MUSP271001

Advanced Improvisation

KNIFFIN, ERIC L

Spring 2020

This course offers the advanced improvisor the opportunity to build higher order skills of improvisation in the jazz and rock idioms. While the course entails extensive instruction in music theory, the focus is on application of theoretical concepts to real-world improvisational contexts. The course outlines advanced concepts in melody-shaping, form/harmony, and musical style.

Comments: Two-semester, six-credit course: Students must have successfully completed PHIL1070 before taking PHIL1071.
Prerequisites: PHIL1070.
Corequisites: None
PHIL125201
Practical Logic
CLEMENTE, MATTHEW J
Summer 2019
A course not in the "new logic" (symbolic, or mathematical, logic) but in the "old logic" (ordinary language logic) invented by Aristotle and used for 2300 years in all the humanities. Includes such topics as definition, contradiction, syllogisms, implied premises, induction, and analogy. The course includes the commonsensical philosophical bases for this logic and also many practical applications to reading, interpreting, evaluating, and inventing arguments, especially in dialogs. Weekly quizzes, extra credit opportunities, and a take-home final exam. Texts: (1) SOCRATIC LOGIC, (2) THE BEST THINGS IN LIFE, (3) SUMMA PHILOSOPHICA (all 3 titles by Peter Kreeft)

PHIL151001
Introduction to Ethics
SEVERSON, ERIC
Summer 2019
What does it mean to be good, virtuous, or just? To what extent are we responsible or not responsible for our actions? How have our ethical values been established by society in the past? On what basis should our ethical values be established in the future? What are reasonable moral expectations we can have of other people? These are a few of the issues that will be discussed as students are introduced to some of the main schools of ethical thought in the Western philosophical tradition. We will examine works by Plato, Aristotle, Augustine, Kant, Nietzsche, Rawls, and Martin Luther King, Jr.. We will also use a few works of literature to reflect further on ethical ideas raised in the course.
PHIL152501
Introduction to Ethical Theory
FURLAN, TIMOTHY J
Summer 2019
This course is a rigorous introduction to moral philosophy for students with little or no background. It examines ideas from four important figures in moral thought: Plato, Aristotle, Aquinas, Hume, Kant, Mill, and Nietzsche. Each played an integral role in the development of moral philosophy, offering thoughtful, compelling answers to some of the disciplines most central questions which include: What is involved in being a good person or living a good life? What should we value, and why? How are we motivated by morality? How (if at all) is morality a matter of what is customary or conventional? How (much) do the consequences of our actions matter? Importantly, this course is not only about learning what others have thought about the answers to these (and related) questions in applied ethics. By considering and criticizing the ideas and arguments of these philosophers, the aim is to cultivate our own ability to think systematically, rationally, and reflectively, and to make up our own minds about how to answer these kinds of questions.

PHIL228601
Philosophy of Peace and Hospitality
KEARNEY, RICHARD
Summer 2019
This course will introduce students to the dynamics of conflict and the challenges involved in bringing about reconciliation among groups divided by distrust and enmity. By drawing on recent thinkers and artists who have reflected on the encounter between self and other and upon the risks and challenges involved in opening oneself to the stranger, the course will propose a hermeneutics of hospitality as a means to overcome prejudice based violence and bring about reconciliation among divided groups. The central feature of this hermeneutic will be the art of exchanging narratives?between religions, ethnicities, cultures, and persons. Various approaches will be examined?including artistic expression, organized dialogue, and community building efforts?in order to better understand the way in which the exchange of narratives plays a vital role in reconciliation. Students will also learn to notice the way similar conflict dynamics are present in their own social and political circumstances. They will become better equipped to examine tendencies to exclusion and violence in their own lives, to develop hospitable practices and attitudes that lead to peace, and to engage in effective peacemaking activities back home. This examination takes place in one of Europe?s oldest conflict zones (Croatia & surrounding countries), at the crossroads between the political and religious systems of the east and west (Islam and Christianity, Ottoman and European Monarchies, Communism and Capitalism).

PHIL442101
Service: Justice in Chile
MC MENAMIN, DAVID J
Summer 2019
TBD
PHIL447001
Philosophy of World Religions
KREEFT, PETER J
Summer 2019
The purpose of this course is as follows: (1) to familiarize students with the teachings of each of the world's major religions; (2) to understand, empathize with, and appreciate them; (3) to appreciate one's own religion (or lack of one) better by comparison; (4) to philosophize critically and rationally about a subject that is not in itself critical and rational; and (5) to question and search for a universal nature of core of religion, if possible.

This course introduces students to philosophical reflection and to its history through the presentation and discussion of the writings of major thinkers from ancient, medieval, modern, and contemporary periods. The course is designed to show how fundamental and enduring questions about the universe and about human beings recur in different historical contexts. Emphasis is given to ethical themes, such as the nature of the human person, the foundation of human rights and corresponding responsibilities, and the problems of social justice.

PHIL116001
The Challenge of Justice
SNYDER, JOSHUA R
Fall 2019
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

**Credits:** 03  
**Schedule:** M W 3*  
**Room:** STOKES HALL 101N  
**Satisfies Core Requirement:** None  
**Comments:** This course satisfies the introductory requirement for students taking the minor in Faith, Peace, and Justice Studies. Other students interested in examining the problems of building a just society are welcome.

**PHIL116002**  
The Challenge of Justice  
**SNYDER, JOSHUA R**  
**Fall 2019**  
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

PHIL221501
Telling Truths III: The Narratives that Shape Our Lives
HIRSCH, KATHLEEN A
Fall 2019
As we encounter injustice, conflicting visions of the good, and different moral scales of behavior, rights and responsibilities, it is essential that we become aware of our own foundational narratives. What wisdom stories shape the way you think about yourself in relation to others? What narratives do you carry into encounters with conditions, attitudes and beliefs that are different from yours? In this course, students will have a rare opportunity to bring their weekly experience of service into a time of reflection, and into relation to some of the core narratives of the great spiritual traditions. We will read modern mystics, parables, and creative theologians, including: Anne Lamott, Etty Hillesum, Kendrick Lamar, and Parker Palmer. The conversation will continue as we write in and read from our journals, sharing stories and questions. Several short writing assignments will occur through the course of the term; a final, longer piece of substantive spiritual reflection will give students the chance to synthesize the fruits of observation, reading and reflection. The aim of the course is to expand students' familiarity with the great narratives of grace and forgiveness, suffering and hope, as they engage in service, and to provide a setting in which they can become intentional about adopting narratives that will shape their lives.

PHIL223001
Mass Incarceration: Philosophical and Theological Perspectives
MCCOY, MARINA B
Fall 2019
This course will explore problems of justice in relation to incarceration in the United States with particular attention to attention to race, social class, gender, and immigration status. Students will read authors writing on the philosophy of race, gender, and class in relation to incarceration, the phenomenology of solitary confinement and the concept of "social death," church documents and theological works on incarceration, and works on restorative justice and other models of justice that serves the common good. Catholic Social Justice teachings and discussion will also be a part of the course. The course will also address interconnections between immigration and incarceration. This course will be offered as a PULSE elective, in which students undertake four hours per week of service in the City of Boston at institutions such as Suffolk Country Jail and non-profits that provide transitional services for returning residents or formerly incarcerated individuals or that advocate for prison reform. The PULSE office will vet and coordinate students' placements and serve as a liaison with community partners.

PHIL226001
Philosophy in Literature: Great Plays
KREEFT, PETER J

Fall 2019

Since life itself is like a play, great plays can contain great philosophies of life. We will explore some of these, including Sophocles' "Oedipus the King" and "Antigone," excerpts from Plato's 4 dramatic dialogs about Socrates' death ("Euthyphro, "Apology," "Crito" and "Phaedo"), Dorothy Sayers' drama of Jesus' trial (from "The Man Born to be King"). Shakespeare's "Hamlet" and "King Lear," Robert Bolt's "A Man for All Seasons," about Thomas More, Thornton Wilder's "Our Town," Dylan Thomas' "Under Milk Wood," Sartre's "No Exit," Beckett's "Waiting for Godot," Peter Shaffer's "Equus," and Mann's "Judgment at Nuremberg." Many of these plays have also been made into great movies, and each presents, concretely and dramatically, a different aspect of a believable and livable philosophy of life.

