**RAP Tips**

We want to let you know about a tool that you can use to find out more about industry trends among current students and CSOM alumni for internship and post-graduation employment/outcomes! By filling out your Recruiting and Analytics Platform (RAP) profile with your summer 2019 internship/activity, you can access the Research Tools.

Juniors concerned about not securing an internship yet should not panic. The offer timeline tool allows students to filter on industry to see when most students got their internship offers. For example, for accounting a large number of students received their internship offers in October and November. Juniors also can find a lot of value in the Outcomes Index to find internship opportunities.
