**ModernGuild Business Accelerator**

The ModernGuild Business Accelerator is a unique opportunity for undergraduates to build a strong foundation in the wide worlds of consulting and finance. Accelerator graduates emerge with an expansive network of peers and mentors, a deep understanding of their industry of choice, and the technical skills required to conquer it. We partner with large consulting firms and banks (including Barclays, Credit Suisse, Deloitte, JPMorgan Chase, Macquarie, Moelis, Nomura and PWC) to sponsor business-curious students through 4-week, all-online training programs, which culminate in a guaranteed interview with your sponsoring company. To date, 86% of our program grads have accepted an offer within 3 months of completion, and many of them knew little about these industries when they got started – we value curiosity and motivation.

The Accelerator is currently offered across two industry tracks — consulting and finance — at no cost whatsoever (at any point, really) to the student. We’ve designed it this way as part of our social mission to expand access and empower students in their career searches, regardless of their backgrounds. Students may participate from anywhere provided they have internet access and are only expected to commit 5 hours/week to their experience, which means you are welcome to enroll on top of another internship, summer job, or classes. Underclassmen of any major are eligible.

To start your application, please visit modernguild.com. The final deadline for Summer 2018 Accelerators is **March 1st** at 11:59pm EST.