PHIL228801
Philosophy as a Way of Life: East and West
STOREY, DAVID E
Fall 2019
The word philosophy means "the love of wisdom," and one way to define wisdom is the knowledge of how to live well. According to French scholar Pierre Hadot, for the ancient Greeks philosophy was not merely an academic exercise, but an inherently practical discipline designed to help people flourish. The ancients laid down different pathways to the good life, and devised "spiritual exercises," reflective practices to foster our intellectual and moral development. They sought to answer ethical and existential questions we all face: What is happiness, and how should we best pursue it? What qualities constitute good character, and how can we acquire them? How should we manage difficult emotions like fear, anger, and anxiety? How can we come to terms with our mortality? What does a meaningful life require? In this course, you will not just study philosophy, you will do it. In addition to examining and evaluating philosophical texts, you will experiment with various contemplative practices to get a sense for what it might be like to live like a philosopher. In other words, the course is an opportunity to study philosophy to figure out what kind of life you want to live. Traditions and thinkers studied include: Plato, Aristotle, Epicurus, Stoicism, Buddhism, Confucianism, and Existentialism. Note: this course will ask you to step outside of your comfort zone, and it assumes an interest and a willingness on your part to engage in regular and serious introspection and to experiment.

**PHIL229301**  
**Cultural and Social Structures I**  
**SWEENEY, MEGHAN T**  
**Fall 2019**  
This course focuses on examining the cultural foundations that underlie the contemporary ways in which people choose to structure literally, figuratively, and symbolically the way they live together. Our study centers on questions about how our cultural and social structures are the concrete expression in politics, city planning, architecture, literature, etc., of what we value and of the things we consider meaningful and important.
PHIL229701
Community and Culture I
MC MENAMIN, DAVID J
Fall 2019
This course will explore the nature of community in the context of American culture. Students will examine some of the philosophical, historical, cultural, political, and religious forces, which have shaped both contemporary American community and the American understanding of community. Beginning with John Locke and Jean Jacques Rousseau, then moving to Alexis de Tocqueville, the course's starting points will be in two thinkers whose political philosophies were part of the intellectual climate in which this nation was born, then in the observations of an early nineteenth-century visitor of what had emerged in early America. Subsequent readings will raise the question of American culture and community from modern legal, cultural, political, and religious perspectives.

PHIL235001
Playing God: Technology and the Human Condition
STOREY, DAVID E
Fall 2019
When asked whether God exists, Google futurist and inventor Ray Kurzweil, widely regarded as the prophet-philosopher of Silicon Valley, replied, "Not yet." Conventional wisdom has it that we are in the midst of a "techlash"--a backlash against the powerful and pervasive digital technologies developed in the first two decades of the twenty-first century that is sowing unintended psychological, political, and economic consequences. In this course, you will survey the philosophy of technology, including canonical figures such as Aristotle, Bacon, Martin Heidegger, and Hans Jonas--and contemporary scholars such as Hubert Dreyfus and Shannon Vallor, as well as popular authors such as Sherry Turkle and Jaron Lanier. In particular, we will explore the moral dimensions and the psychological, political, and economic consequences of digital and emerging technologies, including the internet, smart phones, social media, big data, genetic engineering, life enhancement and extension, virtual reality, and artificial intelligence.

PHIL245001
Philosophies of Happiness
DAVENPORT, ANNE A
Fall 2019
How do philosophers approach happiness? Is happiness defined by well-being, pleasure, emotional state, life satisfaction, or is it best approached through some kind of hybrid account? What are, moreover, the sources of happiness? We start with the challenge of human tragedy in Shakespeare's King Lear, drawing on Walter Kaufmann and on Stanley Cavell. We then compare and contrast Thomas More's utopian imagination with the skepticism of Michel de Montaigne. We return to utopian imagination with Francis Bacon and compare his views to Descartes (rationalist), Hobbes (materialist), and Pascal (pragmatist), raising the question of how Faith and reason enter into happiness. We consider John's Ray influential argument for God by design. We read Voltaire's Candide and Emilie du Chatelet's Discourse on Happiness. We examine Diderot's formulation of happiness and Rousseau's contrasting view. We look at the distinctive way in which Rousseau privileges beauty and we pursue the topic of aesthetics in John Ruskin and Jane Addams. We end with Freud and Jean-Louis Chretien.

PHIL400101
Feminisms and Philosophies of Difference
MCGILL, CHERIE
Fall 2019
What does it mean to call oneself (or someone else) a ‘feminist'? In attempting an answer to this question, we will consider efforts to reveal, unravel, and remedy the conceptual, psychological, and economic dimensions of the oppression of women. We will discuss a variety of feminisms--liberal, existential, radical--and their differing approaches to such ‘feminist' issues as marriage and domestic violence, reproduction and pregnancy, work and sexual harassment, and the science of gender and gender difference. We will examine the relationship of sexism to racism, heterosexism, and class exploitation, and investigate the role of the concept of difference in creating and maintaining structural inequalities.

PHIL440501  
**Greek Philosophy**  
**BYERS, SARAH C**  
**Fall 2019**  
This course is organized around the central philosophical questions asked and answered by philosophers in the ancient Greek-speaking world. Topics include theories of material bodies, change and time, elemental physics, and entities and their predicates; whether anything immaterial or immutable exists and, if so, its relation to the changing cosmos; the existence and nature of God or gods; the existence and nature of the human soul and its relation to the human body; the criterion of truth and the nature of language; the criterion of ethics; theories of animal and human cognition and motivation. We will consider Plato, Aristotle, and, more briefly, some pre-Socratic and post-Aristotelian authors such as Plutarch, Epictetus, and Plotinus.  

**Credits:** 03  
**Schedule:** M W F 1
History of Modern Philosophy
SOLERE, JEAN-LUC
Fall 2019
The course presents in a synthetic but not superficial manner the major philosophies, from Descartes to Kant, which have punctuated the emergence of the modern mind, the development of scientific knowledge and transformations of Western societies, during a period in which conquering rationality asserted its autonomy and gave rise to the idea of Enlightenment, but at the same time reflected on its own limits. This comprehensive survey will cover metaphysics, epistemology, ethics and political thought. We will analyze representative sources, paying attention to their argumentative structures, and highlighting the logic in the unfolding of problems and answers.

Nineteenth- and Twentieth- Century Philosophy
MAGRI, ELISA
Fall 2019
This course will explore the sources of alienation that emerged in the nineteenth century and its impact on the twentieth century. We will start with an overview of the challenges brought about by Kant’s philosophy with particular regard to the relation between nature and freedom, before reading and examining Schiller, Hegel, Marx, and Marcuse. Students will become familiar with the project and ideals that shaped Classical German Philosophy and their relevance for twentieth century social philosophy.

PHIL441901
Friendship
GURTLER, GARY
Fall 2019
The renewed interest among philosophers about friendship indicates a break from the suspicion of the last several centuries. The lack of interest can be traced to an understanding of human nature where each individual is a self-contained unit. Ethical reflection emphasized equality so much that friendship appeared hard to justify, as based on preferring one individual over another. This has not always been the case, since Greek and Medieval thinkers regarded friendship rather highly as indicating what is best in human nature and essential to happiness. We will try to understand why different cultural perspectives evaluate friendship in different ways.

PHIL444201
German Romanticism and Idealism
RUMBLE, VANESSA P
Fall 2019
Kant's transcendental idealism has been charged with divorcing the subject of understanding from the subject of moral experience. We shall examine the basis of this claim as well as the attempts by Romantic writers and German Idealists to provide a fresh account of the integrity of human experience. We begin examining Kant's attempt, in *The Critique of Judgment*, to bridge the moral and natural realms through aesthetics. We then trace the progressive emancipation of the imagination in the later development of German Idealism and Romanticism.

PHIL448301
Revolution and Social Change
SWEENEY, EILEEN C
Fall 2019
This course will take up accounts of the roots of modern notions of justified revolution and social justice calls to transform society in Hebrew scripture and the ministry of Jesus as depicted in the Christian Bible through the interpretations of political theorist Michael Walzer's *Exodus and Revolution*, and the work of progressive theologian Walter Wink, as well as classical political theory in Aquinas and Locke and others. We will also consider the works of Mahatma Gandhi, Martin Luther King, and Hannah Arendt on non-violent resistance, as well as works of Malcolm X, Fritz Fanon, Vaclav Havel, and Aung San Suu Kyi. Students will work on projects examining the theoretical underpinnings of recent attempts at revolution and social change, and considering their success or failure.

Global Justice and Cosmopolitanism
HUDSON, STEPHEN A
Fall 2019
In this course, we will analyze how virtue can be applied to the local and global community for the creation of global justice. We will first briefly look at the ancient world and how virtue appears in the political community as civic solidarity. We will then analyze various theories of cosmopolitanism. Finally, we will spend significant time on the theme of global justice. We will apply the previous themes of the course to issues such as global poverty, the environment, global peace, human rights, gender, immigration, global health, and forms of global governance.

