Doctors of the Church: Hildegard, Catherine, Teresa and Therese
Mooney, Catherine

Spring 2023
Just four women have been designated Doctors of the Church. They were, variously, church reformers, subjects of inquisitions, founders of religious movements, counselors to prelates, spiritual directors, theologians, preachers, visionaries, mystics, artists, religious nun or laywoman. We will examine how world events, ecclesiastical politics, and theological currents shaped and were shaped by them. The course will examine their writings; how each woman understood herself, the Church, and Christian life in their respective eras; how their contemporaries understood or misunderstood them; and what motivated popes to declare them Doctors of the Church; and what they have to teach us today.

The Book of Job in the Middle Ages
Harkins, Franklin T
Spring 2023
Throughout the Middle Ages the Old Testament Book of Job attracted the attention, scholarly acumen, and artistic insight of a number of Christian clerics, exegetes, theologians, philosophers, historians, poets, and painters. This course surveys some of the most important medieval Christian engagements with and interpretations of Job, both in exegetical and theological works (e.g., the Moralia of Gregory the Great; the commentaries of Thomas Aquinas, Albertus Magnus, and Nicholas of Lyra; and commentaries on the Sentences of Peter Lombard), on the one hand, and in vernacular and popular works (e.g., artistic depictions, Old English literature, the sermons of John Wycliffe and his followers), on the other.

Pilgrimage is a phenomenon that has shaped Christianity from its inception to our days. The immense popularity of the Camino de Santiago de Compostela, in Spain, has generated numerous reflections in recent decades, as well as a flood of works, both popular and scholarly. Taking a large view, the course will explore the history and theology of the practice of pilgrimage, especially in its Christian dimension, but extend also to its actuality as a spiritual practice at the frontier of the institution (within and without), and linked to the narrative construction of the self. The scope of documents read will include historical documents, spiritual texts, Church documents, contemporary narratives and studies, as well as films.

TMNT727101
The Parables of Jesus
Roth, Dieter T
Summer 2022

Though it is widely recognized that the parables play an important role in the NT and in the study of Jesus, nearly every aspect of the study of parables beyond this most basic of statements has been the subject of vigorous debate. Everything from the definition of a parable to the number of parables in the NT to the proper interpretation of parables to how parables relate to the study of the historical Jesus--all of these issues and more have been contested and disagreed upon by NT scholars. Thus, this course seeks to provide students with insight into the history of scholarship on parables and to provide students with the knowledge and tools both to understand the parables better and to interpret them.

New Testament Courses: Fall 2022

TMNT701301
Acts of the Apostles
Matthews, Christopher
Fall 2022

An exegetical analysis of Luke's narrative of the birth and growth of the early church and its key theological themes (e.g., God, Jesus, the Holy Spirit, the twelve apostles, Jerusalem, the church, Jews and Christians, the Gentiles, Christology, eschatology, mission, salvation history). The treatment will proceed with particular attention to the Gospel of Luke, the genre and purpose(s) of Luke's second book, and the life setting of the Lukan author and audience.

New Testament Courses: Spring 2023

TMNT702301
Introduction to the New Testament
Monnig, Matthew S
Spring 2023
The New Testament is a collection of diverse writings that are central to Christian faith and life. This course will introduce students to the literary characteristics, historical context, and theological content of these writings and to the methods and approaches associated with the modern discipline of biblical studies.  

Credits: 3
Room and Schedule: Simboli Hall 130 TuTh 08:00AM-09:20AM
Satisfies Core Requirement: None
Prerequisites: None
Our study of Matthew's Gospel will attend to its literary features, social context, and theological content. In addition to helping us understand how the Matthean author used various sources to write his distinct narrative of Jesus' ministry, Passion and Resurrection, historical-criticism will assist in contextualizing both author and community within a late first-century multi-cultural context. As the most commented upon Gospel in the early Church, we will also consider how Matthew's emphasis on the OT and understanding of Jesus were received by early Christians who sought to articulate Christianity in light of the controversies at that time (e.g., Marcionism).

New Testament Gospels
Monnig, Matthew S
Spring 2023
This is an introductory core course on the four New Testament Gospels. Among the primary aims of this course is to provide an overview of the structure and content of each of the four Gospels (Matthew, Mark, Luke, and John) and an analysis of various scholarly methods for interpreting them. This course will review what scholars call the Synoptic Problem, an investigation into the relationship of the Synoptic Gospels (Matthew, Mark, and Luke) to one another, and discuss the arguments for and against the hypothetical source known as Quelle. This course will also discuss the relationship between the Gospel of John to the Synoptic Gospels, and the relationship between the Gospels and other relevant texts like the Gospel of Thomas. This study of the Gospels will be situated in an ecclesial framework that includes a theological perspective.

TMOT701401
The Core Narrative of the Old Testament: Genesis to Kings
Waters, Jaime L
Fall 2022
A study of the Pentateuch and the Deuteronomistic History (Deuteronomy to Kings) through lectures, and sections in which students present an exegesis of important passages. Solid knowledge of these books is essential to understand the rest of the Bible. This course does not duplicate other introductions, for we read only Genesis through Kings (not the Prophets, Wisdom Literature, or Psalms), and a third of the class time is devoted to small sections, which are designed to sharpen exegetical and preaching skills.

TMOT722601
Biblical Spirituality
Davis, Andrew R
Fall 2022
This course will explore the spirituality of the Old Testament by looking each class at a selection of biblical texts and secondary literature that shed light on a different spiritual theme. The abiding questions for the course are simple: What is biblical spirituality, and what does the Old Testament offer this spirituality?

Prophets
Davis, Andrew R
Spring 2023
This course provides a historical, literary and theological overview of the prophets and the prophetic books in the Hebrew Bible. Although we will look at the Former Prophets, most of the class will focus on the Latter (Writing) Prophets. When possible, we will read prophetic books in their entirety, but for longer books we will read selected texts. By the end of this course I hope that you will better appreciate the rich diversity of form, style and theology we find in the prophetic books.

TMOT810001
Women in Scripture
Waters, Jaime L
Spring 2023
This course will begin with an overview of feminist biblical hermeneutics--its history and variety--and then we will examine depictions of women throughout the Christian Bible. Part of this analysis will consist of looking at these depictions from different feminist perspectives. Another part of our analysis will be a consideration of the stories' social and cultural contexts, especially what archaeology can tell us about women's lives in antiquity.

TMOT810101
Job and Suffering
Davis, Andrew R
Spring 2023
This course examines how the Hebrew Bible addresses questions around human suffering. After surveying different biblical perspectives, we will immerse ourselves in the Book of Job, in which Job and his friends (and, ultimately, YHWH) consider the meaning of Job's suffering. While this course is primarily interested in the theologies of the Book of Job, we will also take into account the book's literary artistry, redaction history and historical context. By the end of this course I hope you will have a better understanding of this important book, which is as timeless, complex, and inexhaustible as the mystery it contemplates.

Pastoral Studies Courses: Summer 2022

TMPS709301
Introduction to Pastoral Care and Counseling: A Narrative Approach
Kelley, Melissa M
Summer 2022
In this introduction to pastoral care and counseling, you will reflect on the discipline as a charism for the whole people of God that can be practiced in empowering and teachable ways. Focusing on how people shape their lives through stories, you will explore congregational and personal family systems and self care practices. Particular topics to be addressed will be family counseling, violence, crisis ministry, depression, substance abuse, and boundaries in ministry. You will explore the theological horizons of pastoral care and counseling, including the interface between counseling ministry, sacramental ministry, and Ignatian spirituality.

Pastoral Studies Courses: Fall 2022

TMPS700601
Grief and Loss
Kelley, Melissa M
Fall 2022
Grief may be understood as the response to a significant loss. We will explore pastoral, theological, religious, and secular perspectives on grief and loss and seek to integrate these perspectives where appropriate. We'll consider important new research in thanatology and review traditional psychological theories of grief in light of contemporary critiques. We will explore the experience of grief in light of context and culture and consider which features may be universal. We will attend to often unrecognized dimensions of grief—disenfranchised grief and the grief born of injustice. We'll focus on how to respond pastorally to grieving individuals and communities.

The Practice of Ministry with Youth and Young Adults  
O'Keefe, Theresa A  
Fall 2022  
This course aims to explore elements critical to the effective practice of ministry for and with youth and young adults. Considering the broad demographics herein, this class attends to fostering the skills of discernment and mentoring, which would be valuable across the spectrum of these varied constituencies and contexts. Together the class explores the contexts of the ministry (ecclesial and social), identifies a vision for the work, and considers how that vision might assist in discerning God's action in and direction for work with youth and young adults.

TMPS707801
Pastoral Care of the Family
Kelley, Melissa M
Fall 2022
This course presents specific topics that are important for effective and compassionate pastoral care of families today. We will examine challenging realities that may shape and/or disturb families and lead members to seek pastoral care, such as domestic violence, substance abuse, imprisonment of a family member, grief and loss, and family caregiver stress. We will consider the specific needs of families affected by injustices and harsh difficulties such as poverty and immigrant/refugee status. We will consider the specific roles and strategies of the pastoral caregiver and the faith community in helping families to negotiate challenges and create stability and well-being.

Spiritual Formation for Ministry
Glynn, John E;Quinn, Barbara
Fall 2022
This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program.

Ministry in a Diverse Church: Latino Perspectives and Beyond
Ospino, Hosffman
Fall 2022
Catholicism in the United States is presently shaped by rich cultural traditions that demand creative approaches to ministry in the midst of diversity. Nearly 45% of all Catholics in the country are Hispanic, 40% Euro-American, 4% Asian-American, 3.7% African-American, among others. Students in this course explore key questions and discuss ministerial strategies that will help them develop cultural competencies for effective ministry today. The course builds on the U.S. Latino/a Catholic experience as a case study while addressing core issues in ministry that affect everyone in the Church. Ecumenical and international perspectives are welcomed into this conversation.

TMPS720701
Professional Ministry Practicum
Weiss, Joseph E, SJ
Fall 2022
Students receive 3-credits in the fall semester and 3-credit in the spring semester. The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

TMPS728001
Introduction to Theological Reflection
Keefe-Perry, Lincoln Birch; Oliveros, Diane Francesca A
Fall 2022
This year-long course is one credit. The class is part of the Contextual Education requirement for MATM students and is focused on developing the skills needed to meaningfully integrate life experience and service with theology, theory, and knowledge of scripture. Short readings will accompany each monthly session and class time will be spent on a mix of discussion and reflection on case studies. Section 01 is for residential students and meets once a month for two hours. Section 02 is for hybrid students and meets online asynchronously.

TMPS728002
Introduction to Theological Reflection
Keefe-Perry, Lincoln Birch; Oliveros, Diane Francesca A
Fall 2022
This year-long course is one credit. The class is part of the Contextual Education requirement for MATM students and is focused on developing the skills needed to meaningfully integrate life experience and service with theology, theory, and knowledge of scripture. Short readings will accompany each monthly session and class time will be spent on a mix of discussion and reflection on case studies. Section 01 is for residential students and meets once a month for two hours. Section 02 is for hybrid students and meets online asynchronously.

TMPS728201
Forming Ministers for Retreat Preparation and Facilitation
Papula, Marissa; Quinn, Barbara
Fall 2022
This module will address necessary elements in retreat preparation and facilitation for directors: logistics, planning, rhythm, and execution of retreats for college students and other adult populations. It aims to prepare ministers to effectively discern the needs of the community they are serving, to prayerfully prepare themselves for the direction of retreats, and to cultivate skills toward pastorally and practically preparing for the retreat event itself. Through reading, reflection, collaborative discussion, and the creation of an original retreat model, students will imagine the creation and animation of sacred spaces, nurturing their own spiritual lives in order to better lead others to God.

Credits: 1
Room and Schedule: Fri 9/23, 10/28 4:30 pm-8:00 pm, Sat 9/24 2:00-6:00 pm, Sat 10/29 8:30 am-12:30 pm; Simboli Hall 135 F 04:30PM-08:00PM; Simboli Hall 135 Sa 02:00PM-06:00PM; Simboli Hall 135 Sa 08:30AM-12:30PM

TMPS728601
Lifespan Pastoral Care and Counseling
Smith, Walter J, SJ
Fall 2022
This foundational course will survey contemporary issues in lifespan pastoral care ministry from developmental, biopsychosocial, theological, and spiritual perspectives. Employing didactive, dialogic, and experiential learning modalities, the course will offer weekly opportunities for laboratory engagement with issues, traumas, and critical challenges that pastoral caregivers encounter. This course will seek to identify, develop, and/or enhance the basic assessment, helping, and referral skills needed by pastoral caregivers to provide astute, competent, compassionate, and supportive spiritual care and counsel to people in need.

Contextual Education  
Keefe-Perry, Lincoln Birch; Oliveros, Diane Francesca A  
Fall 2022  
This is the supervised ministry requirement of the MATM and MAPM, completed in the latter part of degree work. Composed of two elements: work at a supervised ministry site; and participation in the classroom component (on-campus for MATM students; on-campus and online for MAPM students). The experience runs across both fall and spring semesters. Ministry sites must be investigated and established prior to the beginning of the fall semester (for MATM students) or the Summer Institute (for MAPM students). Therefore students should work in the prior spring semester with the faculty director of Contextual Education to initiate the placement process.

TMPS802401
CPE Reflection Experience
Weiss, Joseph E, SJ
Fall 2022
This one-credit experience is required of all M.Div. students who complete a unit of Clinical Pastoral Education (CPE) for academic credit. It offers the opportunity to examine and articulate the pastoral and professional learning one has gained through participation in CPE. Students prepare written summations of and reflections on their experiences and engage in an oral process of reflection with other participants.

Introduction to the Practice of Spiritual Direction
Talvacchia, Judith; Walsh, Clare
Fall 2022
This practicum is a two-semester, six-credit course in which students direct 2-3 persons, receive supervision, and attend a three-hour seminar every week. One full year of graduate level theological study before beginning the practicum, regular prayer/spiritual practices, attend one silent directed retreat prior to the practicum, receive spiritual direction during the year of study prior to the practicum, previous ministerial experience, one letter of recommendation, permission of their academic advisor, one paragraph stating reason for applying to the practicum, interview with one of the Instructors as part of the selection process. Must apply by August 1.

**TMPS812101**  
**Introduction to Canon Law**  
**Ponzone, Andrea**  
**Fall 2022**  
This course examines the nature, history, and sources of Canon Law in the Catholic Church. It presents an overview of the norms provided in the 1983 Code of Canon Law and relevant complementary canonical legislation. This course will focus on general norms (Book I), the People of God (Book II), the teaching munus of the Church (Book III), temporal goods (Book V). Given the current circumstances and issues about the Catholic Church's sexual abuse crisis, a brief presentation of penal law (Book VI) and processes (Book VII) will be offered. This course is recommended as a foundational background for "Canon Law of the Sacraments."

**Credits:** 3

The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

Pastoral Studies Courses: Spring 2023

TMPS701801
Death and Dying
Kelley, Melissa M
Spring 2023
The study of death and dying is a complex, multidimensional, and evolving field. This course draws on contemporary theory and research to explore death and dying from multiple perspectives, including religious, theological, pastoral, and psychological. Topics include societal attitudes toward death; facing one's own death; cultural features of death and dying; end-of-life issues; children and death; funerals and the use of ritual in ministry to the dying; pastoral sensitivities and skills for ministering to the dying; and pressing contemporary concerns, such as death in the workplace, institutional death, violent death, and death in global perspective.

**Spiritual Formation for Ministry**  
**Hatgas, Jeffrey M;Quinn, Barbara**  
**Spring 2023**  
This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program.

TMPS709301
Introduction to Pastoral Care and Counseling: A Narrative Approach
Kelley, Melissa M
Spring 2023
In this introduction to pastoral care and counseling, you will reflect on the discipline as a charism for the whole people of God that can be practiced in empowering and teachable ways. Focusing on how people shape their lives through stories, you will explore congregational and personal family systems and self care practices. Particular topics to be addressed will be family counseling, violence, crisis ministry, depression, substance abuse, and boundaries in ministry. You will explore the theological horizons of pastoral care and counseling, including the interface between counseling ministry, sacramental ministry, and Ignatian spirituality.

M.Div. Spiritual Formation
Quinn, Barbara
Spring 2023
All M.Div. students participate in a one-credit comprehensive program of formation that expresses the STM's commitment to the formation of the whole person for effective ministry. Students who are members of religious orders or candidates for ordination fulfill the one-credit requirement for formation by participating in the formation programs required by their religious orders or diocese. Lay students are required to complete the seven components of the one-credit program that follow over the course of three years.

TMPS720701
Professional Ministry Practicum
Weiss, Joseph E, SJ
Spring 2023
Students receive 3-credits in the fall semester and 3-credit in the spring semester. The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

TMPS726901  
Healing Ministries  
Smith, Walter J, SJ  
Spring 2023
Over the course of our lives, many people suffer from serious acute or chronic illnesses, traumas, and disabilities. We all mourn the losses of loved ones. We all, at some point, confront dying, death and grief. Despite their certainty, many approach these life events with anxiety, fear, and avoidance. This course will address human sickness, trauma, disability, and the processes of dying and grieving from psychosocial, theological, clinical-pastoral, liturgical, and experiential perspectives. Building on current studies, research, and dynamics related to the care of persons who are sick, disabled, traumatized, and dying, this course will enhance the knowledge and skills needed to intervene and respond effectively to the spiritual and emotional needs of people who may look to a compassionate caregiver for guidance, comfort, and healing in times of crisis and loss. This course is intended for a diverse group of caregivers pastoral counselors, healthcare, prison, and school chaplains, lay and ordained ministers, and other health care professionals who provide assistance and care both in institutional settings and within families and communities.

**TMPS727801**  
**Socio-Spiritual Care**  
**Dubois, Heather**  
**Spring 2023**  
The dynamics of human living, including experiences of God, are multidimensional: intrapersonal, interpersonal, group, structural, cultural, and global. Given these interrelated interior and exterior dynamics, what are the sources, mediums, aims, and risks of care? This course responds to this question using the literatures of spirituality studies, peace studies, practical theology, and pastoral care.

**Post-Pandemic Wisdom and Practices in Ministry**  
**Keefe-Perry, Lincoln Birch**  
**Spring 2023**  
This module explores the consequences and lessons of COVID-19 that are still unfolding among us. Operating primarily from the perspectives of pastoral care and organization health, the class will look at some of the ways in which the pandemic -- and pandemic response -- has highlighted structural social inequality and the importance of community in responding to crises. Attention will be given to innovations and challenges related to the faithful use of technology, new ways of building community, and how to discuss social issues related to health and science informed by care for the common good.

Disability, Theology, and Ministry
Iozzo, Mary Jo
Spring 2023
Disability visibility has increased concern in ecclesial, academic, and social milieu for understanding how the Church (and the churches) respond and work to be inclusive with and for persons with disability (PWD). This module will explore the moral imperatives of inclusion, the diversity of disability in the human community, and the development of ministerial practices directed to participation. Specific attention will be given to 1) consciousness-raising on the generally discriminatory experience historically and today of PWD, 2) understanding disability using the social model developed by PWD, 3) reviewing some of the literature developed by scholars with disability and their collaborators, 4) building relationships between PWD and the non-disabled, and 5) studying the Church's documents in reference to PWD.

Contextual Education
Keefe-Perry, Lincoln Birch
Spring 2023
This is the supervised ministry requirement of the MATM and MAPM, completed in the latter part of degree work. Composed of two elements: work at a supervised ministry site; and participation in the classroom component (on-campus for MATM students; on-campus and online for MAPM students). The experience runs across both fall and spring semesters. Ministry sites must be investigated and established prior to the beginning of the fall semester (for MATM students) or the Summer Institute (for MAPM students). Therefore students should work in the prior spring semester with the faculty director of Contextual Education to initiate the placement process.

**TMPS802401**  
**CPE Reflection Experience**  
**Weiss, Joseph E, SJ**  
**Spring 2023**

This one-credit experience is required of all M.Div. students who complete a unit of Clinical Pastoral Education (CPE) for academic credit. It offers the opportunity to examine and articulate the pastoral and professional learning one has gained through participation in CPE. Students prepare written summations of and reflections on their experiences and engage in an oral process of reflection with other participants.

**Credits:** 1

Introduction to the Practice of Spiritual Direction
Talvacchia, Judith; Walsh, Clare
Spring 2023
This practicum is a two-semester, six-credit course in which students direct 2-3 persons, receive supervision, and attend a three-hour seminar every week. One full year of graduate level theological study before beginning the practicum, regular prayer/spiritual practices, attend one silent directed retreat prior to the practicum, receive spiritual direction during the year of study prior to the practicum, previous ministerial experience, one letter of recommendation, permission of their academic advisor, one paragraph stating reason for applying to the practicum, interview with one of the Instructors as part of the selection process. Must apply by August 1.

Canon Law of the Sacraments
Ponzone, Andrea
Spring 2023
This course examines Book IV of the 1983 Code of Canon Law, the sanctifying munus of the Church. It presents a canonical study of the Sacraments of the Catholic Church, other Acts of Divine Worship, and Sacred Places and Times. Special emphasis is placed on the Sacrament of Marriage, not only on substantive norms (cann. 1055-1165) but also on Book VII as regards the Process for Declaration of Marriage Nullity. A comparison with selected norms of the 1990 Code of Canons of the Eastern Churches will highlight some specificities of Sacramental Law of the Eastern Catholic Churches. Students who have not completed an introductory course in Canon Law are required (prior to the beginning of the course) to submit a preliminary essay to the instructor demonstrating basic knowledge and appropriation of the essential elements of the Code of Canon Law and insights from the work of Martin De Agar, Joseph T., A Handbook on Canon Law (Wilson & Lafleur, 2007).

**Credits:** 3

**Room and Schedule:** Simboli Hall 110 W 10:00AM-12:30PM

**Advanced Professional Ministry Practicum**

**Weiss, Joseph E, SJ**

**Spring 2023**
The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

TMPT724801
Screening Theology: Theology In and Through Film
Valentin, Benjamin
Fall 2022
Highlighting the possibility and potential of a theology of culture, this course explores the ways in which recent Hollywood movies can be used as resources to think about and even to rethink the meaning of key theological concepts such as ideas of God, human nature, sin, Christ/human redemption, and eschatological hope. Through brief lecture presentations, reading materials, the viewing of movies, and class discussions, students will be encouraged to consider how an appreciative and critical engagement with popular culture can allow for a relevant and contemporary practical theology.

Seminar in Practical Theology
Griffith, Colleen M
Fall 2022
An exploration of Practical Theology, its history, methodological commitments, and intent. Practical theology is theology at the service of life. It is theology that takes seriously cultural, social, and political contexts, historical times, places and peoples, as it utilizes the resources of Scripture, tradition and experience. In this course, we will examine Practical Theology's claims for the theory/praxis nexus, interculturality, interdisciplinarity, the noetic content in religious practices, and the significance of bodilyness and context.

TMPT813701
Public Theology, Politics, and Faith in the United States
Keefe-Perry, Lincoln Birch
Fall 2022
This class is an introduction to the history of the academic field and practice of public theology as it emerged at the intersections of liberation and political theology with Christian social ethics, especially in the context of the United States. In our time together we will consider several models and definitions of public theology, reflect on ways to engage faith in public, and examine the role and responsibility of faith leaders and scholars to communicate with a public beyond a congregation. The course will explore some basic legal and political concepts to frame the semester, however it will primarily be focused on theological and philosophical themes. We will explore the United States as a religiously and culturally pluralistic context, considering the challenges and opportunities that emerge as a result of this. Particular attention will be given to engagement with the concept of Christian Nationalism and the ways in which Christianity has sometimes been used as a frame in an attempt to legitimate violence or oppression.

**Credits:** 3

**Impasse and Spiritual Transformation**  
**Dubois, Heather**  
**Fall 2022**

This course gathers multi-disciplinary resources for spiritual responses to intractable conflicts. It develops a working social theory definition of identity and traces dynamics of transformation in The Dark Night by John of the Cross. Next, it examines Constance Fitzgerald's concept of impasse and its implications for socio-political life. Finally, it reflects on wisdom, hope, and imagination in light of the foregoing challenges.

Theopoetics and Theologies of Imagination
Keefe-Perry, Lincoln Birch
Spring 2023
This course explores how aesthetics and imagination shape expectations and hopes we have for our communities. The class begins with an exploration of theopoetics, which affirms that how we express experiences of the divine shapes what we think the divine is. Content builds from there to the role of imagination in religious reflection more broadly. Readings are profoundly interdisciplinary, with scholarship from philosophical and sociological treatments of imagination, psychology, theology, and literary criticism. Some customization of work is possible and students will be able to deepen their focus in directions of their choosing by selecting texts that speak to them.

Conflict Resolution and Transformation
Dubois, Heather
Spring 2023
The dynamics of human living, including experiences of God, are multidimensional: intrapersonal, interpersonal, group, structural, cultural, and global. Given these interrelated interior and exterior dynamics, what are the sources, mediums, aims, and risks of care? This course responds to this question using the literatures of spirituality studies, peace studies, practical theology, and pastoral care.

**TMPT813201**  
**Theology, Race, and Critical Race Theory**  
**Valentin, Benjamin**  
**Spring 2023**

A social construction at its core, the modern idea of race has been given power through the years. Accruing strength and mostly negative use over time it has cut across the private sphere and become a portentous social idea in the form of systemic racism, institutionalized within government, laws, medical science, religion, culture, and society. This course explores the historical foundations of race and racism, and ranges over different manifestations of institutional racism in the spheres of criminal justice, employment, housing, health care, political power, education, and religious and congregational life. It also looks into recent movements for racial justice in thought and practice, and considers ways in which theological ideas and church practices can be refocused to contribute to racial justice within the academy, ecclesial communities, and the larger landscape of society.

TMRE807501
Teaching Theology and Religion: Fundamental Questions
Ospino, Hosffman
Summer 2022
Teaching theology/religion is more than a mere occupation or an addendum to the many tasks in a theologians busy schedule. It is a calling and an art. Yes, the art of intentionally engaging in constructive dialogue in particular educational settings about peoples experience of the sacred and the encounter with the divine in the everyday. It is imperative that it be done well. This course is a reflective exercise on the act of teaching theology/religion and its pedagogical implications. The course explores fundamental questions such as the conditions of possibility of teaching about God and the sacred, the vocation of the theological educator, the relationship of the scholar of religion to a faith tradition, and the socio-cultural dynamics shaping theological education, among others. The course welcomes students who are planning on teaching theology/religion as an academic subject.

Credits: 3
Room and Schedule: Simboli Hall 110 MTuWTh 05:45PM-09:00PM
Satisfies Core Requirement: None
Prerequisites: The course is open to students who have done at least one year of theological/ministerial studies (at least 18 credits) and have taken a minimum of 4 courses in theology.

TMRE708301  
Education for Justice and Peace  
O'Keefe, Theresa A  
Fall 2022
The course begins with an investigation of the tools of social analysis as a means of getting beneath the surface of issues of injustice, followed by a review of Catholic social teachings as a means of offering a theological foundation for educating for justice. Finally, it looks at educational methods from the early 20th century to the present that reflect on education itself as a work of justice. The course concludes with student groups presenting lessons in which they have used tools of investigation and analysis on an issue, incorporated theological reflection, and developed a methodology for effective education.

Religious Education Courses: Spring 2023

TMRE705301
Spiritual Sources of Catholic Education and Catechesis
Ospino, Hosffman
Spring 2023
The course is open to Catholic school teachers and administrators, religious educators, and anyone interested in learning more about the spiritual roots of Catholic education. Catholic education and catechesis are rooted in particular appropriations of the Christian faith articulated as schools of spirituality. From these appropriations emerge commitments to specific charisms and pedagogical practices. It is imperative that Catholic educational efforts continue to affirm the spiritual legacies that have sustained schools, missions, and parochial programs throughout history. In this course we read some foundational texts of major schools of spirituality and explore how they have inspired life-giving philosophies of Catholic education. The guiding principle throughout the course is that a good philosophy of Catholic education and catechesis is always sustained by a deep spirituality.

Catholic Higher Education
James, Michael J
Spring 2023
This course offers an historical and philosophical overview of Catholic higher education, a survey of current scholarship and related Church documents, and an examination of the role of Catholic higher education--particularly in the U.S.--and its relationship with the Church, contemporary academic culture, and the broader society. This course also engages students in an analysis of contemporary issues facing Catholic higher education particularly, faith and reason, the Catholic intellectual tradition, Catholic social thought, governance and leadership models, student development, and institutional mission, identity, and culture.

Mission, Curriculum, and Pedagogy: Teaching High School Religion
O'Keefe, Theresa A
Spring 2023
This course is designed to assist students in developing religion curriculum for adolescents, particularly within the setting of Catholic secondary schools. It considers the place of religious instruction within the larger ambit of the Catholic schools mission, including interaction with campus ministry and service learning. It attends to frameworks of faith development within adolescence. It includes the development of learning outcomes and assessment tools; pedagogy; curricular maps; units and lesson plans. Finally, it calls participants to be self-aware of the teachers role through the development of a pedagogic creed.

When a school presents itself to the world as offering Catholic education, it signals, at a minimum, that it is committed to educating from and for faith. It is to educate from deep spiritual convictions that are core to Catholicism and for a Transcendent as well as an immanent perspective on life, preparing students to live well into an Ultimate Horizon God as revealed in Jesus Christ. What does this ask of the curriculum of a Catholic school, of its faculty and administrators? We once took for granted our response to such questions, for example when 95% of faculty and staff were vowed religious and all students were decidedly Catholic. That era has passed, bringing new challenges and opportunities. Note, for example, the growing number of students from other or no faith tradition attending, likewise an often diverse faculty and staff, and many Catholic students who are more cultural than affiliated in their faith. This changed reality, coupled with the secular and postmodern culture of our time, offers new opportunity for a fresh address of what makes education Catholic.

TMST702401  
Christology  
Valiente, Orfilio E  
Summer 2022  
This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

Sacraments in the Life of the Church
Radtke, Barbara A
Summer 2022
After exploring sacrament in its broadest sense, the meaning of sacramentality, and other fundamental elements of Roman Catholic sacramental theology, we will examine each sacrament both in its role in the life of the church as well as its role in each individual’s faith journey. We will address historical background and contemporary issues about the Sacraments of Initiation, Baptism, Confirmation and Eucharist, the Sacraments of Healing, Reconciliation and the Sacrament of the Sick; and Sacraments at the Service of Communion, Marriage and Holy Orders.

TMST725101
U.S. Latinx Theologies
Valentin, Benjamin
Summer 2022
In the United States, feminist and African-American/Black theologies have received much deserved recognition for their original contributions to the task of theological construction. However, it should be noted that right alongside these liberation and justice oriented theologies, even if with less publicity until recently, Latino and Latina theologians have been developing their own distinctive form of contextual and liberation theology written from the perspective of their lives in the United States. This course examines their theological expression, offering an overview of the historical development, main academic theologians, core themes and methods, and the promise and challenge of U.S. Latino(a) theology in the process. Besides offering students a solid introduction to U.S. Latinx theology, the course grants an opportunity to enhance one's cultural competence; to learn about the characteristics of the largest ethnic minority group in the United States (i.e. Latinos and Latinas); and to become more familiar with U.S. social history, the legacy of colonialism, and contemporary decolonial thinking.

TMST727301
The Franciscan Tradition
Guider, Margaret E
Summer 2022
This course traces the origins and evolution of the Franciscan tradition by examining a variety of primary and secondary sources. The selected sources include the writings of Francis and Clare, various biographies and legends concerning their lives and legacies, along with noteworthy examples of spiritual writings and theological treatises rooted in the Franciscan charism. These diverse sources will be used as points of reference in the study of specific themes, values, attitudes and practices that characterize the Franciscan tradition. Special consideration will be given to contemporary sources that demonstrate the relevance of insights from the Franciscan tradition for today's world.

Systematic and Historical Theology Courses: Fall 2022

TMST700901
Fundamental Theology
Brouillette, Andre, SJ
Fall 2022
The resources and methods of theology provide the framework for this course. A primary focus will be on the relationship between revelation, faith, and theology, which includes the role of the Bible and the church's doctrine. The course will also survey past and present methods in 'doing theology,' and consider the connection between theology and spirituality.

The ecclesial dimension of Christian faith is the focal point of this course. The course will locate the church within both a Trinitarian theology and a theological anthropology. Specific topics for exploration include the place of the church in the Creed, the sacramentality of the church, a theology of mission, and of structure and authority. The course will also explore current issues shaping the church's life and its place in the wider culture.

Christology
Brouillette, Andre, SJ
Fall 2022
This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

Contemplative Theology
Robinette, Brian
Fall 2022
This seminar explores major figures, texts, and trends in contemplative approaches to theology. By "contemplative" it is meant a disposition of deep openness and receptivity, a working familiarity with silence, hiddenness, and the implicit dimensions of thought, feeling, and awareness. More than a study of figures and texts that exhibit a broadly contemplative sensibility, the seminar inquires into the practice of contemplation (e.g., ways of attending, the cultivation of skills, the formation of habits, etc.) and the way such practice bears upon (or might bear upon) theology itself. Classic figures and texts will be treated alongside contemporary trends of contemplative renewal.

Credits: 3
Room and Schedule: Simboli Hall 135 W 01:00PM-03:50PM
Satisfies Core Requirement: None
Prerequisites: One year of graduate level theology, including systematic theology courses.
Theological Foundations in Practical Perspective
Griffith, Colleen M; Sutton-Adams, Hannah L

Fall 2022
Taught from a pastoral perspective, this course offers an overview of contemporary Christian theology, introducing basic theological themes reflected in Co-Workers, e.g., the cultural context in which we do theology, God, being human, Jesus, reign of God, Church. It considers theological methods and investigates the sources that contribute constructions of theological positions.

Theological Virtues
Doyle, Dominic F
Fall 2022
The Church is often described as a community of faith, hope, and love. This course explores how some Christian thinkers have understood these central theological virtues. After considering New Testament sources, we will examine the following periods and thinkers: patristic (e.g. Augustine), medieval (Aquinas), reformation (Calvin), early modern (John of the Cross), and modern (Rahner, Lonergan, liberation theology). While special attention will be paid to the systematic thought of Aquinas, the goal of this course is to present a broad range of thinkers so that students can articulate their own account of these characteristic marks of Christian life.

TMST708101
Writing and Research for Theology and Ministry
Regan, Jane
Fall 2022
This course provides an introduction to writing and research for students engaged in STM degree programs. Through a series of workshops, the course will introduce students to the basics of research, developing a thesis statement, and the use of sources, as well as the different kinds of writing that STM faculty require (research papers, biblical exegeses, theological reflection papers). With an individual tutor, students will work on developing research paper that has been assigned in the current semester. This is a year long course. Students register both fall and spring semesters and will receive 1-credit in the spring semester.

TMST708801
Theology of Culture
Doyle, Dominic F
Fall 2022
This course explores the relationship between theology and culture through the following questions: How do particular cultures shape Christian faith? How has the Church, for better or worse, changed (or failed to change) the various cultures into which it has been received? How are rapid advances in technology shaping culture and how should the Church respond? How do theologians navigate between their local context and global economic realities that influence all locales? How does the study of culture, which integrates the various branches of inquiry into human meaning, challenge and invigorate theological reflection?

Sacraments: Theology and Practice
Baldovin, John, Sj
Fall 2022
This course will be a basic introduction to sacramental theology and pastoral practice geared toward the sacraments requirement for MA students. It will cover basic and general issues like the nature of sacraments in general and the nature and function of ritual and symbol. Each of the Church's seven sacraments will be dealt with from a number of perspectives e.g., feminist and liberationist. Students will be expected to do a "live" analysis of a Eucharistic liturgy as well as one other sacramental liturgy.

TMST724701
Faith and Justice: Liberation Theologies in the U.S.
Valentin, Benjamin
Fall 2022
Liberation theologies are modes of theological discourse that rethink the purpose of religious thought and practice by placing attention on distinctive experiences of injustice and inequality encountered by different individuals and social groups. Although the liberation theology movement is now a global one, the United States has been the birthplace of a good number of liberation theologies. This course examines the emergence, development, emphases, and methodologies of four of these, including African American/Black theology of liberation, feminist theology of liberation, Latino/a theology of liberation, and LGBTQ theology of liberation. Besides offering a solid introduction to liberation theology, the course analyzes basic concepts underlying theories of injustice, domination, and oppression.

Room and Schedule: Simboli Hall 100 Th 03:30PM-06:20PM
TMST801601
Seminar: Global Catholicism in the Twenty-First Century
Guider, Margaret E
Fall 2022
This seminar traces the evolution of global Catholicism in the light of demographic shifts within the Roman Catholic Church from 1910-2010. Drawing upon insights and perspectives from church history, ecclesiology, theology, world mission studies, and post-colonial theory, the seminar examines the interactive dynamics of faith and culture as it explores the transformation of Roman Catholic ecclesial consciousness in the twenty-first century. Additional resources for research and analysis include the working documents, proceedings, and outcomes of recent Special Synods as well as international, regional, and national General Conferences of Episcopal Conferences, Assemblies of Conferences of Religious, and World Youth Days.

Priesthood: Theology and Praxis
Weiss, Joseph E, SJ
Fall 2022
This Level Two course is open to all students and focuses on ordained ministry of the Roman Catholic priesthood in terms of its biblical & theological foundations, historical development, contemporary issues, pastoral practice, & priestly spirituality, especially as treated in the pertinent ecclesial documents. Also treated are the cooperation between laity and clergy and the roles of lay ecclesial ministry as well as both tensions and critiques arising out of the Church’s reservation of the priesthood to males and mandatory celibacy. Ecclesiology is a prerequisite for counting this course for the Ecclesial Ministry requirement in the M.Div. curriculum.

TMST810501
Discipleship
Guider, Margaret E
Fall 2022
What is the relationship between what theologians have said about discipleship and the ways in which these articulations have shaped the living out of their vocations as theologians in the church and in the world? What can we learn from their lives? What do they teach us about following Jesus amidst the forces of secularization and desecularization? What does it mean to follow Jesus particularly in times of war, genocide, natural disaster, catastrophe, socio-economic collapse, scientific discovery, globalization and pluralism? What currently informs our own theological imaginations with regard to the challenges of Christian discipleship in today's church and world?

TMST810901
The Trinity in the Early Church
Dunkle, Brian P, SJ
Fall 2022
An introduction to early Christian Trinitarian theology and its enduring pertinence to the Church's worship of God as one and three, Father, Son, and Holy Spirit. Treating authors from Justin Martyr to John of Damascus, we explore the scriptural and philosophical features of, among other issues, the Cappadocian solution, the psychological analogies of Augustine, the roots of the filioque, and the challenge of Islam. We will consider the retrieval of patristic Trinitarian theology by recent authors, especially in light of debates on ontotheology, the immanent and the economic Trinity, and social analogies for divine perichoresis.

Credits: 3
Room and Schedule: Simboli Hall 130 Tu 12:30PM-03:20PM
Satisfies Core Requirement: None
Prerequisites: one graduate course on the history of Christianity.
Corequisites: None
TMST811001
The Mystery of the Trinity
Luciani, Rafael F
Fall 2022
The course will offer the Scriptural sources, the dogmatic development and the works of contemporary theologians that have contributed to the Church's reflection on God, One and Triune, as revealed through the life and praxis of Jesus of Nazareth. This fundamental path will permit us to offer a systematic Trinitarian theology of God as Mystery of salvation and liberation of all.

