Web Developer Assistant

Center for Teaching Excellence, Boston College

The Center for Teaching Excellence (CTE) invites applications for the role of Web Developer Assistant (WDA). In close consultation with the CTE’s Instructional Web Developer, the WDA contributes to innovative teaching and learning web-based projects.

The position includes the following responsibilities:

- Assisting web developer in the planning, coding, testing and maintenance of faculty projects and departmentally maintained web applications;
- Contributing to troubleshooting and documentation of web application documentation in support of the CTE;
- Investigating new web-related technologies as they apply to their work with web development;
- Participating in occasional group meetings.

The applicant should be familiar with web technologies and application development in general and proficiency in particular preferred in:

- Php
- mysql
- MVC application frameworks, particularly SLIM and Laravel
- javascript/jquery
- GIT repositories
- linux shell

Also desirable:
Familiarity with web APIs, oAuth, LTIs, REST, SOAP, curl, apache server, node.js

We are seeking someone with a positive attitude, who is self-motivated and has a passion for coding and problem solving.

The position starts as soon as possible. Starting pay is $18 an hour and up to 20 hours a week.

To apply, please send your cover letter and resume to Jamie Walker at james.walker@bc.edu.