**PHIL550001**  
**Philosophy of Law**  
**VAN ROOY, PAUL A**  
**Fall 2019**  
This course aims to provide an overview of a number of core debates in contemporary philosophy of law. The primary concern will be to examine the relation between legal validity and the moral normativity of the law, that is, answers to the questions 'What is the law?' and 'Is there a (moral) duty to obey the law?' In addition to these more general questions, we will focus on several more specific questions pertaining to constitutionalism, including 'What is the relationship between a constitution and the rule of law?', 'What is the ground of judicial review?' and 'What connection, if any, is there between questions of legal theory and broader debates in contemporary political philosophy?'  
**Credits:** 03

PHIL550101
Politics of the Soul: Nietzsche, Leo Strauss, Carl Schmitt, the Good Life, and the Quest for Order
BRAMAN, BRIAN J
Fall 2019
There seems to be a permanent conflict between culture and politics. Should the organization of society serve the ends of politics (justice) or those of culture? Which type of polity is best able to promote culture and political life, that is the cultivation of greatness and true human excellence. In short, the political cannot be understood as one among other domains of culture. This course will explore this conflict between culture and politics by examining and close reading of the works of Nietzsche, Leo Strauss, and Carl Schmitt. In order to help structure our investigation of this conflict, we will read the above authors in light of the following questions: What does it mean to be human? What really is the good life? And what is the best regime?

PHIL551501
How to Save the World: Ethics of Climate Change
STOREY, DAVID E
Fall 2019
Climate change is arguably the defining issue of our time and the hardest problem humanity has ever faced. It raises an array of moral questions, e.g., what values should guide global and national climate policies? What responsibilities do we have toward the poor, future generations, nonhuman species, and our planet? The course is an introduction to environmental ethics and the moral challenges posed by climate change. In particular, we examine the philosophical and ethical questions that underlie climate science, public policy, energy systems and policy, and economics. The goal is to cultivate an integral understanding of the climate problem through an interdisciplinary inquiry.

**Ethics: An Introduction**  
**MADIGAN, ARTHUR R**  
**Fall 2019**  
Ethics, properly understood, is a practical discipline, i.e., an intellectually rigorous study with implications for personal and social life. This course will introduce students to the standard issues of contemporary Anglo-American ethics, but also to a broader selection of issues addressed in classical and contemporary philosophy. The goal is to develop a more adequate understanding of what it means to be practically reasonable and of how practical reasonableness can be embodied in personal and social life.

PHIL552901
Metaphysics
GURTLER, GARY
Fall 2019
The course begins with classical modern philosophers. Their problems concern the relation of mind and body, the possibility of objective knowledge, and cause and effect. Their method is that of science, combining both empirical and logical elements. After these modern thinkers, giving our cultural assumptions, we turn to Ancient and Medieval philosophers. Their problems concern the relation of spirit and matter, the analogy of being and truth, and causal explanation. Their method is one of dialogue. With this different set of problems and method, we will be able to evaluate the relative strengths of these different philosophical positions.

PHIL554301
Friends and Family: Why Care?
GARCIA, JORGE L
Fall 2019
Isn't impartiality at the heart of morality? But then, (how) can we be justified in the partiality we normally show some people over others? This course considers some philosophical accounts of the place and significance within morality of a person's relationships with social acquaintances and relatives, and of her voluntary commitments and group affiliations (national, ethnic, racial, etc.). Readings include work of F.H. Bradley, selections from J. Seglow's monograph, "Defending Associative Duties" and from B. Feltham's and J. Cottingham's edited collection, "Partiality & Impartiality: Morality, Special Relationships, & the Wider World," and other (mostly recent) texts.
PHIL556301
Ethics, Religion, and International Politics
OWENS, ERIK C
Fall 2019
An examination of the role of religion in international politics and of ethical approaches to international affairs. Special emphasis will be given to religion as a source of conflict, religious communities as transnational agents for justice, protection of human rights, and peace; the historical development and contemporary formulations of ethical norms for the use of force; and ethical and religious contributions to reconciliation and solidarity.

**PHIL557701**  
**Symbolic Logic: Theory and Practices**  
**KINKAID, JAMES**  
**Fall 2019**

An introduction to the powerful ways the logical forms woven into deductive reasoning and language can be analyzed using abstract symbolic structures. The study of these structures is not only relevant for understanding effective reasoning, but also for exploring the Anglo-American analytic philosophical tradition and foundations of mathematics, computer science, and linguistics. Philosophically interesting properties about logical systems will be explored, including the task of proving whether a logical system is complete and consistent. A number of interesting topics of twentieth-century logic will be briefly considered, such as set theory, Russell's paradox, and Goedel's theorems.

PHIL558401
C.S. Lewis
KREEFT, PETER J
Fall 2019
Lewis wrote poetry, literary criticism, science fiction, fantasy, philosophy, theology, religion, literary history, epics, children's stories, historical novels, short stories, psychology, and politics. He was a rationalist and a romanticist, a classicist and an existentialist, a conservative and a radical, a pagan and a Christian. No writer of our century had more strings to his bow, and no one excels him at once in clarity, moral force, and imagination: the true, the good, and the beautiful. We will consider a sampling of Lewis' fiction and non-fiction.

PHIL559301
Philosophy of Science
BYRNE, PATRICK
Fall 2019
An introduction to the central themes of twentieth century history and philosophy of science. Topics to be discussed include the classic and contemporary problems of demarcation, explanation, confirmation, laws of nature, inter-theoretic reduction, social and historical critiques of neo-positivism, and the realism-antirealism debate. We will examine some philosophical perspectives sometimes thought to be closely associated with science including empiricism, pragmatism, naturalism, and physicalism. We will also discuss a number of other issues, including questions about objectivity and the role of values in science, about the methods, scope, and limits of science, and about whether science provides anything like a worldview.

PHIL657801
Daoism
MOZINA, DAVID J
Fall 2019
Daoism (sometimes spelled Taoism) has been imagined in the West as an Eastern philosophy of blithe individuality and environmental consciousness. But what have Daoist thought and practice meant to Chinese practitioners? The answer might surprise. This course will examine major moments of thought and practice from the early, medieval, and modern periods of China's most successful indigenous religious tradition. Close readings of texts and images will challenge Western assumptions about what this religious tradition has been all about, and by extension, how we imagine the general categories "theology" and "religion."

PHIL661501
Rationality and Religious Commitment
MCKAUGHAN, DANIEL J
Fall 2019
An examination of cutting edge work in contemporary analytic philosophy of religion, organized around foundational questions about the nature, rationality, and value of religious faith. What is faith? Is faith adequately characterized as believing something without sufficient evidence? To what extent is faith compatible with doubt? Can faith be positively related to skepticism? How is faith related to belief, acceptance, trust, hope, and love? Can it be rational to have faith? If so, under what conditions? Can a deeper understanding of faith open up new ways of thinking about the relations between faith and reason or science and religion?

PHIL662201
Philosophy and Music
SALLIS, JOHN
Fall 2019
This course will explore the way in which various philosophers from Plato to Nietzsche have understood the nature of music, its relation to the other arts, and its significance outside the aesthetic sphere. Attention will also be given to the way in which music and reflections on music have, as in such cases as Nietzsche, played a major role in shaping philosophical thought. The course will deal with writings by such philosophers as Plato, Rousseau, and Hegel. Certain texts by composers, especially Wagner, will be considered along with numerous musical compositions, which will be listened to and discussed in class.

PHIL667001
Technology and Culture
GRIFFITH, WILLIAM
Fall 2019
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.
PHIL721501
Philosophy for Theological Studies
DUNKLE SJ, BRIAN P
Fall 2019
This course has three aims: (1) critical study of philosophical texts that have been important in the development of Christian theological reflection; (2) investigate relations between philosophy and theology from the Classical epoch into the late twentieth century. (3) examine the philosophical topics especially relevant to theological study, especially metaphysics, epistemology, psychology, hermeneutics, political philosophy, and anthropology.

This course addresses the problem of how to understand the nature and significance of intersubjectivity after Heidegger. Insofar as Heidegger’s philosophy overcomes the primacy of the subject, the way forward for thinkers like Merleau-Ponty lies in an understanding of intersubjective relations as a primordial, pre-subjective field. We can compare this view with similar ideas found in the work of Scheler, Mead, and the Japanese philosophers Watsuji and Kimura, and contrast this notion with the thought of Levinas, which disrupts the continuity between self and other. The conception of intersubjective experience that emerges from these comparisons reframes our sense of how social relations function in the constitution of the self and how they serve as a primary source of existential meaning. This notion of trans-subjective intersubjectivity also calls for a shift in our self-understanding and opens the way to a renewed focus on life as a primary theme for phenomenology.

**PHIL725001**  
**Political Philosophy**  
**SALLIS, JOHN**  
**Fall 2019**

This course will consist of three closely related parts. Part 1 will deal with the early writings of Karl Marx, especially the Economic and Philosophic Manuscripts and The German Ideology. Consideration will be given to Marx's critique of Hegel and Feuerbach and to such topics as labor, capital, and socialism. Part 2 will be devoted to the political philosophy of Hannah Arendt. Her analysis of the connections between theory, praxis, and production will be the primary theme. Part 3 will deal with the work of the contemporary French philosopher Jean-Luc Nancy and will focus on his conception of community.