TMST811501
Theology of Liberation
Valiente, Orfilio E
Fall 2022
Latin American liberation theology traces its origins to the grassroots Christian communities that struggled for social justice in the 1960s. This course explores the distinctive way in which Latin American liberation theologians correlate their interpretation of their social context with the Christian tradition and praxis in a mutually-critical manner. We will critically examine their fundamental presuppositions, their contribution to theology, and their efforts to articulate the Christian message as an effective response against oppression and on behalf of a full human liberation. We will also incorporate some of the liberationist voices that emerge from other social and cultural situations.

TMST856401
Reconciliation in a World of Conflict
Valiente, Orfilio E
Fall 2022
The twentieth century’s legacy is marked by social conflict and war: more than 200 million
people killed because of political repression, ethnic or religious wars. Enlisting a theological lens,
this seminar examines the Christian resources and contribution to the problem of reconciliation.
After examining the most important secular approaches to the problem of personal and social
conflict, we will focus on the main Christian theologies of reconciliation, including the works of
Robert Schreiter, Miroslav Volf, John de Gruchy, and Jon Sobrino. Their theologies will be
examined through individual case studies of the Balkan region, South Africa, and El Salvador.

Systematic and Historical Theology Courses: Spring 2023

TMST702001
The Church
Guider, Margaret E
Spring 2023
The ecclesial dimension of Christian faith is the focal point of this course. The course will locate the church within both a Trinitarian theology and a theological anthropology. Specific topics for exploration include the place of the church in the Creed, the sacramentality of the church, a theology of mission, and of structure and authority. The course will also explore current issues shaping the church's life and its place in the wider culture.

TMST702401
Christology
Valiente, Orfilio E
Spring 2023
This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

TMST705601
Theological Anthropology
Doyle, Dominic F
Spring 2023
What is the Christian vision of humanity? This course examines key aspects of human life in the light of Christian revelation including: the human person as created in the image of God; finitude, suffering, and sin; forgiveness and sanctification; grace and nature; gender and sexuality; community; and Ignatian spirituality. Readings from Rahner, Balthasar, Ernest Becker, Lisa Cahill, Anne Carr, Mary Aquin O'Neill, David Kelsey, Roger Haight, Michelle Gonzalez and others.

**Writing and Research for Theology and Ministry**

**Regan, Jane**

**Spring 2023**

This course provides an introduction to writing and research for students engaged in STM degree programs. Through a series of workshops, the course will introduce students to the basics of research, developing a thesis statement, and the use of sources, as well as the different kinds of writing that STM faculty require (research papers, biblical exegeses, theological reflection papers). With an individual tutor, students will work on developing research paper that has been assigned in the current semester. This is a year long course. Students register both fall and spring semesters and will receive 1-credit in the spring semester.

Introduction to Patristic Theology
Dunkle, Brian P, SJ
Spring 2023
This course presents the methods and insights of patristic treatments on the topics of theology through a study of major figures and texts. After an overview of the culture and context of the early church, we will treat patristic reflection on: Scripture, faith and reason, Christ, Trinity, the church, liturgy, ethics, and prayer. Authors and literature include, but are not limited to: Ignatius of Antioch, Justin Martyr, Irenaeus, Clement of Alexandria, The Martyrdom of Perpetua and Felicity, Origen, Tertullian, Athanasius, Basil of Caesarea, Gregory of Nazianzus, Gregory of Nyssa, Hilary of Poitiers, Ambrose, Augustine, and John Chrysostom.

TMST715301
Theology and Literature
Dunkle, Brian P, SJ
Spring 2023
A study of major works of Christian literature as sources for theology. We study hymns and verse from the early church, including the Odes of Solomon, the works of Ephrem, and the hymns of Ambrose, before examining the literature of the Middle Ages, including selections from Dantes Inferno, and the poets and playwrights of the Renaissance. We conclude with major Christian novelists of recent decades, including Flannery OConnor and Marilynne Robinson. There will be discussion on issues of form and content in theology as well as special attention to literary approaches to Christian doctrine and mystery.

TMST725101
U.S. Latinx Theologies
Valentin, Benjamin
Spring 2023
In the United States, feminist and African-American/Black theologies have received much deserved recognition for their original contributions to the task of theological construction. However, it should be noted that right alongside these liberation and justice oriented theologies, even if with less publicity until recently, Latino and Latina theologians have been developing their own distinctive form of contextual and liberation theology written from the perspective of their lives in the United States. This course examines their theological expression, offering an overview of the historical development, main academic theologians, core themes and methods, and the promise and challenge of U.S. Latino(a) theology in the process. Besides offering students a solid introduction to U.S. Latinx theology, the course grants an opportunity to enhance one's cultural competence; to learn about the characteristics of the largest ethnic minority group in the United States (i.e. Latinos and Latinas); and to become more familiar with U.S. social history, the legacy of colonialism, and contemporary decolonial thinking.

**TMST804101**  
**Theological Anthropology and the Body**  
**Griffith, Colleen M**  
**Spring 2023**  
Issues of embodiment relating to theology, spirituality, and ministry form the substance of this course. We will probe understandings of the body found in the historical Christian tradition and draw insights regarding human bodiliness from contemporary theology, philosophy, psychology, and social theory. Finally, we will examine the role of the body in lived Christian faith with a particular emphasis on spirituality, education, and pastoral care.

Eschatology and the Kingdom of God
Palazzi Von Buren, Felix J
Spring 2023
This course examines the relationship between history and eschatology through the lens of the "Kingdom of God" that is central to Jesus' preaching. It proposes a hermeneutic that will take as point of departure the church's eschatological statements. We will examine these statements within the framework of the human historical process and the pilgrimage of God's People towards the reign of God.

TMST812601
Synodality and Reforms in the Church Today
Luciani, Rafael F  
Spring 2023  
This Course explores the theological and pastoral roots of synodality as a consequence of the process of reception and deepening of the Ecclesiology of the People of God in the Second Vatican Council. In this context, pastoral conversion and synodal conversion are key to understand today's ecclesial proposal of an inverted pyramid that overcomes clericalism and leads to a new way of proceeding in the Church that starts from below, from the sensus fidei fidelium, and then upwards. From this perspective, we are entering in a new phase in the reception of the Council and a renewed ecclesiology, an event that involves the reform of structures and processes. This demands a conversion in the ecclesial mentality, a revision of lifestyles, practices of communal discernment, and structural reform. Therefore, the course will present synodality as a constitutive and constituent note of the Church that embraces a major reform.

Seminar: Thomas Aquinas on God  
Doyle, Dominic F  
Spring 2023  
A close reading and systematic examination of Aquinas' doctrine of God in the prima pars of the Summa theologiae. Concurrent readings from other parts of the Summa theologiae and from other texts of St. Thomas will also be used. In addition, modern interpretations and criticisms will accompany each week's reading from Aquinas. This seminar is an advanced course intended primarily for students in doctoral, STL, and ThM programs, as well as senior M.Div. and MTS students preparing for further research.

Seminar: Theology of Elizabeth Johnson
Griffith, Colleen M
Spring 2023
This class is a doctoral level seminar. Advanced MA/MDiv/MTS students considered, with permission of the instructor. An introduction to the theological corpus of Elizabeth Johnson, one of the foremost women's voices in theology today. The course will examine Johnson's writings, turning a keen eye turned toward the methodologies, source materials, and commitments apparent in her work. It will explore Johnson's expansive reading of the Christian tradition, as evident in her presentation of God, Christ, the human, and the world.

TMST856201  
The Theology of Johann Baptist Metz  
Valiente, Orfilio E  
Spring 2023  
This seminar will unfold by first examining Johann Metz's early relationship and subsequent break with the theology of Karl Rahner. Next we will explore Metz's critical dialogue with the thinkers of the Frankfurt school and the manner in which this encounter led to the formulation of Metz's early political theology. We will then turn to Metz's mature political theology as a "theology after Auschwitz." Some of the themes to be considered include Metz's assertion of the need for "anamnestic rationality," his focus on "the theodicy question," his apocalyptic eschatology, and his articulation of a mystical-political spirituality.

Seminar: Theology, Education, and Liberation
Guider, Margaret E
Spring 2023
What does it mean to "teach as Jesus taught," especially in situations where human dignity is threatened and compromised by vulnerability, catastrophe, terror, uncertainty, and misery? Using the writings of Brazilian theorist Paulo Freire as a point of reference for theological inquiry and critical reflection, this course sets Freire's insights in conversation with those of contemporary biblical scholars, theologians, educators and philosophers who believe "another world is possible." The course examines the interconnectedness of love, hope, faith, freedom, wonder, dialogue and moral agency in promoting the Gospel of life and the culture of death.

**TMST857101**  
**Theological Aesthetics**  
**Chong, Vicente, SJ**  
**Spring 2023**  
This course is a study of the mystery of God from the perspective of aesthetics and art. In other words, we will try to understand God's saving presence and action in our lives, in the world, and in history, based on the transcendental and liberating experience of art, and we will try to speak about God who has revealed His self in Christ using aesthetic categories. We will also explore different ways to establish a conversational relationship between theology and the arts.

ADAN731001
Data Analysis
Vicentini, Gustavo J
Fall 2022
This course is designed to introduce students to the concepts and data-based tools of statistical analysis commonly employed in Applied Economics. In addition to learning the basics of statistical and data analysis, students will learn to use the statistical software package Stata to conduct various empirical analyses. Our focus will be on learning to do statistical analysis, not just on learning statistics. The ultimate goal of this course is to prepare students well for ADAN 7320.01, Econometrics.

ADAN732001
Regression Models
Vicentini, Gustavo J
Fall 2022
This course focuses on the application of statistical tools used to estimate economic relationships. The course begins with a discussion of the linear regression model, and examination of common problems encountered when applying this approach, including serial correlation, heteroscedasticity, and multicollinearity. Models with lagged variables are considered, as is estimation with instrumental variables, two-stage least squares, models with limited dependent variables, and basic time-series techniques. Prerequisite: ADAN 7310 Data Analysis or department approval.

ADAN741001
Operations Research in Applied Economics
Chale, Marc W
Fall 2022
This course provides an introduction to the use of operations research methods in economics. For this purpose, the course starts with a brief review of the basics from microeconomic theory, calculus and linear algebra, which is followed by the conceptual foundations of economic modeling and the applications of optimization techniques on various economic problems. The course provides a very sound perspective on how to use operations research techniques in any kind of economic and managerial decision making, which has becoming an increasingly sought after skill. We will work on various problems, including portfolio management, resource management, environment and energy related regulations, etc.

ML/AI Algorithms I
Sirohi, Ashuraj
Fall 2022
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding big data. This course will provide a hands-on experience with the terminology, technology and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naive Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

ADAN746001
Predictive Analytics / Forecasting
Bradley, Robert J
Fall 2022
This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition forecasting methods, including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models, and various filtering methods (Hedrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

**AI Algorithms II**

**Mosaliganti, Kishore R**

**Fall 2022**

This course aims to teach students advanced AI algorithms and covers neural networks, deep learning architectures, and reinforcement learning. The course provides a high-level theoretical overview of each section and discusses practical applications through hands-on projects. The course uses Python as the programming language. Prerequisites: Data analysis and feature engineering, traditional machine learning theory and practice, python programming (intermediate level e.g., familiarity with sci-kit learn, matplotlib, NumPy, pandas), linear algebra, and first-order derivatives.

**Credits:** 3

**Room and Schedule:** Stokes Hall 111S W 06:30PM-09:00PM

ADAN791001
Software Tools for Data Analysis
Parravano, Stefano A
Fall 2022
The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

ADBI112301
Nutrition for Life
Tucker, Sheila, R.D.
Fall 2022
Course acquaints the nonspecialist with the basic scientific principals of nutrition and energy metabolism. Includes an examination of the six nutrient groups (carbohydrates, proteins, fats, vitamins, minerals, and water) and their impact on health, disease prevention, and growth and development. Explores current dietary recommendations, nutrition for athletes, dietary supplement use, weight management, and other current hot topics in nutrition. Students assess their own nutrient intakes and compare them to national standards. Material designed for practical use.

Course acquaints the nonspecialist with the basic scientific principals of nutrition and energy metabolism. Includes an examination of the six nutrient groups (carbohydrates, proteins, fats, vitamins, minerals, and water) and their impact on health, disease prevention, and growth and development. Explores current dietary recommendations, nutrition for athletes, dietary supplement use, weight management, and other current hot topics in nutrition. Students assess their own nutrient intakes and compare them to national standards. Material designed for practical use.

Entrepreneurship is much more than starting a new venture. Entrepreneurial thinking is the force that drives global innovation, social change, and economic growth. This course provides a framework for students to apply an entrepreneurial mindset to creating business and social value, analyzing market opportunities, developing new products and services, growth planning, and exploring career paths. Course topics include entrepreneurial values and ethics, the stages of creating a new business from defining the mission and market opportunity, to competitive analysis, developing business and revenue models, customer acquisition strategies, team building, financing, and launch planning. Students will analyze startup case studies in multiple industry sectors, hear guest presentations by successful entrepreneurs and venture investors, and learn to build, evaluate, and improve startup business plans.

-------------------

Idea to Launch
Harrington, Brian C
Fall 2022
Moving from idea to launch is often the most challenging aspect to a successful execution of a new business. This course starts with identifying a real-world challenge for a small business, researching and measuring consumers' needs and wants, assessing the competitive environment, selecting the most appropriate customer targets and developing a go-to-market strategy for an offering that satisfies consumers' needs better than the competition and understanding financial statements and basic legal principles and practices to help manage the business. This course introduces students to a sequence of processes needed to move from the idea for a new business through the launch of that business. Students will work on a real-world problem in groups and formulate potential ideas, analyze the market and competition, research and evaluate potential customer segments, define a compelling value proposition, design a go-to-market model, and create a pitch to potential investors with their go-to-market strategies.

Applied Data Analysis and Interpretation
Johnson, Tristan
Fall 2022
This course will introduce students to the basics of data analysis and interpretation. Students will critically engage with actual data from across disciplines in order to develop their own interpretations of the underlying meaning. We will explore how these skills can apply to making decisions in academic, professional, and community contexts. The skills developed and practiced here will assist the students in critically evaluating and drawing meaning from data as well as making well-informed decisions from that data.

In a globally competitive and technologically advanced world, the ability to convey ideas and persuade diverse audiences is critical to professional success in every organization. This course provides a learning environment which develops proficient communication skills. Focusing on business writing and oral presentations with particular attention to purpose and audience, the curriculum offers strategies for effective business communications in letters, memos, e-mail, reports, proposals, resumes, meetings, and presentations. Class interaction, written assignments, collaborative media design, and team presentations provide multiple opportunities to demonstrate and enhance skills and to receive personal feedback on your professional communication style.

Design Thinking
Ingram, Noel E

Spring 2023
This course seeks to introduce Design Thinking as an action-oriented creative process for engaging deeply with the problems that matter to you. The course is designed to help you: develop habits of mind and tools for thinking to make creativity a reliable resource in your life; cultivate empathy for both others and yourself as the starting point for creative problem-solving; think flexibility by reframing problems and finding ways to move beyond your first good ideas; and adopt an experimental mindset that allows you to try test out your ideas and collaborate with others. The course will take a learn-by-doing approach combined with ample opportunity for reflection. The goal is to integrate Design Thinking with the rest of your liberal arts studies so you leave the course with a broad-based, personalized creative toolkit for tackling problems in your life and in the world.

Digital Storytelling
Hacunda, Michelle A
Spring 2023
The evolution of the internet has created new ways to tell and deliver stories. Digital Storytelling explores the world of interactive narratives through social, mobile, and digital media. These channels include, but are not limited to podcasts, videos, social media posts, blogs, and infographics. This course is designed to provide students with new skills to produce compelling online stories that will resonate with target audiences and encourage them to take action for artistic, educational, and commercial purposes. To do this, we need to examine the changing role of storytellers in the communication field and how digital stories differ from traditional storytelling tactics, such as print, radio, and television. Students will critique digital stories throughout the semester and share feedback with other developing (peer) storytellers.

The Age of Misinformation  
Carroll, Jaclyn  
Spring 2023
Are we living in the Age of Misinformation? Scholars across the social sciences and humanities are united by a fear of how fast false information can spread. Misinformation appears everywhere our workplaces, our social media feeds, our family dinners. But what is misinformation and where does it come from? Why are some people drawn to it while others remain unaffected? How does anyone distinguish good information from bad, experts from dupes? This course is an interdisciplinary examination of misinformation, its character, its origins, and its impact on social and political life. By surveying the leading theoretical explanations of misinformation from sociology, communication & media studies, psychology, and political science, students will be exposed to cutting edge research on the nature of misinformation and will cultivate tools to hinder its spread in their personal and professional lives.

ADCO300301  
The Society of the Selfie: Social Media and Political Crisis  
Morelock, Jeremiah C  
Spring 2023
This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

Leadership and Innovation
Ryan, Edmond F
Fall 2022
Positioning organizations and individuals for success amid volatile global financial, economic, technological, and political uncertainty demands principled, insightful leadership as well as imaginative, innovative, and operational expertise. This course examines disruptive sources (including fraud, scandals), the accelerating pace of change which renders past experience and knowledge insufficient, and the need for leaders making decisions about the future to think and behave like innovators. The focus is on creating open optimistic climates that engage employees, develop skills and talents, and promote continuous knowledge sharing, smart work designs, and creative problem solving. The course explores strategies critical to influencing performances and implementing customized responses to motivation, morale, and performance issues.

Positioning organizations and individuals for success amid global financial, economic, technological, and political uncertainty demands principled, visionary leadership as well as imaginative and innovative operational expertise. Successful organizations exhibit three critical competencies: vision, strategy, and execution. Vision charts a direction through the chaos. (Where are we going?) Strategy tells the organization how to achieve the desired results. (How will we get there?). Execution translates strategies into results. (Let's get it done!). This course will develop competencies in each of these critical areas through readings, discussions, case studies, presentations, and more importantly, practice. Vision is taught by studying successful organizations and visionary individuals. The course examines disruptive sources (e.g. rapidly changing markets, new legislation, scandals), the accelerating pace of change which renders past experience and knowledge insufficient, and the need for leaders making decisions about the future to think and behave like innovators. Thomas Edison invented the electric light when electrification was uncommon. (Vision). Vision can only be successful if you turn an idea into a useful product. Steve Jobs was able to turn his idea about a portable phone into a ubiquitous handheld computer. (Strategy). Organizations are only successful if they can implement strategies in a timely and effective manner with the complete buy-in of the organization. The focus is on creating open, optimistic climates that engage employees, develop skills and talents, and promote continuous knowledge sharing, smart work designs, and creative problem solving.

Criminal Justice Courses: Fall 2022

ADCJ305101
American Institutions
Paxson, Peyton J

Fall 2022
The word institution has many meanings. In sociology, it means a large-scale arrangement created and maintained to serve the needs of society. The criminal justice system is one example. Another is marriage. In political science, institutions are the organizations that generate economic and social policy and mediate conflicts. The courts are an example; trade unions are another. In history, institutions are what shaped political, economic, and social outcomes in the past. One example is slavery. Another is the civil rights movement. This course uses these different yet often overlapping meanings of institutions to examine the American experience. In many cases the American experience is a shared one, yet in many cases the experiences of particular groups of people are distinctly different from those of others. Some Americans had to fight for their freedom. Some had to fight to be recognized as U.S. citizens. Women had to fight to be able to vote and to enter into contracts without their husbands permission. Some Americans had to fight to marry a person of another race or of the same gender. Others had to fight for a living wage. Some Americans accused of crimes had to fight to ensure that their rights were protected. Many of these fights occurred in courtrooms. This course uses summaries of important court decisions that were both shaped by, and helped to shape, the American institutions we have today. It also uses writings and speeches by individuals whose efforts made them key figures in their respective movements.

The United States incarcerates more people than any other country in the world. This is due largely to cultural principles about the role of the individual in society and the belief that people freely make the choices that they make. Yet few American prisoners are successfully rehabilitated; nearly two-thirds of current prisoners have been previously incarcerated for other crimes. This course examines historical correctional policies and practices to understand the current status of the correctional system and investigates emerging correctional paradigms designed to better prepare criminal offenders for successful reintegration into society.

Cybersecurity: Designing Offensive and Defensive Capabilities
Maor, Etay
Summer 2022
This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

Ethical Issues in Cybersecurity
Hurley, Deborah
Summer 2022
Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

ADCY630001
Network and Infrastructure Security
Cann, Scott; Crones, Michael
Fall 2022
Course provides an understanding of the threats and vulnerabilities in Cybersecurity and an introduction to the concepts of layering defense and providing for defense-in-depth. Specific topics include operating system security, component lifecycle management, database security, server security, application security, mobile devices, BYOD, and end-point security. The course covers the roles of physical security, system hardening, firewalls, encryption, anti-virus, and malware defense. The course also introduces identity and access management, role-based access control (RBAC), intrusion detection, penetration testing, and incident response.

ADCY635001
Incident Response and Management
Powers, Kevin R; Shola, Thomas A
Fall 2022
Course provides an understanding of the design and development of a Cybersecurity strategy which aligns with private industry and government needs, including incident documentation/analysis, response planning, and the role of a critical event response team (CERT) in determining recovery, managing liability and communications, coordinating with law enforcement, and protecting corporate reputation. Course also examines leadership and the adoption and implementation of a proactive stance through monitoring and responding to internal and external intelligence, including monitoring network traffic, activity logs (SIEM) for data breaches, denial of service (DoS), and integrity events, and outlines the roles of information security operations centers (ISOCs) and network operations centers (NOCs).

**Managing Cyber Risk: Mobile Devices and Social Networking**

**Fitton, Julie A; Oates, William G**

**Fall 2022**

Course provides an in-depth examination of The Internet of Things (IOT), mobile devices, BYOD, and social networking. It covers endpoint security, including personal and company data separation and mobile device management (MDM). Course also provides an understanding with respect to threats from phishing, baiting, pretexting, hacking, and rogue employees and/or contractors, and covers password policy, employee training, policy design, and security awareness programs.

ADCY645001
CYBER Investigations and Digital Forensics
Domin, Andrew A; Domin, Douglas J, JR.
Fall 2022
Course covers forensic investigation, case prioritization, and case management, and addresses procedural documentation, standards of evidence, reporting, and disclosure requirements. The digital forensic portion of the course provides an understanding as to disk imaging, file recovery, trace-back techniques, network analytics, evaluation of metadata, malware, and anti-forensics. Additionally, the course covers the out-sourcing of the investigative function, or part thereof, to third parties, and provides specific case studies, including a practical laboratory project.

Organizational Effectiveness: Governance, Risk Management, and Compliancy
Aldrich, Philip
Fall 2022
Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today’s complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive and balanced risk management strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities. Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

ADCY663001
Cyber Crime
D'Addio, David J; Queenin, Mackenzie A
Fall 2022

Our increasingly digital world has led to a wealth of opportunities for cybercriminals and other bad actors. This class, taught by a current and former federal prosecutor, will provide an in-depth examination of cybercrime, including the federal statutes implicated in computer hacking and other computer-based crimes, such as network attacks, identity and data theft, and cyberstalking. Through illustrative case studies, students will learn how federal law enforcement investigates and prosecutes cybercrime, starting with the collection of digital evidence and proceeding through trial and sentencing. The course will highlight the investigative tools law enforcement uses as well as the current challenges law enforcement faces in prosecuting cybercriminals. We will examine legal, procedural, and policy issues surrounding the search and seizure of digital evidence. The class will incorporate guest speakers from government organizations and other stakeholders in the cybersecurity arena.

Room and Schedule: Law School East Wing 200 W 06:30PM-09:00PM; Open to Law School by permission.
Role of Intelligence: Enabling Proactive Security
Noone, Gregory P
Fall 2022
Course addresses internal and external intelligence sources, including intrusion detection, log
analysis, data mining, M&A due diligence, HUMINT, and the role of an Information Security
Operations Center (ISOC). From an external perspective, the course covers information
gathering, intelligence feeds/sources, and fusion centers as well as the automation, filtering,
validation, analysis, and dissemination of intelligence. The course also provides an
understanding as to technical countermeasures (e.g., sandboxes, honeypots), and addresses the
roles of DHS, FBI, NSA, and DOD.

Cybersecurity: Designing Offensive and Defensive Capabilities
Maor, Etay
Spring 2023
This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

ADCY690001
Ethical Issues in Cybersecurity
Hurley, Deborah
Spring 2023
Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

ADCY692501
Cybersecurity: Risk and Resiliency
Dickinson, Elisabeth C; Wilkinson, David
Spring 2023
Course provides a comprehensive understanding of the fundamentals of risk management and applies them to the cyber security and digital risk management environments. It addresses methodologies for comparing digital risks and deciding between acceptance, mitigation, risk transfer, and avoidance. The course compares popular methodologies for quantifying, comparing, and categorizing digital risks. It includes specific topics such as Risk and Control Self-Assessment (RCSA), Risk Appetite Statement (RAS), Risk Tolerance metrics, Three Line Defense Model, Risk Register, Third-Party Risk Management, and Factor Analysis of Information Risk (FAIR). Participants attending this course will be introduced to a broad spectrum of risk management principles, learn how to apply them in cyber security and digital environments, and immediately be able to contribute to cyber risk management using a risk management toolbox learned in this course that is applicable across a wide scope of business, government, academia, and beyond.

Economics Courses: Summer 2022

ADEC351001
Mathematics for Economists
Gerraughty, Lorin E
Summer 2022
This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for MS in Applied Economics program.

ADEC720001
Applied Macroeconomic Theory
Erbil, Can
Summer 2022
This course covers the theory and practice of macroeconomics. The course focuses on the underlying determinants of economic growth, unemployment, and inflation by developing and assessing a variety of simple models. The course will also teach the skills needed for interpreting and using macroeconomic data to formulate macroeconomic policy. A central feature of the course includes understanding the ability and limitations of policy for stabilizing the business cycle and promoting long-term growth.

ADEC736001
Financial Economics
Kowalik, Michal K
Summer 2022
This course teaches the practical application of finance theory to decisions made in industry. We will learn how individuals and firms choose investment portfolio decisions under uncertainty with a particular focus on topics such as the capital asset pricing model, market imperfections, borrowing constraints, market efficiency and security valuation. Understanding how interest rates, exchange rates, and risk work will aid your understanding of multiple firm problems such as why does a firm chooses a specific investment or place of manufacturing. In addition, studying term structures and discounted cash flows are important to understanding the decision to invest over time.

**ADEC738001**  
**Empirical Health Economics**  
**Bowser, Diana M**  
**Summer 2022**  
At its root, the study of health economics is the study of market failure and of government failure. We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries. We will use economics to explore how firms in the health care sector should behave, given the sometimes perverse incentives they face. As the course progresses, our emphasis will shift: in small groups, students will complete and present a data-driven (or empirical) project investigating a question relevant to healthcare providers, pharmaceutical companies, insurance companies, and/or government regulators. Skills developed in this class will allow students to think critically about incentives present in health care settings, analyze various types of health care data, and present ways to improve the performance of different players in the health care industry.

**Credits:** 3  
**Room and Schedule:** On-line Asynchronous

ADEC739001
Empirical Money and Banking
Kazemi, Hossein S
Summer 2022
This course focuses on a study of money, banking and financial markets with a clear emphasis on central banking and conduct of monetary policy. An in-depth analysis of fixed income markets in addition to equities and other financial instruments in this course provides students with the opportunity to master intricacies of financial markets and investing in them. Additionally, the connection between movements in the financial markets and monetary policy is examined on a daily basis. An extended use of Bloomberg Professional LP in this course makes this very applied class particularly valuable to anyone interested in bridging the gap between the economic theory and practice.

ADEC743001
Big Data Econometrics
Evren, Haydar E
Summer 2022
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

ADEC746001
Predictive Analytics/Forecasting
Fulton, Lawrence V
Summer 2022
Econometrics. This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

The course provides students with an overview of popular software packages used today for
data exploration, analysis and visualization. The first part of the course will offer an overview of
the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the
emphasis on their use with pivot tables. In Tableau students will be introduced to more
advanced data exploration and visualization methods via a variety of advanced charts and
dashboards. The second part of the course will cover exploratory data analysis in R. Here
students will learn how to write their own code for importing, cleaning and exploring large
datasets, as well as how to create, modify and export complex charts and summaries for visual,
qualitative and quantitative analysis of the data. The third part of the course will provide an
intro to using SQL databases, where students will learn how to create SQL queries to select,
filter and manipulate the data.

Economics Courses: Fall 2022

ADEC110101
Principles of Economics
Lopez Rago, Ricardo A
Fall 2022
This course analyzes prices, output, and income distribution through the interconnections between households and businesses in a Western economy. It studies economic agents, their behavior and interactions, and the outcome of these interactions taking into account government interventions. It analyzes national income and employment, economic fluctuations, monetary and fiscal policy, inflation, growth, interest rates and international aspects of macroeconomic policy such as the trade balance, exchange rates, and the purchasing power parity. The appropriate role of the monetary authority (Central Bank) and government intervention is also examined. Basic analytical tools are applied to current economic problems.

ADEC350001
Social Policy Analysis
Lopez Rago, Ricardo A
Fall 2022
This course introduces the role of social policy analysis in explaining the ideological, institutional and scientific foundations of the modern "social welfare state." The course covers social policy modeling, normative political theory and distributive theories of justice, rights, opportunities, equality, social equity and poverty. Theories are tested with applications in four major social policy areas: employment, health, housing and welfare.

ADEC351001
Mathematics for Economists
Gerraughty, Lorin E
Fall 2022
This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for MS in Applied Economics program.

Student Level: Undergraduate
ADEC720001
Applied Macroeconomic Theory
Sjuib, Fahlino F
Fall 2022
This course covers the theory and practice of macroeconomics. The course focuses on the underlying determinants of economic growth, unemployment, and inflation by developing and assessing a variety of simple models. The course will also teach the skills needed for interpreting and using macroeconomic data to formulate macroeconomic policy. A central feature of the course includes understanding the ability and limitations of policy for stabilizing the business cycle and promoting long-term growth.

ADEC731001
Data Analysis
Vicentini, Gustavo J
Fall 2022
This course is designed to introduce students to the concepts and data-based tools of statistical analysis commonly employed in Applied Economics. In addition to learning the basics of statistical and data analysis, students will learn to use the statistical software package Stata to conduct various empirical analyses. Our focus will be on learning to do statistical analysis, not just on learning statistics. The ultimate goal of this course is to prepare students well for ADEC 7320.01, Econometrics.

ADEC732001
Econometrics
Vicentini, Gustavo J
Fall 2022
This course focuses on the application of statistical tools used to estimate economic relationships. The course begins with a discussion of the linear regression model, and examination of common problems encountered when applying this approach, including serial correlation, heteroscedasticity, and multicollinearity. Models with lagged variables are considered, as is estimation with instrumental variables, two-stage least squares, models with limited dependent variables, and basic time-series techniques.

ADEC736001
Financial Economics
Kowalik, Michal K
Fall 2022
This course teaches the practical application of finance theory to decisions made in industry. We will learn how individuals and firms choose investment portfolio decisions under uncertainty with a particular focus on topics such as the capital asset pricing model, market imperfections, borrowing constraints, market efficiency and security valuation. Understanding how interest rates, exchange rates, and risk work will aid your understanding of multiple firm problems such as why does a firm chooses a specific investment or place of manufacturing. In addition, studying term structures and discounted cash flows are important to understanding the decision to invest over time.

**ADEC741001**  
**Operations Research in Applied Economics**  
**Chale, Marc W**  
**Fall 2022**  
This course provides an introduction to the use of operations research methods in economics. For this purpose, the course starts with a brief review of the basics from microeconomic theory, calculus and linear algebra, which is followed by the conceptual foundations of economic modeling and the applications of optimization techniques on various economic problems. The course provides a very sound perspective on how to use operations research techniques in any kind of economic and managerial decision making, which has becoming an increasingly sought after skill. We will work on various problems, including portfolio management, resource management, environment and energy related regulations, etc.

**Credits:** 3  
**Room and Schedule:** On-line Asynchronous  
**Satisfies Core Requirement:** None  
**Prerequisites:** ADEC7201 or approval of the instructor  
**Corequisites:** None
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Credits: 3
Room and Schedule: Gasson Hall 210 M 06:30PM-09:00PM
Satisfies Core Requirement: None
Prerequisites: ADEC7310 AND ADEC7320. Must have successfully completed ADEC731001 Data Analysis or obtain department approval.

Econometrics. This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750001
Ethics, Economics, and Public Policy
Erbil, Can
Fall 2022
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

Credits: 3

ADEC781001  
**Empirical Behavioral Economics**  
DeGeest, Lawrence R  
**Fall 2022**

Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

**Credits:** 3

ADEC782001
Economics of Innovation and Entrepreneurship
Sile, Ayse E
Fall 2022
Innovation and entrepreneurship have been the key drivers behind economic growth across developed economies and even more so in the U.S. However, innovations and entrepreneurism develop under a high degree of risk and uncertainty and, in most cases, rupture existing structural and traditional patterns and practices. Economic policies along with regulation set the incentives for innovation and entrepreneurship. Intellectual property rights and competition ensure that innovators receive a fertile and collaborative market structure to reach their potential.

ADEC791001
Software Tools for Data Analysis
Parravano, Stefano A
Fall 2022
The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Economics Courses: Spring 2023

ADEC221001
Behavioral Economics: an Emerging Perspective
Lopez Rago, Ricardo A
Spring 2023
Why do people often behave in ways that are clearly not in their best interest? Integrating an understanding of human behavior into the more traditional economic models offers a fuller explanation of how behavior influences seemingly rational choices and suggests ways to optimize decision-making. This course explores the impact of the current economic crisis, competition, procrastination, certainty/uncertainty, investments, emerging technologies, career flexibility, obesity, and divorce to explain outcomes and performance.

Credits: 4
Room and Schedule: Gasson Hall 209 Tu 06:15PM-09:35PM

Applied Macroeconomic Theory
Sjuib, Fahlin F
Spring 2023
This course covers the theory and practice of macroeconomics. The course focuses on the underlying determinants of economic growth, unemployment, and inflation by developing and assessing a variety of simple models. The course will also teach the skills needed for interpreting and using macroeconomic data to formulate macroeconomic policy. A central feature of the course includes understanding the ability and limitations of policy for stabilizing the business cycle and promoting long-term growth.

**Credits:** 3

ADEC720101
Applied Microeconomic Theory
Chandra, Piyush
Spring 2023
This course examines the basic models economists use to study the choices made by consumers, investors, firms, and government officials, and how these choices affect markets. The course focuses on both policy applications and business strategies. Topics include optimization, consumer choice, firm behavior, market structures, risk and uncertainty, and welfare economics.

Linear Algebra and Vector Calculus
Gerraughty, Lorin E
Spring 2023
Machine learning is the design of algorithms that routinely learn and adapt with use to discover hidden properties, patterns, and trends in complex data. This is a semester course on foundational methods in linear algebra and vector calculus to understand the structure and dimensionality of large and complex datasets.

**ADEC731001**  
**Data Analysis**  
**Sharma, Arvind**  
**Spring 2023**  
This course is designed to introduce students to the concepts and data-based tools of statistical analysis commonly employed in Applied Economics. In addition to learning the basics of statistical and data analysis, students will learn to use the statistical software package Stata to conduct various empirical analyses. Our focus will be on learning to do statistical analysis, not just on learning statistics. The ultimate goal of this course is to prepare students well for ADEC 7320.01, Econometrics.

ADEC738001  
Empirical Health Economics  
Bowser, Diana M  
Spring 2023
At its root, the study of health economics is the study of market failure and of government failure. We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries. We will use economics to explore how firms in the health care sector should behave, given the sometimes perverse incentives they face. As the course progresses, our emphasis will shift: in small groups, students will complete and present a data-driven (or empirical) project investigating a question relevant to healthcare providers, pharmaceutical companies, insurance companies, and/or government regulators. Skills developed in this class will allow students to think critically about incentives present in health care settings, analyze various types of health care data, and present ways to improve the performance of different players in the health care industry.

ADEC743001  
**Big Data Econometrics**  
**Sirohi, Ashuraj**  
**Spring 2023**
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

**Credits:** 3  
**Room and Schedule:** Gasson Hall 210 M 06:30PM-09:00PM  
**Satisfies Core Requirement:** None  
**Prerequisites:** ADEC7310 AND ADEC7320. Must have successfully completed ADEC731001 Data Analysis or obtain department approval.

ADEC746001
Predictive Analytics/Forecasting
Bradley, Robert J
Spring 2023
Econometrics. This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

**ADEC750001**  
**Ethics, Economics, and Public Policy**  
**Erbil, Can**  
**Spring 2023**

The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

**Credits:** 3

ADEC752001
Transfer Pricing
Dimitrijevic, Stanko
Spring 2023
Transfer pricing involves the valuation of goods, services, and other assets exchanged between affiliated companies. Based on economic principles and governed by the U.S. tax code, international transfer pricing has continued to be a focal point for both multinational companies and tax authorities as a means to evaluate the allocation of income resulting from intercompany transactions conducted across borders. This course will include an introduction to basic tax and transfer pricing concepts, accounting and financial statement analysis, and an application of economic principles underlying transfer pricing analysis. Students will use real case studies and work in groups to consider the economics associated with conducting an international business, and apply transfer pricing methods to develop and support their analysis.

ADEC753001
Measuring Business Cycles, Trends and Growth Cycles
Ozyildirim, Ataman K
Spring 2023
This course will focus on the measurement and analysis of business cycles with a special emphasis on business forecasting. Leading indicators are used as forecasting tools to predict when economies move from expansion to recessions and vice versa. Taking an applied empirical approach, we will cover data and tools used for analysis of short term conditions. While business cycle analysis is concerned with short-term fluctuations, understanding the long-term growth path of an economy is important to interpret short-term movements. Applications of trend estimation methods will also be covered. We will study cycles in developing economies which have experienced long periods of continuous growth. Our focus is on important economic indicators and a discussion of data issues such as price indexes, deflation, and seasonal adjustment. How can these indicators be applied and interpreted to understand short term trends in the economy? How can they assist in economic and business decision making?

ADEC754001
Marketing Analytics for Economists
Affinito, Letizia
Spring 2023
Specifically designed for Economists, this course will enable students to use analytics to improve marketing performance and lead marketing efforts. Students will be able to answer key questions such as: How to design the appropriate metrics and analytics to monitor/improve marketing efforts? How can I measure my various marketing programs' impact on revenue and profit? How can I clearly define the business problem? How can I better understand the company's goals? How can I communicate insights, not just facts? Which are all the relevant drivers (e.g., marketing and environmental factors) and outcomes (e.g., purchase funnel metrics) and how do they work in marketing? Which tool, of the many available, is best for which problem? In studying a range of firms across a range of contexts and industries, the course builds on recent advances in industrial organization and organizational economics. We use a number of cases and real life examples/simulations to discuss each of the points presented in the course. As such, the course ultimately is designed to focus on the essential topics and problems of Marketing Analytics as experienced by business managers in real life situations. Ultimately, the course will emphasize two kinds of skills: Analytical skills, which are required for Marketing Analytics; and "soft" (i.e., leadership) skills, which are required for implementation. The course will begin with the analytical skills and then move on to implementation issues.

