Take Intro to Law (Business Law) in Spain this summer!

There is still room for this summer! Apply by February 5th! (Application below.)

This course introduces students to the legal system; the social, legal and regulatory environment of business; and the ethical decision-making process. Using a modified case method, students analyze court decisions and other materials that illustrate the role of law in society and the impact of law on the business community. Active student participation is expected in order to assist students in the development analysis skills, making critical judgments, and the ability to articulate complex ideas effectively.

Current events impacting the legal environment of business in the U.S., Spain, and the European Union, as well as elsewhere throughout the world, will be integrated within class discussions as they relate to the textual material. While taking this course fulfills one of the CSOM core requirements, it is also designed for all undergraduates, no matter what their concentration or school.

Program Dates: May 26 - June 22, 2019

**Banks are recruiting for post junior year summer this semester.**

Sophomores who may be interested, possibly interested, or even remotely interested in doing your post junior year internship at a bank (that includes all positions not just investment banking). Please read this:

Many of the banks are going to be doing all of their engagement events and most likely interviews this spring for summer of 2020 internships. Yes it’s nuts - but it’s true. So here is how we are going to help you prepare.

The week of February 4th is **Bank Week**. These sessions are being hosted to teach you what these internships/careers entail. It is for the clueless. Monday the 4th and Thursday the 7th are geared solely at educating students. You do not need to know anything, just go to any or all of the sessions to learn. Monday/Thursday night are breakout sessions, running concurrent and repeating so you can go to any that you want to learn about. **These are not networking sessions. These are strictly to help you better understand the different areas of banks and what the different functions entail. You do not need to dress up, you do not need a resume, you do not need to be a finance major.**  

Questions will be asked anonymously via a live poll.  
Friday morning, February 8 from 9-11, in the Heights Room is the networking event. Also Friday morning from 11:30-1:00 is a diversity pitch for underrepresented students (including women). Each of the banks will talk about their different programs and allow time for you to chat individually with them afterwards. This event both the networking event and diversity pitch is for sophomores only (first year students can also attend).
Although many dates have not been confirmed some of the banks will be conducting interviews either in the spring or summer for summer of 2020 internships. **They will not be returning in the fall if they do that, so you have to show up now.** Below is the schedule, locations yet tbd. Stay tuned for more.

Internship Opportunity: TM_HOLDINGS
TM Holdings is a private investment firm that seeks control-oriented investment opportunities alongside great management teams. Our goal is to invest in profitable companies with competitive dynamics that drive long-term value. We are currently looking for 2-3 interns to help us conduct research on potential investment opportunities. Our goal is to acquire businesses in the services industry that can be consolidated to build scale, cut costs and eventually exit to a strategic player. This is a tremendous learning opportunity to learn directly from the founder on how to invest in the private markets. The founder of the firm has experience in Investment Banking (M&A), Hostile Defense, Private Equity (with specific experience in roll-ups), and Hedge Funds. An intern will learn how to start investing in the private markets from start to finish. Depending on the duration of the internship (flexible), one can expect to learn the following:
  ● Localized Market Research
  ● Identifying investment candidates and proper protocol to approach founders
  ● Conducting business diligence to understand true earnings power
  ● Importance of legal and accounting diligence
  ● Financial modeling (Merger Models, LBOs, and detailed operating models)
  ● Fund Raising
  ● Proper usage of leverage / debt
  ● Contract negotiations
  ● Identifying operational improvements
  ● How to conduct roll- ups

The internship can be done remotely and preferably for school credit as this is an unpaid internship. Time commitment is likely around 10-12 hours a week.
