

Managing for Social Impact Program

Electives List – Minor

Note: The list below includes all electives that are approved for the Managing for Social Impact Minor Program. All students should note that electives on the list below may be offered in the Fall and/or Spring semester and it is the responsibility of each student to confirm that the elective they want to take is available for registration when they prepare their schedule, each semester. Students should also work with their assigned academic advisor to confirm that the electives they choose meet all degree requirements. This list may be updated periodically as we may learn of new course offerings. Accordingly, students are encouraged to check the list often as they prepare their schedules. Where electives are restricted courses, students must contact the professor teaching the course (or follow instructions noted in EagleApps) to seek permission to take the course. For questions about electives – contact ethan.sullivan@bc.edu / kenneth.himes@bc.edu

Course Section	Course name	Focus Area
MCAS/LSOE Courses
