Frequently Asked Questions
FAQs

Q: What courses should I take freshman year to prepare for the major?
   • It can help to take IS-related courses in your first year. Consider Principles of Economics, a comparative politics course, or a Core Renewal course related to international issues.

Q: How can I prepare to write the application?
   • Learn about the IS Program’s concentrations/tracks
   • Consider your interests in:
     • a specific region of the world
     • a professional sector (healthcare, diplomacy, public policy, business, journalism, education, etc.)
     • a topic (security, poverty, peacebuilding, global health, political economy, social movements, etc.)
   • Decide which BC faculty member knows you and your work best
FAQs

Q: How many new majors will be admitted in 2020?
   • We expect to admit about 105 new majors each year.

Q: How many applications does the IS Program receive?
   • This varies, but in recent years we have received 120-150 applications

Q: What criteria are used to admit new majors?
   • We are seeking a diverse cohort of majors who can flourish amidst the rigorous expectations of the program. The admissions committee considers evidence of academic ability and personal interest in the applicants’ essay and short answers as well as their BC transcript. On occasion we will reach out to the faculty member listed as a reference.
FAQs

Q: Does my native language count toward the foreign language requirement?
   • Yes (once your proficiency has been assessed by a faculty member), but we also encourage you to learn a language that is new to you.

Q: Can I use AP credits to fulfill the major?
   • No. You can use AP credits to place out of Principles of Economics (with a 4/5 on both AP micro and AP macro), Fundamentals of Politics II, or Comparative Politics requirements within the IS major—but you must replace them with higher-level electives to meet the IS course requirement.

Q: Can I double-count classes for the IS major and another major or minor?
   • Yes. In most circumstances you can double-count one class for both an IS major/minor and another major/minor. But the rules are complicated, so see your advisor.
