

ROADMAP TO ASSESSING A POST-DEPORTATION CASE

Each column represents a separate issue or potential avenue for relief that should be explored – the numbers do not represent the order in which they should be considered, and they are not mutually exclusive!

This chart does not constitute legal advice. This is only a tool to assist qualified attorneys in issue-spotting and assessing a post-deportation case.

Additional issues and/or avenues for relief may exist in an individual case. Please also note that many hyperlinks link to outside resources not created by PDHRP.