Key Concepts in Phenomenology: Intentionality, Consciousness, Embodiment, Empathy, Personhood
MORAN, DERMOT
Fall 2019
This course offers an advanced critical introduction to key concepts in phenomenology, one of the most important movements of twentieth-century European philosophy, through readings of selected classical texts and discussing selected problems. This module will trace the key phenomenological themes of intentionality, consciousness, embodiment, empathy, and personhood through several key thinkers: Edmund Husserl, Martin Heidegger, Edith Stein, Maurice Merleau-Ponty, Ludwig Binswanger, Aron Gurwitsch, Shaun Gallagher, and Dan Zahavi. The course will have both a historical and a contemporary orientation with an emphasis on reading selections from primary sources in English translation.

**PHIL881801**  
*Early Modern Ethics and Psychology*  
SOLERE, JEAN-LUC  
Fall 2019  
In studying seventeenth and eighteenth moral philosophies, from Descartes to Hume, the thread we will follow is the role of pleasure in psychology and ethics. Neo-Epicurism and Neo-Augustinism paradoxically agreed on the fact that human beings, guided by self-love, act only in view of what is pleasurable and is their own interest. As a response, another type of pleasure can be pointed out: the disinterested esthetic pleasure, which became a paradigm for reconciling pleasure with altruism. This topic involves also religious and political issues.

PHIL885001

Medieval Theories of Mind and Cognition
SOLERE, JEAN-LUC

Fall 2019

How and what do we perceive? How does one form concepts? Who is the thinking subject? What do we know? This class will offer the opportunity to examine central issues of medieval philosophy: sense perception, realism versus representationalism, nature of the intellect, abstraction process, semantics and concepts. Through the study of some landmark thinkers, such as Avicenna, Averroes, Aquinas, Scotus, Ockham, we will observe the apparition of the modern conceptions of the cognitive subject and of knowledge. The course is especially designed for giving graduate students a strong and in-depth presentation of an essential moment of the development of medieval thought.

PHIL116001
The Challenge of Justice
SNYDER, JOSHUA R
Spring 2020
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.
PHIL116002
The Challenge of Justice
SNYDER, JOSHUA R
Spring 2020
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

PHIL171101

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/philosophy.html
The American Divide: The Philosophy of Inequality

MCGILL, CHERIE

Spring 2020

Concern over inequality in the U.S. has shown itself in movements like Occupy Wall Street, the Fight for a Fifteen Dollar Minimum Wage, and Black Lives Matter. These courses will examine the meaning, causes and consequences of inequality from the perspectives of Philosophy and Economics. Providing a broad picture of the current state of the U.S. economy, and analyzing the role of economic policy in determining opportunities and outcomes, the courses will prepare students to develop their own views about how past economic choices shaped current economic realities, and how we might create a more equitable future.

PHIL219901
Racial Injustices and Racial Remedies
GARCIA, JORGE L
Spring 2020
This course explores forms of racialized injustice and possible racialized responses. The first part treats discrimination, especially racial discrimination, examining Lippert-Rasmussen's influential philosophical account of what it consists in, its varieties, what makes it wrong (when it is), and how we might remedy it. The course's latter part turns to the current American racial situation, opening with Shelby's rather different understanding of discrimination and institutional, systemic, and structural injustice, proceeding to his important treatments of a number of sites of racial injustice, where he addresses issues of conduct, character, and culture within Black communities, as well as more specific matters of sex, family life, crime, and incarceration. We conclude with Shelby's contention that some types of apparent misbehavior be understood as forms of political dissent. Our goal is to deepen conceptual and normative comprehension of these phenomena, positioning the student more fully to think about, grasp, discuss, engage, and help rectify racial (and other) injustices, therein better equipping her to understand those less advantaged and to respond with informed and reflective compassion to problems that continue to plague society in the United States today.

PHIL221601
Boston: An Urban Analysis
MANZO, DAVID W
Spring 2020
This course is intended for PULSE students who are willing to investigate, analyze, and understand the history, problems, and prospects of Boston's neighborhoods. With the exception of the fourth session, class meetings in the first half of the semester will meet on campus. Class number four will meet in the Skywalk Observation Deck at the Prudential Center. For the second half of the semester, as snow banks give way to slush and sun and blossoms, we will meet in the South End of Boston for a case study of a most intriguing and changing inner-city neighborhood.

PHIL226201
Telling Truths II: Depth Writing as Service
RIZZUTO, ALEXIS A
Spring 2020
This PULSE elective will focus on the power of story-telling to achieve justice and social liberation. We will read theoretical and narrative accounts of the role of story, examine the use of story-telling among marginal populations as a means of participating in their own "solutions." We will explore the benefits and liabilities of social media in emerging change movements. Students will engage in story gathering, telling, and analysis, through their PULSE placements and class discussion, producing a collection of original writings.

PHIL229401
Cultural and Social Structures II
SWEENEY, MEGHAN T
Spring 2020
This course is a continuation of the themes developed in Culture and Social Structures I, with the focus on American culture in particular and on more specifically contemporary issues.
PHIL229801
Community and Culture II
MC MENAMIN, DAVID J
Spring 2020
This course is a continuation of the themes developed in Community and Culture I, though participation in the fall semester is not a requirement for participation in spring. With an eye toward understanding the connection between culture and community, we will examine various understandings of the nature of community in general, the relationship of culture to its communities, and the nature of life lived in the context of community. Particular focus will be given to the American experience of community. Areas considered will include the historical, political, economic, literary, and religious, all with the purpose of understanding the cultural; the goal will be to identify the difficulties of reconciling individual and community life.

PHIL233601
British Empiricists
DAVENPORT, ANNE A
Spring 2020
Why are the British Empiricists both perplexing and indispensable? Do they deserve the odium that they often receive? How fundamental are they to our American identity? This course conducts an in-depth examination of John Locke, George Berkeley, and David Hume. We look at the entire spectrum of their concerns, from theories of the self to political science, ethics, and aesthetics. We tease out and discuss their views of the "good life." We probe their arguments critically and look at some of their followers and opponents in order to understand more fully the impact of their positions. We end with Rousseau's critique of British empiricism.

PHIL314001
The Idea of America
FRIED, C GREGORY

Spring 2020
A systematic exploration of thinking about America, in both its actual history and its possible futures, including traditions of thought that reflect upon the founding principles and the unfolding American experiment. The Declaration of Independence and the Constitution will be studied with an eye to their philosophical content and sources. The course will also examine works of philosophers, artists, writers, and other thinkers who address conflicts over the meaning of founding principles in the course of the nation's history, from the struggle over slavery to America's contemporary role in the world. Because this course intends to apply theoretical understanding to actual events, students will be expected to read contemporary journalism on a regular basis and assess the controversies of today in the light of the nation's philosophical and historical currents.

PHIL324001
Towards Deep Subjectivity: Architecture, Ethics, and the Personhood of Place
BRAMAN, BRIAN J
Spring 2020
In *Genius Loci: A Phenomenology of Architecture* Christian Norberg-Schultz argues that if human beings are to dwell authentically under the sky and on the earth, the architecture's role is to provide an "existential foothold," which grounds people's relationship to their environment. "Man dwells when he can orientate himself with his environment and experiences it as meaningful" and thus ethical; to have an existential foothold allows one to "be" at home. To dwell means that human beings achieve an individual and communal identity—a personhood in a given place. The purpose of this course will be to explore the relationship between subjectivity, architecture, ethics, and the notion of personhood as authentic dwelling on the earth and under the sky.

**Mysticism**  
**KREEFT, PETER J**  
**Spring 2020**

The metaphysical and epistemological claims implicit in the very existence of mystical experience exceed yet intersect with those of philosophy and human reason, and should be of great interest to all ambitious philosophers. This course explores the varieties of mystical experience (OBEs, nature-, soul-, and God-mysticism, Eastern and Western, ancient, medieval, and modern) in Shankara, Buddha, Lao Tzu, Plato, Plotinus, Augustine, Aquinas, John of the Cross, Teresa of Lisequx, William James, Aldous Huxley, Jacques Maritain, and Teilhard de Chardin, with tangents in Romantic poets, C.S. Lewis, Tolkien, and surf mysticism.

PHIL421101
Hegel, Kierkegaard, Nietzsche: Art, Religion, and the Question of Meaning
RUMBLE, VANESSA P
Spring 2020
In the aftermath of the French Revolution, Hegel, Kierkegaard, and Nietzsche rushed to define the larger significance of the French Revolution, witnessing in so doing to the definitive arrival of modernity in Europe. The philosophers propose three quite compelling presentations of the role of art and religion in the modern world. While Hegel stages a dialectic which calls for the repeated crucifixion and resurrection of reason, Kierkegaard offers a consequential reinterpretation of the notion of original sin as anxiety, and Nietzsche points us "beyond the law." We will look at the development of their thinking through key works, turning ultimately to the critiques offered by Heine, Marx, and Weber.