**Communication and Leadership in Applied Economics**  
**Bradley, Robert J**  
**Spring 2023**  
This course on "Leadership and Communication for Applied Economists" has been specifically designed to meet the needs of graduate students in the Applied Economics program. Each individual session focuses on helping students understand leadership traits and develop commensurate written or oral communication skills to reinforce their influential skills. Students will discuss their current writing projects in the context of each session's topic. Also, the course will also focus on the topics related to leadership, effective written and oral communications tailored to specific audiences. In addition to leadership and communication skills, students will practice elevator speeches, short written communications and other presentations.

ADEC784001
Management of Projects in Applied Economics
Sile, Ayse E
Spring 2023
From an economics perspective, the success of a project mostly relies on the maximization of profit to allow for reinvestment and further growth and profits. The course will focus on best practices that enable the successful implementation of and excellence in project management with a focus on economics. The course also discusses the technical, cultural, and interpersonal skills necessary to successfully manage projects from start to finish. It emphasizes that project management is a professional discipline with its own tools, body of knowledge, and skills. Concepts are reinforced by case studies covering a wide variety of project types and industries.

ADEC791001
Software Tools for Data Analysis
Parravano, Stefano A
Spring 2023
The course provides students with an overview of popular software packages used today for
data exploration, analysis and visualization. The first part of the course will offer an overview of
the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the
emphasis on their use with pivot tables. In Tableau students will be introduced to more
advanced data exploration and visualization methods via a variety of advanced charts and
dashboards. The second part of the course will cover exploratory data analysis in R. Here
students will learn how to write their own code for importing, cleaning and exploring large
datasets, as well as how to create, modify and export complex charts and summaries for visual,
qualitative and quantitative analysis of the data. The third part of the course will provide an
intro to using SQL databases, where students will learn how to create SQL queries to select,
filter and manipulate the data.

Market Research and Analysis
Sile, Ayse E
Spring 2023
Market research is the systematic gathering and interpretation of information and data using the statistical and analytical methods and techniques of the applied economics and statistics to gain insights or support decision making. This course provides you with the skills and tools needed to understand and evaluate market research. Market research and analysis involve developing research questions, collecting data, analyzing it and drawing inference, with a view to making better decisions. To this end, the course is organized into two basic parts: (1) Data collection and research design, and (2) Tools and applications of research and data analysis. The course will provide a framework for conducting research, knowledge to properly design research, techniques and tools to analyze data and infer insights, and practical information sources.

**ADEC793001**  
**Fundamentals of Private Equity**  
**Yanmaz-Karsligil, Gul**  
**Spring 2023**  
This course is for students who wish to gain a high-level understanding of the private equity ecosystem. Private equity is no longer niche, but a large and global asset class with trillions of dollars under management that touches many aspects of people's daily lives all over the world. There are now thousands of private equity firms globally, and the industry has evolved to the point where different players offer distinct investment strategies and execution styles. Topics will include LBOs, venture capital, structures, economics, due diligence, portfolio construction, performance measurement, impact on society, agency issues, and ethical considerations. Through class discussion, guest lectures, and case studies, students will develop an understanding and appreciation for this unique asset class that is not well understood by many.

ADEC794001
Environmental and Natural Resource Economics
Olcum, Gokce A
Spring 2023
This course examines where the tension between economic activities and environment stems from, how economic activities cause environmental degradation and what kind of regulatory actions should be taken in order to maintain the balance between economic growth and environmental sustainability. The course has two main parts, theory and applications. We will start with analyzing the underlying economic theory of market failures, economic valuation, economic incentive instruments, and then move onto the applications of the economic theory to real world cases, i.e., air pollution control and climate change mitigation policies, water quality management and waste management.

ADEN106201
American Crime Stories
Crow, Andrea
Summer 2022
Why are we fascinated with crime? This course investigates how true crime stories from the nineteenth-century murder ballads to the Tonya Harding scandal to the notorious case of Jeffrey Dahmer attempt to make sense of problems at the heart of U.S. society. We will analyze a range of media, including prose fiction, graphic novels, poetry, and film, developing students' abilities to critically examine the narratives they encounter. By studying the strategies storytellers use to shape our sense of what's true, students will learn to recognize how true crime narratives mediate our understanding of our culture, and to perceive how the stories we tell impact the lives of real people.

Survey of African Literature
Sarr, Akua
Fall 2022
An introduction to the major writers and diverse literary traditions of the African continent. We will study the historical and cultural contexts of fiction from different regions, and themes from various periods: colonialism and cultural imperialism, nationalism and independence, post-colonialism, and contemporary voices of African writers in America. Writers include Chinua Achebe (Nigeria), Chimamanda Ngozi Adichie (Nigeria), J.M. Coetzee (South Africa), Tsitsi Dangarembga (Zimbabwe), Laila Lalami (Morocco), and Ngugi wa Thiongo (Kenya).

ADEN139001
Global Literature
Sarr, Akua
Spring 2023
Global literature goes beyond the notion of the globe as a physical geographic entity and transcends national boundaries to comment on the most prevailing aspects of the human condition. This course will attempt to redefine the borders of the world we live in through narratives that recognize the many conflicting issues of race, language, economy, gender and ethnicity, which separate and limit us, while also recognizing that regardless of the differences in our stories, we are united by our humanity. Through literature, students will journey across continents, countries, cultures and landscapes, to reflect on various renditions on the human experience. Writers will include: Aravind Adiga (India), NoViolet Bulawayo (Zimbabwe), Edwidge Danticat (Haiti), Yu Hua (China), Dinaw Mengestu (Ethiopia), and Marjane Satrapi (Iran).

Entrepreneurship Courses: Spring 2023

ADET265001
Entrepreneurship
Cronin, Mary J
Spring 2023
Entrepreneurship is much more than starting a new venture. Entrepreneurial thinking is the force that drives global innovation, social change, and economic growth. This course provides a framework for students to apply an entrepreneurial mindset to creating business and social value, analyzing market opportunities, developing new products and services, growth planning, and exploring career paths. Course topics include entrepreneurial values and ethics, the stages of creating a new business from defining the mission and market opportunity, to competitive analysis, developing business and revenue models, customer acquisition strategies, team building, financing, and launch planning. Students will analyze startup case studies in multiple industry sectors, hear guest presentations by successful entrepreneurs and venture investors, and learn to build, evaluate, and improve startup business plans.

ADET310101  
**Business Planning for New Ventures**  
**McDermott, Scott F**  
**Spring 2023**  
This course teaches students the core components of business planning for new entrepreneurial ventures through lectures, case studies, guest speakers, peer discussions, and self-directed, interactive assignments. It highlights the tools and best practices for each key step in the business planning process, from identifying critical problems and innovative solutions, feasibility and market testing, developing a business and revenue model, to creating an investor pitch and a market launch timeline. Students will reinforce their mastery of these core components through practice and feedback; in parallel with each course module, students will develop and present a full business plan for the startup idea of their choice. Students may opt to develop their business plan individually, or as part of a small team.

The Examined Life
Welch, Christopher J
Summer 2022
The Examined Life is an interdisciplinary course that addresses perennial questions by linking them to contemporary issues of significant ethical import that have bearing on daily living and social life. It is meant to bring multiple lenses to bear on topics related to our shared condition and deepen our understanding of the complex realities of human existence. Through thoughtful engagement with these topics and in community with others, students will attend to and reflect upon their personal experiences with the end goal to form ideas and opinions on how we are called to respond to the challenges confronting our world today. This course is restricted to Woods College BA students.

Purposeful Life

Klein, Timothy R

Fall 2022
The Purposeful Life course is the capstone experience to the Woods College Core Curriculum. The course builds upon the personal values and strengths students will concurrently explore in the Designing Your Career course. Students will grapple with and dig deeper into the following big-picture questions: What is my purpose and how do I pursue it? What problems of purpose do I care most about? How can I make a meaningful contribution that also brings me satisfaction? Research posits that having an awareness of how to approach work and the meaning that derives from it is crucial in achieving the best possible outcomes for both individuals and organizations. Course perspectives will combine psychology, adult learning, and organizational leadership topics to help students frame their purposeful path. Students will engage in a semester-long problem-based learning project that explores a local ethical issue they would like to understand better. This project will refine students reflection skills, incorporate their strengths, and enhance practical knowledge needed for future professional aspirations and lifelong learning. This learning experience will help students combine the competencies they have acquired in their Woods College coursework and co-curriculum with practical application in successful project implementation. This course is restricted to Woods College students with more than 100 credits. Students must register for the corequisite course, ADEX4151 Designing your Career.

Designing your Career  
Meyer, Erica  
Fall 2022
Guided by Ignatian principles of self-knowledge and discernment, students will learn how to connect the value of their liberal arts education to their futures. Through self-assessment exercises, lively discussion, and thought-provoking activities, students will identify and reflect upon their values, interests, and skills and then connect them to career options. In addition, students will explore the skills most desired by employers and learn how to develop those competencies during their BC careers. We will also discuss ways to research various career paths and learn targeted search strategies to achieve meaningful profession goals. Using a design thinking framework, students will approach the career exploration process with curiosity and creativity, learn how to identify their unique career interests, take ownership of their career development, and address challenges that often occur in the process. The skills developed will serve students throughout their life by teaching them to focus on possibilities and exploring various career pathways. Students who are considering questions like "what do I want to major in?", "what kind of internship do I want?", or "what sort of career should I pursue?" will all benefit from this course.

Film Courses: Spring 2023

ADFM124101
Film, Literature, and Law
Michalczyk, John; Michalczyk, Susan A

Spring 2023
Interest in the rapport between film and literature as it relates to the law intrigues us as much today as ever. Literature captures the drama of a legal trial or an investigation into a brutal, racial murder. Film then takes this rich material and shapes it into a compelling form with dynamic visuals and other narrative techniques. The course explores the power of story-telling and the impact of film to embody and inhabit law and its relationship to ideas about inferiority, liberty, citizenry, race, justice, crime, punishment, and social order. Film adaptations from short stories, plays, and novellas will comprise the body of the curriculum.

Finance Courses: Fall 2022

**ADFN104501**
**Investments: Stocks, Bonds, Securities Market**
**Ryan, Edmond F**
**Fall 2022**
Course explores tools to better understand the complex financial investment which all investors have access to and must now use to meet their long term financial objectives. In periods of economic and financial uncertainty, financial knowledge is critical to achieving greater financial security. Focus is on two key elements of the investment process--security analysis and portfolio management. Security analysis involves understanding the characteristics of various securities such as stocks, bonds, options, and futures contracts in the marketplace. Portfolio management is the process of combining individual securities into an optimal portfolio tailored to the investor's objectives and constraints. Familiarity with Introductory Finance is recommended but not required.

ADFA180001
Introduction to Theater
Pluto, Anne E
Spring 2023
This course examines the form and meaning of theatre in civilizations from the ancient Greeks to modern times and is designed to expose the student to the live performance experience through the study of various elements of theatre and performance, the history of theatre, and dramatic literature. Attention is paid to the relationship between live performance and other mediatized forms, like film and television, with which the student likely will already be familiar. Students will be required to read and analyze various plays and films of plays, to view two live productions, take a walking tour of Boston College theatre spaces, and to explore the process of theatrical production.

*Introduction to Healthcare Systems and Organizations*
Beshansky, Joni
Summer 2022
This course provides an overview of healthcare systems and services in the United States, including a unique view of the social, economic, and political environment across the health ecosystem industries. Current institutional structures and delivery and payer systems are explored. Emphasis is placed upon the concepts and issues that are associated with management, regulation of healthcare providers and the delivery of services, health policy, information technology, ethics and law, patient experience, pharmaceutical costs, and emerging trends and evolving health needs.

*Management Theory and Organizational Behavior*
Raviola, Emily
Summer 2022
This course includes the application of management and organizational behavior theory to explore factors affecting behavior, performance, and job satisfaction of people working in organizations. The course focuses on theories and observations of team behaviors and techniques, with special emphasis on the individual as a team member, and on change management as a challenge and opportunity for healthcare organizations. Students will learn and apply best practices for managing individuals and teams within healthcare organizations.

**Health Policy**  
**Ryan, Kathleen M**  
**Summer 2022**

Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection & Afforable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

Leadership in Healthcare
Guarino, Richard J
Summer 2022
The course introduces leadership models, theories, and skills needed to successfully manage and lead healthcare organizations through transformational versus transactional leadership-styles. Students use a variety of self-assessment tools (e.g., Myers-Briggs, SWOT analysis of self, leadership-style inventory) to develop self-awareness and to better understand the role of emotional intelligence in effective leadership. Students gain knowledge and skills for building and growing the interpersonal relationships and political skills required to develop and lead teams, and to successfully advance from organizational management roles to leadership roles.

**Current Issues in Health Economics**  
**Robbins-Murphy, Jeannine G**  
**Summer 2022**

This course uses an applied economic framework to help understand the economic and financial landscape of health care systems. The course begins with an overview of economic principles including supply and demand and perfect markets and then describes the economic challenges of healthcare economics and how health and health services are different from other goods. Considerable attention will be given to topics of current public concern including market failure, government interventions, health insurance, rapidly increasing cost, value, and expensive new technologies.

Health Ethics and Law
Bears, Jeffrey D
Summer 2022
In this course, legal issues related to the organization and delivery of healthcare are examined, along with the ethical and moral considerations associated with the management of healthcare facilities and the provision of health services. Topics include government regulation of healthcare facilities and occupations, civil rights regulations regarding diversity, fraud and abuse, institutional and personal liability for negligence and malpractice, patient consent requirements, termination of care, the confidentiality of medical information, medical staff credentialing, peer review of care, utilization review, and managed care regulations. Treatment of ethical and moral issues emphasizes the understanding of diverse viewpoints and methods for resolving conflicting moral obligations. Student apply course concepts through the development of a compliance plan to prevent fraud, waste, and abuse in billing.

Health Analytics: Assessing & Critiquing Evidence and Decision-Making
Sibley, Erin M
Summer 2022
In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

Healthcare Information Technology
Stettheimer, Timothy D
Summer 2022
This course explores the critical role of e-health and information systems in the planning, operation, & management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals and medical practices. Students will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPPA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data & systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

ADHA705502
Strategic Planning and Marketing
Spooner, Marc A
Summer 2022
Strategy is the result of an organization's choices: both affirmative actions taken, as well as actions not taken. A well-crafted strategy is coherent: it reflects a perspective on an organization's capabilities, an understanding of the competitive dynamics of the market, and a knowledge of customers' needs. Ultimately, a strategy is bounded by the vision, mission, and values of the organization itself. The interaction of these variables produces an unlimited set of choices for an organization, which is why there is not a right strategy. Rather, there is a chosen strategy that balances these factors, defines a set of actions with the support of both management and a company's board of directors, and then relies on successful implementation to produce results. And then the process begins again. The course is an opportunity to: understand the core components of developing a strategy, reflect on how these components have taken shape in your career to date, and delve into the strategy development process.

**Spring 2023**

Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection & Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

**Credits:** 4  
**Room and Schedule:** DISCUSSION HOUR THU, 7:00-8:00 PM.; ONLINE COURSE; Spring 1st Half-term

**ADHA701501**  
**Leadership in Healthcare**  
Guarino, Richard J  
**Spring 2023**
The course introduces leadership models, theories, and skills needed to successfully manage and lead healthcare organizations through transformational versus transactional leadership styles. Students use a variety of self-assessment tools (e.g., Myers-Briggs, SWOT analysis of self, leadership-style inventory) to develop self-awareness and to better understand the role of emotional intelligence in effective leadership. Students gain knowledge and skills for building and growing the interpersonal relationships and political skills required to develop and lead teams, and to successfully advance from organizational management roles to leadership roles.

**Credits:** 4

Current Issues in Health Economics
Robbins-Murphy, Jeannine G
Spring 2023
This course uses an applied economic framework to help understand the economic and financial landscape of health care systems. The course begins with an overview of economic principles including supply and demand and perfect markets and then describes the economic challenges of healthcare economics and how health and health services are different from other goods. Considerable attention will be given to topics of current public concern including market failure, government interventions, health insurance, rapidly increasing cost, value, and expensive new technologies.

Health Ethics and Law
Bears, Jeffrey D
Spring 2023
In this course, legal issues related to the organization and delivery of healthcare are examined, along with the ethical and moral considerations associated with the management of healthcare facilities and the provision of health services. Topics include government regulation of healthcare facilities and occupations, civil rights regulations regarding diversity, fraud and abuse, institutional and personal liability for negligence and malpractice, patient consent requirements, termination of care, the confidentiality of medical information, medical staff credentialing, peer review of care, utilization review, and managed care regulations. Treatment of ethical and moral issues emphasizes the understanding of diverse viewpoints and methods for resolving conflicting moral obligations. Student apply course concepts through the development of a compliance plan to prevent fraud, waste, and abuse in billing.

Healthcare Innovation-Based Strategy: Managing Change
Smith, Karen M
Spring 2023
This course examines how organizations can innovate and adapt to the ever-evolving needs and demands of a dynamic competitive and regulatory health care environment. To do so, the course explores how organizations identify innovations, the factors that affect the adoption and implementation of innovations, and evaluating whether these innovations had their intended effect on organizational performance.

ADHA704001
Healthcare Quality Management
Reid Ponte, Patricia A
Spring 2023
The course explores applications of quality improvement measures to the healthcare environment. Topics covered include an understanding of high reliability organizations, utilization review, risk management in healthcare, quality management, the use of outcomes research in improving patient care efficacy and safety, and performance management through training. This course is consistent with Lean Six Sigma (Green Belt) competencies and can partly contribute to preparation for the certification exam.

Health Analytics: Assessing & Critiquing Evidence and Decision-Making
Sibley, Erin M
Spring 2023
In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

Healthcare Information Technology
Ryan, Kathleen M
Spring 2023
This course explores the critical role of e-health and information systems in the planning, operation, & management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals and medical practices. Students will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPPA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data & systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

Strategic Planning and Marketing
Spooner, Marc A
Spring 2023
Strategy is the result of an organizations choices: both affirmative actions taken, as well as actions not taken. A well-crafted strategy is coherent: it reflects a perspective on an organizations capabilities, an understanding of the competitive dynamics of the market, and a knowledge of customers needs. Ultimately a strategy is bounded by the vision, mission, and values of the organization itself. The interaction of these variables produces an unlimited set of choices for an organization, which is why there is not a right strategy. Rather, there is a chosen strategy that balances these factors, defines a set of actions with the support of both management and a companys board of directors, and then relies on successful implementation to produce results. And then the process begins again. The course is an opportunity to: understand the core components of developing a strategy, reflect on how these components have taken shape in your career to date, and delve into the strategy development process.

History Courses: Summer 2022

ADHS180101
Themes of African History
Shlala, Elizabeth H
Summer 2022
If you want to go fast, go alone. If you want to go far, go together.- African proverb

African history is an exciting subject to study. Human history is longest in Africa and our understanding of this long history is changing because of new discoveries and also because of the changing perspectives of scholars themselves in recent years. In this course, we will work on gaining an understanding of the events and developments of human experiences in Africa over the millennia and we will also examine how perspectives of scholars and people involved in African history have changed. Frequently in the past, people have emphasized how African history relates to the history of other regions, but currently, more emphasis is being given to understanding African history on its own terms. In addition, we will try to see the significance of the African historical experience in a more global or world historical perspective. We will look at major themes, and the myths surrounding them, in our study of African history. These will include: writing the history of Africa, encounters, the Atlantic slave trade, imperialism and colonialism, the history of movements of distinctive African identity (including the rise of nationalism), and the experience of independence. We will also give consideration to Africa's role in globalization to the present day (and looking to the future).

ADHS190201
The Late Ottoman Empire and Egypt
Shlala, Elizabeth H
Summer 2022
In this course, we will learn about the history of the late Ottoman Empire and Egypt. We will examine the external and internal power struggles throughout the empire that led to assorted forms of confrontation, collaboration, and negotiation. The law and other social structures were at the heart of competing imperial projects—British, Ottoman, Egyptian, and Italian among them. We will examine how historical narratives are represented and presented through maps, media, museums, and objects. This course will appeal to students who want to learn more about this fascinating history. It will also interest students who want to understand the historical roots of contemporary global debates on Islam, law, migration, and identities. This course fulfills Woods Core requirement: History (non-western)

Remaking Europe - Marshall Plan to Brexit
Paul, Michael G, PHD
Summer 2022
This course is an examination of European history since the end of World War Two. In this course, students will analyze how the politics, culture, and society of both Western and Eastern Europe were transformed after 1945. Topics covered include the end of World War Two; emergence of Cold War; decolonization; the economic, political, and cultural forces integral to the development of the European Union; the fall of communism; internal migration and its effects on relations between European states; the role of economics, politics, culture, and migration in facilitating the path to the decision by the people of Britain to leave the edifice of the European Union (Brexit). Special focus is placed on identities and interests of individual European countries, how these identities and interests have changed since 1945, and how these changes have affected the European experiment.

History Courses: Fall 2022

ADHS108101
Modern History I
Young, Rachael A
Fall 2022
Survey of the great ideas of the western tradition from the Renaissance to the French Revolution. The focus is on the rise of the modern state in Germany (Holy Roman Empire, Treaty of Westphalia), England (Glorious Revolution and the roots of constitutional rule), and France (Divine Right Absolutism), the relationship of religion and politics (which suffers more, religion or politics?), and early modern European culture (Renaissance, Baroque, Rococo, Classicism) as well as Europe's interactions with Asia, Africa, and the Americas. Each class consists of a slide lecture and primary source-based discussion.

An Emerging World
Paul, Michael G, PHD
Fall 2022
Focuses on events in Europe to view how the world community of nations defined their role in
and came to terms with the twenty-first century. Novels, memoirs, essays and documentaries
reveal the events and decisions that forced or allowed nations to define themselves in the
modern world. Topics include Europe and World War I; the Great Depression; World War II;
decolonization and the Cold War; and resurgent nationalism and the "new world order,
globalization and terrorism." Books include Regeneration, Pat Barker; The Road to Wigan Pier,
George Orwell; The European Home Fronts, Earl Beck; Blood and Belonging, Michael Ignatieff;
and brief readings.

This is an online course. The phrase "For God and Country" seems self-evident, but what if obeying God requires disobeying the country's government? Can a person of faith endorse the slogan "my country, right or wrong?" In this course, historical examples serve to achieve a greater understanding of the tension between religious and civic imperatives. Historical examples will range from Christian martyrdom in the Roman Empire or the Jewish uprising at Masada to Christians resisting the Nazi regime. Examples from the three monotheistic religions of the West will be analyzed. Required readings consist of historical documents. This course is fully online and class discussions will occur synchronously and asynchronously.

History Courses: Spring 2023

ADHS161001
Special Topics: Sea Power and World Maritime History
Hannan, Christopher W
Spring 2023
World history through a maritime world lens which focuses on the monumental changes taking place in the late medieval and early modern world. Beginning with a survey of the worlds ocean regions at a time when the oceans of the world divided the earth into distinct and discrete areas, it traces the evolution of world trading systems and their impacts after 1400. This world, divided by the Atlantic, Pacific and Indian Oceans into three distinct regions began to change as exploration and the projection of power by empires in Asia and the Middle East, along with the ambition of the newly unified European kingdoms to create supply-side and demand-side monopolies, changed the oceans from barriers to highways of goods, ideas, plants, animals and disease. The course also looks at the impact of religions and their attempts to expand in the wake of these changes. By 1800 the world was profoundly transformed. The new reality of a rising West and fading East marks the end of the course. Some of the other topics covered during this course are Mediterranean slavery, as well as East and West African slavery; piracy in Sumatra, the Red Sea and the Caribbean; Jesuit and other Catholic missionary endeavors; and the establishment of worldwide trading systems for commodities like fur, sugar, whales and cod fish.

**African Encounters with Colonialism**

Prochnow, Kyle

Spring 2023
Far too often, Africa conjures up particular and often negative images: poverty, disease, starvation, environmental disaster, military coups, and civil war. At the same time, the history of Africa tends to be obscured by generalities and dangerous assumptions about unchanging, isolated, and underdeveloped societies. This course aims to confront these notions by placing contemporary Africa in historical perspective. To do this, we will focus our attention on the so-called colonial era of the late nineteenth and twentieth centuries. Together, we will aim to answer two key questions: how did African people interact with colonialism?; and how does Africas colonial history help us to understand some of the continents current predicaments? The class will progress chronologically and thematically, considering important themes such as the Scramble for Africa, early colonial resistance, gendered encounters, environmental change, leisure and culture, anti-colonial nationalism, and decolonization. In doing so, it will emphasize the diversity of African experiences with colonialism and highlight the myriad ways in which African people negotiated, articulated, and challenged their place in a chaotic, changing world.

**Art, Politics, and Propaganda: Birth of the Nation State 1300-1700**

Paul, Michael G, PHD

Spring 2023
This course examines the crucial role of Art and Politics in the creation of the Nation State during the Renaissance. We will look specifically at the Tudor and Stuart era in England and Scotland in order to examine the intersection of Art and artists and the politics of the time. In placing Art in its historical context, we will investigate how the Tudor and Stuart dynasties used Art (paintings, poetry, plays, and literature) as a way of engendering and solidifying the concept of the Nation State. We hope to discover the role played by political factors, and various art forms, in confirming the legitimacy of the Nation State in England between 1300-1700.

**Credits:** 4

Database Management
Russo, John P
Fall 2022
If organizations run on knowledge, effective organizations depend on data management and analysis to integrate their systems with their strategies and their operations. This course analyzes the structure of database management systems, guides you through techniques for querying and analyzing an organization's data, and teaches you how to build a well-structured relational database. Database management systems are studied, databases are compared to other technologies for storing and using data, and students develop extensive hands-on skills in exploring and querying databases. Students also analyze a set of information requirements, and then design and build a database. Oracle and the SQL language will be used extensively. By learning database management, the diligent student will make herself or himself more useful at work and more valuable to her or his employer.

Python
Williams, Harris E
Fall 2022
This course is meant for any student interested in learning computer programming concepts with the Python programming language. We will cultivate our problem-solving abilities as we develop programs in Python. This course is suitable for students with little to no programming experience. The course will start with the basics as we discuss logical decisions and loops. Further, we will explore Python data structures such as tuples, sets, lists, and dictionaries. We will couple this knowledge to make our own classes as we learn about object-oriented programming. Throughout the semester we will discover and implement basic debugging techniques. By the end of this course, students will compose Python programs that solve problems on their own.

C++
Williams, Harris E
Spring 2023
An introduction to programming with C++. This course is meant for students with little or no programming experience. We will start with the basics of programming using the C++ programming language. C++ is the cornerstone programming language used to develop many of the fundamental applications we use on a daily basis. For example operating systems, web browsers and other programming languages such as Java, Python, and SQL are built with C++. We will use the low level nature of the C++ programming language to learn about the fundamental aspects of how a computer works. In this course we will develop basic command line applications, explore how data is stored in memory and how we may use logic to manipulate the data to produce different results.

Computer Security
Bernier, Brian
This course provides a strong starting foundation for understanding the complex threats system managers face today and what they need to do to harden their systems against attack. Today’s business system managers need to understand these threats and know how to protect their digital assets. Students in this course will look at computer security through a variety of lenses. Specific topics will include: protecting the physical infrastructure, computer system design considerations, identity and access management functions and how they fit in, the role of network security tools, the importance of audits and having the right security processes and policies in place, business continuity and disaster recover planning, managing vendor contracts and special consideration for cloud-based systems, and ethical considerations.

**Data Visualization**  
**Luo, Jiebei; Xu, Yaqing**  
**Spring 2023**
In today's information age with ever pressing demand for data skills, data visualization becomes a critical component of data science. By utilizing visual presentations, data visualization achieves an effective way of communicating insights from data, identifying hidden data patterns and trends, and telling the full story behind data. In this course, students are introduced to the foundations of data visualization along with various data visualization tools. We will introduce the key design principles, how to present data using a number of common data visualization tools (such as Excel and Tableau software). This course will provide students from all backgrounds the opportunity to learn data skills and have hands-on experience working with various datasets, creating visualizations and telling data stories. Students will develop data visualization skills that can be applied to their fields of study and future career. Topics covered include best practices in use of color, visualization principles, static and interactive visualizations, visualization types, and others.

Law Courses: Spring 2023

ADLA240001
Business Law
Schott, Joseph P
Spring 2023
This course will introduce students to the legal framework applicable to business. It will begin with an overview of the U.S. legal system, including the process by which government and courts establish laws and resolve disputes. The bulk of the course will then review those areas of the law that business leaders regularly encounter, including business formation and governance, finance, securities, employment, contract, real estate, intellectual property and torts. The course will give particular focus to the practical implications for business leaders, including how leaders identify and manage risks to the business when the law is unsettled or ambiguous, or otherwise raises ethical considerations. The course will regularly draw on the experiences of current business leaders and their lawyers and advisors.

Employment and Labor Law
Tierney, Michael P
Spring 2023
This introduction to the rapidly evolving law of the workplace focuses on how the law works in practice today providing important information for employees and managers. Looks at traditional common law such as "Employment At Will" and areas of employment law topics including hiring, promotion and termination, workplace security, privacy and safety, compensation and benefits, immigration, and labor-management relations. Course also covers the various laws prohibiting discrimination in the workplace, with a focus on federal statutes and regulations as well as the emerging legal issues around Social Media in the workplace.

Project Management
Chirkova, Aza
Summer 2022
This course introduces students to the basic tenets and components involved in project management. The primary objective is to provide frameworks that make it possible to track and measure project performance, overcome challenges, and adapt to changes in a variety of professional environments. Specific topics covered in the course include project scope, time, cost, quality, human resources, communications, risk and stakeholder management, and a variety of other operational issues that emerge during project planning initiation, monitoring, and execution.

Credits: 3
Room and Schedule: On-line Asynchronous
Satisfies Core Requirement: None
This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and 'classic' articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

ADGR778501
Leadership and Decision Making: Ignatian-Based Applied Ethics
Noone, Gregory P
Summer 2022
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

ADGR800601
Communication in a Global Context
Hiles, Elisabeth A
Summer 2022
Successful organizational leaders recognize the enormous potential of globalization, and the absolute need to interact competently with complex multicultural work environments. Students learn to better understand the subtle cultural dynamics and nuances that build and maintain relationships at work and at home as well as in corporate negotiation. Topics include addressing the tension between "culture" as something fixed, and the push for change, the dynamics of men and women working in partnership, leaders as influencers of a collaborative culture. Media influences, nonverbal cues, and the formation of worldviews are examined. Explores values, stereotyping, and cultural biases through readings, presentations, and films.

**Milligan, Sean J**  
**Summer 2022**  
Strategy is how leaders distinguish the organizations advantage in competitive markets. It is a set of guidelines that help direct decision making and the allocation of resources to accomplish the company's key business goals and objectives. To succeed in the future, leaders must develop the means and capabilities needed to gain and sustain these advantages. This course introduces the concepts of strategic management by using readings, discussion, and case studies. The key components the course will cover are: the three horizons of strategy; external environments (social, political, technological, and economic); global markets; internal Factors and Implications (capabilities, talent, resources); the role of Culture and Change Management.

Organization Theory and Design
Bent, Lauren G
Summer 2022
Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

**Human Resource Development**  
**Klayman, Stephen A**  
**Summer 2022**

This course focuses on employees and how to get the highest level of performance out of employees. What motivates your employees? What makes them want to stay? How do you prevent attrition? This course will start with an introduction to organizational design and relevant organizational development theories. It will then move to talent acquisition and employee training, where use of analytics and metrics will be introduced. Next, students will learn performance management methods and appraisal, including use of instruments and rating scales. The course will then move to career development and leadership development including assessing talent, developing career paths, and succession planning. The course will conclude by helping students understand the differences between coaching and mentoring, and how to effectively manage organizational talent.

Course is taken in final semester only. The Applied Research Project for Leadership and Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular M.S. specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Leader as Change Agent
Snyder, Shanell L
Fall 2022
A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent.

ADGR809001
Workforce Planning and Employment
Snyder, Shanell L
Fall 2022
Strategic Workforce Planning takes a broad view of the organization to assure the right people and right skillsets are in place to drive strategy and reinforce culture. Key stakeholders are partners in the process to ensure adoption within the organization, and collaboration is necessary to drive alignment of people, process and technology. Workforce planning considers the balance between the current state, the organization's evolution, and the desired future state. Finding that balance requires measuring the system, and evaluating both the internal and external environments. This course will help you think about how to assess organizations, learn to work with the organization's strategy and culture to determine the key factors driving Workforce Planning, how to apply different frameworks, and to create a gap analysis between the current state and the desired state. From this framework, you will look at ways to implement the strategy, and learn to use data to inform your thinking.

ADGR820301
Stakeholder Management
Chirkova, Aza
Fall 2022
Course provides students with deeper dive in subjects of Managing the various Stakeholders who affect Project progress. Stakeholders are not just the team members, they are also people with the company at all levels and all functions, including the executive management and the executive Champion. Students are alerted on how to identify, enhance or minimize the impact and the support of external Stakeholders be it clients, business partners, Government agencies at the local, state, and Federal levels. Stakeholders may also be members of the general public and/or public organizations either in support of or in opposition of the Project. The students will be introduced to various Communications methods and techniques to improve the Stakeholder support and keep them engaged. Course is a hybrid of in-class sessions and online asynchronous work.
ADGR830101
Foundations/Fundamentals of DEI
Cooper, Tuesday L
Fall 2022
Students will begin to understand the business case for DEI, major laws and policy related to DEI history. Rooted in critical race theory, the course will examine systemic contexts around social justice and social change, language and terms, difference between diversity and inclusion, what equity means, the concept of privilege and power differentials (dominant vs. non-dominant concept), and analyze current state (e.g., statistics around representation of diverse groups in the workforce). The course will look at major groups and understand some of the challenges that each faces (age, race, sexual orientation and identity, gender, and ability) and go deep by exploring each group's most common challenges and barriers, e.g., for POC, understanding concepts like Imposter Syndrome, Covering). Finally, the course will explore DEI business use cases.

Bias in the Workplace
Lowe, Patricia N
Fall 2022
Understanding bias is critical to one's ability to "rewire the system to rewire behaviors" to make sustainable change. This course will examine Implicit Bias, Gender Bias, Cognitive Biases, Affinity Bias, Confirmation Bias, etc. In addition to broad topics of bias, course will examine emotional intelligence, self-awareness, self-knowledge, and empathy. The course will incorporate cases on bias in the workplace and give students practice on how to identify bias and be able to explore how that thread pulls through and can adversely affect advancement, opportunity, compensation, and other key employment aspects. The course will examine how even small biases in seemingly minor people systems can amplify exclusion over time.

Applied Research Project
Sarkodie-Mensah, Kwasi
Fall 2022
Course is taken in final semester only. The Applied Research Project for Leadership and Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular M.S. specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Inclusive Leadership
Miller, Angela R
Spring 2023
This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and 'classic' articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

ADGR772601
Leading and Managing Change
Vuksinick, Brett R
Spring 2023
The contemporary business environment is constantly changing. Global and domestic markets are in flux, and the workforce is subject to the ebb and flow of generational dynamics. Whether Fortune 500 or small business, the ability to be nimble and strategically change in response to the fluidity of business trends is the key to success. Yet, leading and managing change in the corporate setting is extraordinarily challenging. Change is unsettling. Change challenges the security of how things have been done. Change tests the mettle of project implementation and teams. The prospect of change often impedes creativity rather than promotes innovation in the workplace. No one wants to be wrong or make a wrong decision in the face of change. Hence, managers and the workforce they oversee tend to be change resistant. In order for the organization to change, the people in the organization must be willing to change work/management styles, approaches, and attitudes. In today's highly competitive business environment, rapid and smooth decision-making and implementation is the basis for competitive edge. This course will be presented in three parts. First, students will gain a detailed understanding of change at the macro (organizational) and micro (individual) levels. We will identify the problems associated with anticipating, initiating and implementing change in both for profit and not for profit corporate settings. The second part of the course will explore various techniques in promoting sound analytical corporate response to change at the senior and mid-level managerial levels. The final part of the course is applied. Student teams will assume leadership roles in a fictional company needing change and present their change process in class. Students will also each prepare an analysis of a case studies of corporate change experience. Emphasis will be placed on the process of change in the business context. The class discussions will be grounded in empirical realities rather than theoretical suppositions.

Evolution of Marketing Strategies in the Digital Era
Madden, Scott W
Spring 2023
A practical overview of the role and potential of marketing. Developing a market strategy to reach new and evolving markets depends on understanding emerging communication activities and styles, the accurate identification of needs, and expertise in generating and converting inquiries. Elements of a marketing strategy, including pricing, promotion, product decisions, and distribution are included. Creative development of the marketing mix utilizing traditional and interactive components. Strategy formulation and control of the marketing function in a digital world are emphasized.

ADGR778501
Leadership and Decision Making: Ignatian-Based Applied Ethics
Noone, Gregory P
Spring 2023
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent.

**Talent Management**  
**McDonald, Brian R**  
**Spring 2023**  
Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

ADGR804501
Media Relations and Community Management
McDonough, Kerry R
Spring 2023
Whether in the public or private sector, leaders are responsible for gaining the trust of their audience and guiding them toward the best possible outcomes - ensuring personal health and safety, spearheading operational efficiency, or driving profit. This course puts you in the shoes of these leaders, preparing to build meaningful partnerships with other agencies and counter skepticism from apprehensive audiences. By investigating others blunders during critical moments, understanding the motivations of your audience, and examining your own communication skills and public perception, you'll be ready to serve as an adaptable, innovative leader. Course Outcomes: Educate others about the evolution of the perception of media, and how to build trust with an apprehensive audience. Evaluate your audience and generate nuanced engagement programs based on their motivation and bias. Determine and execute simultaneous communication to varied target audiences. Examine your current digital footprint and develop your public persona Create a meaningful partnership with other public and private organizations.

Organization Theory and Design
Bent, Lauren G
Spring 2023
Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

ADGR805301
Employment and Labor Law
Tierney, Michael P
Spring 2023
This introduction to the rapidly evolving law of the workplace focuses on how the law works in practice today providing important information for employees and managers. Looks at traditional common law such as "Employment At Will" and areas of employment law topics including hiring, promotion and termination, workplace security, privacy and safety, compensation and benefits, immigration, and labor-management relations. Course also covers the various laws prohibiting discrimination in the workplace, with a focus on federal statutes and regulations as well as the emerging legal issues around Social Media in the workplace.
ADGR811001
Agile Methodologies
Musserian, Lalig J
Spring 2023
Companies that produce software are increasingly turning to agile development practices to help them stay competitive. Strategic project management is focused on the rapid and repeatable delivery of software, speed to market and risk mitigation as part of the project management process. Project Managers and project teams need to become well-versed in Agile practices and the highly collaborative and iterative methods which have made Agile and experienced "Agilista's" in high demand. This course starts with an overview for project managers and project teams on a variety of Agile methods, followed by a deeper dive into the most popular Agile process called Scrum. We will cover a prescriptive methodology for "Scrumming," with activities grouped into categories of People, Process and Technology within the 3 recommended phases for the successful implementation of projects with Scrum. For each phase, we will review a set of inputs and outputs, definitions and common terminologies, tips for success, inputs and outputs and the various Scrum ceremonies for a comprehensive course on running a Scrum project. This will be an interactive, hands-on class, so we can practice Scrum principles and not just learn them from a theoretical perspective.

Business and Marketing Analytics
Baker Hearld, Kristine R
Spring 2023
As industries become increasingly competitive, companies rely more and more on marketing to attract buyers and prove the value of their spend from brand awareness to impact on revenues. Doing so in todays digital world requires a clear understanding and management of metrics and analytics. The Internet promises to revolutionize the dynamics of international commerce and permits new types of measurement tools that will expand the data available to marketers, including advertising measurement and customer profiling. This course will provide students with the main tools to lead marketing performance and help them answer key questions such as: How can I lead marketing performance by designing the appropriate metrics? What are the most important marketing metrics and analytics for me to use? How can I measure my various marketing programs impact on revenue and profit? How can I best communicate marketing results with my executive team and board?

**Social Influence and Content Creation**  
**Dailey, Whitney F; Shankar, Maithreyi**  
**Spring 2023**

The Social Influence course is designed to give students a comprehensive approach to understanding social influence marketing. Consumers can be influenced not only for buying products or services but to assume certain attitudes, particular behaviors, or decisions. Social media in its different forms employs multiple tools and strategies to impact the social norms, values, and beliefs. This new field of marketing encompasses different domains such as culture, consumer behavior, social media, social phycology and its subset of persuasion. Dividing the course in 5 distinctive modules offers the possibility to first cover the determinants of the system of values and norms that are shared among a group of people. Then, the external and internal factors influencing consumers before focusing on the different techniques employed by different media outlets. Through lectures, discussions, case studies, and current news, students will learn and apply various theoretical frameworks to analyze the process of influencing an audience.

Marketing Courses: Fall 2022

ADMK220101
Digital Marketing Strategy
Fortney, Erin M
Fall 2022

This course is intended to introduce students to the world of digital marketing and the many different facets that work together in shaping an online digital branding presence to meet strategic business goals. A digital marketing strategic plan is one that helps achieve specific digital goals through carefully selected online marketing channels such as paid, earned, and owned media. Areas of focus include the origins of the digital marketing channel, how it has transformed the way customers interact with brands and products, as well as how marketers leverage different digital channels to optimize sales, awareness, and engagement goals. Students will gain a deeper understanding of how marketing teams function based on different organizational structures and will develop their own strategic plan based on a real-world company or organization.

Finite Probability
Brady, Donald
Fall 2022
This course is a survey of applied finite probability including finite sets and partitions, enumeration, sample spaces, expectation and random variables. Also, a brief introduction to statistics.

Credits: 4
Room and Schedule: PEP Only; W 12:45PM-03:30PM
Satisfies Core Requirement: Mathematics
Prerequisites: None
Corequisites: None
ADMT105401
Precalculus
Brady, Donald
Fall 2022
This one semester course treats the algebra and analytic geometry necessary for calculus and other college mathematics courses. Topics include a review of algebra, polynomial and rational functions, exponential and logarithmic functions, and trigonometry. Modeling and problem solving are emphasized throughout.

Credits: 4
Room and Schedule: Gasson Hall 201 Tu 06:15PM-09:35PM

ADMT180501
Applied Statistics
Khanani, Noman
Fall 2022
This course is designed to provide students with a foundation in statistical analysis and computing. This class focuses on the concepts, language, and application of statistics to social sciences. In particular, students will learn to produce and interpret descriptive statistics and graphical and numerical representation of information; additionally, students will learn about measures of location, dispersion, position, and dependence, and how to conduct exploratory data analysis. Additional topics will include elementary probability theory (to aid with interpretation and understanding), point and interval estimation, hypothesis significance testing, and linear regression. To help facilitate understanding of the data analysis process, students will routinely apply what they have learned to real data using SPSS. Students will become familiar with SPSS through class lectures, in-class lab exercises, and take-home assignments. SPSS is available to BC students through BC Apps. Real-world data sets will be provided to students for use in coursework.

Calculus I
Brady, Donald
Spring 2023
This is a course in the calculus of one variable and is suggested for Economics majors. The course is also a pre-requisite for ADEC3510, Math for Economists, and for participation in the 5th year MS in Applied Economics program. Topics include a brief review of polynomials and trigonometric, exponential, and logarithmic functions, followed by discussion of limits, derivatives, and applications of differential calculus to real-world problem areas. The course concludes with an introduction to integration.

For modern readers, detectives stand as the image of the ideal thinker. In literature, cinema, and on TV, we see the hold detectives have on our cultural imagination. They are viewed as purveyors of wisdom, personifications of reason, logical thinkers defined by their commitment to the facts and their unflinching pursuit of truth at all cost - especially hard, uncomfortable truths, the kind most of us prefer not to see. From the time of Aristotle, philosophers have approached the world as if it was the scene of a crime, a mystery to be solved, a riddle to be deciphered. Philosophers, it might be said, act as investigators whose job it is to uncover hidden truths. Like detectives, they are late on the scene, arriving after the crime has been committed. Like detectives, they rely upon the facts of existence to question and reason their way to probable answers, to what happened here and why.

In this course, students will learn the art of philosophical investigation by learning to think like a detective. Questions of epistemology - what can be known - and metaphysics - why things are the way they are - will be explored in relation to mystery novels, detective shows, and works of philosophical literature.

This course introduces students to philosophical reflection and to its history through the presentation and discussion of the writings of major thinkers from the ancient and medieval periods. The course is designed to show how fundamental and enduring questions about the universe and about human beings recur in different historical contexts. Emphasis is given to ethical themes, such as the nature of the human person, the foundation of human rights and corresponding responsibilities, and the problems of social justice.

ADPL150001

Ethics

Severson, Eric

Fall 2022
This course will look at ethics from a social and Christian perspective. This course provides an introduction to Christian ethical modes of reflection on contemporary issues that impact class, race, and gender groups. These include issues of poverty/economic justice, First World/Two-Thirds World relations, racism, and sexism. U.S. citizens often identify themselves as religious persons, but less often do the hard work of connecting religious ethical traditions with social policies that impact relations among social groups. We may come up with different conclusions, but the unifying element in this course is our engagement in the difficult process of ethical discernment that is informed by both social theory (i.e., analysis of class, race, and gender systems) and the Christian tradition (Catholic Social Teaching with its foundation in scripture, Thomistic ethics with its assumption that the world is defined and governed by objective moral laws, and church teaching which emanates from application of tradition and scripture to current ethical situations.) An integral component of this class is to be engaged with the world, i.e., pay attention to issues in the world that could benefit from the application of the material being discussed in class.

ADPL149801
Philosophy of Cinema
Clemente, Matthew J

Spring 2023
Just as some of the world’s greatest philosophy is to be found in novels, some is to be found in cinema, both films of philosophical novels or plays or original screenplays. This course will be much more than "philosophical discussion of movies." It will raise and debate fundamental issues in the history of Western philosophy in and through selected films. We will also read the books or screenplays on which the films are based and compare the written texts with the film version.

**ADPL180001**  
**World Philosophies**  
Severson, Eric  
Spring 2023
World Philosophies contributes to a project that is at the core of Jesuit education and its intellectual tradition: global conversations on the meaning of human existence. This course will introduce students to global philosophical accounts of the human person. Exploring diverse philosophical approaches also presses students to engage their own thinking in dialogue with a variety of views. By embarking on the quest to understand what it means to be human, around the world and across history, students take up a heritage that they share with past and future generations and their contemporaries across the globe: they will learn to reflect critically on their own culture, assumptions, and responsibility. This course is concerned with foundational topics in philosophy, particularly: what does it mean to be a human person? Such a question is inevitably personal and at the same time vast in scope. This question has been taken up and addressed in some form or another by a wide range of thinkers from around the globe and across human history. The course will be organized around an investigation of the philosophical foundations for living, loving, and dying well. In search for answers to these questions, we will review how they are addressed in the western philosophical tradition, as well as a broad sampling of wisdom from around the world, including Indigenous philosophy, Buddhism, Hinduism, Islam, Judaism and Chinese philosophy. We will discuss the role of feminism in reshaping the ancient question of the human person, which has been for centuries predominantly answered by male voices. Particular attention will be paid to the Jesuit tradition and its focus on justice and reconciliation. Ultimately, the course will press students to reconsider their own human personhood in light of this global collection of movements and ideas.

ADPL216001
Challenge of Justice
Snyder, Joshua R
Spring 2023
The pursuit of justice is a dominant concern of our age. But it appears that there are nearly as many understandings of justice as there are persons and communities to claim them. The goal of this course is to consider the principal understandings of justice and peace that have developed in the Western philosophical and theological traditions and assess how these alternative understandings affect personal decisions and social policy choices. We will pay attention to how these theories relate to concrete, practical, political and social issues. Special attention will be paid to the contribution of the Catholic intellectual tradition in formulating an approach to justice and peace. This course highlights what is at stake when we choose one way of justice rather than another. Ultimately, we need to think about how we ought to treat other people and what kind of society we want to build. Over the course of the semester, we will examine issues of justice related to human rights, hunger and poverty, racism, sexuality, ecology, and peace-building.

Political Science Courses: Spring 2023

ADPO104101
Fundamental Concepts of Politics
Paul, Michael G, PHD
Spring 2023
The study of politics is not only fascinating but crucial if one is to be a responsible citizen of the country and the world. Through an examination of U.S. political institutions (e.g., Congress, the Presidency, the courts) and other political actors (e.g., interest groups, the media, public opinion), this course will also expose students to broader political concepts that may be generally applied in studying politics as a whole.

Credits: 4
Room and Schedule: Gasson Hall 206 M 06:15PM-09:35PM
ADPO300301
The Society of the Selfie: Social Media and Political Crisis
Morelock, Jeremiah C
Spring 2023
This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

Abnormal Psychology
Goodman, David M
Summer 2022
Students are introduced to the categories used to understand normal and abnormal behavior and adjustment in Euro-American contexts. The course focuses on the specific diagnoses that are recognized in the DSM-5 and by the general medical establishment in the United States. The course provides mainstream competencies concerning diagnostic nomenclature and medical descriptions of human suffering. It also provides tools to critically analyze this system of diagnosis and approach to human suffering. In-depth consideration of psychoanalytic theory and case studies are used.

ADPS210101
Positive Psychology
Clucas Leaderman, Emilie
Summer 2022
Psychology has often focused on deficits and disability. Recently, however, added focus and research has been placed on the more positive aspects of human life. This course is designed to provide a systemic understanding of what we have learned about human capacity related to positive characteristics and processes, and how these tenets and skills can be learned and applied to improve our well-being. We will explore how a variety of components including biology, emotions, personality, lifestyle, culture, and environment continually interact in a dynamic process to promote a fulfilling and flourishing life. The course will foster creative thinking about concepts and methods of positive psychology. While focusing on each person's unique potential for growth and development, social and professional contexts will also be emphasized, such as thriving within communities and organizations. Students will be encouraged to think critically about well-being and integrate their own personal experiences.

Industrial and Organizational Psychology
Payne, Adam M
Spring 2023
Industrial and Organizational (I-O) Psychology is a scientific discipline that studies human behavior in the workplace. I-O psychologists help institutions with hiring, managing, developing, supporting employees, while working to align employee efforts with business needs. Some intended outcomes of I-O psychology include better talent to achieve the strategic goals of the organization, reduced turnover, increased productivity, and improved employee engagement. The tools and methods used in I-O psychology are highly transferable, as they are based upon the application of scientific processes toward studying people at work which incorporate aspects of statistics, research techniques, and other evidence-based approaches.

ADPS222001
Forensic Psychology
Barros, Joanne T
Spring 2023
This course focuses on key theories in the field of psychology. Forensic Psychology goes beyond traditional interpretations and interventions, to examine the complexity of factors present in any case. Environmental, biological, psychological, emotional, and social factors, as well as acute stressors, are examined to demonstrate these dynamics. Reviewed theories are integrated to provide a critical analysis of forensic cases, utilizing a comprehensive evaluation and threading in all key information. Moving beyond the acute care system and community guidelines for assessing clinical needs, this course promotes an in-depth review of all factors, inclusive of historical data, risk factors, mitigating factors, forensic assessment of clinical needs, treatment planning, as well as the use of multi-disciplinary and integrated approaches (for example threading in the behavioral health system with the criminal justice system). This course also examines how forensic psychology applies in court systems, state hospitals, correctional facilities, law enforcement work, and overall community care. Given the increasing complexity and acuity in clinical presentations, co-occurrence disorders, and contact with the criminal justice system as a result of increased risk factors, the field of forensic psychology is critical to the well-being of the individual, the community, and the system as a whole.

The Age of Misinformation
Carroll, Jaclyn
Spring 2023
Are we living in the Age of Misinformation? Scholars across the social sciences and humanities are united by a fear of how fast false information can spread. Misinformation appears everywhere our workplaces, our social media feeds, our family dinners. But what is misinformation and where does it come from? Why are some people drawn to it while others remain unaffected? How does anyone distinguish good information from bad, experts from dupes? This course is an interdisciplinary examination of misinformation, its character, its origins, and its impact on social and political life. By surveying the leading theoretical explanations of misinformation from sociology, communication & media studies, psychology, and political science, students will be exposed to cutting edge research on the nature of misinformation and will cultivate tools to hinder its spread in their personal and professional lives.

Counseling Theories and Interventions
Blattner, Meghan C
Spring 2023
What is psychotherapy and how does it work? What is the role of the therapist? What are the tasks of the therapist? What occurs in the relationship between therapist and patient? This course will address how various theories and perspectives address these and other questions. By comparing and contrasting different approaches to psychotherapy, students will better understand the history, theories, values, and techniques of the major schools of psychotherapy. Students will also appreciate how issues of ethics, religion/spirituality, and culture of the therapist and patient affect psychotherapy.

Introduction to Sociology
Carroll, Jaclyn
Fall 2022
This course introduces students to historic and current topics in sociology. Sociology is the study of the development, structure, function, collective behavior and collective problems of human society. The course introduces essential concepts, theories and methods of the discipline. Special topics include group interaction in everyday life, altruism and morality in social contexts, evolving conceptions of the family and other social groups, societal facets of economics, and how group conduct is shaped by conceptions of gender, race, ethnicity and class.

ADSO250111
Sociological Theories
DelSesto, Matthew J
Spring 2023
Sociological theory explores many complex questions that people have pondered for centuries, including the nature of human interdependence and how it evolves, inequality and why it is tolerated, social change and how it occurs, and social order and how it is maintained. This course introduces students to the major thinkers, classic texts, and relevant theoretical questions that have been and continue to be central perspectives within sociology. Through examining both classic and contemporary schools of sociological thought, we explore the basis for many of the core questions, debates, and methodological approaches within the discipline of sociology. Attention is paid to social and intellectual contexts, conceptual frameworks and methods, and contributions to contemporary social analysis. Throughout this course, we will also consider the application of theory and how these emergent ideas are relevant for contemporary society and current sociological research.

The Age of Misinformation
Carroll, Jaclyn
Spring 2023
Are we living in the Age of Misinformation? Scholars across the social sciences and humanities are united by a fear of how fast false information can spread. Misinformation appears everywhere our workplaces, our social media feeds, our family dinners. But what is misinformation and where does it come from? Why are some people drawn to it while others remain unaffected? How does anyone distinguish good information from bad, experts from dupes? This course is an interdisciplinary examination of misinformation, its character, its origins, and its impact on social and political life. By surveying the leading theoretical explanations of misinformation from sociology, communication & media studies, psychology, and political science, students will be exposed to cutting edge research on the nature of misinformation and will cultivate tools to hinder its spread in their personal and professional lives.

The Society of the Selfie: Social Media and Political Crisis
Morelock, Jeremiah C
Spring 2023
This course explores how the Internet is connected to the global crisis of liberal democracy. Through social media people have new ways of rating and judging themselves and one another, via metrics such as likes, shares, followers and friends. There are new thirsts for authenticity, outlets for verbal aggression, and social problems. Information technologies provide channels for public engagement where extreme ideas reach farther and faster than ever before, and political differences are widened and inflamed. They also provide new opportunities for protest and resistance. Topics covered. Social theories from Debord, Foucault, Giddens, Goffman, and Fromm will be discussed in relation to the topics covered, which include the global history of communication technologies, personal branding, echo chamber effects, alienation, fear of abnormality, authoritarianism, populism, and resistance.

Sports today is a big business. At all levels, revenues currently exceed $65 billion. Colleges and universities have seen their cost per athlete increase by 52% over the past 5 years. With the vast amount of money involved and the visibility of the athletic programs, sports management has necessarily become a separate discipline. Sports Management shares many similarities with other businesses, but there are critically important differences. This course focuses on the financial management of sports programs. The course is designed to provide students with a fundamental understanding of the basic concepts in sports finance. It will focus on creating an understanding of basic financial concepts applicable to all organizations, including financial statement analysis, analyzing risk and return, and the time value of money. It will then apply these concepts to create an understanding of the financial drivers underlying sports management at the collegiate and professional levels. This will be accomplished through readings, videos, online class discussions, group projects, and individual reports.

Summer 2022
This course will explore the rights of college student-athletes to access entrepreneurial opportunities based on their common law rights of publicity, often called rights of Name, Image, and Likeness (NIL) that has been created. Historical amateurism rules had prevented college student-athletes from using these rights going back to the 19th Century. The 2021 law change represented a major shift in how intercollegiate athletics may both operate and relate to its athletes, sponsors, and fans. For student-athletes, the ability to use and potentially profit from these rights offer a range of challenges and opportunities and this course will cover including the legal environment around NIL opportunities, the NCAA rules still applicable to NIL, key contractual terms and provisions related to NIL, opportunities allowed and limited under NIL laws and regulation, institutional responsibilities created by NIL, and strategies for limiting risk in pursuing entrepreneurial opportunities.

Diversity and Inclusion in Sports
Buenano, Andrea L
Summer 2022
This course is designed to provide students with an overview of the major diversity and inclusion issues in the world of sports. All prime issues impacting contemporary sports are covered, including gender and sex, race and ethnicity, disability, religion, student-athlete welfare, media involvement, and globalization. Students will learn about their own bias, general bias, and how an inclusive and diverse sport organization creates a stronger culture. This course will place a heavy emphasis on critical dialogue and discussion and is designed to challenge students to think critically about the information they are receiving while applying the knowledge they have gained to specific intersections between sport and society. Students will be expected to be a participant in the learning process, including researching on their own, asking poignant questions when they might seem ambiguous, and learning from classmates different experiences all while being open and respectful. This course is considered a collective learning experience between students and the instructor (and occasional guest speaker and/or site visit). Students have diverse backgrounds, experiences, training, and education that they each bring to the classroom, thereby potentially enhancing the classroom exchange and learning experience.

ADSA800501
Health and Wellness in Athletics and Sports Administration
Ramos, Douglas J
Summer 2022
This course, with a multidisciplinary perspective that involves athletes, health care providers, and administrators, will provide a basic overview of key health and wellness aspects within sport and the administration and delivery of that health care. It will explore the regulatory and medical legal landscape affecting sports health and wellness, beginning with the history and development of sports medicine at all levels and the evolving models currently being established. In addition to the athletes it will address the personal health and wellness of those nonathletes such as administrators and health care providers involved with athletic programs. Included in the course will be the administration and roles of members of the healthcare team. An overview of the history of sports medicine and the interaction of various health care systems in the U.S. with athletic entities will be discussed. Health and wellness priorities within the construct of an athletic department, team or program will be introduced on such topics as concussion, catastrophic injury, emergency action plans, supplement and drug usage, drug appeals & therapeutic use exemptions, mental health best practices, sexual violence, mind-body interactions in sports & injuries, strength & conditioning and sports performance, impact of select sports in society, families and the health & wellness of athletes, sleep, rest & recovery, health services in large sporting venues & national events and insurance and disability.

Sport Psychology
Moore, Kristina
Summer 2022

This graduate course explores the science and practice of sport psychology. The purpose is to equip students interested in pursuing careers in sport administration with a realistic and informed view of the psychological aspects of sport and performance. The course will survey topics including individual factors such as personality, motivation, anxiety, burnout, injury, and addictive and unhealthy behaviors, as well as social and environmental factors such as group cohesion and team dynamics, competition and cooperation, and diversity and inclusion. The course will challenge students to connect principles of sport psychology to sport leadership as well as consider the value of sport psychology service provision in sport organizations.

The Athletic Director
Raube Keller, Patricia

Summer 2022

The role of the collegiate athletic director has evolved greatly over the years, from "former football coach turned administrator" to seasoned business executive. The Athletic Director today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a chief executive officer in a corporation and must have the acumen to match in order to be successful. This course will examine the myriad responsibilities that today's AD's hold in running the athletic enterprise on a college campus. The course will also delineate and define the most important leadership aspects of the position and those that are most determinate of successful careers in the field. The course will review the evolution of the position and describe the differences that are inherent in the position, based on university NCAA classification.

Sports Security and Event Management
Hartnett, Michael B

Summer 2022
To provide students with an understanding of the core security principles required to plan and provide a safe and secure environment for fans, event staff, and players. Students will learn the skills necessary to identify a wide variety of risks facing sporting events and sports venues. This includes how to mitigate those risks, develop emergency action plans and critical incident response protocols, and how to respond to a crisis in conjunction with state, local, and federal partners. Students will also learn how to develop and implement security plans for domestic and international sporting events, understand security principles involved in the daily operation of sports venues, and how to train staff and conduct training exercises for security colleagues.

Applied Research Project
Raube Keller, Patricia
Fall 2022
The Capstone Project for Sports Administration gives students the opportunity to apply the knowledge acquired throughout their graduate program to real-world situations. This knowledge will culminate in a final presentation and major paper that reflects in-depth, individualized research. As such this course provides students the opportunity to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism, and to produce a research project that can be leveraged in their current work setting to showcase their skills and talents. This project can also be used to highlight their background to prospective employers.

Sports Administration Courses: Spring 2023

ADSA750101
Introduction to Sports Management
Raube Keller, Patricia
Spring 2023
This introduction to the professional area of sport management discusses basic philosophy and principles of sport at all levels. Students will explore issues facing sport managers through in-depth discussions and analyses of case studies from different sport industries and apply Jesuit principles to problem solving strategies. The development of effective communication skills and career development skills will be stressed through class presentations, projects and assignments.

Sports today is a big business. At all levels, revenues currently exceed $65 billion. Colleges and universities have seen their cost per athlete increase by 52% over the past 5 years. With the vast amount of money involved and the visibility of the athletic programs, sports management has necessarily become a separate discipline. Sports Management shares many similarities with other businesses, but there are critically important differences. This course focuses on the financial management of sports programs. The course is designed to provide students with a fundamental understanding of the basic concepts in sports finance. It will focus on creating an understanding of basic financial concepts applicable to all organizations, including financial statement analysis, analyzing risk and return, and the time value of money. It will then apply these concepts to create an understanding of the financial drivers underlying sports management at the collegiate and professional levels. This will be accomplished through readings, videos, online class discussions, group projects, and individual reports.

This course is designed to provide an overview of the legal concepts and principles that relate to sports as a recreational pursuit and sports as a business. The class and assignments will explore the relationship of law to organized sports, intercollegiate sports, and professional sports. Legal theories will be discussed and their application analyzed through discussion, research, and application to current and ongoing events in sports. We will also develop an understanding of the rules of sports, on field, off field, contract related, and created through the collective bargaining process.

ADSA750601  
**Athlete Entrepreneurship: Opportunities Created by Name, Image, & Likeness**  
**Okoli, Chimaeze**  
**Spring 2023**  
This course will explore the rights of college student-athletes to access entrepreneurial opportunities based on their common law rights of publicity, often called rights of Name, Image, and Likeness (NIL) that has been created. Historical amateurism rules had prevented college student-athletes from using these rights going back to the 19th Century. The 2021 law change represented a major shift in how intercollegiate athletics may both operate and relate to its athletes, sponsors, and fans. For student-athletes, the ability to use and potentially profit from these rights offer a range of challenges and opportunities and this course will cover including the legal environment around NIL opportunities, the NCAA rules still applicable to NIL, key contractual terms and provisions related to NIL, opportunities allowed and limited under NIL laws and regulation, institutional responsibilities created by NIL, and strategies for limiting risk in pursuing entrepreneurial opportunities.

Sports Leadership and Ignatian-based Ethics
Utzschneider, Cathy
Spring 2023
Sports leadership based on Ignatian ethics helps individuals, teams, and organizations realize high achievement with integrity and compassion. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models. Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

Revenue Generation in Sports
Blanchette, Jason; Hirshman, Jake S
Spring 2023
This course is designed to explore revenue generation in sport. Students will learn foundational sales concepts, including the sales process. Students will have the unique experiences to work with the Boston College Ticket Sales Team in learning the sales process and then applying the process through selling BC athletic tickets during class. Furthermore, students will explore the role of corporate partnership in sport, and the application of the sales process as it relates to developing solutions to achieving partner organization objectives. Students will also explore fundraising, specifically in the context of collegiate athletics, with a focus on cultivation strategies.

Sport Psychology
Sturm, Jennifer E
Spring 2023
This graduate course explores the science and practice of sport psychology. The purpose is to equip students interested in pursuing careers in sport administration with a realistic and informed view of the psychological aspects of sport and performance. The course will survey topics including individual factors such as personality, motivation, anxiety, burnout, injury, and addictive and unhealthy behaviors, as well as social and environmental factors such as group cohesion and team dynamics, competition and cooperation, and diversity and inclusion. The course will challenge students to connect principles of sport psychology to sport leadership as well as consider the value of sport psychology service provision in sport organizations.

Coaching for Performance and Student Athlete Development
Uttschneider, Cathy
Spring 2023
High performance with life balance is a focus for coaches, student-athletes, and athletic administrators, requiring an understanding of overlapping fields, concepts, and skills. Students will learn theories of excellence and goal achievement; the role of nature versus nurture in athletic performance; how our physiology reinforces our training; student-athlete challenges including mental health issues, time management, transitions, and career planning beyond college; and theories and skills to form optimal habits and to build positive mindsets, willpower, and best teams. In addition to learning theories, students will practice relevant skills and set goals for high performance in their own lives.

ADSA801501  
Sports Analytics  
Shea, Stephen M  
Spring 2023
Sports analytics is a rapidly evolving industry with careers in professional and amateur organizations, in the media, for supporting tech companies, and elsewhere. It’s a modern application of so many academic disciplines, such as mathematics, computer science, physics, economics, marketing, and psychology; however, success in this course or in the industry doesn't require expertise in any of the above. This is a course on constructing, interpreting and communicating quantitative arguments in sports. For example, it might be quantifying injury risk for a pitcher, analyzing that risk relative to age and injury history, and then arguing to a general manager why they should or shouldn't sign player X to contract Y. Or, it might be investigating if there is a lack of competitive balance in women's college basketball, and if so, the reasons why.

Students will develop statistical and writing literacy, learn basic computational skills and practice delivering oral arguments. Most importantly, students will think critically about real-world problems, where there isn't one correct solution and where there are many valid approaches. While students will do all of this in sports--a familiar medium where most have strong opinions and where amazing data is publicly available--these skills and competencies have universal application.

ADSA801801  
The Athletic Director  
Lynch, Michael P  
Spring 2023
The role of the collegiate athletic director has evolved greatly over the years, from "former football coach turned administrator" to seasoned business executive. The Athletic Director today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a chief executive officer in a corporation and must have the acumen to match in order to be successful. This course will examine the myriad responsibilities that today's AD's hold in running the athletic enterprise on a college campus. The course will also delineate and define the most important leadership aspects of the position and those that are most determinate of successful careers in the field. The course will review the evolution of the position and describe the differences that are inherent in the position, based on university NCAA classification.

Athletic Facilities and Operations
McKiernan, John R; Morris, Jade M
Spring 2023
As the sport industry continues to grow, so do the number of sport-related event management jobs. Event management is one of the most sought-after skills in the sports and entertainment industry. With the construction of massive new facilities, there is a growing need for skilled individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis. Today's sport event planner must be able to manage his personal life along with having strong conceptual, interpersonal, technical, and time management skills. The event planner must also be able to negotiate with sport event venues and recognize the importance of sport tourism and the need for collaborating with a wide variety of network organizations. This course provides you with necessary foundations of event management, including conceptualization, staffing, budgeting, financing, promoting, securing, and managing. You will have the opportunity to understand the competencies necessary for managing and operating sport events through theory and application.

Planetary health is a rapidly emerging field that provides a unifying framework for many of the most urgent challenges of the coming decades. It focuses on understanding and quantifying the human health impacts of global environmental disruptions, including climate change, food-systems collapse, rapid biodiversity loss, and widespread pollution, among other urgent threats to human lives and livelihoods. Planetary health also advances the development of solutions that will allow humanity and nature to thrive into the future. Students will be introduced to the field of planetary health through analysing case studies about climate change, biodiversity loss, nutrition, deforestation, and their resultant human disease burden. Course themes include an awareness of the knowledge base that connects environmental change with human health, governance, urgency and scale, equity and ethics, bias, and trade-offs will be discussed as the class examines solutions and policy needs at the core of sound planetary health.

Do you ever dwell, work, eat, sleep, or recreate indoors? Do the location, layout, light, acoustics, air quality, or thermal comfort of buildings affect you? Do you ever rely on wires, pipes, or ductwork to provide you with services you need? Do you use roads, bridges, rail lines, airports, water supplies, sewage treatment systems, or utilities? Then you have a stake in the built environment. Do you agree that providing for our present needs should not diminish the chance for future generations to provide for their needs? Then you have a stake in sustainability. The built environment and environmental sustainability are connected, through energy and water use, alteration of habitats, manufacture and disposal of materials, indoor environmental quality and human well being, transportation of people and goods, and in other important ways. In this course we'll examine and think hard about those connections. By the end of the course, we'll all develop a broader overview and better understanding of how to think about, assess, measure, advocate for, inhabit, design, and build a more sustainable built environment.

**ADSB300001**  
**Global Environmental Change and Human Health**  
**Chandler, Mark**  
**Spring 2023**
A thriving global society relies on stable and resilient Earths systems including oceans, forests, agricultural, freshwater, urban, and more. What are sustainable environmental systems, how are they changing, and what limits or thresholds exist before these systems and their resources transition to an alternative and undesirable state that threatens human well-being? This course addresses complex interrelations among and between global environmental systems and human health in an increasingly interdependent world. The aim is to provide the core conceptual understandings of planetary systems as they relate to human well-being (e.g. climate, water, agricultural) and the complex interactions that make it possible for life to flourish on Earth. In this course, we examine the rapidly evolving trends in global environmental change and the responses aimed at slowing or addressing changes to the essential environmental systems. We will learn how unsustainable patterns of production and consumption challenge planetary resilience and how our societies can develop in a just and safe way within the planets boundaries. We will also focus on who is disproportionately impacted by global change, exacerbating social inequity. Through specific case studies and opportunities for praxis, the course also explores current challenges in conservation, and emerging issues around equity, social, and environmental justice. We will identify approaches and actions that individuals and society can take to regenerate a sustainable and healthy planet systems in different places and across multiple scales (local to global).

ADTH216001
Challenge of Justice
Snyder, Joshua R
Spring 2023
The pursuit of justice is a dominant concern of our age. But it appears that there are nearly as many understandings of justice as there are persons and communities to claim them. The goal of this course is to consider the principal understandings of justice and peace that have developed in the Western philosophical and theological traditions and assess how these alternative understandings affect personal decisions and social policy choices. We will pay attention to how these theories relate to concrete, practical, political and social issues. Special attention will be paid to the contribution of the Catholic intellectual tradition in formulating an approach to justice and peace. This course highlights what is at stake when we choose one way of justice rather than another. Ultimately, we need to think about how we ought to treat other people and what kind of society we want to build. Over the course of the semester, we will examine issues of justice related to human rights, hunger and poverty, racism, sexuality, ecology, and peace-building.

University Policies and Procedures

Accreditation of the University

Since 1935, Boston College has been accredited by the New England Commission of Higher Education (NECHE). NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College’s most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College’s accreditation status, including requests for a paper copy of this information, should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 301 Edgewater Place, Suite 210, Wakefield, MA 01880 (781-425-7785).

In addition to NECHE, a variety of schools and programs at Boston College are affiliated with discipline-based accrediting agencies such as: Connell School of Nursing: American Association of Colleges of Nursing, Commission on Collegiate Nursing Education; Carroll School of Management: Association to Advance Collegiate Schools of Business; Law School: American Bar Association; Boston College School of Social Work: Council on Social Work Education; School of Theology and Ministry: The Association of Theological Schools; Morrissey College of Arts and Sciences, Chemistry Department: American Chemical Society; Lynch School of Education and Human Development, Teacher Education, Special Education, and Curriculum and Instruction programs: Council for the Accreditation of Educator Preparation; Counseling Psychology Programs: American Psychological Association, Masters in Psychology and Counseling Accreditation Council. For distance education, Boston College is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA), and Boston College’s public safety and police department is an accredited program of the Massachusetts Police Accreditation Commission.

Annual Notification of Rights

The University Registrar and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the Boston College Bulletin and in the Boston College Student Guide.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

  Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

  Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to
whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student’s education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student’s education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Confidentiality of Student Records

Certain personally identifiable information from a student’s education record, designated by Boston College as directory information, may be released without the student’s prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

Electronic access to selected directory information is available to both the Boston College community and the general public. A student who so wishes has the right to prevent the release of all directory information including verification of enrollment, or to suppress selected directory information at bc.edu/myservices (“Privacy Preferences Confirm/Review).” This must be done by the end of the first week of enrollment.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Certificate of Enrollment

Visit the Certificate of Enrollment page for more information.
Certifying enrollment can be done for the following audiences:

- For current students and employees with access to the Agora Portal
- For alumni and external audiences, including employers

Disability Services Office

The Disability Services Office (DSO) serves undergraduate and graduate students with physical, medical, psychological, and temporary disabilities. The Assistant Dean works with each student individually to determine the appropriate accommodations necessary for the student’s full participation in college programs and activities. The Assistant Dean of Student Disability Services also works with university administrators to develop policies and procedures pertinent to students with disabilities while acting as a general referral service on disability issues.

All accommodation requests must be submitted by June 1, 2022 to the DSO. This deadline does not apply to the Connors Family Learning Center and students registering for accommodations based on a learning disability or Attention Deficit Hyperactivity Disorder (ADHD).

For more information, contact:

Office of Student Outreach and Support Services
Maloney Hall—Suite 448
140 Commonwealth Ave
Chestnut Hill, MA 02467
Phone: 617-552-3434
E-mail: disabsrv@bc.edu

Services for students with learning disabilities and ADHD, as well as all testing accommodations, are coordinated through the Connors Family Learning Center (CFLC). The CFLC, located in O’Neill Library, provides academic support services and accommodations to undergraduate and graduate students. The CFLC’s services are extensive and vary depending upon the unique needs of the individual student.

For more information, contact:

Kathleen M. Duggan, Ph.D.
Director, Connors Family Learning Center
The Connors Family Learning Center (CFLC)
Thomas P. O’Neill Jr. Library, Room 200
140 Commonwealth Avenue
Chestnut Hill, MA 02467
Phone: 617.552.8093
E-mail: dugganka@bc.edu

Family Educational Rights and Privacy Act (FERPA)

Visit the Notices and Disclosures page for information regarding the Family Educational Rights and Privacy Act (FERPA).

- The page enumerates student rights under FERPA.
- It also contains other notices and disclosures of interest to students and parents.

Financial Aid

Visit the Financial Aid page for more information about financial aid at Boston College.
Immunization

The state of Massachusetts requires that all full-time, part-time Health Sciences, and part-time visa carrying students entering college must submit proof of the following:

- Tetanus, Diphtheria, Pertussis (Tdap) vaccine one time booster after 6/2005 required for all incoming students. If Booster date is greater or equal to 10 years, a Td vaccine date must also be included.
- 2 MMR (measles, mumps, rubella) vaccines (these doses must be given at least four weeks apart beginning at or after 12 months of age).
- Hepatitis B vaccine series (a total of 3 doses at varying intervals).
- 1 dose of Meningococcal Conjugate Quadrivalent vaccine (MCV 4- A,C,Y,W-135) (Menactra, Menveo or Nimenrix only) for all full time students 21 years of age and younger. The vaccine must be on or after the sixteenth birthday or a signed waiver is acceptable.
- A reliable history of varicella disease documented by a health care provider or 2 doses of Varicella vaccine.
- Completion of the Tuberculosis Screening/Testing Form and accompanying testing if needed.

If proof of immunization for measles, mumps, rubella, hepatitis B, and/or varicella is not available, a blood titer showing immunity will be accepted.

Failure to show proof of immunizations within 30 days from the start of classes will result in a block on your registration and an administrative fee of $85 will be charged to your student account.

Important Notices and Disclosures under the HEOA

Boston College maintains a web page that provides all notices, disclosures, and other information required to be disclosed under the Higher Education Opportunity Act (HEOA). This web page is available at [bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html](bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html). This page includes links to disclosures with the following information:

- **Institutional and Student Information**, including information regarding the University's academic programs, facilities, faculty, academic improvement plans, accreditation, student rights with respect to the privacy of student records, transfer of credit policies, resources for students with disabilities, the diversity of the student body, voter registration, copyright and file-sharing, and how to reach the Office of Student Services, which maintains additional resources and information for students and prospective students;
- **Financial Information**, including the cost of attendance, withdrawal and refund policies, information regarding financial aid programs (including information about eligibility requirements and criteria, forms, policies, procedures, standards for maintaining aid, disbursements and repayment), student employment information and exit counseling information, and how to reach the Office of Financial Aid;
- **Student Outcomes**, including information regarding retention rates, graduation rates, and placement and education of graduates;
- **Health and Safety Information**, including the Annual Campus Security and Fire Safety Report which describes the University’s campus safety program policies and includes statistics for the previous three years concerning reported crimes and fires that occurred on campus; the Drug-Free Campus and Workplace Program; and the University’s policies with respect to immunizations required under Massachusetts law; and
- **Athletic Program Information**, describing how to request a report about the University’s athletic programs that includes participation rates, financial support, and other information on men’s and women’s intercollegiate athletic programs.

Each disclosure explains how you may request a paper copy of the information. Alternatively, you may request paper copies of these disclosures by calling the Office of the Executive Vice President (617) 552-3255 or sending a written request to: Boston College, Office of the Executive Vice President, Botolph House, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

Notice of Nondiscrimination

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University’s mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, military status, or other legally protected status.

Boston College rejects and condemns all forms of harassment, wrongful discrimination, and disrespect. It has developed procedures to respond to incidents of harassment whatever the basis or circumstance. Moreover, it is the policy of Boston College, while reserving its lawful rights where appropriate to take actions designed to promote the Jesuit, Catholic principles that sustain its mission and heritage, to comply with all state and federal laws prohibiting discrimination in employment and in its educational programs and activities on the basis of a person’s race, color, national origin, sex, religion, disability, age, marital or parental status, genetic information or family medical history, or military status, and to comply with state law prohibiting discrimination on the basis of a person’s sexual orientation.

