

The Academic Advising Center at Boston College supports students in the College of Arts and Sciences as they make decisions about their academic careers, explore the resources available to them, and maximize their experience at Boston College.

The Student Fellows in the Academic Advising Center are a supplement to the Advising Center to serve as an additional resource for both MCAS students and Staff Advisors.

Students can schedule appointments with a fellow to get peer insight or for logistical support regarding the academic experience at Boston College.