PHIL440701
Medieval Philosophy
SOLERE, JEAN-LUC
Spring 2020
Far from being monolithic and repetitive, the Middle Ages were a creative period during which multiple solutions were proposed to make sense of the world and of human life. The legacy of Antiquity, the philosophic and scientific knowledge of the time, and religious views were combined in original syntheses. The aim of the course is to provide a precise picture of this diversity, through a study of the main problems that a wide range of authors (Christian thinkers from St. Augustine to Ockham, but also Islamic and Jewish philosophers) faced. Syllabus on www2.bc.edu/jeanluc-solere/pl407.html.

PHIL442301
Spanish-American Philosophy
GURTLER, GARY
Spring 2020
This course is designed to give the student an opportunity to look at some fundamental philosophical issues regarding human nature and the origins and development of human thought from a fresh perspective. Unamuno's *Tragic Sense of Life* presents a critique of the rationalism of modern European thought by focusing on human life as dream, theater, and struggle. Octavio Paz, in *The Labyrinth of Solitude*, explores the meaning of human existence through the lens, or perhaps the mask, of the Mexican quest for identity at the end of the present century.

PHIL454501
A History of the Idea of Personal Truth and Authenticity
ROMANO
Spring 2020
Aristotle describes in *Nicomachean Ethics* the virtue of the authekastos--literally, the one who is true to himself or herself, or who is himself--and he insists that such a truth is achieved not only in words but in life. I would like to investigate this idea of an "existential" truth by considering the different forms it has taken in the history of Western philosophy. We shall examine several varieties of this idea, starting from Ancient philosophy (Aristotle, the Stoics, Cicero), Ancient Rhetorics (Quintilian, Fronto), and Christian thought (Ambrose, Augustine), and our inquiry will extend to the Renaissance, the Modern Age, and Contemporary philosophy. By bringing together several types of discourse--philosophical, theological, aesthetic, and literary--my aim will be to shed light on the roots of the ideal of personal authenticity that has become very powerful today in our society and culture.

PHIL519901
Global Justice and Cosmopolitanism
HUDSON, STEPHEN A

Spring 2020

In this course, we will analyze how virtue can be applied to the local and global community for the creation of global justice. We will first briefly look at the ancient world and how virtue appears in the political community as civic solidarity. We will then analyze various theories of cosmopolitanism. Finally, we will spend significant time on the theme of global justice. We will apply the previous themes of the course to issues such as global poverty, the environment, global peace, human rights, gender, immigration, global health, and forms of global governance.

PHIL523001
The Interior Life
BARRETTE, ANDREW

Spring 2020

This course will investigate the meaning of an interior life and some ways into it. Our guides will be from the Jesuit tradition, following especially the work of Joseph Marechal and Pierre Scheuer. We will thus explore how these twentieth-century thinkers respond to modern critiques of subjectivity—for example, in German idealism, psychology, and phenomenology—by retrieving and renewing insights from classical philosophy, mysticism, and theology. Special attention will be placed on how they retain knowledge gained from a turn to the subject even as they resist the dangers of solipsism, relativism, and historicism. In so doing, the course will discover a way into the history of thinking that unifies seekers of the true, the good, and the beautiful. And we do so also in order to find ourselves as participating in this search.

PHIL537301
Patristic Greek II
SCHATKIN, MARGARET
Spring 2020
This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

PHIL538901
Buddhist Ethics: Ancient and Modern
MAKRANSKY, JOHN J
Spring 2020
We first study classical Asian Buddhist ethical principles and practices, then a modern manual of Tibetan Buddhist theory and practice, including ethics. We then explore modern Engaged Buddhism in Asia and the West, including contemporary Buddhist reflections on social and economic justice, ecology, violence/non-violence and feminism. Daily mindfulness practice, based on class instruction, is included. Weekly writing of 3 pages, active class participation, two short papers, and a longer paper.
PHIL542301
The Ethics of Peace and War
FRIED, C GREGORY
Spring 2020
This course will explore historical, ethical, and political issues concerned with peace and war. We will examine the just war tradition, beginning in the medieval period, as well as recent developments in the field, such as topics in transitional justice. While the main emphasis will be on philosophical justifications for war and visions of just peace, we will also examine religious, historical, literary, and journalistic texts to focus the imagination on the philosophical issues and to connect theoretical frameworks to historical and contemporary events.

PHIL550501
The Aristotelian Ethics
MADIGAN, ARTHUR R
Spring 2020
This course has recently been added for the fall. For students interested in Aristotle's Nicomachean Ethics, this course is for you! It consists of a close reading of the whole of the Nicomachean Ethics beginning with ethical virtue (Books II-IX) and ending with happiness (Books I and X). I have found that a student's understanding of Aristotle's ethical concepts is enhanced when he/she considers those concepts in relation to leading figures in Ancient Greek literature. Thus, occasionally we will discuss some of Homer's Iliad and Sophocles' Oedipus Tyrannus to consider how some of the following issues relate to Achilles, Hektor, Paris, Oedipus, and Jocasta. What does it means to have an ethical virtue (or vice), to engage in involuntary actions, to be responsible, courageous, good-tempered, truthful, temperate, continent, incontinent, and happy? Since the course will be run seminar style, students are expected to participate generously in classroom discussions.

**PHIL550801**  
**Dante's "Divine Comedy" in Translation**  
**SHEPARD, LAURIE**  
**Spring 2020**  
An introduction to and critical reading of the "Divine Comedy" (in English translation), one of the world's greatest epic poems, produced by "the chief imagination of Christendom" (Yeats). Dante's journey through Hell, Purgatory, and Paradise will be analyzed at its multiple levels of interpretation: literal and allegorical, theological, philosophical, political, and literary. Compendium of an entire epoch of European civilization, the "Comedy" will also be interrogated for its responses to the fundamental questions of human existence: God, the Cosmos, the Self, Good and Evil, Right and Wrong, Suffering, and Happiness.

PHIL551101
What is Moral Knowledge
LOTT, MICAH
Spring 2020

Is it possible to know--not just feel or believe--that certain things are right or wrong, good or bad? If so, how is moral knowledge similar to, or different, from scientific knowledge? And how do we acquire moral knowledge? This course addresses these questions, along with other related issues in moral epistemology. We will consider general approaches--e.g., intuitionism, constructivism, and skepticism. We will also focus on some specific topics, such as: Does persistent moral disagreement show that there is no moral knowledge? Is there such a thing as moral expertise?

PHIL551801
Philosophy of Imagination
KEARNEY, RICHARD
Spring 2020
Readings in the philosophy of imagination from ancient myth to post-modernity. Beginning with Biblical and Greek accounts of images and image-making, this course will explore three main paradigm shifts in the Western history of imagination: (1) the ancient paradigm of the Mirror (Plato to Augustine); (2) the modern paradigm of the Lamp (Kant to Sartre); and (3) the postmodern paradigm of the circular Looking Glass (Lacan to Derrida). The course will conclude with a critical evaluation of the political and ethical functions of imagination in our contemporary civilization of cyber fantasy, simulation, and spectacle.

**PHIL552701**  
**Philosophy of Language**  
**SWEENEY, EILEEN C; FERGUSON, MAGNUS K**  
**Spring 2020**  
This course will consider major texts and movements in twentieth century philosophy of language in both the analytic and continental traditions, reading the work of Russell, Wittgenstein, J. L. Austin, Quine, and Davidson as well as Ricoeur and Derrida. Our goal will be to bring together these very different approaches to what has been a central concern of philosophy in the twentieth century.

PHIL553101
Discourse and Metaphysics of Ethics
GARCIA, JORGE L
Spring 2020
We examine most of the twentieth century's principal positions on the metaphysics, knowledge, and modes of discourse within and behind moral judgment, as developed within Anglo-American philosophy: axiological non-naturalism, deontological non-naturalism, emotivism, prescriptivism, neo-naturalism, anti-realism, projectivism, and constructivism. Readings will be selected from such thinkers as G.E. Moore, W.D. Ross, J.N. Findlay, A.J. Ayer, C.L. Stevenson, R.M. Hare, P. Foot, E. Anscombe, J. Mackie, S. Blackburn, and J. Rawls.

PHIL554901
Selected Readings in Phenomenology
MORAN, DERMOT
Spring 2020
This course offers a critical introduction to phenomenology, one of the most important movements of twentieth-century European philosophy, including its French existentialist development, and its critics. The major themes and movements in phenomenology and existentialism will be studied through several key thinkers: Franz Brentano, Edmund Husserl, Martin Heidegger, Edith Stein, Maurice Merleau-Ponty, Jean-Paul Sartre, Emmanuel Levinas. Themes that will be critically considered include: intentionality, phenomenological description, perception and embodiment, moods and emotions, self-consciousness, the nature of the self, sociality, and the surrounding lifeworld. The course will have both a historical and a critical orientation with an emphasis on reading selected primary-source texts in English translation. At least one year of Philosophy required.