To this end, Boston College has designated its Associate Vice President for Institutional Diversity to coordinate its efforts to prevent discrimination in accordance with this notice and applicable laws. Individuals are welcome to raise any questions regarding this notice and the requirements of state and federal nondiscrimination laws with the Associate Vice President for Institutional Diversity:

Boston College Office for Institutional Diversity (OID)
140 Commonwealth Avenue (Office location: 129 Lake Street)
Chestnut Hill, MA 02467
Patricia Lowe,
Associate Vice President for Institutional Diversity/Title IX Coordinator
patricia.lowe@bc.edu
Phone: 617-552-3334
Email: TitleIXCoordinator@bc.edu

The Associate Vice President for Institutional Diversity oversees the efforts of the following additional Title IX coordinators: (i) Melinda Stoops, Associate Vice President for Student Affairs and Student Affairs Title IX Coordinator (for student sexual harassment complaints), Maloney Hall, Chestnut Hill, MA 02467 (617-552-3482); (ii) Linda Riley, University Harassment Counselor, 129 Lake Street, Brighton, MA (617-552-0486); and (iii) Reshauna Cobb, Senior Associate Director Athletics, Internal Operations, 310 Conte Forum, Chestnut Hill, MA 02467 (617-552-8303).

The following federal laws and regulations require the University not to discriminate on the basis of race, color, national origin, disability, sex, or age in treatment, employment, admission or access to Boston College and its educational programs and activities: Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1973 (Section 504), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act of 1975 (Age Act), and their respective implementing regulations at 34 C.F.R. Parts 100, 104, 106, and 110. Inquiries concerning the application to Boston College of each of the statutes and implementing regulations outlined above may be referred to the U.S. Department of Education, Office for Civil Rights, 5 Post Office Square, 8th Floor, Boston, MA 02109-3921 (617-289-0111).
Tuition and Fees

Veterans Benefits and Transition Act of 2018

The university will adhere to the requirements of Section 3679 of Title 38 of the Veterans Benefits and Transition Act of 2018 (referred to below as the "Veterans Benefits and Transition Act").

Boston College shall permit any student who is a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) to attend or participate in the course of education during the period beginning on the date on which such student provides to Boston College a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act and ending on the earlier of (i) the date on which the U.S. Secretary of Veterans Affairs provides payment for such course of education to Boston College, or (ii) the date that is 90 days after the date on which Boston College certifies for tuition and fees following receipt from the student such certificate of eligibility.

Boston College shall ensure that it will not impose any penalty (including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) borrow additional funds) on any student who is a covered individual because of such student’s inability to meet his or her financial obligations to Boston College due to the delayed disbursement of a payment to be provided by the Secretary of Veterans Affairs under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act.

The University reserves the right to deny access to services or impose additional fees in accordance with University policy on the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement if not paid by the student by the required due dates.

Academic Integrity Policies

Academic Integrity (Undergraduate)
Policy and Procedures

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their own work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others’ work as one’s own is not only intellectual dishonesty, but it also undermines the educational process.

Standards

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to, the following:

Cheating is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student’s work;
actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

- the misrepresentation of one's own or another's identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
- the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will, in the long run, build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or associate dean. Suspected violations by students reported to members of the faculty or to an associate dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or associate dean.
Faculty Roles in Fostering Academic Integrity

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures

Academic integrity is central to the educational and formative mission of the university. A University-Wide Undergraduate Academic Integrity Committee, made up of Academic Officers from each of the Undergraduate Schools and Colleges, reviews all reports of academic dishonesty. Faculty and students are consulted on an ad-hoc basis depending on the case.

When a faculty member determines that a student's work violates the standards of academic integrity, the faculty member is encouraged to discuss the matter with the student. The faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take. If the faculty member decides to impose a grading penalty, a letter of notification describing the incident, the evidence supporting the allegation, and the proposed grading penalty is to be sent to the Associate Dean of the school or college in which the course is taught.

On receipt of such a notification, the Undergraduate Academic Integrity Committee will notify the student of the allegation and the evidence. The student’s class Dean will also be notified, if the course is outside of the student’s home school or college. The student will be given an opportunity to respond to the allegation in writing (within 5 business days). The Committee is committed to resolving cases in a just and timely manner and to maintaining the confidentiality of any students involved. While a case is pending, the student may not withdraw from or change status in the course.
Each reported violation of the standards of academic integrity will be reviewed by the University-Wide Undergraduate Committee on Academic Integrity. This will ensure that in cases involving students from more than one school, or students in joint or dual degree programs, the process and penalty will be consistent.

The committee's approach is a formative one that expects students to reflect on their experience, understand the impact of their choices, and make decisions differently based on what they've learned. The approach is meant to be educational and restorative, rather than punitive. For students found responsible for violations, consequences will depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and the student's previous record of violations. The committee may simply affirm the faculty member's penalty and issue the student a "warning," which will be kept in a confidential electronic file until the student graduates and will not be reportable to professional schools or outside agencies. The Committee may recommend a different grading penalty and/or impose additional administrative penalties. The most severe penalties may include university probation, suspension, or expulsion, all of which become part of a student's academic record and are reportable to graduate/professional schools and outside agencies.

The Associate Dean of the school in which the course is taught will convey to the faculty member and the student the Committee's findings as to responsibility and recommended sanctions. Appeal of the Committee's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notification. The decision of the Dean will be final.

Summary of Process

Step 1: The faculty member is encouraged to discuss the matter with the student.

Step 2: The faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take.

Step 3: If the faculty member decides to impose a grading penalty, a letter of notification describing the incident, the evidence supporting the allegation, and the proposed grading penalty is to be sent to the Associate Dean of the school or college in which the course is taught.

Step 4: The Undergraduate Academic Integrity Committee will notify the student, who will be given an opportunity to respond to the allegation in writing (within 5 business days).

Step 5: The case will be reviewed by the University-Wide Undergraduate Committee on Academic Integrity.

Step 6: The Associate Dean of the school in which the course is taught will convey to the faculty member and the student the Committee’s findings as to responsibility and recommended sanctions.

Step 7: Appeal of the Committee's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notification. The decision of the Dean will be final.

Academic Integrity (Graduate)

Policy and Procedures

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process. Cases of falsification, fabrication, and plagiarism that occur in the course of research are also subject to Boston College's research misconduct policy, which can be found at

[bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html](bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html).

Standards

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to the following:

**Cheating** is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:
• the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
• fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
• falsification of papers, official records, or reports;
• copying from another student's work;
• actions that destroy or alter the work of another student;
• unauthorized cooperation in completing assignments or during an examination;
• the use of purchased essays or term papers, or of purchased preparatory research for such papers;
• submission of the same written work in more than one course without prior written approval from the instructors involved;
• dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

• the misrepresentation of one's own or another's identity for academic purposes;
• the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
• the sale of papers, essays, or research for fraudulent use;
• the alteration or falsification of official University records;
• the unauthorized use of University academic facilities or equipment, including computer accounts and files;
• the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
• the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
• the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
• the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work, and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

• Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will in the long run build a peer-regulated community.
• If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or Associate Dean. Suspected violations by students reported to members of the faculty or to an Associate Dean will be handled according to the procedures set forth below.
Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or Associate Dean.

**Faculty Roles in Fostering Academic Integrity**

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students’ intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

**Academic Deans**

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans’ responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

**Procedures**

Graduate and professional students should refer to their department or school for procedures for adjudicating alleged violations of academic integrity. Penalties for students found responsible for violations may depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and/or the student’s previous record of violations. Appeal of decision may be made to the representative of the department or school whose decision will be final.
Undergraduate Academic Regulations

Undergraduate Admission

Admission Information

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University’s mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, ethnic or national origin, religion, color, age, gender, marital or parental status, veteran status, disabilities, or sexual orientation.

Boston College seeks to maintain an undergraduate student body that represents a broad variety of abilities, backgrounds, and interests. Therefore, in selecting students, the Committee on Admission looks for demonstrated evidence of academic ability, intellectual curiosity, strength of character, motivation, energy, and promise for personal growth and development. Requests for financial aid do not affect decisions on admission. The Undergraduate Admission website provides further details on the application requirements and deadlines.

Admission from Secondary School

While specific courses are not required, the Office of Undergraduate Admission recommends that students pursue a strong college preparatory program that includes four units of English, mathematics, social studies, and foreign language, as well as four units of a natural science. Such a program provides a solid foundation for high quality college work, as well as a stronger application in a highly selective admission process.

Standardized Testing

- The SAT or
- The American College Test (ACT)

*For applicants to BC’s classes of 2026 and 2027, submission of SAT or ACT standardized test scores is optional. International students who speak English as a second language must still prove English language proficiency.

All submitted standardized test results are used in the admission process. Applicants are required to take all standardized tests no later than the October administration date of their senior year for Early Decision and by December of their senior year for Regular Decision.

The Committee on Admission will select the best combination of individual section scores when evaluating an application. International students for whom English is not their primary native language are required to submit scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the DuoLingo English Test (DET). Students who score 650 or above in the SAT EBRW or 29 or better on the ACT English section may have this requirement waived.

Application Procedures

Regular Freshman Admission

Students applying to Boston College should submit the Common Application, the Boston College Writing Supplement and an $80 application fee no later than January 1. Both the Common Application and Boston College Writing Supplement are available on the Common Application website. Candidates are notified of action taken on their applications no later than April 1.

Early Decision

Early Decision I and II are binding programs for candidates who view Boston College as their unequivocal top choice institution. If admitted to Boston College through Early Decision, candidates must immediately withdraw applications to other institutions and enroll at Boston College. Students are required to submit an Enrollment Confirmation Fee to Boston College within ten days of receiving their admission offer.
Competitive Early Decision candidates present academic credentials, extracurricular engagement, and personal qualities that fit the profile of currently enrolled Boston College students. Because Early Decision attracts a small, but competitive pool of candidates, the acceptance rate will be higher at Early Decision. Completed Early Decision I applications and the Common Application Early Decision Agreement form must be submitted no later than November 1 for consideration. Candidates will learn of the Admission Committee's decision by December 15. Early Decision II applications are due by January 1 and candidates will learn of the Admission Committee's decision by February 15.

**Applying to an Undergraduate Division**

All applicants must designate to which of the four undergraduate divisions they are making their application: Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, or Connell School of Nursing. Students are only considered for admission to the division to which they applied. Students may not change divisions following admission, but may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch and two semesters to Connell or Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page.

**International Student Admission**

International students are expected to submit the same credentials (transcripts, recommendations, standardized tests, etc.) as domestic applicants. All documents should be submitted in English. If the credentials must be translated, the original must be submitted along with the translation. All international students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) exam, the International English Language Testing System (IELTS), or the DuoLingo English Test (DET). Minimum scores of 100 on the TOEFL iBT, 7.5 on the IELTS, or 125 on the DET are recommended. Students applying from British systems must be enrolled in an A Level program to be considered.

**Transfer Admission**

Transfer admission applications are available to students who have successfully completed three or more transferable courses (9 credits minimally) at a regionally accredited college or university. Transfer students must have a minimum cumulative grade point average of 3.0 to be considered for admission. Competitive applicants typically have above a 3.5 cumulative grade point average. Students are encouraged to finish one full year of studies before seeking admission-in-transfer. Because a record of college achievement would not be available at the time of consideration, first semester freshmen may not apply for admission to the term beginning in January.

All candidates for transfer admission should submit the Transfer Common Application and all other required forms along with the $80 application fee. All portions of the Transfer Application can be found on the transfer website at [bc.edu/transfer](bc.edu/transfer).

NOTE: An Academic and Disciplinary Report must be submitted for every undergraduate institution attended full-time by the applicant. Additional copies of this form may be obtained from the Common Application website.

All supporting documents must be sent directly to the Boston College Office of Undergraduate Admission by the sending institution. **Transcripts issued to students and photocopies will not be accepted.** The deadline for submitting applications is March 15 for the fall and November 1 for the spring. Fall candidates will be notified of action taken on their applications no later than May 20. Spring candidates will be notified no later than December 15.

Please consult the transfer admission website for additional information about transfer policies.

**Transfer of Credit**

Boston College transfer credit policies are established by the Deans and Faculty of each undergraduate division. Course evaluations are completed by the Office of Transfer Admission. Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis. Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C- must have been earned. Boston College students must complete the following number of credit hours for graduation:
Morrissey College of Arts and Sciences—120, Carroll School of Management—120, Lynch School of Education and Human Development—120, and Connell School of Nursing—117. A maximum of 60 credit hours will be allowed in transfer. The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit.

No credit will be granted for internships, field experiences, practica, or independent study.

Applicants seeking to have online courses accepted in transfer by Boston College should submit a syllabus for each course, including information about contact hours and exam requirements.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student’s career at the University and reflects only work completed as a full-time undergraduate at Boston College.

For transfer students, courses taken during the summer prior to enrollment at Boston College should be approved in advance by the Office of Transfer Admission to avoid difficulty in the transfer of credits. For all incoming freshmen and currently enrolled students, all summer courses must be approved in advance by the appropriate deans.

**College credit courses taken in high school with high school teachers and other high school students cannot be used for credit. These courses may be assigned advanced placement units only if a corresponding College Board AP exam is taken and a qualifying score is earned.**

**Date of Graduation**

All undergraduate students are expected to spend four years enrolled as full-time students in order to earn a bachelor’s degree.

Students generally may not accelerate the date of graduation stated in the acceptance letter, with the following exception: students who enter Boston College after three or four semesters at a school where the normal credit requirements are less than those at Boston College and who experience a loss of one semester in their status as a result. If students have attended only one school prior to Boston College and the loss of status is due solely to differences between academic systems, students will be allowed to make up their status and graduate with their class.

A transfer student’s date of graduation is determined by the number of credits accepted in transfer and the number of Boston College semesters these satisfy. The normal academic load for undergraduates is five 3- or 4-credit courses per semester. Thus, students are expected to have completed 30 credits at the end of one year, 45 at the end of a year and a half, and 60 credits at the end of two years. In determining a transfer student’s date of graduation, leeway of 6 credits is allowed without loss of status. For example, students completing 24–30 credits are accepted as first-semester sophomores.

**Residency Requirement**

The requirements for the bachelor’s degree generally include a minimum of eight semesters of full-time enrollment, at least four semesters of which must be at Boston College.

Transfer students may need more than eight semesters in total in order to complete all the university’s degree requirements. As long as transfer students abide by all relevant University academic regulations, including at least four semesters at Boston College, they may seek to regain their original graduation-year status through course overloads and summer courses. In such cases, transfer students will not incur additional tuition charges for course overloads. Transfer students who seek to regain their original graduation date should consult with their associate dean to confirm that they are eligible to do so.

**Special Students**

Only those persons who wish to be enrolled as full-time day students are admitted by the Office of Undergraduate Admission. All other students wishing to attend Boston College on a part-time basis, for either day or evening classes, should contact the Dean of the James A. Woods, S.J., College of Advancing Studies, St. Mary’s Hall South, Ground Floor, Boston College, Chestnut Hill, MA 02467.
Advanced Placement Units

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Qualifying scores will be assigned advanced placement units as detailed at bc.edu/advancedplacement.

College Courses Taken During High School

Advanced placement units can be earned for college courses taken during high school. For more information, visit bc.edu/advancedplacement.

Language Proficiency Requirements

Refer to the Language Proficiency Requirements section below.

Introductory Note on Academic Regulations

Academic Regulations are effective from September of the current academic year (2022–2023) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Academic Grievances

Any student who believes he or she has been treated unfairly in academic matters should consult with the chairperson of the undergraduate or graduate department or his or her Academic Dean to discuss the situation and to obtain information about relevant grievance procedures.

Academic Record

A record of each student's academic work is prepared and maintained permanently by the Office of Student Services. While cumulative averages for academic majors are made available to undergraduate students who are currently enrolled, these averages are not maintained as part of a student's academic record. The student's semester averages and final overall cumulative average appear on the academic record. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Students are expected to attend classes regularly, take tests, and submit papers and other work at the times specified by the professor on the course syllabus. Students who are absent repeatedly from class or practica will be evaluated by faculty responsible for the course to ascertain their ability to achieve the course objectives and to continue in the course.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in class.

Professors will announce, reasonably well in advance, tests and examinations based on material covered in class lectures and discussions, as well as other assigned material. A student who is absent from class on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a make-up will be allowed.

A student who is absent from class is responsible for obtaining knowledge of what happened in class, especially information about announced tests, papers, or other assignments.
In cases of prolonged absence, the student or a family member should communicate with the student’s Academic Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student’s return to classes should be made with the Academic Dean’s Office as soon as the student’s health and other circumstances permit.

Absences for Religious Reasons

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to make up such examination, or study or work requirement, that may have been missed because of such absence on any particular day. However, students should notify professors at the end of the first class meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Undergraduate students may not audit a course with the exception of undergraduates in the Woods College of Advancing Studies.

Core Curriculum—Undergraduate University Core Requirements

The following course requirements comprise the Core Curriculum and are required for all students at Boston College in order to graduate. All Core courses must be 3 credits or more and cannot be taken pass/fail.

- 1 course in the Arts—Art, Art History, Film, Music, Theatre
- 1 course in Cultural Diversity—Unlike other Core requirements, Cultural Diversity may be fulfilled by a course above the Core level. It may simultaneously fulfill another requirement of the Core, a major, or minor.
  - A number of Difference, Justice, and the Common Good in the United States and Engaging Difference and Justice courses satisfy the Cultural Diversity requirement, and can be found here: bc.edu/core. Lynch students will take APSY1031. The CSON curriculum satisfies the Cultural Diversity requirement.
- 2 courses in History—one course pre-1800 (History I) and one post-1800 (History II)
- 1 course in Literature—Classical Studies, English, Romance Languages and Literatures, Eastern, German and Slavic Studies.
- 1 course in Mathematics—For CSOM students, one semester of Calculus (MATH1100 or higher) is required, and beginning with the class of 2022, CSOM students may take any course approved for Mathematics Core credit. For CSON students, MATH1180 Principles of Statistics for Health Sciences is the required Mathematics Core course.
- 2 courses in Natural Sciences—Biology, Chemistry, Earth and Environmental Sciences, Physics, Environmental Studies.
- 2 courses in Philosophy—one of each: Philosophy I and Philosophy II.
- 2 courses in Social Sciences—Sociology, Political Science, Psychology, Psychology in Education (APSY1030 and APSY1031 are required for Lynch students), or, Economics (beginning with the Class of 2023, ECON1101 is required for all CSOM students)
- 2 courses in Theology—one of each: Sacred Texts and Traditions and Christian Theology
- 1 course in Writing

Students are encouraged to use the Core to explore their interests, broaden their intellectual horizons, and discover more about themselves. Core courses are identified on the Course Information and Scheduling page (at bc.edu/myservices) as well as on the Core website (bc.edu/core). For more information on the University Core Curriculum please visit bc.edu/core.

University Core Curriculum at Boston College

As a Jesuit, Catholic University, Boston College shares a 450-year old tradition of concern for the integration of the intellectual, moral, and religious development of its students. The centerpiece of Jesuit education has always been a common curriculum that emphasizes the study of the defining works of the humanities, natural sciences, and social sciences.

Our ongoing efforts to renew the University Core Curriculum aim to ensure that engagement with the Core, “broadens the intellectual horizons of students; introduces them to the best of contemporary pedagogy, research, and teaching; promotes their integration of
knowledge, beliefs, and actions, and prepares them for lives of freedom, integrity, leadership, and service" (The Vision Animating the Boston College Core Curriculum, 2014). Guided by this vision, students completing the University Core Curriculum will:

- Demonstrate the critical, mathematical, informational, analytic, expressive, and creative skills that are essential tools of the educated person well-prepared for a meaningful life and vocation;
- Understand the major ideas and methods of inquiry of the scholarly disciplines that comprise the university and be able to use those methods of inquiry as beginning practitioners to address complex contemporary problems;
- Be able to identify and articulate the strengths and limitations of the disciplines and the relationship of the disciplines to one another, and demonstrate an understanding of the breadth and diversity of human knowledge as well as its openness to integration in more comprehensive wholes;
- Be conversant with, and able to discuss intelligently, enduring questions and issues that are fundamental to human inquiry and that have shaped the traditions from which the university has emerged;
- Demonstrate the ability to apply more than one disciplinary perspective to the same enduring question or complex contemporary problem;
- Be familiar with the scholarly exploration of religious faith and understand how faith and reason are related in the search for truth;
- Demonstrate the ability to examine their values and experiences and integrate what they learn with the principles that guide their lives; and,
- Be prepared, and disposed, to use their talents and education as engaged global citizens and responsible leaders in service of the common good.

For more information on University Core Curriculum at Boston College, please visit bc.edu/core.

Cross Registration

**Woods College of Advancing Studies**

All full-time undergraduate students are limited to one Woods College of Advancing Studies (WCAS) course each semester. Freshmen may not enroll in any WCAS course.

WCAS courses can be used to fulfill elective requirements. Students must check with the appropriate department if they want to inquire about using about the possibility of using a Woods College of Advancing Studies course to fulfill a Core or major requirement. Any exception to this policy must be made with the appropriate department and Academic Dean's approval.

**Boston Theological Interreligious Consortium**

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions:

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University Graduate Program in Religion
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John’s Seminary and Theological Institute

This consortium offers complete cross-registration in several hundred courses, the use of library facilities in the nine schools, joint seminars and programs, and faculty exchange programs.
Theology majors and students in the School of Theology and Ministry who want to cross register through the Boston Theological Interreligious Consortium should reference www.bostontheological.org for instructions. Students are expected to consult with their advisor or department chairperson before cross registering.

The Consortium

Under a program of cross registration, sophomores, juniors, and seniors may take one elective course during each fall and spring semester at Boston University, Brandeis University, Northeastern University, Pine Manor College, Regis College, or Tufts University if a similar course is not available at Boston College. Cross registration forms are available in the Office of Student Services, Lyons Hall.

Dean's List

The Dean's List recognizes the achievement of undergraduates, semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

In order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have withdrawn from or failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.

Degree Audit

A degree audit is a computer-generated analysis that enables an undergraduate (except for Woods College of Advancing Studies) or law student and his or her advisor to assess the student's academic progress and unfulfilled requirements. Students in the Woods College of Advancing Studies can meet with an advisor to review their progress at any time.

The degree audit is a valuable tool for academic planning because it matches the courses that the student has taken with the requirements of his or her degree program or anticipated program. Students receive degree audits each semester prior to registration and have access to actual and simulated degree audits at bc.edu/myservices ("Degree Audit"). Students are responsible for completing all the requirements listed on the degree audit prior to graduation.

Degree with Honors

Academic honors printed in the Commencement program are based on averages at the end of the second semester senior year.

Starting with the class of 2021, the cumulative average for degrees with honors will be as follows:

- summa cum laude (with the highest honors)—3.9–4.0
- magna cum laude (with high honors)—3.8–3.899
- cum laude (with honors)—3.667–3.799

Prior to the class of 2021: The summa cum laude was awarded to the top 4.5 percent of the graduating class, magna cum laude to the next 9.5 percent, and cum laude to the next 15 percent.

Enrollment Status

Undergraduate Full-Time Enrollment Status

To be considered full-time, students must be registered for courses totaling at least 12 credits per semester. At least 9 of the credits must be in courses of 3 credits or more. Ordinarily, students should average 15 credits per semester with a target of completing 30 credits per academic year.

Woods College of Advancing Studies students must be enrolled in 12 credits to be considered full-time.
Undergraduate Part-Time Enrollment Status

Visiting or special students may enroll in one, two, or three courses each semester through the Woods College of Advancing Studies. Additional courses require the Dean’s approval.

External Courses

After admission to Boston College, the only courses that a student may apply towards a degree will be those offered at Boston College in a regular course of study during the academic year. Any exceptions to this rule must be approved in writing by the Academic Dean before the courses are begun. Exceptions may be granted by the Academic Dean for official cross-registration programs, external summer study abroad and certain special study programs at other universities.

A student must earn a grade of C- or better to receive credit for any course taken at another university. In some instances, the Academic Dean may stipulate a higher grade. After the course has been completed, the student should request that the registrar at the host university forward an official transcript to the Office of Student Services at Boston College.

Final Examinations

The final examination schedule for most courses is set before classes begin. It is available to the public, and students are responsible for consulting it. A student who misses a final examination is not entitled, as a matter of right, to a make-up examination except for serious illness and/or family emergency. No student should make travel arrangements to return home which are at odds with his or her examination schedule. Students who schedule a departure without regard to their schedules risk failure in their final examinations.

Courses with multiple sections may have common departmental final examinations at a date and time determined by the Office of Student Services. Students with three final examinations scheduled for the same day are entitled to take a make-up exam at a later date during exam week. If one of the three exams is a common departmental exam, this is the exam that is taken at the later date.

In the Graduate School of the Morrissey College of Arts and Sciences, seminars and teacher-training courses may or may not have a semester examination at the discretion of the instructor.

No exams or final assignments are to be scheduled during the Study Days designated on the Academic Calendar.

Language Proficiency Requirements

The study of language, literature, and culture other than one’s own enables the Jesuit-educated student to appreciate the world better, to seek commonalities, and honor cultural differences. Therefore, students in the Morrissey College of Arts and Sciences will demonstrate intermediate-level proficiency in a foreign or classical language in order to graduate from Boston College. Intermediate proficiency is defined as completing the fourth semester of a language. Students continuing a language previously studied will take one to four courses, depending on their placement. First-year students should begin/complete the language requirement during their first semester.

The Advanced Placement (AP) test scores below demonstrate intermediate-level proficiency at Boston College.

<table>
<thead>
<tr>
<th>Subject Test</th>
<th>AP Score</th>

<td>3</td>
</tr>
</tbody>
</table>
If you have taken the AP Test but have not yet received your score, take the placement test and register for the course recommended when you complete the test. When you receive the AP score, you may make necessary changes. If you have questions, speak with the language advisor at your registration session.

Other Exams and Exam Score Minimums

- British A levels: Languages other than English A/B/C levels
- International Baccalaureate: Higher level foreign or modern classical language 6 or 7
- General Certificate of Education: German A level
- DELE exams (Diplomas de Español como Lengua Extranjera): B1 or higher level
- Successful demonstration of native proficiency by documentation. Documentation of native proficiency ordinarily assumes evidence of post-elementary school education in the native language.

Fulfillment of the proficiency requirement by the examinations listed above does not confer course credit.

Course Work Meeting Language Proficiency Requirement

- Successful completion of the second semester of an intermediate-level Boston College modern or classical language course
- Successful completion of one Boston College modern or classical language course beyond the intermediate level

Students may not take foreign language courses on a pass/fail basis until they have completed the university’s language proficiency requirement. Language courses will count as Morrissey College of Arts and Sciences electives. Students with documented learning disabilities may be exempt from the foreign language requirement and should consult with the Connors Family Learning Center (bc.edu/connors).

Grading

The grading system consists of 12 categories, as follows: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. A is excellent; B is good; C is satisfactory; D is passing but unsatisfactory; F is failure.
Students who withdraw from a course after the drop/add period will receive a grade of W. The grade of W is not included in the calculation of the grade point average.

Students in the Connell School of Nursing must achieve a grade of C- or higher in designated nursing courses, or they will be required to retake the course.

With the approval of the Academic Dean of their school or college, students may be permitted to take courses for enrichment. Courses approved for enrichment only, may, with the approval of the relevant department, go toward fulfilling a Core, major, or minor requirement. However, grades for courses taken for enrichment are not computed into the cumulative average and are not counted toward the total course or credit requirement for graduation.

A student’s cumulative average is based on grades in courses taken in the full-time program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student’s transcript and a 0.0 is calculated into the student’s cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Grades will be posted at bc.edu/myservices ("Current Courses and Grades") at the close of each semester. Any student who believes there is a grade discrepancy on a semester grade should resolve the discrepancy with their professor within the first six weeks of the following semester.

**Grading Scale**

In computing averages, the following numerical equivalents for the twelve (12) letter grades are used:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

**Student Work and Assessment**

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

**Incomplete and Deferred Grades**

All required work in any course must be completed by the date set for the course examination. A student who has not completed the research or written work for a course taken in the fall or spring semester or is absent from the course examination in either semester, may, with adequate reason and at the discretion of the instructor, receive a temporary grade of Incomplete (I). All such I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer.
After that time, generally no further grade change will be allowed.

A faculty member may only assign a grade of J for a 2-semester course when the grade in the first semester is dependent on the grade issued at the end of the semester. The J grade has no GPA value. Instructors should assign a grade for each semester at the end of the second semester. Such courses may include an Internship, Dissertation Direction, or Student Teaching.

**Pass/Fail**

Sophomores, juniors, and seniors may elect to designate a course as pass/fail during the first seven class-days of the semester. Only electives can be taken pass/fail. Courses being used to fulfill major, minor, Core, or corequisites cannot be taken pass/fail.

Second-semester freshmen who have been approved by their Academic Dean for an overload of a sixth course of 3 credits or more may take that course on a pass/fail basis, in which case the course may not be used to fulfill a major, minor, Core requirement, or corequisites.

No more than one course of 3 or more credits may be taken pass/fail in any semester. No student may take more than six pass/fail courses of 3 or more credits for credit toward a degree.

Courses in the Carroll School of Management may not be taken on a pass/fail basis. Departments may designate some courses as not available in general for pass/fail enrollment.

Students may not take foreign language courses on a pass/fail basis until they have completed the University's language proficiency requirement. Any foreign language course being used to fulfill a major, minor, Core, or corequisite cannot be taken pass/fail.

A student enrolled in a course on a pass/fail basis who earns a grade of D- or higher will receive a grade of Pass for the course.

**Pass/Fail Option for 1-Credit Courses in the Major**

At the discretion of the school or department, some 1-credit courses that are required for a major or minor may be offered on a pass/fail basis only (e.g., practica, performance).

**Grade Change**

Grade changes should be made only for exceptional reasons. For all students, the grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete to provide time to finish his or her course work. Such Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

**Graduation**

Students are expected to satisfactorily complete eight semesters of full-time study (excluding summer terms) in order to earn the bachelor's degree. The University awards degrees in May, August, and December of each year, although commencement ceremonies are held only in May. A diploma will not be dated before all work is completed. Students who graduate in December may participate in commencement exercises the following May. In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online.

With permission from the student's Academic Dean, there are two ways the time to degree can be shortened (accelerated): (1) by qualifying for Advanced Standing or (2) by completing all requirements in less than 8 full-time semesters. Details of these two paths are given below.

**Advanced Standing**

*Beginning with the Class of 2024*: Students who earn a minimum of 30 Advanced Placement units may be eligible for Advanced Standing and complete their undergraduate studies after six semesters of full-time study. Ordinarily, Advanced Standing is for one full year only. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No
decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.

For further details, visit bc.edu/advancedplacement

Acceleration

After being in residence for at least three semesters, and no later than the end of the drop/add period in the seventh semester, full-time undergraduate students may apply to their Academic Dean to accelerate their degree program by one semester. The following conditions apply:

- Summer courses intended for acceleration must be taken at Boston College.
- Any credits over 15 in a semester used for acceleration are charged the per credit rate for the semester they are taken. Financial aid will not cover these additional charges.
- Students transferring into Boston College with first-semester sophomore status or above are not eligible to accelerate their program of study.
- Students who have elected to take Advanced Standing are not eligible to accelerate their graduation further.

Internal Transfers

Matriculated students wishing to transfer from one undergraduate college to another within Boston College should contact the Academic Dean’s Office of the school to which admission is sought. Students may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the Academic Forms page. WCAS students interested in transferring into Morrissey, Lynch, CSON, or CSOM must apply to do so through the Office of Undergraduate Admission.

Leave of Absence

There may be times—due to personal, medical and/or other reasons—when an undergraduate student may need or want to take a leave of absence from the University. This policy describes the process to take and return from a leave of absence as well as addresses additional expectations and questions about the process.

Taking a leave of absence can be a difficult decision and the University wants to support students as they consider taking a leave. We encourage students to outreach to their Undergraduate Associate Dean of their school or college (MCAS, CSOM, LSEHD, CSON, or WCAS) to ask questions, discuss options, and be referred for additional support if needed.

Undergraduate students may take either a personal or medical leave. In order to request a leave of absence, students must complete the Withdrawal/Leave of Absence Form and indicate whether they are taking a personal or medical leave of absence. Please see additional information regarding a personal leave of absence and a medical leave of absence below.

Personal Leave of Absence

A personal leave of absence may be taken for any reason. To request a personal leave of absence, students must complete the Withdrawal/Leave of Absence Form no later than the semester’s last date for a withdrawal from the University.

Classes and Tuition

Students who take a personal leave of absence once classes have started will be withdrawn from those classes and receive "W"s on their transcript for those classes. Students may be eligible for a tuition refund depending on the date of the requested leave of absence.

In some cases, students may not be eligible for the full amount of their financial aid package if they do not complete the semester. Fees are non-refundable. Residential Hall charges and Meal Plans are canceled based on the day students move out and in accordance with Residential
Life policies. Students may be eligible for a housing and/or meal plan refund depending on the date of the requested leave of absence; this schedule follows the tuition refund schedule. Please contact Residential Life for specifics.

If a student takes a leave of absence during the 100% tuition refund period, any classes they are registered for will be dropped and not appear on transcripts.

Registering for classes in future semesters: generally, students cannot register for classes while on a leave of absence. Please see the readmission process section below regarding registering for future classes.

On-Campus Housing

Students cannot remain in University housing once they have taken a leave of absence and cannot participate in room selection while on leave. Students taking a leave should also complete a housing cancellation form through the Agora Portal: Agora > Other Services > My Reslife > Forms. Please see the Residential Life Conditions of Residency for details. Please see the readmission process section below regarding participating in the room selection process.

While on a leave of absence, students:

- Cannot take courses at BC or another university to advance their degree or maintain their original graduation date at Boston College without obtaining prior approval from their Undergraduate Academic Associate Dean’s Office.
- Will have their graduation term adjusted to reflect their new anticipated graduation date. Normally, a student returning from a leave of absence may not regain their original graduation date.
- May not participate in BC extracurricular activities while on leaves of absence.
- Loses eligibility to reside in on-campus housing and must remove all personal items and belongings from the residence hall room/suite/apartment and depart within 72 hours of withdrawing.

Medical Leave of Absence

A medical leave of absence may be taken because of a student’s medically documented illness, including physical and/or mental health. The Withdrawal/Leave of Absence Form and supporting medical documentation must be submitted no later than the semester’s last date for a withdrawal from the University. Permission for a medical leave after that deadline is rare and would require additional supporting documentation.

To request a medical leave of absence, students must:

- Complete the Withdrawal/Leave of Absence Form, noting that the leave is due to medical reasons.
- Provide supporting documentation from a licensed health provider. The documentation should indicate the need for the leave due to medical reasons, diagnosis, statement about how the condition has impaired performance and the proposed treatment plan including a recommendation for anticipated length of the leave when possible.
  - For a leave related to mental health, treatment providers should submit supporting documentation to the Director of University Counseling Services (UCS).
  - For a leave related to physical health, your treatment providers should submit supporting documentation to the Director of University Health Services (UHS).
- Submit a medical record release of information form to either University Counseling Services (UCS) or University Health Services (UHS). The Directors of UCS and UHS will subsequently make a recommendation to your academic dean regarding the medical leave of absence.

Classes and Tuition

If a student takes a leave of absence once classes have started, they will be withdrawn from those classes and receive "W"s on their transcript for those classes. Students may be eligible for a tuition refund depending on the date of the leave.

In some cases, students may not be eligible for the full amount of their financial aid package if they do not complete the semester. Fees are non-refundable. Residential Hall charges and Meal Plans are canceled based on the day students move out and in accordance with Residential
Life policies. Students may be eligible for a Housing and/or meal plan refund depending on the date of the requested leave of absence; this schedule follows the tuition refund schedule. Please contact Residential Life for specifics.

If a student takes a leave of absence during the 100% tuition refund period, any classes they are registered for will be dropped and not appear on transcripts.

- Students approved for a medical leave of absence may also be eligible to receive a tuition credit. If a student is eligible for a tuition credit, it will be applied only during the semester they return as a full-time student to Boston College.
- The student’s bill for the semester in which they are taking the leave must be paid in full in order to be eligible for a tuition credit.
- Students are eligible to receive a tuition credit only once during their tenure at Boston College.
- Students must use a tuition credit within 3 years of the semester in which they took the leave. After that three year period, the tuition credit is voided. In NO case will money be refunded in lieu of the tuition credit.
- Tuition credits are not transferable to siblings.
- Tuition credits are not guaranteed and are granted based on the medical circumstances.

Registering for classes in future semesters: generally, students cannot register for classes while on a leave of absence. Please see the readmission process section below regarding registering for future classes.

On-Campus Housing

Students cannot remain in University housing once they have taken a leave of absence and cannot participate in room selection while on leave. Students taking a leave should also complete a housing cancellation form through the Agora Portal. Please see the Residential Life Conditions of Residency for details. Please see the readmission process regarding participating in the room selection process.

While on a medical leave of absence, students:

- Cannot take courses at BC or another university to advance their degree or maintain their original graduation date at Boston College without obtaining prior approval from their Academic Associate Dean’s Office. In instances where students are deficient in credits, they may request prior approval from their Academic Associate Dean’s Office to take limited courses to address those deficiencies while on leave. Taking classes at the Woods College must be approved by the WCAS Associate Dean’s Office.
- Will have their graduation term adjusted to reflect their new anticipated graduation date. Normally, a student returning from a leave of absence may not regain their original graduation date.
- May not participate in BC extracurricular activities while on leaves of absence.
- Lose eligibility to reside in on-campus housing and must remove all personal items and belongings from the residence hall room/suite/apartment and depart within 72 hours of withdrawing.

Requesting Readmission from a Leave of Absence

When you can request readmission: students on leave of absence must request to be readmitted no later than August 1 for the fall semester and December 1 for the spring semester. Students must complete the online form for readmission that will go to their Undergraduate Academic Associate Dean.

If students wish to participate in course registration, or room selection upon return from a leave, the deadlines are earlier. Students can not participate in the room selection process during the spring semester unless they are already readmitted for the fall semester.

### Additional information regarding returning from a medical leave:
When a student takes a medical leave of absence, the Directors of UCS/UHS will provide a recommended length of leave. Generally, in order to ensure that a student can obtain adequate treatment and demonstrate readiness to return, Boston College recommends students on medical leave follow that recommendation.

**For a medical leave due to mental health-related concerns:** your licensed mental health provider must submit the [Readmission to Boston College from Medical Leave of Absence](#) form to the UCS Director. You must also submit a completed [Release of Information for Return from Medical Leave](#) and complete the student section as well.

**For a medical leave due to physical health-related concerns:** your licensed health provider must provide documentation regarding readiness to return to BC to the Director of UHS. You must also submit a completed release of information for return from medical leave.

The Director of UCS or UHS will collect documentation supporting the application for readmission and may seek additional information and/or request a conversation with the student or treatment provider. The Director will make a recommendation to the appropriate Undergraduate Academic Associate Dean, who's decision will be final.

### Majors, Minors, and Concentrations

#### Majors

A major is a systematic concentration of at least 30 credits taken in a given academic discipline that enables a student to acquire a more specialized knowledge of the discipline, its history, its methodologies and research tools, its subfields, and the areas of concern in which the discipline is presently involved. This is done by means of a hierarchical sequence of courses or appropriate distribution requirements. In order to earn a major, students must have at least 27 credits in the major program that are not used to fulfill requirements for another major or minor.

