Marriott International

Global Focus on Wellbeing and Happiness
Commitment Starts at the Top

This year, we’re renewing our focus on YOU. Happiness is all about feeling healthy and excited about our future. It is also about feeling valued and being part of a team with a true sense of purpose. When we feel good about ourselves, are engaged with our co-workers and have pride in our company, we’re inspired to also create great experiences for our customers and to serve our communities.
