NURSING CLINICAL EXPERIENCE

- New England Medical Center - Nursing Synthesis** Spring 2007 Boston, MA
Deliver care to patients in the fast-paced environment of the Emergency Department. Gained experience working with both adult and pediatric patients with various diagnoses and levels of acuity. Improved my time management, delegation, assessment, and technical nursing skills.
- Lawrence Public School- Community Health Clinical** Spring 2007 Brookline, MA
- Boston Children's Hospital -Child Health Clinical** Fall 2006 Boston, MA
Cared for infants and toddlers in a surgical setting. Adapted and applied pediatric nursing skills to the care of the postoperative pediatric patient. Worked with patients with congenital birth defects, transplants, and various other diagnoses. Demonstrated competency in assessing patients, safely administering medications, and working collaboratively with patients and families to provide quality, supportive care.
- Carney Hospital -Psychiatric Mental Health Clinical** Fall 2006 Dorchester, MA
Experienced the opportunity to work with patients in adult, older-adult, adolescent, and outpatient settings. Communicated with patients to assess their psychiatric status, evaluating potential risks, and creating a care plan for the future. Exhibited my ability to utilize therapeutic communication to care for psychiatric patients.

Massachusetts General Hospital -Childbearing Clinical Spring 2006 Boston, MA

Practiced skills such as labor and delivery assessments, fetal monitoring, labor coaching, pain management, maternal and infant care during the postpartum period, and patient and family education. Demonstrated competency in maternal and newborn vital signs and assessments, interpreting fetal heart rates and contraction characteristics, and educating patients on breastfeeding and other infant care techniques.

New England Medical Center - Adult Health II Clinical Spring 2006 Boston, MA

Fine tuned my skills in patient assessments, wound care, foley and drain care, medication administration, documentation, and assisting patients with ADL's and mobility. Enhanced my comfort level with administering various medications and providing specific nursing care for patients post kidney and liver transplant and post-gastric bypass.

Beth Israel Deaconess Medical Center-Adult Health I Clinical Fall 2005 Boston, MA

Learned to care for patients on a vascular unit primarily suffering from complications of diabetes. Gained confidence in my basic nursing skills. Monitored glucose levels, administered insulin, and cared for patients status post amputation of the lower extremitie(s).