PHIL555301
Capstone: Poets, Philosophers, and Mapmakers
MCNELLIS, PAUL W
Spring 2020
We go through life with mental maps of reality in various degrees, implicit or explicit. A liberal arts education presupposes such a map of the intelligible world. Is it accurate? What does your map of reality look like? How has it changed since freshman year? The goal of the seminar is to help you see what kind of map you implicitly have now and to begin to ask what you want the map to look like ten years after graduation. How do you develop an open rather than closed map?

Credits: 03
Schedule: null
Room: None
Satisfies Core Requirement: None
Comments: You can take a Capstone class only as a senior or second-semester junior. Capstone classes may NOT be taken Pass/Fail. You may take only ONE Capstone class before graduation.
Prerequisites: With permission of the Instructor. Completion of Philosophy and Theology core.
Corequisites: None

**PHIL558601**

**Platonic Dialogues**

**MCCOY, MARINA B**

**Spring 2020**

In this fall’s Platonic dialogues, we will focus on Plato’s moral thought in a series of dialogues: Meno, Protagoras, and Gorgias. Each of these dialogues explores the nature of virtue either as a whole. Our reading of the texts will be a slow and careful reading of these dialogues' arguments with a particular emphasis on the relationship between philosophical reasoning, myth narrative, and ethics.

PHIL625001
Hegel's Philosophy of Spirit
MAGRI, ELISA
Spring 2020
This course is dedicated to Hegel's philosophy of Geist, which is often translated in English as "spirit," "mind," or "collective cultural mindset." However, the full meaning of Geist in Hegel's philosophy comprises a more fine-grained and richer development of affective, psychological, and practical elements. Drawing on Hegel's Phenomenology of Spirit as well as on the sections on the Philosophy of Spirit of Hegel's Encyclopaedia, this course will explore the main philosophical questions that surround the dimension of Geist in both Hegel's philosophy and contemporary debates, including Hegel's departure from transcendental philosophy and the nature-spirit relation, the novelty of Hegel's philosophical anthropology, the problem of recognition, and the quest for absolute knowledge.

STAN, MARIUS C
Spring 2020
An historical survey of metaphysical and epistemological problems of space and time from Aristotle to Husserl.
PHIL665101
Philosophy of the Stranger
KEARNEY, RICHARD
Spring 2020
This course will explore the philosophical discussion of the stranger as foreigner, refugee, invader, and immigrant. Beginning with Greek accounts of the xenos in Homer and Plato, we will critically engage the paradoxical concept of hostis as host and guest in both Western metaphysics and Judeo-Christian culture. We will then look at Husserl's analysis of the Other in Cartesian Meditations and subsequent readings of this famous phenomenological account in Sartre, Levinas, Derrida, and Kristeva. The seminar will conclude by critically investigating 'examples' of the stranger and the strange (the Uncanny) in contemporary literature, psychoanalysis, politics, and art.

PHIL667001
Technology and Culture
GRIFFITH, WILLIAM
Spring 2020

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/philosophy.html
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

PHIL724001
Platonic Cosmology  
GURTLER, GARY
Spring 2020

The purpose of this course is twofold: to explore Platonic considerations of cosmology in the Timaeus; and to investigate Plotinus major study of the soul's relation to the sensible cosmos in IV 3-5 [27-29]. The Timaeus first describes the generation of the cosmos, with special attention to the four elements and their relation to the possibility of sensation. Fire and earth, for example, produce the motions that make things visible and tangible, with air and water as proportions that help connect things together (31b-34a). The next part concerns the relation of soul to body, its presence throughout the body, and the location of its powers in specific parts of the body.

PHIL753001
The Self and Selfhood: Analytic and Continental Approaches
ROMANO
Spring 2020
It has become self-evident to many contemporary philosophers that the best approach to the problem of selfhood is an analysis of the criteria of personal identity, or the identity of the self, by contrast with the criteria applying to the human animal. Locke was the first to make such a distinction and since then many attempts to refine Locke's criteria have emerged in contemporary thought (Perry, Shoemaker, Parfit). I will try to show that this standard approach to personal identity leads to insuperable problems and perhaps even to a dead-end: we need to put the whole problem in a new light. A completely different approach in terms of Selbstheit or ipseity has been sketched by Heidegger in *Sein und Zeit* and Ric?ur in *Oneself as Another*. I shall try to distinguish it from the standard approach and to extend it in a creative way. My reflection will therefore take into consideration both analytical and continental sources.

PHIL754001
Plato (Republic)
SALLIS, JOHN
Spring 2020
This course will focus on the specifically political dimension of Plato's Republic, especially on the account of the decline of the polis into tyranny. Plato's analyses will also be brought to bear on contemporary political thought and on the contemporary political scene.
PHIL770901
Aristotle on Science and the Sciences
WIANS, WILLIAM R
Spring 2020
Scholars increasingly appreciate the profound connections between Aristotle's philosophical positions in works such as the Ethics, De Anima, and Metaphysics and his theory of scientific knowledge, its conditions and methods. Knowledge may be logical, ethical, or physical; it may be practical, productive, or theoretical; it may be mathematical, physical, or theological; and while some things are more knowable to us, others are more knowable in themselves. Whether in psychology, metaphysics, ethics, or natural science, Aristotle's epistemological and methodological commitments determine his starting points, shape the exposition, and decisively influence the outcome of his investigations.

Physics Courses: Summer 2019

PHYS140001
The Art of Physics
HERCZYNSKI, ANDRZEJ
Summer 2019
This four week summer course is a contemporary prologue to classical physics themes for students seeking to gain an appreciation of the scope, methods, and tools of physics, and to reflect on its place among liberal arts. The course will present major physics ideas in a broader cultural context, providing historical perspectives and taking advantage of science museums in Florence, Pisa, and other places, where early modern science has its roots. Simultaneously, it will aim to develop specific, highly practical physics skills, such as order-of-magnitude estimates, dimensional analysis, and some problem solving techniques based on physics laws.

Physics Courses: Fall 2019

PHYS110001
Structure of the Universe I
DI BARTOLO, BALDASSARE
Fall 2019
An introductory course directed at non-science majors. Physical principles are developed and applied to our space and astrophysical environment. Topics include structure and evolution of the solar system, physics of the sun and planets, space discoveries, creation and structure of stars and galaxies, relativity and cosmology, extraterrestrial life, and astronomical concepts.

Credits: 03
Schedule: null
Room: None
Satisfies Core Requirement: Natural Science

PHYS150001
Foundations of Physics I
ZHOU, BRIAN B
Fall 2019
First semester of a two-semester algebra-based introductory physics course sequence, primarily for non-science majors, that covers the basic principles of physics. Emphasis is placed on problem-solving to demonstrate the implications of these principles, and to develop analytical skills. This course is similar to PHYS2100 in pace and content but with less emphasis on mathematical technique. First semester covers classical mechanics, including Newton’s laws, energy, rotational motion, fluids, thermal physics, oscillations, waves, and gravitation.

PHYS210001
Introduction to Physics I (Calculus)
GRAF, MICHAEL J
Fall 2019
First semester of a two-semester calculus-based introduction to physics primarily for biology majors and premedical students. The development and application of classical physical principles are covered, and students are introduced to more advanced mathematical techniques to extend these applications. Emphasis is placed on problem-solving to better understand the implications of these principles, as well as to develop analytical skills. Topics include classical mechanics, including Newton's laws, energy, rotational motion, hydrostatics and fluid dynamics, oscillations, waves, and gravitation.

Credits: 04
Schedule: M W F 9
Room: HIGGINS HALL 300
Satisfies Core Requirement: Natural Science
Comments: PHYS2050 is the laboratory course to supplement the lecture course material.
Prerequisites: MATH1100. (May be taken concurrently).
Corequisites: PHYS2110.
Cross-listed with: None
Frequency: Annually

PHYS220001
Introductory Physics I (Calculus)
HERCZYNSKI, ANDRZEJ
Fall 2019
First semester of a two-semester calculus-based introduction to physics for those majoring in the physical sciences. Students utilize analytical reasoning combined with mathematical formalism to fully explore the development, consequences and limitations of the classical principles of physics; similar to PHYS2100 in pace and content but at a greater depth appropriate for physical science majors. Class size is limited to promote classroom discussion. Topics cover classical mechanics, including Newton's laws, energy, rotational motion, oscillations, waves, and gravitation.

Credits: 04
Schedule: M W F 9
Room: HIGGINS HALL 225
Satisifies Core Requirement: Natural Science
Comments: PHYS2050 is the laboratory course to supplement the lecture course material.
Prerequisites: MATH1102. (May be taken concurrently).
Corequisites: None

PHYS310001
Vibrations and Waves
BEDELL, KEVIN
Fall 2019
This course is an introduction to the phenomena of vibrations and waves that span most of the areas in physics. The basic subject matter includes the following: mechanical vibrations and waves, free and forced vibrations and resonances, coupled oscillations and normal modes, vibration of continuous systems, propagation of mechanical and electromagnetic waves, phase and group velocity, interference and diffraction. The course also covers the basic concepts in first and second order differential equations, matrices, eigenvalues and eigenvectors and Fourier series.

