BC Institutional Research GA Position

GA Position Description
Boston College Office of Institutional Research & Planning (IR&P) is seeking graduate students interested in an assistantship in Institutional Research for AY2021-2022. GAs will help support a range of activities designed to support a culture of evidence at Boston College for both administrative and academic units. These activities range from the production of several key statistical reports, qualitative and quantitative research projects designed to support strategic planning and institutional effectiveness on campus.

Qualifications
Must have experience and skills with gathering, analyzing, and interpreting qualitative and quantitative data. Advanced skills in SPSS for data analysis, and software applications such as Excel and PowerPoint is required. Some knowledge or experience using various tools such as Qualtrics, Tableau, and R is a plus.

Hours per week
Flexible, ideally between 10 to 20 hours per week

Position dates:
August 30, 2021 through May 31, 2022

Compensation
The GA compensation package includes a stipend, potentially a total of up to 12 credits of tuition remission for the 2021-2022 academic year, and the graduate student health insurance.

Stipend amount will vary depending upon the number of hours per week and student status (Ph.D. or Master’s). The total stipend for a Ph.D. student is $12,000 for 10 hours per week and for Master’s is $6,500 for the academic year for 9 months (paid in monthly payments).
