BC Software/Copyright Disclosure	
Please include with this submission (software)	

Please include with this submission (software):

- A copy of the software on USB (including source code)
- A copy of any accompanying material, such as a user guide
- Any published articles, poster presentations or other materials you have available that describe the functionality of the software

OTTL will not review this Software Disclosure for potential patentability. If you believe that the software may contain commercially valuable, patentable subject matter (such as an algorithm), please complete and submit a separate invention disclosure, available online at the OTTL website.

PLEASE APPLY THE FOLLOWING COPYRIGHT NOTICE TO ALL EXISTING COPIES OF THE **SOFTWARE OR INVENTIVE WORK:**

© [YEAR(s) OF DEVELOPMENT/PUBLICATION] the Trustees of Boston College. All rights reserved.

The above copyright notice should be placed at the bottom and top of source code, and regularly throughout; on the title screen or title page; labels on diskettes, CDs, or hard copy materials; documentation, user's manuals, or printed materials.

1.	Title of Software/Inventive Work:
2	Please attach a detailed description of the software or inventive work. This may be in the form of a draf

Please attach a detailed description of the software or inventive work. This may be in the form of a draft manuscript, in addition to any drawings, photos, or other figures that help describe the invention.

3. Please list all those who contributed to the creation of the inventive work. (Additional can be listed on an attachment.). An author of a copyrightable work is anyone who has written any of the text or code, even if only a very small contribution, or provided any text, graphics, photos, video, sound effects, voice recording or other intangible or tangible item ("Material") that has been incorporated into the software.

Name	Institution	Position	Department	Phone/E-Mail	Contribution Percentage (total 100%)

4. Indicate all sources of funding for the invention, including funding received from government agencies, nonprofit organizations or commercial entities:

Sponsor(s)	Contract/Grant No(s).	Period of Funding	Principal Investigator

Office Use Only	→ SPONSORSHIP VERIFIE	ED BY on .	

5. Use of Resources Provided by External Sources. AUTHORS MUST DISCLOSE ALL OF THE THIRD PARTY CODE AND MATERIALS THAT HAVE BEEN EMBEDDED IN THE SOFTWARE. These codes and Materials are restricted by licensing terms that must be reviewed and complied with:

In generating the invention, did you use any	х	Check as May Apply	
confidential information, materials, equipment, software, facilities, or other items obtained from entities other than Boston College or individuals		Yes	
other than your co-inventors?		No	
(Software) Does the software include any code: protected by patent, open source license,	x	Check as May Apply	
downloaded from the web, brought to BC from a company or another university, developed by a collaborator at another institution, obtained under		Yes	
a license, or for which authorship or ownership cannot be determined?		No	
If so, please give the name(s) of these sources and describe the nature of the item(s):			
Is there an agreement in place covering the provision of the item(s) to you? If so, please describe, include a link, or attach.			

6. External Disclosure Information:

	X	Check	Please Provide Dates, Circumstances, Location, etc.
Has the invention been described, in whole or in part,		Yes	
in a printed or online publication?		No	
Has a manuscript describing the invention, in whole or in part,		Yes	
been submitted for publication? If so, when?		No	
If a manuscript has been submitted, has it been accepted for publication? If so, provide		Yes	
the name of journal and anticipated date of publication in print or online.		No	
Has the invention been described in any application for external funding? If so, provide the name of the external		Yes	

application.	No	
Has the invention been disclosed in a public setting such as a poster session,	Yes	
conference, or seminar? If so, when? If not, are any such disclosures scheduled to occur?	No	
e invention an improvement to	o, or a new use its advantage	work, and how does it differ from existing works? I e of, an existing product or process, and if so, what s? Why did you develop this work rather than use