PHYS410001
Classical Mechanics
NAUGHTON, MICHAEL J
Fall 2019
This course studies classical mechanics at the intermediate level and develops analytical skills for later physics courses. It includes: single particle dynamics and oscillations; conservative forces and conservation laws; gravitation and central force motion; Lagrangian and Hamiltonian dynamics; system of particles and rigid body dynamics.
PHYS440001
Quantum Physics I
BURCH, KENNETH S
Fall 2019
First of a two-semester sequence providing a comprehensive treatment of the principles and applications of non-relativistic quantum mechanics. This semester focuses on basic principles. Topics covered include: historical development of quantum mechanics; the uncertainty principle; the Schrodinger equation and its solution for simple one-dimensional potentials, including constant potentials and the harmonic oscillator; formal presentation of the postulates of quantum mechanics using Dirac notation; commutation relations; basic scattering theory; formulation of Schrodinger equation in three-dimensions, central potentials, orbital angular momentum, and the hydrogen atom; spin angular momentum and the addition of angular momenta.

PHYS454501
Condensed Matter Physics
ZELJKOVIC, ILIJA
Fall 2019
Condensed matter physics concerns all aspects of the physics of "condensed" materials, that is, solids, liquids, gels, and plasma. It is the science behind many technologically-relevant applied and integrated science and engineering fields. This course primarily covers the solid state, starting with crystal lattices and their vibrations (phonons), and descriptions of crystalline metals, semiconductors, insulators, and superconductors. It covers in some detail the electrical, magnetic, optical, and thermal properties of materials, and introduces the student to noncrystalline solids and so-called "soft condensed matter."

PHYS460001
Statistical Mechanics and Thermodynamics
BROIDO, DAVID
Fall 2019
The results of classical thermodynamics are deduced from a statistical basis, including the concepts of temperature and entropy, and the three laws of thermodynamics. Applications to ideal and real gases. Basic elements of statistical mechanics, including the canonical ensemble, partition function, equipartition theorem and Maxwell velocity distribution. Simple application of Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac Statistic.

PHYS774101  
Quantum Mechanics I  
RAN, YING  
Fall 2019  
Introduction includes elements of the linear algebra in Dirac notation. Topics include postulates of quantum theory, simple problems in one dimension, classical limit, harmonic oscillator, Heisenberg uncertainty relations, systems with N-degree of freedom, symmetries, rotational invariance and angular momentum, hydrogen atom, and an introduction to spin. Also included is the path integration formulation of quantum theory.

Credits: 03  
Schedule: M W 9-10 50  
Room: HIGGINS HALL 263  
Satisfies Core Requirement: None  
Comments: None  
Prerequisites: None  
Corequisites: None

PHYS872201
Quantum Computation: Software and Hardware
RUBIN, RON S
Fall 2019
The course will be a graduate-level course covering quantum computation and quantum information. Topics include a review of classical and quantum methods, quantum gates, classical and quantum algorithms and quantum supremacy, quantum key distribution, entanglement-as-a-resource, and the physical realization of quantum computers. Prerequisites include undergraduate quantum mechanics and linear algebra.

Credits: 03
Schedule: T TH 10 30*

PHYS876101
Solid State Physics I
TAFTI, FAZEL

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/physics.html
Fall 2019
Introduction to the basic concepts of the quantum theory of solids. Drude and Sommerfeld theory, crystal structure and bonding, theory of crystal diffraction, and the reciprocal lattice, Bloch theorem and electronic band structure, nearly free electron approximation and tight binding method, metals, semiconductors and insulators, dynamics of crystal lattice, phonons in metals, semiclassical theory of electrical and thermal transport, introduction to magnetism and superconductivity.

Physic Courses: Spring 2020

PHYS150101
Foundations of Physics II
ZHOU, BRIAN B
Spring 2020
Second semester of the two-semester algebra-based introductory physics course sequence primarily for non-science majors. This course is similar to PHYS2101 in pace and content but with less emphasis on mathematical technique. Topics to be covered are fundamentals of electrostatics, simple electrical circuits, magnetism, electromagnetism, electromagnetic oscillations and waves, physical optics, and, if time allows, basic concepts and applications of special relativity and quantum physics.

**Credits:** 03

PHYS210101
Introduction to Physics II (Calculus)
GRAF, MICHAEL J
Spring 2020
Second semester of a calculus-based introduction to physics primarily for biology majors and premedical students. The development and application of classical physical principles are covered, and students are introduced to more advanced mathematical techniques to extend these applications. Emphasis is placed on problem-solving to better understand the implications of these principles, as well as to develop analytical skills. Topics are electrostatics, electrical circuits, magnetism, electromagnetism and electromagnetic waves, topics in physical optics, and basic concepts of special relativity and quantum physics.

Credits: 04
Schedule: M W F 9
Room: HIGGINS HALL 300
Satisfies Core Requirement: Natural Science
Comments: PHYS2051 is the laboratory course to supplement the lecture course material. No class on 07/04/2017, make-up class is scheduled on 07/05/2017.
Prerequisites: MATH1101. (May be taken concurrently).
Corequisites: PHYS2111.
Cross-listed with: None
Frequency: Annually

PHYS210102
Introduction to Physics II (Calculus)
GRAF, MICHAEL J
Spring 2020
Second semester of a calculus-based introduction to physics primarily for biology majors and premedical students. The development and application of classical physical principles are covered, and students are introduced to more advanced mathematical techniques to extend these applications. Emphasis is placed on problem-solving to better understand the implications of these principles, as well as to develop analytical skills. Topics are electrostatics, electrical circuits, magnetism, electromagnetism and electromagnetic waves, topics in physical optics, and basic concepts of special relativity and quantum physics.

PHYS220101
Introductory Physics II (Calculus)
GOCHAN, MATTHEW
Spring 2020
Second semester of a calculus-based introduction to physics for those majoring in the physical sciences. Students utilize analytical reasoning combined with mathematical formalism to fully explore the development, consequences, and limitations of the classical principles of physics; similar to PHYS2101 in pace and content but at a greater depth appropriate for physical science majors. Class size is limited to promote classroom discussion. Topics include fundamentals of electrostatics, simple electrical circuits, magnetism, electromagnetism and electromagnetic oscillations and waves, and selected topics in physical optics.

**Credits:** 04  
**Schedule:** M W F 9  
**Room:** HIGGINS HALL 225  
**Satisfies Core Requirement:** Natural Science  
**Comments:** PHYS2051 is the laboratory course to supplement the lecture course material.  
**Prerequisites:** MATH1103. (May be taken concurrently).  
**Corequisites:** None  
**Cross-listed with:** None  
**Frequency:** Annually  

---

**PHYS330001**  
**Introduction to Modern Physics**  
**HERCZYNSKI, ANDRZEJ**  
**Spring 2020**  
This course is a transition between introductory and advanced physics courses for science majors. The basic subject matter includes the two principal physical theories of the twentieth century--relativity and quantum mechanics. Included are the following: the Lorentz transformation, kinematic consequences of relativity, origin of the quantum theory, one-dimensional quantum mechanics, quantum mechanics of a particle in three dimensions, applications to the hydrogen atom and to more complex atoms, molecules, crystals, metals, and semiconductors.

**Credits:** 04  
**Schedule:** T TH 12*  
**Room:** HIGGINS HALL 265  
**Satisfies Core Requirement:** None  
**Comments:** None  
**Prerequisites:** None  
**Corequisites:** None
**PHYS350001**  
**Advanced Independent Research**  
**NAUGHTON, MICHAEL**  
**Spring 2020**  
This course is reserved for Physics majors selected as Scholars of the College. Content, requirements, and credits by arrangement with the Chairperson.  

**Credits:** 06  
**Schedule:** BY ARRANGEMENT

---

**PHYS420001**  
**Electricity and Magnetism**  
**ZELJKOVIC, ILIJA**  
**Spring 2020**  
To provide students with the background in electricity and magnetism necessary to deal with experimental problems in electromagnetism. Part 1 will present the mathematical foundations for the entire treatment of electromagnetism. Part 2 deals with Coulomb's law and the electrostatics based on this law. Part 3 addresses stationary currents and magnetostatics. Part 4 deals with induction and quasi-stationary phenomena, self- and mutual-induction. Part 5 presents a treatment of Maxwell equations and the consequences of these equations, e.g., energy and momentum conservation, Plane waves, reflection, and refraction. Time permitting, we will discuss radiation from moving charges.  

