**PORTICO THIS WEEK**

**A note from Dean Mulderrig**

It was great to see you all on Monday night for a wonderful event with the Hasselbecks and Scott Harrison. We will see you again in a little more than a week (9/11) at your normally scheduled time in Devlin 008 when we will hear from CSOM Dean Andy Boynton.

I hope you all had a wonderful first week of classes. You may find that some classes build gradually while others move very quickly at first. I wanted to remind you that it is never too early to start going to office hours, signing up for tutoring, or spending some extra time to make sure you start with the best understanding possible. Many of you are in classes like Business Statistics or Financial Accounting, where ideas build on top of each other, making a strong foundation even more crucial. Investing some extra time early on can really pay off in the end.
Do you have questions about your schedule this week? Stop by Fulton 315 to see your Portico professor or Dean Mulderrig. Fulton 315 is located right off the Academic Quad, in the center of Fulton Hall. The Portico faculty and Dean Mulderrig are on the right side of the suite.
