Research Associate - Center Retirement Research

Req3286

Job Description

The Center is looking for someone who is well organized and detail oriented, has strong research and analytical skills, as well as strong writing and communication skills. Experience working with micro data and some knowledge of econometrics and statistical packages, such as Stata and Matlab is also desirable. Candidates with a bachelor’s degree as well as graduating seniors are strongly encouraged to apply.

Competitive salary commensurate with relevant experience.

Requirements

Bachelor’s or master’s degree, preferably in a social science
Proficiency in a statistical analysis package or programming language
Coursework in statistics
Demonstrated interest in research (e.g. through an internship or independent research project)

Closing Statement

Boston College conducts background checks as part of the hiring process.
