

# INFANT AND CHILD COGNITION LAB

## OUR RESEARCH QUESTIONS

- How do children and adults feel about math and space?
- How do children's developing sense of number relate to their prosocial abilities?
- What information do infants pay attention to?

## WHAT DO OUR RESEARCH ASSISTANTS DO?

- Communicate with families to recruit participants
- Run studies with infants, children, and adults
- Assist with data entry
- Watch video recordings of studies and code for specific behaviors
- Help create stimuli for new studies
- Read scientific papers and participate in lab meetings

**For more information about our lab, visit our website [www.cordeslab.org](http://www.cordeslab.org)**

**\*\*We are not currently hiring new Research Assistants, but likely will in the Spring semester.**