#### Minors

**Morrissey College of Arts and Sciences**

Some departments offer a departmental minor for students who wish to complement their major with intensive study in another area. A departmental minor consists of at least 18 credits. These must include one introductory level course and at least one upper-level course or seminar. **In order to earn a departmental minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor.** Students carrying a double major are advised not to minor.

For a complete list of minors visit the [Majors and Minors](#) page.

Interdisciplinary minors in the Morrissey College of Arts and Sciences must consist of at least 18 credits and must include either a required introductory course or a concluding seminar or project. (Note: Some programs require both.) **In order to earn an interdisciplinary minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor or a Core requirement.** The list and description of the interdisciplinary minors is available in the Morrissey College of Arts and Sciences section of this Catalog. Students choose courses for the minor in consultation with the director of the department's minor program.

---
Lynch School of Education and Human Development

Lynch School majors may minor in Special Education. Some Lynch School Elementary and Secondary Education majors are eligible to minor in Middle School Mathematics Teaching.

Further information on these minors is available in the Lynch School of Education and Human Development section of the University Catalog.

Connell School of Nursing

CSON students may pursue a Hispanic Studies minor, a Psychology minor, or a Medical Humanities, Health, and Culture minor specifically for Nursing students by contacting the Academic Dean, Undergraduate Nursing Program. Six courses (18 credits) are required to complete the minor. Full details are available on the CSON website.

Carroll School of Management

Students in the Carroll School of Management may select any minor offered by the Morrissey College of Arts and Sciences.

For a complete list of minors visit the Majors and Minors page.

Concentrations

Carroll School of Management (CSOM)

Concentrations, or areas of specialization, are required for students earning degrees from Carroll School of Management and are available to Carroll School of Management students only. Most concentrations require four courses beyond the Core. However, some require five. Students must complete a concentration in one of the following areas: Accounting, Accounting and Information Systems, Accounting for Finance and Consulting, Business Analytics, Economics, Entrepreneurship, Finance, General Management, Information Systems, Management and Leadership, Managing for Social Impact and the Public Good, Marketing, or Operations Management. Students declare a concentration second semester sophomore year or during the junior year.

Overloads

The standard semester course load for undergraduates is five 3-credit courses and a maximum of 20 credits, including labs and other 1- or 2-credit courses. Students are eligible to overload if they have earned at least a 3.0 overall cumulative GPA or a 3.0 GPA in the semester immediately prior to the one for which the overload is sought, in which case they may register online for a sixth course of 3 credits or more and a maximum of 24 credits, including labs and other 1- and 2-credit courses, during the first seven class-days of the semester.

Students are not permitted to take a sixth course of 3 credits or more during their first semester at Boston College. Second-semester freshmen who wish to overload with a sixth course of 3 credits or more must obtain permission from their Academic Dean.

Students with an overall cumulative GPA between 2.0 and 3.0 may, under exceptional circumstances, be allowed by their Academic Dean to enroll in a sixth course.

Students in a Woods College of Advancing Studies degree program may take a maximum course load of three courses per semester. Authorization for one additional course will be given only if the student has completed three courses in the previous semester, each with a grade of B- or better. Additional courses require authorization. Courses taken without reference to this regulation do not advance a student’s Woods College degree program.

Readmission

Students who desire readmission must initiate the process in the Office of the appropriate Academic Dean of their school or college. Applications for readmission should be made at least four weeks before the start of the semester in which the student seeks to resume study. The appropriate Academic Dean will then make the decision about readmission, after careful consideration of the best interests of both the student and the University.
In instances where a sustained period of time (more than one year) has elapsed since a student was last enrolled, the appropriate Academic Dean in consultation with the appropriate representative of the student’s department or program will identify the academic requirements, if any, that must be completed after readmission and before awarding the degree. Factors that will determine these requirements include, but are not limited to: the currency of the student’s knowledge in the student’s proposed academic major(s); the pertinence of courses completed at Boston College to current degree and licensure requirements; any academic work completed elsewhere that is relevant to degree and licensure requirements; and the length of the student’s absence.

If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student’s readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

**Satisfactory Academic Progress**

The requirements for Satisfactory Academic Progress are specified in the academic regulations for each school.

**Study Abroad—Office of Global Education**

Boston College global programs are open to BC undergraduate students who meet the requirements for study abroad as outlined by their Academic Dean. In order to be eligible for admission, students must be in good academic standing with a GPA of 3.0 or higher and have a clean disciplinary record. Final approval is at the discretion of the OGE, deans, and Student Affairs. Many programs have additional requirements and a selective application process; students should consult with the OGE for specific admission requirements. Boston College approves an equal number of students for study abroad in the fall and spring semesters, and not all applicants can be approved for their preferred term. Students should plan accordingly.

Students remain subject to the academic policies of their home department as well as the host institution. They are expected to register for a full course load as defined by BC and the host university in order to earn a full semester’s worth of credit.

Courses taken abroad which meet BC academic standards automatically count as general elective credit towards graduation. Students wishing to fulfill major, minor, or Core requirements abroad on both BC and non-BC programs may do so with the approval of the appropriate department(s) via a Student Services form.

A student’s enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the Title IV, HEOA programs.

**Summer Courses**

As of summer 2018, summer courses taken at Boston College count for academic credit and all grades earned are factored into students’ GPA as regular BC courses. Courses may satisfy Core or major/minor requirements as specified by the department, and will count toward the 120 credits required for the degree. A maximum of 4 courses (12–13 credits total) can be taken in the summer.

**BC Summer Courses Abroad**

BC summer courses taken abroad through the Office of International Programs (OIP) are factored into students’ GPA as regular BC courses, and count for academic credit.

**Summer Courses at Other Institutions**

Summer courses taken at another university—local, national, international—, must be pre-approved from the Academic Dean using the Course Approval Form. Students will also need departmental approval if they want the summer course to fulfill a Core, language, major, or minor requirement. These summer courses may count for academic degree credit and grades will factor into the GPA if students have credit deficiencies. Students will receive enrichment credit if there is no prior credit deficiency. Enrichment credit means that the course may satisfy Core or major requirements with department permission, but will not count toward the 120 credits required for the degree. Courses, grades, and credits will be listed on the transcript but will not be calculated into the GPA. With the approval of the Academic Dean, students who
incurred deficiencies may use enrichment courses in previous summers to make up for deficiencies incurred subsequently.

**Transcripts**

All current students submit requests for academic transcripts at bc.edu/myservices ("Transcript Request and Status"). Alumni should visit bc.edu/transcript for direction on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information visit bc.edu/transcript.

Requests are usually processed within 48 to 72 hours of receipt.

**Transcript/Diploma Holds**

Diplomas will not be issued, nor transcript requests honored, for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

**Transfer of Credit**

The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit. Courses in transfer with credit values ranging from 1–4 semester hours of credit will be considered on a course by course basis. A maximum of 30 credit hours for a first semester sophomore, 45 for a second semester sophomore and 60 semester hours of credit for an incoming junior will be allowed in transfer.

No transfer credit will be granted for internships, field experiences, practica, or independent study.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student’s career at the University and reflects only work completed as a full-time undergraduate at Boston College. A new grade point average also begins when students transfer from the Woods College of Advancing Studies to one of the full-time undergraduate schools or when a full-time undergraduate transfers to the Woods College of Advancing Studies.

Courses taken at other institutions during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. Courses taken through the Boston College Summer Session during the summer prior to enrollment must be approved by the appropriate Academic Dean.

Once a student matriculates, courses may not be taken concurrently at other institutions for credit or enrichment in a Boston College undergraduate degree program.

**University Communication Policies and Student Responsibilities**

Official communications of the University with its currently-enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

**Postal service and Campus mail**: For purposes of written communication, the student’s local and permanent addresses on record at Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at bc.edu/myservices ("Update Your Address/Phone/Emergency Contact Information") if the addresses are not accurate in university records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address via a link on the Office of International Programs website.

**E-mail**: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on
campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student’s Boston College e-mail address in the “From:” and “Reply To:” lines, and should originate from the student’s Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

University Degree Requirements

The requirements for the bachelor’s degree in the undergraduate day colleges are the completion with a satisfactory cumulative average (at least 1.5 in the Carroll School of Management and at least 1.667 in all other schools) and credit requirements which are distributed as follows:

- Morrissey College of Arts and Sciences students must accumulate at least 120 credits with 96 of the required 120 credits in departments of the Morrissey College of Arts and Sciences. Additional courses may be chosen from the offerings of the professional schools. Students in the Morrissey College of Arts and Sciences complete the Core curriculum, a major of at least 30 credits, and the language proficiency requirement distributed over eight semesters of full-time academic work.
- Carroll School of Management students complete 120 credits for graduation. All Lynch School of Education and Human Development majors complete 120 credits distributed over eight semesters of full-time academic work.
- Connell School of Nursing students complete at least 117 credits distributed over eight semesters of full-time academic work.

Withdrawal from a Course

Undergraduates may drop or add a course(s) online during the first seven class-days of the semester. Undergraduates only may drop a course until October 1, in the fall and February 15, in the spring semesters in their Academic Dean’s office. Students may not drop below 12 credits in a semester.

After the extended drop period, undergraduates who withdraw from a course will have a "W" recorded in the grade column of their academic record. A grade of W has no effect on the GPA. A student may re-take a course for which a W has been recorded, in which case both the W and the subsequent grade are entered on the academic record.

To withdraw from a course all students must go to the Academic Forms page of the Student Services website, submit the online form that will then be routed, to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the Academic Forms page of the Student Services website, which will be routed to the appropriate Academic Dean’s Office for processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

University (Senior) Awards and Honors

Morrissey College of Arts and Sciences

Frank J. Bailey, Sr. Award
An award, the gift of the Bailey family, in memory of their father Frank J. Bailey, given to the graduating senior with a distinguished academic record in the field of Middle Eastern and Islamic Studies.
John Bapst, S.J., Philosophy Award
An award in honor of John Bapst, S.J., given to the student whose overall performance in philosophy courses has been outstanding.

J. Robert Barth, S.J., Award for Excellence in the Arts
An award in honor of the Dean of the Morrissey College of Arts and Sciences (1988–1999), who established and nurtured departments and programs in the arts. This award is presented annually to a senior who has made outstanding contributions to Boston College in the fine or performing arts.

Andres Bello Award in Spanish
An award offered by Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in Spanish.

George F. and Jean W. Bemis Award
An award in memory of George Fisher Bemis (1899–1971) and Jean Wilmot Bemis (1903–1987) of Milton, MA, a devoted couple quietly of service to others and with whom it was a delight to work. The award seeks to single out a member of the senior class distinguished for service to others.

Albert A. Bennett Award
In honor of Albert A. Bennett (1888–1971), an accomplished mathematician, distinguished teacher, and a Visiting Professor of Mathematics at Boston College from 1962–1971. This award is given to a member of the senior class, who demonstrates a high level of mathematical achievement and who, in their undergraduate years, has shown interest in or a desire for a career in teaching.

Wendy Berson Language Award
An award, the gift of Mrs. Solomon Berson in memory of her daughter, Wendy Berson, given to the senior who demonstrates excellence in the area of Romance Languages in general and, specifically, the ability to speak one or more languages with great expertise.

Laetitia M. Blain Award for Excellence in Musical Performance
An award named in honor of Laetitia M. Blain, Musician-In-Residence at Boston College (1975–2000). This award is given annually to a senior who has contributed to the musical life on campus in a significant and outstanding way.

Alice E. Bourneuf Award
In honor of Alice E. Bourneuf, Professor of Economics at Boston College (1959–1977), this award is given to an outstanding senior in Economics based on achievement in both major and non-major courses, strength of curriculum, quality of written and creative work, and attitude toward the study of Economics.

Francis A. Brick Award
An award, the gift of Mrs. Francis A. Brick, in memory of her husband, Francis A. Brick, LL.D. 1896, given to the student who has been outstanding in character, loyalty, leadership, and scholarship during their four years at Boston College.

The Dr. Donald S. Brown Award
The Donald S. Brown Award was established in honor of the former director of the Office of AHANA Student Programs from 1978–2005. This award honors a senior who throughout their undergraduate career has made extraordinary contributions to the Boston College community in ways that have benefited AHANA students in the areas of leadership, service and academic development.

Donald S. Carlisle Award
An award established by the Department of Political Science in memory of Donald S. Carlisle, Professor of Political Science at Boston College (1968–1997), given each year to a graduating senior for outstanding achievement in political science.

Normand Cartier Award
The Normand Cartier Award is given to a senior who is a member of the Lambda Psi Chapter of the Pi Delta Phi National French Honors Society and has demonstrated leadership in promoting French and francophone literature and culture in the Boston College community.

Brendan Connolly, S.J., Award
who loved books and respected learning. This award is made to a member of the senior class who is distinguished for the same characteristics.

Matthew Copithorne Scholarship
An award given to a graduate, exhibiting qualities of character, industry, and intelligence, and plans to do graduate study at Harvard or MIT.

Cardinal Cushing Award
An award donated by Francis Cardinal Spellman, in honor of Richard Cardinal Cushing, given annually to an undergraduate student for the best writing in fiction published in a Boston College undergraduate publication.

Joseph G. and Margaret M. Dever Fellowship
Founded by Robert Muse, Esq. ’42, in honor of his classmate, Joseph Dever, the cash grant is given to a graduating senior who shows promise of a career in writing.

John D. Donovan Award
An award named in honor of John D. Donovan (Boston College, A.B. 1939; M.A. 1941; Harvard, Ph.D. 1951), Professor of Sociology (1952–1988). The Department of Sociology presents this award to the undergraduate student who submits the best paper written for a course in sociology during the previous year.

Patrick Durcan Award
An award, the gift of Mrs. J. Greer, in memory of her brother, Rev. Patrick Durcan, given to the student whose overall performance in history courses has been outstanding.

Figurito Family Award for Scholarly Achievement in Italian
An award presented in honor of Joseph Figurito, Professor of French and Italian at Boston College for over half the twentieth century, to a senior for scholarly achievement in Italian.

Edward H. Finnegan, S.J., Award
An award in memory of Rev. Edward H. Finnegan, S.J., given to the student who has best exemplified in their four years at Boston College the spirit of the College motto, “Ever to Excel.”

Mary A. and Katherine G. Finneran Commencement Award
An award, the gift of Misses Elizabeth and Theresa Finneran, given to the student who has achieved outstanding success in studies, while also devoting time and talents to other activities for the enrichment of the College and student life.

William A. Gamson Award
An award established by the Department of Sociology in honor of William A. Gamson, given each year to a graduating senior for outstanding academic achievement in sociology.

Thomas I. Gasson, S.J., Award
An award in honor of Thomas I. Gasson, S. J., President of Boston College (1907–1914), given to the graduating senior with a distinguished academic record over a four-year period.

General Excellence Award
A gift of the Philomatheia Club, given to the student who has achieved general excellence in all branches of studies during their entire four years at Boston College.

Giffuni Prize
An award sponsored by the Giffuni Family Fund in honor of Vincent Giffuni (BC ’65), given to a senior who has written an outstanding thesis in economics.

The George J. Goldsmith Award
An award given in memory of longtime Physics Department faculty member George J. Goldsmith, who is remembered for both his scholarship
and his selfless dedication to the students of Boston College, this award is given annually to a graduating physics major in recognition of excellence in academic achievement and research.

*John L. Heineman Award*
This award was established by the History Department in honor of the late John L. Heineman, a challenging and inspirational colleague (1963–2003), a Renaissance man, and a master teacher. It is given each year to a graduating senior in recognition of exceptional historical scholarship.

*Janet Wilson James Essay Prize*
An award in memory of Professor Janet Wilson James, historian and feminist scholar, given to a senior distinguished for scholarship in women’s studies.

*The David A. Karp Award*
An award in honor of David A. Karp, Professor of Sociology from 1971–2012. While leading the Sociology Honors Program, he inspired generations of students to strive for insightful sociological listening and beautiful writing that is the hallmark of his work.

*William A. Kean Memorial Award*
An award, the gift of James M. Kean in memory of his brother, William A. Kean ’35, given to that member of the graduating class deemed the outstanding English major.

*Bishop Kelleher Award*
An award donated by Francis Cardinal Spellman in honor of The Most Reverend Louis F. Kelleher, given to an undergraduate student for the best writing in poetry published in a Boston College undergraduate publication.

*William J. Kenealy, S.J., Award*
An award in memory of the late William J. Kenealy, S.J., Dean of the Boston College Law School (1939–1956), whose life was distinguished by a passion for social justice. This award is given to the graduating senior who has been distinguished in both academic work and social concern.

*T. Frank Kennedy, S.J., Award for Excellence in the Academic Study of Music*
An award given in honor of the co-founder, long-term chair, and guiding spirit of the Music Department to an outstanding senior who has shown consistent excellence in the academic study of Music.

*Joseph M. Larkin, S.J., Award*
An award presented annually to the senior member of the Boston College Dramatics Society who has most clearly exhibited the qualities of dedication and integrity exemplified by the life and career of Rev. Joseph M. Larkin, S.J.

*John Henry Lawton Award*
An award presented in memory of John Henry Lawton, to the member of the senior class who has shown outstanding scholarship in the Department of Communication.

*Allison R. Macomber, Jr., Award in the Fine Arts*
Two awards established and supported primarily by gifts from the Horbach Fund for outstanding work in the Fine Arts in honor of Allison R. Macomber, Jr., Artist-in-Residence at Boston College, 1963–1979, whose presence and teaching opened the eyes not only of his students but of the entire community to the greatness and wonders of art.

*J. Paul Marcoux Award*
An award in honor of J. Paul Marcoux, Professor of Theater at Boston College (1964–1994), presented annually to a senior Theater major for excellence and growth, both academically and artistically, over their four years at Boston College.

*Richard and Marianne Martin Award*
In memory of Richard and Marianne Martin for their dedication to the ideals of art, and for their unstinting devotion to the goals and values of Boston College. Two awards are given by the Boston College Friends of Art; one to an outstanding scholar in art history, the other to a student who excels in studio art.
Denis A. McCarthy Award
The Denis A. McCarthy Award is given to an undergraduate for outstanding work in creative writing.

John McCarthy, S.J., Award
An award established in memory of Rev. John McCarthy, S.J., a most beloved scholar, faculty member, and Dean in the Morrissey College of Arts and Sciences, for those whose Scholar of the College projects are deemed most distinguished in the Humanities, the Social Sciences, the Natural Sciences and in History.

Gail A. McGrath Award
An award presented in memory of Dr. Gail A. McGrath, a beloved professor of Communication at Boston College (1966–1997), to a member of the senior class pursuing a graduate degree in Communication.

Albert McGuinn, S.J., Award
This award is in memory of the late Albert McGuinn, S.J., long-time Chairman of the Chemistry Department at Boston College, and presented to the senior candidate for the Bachelor of Science degree. The recipient has most successfully combined proficiency in a major field of study with achievements, either academic, extracurricular, or a combination of both, in the social sciences or humanities.

Henry J. McMahon Award
In memory of Henry J. McMahon, faculty member and Associate Dean at Boston College (1946–1984). This award is given annually to the graduating senior of the Morrissey College of Arts and Sciences who has been accepted at a law school and who has been distinguished by scholarship, loyalty, and service to the College.

The John J. Neuhauser Award in Computer Science
An award given to the senior in the Morrissey College of Arts and Sciences who has demonstrated outstanding achievement in computer science.

John F. Norton Award
An award in honor of John F. Norton ’22, Boston College professor (1926–1965), given to the student who best personifies the tradition of humanistic scholarship.

Cardinal O’Connell Theology Award
An award, the gift of the late William Cardinal O’Connell, given to the student whose overall performance in theology courses has been outstanding.

The Thomas H. O’Connor Award
An award established by the History Department in honor of the late Thomas H. O’Connor, who taught in the department from 1950–1999, and who also served as Boston College University Historian. It is given each year to a graduating senior in recognition of outstanding achievement in the study of American history.

Princess Grace of Monaco Award
An award offered by Dr. Helene Day, Consul of Monaco, and Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in French.

E. Paul Robsham Distinguished Service Award
An award given annually by the Theater Department to the graduating senior, who though seldom sharing the spotlight, has worked with exceptional professionalism, dedication, creativity and enthusiasm behind the scenes to bring the benefits of the theater to the Boston College community.

Paul J. Sally, Jr., Award
A cash award, in honor of Paul J. Sally, Jr., ’54, ’56, Professor of Mathematics at the University of Chicago, a highly esteemed mathematician well known for his many contributions to mathematical endeavors at all levels. This award is bestowed on senior mathematics majors who demonstrate excellence in mathematics coursework of a particularly demanding nature.
Secondary Education Minor Award
This award is conferred on a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program within the Lynch School of Education and Human Development and has achieved distinguished success as a student teacher.

Harry W. Smith Award
An award, the gift of the Smith Family, in memory of Harry W. Smith, a leader in corporate and community philanthropic work, to honor a member of the senior class who has used personal talents to an exceptional degree in the service of others.

Dr. Joseph R. Stanton, M.D., ‘42 Award
This award is a gift from Stanton Medical Associates in memory of Joseph Stanton, M.D. ‘42. The award is intended for a graduating senior who has been accepted by a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Dr. Joseph S. Stanton Memorial Award
An award, the gift of Doctors Richard Stanton ‘38 and Joseph R. Stanton ’42 in memory of their father, Joseph Stanton who was also a doctor. The award is given to the student who has been accepted to a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Tully Theology Award
An award given in memory of the late Dennis H. Tully, given to the student who has written the best paper on a theological subject.

Max Wainer Award
An award, the gift of Anneliese K. Wainer, Ph.D., ’72, in honor of her husband, Max Wainer, given annually to the senior who is deemed the outstanding student in Classics.

Lynch School of Education and Human Development

Charles F. Donovan, S.J., Award
Presented to a member of the senior class in honor of Father Donovan, founding Dean of the School. The recipient exhibits superior leadership, academic, and innovative qualities, and demonstrates excellence in professional and personal commitment, with a genuine concern for the needs and values of others.

General Excellence Award
Presented to a senior who has at the same time manifested outstanding achievement in all courses of study during four academic years and qualifies for teaching licensure.

Saint Edmund Campion Award
Presented for excellence in an academic major.

Reverend Edward H. Finnegan, S.J., Nominee Award
Presented to the Lynch School nominee for the top undergraduate prize given to the graduating senior who best exemplifies the qualities of excellence, humility, and service to others and who best epitomizes the University’s motto, "Ever to Excel."

Dr. Marie M. Gearan Award
Presented in honor of Professor Gearan, a member of the original faculty and first Director of Student Teaching, to a member of the senior class for outstanding academic achievement, campus leadership, and distinguished success as a student teacher.

Saint Richard Gwyn Award
Presented to a member of the senior class for outstanding promise as a secondary teacher.

Reverend Henry P. Wennerberg, S.J., Award
Presented in honor of Father Wennerberg, first spiritual counselor in the School, to a member of the senior class who is outstanding for participation and leadership in school and campus activities.
John J. Cardinal Wright Award
Presented in honor of Cardinal Wright to that senior who has shown expert use of creativity and imagination in the area of motivation, and at the same time is dedicated to high educational ideals.

John A. Schmitt Award
Presented to a member of the senior class who, as Professor Schmitt did, has consistently demonstrated compassion for fellow human beings, integrity in dealings with others, diligence in his or her profession, and courage in the pursuit of what he or she believes to be right.

Mr. and Mrs. Vincent P. Roberts Award
Presented to a member of the senior class who is distinguished for loyalty to the ideals and purposes of the Lynch School.

James F. Moynihan, S.J., Award
Presented in honor of Father Moynihan, first chair of the Psychology Department and Professor of Psychology in Education for many years, to a student in the Applied Psychology and Human Development Program, who has shown superior scholarship, contributed creatively to the well-being of others, and has manifested dedication and commitment to the enhancement of the human development process.

Patricia M. Coyle Award
Given to the graduating senior in Elementary Education who is a clear thinker in the field, able to translate the theories of child development and learning into the practice of teaching young children with enthusiasm and love, and a person who is a thoughtful, reflective teacher, perceptive and sensitive to the needs of children.

Karen E. Noonan Award
Given to the graduating senior in Elementary Education who has the qualities of a "natural" teacher of young children; a person who can communicate warmth and a sense of excitement for learning; a person who loves the exhilaration of working with challenging students, and making each child in the classroom feel important and unique.

Cynthia J. Sullivan ’79 Memorial Achievement Award
Presented to members of the junior class who have achieved outstanding academic achievement; demonstrated qualities of loyalty, generosity of self, and integrity; and show an appreciation for the arts.

Cynthia J. Sullivan Award Winner
Presented to last year’s winner of the Cynthia J. Sullivan Memorial Achievement Award, this stipend is intended to fund graduate study or post-graduate travel.

Reverend John Christopher Sullivan, S.J., Award
Presented in honor of Father Sullivan, first Associate Dean in the School of Education, to a member of the senior class who, as Father Sullivan did, exhibits cheerfulness, creativity, enthusiasm, and high energy; who demonstrates respect for individuals and is supportive of others; who shares with them the gift of personal care, regard, individual attention, warmth, and respectful sense of humor; and whose personality and actions reflect an appreciation of the dignity and value of every individual.

Bernard A. Stotisky/Professor John Eichorn Prize
Awarded to a student who has demonstrated excellence in the area of special education at the undergraduate level and does a practicum or pre-practicum at the Campus School as part of an academic program of study in the Lynch School.

Gretchen A. Bussard Award
Presented to a member of the junior class in the Applied Psychology and Human Development Program who has used what he or she has learned in the classroom to improve the lives of others.

Albert A. Bennett Award
Presented by the Morrissey College of Arts and Sciences, in honor of Professor Bennett (1888–1971), visiting professor of mathematics at Boston College 1962–1971, to a member of the graduating class who demonstrates a high level of mathematical achievement and who has shown interest in or a desire for a career in teaching.
Secondary Education Award
Given to the student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program and has achieved distinguished success as a student teacher.

Lynch School Awards
Presented to graduating seniors for academic excellence and outstanding performance in a variety of areas.

Carroll School of Management

Thomas I. Gasson, S.J., Award
Founded by Boston College for general excellence in all courses of study during the four years in the Carroll School of Management.

The Edward H. Finnegon, S.J. Memorial Award Nominee
The top commencement honor which recognizes a senior who best exemplifies the University's motto: "Ever to Excel."

The James Gips Outstanding Student in Information Systems Award
Awarded to the student who has demonstrated outstanding achievement in the field of Information Systems.

The John B. Atkinson Award
Founded by John B. Atkinson for excellence in all courses studied in the field of Operations Management.

George Aragon Outstanding Student Award
For an outstanding senior concentrating in Finance. The selection is made by the faculty committee of the Finance Department.

The Edgar F. Huse Memorial Award
An award presented annually by the faculty for excellence in Management and Leadership.

The Hutchinson Memorial Award
Presented by the Boston chapter of the American Marketing Association to a Marketing student.

The Raymond F. Keyes Service Award
Awarded to a senior concentrating in Marketing who has demonstrated a desire to provide service to the nonprofit community.

Charles W. Lyons, S.J., Award
Founded by Boston College for excellence in all courses studied in the field of Accounting.

The Patrick A. O'Connell Finance Award
Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Finance.

The Patrick A. O'Connell Marketing Award
Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Marketing.

The Eric Allen Serra Award
Established in 1993 by the friends of Eric Allen Serra and awarded to a graduating senior who is actively involved in the BC community and best represents the attributes for which Eric is remembered by his friends.

The James E. Shaw Memorial Award
An award given to a senior in the Carroll School of Management who has been accepted to a recognized Law School. The student demonstrates a strong personal interest in the welfare of fellow students.

The Rev. Stephen Shea, S.J., Award
Awarded to the senior who has attained the highest average in all courses in Philosophy during four years in the Carroll School of Management.
The James D. Sullivan, S.J., Award
Awarded to a senior outstanding in character and achievement.

Outstanding Student in Business Analytics Award
Awarded to the senior who demonstrates excellence in all courses studied in the Business Analytics discipline.

Dean's Letter of Commendation
Awarded to a senior who is recognized for exemplary accomplishment in the Carroll School community.

Connell School of Nursing

Alumni Award
Established by the alumni to honor a nursing student for general excellence in both the classroom and in the wider Boston College community.

Marie S. Andrews Clinical Performance Award
Established by the faculty to honor the student who has demonstrated, through performance across the clinical education portion of the curriculum, sensitivity to the needs of patients, respect for dignity and “wholeness” of the patient, and outstanding ability to deliver quality nursing care.

Cathy Jean Malek Award
Established by the faculty to honor the student who is a role model for his or her fellow classmates and underclassmen with consistent professionalism and integrity.

William F. Connell Award Undergraduate Nominee
Established by the faculty to honor one graduating student who best demonstrates the attributes of leadership, loyalty, service, achievement, humility, and goodwill.

Edward H. Finnegan, S.J., Award Nominee
Established by the faculty to honor the student, who through excellence, humility, and service to others, exemplifies the Boston College motto of “Ever to Excel.” The faculty of the four undergraduate schools at Boston College each nominates a candidate and the winner is announced at the University Commencement. The award winner will accept the degree for the class at the University Commencement.

Reverend Edward J. Gorman, S.J., Leadership Award
Given to the student who, in the judgment of classmates, best exemplifies leadership and who has contributed to the William F. Connell School of Nursing through dedication, service, and sincerity.

Susan E. Donelan Inclusive Community Award
Given to the student who, in the judgment of classmates, has promoted a spirit of cultural awareness, inclusivity, and support to foster the success of his or her graduating class.

Jean A. O’Neil Achievement Award
Established by the faculty to honor the graduating senior who has shown the greatest academic growth over the course of their four years of study in the baccalaureate nursing program.

Maureen A. Eldredge Leadership and Volunteer Service Award
Established by the faculty to honor the graduate who embodies the Jesuit ideals of being “men and women in service to others” through demonstrated leadership and substantial commitment to others in volunteer service.

Graduate Academic Regulations

University-wide academic regulations that pertain to all graduate and professional students are presented below. Students are expected to become familiar with the regulations that are specific to their school.
To learn about each school's academic regulations, please refer to the following sites:

Graduate School of the Morrissey College of Arts and Sciences

Woods College of Advancing Studies
bc.edu/bc-web/schools/wcas/sites/information-for/current-students/academic-policies.html

Academic Regulations are effective from September of the current academic year (2022–2023) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student’s readmission to full-time study will apply, unless the Associate Dean specifies otherwise in writing at the time of readmission.

Academic Grievances

Any graduate or professional student who believes he or she has been treated unfairly in academic matters should consult with the faculty member or administrator designated by their school to discuss the situation and to obtain information about relevant grievance policies and procedures.

Academic Record

A record of each graduate or professional student’s academic work is prepared and maintained permanently by the Office of Student Services. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Graduate and professional students are expected to meet course requirements in classes, internships, and practica as specified in the syllabus or document prepared explicitly for the academic experience. A student who is absent repeatedly from these academic experiences will be
evaluated by the responsible faculty member and/or designated supervisor(s) to ascertain the student’s ability to continue in the course and to achieve course objectives.

Professors may include, as part of the semester’s grades, marks for the quality and quantity of the student’s participation in the course.

Professors will announce, reasonably well in advance, tests, examinations and other forms of assessment based on the material covered in the course, as well as other assigned material. A student who is absent from a course is responsible for obtaining knowledge of what happened in the course, especially information about announced tests, papers, or other assignments.

A student who is absent from a course on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a makeup will be allowed.

In cases of prolonged absence, the student or his or her representative should communicate with the student’s graduate Associate Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student’s return to the course should be made with the Graduate Associate Dean’s Office as soon as the student’s health and other circumstances permit.

Absences for Religious Reasons

Any graduate or professional student who is unable, because of his or her religious beliefs, to attend classes, internships, or practica, or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to makeup such examination, study or work requirement that may have been missed because of such absence on any particular day. However, students should notify professors and supervisors at the end of the first course meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Graduate and professional students should consult their school or department for specific policies regarding audits.

Comprehensive Examination or Qualifying Papers: Doctoral

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations or qualifying papers for doctoral students.

Comprehensive Examination: Master's Students

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations for master’s students.

Continuation: Doctoral Candidacy

Graduate and professional students who have completed all required coursework and who have successfully completed the comprehensive examination or the oral defense of a publishable paper are admitted to doctoral candidacy. Doctoral candidates are required to register and pay for Doctoral Continuation (9999) during each semester of their candidacy or its equivalent.

Please refer to your school’s regulation for additional information on doctoral candidacy.
Cross Registration

Boston Theological Interreligious Consortium

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in the BTI.

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John's Seminary and Theological Institute

The Consortium

Boston College is part of a consortium that includes Boston University, Brandeis University, Hebrew College, Hellenic College, Pine Manor College, Regis College, Northeastern, and Tufts University. Eligible students are allowed to take courses at any of these institutions if the same courses are not offered at Boston College at any time during the academic year. Cross registration materials are available from the Office of Student Services on the Academic Forms page. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium.

Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality

Eligible graduate and professional students enrolled in degree programs during the academic year may apply to participate in the Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality, an inter-institutional enterprise established to advance the field of women's studies and enlarge the scope of graduate education through new models of team teaching and interdisciplinary study. Faculty and students are drawn from nine member schools: Boston College, Boston University, Brandeis University, Harvard University, MIT, Northeastern, Simmons, Tufts, and UMass Boston. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium. Eligible students need to obtain permission from their department or school. Registration forms will be mailed from the Consortium to accepted students.

Degree with Honors

Academic honors are not calculated for graduate students except for law. Law students' Latin honors are calculated as follows: Summa Cum Laude is awarded to the top 2% of the class. Magna Cum Laude is awarded to the top 10% of the class. Cum Laude is awarded to students graduating in the upper third of the class. Honors will be noted on the student's diploma.

Enrollment Status

Full-Time Enrollment Status

Graduate and professional students should consult their school or department for specific policies regarding full-time enrollment status.

Final Examinations

For graduate level courses that have final examinations, professors may use the University's final examination schedule, which is public and set before classes begin, or they may set the day and time of their final examination in the syllabus or document prepared explicitly for the academic experience. All students are responsible for knowing when their final examinations will take place and for taking examinations at the scheduled time. Students who miss a final examination are not entitled, as a matter of right, to a makeup examination except for serious
illness and/or family emergency. Students who are not able to take a final examination during its scheduled time should contact the person designated by the department or school, preferably prior to the examination date, to inform them of their situation and to make alternative arrangements if granted permission to do so.

**Foreign Language Requirement**

Graduate and professional students should consult their school or department for specific policies regarding foreign language requirements.

**Grading**

In each graduate course, in which a graduate or professional student is registered for graduate credit, the student will receive one of the following grades at the end of the semester: A, A-, B+, B, B-, C, F, W, J, U, P, or I. The high passing grade of A is awarded for superior work. The passing grade of B is awarded for work that clearly is satisfactory at the graduate level. The low passing grade of C is awarded for work that is minimally acceptable at the graduate level. The failing grade of F is awarded for work that is unsatisfactory.

A pass/fail option is available for a limited number of courses. A Sat/Unsat grade is recorded for courses such as doctoral continuation.

A student’s cumulative average is based on grades in courses taken in their program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student’s transcript and a 0.0 is calculated into the student’s cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Please refer to your school’s regulation for additional information on grading.

**Grading Scale**

In computing averages, the following numerical equivalents are used. The entire grading scale is not used by all schools.

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

**Grade Changes**

Grade changes should be made only for exceptional reasons. The grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete. Incompletes may be granted to provide a student time to finish his or her course work after the date set for the course examination or in the course syllabus. Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final
paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

All I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer except for students in the Boston College School of Social Work.

Graduate and professional students should consult their school or department for more information on grade changes.

**Student Work and Assessment**

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

**Pass/Fail Electives**

Graduate and professional students should consult their school or department for specific policies regarding pass/fail electives.

**Good Standing**

Grades, satisfactory performance in internships and practica, and timely completion of degree requirements determine a student’s good standing in his or her program. Students should be informed in a timely manner if their good standing is in jeopardy and the conditions needed to maintain or establish good standing.

Graduate and professional students should consult their school or department for specific policies regarding academic good standing.

**Graduation**

The University awards degrees in May, August, and December of each year. Commencement ceremonies are held only in May. Students who have completed all requirements for the degree before a specific graduation date are eligible to receive the degree as of the university’s next official graduation date. A diploma will not be dated before all work is completed. Students who graduate in December or August may participate in commencement exercises the following May.

In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at [bc.edu/myservices](http://bc.edu/myservices) according to the deadline listed on the diploma name/address link.

**Leave of Absence**

**Voluntary Leave of Absence**

Graduate students who do not register for course work, Thesis or Dissertation Direction, or Interim Study in any given semester must request a leave of absence for that semester. Leaves of absence are not usually granted for more than two semesters at a time, and are rarely granted for students on Doctoral Continuation. Students may apply for a personal or medical leave of absence. As described below, appropriate documentation is required for a medical leave of absence.

Students may submit a personal or medical leave of absence request online using a form found on the Student Services Academic Forms page. Once submitted it will be routed to the appropriate school’s Associate Dean’s for review.

Leave time for either a personal or medical leave of absence will normally be considered a portion of the total time limit for the degree unless the contrary is decided upon initially between the student and the Associate Dean.
**Personal Leave of Absence**

Students on an approved personal leave of absence should contact the Associate Dean’s Office at least six weeks prior to the semester in which they expect to re-enroll. The appropriate Associate Dean will make the decision on the readmission request.

**Medical Leave of Absence**

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student’s Associate Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student’s health care provider; the student’s consent for the provider to discuss the student’s condition with University clinicians, and/or an independent evaluation of the student’s condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College’s medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: [bc.edu/medinsurance](http://bc.edu/medinsurance). Students granted a medical leave may be entitled to a semester’s tuition credit to be provided upon readmission, and should consult their school’s policy regarding the tuition credit.

**Involuntary Leave of Absence**

Students may be separated from the University for academic reasons (please refer to specific school or department policies for more information) or for reasons of health, safety, or when a student’s continuance at Boston College poses significant risk to the student or others. For additional information, visit the [Division of Student Affairs](http://Division of Student Affairs) website.

**Readmission**

Graduate and professional students seeking readmission to the University should consult with the policies and procedures specified by their department or school. The decision to re-admit a student will be based on a consideration of the best interests of both the student and the University.

**Summer Courses**

In graduate programs, summer courses may be an integral part of the curriculum. Graduate and professional students should consult with their schools or departments for specific policies regarding summer courses.

**Time-to-Degree**

Graduate and professional students should consult their school or department for specific policies regarding time-to-degree.

**Transcripts**

All current graduate and professional students submit requests for academic transcripts at [bc.edu/myservices](http://bc.edu/myservices). Alumni should visit [bc.edu/transcript](http://bc.edu/transcript) for directions on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information, visit [bc.edu/transcript](http://bc.edu/transcript).
Transcript/Diploma Holds

The University will not issue diplomas or release transcripts for any graduate or professional student with an outstanding financial obligation to the University, which includes failure to complete a mandatory loan exit interview.

