Graduate Assistant Position with City Connects

City Connects is an innovative research-based intervention that serves as a hub for student support activities in elementary schools. Grounded in developmental science, this school-based model identifies the strengths and needs of every student and links each child to a tailored set of supports and enrichments in the school and community. More information is available at www.cityconnects.org.

City Connects is seeking Master’s or Doctoral students for 20 hour per week Graduate Assistant positions to begin in fall 2018.

All positions involve research and collaboration with the City Connects team. In addition, positions are available for specialization in:

- **Administration and communications**, including document preparation, social media, and event planning
- **Data collection and management**, including administering assessments to children in schools
- **Policy**, including learning ways to translate research into policy
- **Technology**, including work on the Canvas online learning management system

Applicants must be highly organized, responsible, and flexible to meet the needs of the project.

To apply, please send via BC e-mail a cover letter that includes area(s) of interest from the list above, resume, and contact information (email and phone number) to:
