

# ROOM SELECTION

## GUIDE

### STEP ONE

**1** Fill out the **Housing Intent & Residency Agreement** on agora portal under "My Reslife." Only available **January 28- February 8**

### STEP TWO

**Group Registration**  
See specific dates below

From 8 am to 12 pm, the Group Leader registers their group for the specific room type selection day (i.e 8-person). The Group Leader enters all group members' Eagle IDs in the housing application. If the group is blocking, the Group Leader registers all students involved in the blocked groups (see below for further information). Groups are not required to register for a room type on every consecutive day, and they are able to wait to register for a room type later in the week.

### OR

**Final Selection**  
March 22-25

If a student does not want to select a space with a group, they can go through final selection. On the designated days for final selection, students register individually into this process via the housing application on "My ResLife." The student will fill out their housing preferences within the application and will be contacted over summer with their room assignment. Students participating in Final Selection do not need to complete further steps.

### STEP THREE

**Room Draw**

Following the close of group registration, pick times will be randomly assigned based Group Categories. The leader of the group will receive an email regarding their drawing results. The group leader will either:

- a. Be given a "pick time" to choose your specific room.
- b. Be notified that you did not receive a pick time.

**4**

### STEP FOUR

#### Received a Pick Time

#### Did Not Receive a Pick Time

If a group is selected to pick a room, the leader will receive an email with the scheduled time at which the group leader will select next year's room assignment online. The selection will take place later that same day.

If you do not get a pick time, your group may reconfigure for a different size or block with another group to register for a different type of housing on another day. The group leader will re-register you for another room selection day starting at Step 2.

### BLOCKING

Blocking between groups means that there is only one group leader registering multiple room spaces. The group leader will block with groups in the same room selection category (cannot block an 8-person with a 4-person) and same eligibility category (a group whose eligibility falls into category 1 cannot block with a group from category 2).

- 2 person apartments → 4 blocked groups
- 3 person apartments → 3 blocked groups
- 4 person apartments/suites → 3 blocked groups
- 6 person apartments/suites → 2 blocked groups
- 8 person suites → 2 blocked groups
- 9 person suites → 2 blocked groups
- Traditional Style → 8 blocked people

**Maximum Number of Groups That Can Block Together**