Transfer of Credit

Graduate and professional students should consult their school or department for specific policies regarding transfer of credit.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled graduate and professional students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

**Postal service and Campus mail:** For purposes of written communication, the student’s local and permanent addresses on record at the Office of Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses and to enter corrections at bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester and again soon after submitting any corrections.

**E-mail:** The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with e-mail accounts as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

Students may forward their e-mail messages from their University e-mail accounts to non-university e-mail systems. In such cases, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

All student responses to official e-mail communications from the University must contain the student’s University e-mail address in the “From:” and “Reply To:” lines and should originate from the student’s University e-mail account, to assure that the response can be recognized as a message from a member of the University community.

Withdrawal from a Course

Graduate and professional students who withdraw from a course after the drop/add period (after the first seven class-days of the semester) will have a “W” recorded in the grade column of their academic record. To withdraw from a course all students must go to the Academic Forms page of the Student Services website, submit the online form that will then be routed to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Graduate and professional students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the Academic Forms page of the Student Services website, which will be routed to the appropriate Academic Dean’s Office for review and processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.
University Awards and Honors

Please refer to your school or department website for information about awards and honors.

Distance Education Policies and Procedures

Boston College offers a variety of distance education opportunities, designed to offer students a flexible, online alternative to traditional on-campus programs and courses.

In support of Boston College’s distance education initiatives, BC is an approved member of the National Council for State Authorization Reciprocity Agreements, or SARA.

As described by SARA, the network provides a voluntary, regional approach to state oversight of postsecondary distance education. When states join SARA, they agree to follow uniform processes for approving their eligible institutions’ participation. These policies help protect students and provide benefits to both states and institutions carrying out distance education in multiple states.

Accreditation

Boston College is accredited by the New England Commission of Higher Education (NECHE) and has been accredited by NECHE since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College’s most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College’s accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 301 Edgewater Place, Suite 210, Wakefield, MA 01880 (781-425-7785).

Additional accreditation-related information may be found at Boston College’s Accreditation Information site.

Authorization

Boston College has been approved to participate in the National Council for State Authorization Reciprocity Agreements (SARA), which permits the university to offer distance education programming in 49 SARA member states, the District of Columbia, the U.S. Virgin Islands, and Puerto Rico. Note that courses and programs incorporating a “supervised field experience” (sometimes also referred to as an “out-of-state learning placement”) are also covered by the provisions of SARA if under the oversight of a supervisor, mentor, faculty member, or other qualified professional, located in the host state, who has a direct or indirect reporting responsibility to the institution where the student is enrolled. Examples include practica, student teaching, or internships.

Non-SARA States

California does not participate in SARA; however, the California Bureau for Private Postsecondary Education does not regulate non-public higher education institutions that are degree granting, non-profit, and accredited, and so Boston College may offer distance education programming to students in California.
Coverage and Limitations of SARA

As described by NC-SARA, SARA only applies to postsecondary distance education activities conducted across state lines; it does not apply to distance education activity inside the SARA-participating institution’s home state or to on-ground campuses. SARA does not affect the applicability of general purpose state laws; similarly, SARA has no effect on state licensing or certification requirements which often require additional approval from the applicable state board.

Distance Education Programs Leading to Professional Licensure

Boston College is authorized, pursuant to SARA, to enroll students in online programs in the SARA states and territories.

Boston College makes every effort to ensure information about educational requirements for licensure or certification information is current; however, state requirements often change. Separate from educational requirements, state licensure boards may require applicants to complete professional examinations, background checks, years of professional experience, jurisprudence exams, etc. If you are planning to pursue professional licensure or certification in a state other than Massachusetts, it is strongly recommended that you:

- contact the appropriate licensing entity in that state to seek information and guidance regarding licensure or certification requirements before beginning an academic program
- check with departmental personnel in your specific program if you have questions about whether an online program meets licensure requirements in a specific state
- review additional information on state requirements for all programs that lead to licensure which can be accessed at Boston College’s central repository of Notices and Disclosures

Again, SARA does not provide reciprocity for state professional licensing requirements. Academic programs and individual graduates must meet standards set by a state’s licensure requirements in order for a graduate to be eligible for a license.

Please see the table for license eligibility by state. Contact information by state is sourced from NC-SARA and is updated twice per year.

Resources for Distance Education Students

Distance education students at Boston College have access to a wide range of student and academic services, for example:

- Agora, Institutional Portal
- Boston College Bookstore
International Students

International students are advised to understand and be apprised of the rules, regulations, and requirements related to distance education in their country of residence, particularly:

- If the country will recognize an online certificate or degree;
- Whether the program meets licensure or certification requirements in the country; and
- If the country charges any additional taxes, withholdings, or fees associated with online distance education programs.

International students are encouraged to research the policies pertaining to degree recognition in their home country, or anticipated country of residence, and to contact the program-specific administrator at Boston College for additional information prior to enrolling in a Boston College distance education program.

Veterans

Boston College is approved by the National Association of State Approving Agencies, advocates for quality education and training programs for our nation's veterans.

Complaint Procedures for Students Enrolled in Distance Education Programming

Boston College makes available a variety of means to resolve distance education-related issues. A student enrolled in distance education must first attempt to resolve their complaint with their individual department/program or dean’s office. In those instances for when a complaint cannot be resolved at the individual department/program or dean’s office level, the student may contact the Office of Student Services for additional direction and/or questions.

Boston College Contact

Jessica Greene
Waul House 308, 140 Commonwealth Avenue
Chestnut Hill, MA 02467
(617) 552-0163, jessica.greene.2@bc.edu

When a distance education-related complaint cannot be resolved at the department/program or dean’s office level, the following pathways to resolution apply:

For Massachusetts Residents and Online Students Located in Non-SARA Member States or Territories

You may file a consumer complaint with the Massachusetts Attorney General’s Office (AGO) by using the consumer complaint form. The AGO consumer complaint form should be used by students who are located in:

- Massachusetts
- Non-SARA Member States or Territories (e.g., California, Guam)

For Online Students Located in SARA Member States or Territories

You may file a complaint with the Massachusetts Department of Higher Education (DHE) by using the DHE’s SARA complaint form. Please note that for SARA complaints, students are explicitly required to exhaust Boston College’s available complaint procedures before filing a SARA complaint with the DHE.
The DHE complaint form should be used by students who are located in SARA member states and territories. This includes all students who are located in SARA member states and territories for the purposes of completing out-of-state learning placements, such as internships, practica, clinical experiences, etc. in SARA member states and territories outside Massachusetts. The SARA complaint process is as follows:

1. Students must first attempt to resolve their complaint using internal administrative procedures offered by the SARA institution.
2. After all administrative remedies have been exhausted with the MA-SARA institution, the student may submit a SARA Complaint to the DHE via the SARA complaint form.
3. The DHE shall send a copy of the complaint to the institution that is the subject of the complaint;
4. Within 30 days of the date that the DHE sends a copy of the complaint to the institution, the institution must provide a written response to the student and the DHE.

For more information, please refer to the DHE’s Complaint Policy and Process.

**Student Mobility**

A requirement of SARA membership, and as directed by current United States Department of Education regulations as presented in the 2019 Higher Education Authorization, institutions must record in which state a student is located while enrolled in a distance education or correspondence course and apply the method to determine location consistently and to all students. (State Authorization 600.9(c)(1)(i)).

SARA and federal regulations consider a student’s location to be the state, territory, or district where the student is located while receiving the instruction; it does not refer to the student’s official state of residence. For prospective students, Boston College's admissions systems reflect the local address as submitted by the student on the student’s application, and this information serves as the source for “student location.” In the event that this information is not populated, home address information serves as the source for “student location.” For enrolled students, Boston College’s student information system (UIS) reflects the local address as recorded at the time of the student’s initial enrollment, and this information serves as the source for “student location.” In the event that this information is not populated, home address information serves as the source for “student location.”

Changing one’s location prior to enrollment (i.e., during the application process) or while enrolled does not adversely impact a student’s academic standing although students should be mindful that, if interested or enrolled in a program leading to professional licensure, a new state of location may have licensure regulations that are not met by Boston College’s curriculum. Students should review disclosures on professional licensure and confer with their academic advisor and/or their academic program’s department personnel in the event of a location change outside of Massachusetts.

In addition to recording location information related to academic programming, location is also recorded when students participate in learning placements outside of the classroom such as clinical experiences and internships. This information is typically tracked by program departments.

Applicants may update their location information through the application system appropriate to their program or may contact their program's Office of Admission. Enrolled students may update their location information at any time via Boston College’s institutional portal, Agora.

In Agora, under the "Account and Personal Info" section, click Address/Phone/Emergency Contact and follow the on-screen instructions. Support for Agora may be found at: bc.edu/content/bc-web/offices/its/support/account-network-access/agora.html.

**Student Verification for Distance Education Courses**

Boston College employs a multi-pronged student identity verification system to help ensure that the identity of students who are admitted and enroll in distance education courses or programs are the same students who participate in and complete those courses or programs for academic credit.

At the time of application, all candidates must affirm that the contents of their submission are valid and reflect their own educational, professional, and related credentials, experiences, and accomplishments.

At the time of matriculation, students are assigned a Boston College username, password, and unique eight-digit identification number (EagleID) by Information Technology Services; most electronic services and resources that are restricted to the BC community, including the
Agora Portal and Canvas (Boston College’s learning management system), require authentication by entering one’s BC username and password and may also require 2-step verification, thereby serving as an additional means of identity confirmation. Also at the time of matriculation, University students enrolled in on-the-ground and hybrid courses/programs are issued a photo identification card (Eagle-One Card) through the Office of Student Services that serves as the official ID card of Boston College. Proof of identification such as a driver’s license or passport must be presented in order to be issued an Eagle-One Card. Students must keep this card available at all times, and cards must be presented to authorized University officials upon request; falsifying, altering, or misusing one’s own or another’s Eagle-One Card in any way is strictly prohibited and illegal.

Faculty-student engagement is a fundamental dimension of a program’s curriculum, and thus, regardless of a course’s mode of delivery, the frequent and meaningful interaction between an instructor and student serves as an effective method of student identity assurance. Additionally, course experiences and assignments that encourage student-to-student interaction are also employed, principally to enhance learning, but also to serve as another means by which to verify the identity of students.

An additional means of assuring student identity are the verification tools available to instructors via Boston College’s learning management system, Canvas. As students access course materials and discussion groups via Canvas, virtual communication technologies that integrate with Canvas, such as discussion boards, facilitate an instructor’s knowledge of a student’s writing style, ability, and tone, thereby helping to spotlight deviations. Identity verification is also supplemented via video conferencing by allowing instructors to confirm a student’s identity via the comparison of the video image with the student’s Eagle-One Card image. If necessary, IP addresses used to access Canvas can be investigated; other analytics, such as page views and log-in dates/times, are also available for review.

Also available to instructors, and specific to online courses, are two additional tools, Respondus and Proctorio.

Respondus is typically used when an instructor’s goal is to “lock down” the online testing environment within Canvas by securing students’ browsers; students are unable to copy, print, access other applications, or visit other websites during an online exam.

Proctorio serves as the most comprehensive live, remote proctoring tool available to Boston College instructors; it monitors audio and video and provides a full secure browser, thereby preventing web usage and the related during an exam.

Boston College’s Center for Teaching Excellence and Center for Digital Innovation in Learning offer support and training for these tools; there is no cost to instructors or students for the use of any of these resources.

Special Programs

Boston College offers a number of special programs, including the following:

**Capstone Seminar Program**

The Capstone Seminar Program helps students to "cap off" their Boston College experience by a review of their education and a preview of their major life commitments after college. Capstone offers several integrative seminars each semester exclusively for seniors in all schools. The Capstone seminars explore the struggle to discern your own calling in life as you integrate the four crucial areas of work, relationships, society, and spirituality. Capstone seminars are taught by two dozen faculty from 20 different departments and all four colleges—Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, and Connell School of Nursing. Seminars are limited to 15 to 19 students. All courses are listed between UNCP5500 and UNCP5599 in the Boston College Catalog.

Many Capstone Seminars are also cross-listed in the home department of the professor and can be taken for elective credit by majors or minors in that department. Department regulations vary. You may take only one Capstone course during your academic career. Capstones cannot be taken as Pass/Fail. If a course requires permission, contact the instructor directly. For other information, contact the Program Director, Fr. James Weiss at james.weiss@bc.edu or see the University Courses section of this Catalog. You may also reference the Capstone Program website with full course descriptions and syllabi at bc.edu/capstone.
Faculty and Staff Children Exchange Program (FACHEX)

FACHEX is an undergraduate tuition remission program for children of full-time faculty, administrators, and staff at participating Jesuit colleges and universities. The program for BC employees is administered through the Benefits Office in cooperation with the Office of Enrollment Management.

For Boston College employees, five consecutive years of full-time employment are required for establishing eligibility for the program. Employees must complete the FACHEX Certification Form available on the Boston College FACHEX website and return it to the Benefits Office for processing before December 1. Only the Benefits Office can certify an employee child as FACHEX eligible in the FACHEX Database, and this form contains the required information for entry. Employees should review the FACHEX website for information regarding rules of the program. In addition, if an employee's child is interested in applying to any institutions participating in FACHEX, they should be aware of any applicable admission deadlines or requirements at those schools. Contact information for the FACHEX Coordinator at each participating institution can be found on the FACHEX website. BC does not maintain admissions policies of other schools in the program and cannot advise on their behalf.

FACHEX awards tend to be extremely limited in number and are highly competitive in terms of academic selectivity. As a result, there are no guarantees to the children of any given faculty, administrators, or staff that they will be able to utilize the FACHEX benefit at the institution of their choice. Also, many participating schools only consider incoming freshman applicants for FACHEX, so transfer students or upperclassmen may not be eligible.

Employees at other participating institutions should ask their respective Benefits Offices for information on requirements for FACHEX eligibility. Parents and students should then visit the Boston College FACHEX website to view the necessary procedures and conditions for FACHEX applicants.

Gabelli Presidential Scholars Program

The Gabelli Presidential Scholars Program is an undergraduate academic merit program that annually awards full-tuition scholarships and fully-funded, GPSP-sponsored summer programs to 15 incoming freshmen students. Early Decision and Regular Decision applicants who submit their BC applications by the November 1 priority scholarship deadline will be considered. There is no separate application for this scholarship. Students are selected on the basis of superior academic achievement and promise, leadership potential, and a demonstrated commitment to service to society. The Program offers these extraordinary individuals the richest academic experience available at Boston College, one that encourages the pursuit of excellence both within and beyond the University walls. Presidential Scholars receive a full-tuition merit scholarship.

In addition to enrollment in one of the University's several departmental honors programs, during the academic year Scholars meet weekly to discuss their area of concentrations (science and pre-med, humanities, political science and international studies, and management, economics and finance), to share experiences and find greater wisdom in applying for study grants, language programs, internships, and fellowships, and to partake in the cultural life of Boston at the theater or the symphony. To complement the emphasis on ideas and ideals they encounter in their classes, and in their summer programs, Presidential Scholars also give presentations to their fellow scholars about a variety of their experiences including study abroad, Advanced Study Grants, internships, and thesis writing. These presentations serve as additional avenues of inspiration to younger scholars, offering them a glimpse of the opportunities that are open to them throughout their college careers. In addition, these presentations offer the upperclassmen scholars the opportunity to develop and refine their public speaking skills.

During the spring semester freshman Presidential Scholars travel to a country in Europe, while the sophomore Scholars travel to a country in Latin America. These trips are intended to be the starting point in the Scholars’ journey of becoming “global citizens.” In their freshman year, they spend a week in a non-English speaking European country, so as to realize skills that meet the challenge of linguistic differences. In their sophomore year, they have an immersion experience of the social and economic challenges for our neighbors to the South.

In the summers, Scholars are challenged to test and apply what they have learned at Boston College to the world beyond the campus by participating in experiential learning programs focusing on service learning (after the first year), independent international study and travel (after the second year), and professional internship (after the third year).
Through this carefully balanced combination of academic rigor and co-curricular opportunities and challenges, the Gabelli Presidential Scholars Program seeks to develop exceptional scholars and leaders for the Boston College community and far beyond.

**Office of Global Education (OGE)**

Global education is an integral part of the undergraduate experience at BC. Each year approximately 1,200 students—or nearly 50% of a given graduating class—spend a semester, summer, or academic year studying, interning, conducting research, and/or volunteering abroad. BC collaborates with a variety of partner universities worldwide to administer programs in about 30 countries. To apply for semester/academic year programs abroad, students are required to have a 3.0 GPA and be in good academic and disciplinary standing. The OGE also offers around 30 short-term, faculty-led summer programs and internships that are open to both BC and non-BC students and have no minimum GPA requirement. Students should begin planning to go abroad as early as their freshman year. Information on the OGE website, Study Abroad 101 group meetings, and individual meetings with OGE advisors help students choose the best program for their academic needs. For more information, please visit [bc.edu/global-education](http://bc.edu/global-education). The OGE is located in Hovey House (258 Hammond Street, 617-552-3827).

**Academic Year Programs***

*Note: “BC in —” programs denote those options where there is a resident director or on-the ground support staff in addition to services offered by the host institution. Services range from full-time coordinators to more limited support.

**Argentina**

**BC in Buenos Aires: Pontificia Universidad Católica Argentina (UCA)**
Semester or full-year program at this excellent private institution located in downtown Buenos Aires. Offerings include arts and music, economics and business, law and political science, humanities, and communication. During the study abroad program in Buenos Aires, BC students can participate in an internship in order to gain professional experience, while becoming further immersed in Argentine culture and the Spanish language.

**BC in Buenos Aires: Universidad Torcuato Di Tella**
Semester or full-year program in Buenos Aires at one of Argentina’s most prestigious private universities. Offerings include business, economics, political science, international studies, journalism, and history. During the study abroad program in Buenos Aires, BC students can participate in an internship in order to gain professional experience, while becoming further immersed in Argentine culture and the Spanish language.

**Australia**

**Australian Catholic University**
Semester or year program at Australia’s premier Catholic university. Open only to CSON students, who study on ACU’s Melbourne campus.

**Monash University**
One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program in a suburb of Melbourne. Offers courses across all disciplines.

**Notre Dame University**
Semester or full-year program at a small Jesuit university in Fremantle, Western Australia, with a wide range of courses across all subjects, particularly in the arts and humanities. Optional Australian studies course with field trips.

**University of Melbourne**
One of the Group of Eight schools located in the heart of the city. Semester or full-year program. Exceptional in most subject areas.

**University of New South Wales**
Semester or full-year program at one of the Group of Eight schools located in Sydney, with broad offerings across all disciplines. Internship opportunities and an optional pre-semester program to study the environment at the Great Barrier Reef.
**University of Queensland**
Group of Eight schools located in Brisbane. Semester or full-year program with a broad curriculum. Exceptional in all subject areas, especially biology, marine studies, psychology, business, and economics. Research opportunities for students.

**University of Western Australia**
Group of Eight school located in Perth. Semester or full-year program with a broad, excellent curriculum. Strong in all subject areas—particularly sciences, environmental sciences, social sciences, business, education, and music.

**University of Sydney**
Group of Eight schools located in Sydney. Semester or full-year program with a broad curriculum. The majority of students enroll in arts and social sciences, business, science, engineering, information technologies, or health sciences.

**Austria**

**Vienna University of Economics and Business (WU)**
Semester or full-year program at one of Europe’s top business schools, with courses taught in English for CSOM or Economics students. No prior German language required.

**Brazil**

**BC in Rio de Janeiro: Pontifícia Universidade Católica do Rio de Janeiro (PUC-Rio)**
Semester or full-year program with courses in all disciplines. For students with elementary, intermediate, and advanced Portuguese as well as advanced Spanish skills. Offers an English-language track in Brazilian and Latin American culture with a mandatory Portuguese course.

**Chile**

**Pontificia Universidad Católica de Chile (PUC)**
Semester or full-year program in Santiago at Chile’s premier Catholic university. Courses include humanities, social sciences, economics, education, business, and law.

**Universidad Alberto Hurtado (UAH)**
Semester or full-year program at a small, prestigious Jesuit institution in Santiago. Good for social sciences, humanities, philosophy, business, literature, and pre-law.

**China**

**Chinese University of Hong Kong (CUNK)**
Semester or full-year program in a college system setting, with a wide range of courses taught in English. CUHK offers classes in business administration, education, engineering, the natural and social sciences, as well as a summer academic research opportunity (SURP).

**Hong Kong University of Science and Technology (HKUST)**
Semester or full-year direct enrollment program with a strong focus on business/management for CSOM students only. On-campus housing. Courses taught primarily in English.

**Nanjing University (NJU)**
Semester or full-year direct enrollment opportunity. Students may enroll in Chinese instructed classes, or a number of English-taught courses in a range of disciplines on the Xianlin campus. Chinese language courses (elementary to advanced levels) are offered. Students receive support through a buddy program and reside on campus.

**University of Hong Kong (HKU)**
Semester or full-year program suitable for most students, especially those concentrating in the humanities and sciences. Courses taught primarily in English.
Croatia

BC in Croatia: War, Peace, and Reconciliation
Semester program based at the European Center for the Study of War and Peace. Students take five courses and choose between an internship, independent research, or language course, with the potential to earn major/minor elective credit toward International Studies, Philosophy, Theology, History, Faith, Peace and Justice.

Czech Republic

Charles University: East and Central European Studies
Semester or full-year program set in Prague. Founded in 1348, Charles is one of the oldest universities in Europe and the premier university in the Czech Republic. Courses are taught in English and are offered in a variety of subject areas, with a focus on Central and Eastern Europe.

Denmark

Copenhagen Business School
Semester or full-year program with courses taught in English for CSOM or economics students.

Copenhagen University
Semester or full-year program with courses taught in English in the humanities, social sciences, law, health science, natural science, and theology.

Ecuador

BC in Quito: Universidad San Francisco de Quito (USFQ)
Semester or full-year program with course offerings across the disciplines. Science and Community health course available for CSON and pre-med students. Students participate in service work as part of the mandatory resident director course. The program includes a trip to the Galapagos Islands and a weekend with a family in an indigenous village.

Egypt

American University in Cairo
Semester or full-year direct enrollment. Courses are taught in English. BC students are strongly encouraged to enroll in language classes through the Department of Arabic Language Instruction. Students reside on campus in New Cairo.

England

BC in London: King's College London, University of London
Semester or full-year program in London with course offerings across the disciplines including a pre-medical course track.

BC in London: London School of Economics (LSE)
Full-year program only in social sciences, including economics, finance, political science, and sociology.

BC in London: Queen Mary, University of London
Semester or full-year program in London’s vibrant and diverse East End, with courses across the disciplines.

BC in London: Royal Holloway, University of London
Semester or full-year program with a suburban, parkland campus, and a wide range of course offerings for MCAS and CSOM students.

BC in London: School of Oriental and African Studies (SOAS), University of London
Semester or full-year program in central London with specialist studies of Africa, Asia, and the Near and Middle East, including history, languages, politics, religion, and sociology.

**BC in London: University College London, University of London**
Semester or full-year program for MCAS students at the University of London's top-ranked college in central London.

**University of Bristol**
Semester or full-year program located in Bristol, England, with courses across the disciplines.

**Durham University**
Full-year program offering courses across many disciplines including English, history, philosophy, theology, economics, and the sciences.

**Lancaster University**
Semester or full-year program with courses across the disciplines, including courses in the sciences for pre-medical students and in management for CSOM students.

**University of Liverpool**
Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

**University of Oxford, Mansfield College**
Full-year program only. Suitable for students in MCAS interested in small, independent study.

**France**

**BC in Paris: Université de Paris**
Semester or full-year program based at the University of Paris. BC students attend the University of Paris IV (Sorbonne) or the University of Paris IX (Dauphine). Offers a wide range of disciplines. Courses are taught in French, with a small number taught in English at the University of Paris IX (Dauphine).

**BC in Paris: L’Institut de Langue et de Culture Française (ILCF)**
A French language institute connected to L’Institut Catholique de Paris (ICP). The French-taught semester program offers courses in French language, phonetics, grammar, and conversation. English-taught courses in other subjects are available.

**BC in Paris: L’Institut Catholique de Paris (ICP)**
Semester or full-year program offering French-taught courses in humanities, education, theology, and philosophy.

**BC in Paris: L’Ecole Supérieure de Commerce (ESCP)**
Semester program based at the oldest business school in France. Students take courses in international business, finance, economics, and marketing. Courses taught in French and/or English.

**BC in Paris: L’Institut d’Etudes Politiques de Paris (Sciences Po)**
Semester or full-year program offering courses in business, history, communications, law, journalism, political science, international relations, economics, and European studies. Courses taught in French and English.

**Germany**

**Eichstätt Catholic University**
Spring semester or full-year program at a small university located near Munich, with course offerings in arts and sciences, business, and education. Intensive pre-semester language program in Munich. Offers beginning and advanced track programs.

**Frankfurt School of Business and Management**
Semester or full-year program offering courses in business and law. Courses are taught in English. Excellent opportunity for business and economics majors in Frankfurt. Students are required to take a German language course.
Universität Tübingen
Spring semester or full-year program at one of Germany’s premier universities for students with German language skills. Courses are available in English and German and cover a variety of subject areas.

Greece

American College of Greece (ACG)
Semester or full-year direct enrollment program in Athens. Course offerings from a wide range of curricula taught in English with highlights in business, communication, and psychology. University housing, activities, service, and internship opportunities.

Ireland

BC in Cork: University College Cork
Semester or full-year program offering a broad selection of courses in a wide range of disciplines including business, arts, and sciences. Fall semester students take a university early start program.

BC in Dublin: National University of Ireland Maynooth
Semester or full-year program in a small campus environment outside of Dublin. Mandatory Irish Studies course taught by the BC resident director.

BC in Dublin: Trinity College Dublin
Semester or full-year program at one of Europe’s oldest and most prestigious institutions located in the center of Dublin. Wide range of courses across all disciplines. Mandatory Irish Studies course taught by the BC resident director. Some courses are approved for CSON students.

BC in Dublin: University College Dublin (UCD)
Semester or full-year program with offerings across the disciplines, including Arts and Commerce. Students in the Arts and Sciences faculties select two departments in which to take their courses. Commerce students take most classes within the Quinn School of Business. Mandatory Irish Studies course taught by the BC resident director.

BC in Galway: National University of Ireland, Galway
Semester or full-year program with course offerings across the disciplines.

Italy

BC in Parma: University of Parma
Semester or full-year program at the University of Parma, with a wide range of disciplines offered. Courses taught in Italian.

BC in Parma: L'Istituto Dante Alighieri, Parma
Semester or full-year program at the Istituto Dante Alighieri, offering a range of courses taught in English.

Bocconi University, Milan
Semester or full-year program based at one of the leading business schools in Europe. Courses taught in English and Italian.

Università Cattolica del Sacro Cuore (UCSC)
Semester or full-year program located at the Università Cattolica del Sacro Cuore (“Cattolica”) in Milan. The largest Catholic university in the world, courses are offered in both English and Italian. Students are required to take an intensive pre-semester Italian language course.

Venice International University
Semester or full-year program located at Venice International University, an international higher education and research center co-run by 18 consortium members from around the world. Based on San Servolo Island, a few minutes from St. Mark’s Square in the heart of Venice. Students take courses taught in English in the social sciences and international studies.
Japan

**Sophia University**
Spring semester or full-year program at a Jesuit sister university, with course offerings in English covering a wide range of disciplines. University housing in Tokyo.

**Waseda University**
Spring semester or full-year program with course offerings in English. University housing and homestay options in Tokyo.

Mexico

**Universidad Iberoamericana: Mexico City**
Semester or full-year program for students in most disciplines at this private, Jesuit institution famed for research and social engagement. Courses are taught in Spanish.

Morocco

**Al Akhawayn University**
Semester or full-year program in Ifrane, with course offerings in English. Excellent opportunity for business students and those looking to study in francophone North Africa. Recommended for Islamic Studies and intensive Arabic language.

Nepal

**BC in Kathmandu: Center for Buddhist Studies at RYI**
Semester or full-year program offers an in-depth study of Buddhist philosophy. Highly recommended for students interested in comparative religion, theology, and philosophy. Courses in Tibetan or colloquial Nepali language offered. Homestays with local families.

The Netherlands

**Amsterdam University College**
Semester or full-year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

**University College Utrecht**
Semester or full-year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

**University of Amsterdam**
Semester or full-year program with English courses available in the humanities and social sciences.

New Zealand

**University of Otago**
Semester or full-year program at one of New Zealand's top-ranked universities. Exceptional course offerings across the disciplines, especially environmental sciences, business, theology, arts, and humanities.

Norway

**University of Bergen**
Semester or full-year program with a wide-ranging curriculum in English with strengths in natural and marine sciences.

The Philippines

**Ateneo de Manila University**
Semester or full-year program at a leading Jesuit university, with a wide-ranging curriculum in English. Good opportunity for CSOM students, as well as those interested in service. Students reside on campus.
Poland

Jagiellonian University: Center for European Studies
Semester or full-year program at a prestigious Polish university. Courses are taught in English in politics, sociology, Polish language, literature, and culture at the University’s Center for European Studies.

Portugal

NOVA School of Business and Economics
Semester or full-year program at the NOVA School of Business and Economics (Nova SBE), which is located just outside of Lisbon in Carcavelos. NOVA is strictly a business and economics school and does not offer courses outside of these fields. Classes are taught in English.

Universidade Católica Portuguesa
Students take courses at the Lisbon campus, with classes offered in English in the fields of economics, business, and finance. There is also a limited number of courses offered in other fields through their Liberal Arts Curriculum.

Scotland

BC in Glasgow: University of Glasgow
Semester or full-year program offering courses across all disciplines including economics, business, the sciences, and pre-med.

University of Edinburgh
Semester or full-year program offering courses across all disciplines, including humanities, sciences, and management.

Singapore

National University of Singapore (NUS)
Semester or full-year program at a leading research university. Wide variety of courses instructed in English.

South Africa

BC in Makhanda: Rhodes University
Semester or full-year program in Makhanda (formerly Grahamstown) with courses across the disciplines. Supervised service-learning placements through the BC program.

BC in Cape Town: University of Cape Town
Semester or full-year program in Cape Town with courses across the disciplines. Recommended for students majoring in the sciences, business, and humanities. Volunteer and service opportunities available.

South Korea

Seoul National University
Semester or full-year program at a leading research university with a range of English-taught courses. Opportunities to study Korean language.

Sogang University
Semester or full-year program at a Jesuit university in Seoul, with a range of courses offered in English. Opportunity for intensive Korean language study. On-campus housing.

Spain

BC in Barcelona: Business and Culture
Spring-only program at the Universitat Pompeu Fabra (UPF), designed specifically for CSOM major/minor students. Students take a mandatory core course, focusing on the neighborhoods of Barcelona, and a mixture of additional courses in business, the social sciences, and humanities.
**BC in Barcelona: ESADE**
Semester program in Barcelona offering business courses. English-taught curriculum.

**BC in Barcelona: Universitat Pompeu Fabra (UPF)**
Semester or full-year program in Barcelona offering courses in Spanish in many disciplines, except the sciences.

**BC in Granada: Granada Institute of International Studies (GRIIS)**
Semester or full-year program with courses focusing on Spanish language, culture, history, literature, art history, economics, and politics.

**BC in Madrid: Carlos III Immersion and English Tracks**
Based at the Universidad Carlos III de Madrid (UC3M), semester or full-year program for students in most disciplines, especially in the social sciences and business. Immersion and English tracks are available, based on students' level of Spanish proficiency.

**BC in Madrid: Universidad Pontificia Comillas**
Semester or full-year program for students in many disciplines at this private, Jesuit institution. The ICADE campus offers courses in business, economics, and law. The Sociales campus offers courses in social sciences, humanities, and international relations.

**Universidad de Deusto**
Semester or full-year program in Spain's Basque country on campuses in San Sebastián and Bilbao. San Sebastián offers courses in business, economics, literature, sociology, philosophy, and communications. Bilbao offers courses in most disciplines.

**Taiwan**

**Fu Jen Catholic University (FJCU)**
Students may enroll in Chinese instructed classes, or a number of English-taught courses in a range of disciplines. Evening courses and tutoring in Mandarin are also available. Students receive support through a buddy program, spiritual and pastoral care residing in on-campus dormitories in New Taipei City.

**United Arab Emirates**

**American University of Sharjah (AUS)**
Semester or full-year program in a diverse, English-language university in the heart of the UAE with a large international population. Courses available in the arts, humanities, sciences, languages, and management.

**Summer Programs**

Faculty-led summer programs are open to undergraduate and graduate students with OIP approval. Programs are taught in English, with the exception of language courses. A sampling of programs listed are subject to change on an annual basis:

**Oceania**

**Sydney, Australia**
Restorative Justice and Prison Reform in Global Contexts: Australia (3 credits)

**Asia**

**Seoul, South Korea**
Contentious History and the Politics of Contemporary Korea: Decolonization, Division, Development, and Democratization (3 credits)

**Europe**

**Aix-En-Provence, France**
Provence: Art, Culture, Cinema, Diversity (3 credits)
Athens, Greece
Borders and Refugees: The Ethics of Migration (3 credits)

Ballyvaughan, Ireland
Imagination and Creativity and the Irish Landscape (3 credits)

Copenhagen, Denmark
Principles of Public Health: In the Happiest Place (3 credits)
The Ethics of Capitalism: Flourishing in a Commercial Society (3 credits)

Lisbon, Portugal
The European Union and Lisbon as an economic, political, and cultural gateway (3 credits)

Paris, France
Modernism in Paris (3 credits)

Paris, France and London, England
Which is Better? An Economic Comparison of Health Care in France, the UK, and the USA (3 credits)

Parma, Italy
Food, Power, and Politics (3 credits)
Financial Accounting (3 credits)

Prague, Czech Republic
Toward Deep Subjectivity: Philosophy of the Person II (3 credits)

Rome, Italy
Art and Patronage in Renaissance and Baroque Rome and Beyond (3 credits)
Saints and Sinners (3 credits)

Venice, Italy
The Imaginary City: Why Writers Love Venice (3 credits)
History of the Italian Mediterranean: Una Faccia, Una Razza (3 credits)

Middle East

Haifa, Israel
Studying An Innovative Economy: Israel and the Start-Up Ecosystem (3 credits)

Internships Abroad

Dublin, Madrid, Paris, Prague, Shanghai, Singapore, and Tokyo
Eight-week, independent internship program offers students the opportunity to experience the local work culture first-hand. OGE staff work with students to design the best possible internship based on student interests, majors, and previous work experience. (1 credit)

Other Opportunities
Overseas Teaching Program

- Students perform pre-practica or full practica in elementary or secondary student teaching abroad (see Campion 102 Practicum Office)
- Applied Psychology and Human Development Practica Abroad
Lynch School students can do an Applied Psychology and Human Development Practicum while studying abroad. See the Undergraduate Dean's Office (Campion 104) for details.

**Washington Semester**

BC offers a semester-long internship program in cooperation with American University in Washington, DC. The program combines academic courses with internship placements in legislative, executive, and interest-group offices in the nation's capital. The academic requirements for participation are the same as those for study abroad, and Washington semester programs are administered as approved external programs through the OGE. The program can be combined with a study abroad experience.

**SEA Education Association Program**

The university offers a semester-long opportunity with SEA Education Association (SEA), an Environmental Studies program, which challenges students intellectually and physically by combining a sailing experience with the study of the deep ocean. The interdisciplinary program tracks are designed for students who wish to gain a comprehensive understanding of the world’s oceans, as well as explore a specific ocean-related theme including a shore component. Students, especially those majoring in the natural sciences, can complete a semester with SEA as an alternative to study abroad or in combination with another semester program. SEA programs are administered as approved external programs through the OGE.

**Pre-Health Program**

Medical, dental, veterinary, and other health professions schools welcome qualified students from diversified academic backgrounds and from any major from an accredited college or university. Thus, the student planning to pursue a health related career may choose a major field of study in any one of the humanities, natural sciences, or social sciences. Please note that medical and dental schools assume that students major in a field that plays to their strengths, interests, and passion. Below is a brief summary of the program. For detailed information, visit [bc.edu/premed](http://bc.edu/premed).

Health professions graduate schools expect each applicant to be well grounded in the fundamental sciences and to be familiar, through practical experience, with laboratory techniques. For these reasons, most health profession schools require one year of coursework at the college level in the following disciplines:

- General Chemistry with lab
- Organic Chemistry with lab
- Biology with lab
- Physics with lab (either Algebra-based or Calculus-based)
- English

In addition, one year of mathematics is usually strongly recommended. Some medical schools require calculus and/or statistics. About half of the allopathic medical schools require biochemistry. Please check your target graduate professional schools for specific requirements and recommendations. Some health professions graduate schools have additional requirements, such as, microbiology, physiology, and/or animal nutrition (vet), for example.

**Academic Plan**

*Four (+) Year Program*: Given the important demand for health-related experiences and service to the poor through meaningful volunteer experiences, students often select to do the 4-year cycle. The majority of pre-health students (76%) at BC, as well as other institutions, are applying to graduate schools in the health professions at the end of their senior year—or later. Students who elect to apply as a senior have the opportunity to pursue other interests and/or opportunities (e.g., study abroad, completing a thesis, minoring in a non-science discipline, volunteer work, or research) thus potentially making them more attractive candidates. The four year option also allows for greater flexibility in preparing and studying for entrance exams (MCAT, DAT, GRE) in order to reflect their best effort. The average age for students beginning graduate school in the health professions is approximately 25; therefore, the number of applicants taking one or more (gap) growth year(s) is increasing.
For a complete overview of the required pre-health curriculum, course numbers, and recommended course sequencing, please visit the B.C. Pre-Health website (bc.edu/premed).

Three Year or Four Year Sequencing

*Three Year Program*: Undergraduates who plan to matriculate to health professions graduate school the fall after they graduate will need to complete all required courses (see above) by the end of junior year. Applications are filed the summer before senior year. While simultaneously taking junior year course work, we recommend that students study for and take the Medical College Admissions Test (MCAT) preferably by the end of spring semester (late April/May) of their junior year. Students taking the Dental Admissions Test (DAT) are encouraged to take it in early summer (e.g., May/June). In addition, health professions graduate schools expect a high level of academic performance, significant exposure to the health field, through clinical placements and shadowing as well as other meaningful extra-curricular experiences.

Clearly this is a great deal to accomplish in three years and, for this reason, increasing numbers of students choose the four-year option above. If you follow the three-year program and are a competitive candidate, you would be invited for interviews during the fall/early winter of your senior year. If accepted, you would begin graduate school in August/September following your graduation from BC.

Advanced Placement

For specific information regarding advanced placement, please visit bc.edu/premed.

Further Information

If you would like to speak with a staff member call 617-552-4663 or e-mail us at premed@bc.edu.

Pre-Law Advising

Boston College has a dedicated pre-law advisor and offers pre-law advising through the Career Center. The Boston College Career Center and two pre-law student associations, the Bellarmine Law Society and the AHANA Pre-Law Student Association, present panels each year on different aspects of the legal profession and the law school admission process. The pre-law advisor is available to meet individually with students interested in law as a career whenever questions or concerns arise. While no particular major is preferred by law schools, it is suggested that students consider including some of the following courses in their programs of study: logic, mathematics, law, public speaking, English (especially intensive writing courses), history, sociology, and political science. You can indicate your interest in receiving announcements of pre-law panels and activities by officially registering as Pre-Law in the Academic Advising Center or Office of Student Services. Before scheduling a pre-law advising appointment, students should review the Boston College Pre-Law Advising Handbook. For further information, contact the Career Center at 617-552-3430 and view the Career Center’s website for information on Applying to Law School.

PULSE Program for Service Learning

For a description of the PULSE Program, please visit the PULSE website.

Reserve Officers' Training Corps

Air Force Reserve Officers’ Training Corps

Through a cross-enrolled program with Boston University, interested Boston College students may participate in the Air Force Reserve Officers’ Training Corps program. Scholarships (full and partial) are available to qualified students for four, three, or two years and include tuition (full or partial), books, fees, and a monthly stipend. Freshmen and sophomores can compete for 2- and 3-year scholarships, some of which would cover full tuition, others which cover $15,000 per academic year. Academic specialties for scholarships include all majors. All training, drills, and classes are held at the BU campus. Service obligations are one year for each scholarship year (active duty), while pilots are obligated for eight years active duty after completion of flight school. To obtain further information, contact the Department of Aerospace
Army Reserve Officers’ Training Corps

The U.S. Army offers Reserve Officers’ Training Corps (ROTC) at Boston College as an extension school in cooperation with Northeastern University. Combined, Boston College and Northeastern University make up the Liberty Battalion. Boston College students attend classes and training on the Chestnut Hill campus. Upon graduation and successful completion of all pre-commissioning requirements, Cadets receive a commission as a Second Lieutenant in the U.S. Army and serve on active duty, U.S. Army Reserves, or National Guard in a variety of fields. Qualified graduates may also be selected to attend professional schools, such as medical or law school.

Scholarships may be available for qualified high school students admitted to Boston College and college students currently attending BC. In addition, scholarships may be available to Boston College Nurses through the ROTC program. All scholarships include full tuition and mandatory fees, a monthly stipend, and money for books. Boston College also awards additional incentives for Army ROTC scholarship Cadets. For more information including an application, contact the Liberty Battalion Enrollment and Scholarship Officer at 617-373-2376 or visit the BC Army ROTC website and rotc.northeastern.edu.

Marine Corps Platoon Leaders’ Class (PLC)

Available in connection with the Marine Officers Selection Office, Boston, the PLC Program is open to qualified freshmen, sophomores, and juniors. No formal classes or training takes place during the academic year. Students/candidates attend Officer Candidate School (Quantico, VA) training either in two 6-week sessions (male freshmen/sophomores) or one 10-week session (male and female juniors/seniors). Pay and expenses are received during training. No commitment to the USMC is incurred after OCS until a degree is awarded and a Second Lieutenant’s commission issued. Service obligations are then three and a half years active duty or longer for aviation positions. Students/candidates may drop from the program at any time prior to commissioning. For more information, contact the Marine Officer Selection Office, Boston, at 888-753-8762.

Navy Reserve Officers’ Training Corps

Qualified BC students may cross enroll in Navy Reserve Officers’ Training Corps (and the Marine Corps Option) at Boston University. There are 3- and 4-year programs with possible scholarships (full tuition, some books/fees expenses, monthly stipend, but no room and board). All classes and drills are held at Boston University. Scholarship students incur active duty service obligation. For further information, please contact the Department of Naval Sciences, Boston University, 617-358-0471, burotc@bu.edu.

ROTC courses display on the academic record but do not count towards the required number of credits for graduation or in the G.P.A.

Undergraduate Faculty Research Fellows Program

Boston College established the Undergraduate Faculty Research Fellows Program (URF) for the purpose of enhancing the academic experience of undergraduates by cultivating their research skills and fostering mentor relationships between undergraduates and faculty. The program provides a grant to faculty to pay for a student’s research assistance with a faculty member’s research project. It is considered student employment and the student may work up to 20 hours a week during the academic semester, up to 40 hours a week during semester breaks or the summer, depending on faculty need, the funding available, and student availability. Students do not apply directly.

The application for an Undergraduate Research Fellowship must come from the faculty member whose research project the student will assist. Students can inquire directly with faculty to express their interest in being involved in the faculty member’s research. Students cannot receive academic credit for work done under an URF.
Leadership and University Information

Trustees & Leadership

The University is led by William P. Leahy, S.J., 25th President of Boston College.

Provost and Dean of Faculties David Quigley oversees the University’s academic life and leads its distinguished faculty.

Boston College’s eight schools and colleges are led by academic deans, who report to the provost and direct the academic initiatives related to their schools. University vice presidents oversee Boston College’s administrative areas.

About BC

Education with a heart and soul—and the power to transform

Boston College, the first institution of higher education to operate in the city of Boston, is today among the nation’s foremost universities, a leader in the liberal arts, scientific inquiry, and student formation.

Grounded in the ideals that inspired our Jesuit founders, Boston College urges students to look inward but always to reach out—to develop their minds and talents to the fullest and use them in service to others.

We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

BC Basics

Origin

Founded in Boston’s South End in 1863.
Colors

Maroon and gold

Motto

"Ever to Excel" from Book Six of *The Iliad*

Mascot

The Eagle
True to our Jesuit, Catholic heritage, Boston College has been committed to international collaboration since our founding in 1863. The Global Engagement Committee will explore new opportunities, challenges, and resources needed for enhancing our international presence.

BC Global Website
Global Engagement Committee

Boston College Traditions

• **Convocation**
  **“Set the World Aflame”**
  Freshman Eagles begin their BC journey with the traditional “first flight”—a lantern-led procession down the Higgins stairs to the Conte Forum for an inspiring guest speaker.

• **Beanpot**
  **Best of Boston**
  Since 1952, teams from BC, BU, Harvard, and Northeastern have competed for hockey dominance in this legendary two-week tournament.

• **Red Bandana**
  **Remembering Welles Crowther**
  Every year, the BC community honors the memory of alumnus and 9/11 hero Welles Remy Crowther ‘99 with a 5k “Red Bandana Race” and a dedicated football and lacrosse game.

• **Arts Festival**
  **Creativity on Campus**
  Music, theater, dance, poetry—this vibrant community event draws more than 1,000 talented student and faculty performers.

• **ALC Showdown**
  **Let’s Dance!**
  BC’s largest annual student dance competition promotes diversity and cultural awareness through dance.
Marathon Monday

A Boston Tradition
Every Patriot’s Day, the BC community cheers on runners in the Boston Marathon, including the BC Campus School team, as they make their way up Commonwealth Avenue.

Superfans

Gold Rush
Superfans wear gold and get loud as they cheer the Eagles to victory.

Student Involvement Fair

Find Your Spot
This annual fair gives incoming students a chance to explore the more than 300 diverse organizations, programs, and offices on campus.

Mass of the Holy Spirit

Blessings for a New Year
A Jesuit tradition dating back to the Middle Ages, the Mass of the Holy Spirit brings the BC community together to mark the opening of the school year.

Christmas Tree Lighting

Celebrating the Holidays
BC kicks off the Christmas season with a lighting ceremony featuring festive performances, games, and a chance to take a selfie with Santa.

ALS Awareness Game

Fenway Park Takeover
For one night a year, the BC baseball team plays a home game at Fenway Park to raise money in the fight against ALS.

Commencement

Congrats, Grads!
Graduating students and their families celebrate their academic accomplishments and hear from inspiring speakers at the University Commencement ceremony.
President's Message

Boston College: Answering Society's Call

On behalf of the entire Boston College family, I am pleased to introduce you to Boston College, and to offer my vision for the University.

The history of Boston College is a narrative of response to society's call. In 1863, that call came from an immigrant community that sought a Jesuit education to foster social mobility. Boston College offered that promise.

Today, the call emanates from a world that has experienced an explosion of knowledge, but not a corresponding growth in understanding; a world that too often lacks trust in its leaders and faith in its institutions. It is a world that has developed wondrous technologies that link continents, but isolate human beings, leaving many men and women weary and dispirited, feeling distant from moral purpose, uncertain about knowledge or the very worth of human endeavor.

Boston College is uniquely capable of answering this call, of speaking to this world. As an institution of higher education, Boston College is committed to the discovery and transmission of knowledge. But reflecting its Jesuit and Catholic heritage, it also seeks to integrate excellence and religious commitment, to both inform and form its students.

Boston College endeavors to educate a new generation of leaders—men and women who will be capable of shaping the future with vision, justice, and charity—with a sense of calling, with concern for all of the human family.

We pursue this challenge because it is a worthy goal for any university, but particularly for Boston College, a university uniquely suited to be a beacon of hope and light for all. I invite you to join us, as a prospective student, parent, or friend.

William P. Leahy, S.J.
President
Mission & History

Where We Began

Boston College was founded in 1863 by the Society of Jesus (the Jesuits) to educate Boston’s predominantly Irish, Catholic immigrant community. It opened its doors on September 5, 1864, in a building on Harrison Avenue in Boston’s South End, a “small streetcar college” for commuting students.

When it outgrew the limitations of the space, then-president Rev. Thomas I. Gasson, S.J., bought 31 acres of the former Lawrence Farm in Chestnut Hill, Massachusetts, and broke ground in 1909 on a new campus, today fondly known as “the Heights.”

BC began as an undergraduate liberal arts college, but as its aspirations grew, it added graduate programs and professional schools fulfilling its charter as a university.

Through the decades, Boston College has become an internationally respected research university and a center of academic excellence.

Where We Are Going

Boston College builds upon its traditions. It seeks to be the national leader in the liberal arts; to fulfill its Jesuit, Catholic mission of faith and service; to continue to develop model programs to support students in their formation; and to seek solutions—as researchers, educators, leaders, and caregivers—that directly address the world’s most urgent problems.
Guiding Our Path

Boston College remains committed to leading its students on a comprehensive journey of discovery—one that integrates their intellectual, personal, ethical, and religious formation.

Inspiration for Boston College’s academic and societal mission is drawn from the University’s distinctive religious and intellectual heritage. As a Jesuit, Catholic University, Boston College is rooted in a world view that calls us to learn, to search for truth, and to live in service to others. To fulfill that mission, we welcome and embrace the contributions of a diverse student body from many faith traditions.

Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For current Boston College students:
If your Advanced Placement scores are not reflected on your record on the Agora Portal, please order a new score report from the College Board and have it sent to Boston College. Our code is 3083. Please keep in mind that scores take approximately two weeks to arrive from the College Board. If you have questions about your scores and/or placement, please contact the Office of Undergraduate Admission at uadmit@bc.edu. Thank you.

Advanced Placement

Boston College participates in the Advanced Placement program of the College Entrance Examination Board. Applicants interested in advanced placement should make arrangements to take the Advanced Placement Examinations given by the College Board in May of each year.

The following table displays Boston College’s Advanced Placement policy. Boston College reserves the right to change this policy, as is determined by campus administrators. In general, a student scoring four or five on the exams will be awarded advanced placement. In some instances, a score of three will make a student eligible for advanced placement. In most cases, students do not earn actual credit, rather, they fulfill corresponding requirements in the University Core Curriculum. You will still be required to take the full 120 credits necessary for graduation unless you have the equivalency of 30 AP credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years.

</table>
*Students in the Connell School of Nursing fulfill their Natural Science and Mathematics Core Curriculum requirements through coursework taken during their freshman year. Therefore, qualifying exam scores cannot be used to fulfill those requirements for nursing students.

**Beginning with students entering the Spring 2022 term and later, a qualifying score in both Macroeconomics and Microeconomics earns placement for ECON1101 Principles of Economics, which fulfills 1 Social Science Core. Students with qualifying scores in both Macroeconomics and Microeconomics would still need to satisfy the second Social Science Core requirement.

### International Baccalaureate

Each score of 6 or 7 on Higher Level exams will earn advanced placement units and will generally satisfy a core requirement. You will still be required to take the full 120 credits necessary for graduation, unless you have the equivalency of 30 credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years. Please reference the table below for specific exams.

</table>

*Requirements Fulfilled* indicates the course requirements have been fulfilled.
English A Literature 6/7 3 1 Literature Core

English A Language and Literature 6/7 3 1 Writing Core

English B Language *** 6/7 3 1 Writing Core

Foreign Language 6/7 6 MCAS Language Proficiency

Modern Classical Language 6/7 6 MCAS Language Proficiency

* IB elective units cannot be used to fulfill the four arts and sciences electives required for CSOM, but can count toward the 30 units required to be eligible to apply for advanced standing. Electives do not count toward the degree in any other scenario because IB units are generally used for placement only, not credit.

** Students interested in the Computer Science major must consult with the Computer Science Department to determine if these electives can in any way apply to the major.

*** Beginning with students entering the Fall 2023 term and later, a qualifying score in English B Language will no longer earn advanced placement.

Sports, Exercise and Health Science IB is not recognized by Boston College.

**SAT Subject Tests**

All students in the Morrissey College of Arts and Sciences must demonstrate intermediate-level proficiency in a foreign language in order to graduate from Boston College. The SAT Subject Test scores below demonstrate intermediate-level proficiency at Boston College.

</table>

* There are other A-Level courses offered that do not apply to a degree at Boston College. If the course is not listed here, no advanced placement units can be earned.

**French Baccalaureate**

Scores of 14 or higher* will be considered for a maximum of six placement units for each 12th grade Spécialité subject.

A minimum score of 12* for each 12th grade Spécialité subject will be considered for a maximum of three placement units.

Students completing the French Baccalaureate with International Option (OIB) may earn advanced placement units in English and history for corresponding exam scores.

Scores below 10 do not qualify.

Units may be used to fulfill corresponding University Core or major requirements.
*Advanced Placement is based on the French Baccalaureate exam results and is considered in the context of departmental review. Boston College reserves the right to change this policy, as is determined by campus administrators.

**Italian Maturità**

For students who earn an exam score of 70 or higher on the final exam, advanced placement units will be awarded only for subjects in which the written exam was taken (no placement for oral exams) and the average score for the final exam over the last two years is 7 or higher. No advanced placement units can be earned for English.

**German Abitur**

Placement will be considered for the four subjects scored in the Abitur final exams. For two subjects listed as the "main subject," scores of 10 or higher will earn 6 advanced placement units in corresponding subject areas. For two additional "basic courses" with scores of 10 or higher, 3 advanced placement units will be earned in the corresponding subject areas. No advanced placement units can be earned for English.

**Swiss Maturité**

Advanced placement units can be earned for exam scores of 4 or better. No advanced placement units can be earned for English.

**Advanced Standing — Graduating in 3 Years**

Students who earn a total of 30 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in three years. Students interested in this option should be in touch with their Dean following completion of their first semester at BC. No decisions on Advanced Standing will be made prior to that time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Dean before the start of their third year of undergraduate study.

**College Courses Taken During High School**

Advanced placement units can be earned for college courses taken during high school according to the following guidelines:

Students enrolled in courses designated as “college courses” that are taken at the high school with a high school teacher may only earn advanced placement units if corresponding College Board AP exams are taken and qualifying scores are earned. A college transcript alone cannot be used to earn advanced placement units for these courses.

College coursework taken on a college campus with a college professor and with other college students either during the academic year or over the summer may be evaluated for advanced placement units. Only courses that are deemed equal in depth and breadth to coursework taught at Boston College and are being used to supplement high school coursework (and not to fulfill high school requirements) will be considered.

Each 3 or 4 credit course with a grade of B or better will earn 3 advanced placement units. Students will still be required to take the full 120 credits necessary for graduation, unless they have the equivalency of 30 credits, in which case they may qualify for Advanced Standing and would be eligible to graduate from Boston College in 3 years. College transcripts for these courses should be submitted to the Office of Transfer Admission by August 1. Students who enroll at a local college to satisfy high school graduation requirements are not eligible for advanced placement units unless they take the corresponding College Board AP exams and earn qualifying scores.
Notices & Disclosures

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services.

Higher Education Opportunity Act (HEOA)

Visit the link below to learn more about the Higher Education Opportunity Act (HEOA).
Higher Education Opportunity Act (HEOA) Notices and Disclosures

Family Educational Rights and Privacy Act (FERPA)

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the Boston College Bulletin and in the Boston College Student Guide.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student’s education record within 45 days of the day the University receives a request for access.

  Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

  Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student’s education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

  Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

  If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student’s education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff
position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committee, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Please note that as part of the Solomon Amendment, Boston College is required by law to provide branches of the military access to certain student directory information which normally would be denied to them under the Family Educational Rights and Privacy Act (FERPA).

FERPA Release Form

Student Loan Code of Conduct for Employees

All Boston College employees whose job responsibilities include matters related to student financial aid are expected to maintain exemplary standards of professional conduct and must adhere to this Code of Conduct in compliance with Federal regulations. The Executive Director of Student Services shall notify these employees annually of their obligations under this Code.

Boston College:

- Prohibits all revenue-sharing arrangements with lenders. The University will not promote or recommend any lender in exchange for a fee or other material benefit from that lender.
- Does not request or accept offers of funds for private loans, including opportunity pool loans.
- Certifies loans from any lender selected by a borrower without undue delay, and will not direct a first-time borrower’s loan to a particular lender.
- Ensures that the process through which the student signs a Master Promissory Note preserves the student’s right to select the lender of his or her choice.
- Does not arrange for alternate loan programs that disadvantage students or parents not enrolled in the program or receiving such loan terms.
- Prohibits the request or acceptance of staffing assistance from lenders.
- Prohibits employees or agents of a lender from identifying themselves, either directly or by implication, as an employee of Boston College to students, parents or any persons seeking information from Boston College.
- Bases the selection of lenders for a preferred lender list solely on the best interests of the students and parents.
- Fully discloses the selection process for a preferred lender.
- Provides borrowers with consumer information about the loan products offered by the lenders on a preferred lender list, including any agreements lenders have to sell their loans to other entities.
- Informs students and parents that they are not required to use any of the lenders on a preferred lender list and can select any lender of their choice.

Every Boston College employee involved in any aspect of the loan process (this includes, but is not limited to, the Financial Aid staff, both on the main campus and at the Law School, and the Enrollment Management staff) must avoid any situations that create a potential conflict of interest between the employee’s personal or outside interests and his or her role and responsibilities as an employee of Boston College, and must disclose to his or her supervisor any potential conflict as it arises.

Specifically, staff members must not:

- Solicit or accept gifts with more than a de minimis value from any business entity involved in any aspect of student financial aid, including, without limitation, cash payments, stocks, club memberships, favors, discounts, lodging, meals, entertainment, and
services. This prohibition extends to a staff member’s family (includes staff member’s and spouse's: parent or stepparent; sibling or step-sibling; child or stepchild; and grandchild or step-grandchild, as well as a child's spouse and a sibling's spouse).

- Undertake any activity, whether compensated or not, outside of Boston College that has the potential to create a conflict of interest with the staff member’s duties as a financial aid professional employed by Boston College, including accepting any fee, payment, or other financial benefit as compensation for any type of employment, consulting or other arrangement with a lender, guarantor, or servicer.
- Receive any compensation for serving on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors. A staff member wishing to serve on an advisory board must seek prior approval from his or her supervisor, and may be reimbursed only for reasonable expenses while serving on an approved advisory board.

Staff members should understand and adhere to all institutional policies and any local, state and federal requirements that are applicable to their conduct or job performance. Any staff member who has a question whether a particular situation or activity creates a conflict of interest or violates any law or policy should immediately notify their supervisor prior to commencing such activity, or at the earliest time when such a question arises. Supervisors shall contact the Office of the General Counsel upon receipt of any inquiries.

Confidentiality of Student Records

Certain personally identifiable information from a student’s education record, designated by Boston College as directory information, may be released without the student’s prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

A student can prevent the release of all directory information including verification of enrollment, and may suppress selected directory information either to the Boston College community or to the general public. In order to do this, students must visit [www.bc.edu/myservices](http://www.bc.edu/myservices) to suppress the release of all or selected directory information. Suppression is available by selecting Privacy Preferences. Student directory information will not be blocked from faculty and staff conducting official University business. All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's [Student Educational Records](http://www.bc.edu/myself/student educaciónal records) policy.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's [Student Educational Records](http://www.bc.edu/myself/student educaciónal records) policy.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Notice of Nondiscrimination

Visit the link below to view the Notice of Nondiscrimination.
[Notice of Nondiscrimination](http://www.bc.edu/myself/student educaciónal records)
University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or email. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal Service and Campus Mail
For purposes of written communication, the student’s local and permanent addresses on record at Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at www.bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address to the Office of Global Education.

Email
The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College email addresses, as well as access to email services from computer stations at various locations on campus. All students are expected to access their email accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official email communications from the University must contain the student’s Boston College email address in the “From:” and “Reply To:” lines, and should originate from the student’s Boston College email address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their email messages from their Boston College email address to non-university email systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University email account on a regular basis, to confirm that their email service is functioning reliably.

Voter Registration Information

Boston College believes that every student has a responsibility to be an engaged community member. To that end, we have partnered with TurboVote to provide you with the information and materials you need to vote in every election from local to presidential.

TurboVote gives you the tools to help you register to vote online. You may learn more about this service at bc.turbovote.org.

For questions or concerns, please contact Boston College Student Affairs at bcsa@bc.edu.

2022–2023 Medical Insurance Information

- Enrollment (2022–2023)
- Waivers (2022–2023)
- ID Cards & Your UnitedHealthcare Account (2022–2023)
- Forms (2022–2023)
- Contact Information (2022–2023)

Enrollment (2022–2023)

All students listed below are automatically enrolled in and billed for the student health insurance plan:

- Students enrolled in a degree program, regardless of credit hours
- Students who are not citizens or permanent residents of the U.S.
- Non-degree students enrolled at least 75% of full-time. Students are responsible for monitoring their eligibility status. (For graduate students in the schools of Morrissey College of Arts and Sciences, Lynch School of Education and Human Development, Carroll School of Management, Connell Graduate School of Nursing, School of Social Work, School of Theology and Ministry, and Woods College of Advancing Studies, 75% of full-time is 7 credits or more. For undergraduates in the Woods College of Advancing Studies, 75% of full-time is 9 credits or more.)

Graduate students: Registration for classes triggers your insurance enrollment, and it takes 5–7 business days for your insurance to show as active in the carrier’s system. While the fall semester coverage begins on August 7 regardless of when you register, you should keep this timeframe in mind if you have health care providers who will need to verify your coverage with the insurance company. You should register for classes by mid-July if you need your insurance to show as active in the insurance system on August 7.

Post-doctorate students are eligible to enroll on a voluntary basis.

Dependent Enrollment

Insured students have the option of enrolling their eligible dependents (a spouse, domestic partner, or a child under the age of 26). The enrollment form is available under the Forms tab. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring, and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 23, 2022 for the fall semester and January 27, 2023 for students newly enrolling for the spring. Enrollment forms received after that date will not be accepted.

Note to students: You need to be enrolled in the insurance plan in order to enroll dependents. To make the dependent enrollment process as smooth as possible, you should register for classes as early as you are able.

**Insurance Plan Benefits**

**UnitedHealthcare Coverage**

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the [benefits information](#) (PDF) and the information available at UnitedHealthcare for complete details about coverage, limitations and exclusions.

**Referrals from University Health Services**

A referral is not required with the UnitedHealthcare Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit University Health Services' website for more information.

**Coverage off Campus**

If you paid the premium for the entire year, you will be covered from August 7, 2022 through August 6, 2023. UnitedHealthcare provides the same benefits for students while they are on campus or on semester breaks, summer vacation, or study or travel abroad.

While studying or traveling abroad, keep your identification card with you and take a copy of the brochure for reference. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you may need to have the itemized bill(s) translated into English and include additional information. UHC Global can be reached toll-free from within the United States at 800-527-0218 or collect from outside of the United States at 410-543-6330, or email at assistance@UHCGlobal.com.

**Leave of Absence**

If a student who is enrolled in the student insurance plan takes a medical leave of absence effective mid-semester, they will continue to be covered for the remainder of that semester. Coverage may also be extended for the following semester with approval from Boston College. Enrollment is not automatic. Please contact the Office of Student Services for information about enrollment and dates of eligibility.
Enrollment After Waiving the Student Health Insurance Plan

Students who initially waive participation in the student plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver on the [www.bc.edu/myservices](http://www.bc.edu/myservices) or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the student plan only on the basis of a qualifying event. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, which will be available under the Forms tab after the waiver deadline.

Graduating Students

Coverage for graduating students ends on January 12, 2023 (for fall graduates) or August 6, 2023 (for spring and summer graduates). There is not an option to extend the student plan. You can contact UnitedHealthcare about enrolling directly, or explore your options through your state Health Connector. The site for the MA State Health Connector is [https://www.mahealthconnector.org/](https://www.mahealthconnector.org/).

Waivers (2022–2023)

The medical insurance coverage periods are August 7, 2022 to January 12, 2023 for the fall and January 13, 2023 to August 6, 2023 for the spring. Waivers received by September 23, 2022 are for the entire academic year, and those received by January 27, 2023 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period. Waiver forms can be found on the Forms tab.

Domestic Students Waiver Requirements (U.S. Citizens and Permanent Residents)

Students who are enrolled in a health plan that is comparable to the student plan may waive the BC coverage through [www.bc.edu/myservices](http://www.bc.edu/myservices) if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must sign and submit a waiver form before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:

- The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2022–2023 academic year.
- The student has compared their policy to the BC student plan and certifies that their plan provides benefits that are at least comparable to the plan: [UnitedHealthcare Benefits Information](http://www.UnitedHealthcare.com).
- The student’s plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.
- The student's plan is not an out-of-state Medicaid plan, or one of the following MA Medicaid Plans: Children’s Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver. MassHealth plans other than those listed here are acceptable for a waiver.
- No claims have been submitted for payment under the UnitedHealthcare student plan for the 2022–2023 enrollment periods.
- The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred.
- Students traveling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2022–2023 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.

Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by September 23, 2022 for the entire academic year or by January 27, 2023 for the spring semester only.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the UnitedHealthcare student plan. Once the waiver is submitted,
the charge will be removed from the student account within forty-eight hours; students and authorized payers can verify the adjustment by logging in to www.bc.edu/myservices ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through www.bc.edu/myservices or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the student insurance plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Petition to Waive After Published Deadline form, available on the Forms tab.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

**International Students Waiver Requirements (Students who are Not U.S. Citizens or Permanent Residents)**

To ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC's Student Health Insurance Plan.** If you are insured through (1) your own or a parent/guardian/spouse’s health insurance plan offered through a U.S. employer or (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), you may be eligible for a waiver. MA Medicaid Plans: Children’s Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.

International insurance plans, socialized or standard medical policies (including Canadian policies), travel insurance plans, short-term medical plans, or plans not fully compliant with the Affordable Care Act are not acceptable and will not be considered. Your insurance must be effective on or before August 7, 2022 (for fall and annual waivers) or January 13, 2023 (for spring waivers) to qualify for a waiver. For example, a policy beginning on September 1, 2022 would not qualify for a fall or annual waiver.

The waiver form can be found on the Forms tab.

**ID Cards & Your UnitedHealthcare Account (2022–2023)**

Your online UnitedHealthcare account is the resource for your insurance ID card, claim statuses, and policy information. Follow the steps below to create your account once the policy is active on August 7. If you created an account last year, you can use your existing login and do not need to create an account.

1. Go to www.uhcsr.com/BC and click “Create Account” at the bottom of the page.
2. Enter your first and last name, date of birth, and your Eagle ID.
3. Create your username and password, and click Next to activate your My Account.
4. Log in using the username and password you just created.
5. Verify your identity using your BC email address. Remember that your email address can be either firstname.lastname@bc.edu or username@bc.edu, so try the other version if the first does not work. You'll be sent a code to enter to complete your verification.

**ID Cards**

Once you’ve created your online United Healthcare account, you can access your ID card once the policy is active on August 7 by logging in and selecting the ID Card tab.

If you are unable to access your ID card, check the date of the insurance charge on your bill. If you have recently registered, allow 5–7 business days for your ID card to be viewable. **Graduate students:** Your insurance enrollment is activated by your registration for classes, so if you do not have an insurance charge on your BC student account, you need to register for classes, and then allow 5–7 business days for your ID card to be viewable.
2022–2023 Forms
Spring 2023
Waiver Forms

**Students in exclusively online degree programs:** If you are enrolled online only and not visiting Massachusetts, complete [this form](#). You must be logged in to your BC Gmail or Google account to access the form.

Enrollment Forms

**Petition to Add:** [This form](#) is for mid-semester enrollment for students who have lost their prior coverage due to a qualifying event.

Discount Plans

**EyeMed Vision Care Discount Plan:** You are automatically enrolled in the EyeMed discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a vision insurance plan. Please visit the [Gallagher Student website](#) or contact Gallagher at 800-394-4026 for more information.

**Basix Dental Savings Program:** You are automatically enrolled in the Basix discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a dental insurance plan. Please see below for optional dental insurance enrollment. Visit [Gallagher Student website](#) or contact Gallagher at 800-394-4026 for more information about the Basix Plan.

Optional Dental and Vision Plans: Students can voluntarily enroll in Dental and Vision insurance plans through Gallagher Student Health & Special Risk. This coverage is NOT included with your student medical insurance plan; coverage is optional and purchased separately. You do not need to be enrolled in the BC medical insurance plan to enroll in this coverage. For more information, visit [https://www.gallagherstudent.com/products/voluntary-dental-insurance/](https://www.gallagherstudent.com/products/voluntary-dental-insurance/).
Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services.

Tuition does not include the cost of lab fees, textbooks, or other required materials for specific courses. In general, full-time graduate and undergraduate students should anticipate costs for textbooks and course supplies of $1,300–$2,200 for the academic year. Textbook costs for specific courses can be found on the website of the Boston College Bookstore.

Students taking zero credit courses are still subject to mandatory fees.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary.

The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Collection Cost and Fees

Matriculated students at Boston College are individually, personally, and primarily responsible to the University for paying all tuition and other fees associated with enrollment and room and board. This obligation also applies to any additional tuition and fees resulting from adjustments to course schedules. Students remain responsible in accordance with University policy for tuition and fees for classes for which they register, including any courses for which they have been withdrawn, been dropped, failed, or failed to attend. Students must formally withdraw from any/all classes that they do not attend in a particular semester. Students will not be relieved of their responsibility to pay tuition unless they withdraw from classes in accordance with the withdrawal timelines and procedures published by the Office of Student Services in the University Catalog.

All billing statements are sent electronically. Information on how to access student bills and related account information is available on the Office of Student Services website, including at [www.bc.edu/mybill](http://www.bc.edu/mybill). Students are responsible for reviewing their billing statements, making payments by the due date stated in the billing statement, and notifying the University’s Office of Student Services in a timely manner of any
errors or discrepancies. A student may authorize parents, guardians or others to view their statements and pay on their behalf, but each student shall remain individually, personally and primarily responsible for the payment of all amounts charged to their accounts. There may be a $150 late payment fee assessed to unresolved accounts by the due date. Students will also be charged a fee of $25.00 for a returned check or returned electronic payment ($65 for any returned item over $2,000).

In the event a student’s account becomes delinquent or fails to comply with a payment plan approved by Boston College, then Boston College may withdraw the student, place holds on the student’s transcript and diploma, and deny access to University services, including registration, dining, residence hall selection, library, travel abroad and recreation services.

In the event a student’s account becomes delinquent or if the student fails to comply with a payment plan approved by Boston College to bring the delinquent account current, Boston College may refer the student’s delinquent account to a collection agency, attorney or other third party that provides collection-related services. In addition to the student’s responsibility for paying any amounts due on the account prior to referral for collection-related services, the student shall be responsible for (a) paying any and all collection-related fees, which may be based on a percentage of a student’s delinquent account balance, provided that such percentage does not exceed 40%, and (b) paying any and all costs incurred in connection with the efforts to collect on the student’s delinquent account, including without limitation court costs and reasonable attorneys’ fees. The University, or its agents, may also report a student’s account delinquency to one or more of the national credit bureaus.

**Notice of Consent to Collection Communications**

By registering for a course at Boston College, a student authorizes Boston College and its agents and contractors to contact the student at any current or future phone number(s), email address(es) and wireless device(s) regarding the student’s account and/or any payments owed to Boston College. Students also authorize Boston College and its agents and contractors to use automated telephone dialing equipment, artificial or prerecorded voice or text messages, and personal calls and emails, in their efforts to contact me. Students also consent to Boston College, or its affiliates, agents, and service providers, to recording telephone calls regarding the student’s account in assurance of quality and/or other reasons.

Tuition Refund Schedule: Fall and Spring
Withdrawals and Refunds

Fees are not refundable.

Tuition is canceled subject to the following conditions:

- Notice of withdrawal must be made in writing to the dean of the student’s school.
- The date of receipt of written notice of withdrawal by the Dean's Office determines the amount of tuition canceled.

The cancellation schedule that follows will apply to students withdrawing voluntarily, as well as to students who are dismissed from the University for academic or disciplinary reasons. A student who drops, withdraws or fails to attend some or all of the classes for which the student registers will be responsible for paying all or a portion of tuition and fees in accordance with the refund schedules below. A student's failure to attend class does not absolve the student of his or her financial responsibility as described herein.

Full-time Undergraduate Day and Law School Refund Schedule
2022–2023 Academic Year

Undergraduate students withdrawing by the following dates will receive the tuition refund indicated below.

First Semester

- by Aug. 26, 2022: 100% of tuition charged is canceled
- by Sept. 9, 2022: 80% of tuition charged is canceled
- by Sept. 16, 2022: 60% of tuition charged is canceled
- by Sept. 23, 2022: 40% of tuition charged is canceled
- by Sept. 30, 2022: 20% of tuition charged is canceled

Second Semester

- by Jan. 13, 2023: 100% of tuition charged is canceled
- by Jan. 27, 2023: 80% of tuition charged is canceled
- by Feb. 3, 2023: 60% of tuition charged is canceled
- by Feb. 10, 2023: 40% of tuition charged is canceled
- by Feb. 17, 2023: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes.

Graduate and Woods College of Advancing Studies Refund Schedule
2022–2023 Academic Year

Graduate (excluding Law) and Woods College of Advancing Studies students withdrawing by the following dates will receive the tuition refund indicated below.
First Semester

- by Sept. 7, 2022: 100% of tuition charged is canceled
- by Sept. 9, 2022: 80% of tuition charged is canceled
- by Sept. 16, 2022: 60% of tuition charged is canceled
- by Sept. 23, 2022: 40% of tuition charged is canceled
- by Sept. 30, 2022: 20% of tuition charged is canceled

Second Semester

- by Jan. 25, 2023: 100% of tuition charged is canceled
- by Jan. 27 2023: 80% of tuition charged is canceled
- by Feb. 3, 2023: 60% of tuition charged is canceled
- by Feb. 10, 2023: 40% of tuition charged is canceled
- by Feb. 17, 2023: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes.

Tuition Insurance Plan

Boston College is pleased to offer students a way to help protect their substantial financial investment in a college education. The Tuition Insurance Plan is an optional private insurance plan offered through Dewar, Inc. that assures subscribers who withdraw for illness or accident a refund throughout the semester, even if Boston College’s own refund policy has expired. For costs, benefit levels, further information, or an application form, please visit Dewar’s website or contact Dewar at 617-774-1555 or trp@dewarinsurance.com.

Federal Regulations Governing Refunds

If a student does not wish to leave any resulting credit balance on his or her account for subsequent use, he or she should request a refund at www.bc.edu/myservices (“Request Student Account Refund”). If a student has a credit balance as a result of Federal Aid and he or she does not request a refund, the University will, within two weeks, send the credit balance to his/her local address.

Federal regulations establish procedural guidelines applicable to the treatment of refunds whenever the student has been the recipient of financial assistance through any program authorized under Title IV of the Higher Education Act of 1965. These guidelines pertain to the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal College Work-Study, and the Federal Stafford and PLUS Loan. In such cases, the regulations require that a portion of any refund be returned according to federal guidelines. Further, if a student withdraws, the institution must determine if any cash disbursement of Title IV funds, made directly to the student by the institution for non-instructional purposes, is an overpayment that must be repaid to the Title IV program. University policy developed to comply with the regulations at Boston College will be available upon request from the Office of Student Services.

Tuition Refund Schedule: Summer

Once a class officially begins, you have until the add/drop deadline for your specific summer term to drop the course using the Course Drop form found on the Academic Forms page and receive 100% refund. After the add/drop deadline, there is no cancellation of tuition for withdrawing from a course.

To view the add/drop deadline for your term, visit the Summer Registration page.
Transcript Requests

The National Student Clearinghouse (NSCH) is the authorized vendor for delivery of official Boston College transcripts. Transcripts can be ordered to be sent electronically or on paper via regular or express mail. Electronic and paper transcript requests will be processed in 1–3 business days. Historical transcripts (those prior to 2001) may take several additional days for processing. Requests for Federal Express shipping will only expedite the shipping after the processing period.

There is a $5 charge per electronic transcript and a $7 charge per paper transcript (all fees are paid directly to National Student Loan Clearinghouse). Additional fees are required for express mail service. Details including payment options are on the Clearinghouse transcript ordering website.

Current students should request official transcripts via the transcript request link in the Agora Portal. Alumni requesting official transcripts should log into the National Student Clearinghouse transcript ordering site to submit a request. Unofficial transcripts are only available as hard-copy documents. They may only be requested and picked up in person by the record-holder with a valid BC or government ID in the Office of Student Services. Unofficial transcripts cannot be sent by Boston College electronically to the record-holder or any third-party. Please contact the Office Student Services with any additional questions.

- Students must know their Eagle ID number when requesting transcripts via NSCH. If you do not know your Eagle ID number please contact the Office of Student Services at 617-552-3300 or 800-294-0294 for assistance prior to logging into the NSCH site to make your request.
- Students who were enrolled at BC prior to the use of Eagle IDs should contact the Office of Student Services at 617-552-3300 or 800-294-0294 to receive their unique identification number.
- International students should review additional information in the accordion below regarding the social security number (SSN) requirement.
- Transcript requests will not be honored for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

Additional Instructions for International Students

In addition to Eagle ID number, a student's social security number (SSN) is required as a secondary security measure when requesting transcripts via the NSCH. For international students without SSNs, the Office of Student Services recommends using 999-99-9999 in the SSN field. This is a completely valid option for international students without SSNs looking to proceed with the request of a transcript.

Apostilles or Authentication of Documents

Some foreign governments and agencies require that diplomas, transcripts, or enrollment verifications be certified with an apostille. An apostille is a document issued by the Massachusetts' Secretary of the Commonwealth that verifies the authenticity of the signature on the document; the capacity in which the person signing the document acted; and the identity of any stamp or seal affixed to the document. The apostille is a specific form of authentication for countries that participate in the Hague Convention of 1961. The Secretary of the Commonwealth's office is the only agency in Massachusetts that is authorized to issue an apostille or certification for a notarized document going to a foreign country. Massachusetts does not certify out-of-state documents. They must be certified by the state of origin. Additional information can be found at [http://www.sec.state.ma.us/pre/precom/comidx.htm](http://www.sec.state.ma.us/pre/precom/comidx.htm).

Complete the Apostille Request Form. Boston College will notarize the documents as selected and return them to the requestor for further processing for the Apostille.

Instructions for Pine Manor College Alumni

Pine Manor College alumni requesting an official transcript should log into the National Student Clearinghouse transcript ordering site to submit a request.
