

# Emmaus Leadership Academies: Professional Education for Catholic School Leaders

The Roche Center for Catholic Education at Boston College offers the following Emmaus Leadership Academies for Catholic leaders pioneering change in their schools and communities:

**Mission & Catholic Identity: Transforming School Culture:** Vibrant school cultures with a laser-like focus on mission and vision have the power to transform the trajectories of children, families, and communities, but they must be envisioned, designed with intentionality, and cultivated. Learning experiences in this topic center on identifying and assessing school culture, determining leverage points to shift culture in service of the Catholic school's mission and vision, managing resistance, building coherence, and fostering relationships in the midst of change. (NSBECS 5.2, 5.6, 6.2, 6.7)

**Operational Vitality: Enrollment Management & School Finance:** This academy supports leaders in understanding the art and science of enrollment management efforts, while also deepening their understanding of school finance. Learning experiences center on strengthening your brand, clarifying marketing pillars, enhancing recruitment strategies, improving financial literacy, and how to leverage capacity of team and board members for financial viability.

(NSBECS 10.1, - 10.8, 13.1-13.3)