**Credits:** 03  
**Schedule:** M W F 12  
**Room:** HIGGINS HALL 225

PHYS430001
Numerical Methods and Scientific Computing
ENGELBRECHT, JAN
Spring 2020
This course introduces students to a variety of numerical methods and then applies these methods to solve a broad range of scientific problems. These problems include examples from physics as well as several other disciplines, including chemistry, mathematics, economics, and finance. Numerical techniques for solving problems expressed in terms of matrix, differential and integral equations will be developed. Other topics will include statistical sampling and Fourier and Laplace transforms.

Credits: 04
Schedule: T TH 9-11 45
Room: HIGGINS HALL 260
Satisfies Core Requirement: None
Comments: This course is intended for students who plan to minor in Scientific Computation. It is also an elective for Physics majors.
Prerequisites: MATH2202. With permission of the Instructor.
Corequisites: None
Cross-listed with: ECON2215
Frequency: Annually

PHYS435001
Experiments in Physics I
NAUGHTON, MICHAEL J
Spring 2020
The course includes experiments in optics, solid state physics, nuclear physics, spectroscopy, x-ray, and electron diffraction. Students will carry out independent projects aimed at acquiring a sound understanding of both the physical principles involved in each subject area and of the principles and problems of modern experimental physics.
Credits: 03
Schedule: T TH 1 30-4
Room: HIGGINS HALL 250
Satisfies Core Requirement: None
Comments: Lab fee required.
Prerequisites: None
Corequisites: None
Cross-listed with: None
Frequency: Annually

PHYS440101
Quantum Physics II
TAFTI, FAZEL
Spring 2020
Second semester of the PHYS4407-4408 sequence, focusing on applications. Topics covered include: treatment of the many-particle systems, including effects of spin and symmetry of the wave function; many-electron atoms and the periodic table; basic elements of quantum statistics; approximation techniques, including non-degenerate and degenerate perturbation theory and the variational principle; time-dependent perturbation theory and the interaction of electromagnetic radiation with matter.

PHYS440701
Optical Spectroscopy of 2D Materials
BURCH, KENNETH S
Spring 2020
The course objective is to overview of various Optical Spectroscopic Methods and their use in characterizing and revealing new behavior in 2D Materials. The course will explain the basic principles and experimental pit-falls of infrared and Raman micro-spectroscopies. It will then examine their role in characterizing and revealing novel behavior in graphene, magnetic, and superconducting materials.

Political Science Courses: Summer 2019

POLI104101
Fundamental Concepts of Politics
MCCRANOR, TIMOTHY
Summer 2019
This is an introduction to the study of politics through a consideration of some of the basic elements associated with governing: the political association, justice, constitutions, equality, liberty, conflict among citizens and between citizens and governments, conflict among governments. Each of the course instructors uses a different set of readings, drawing on a mix of political philosophy texts, works on international politics, novels, biographies. Emphasis is on interesting and important readings, discussion, and writing.

POLI104201
Introduction to Modern Politics
MCCRANOR, TIMOTHY
Summer 2019
This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself--the most typical modern political arrangement--as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

Credits: 03
Schedule: JUN 24 - JUL 31
POLI120601
The Politics of Self-Rule: Ireland, Northern Ireland, and Scotland
HARTNEY, MICHAEL T
Summer 2019
A century ago, Ireland, Northern Ireland, and Scotland were integral parts of Great Britain and the United Kingdom and were governed by the British Parliament. Now each has its own parliament, although only Ireland is fully independent of the UK. We will consider the development of self-rule in these three places, how self-rule operates today and the major challenges that each administrative unit faces. We will also examine the key political questions that each parliament is currently debating. Our understanding of these matters will be greatly enhanced by the visits we will pay to each of the three parliaments and to other sites that are particularly important for understanding the political development of the three places. Students will also benefit from interacting with a variety of political leaders, policy analysts, journalists, civil servants, and citizen activists in Ireland, Northern Ireland, and Scotland.

POLI225101
Food, Power, and Politics
NAKAZATO, HIROSHI
Summer 2019
This course will seek to provide an intellectual and analytical-driven framework around the question of food as an integral part of any human experience, but particularly our experience with food through across cultures. We each have a unique opportunity to understand better the role of food in each of our lives as we move through this summer program by examining our own cultural and political assumptions and those of others from a new point of view. We can appreciate the lenses brought by other individuals, cultures and places to the acts of eating and producing food. Finally, we can express the human experience of food in ways that represent our understandings, experiences and vision for a healthy, just and pleasurable relationship to food in ways that can be shared and appreciated by others. In eating and producing food, we exist simultaneously in a deeply personal and communal place, a place of the present, past and future in which we are never more and less than human.

POLI262501
Islam, the Muslim World, and Democratic Politics
DIPASQUALE, DAVID M
Summer 2019
What is the relationship between Islam and democracy? Are human rights located in the Koran or some other, more human, source? Are the appeals to an Islamic government or "State" based on fact or fiction? How might we appeal to the sacred sources of Islam to promote attitudes of toleration, inclusion, and respect? These and similar questions will be considered throughout the semester. The purpose of this course will be to use the events related to the Arab Winter and continuing instability throughout the Muslim world as a springboard for a critical evaluation of the respective merits of the two forms of regime. No prior acquaintance with Islam or the Arabic language is necessary or required.

POLI104201
Introduction to Modern Politics
DIPASQUALE, DAVID M
Fall 2019
This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself--the most typical modern political arrangement--as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

How Democracies Die: A Political Postmortem
BERRY, MATTHEW S
Fall 2019
Is there an American Empire? If so, is that a good or a bad--a just or an unjust--thing? While we might typically think that democracies are opposed to empire, history tells a different story: from ancient Athens and Rome to modern Britain and France, many democratic republics have become empires. Through the study of foundational works in the history of political thought, we will try to figure out why that this happens and what, if anything, we can do about it.

POLI106101
Introduction to American Politics
HARTNEY, MICHAEL T
Fall 2019
An overview of contemporary American government and politics focusing on how the institutions envisioned by the Framers of the Constitution (Congress, the judiciary, the executive) function today. Particular emphasis will be placed on how developments since the 1960s have affected the interaction of national, state, and local governmental actors, political participation, the articulation of interests, and policy formulation and implementation. Topics covered will include the media, public interest and advocacy organizations, campaign technologies and consultants, and public policy research institutes (think tanks). Whenever possible, comparisons between the U.S. and other advanced industrial democracies will be explored.

POLI108101  
Introduction to International Politics  
CRAWFORD, TIMOTHY W  
Fall 2019  
This course examines the principle sources of the behavior of countries in international politics, including the nature of the international system and the decision-making process within states. It examines such issues as the sources of power, the causes and implications of the security dilemma, the dynamics of alliances, the causes of war, international political economy, and the dilemmas of world order. This course is strongly recommended for students who plan to take upper level international politics courses.

POLI230901
The U.S. Congress
HOPKINS, DAVID A
Fall 2019
Americans are habitually fierce critics of Congress even as they like (and usually reelect) their own representatives. In this course, we try to explain this paradox by investigating the ways in which the structure and organization of Congress allows members to cultivate personal popularity despite rampant disapproval of the institution in which they serve. Among other topics, the course addresses the nomination and election of congressional candidates, the roles of congressional parties and leaders, and the influence over the legislative process of the committee system, rules and procedures, lobbyists and interest groups, and other branches of government.
POLI231401
Gender and Politics
SCHLOZMAN, KAY L
Fall 2019
In this course we probe the role of women in American politics and the efforts that have been made on behalf of the collective political interests of women. We consider gender differences among citizens in public opinion, political participation, and vote choices and gender differences in the experiences and comportment of political leaders. Finally, we analyze the politics of a number of public policies having a special impact on women--among them, employment discrimination and other workplace issues, child care, equal opportunity in education, sexual harassment, and sexual violence.

POLI240701
Introduction to South Asian Politics
MARCESSE, THIBAUD
Fall 2019
South Asia is not just home to the world’s fastest growing economy (India), it is also a region that continues to face significant security and development challenges, with some of the longest running interstate conflicts (between India and Pakistan for instance), and severe poverty and inequality across countries such as India, Pakistan, Bangladesh, or Sri Lanka. What accounts for the variation in security and development outcomes across and within these countries? Why are some of them better able to ensure peace and security and basic service delivery than others? This course proposes an overview of the politics of South Asia as a regional security complex, starting with the colonial legacies of state building in the region, but also looking at the impact of economic reforms and the changing international environment since the end of the Cold War and the rise of India and China as a global powers.
POLI241001
Latin American Politics
PURNELL, JENNIE
Fall 2019
This course is an introduction to politics in Latin America. We'll look at efforts of Latin Americans to create more inclusive, equitable, and rights-respecting democracies in a region long characterized by political instability, authoritarianism, and great inequalities in the distribution of wealth and power. While we'll examine the region as a whole, our focus will be on Argentina, Bolivia, Brazil, Chile, and El Salvador, with a brief excursion to Mexico. No prior knowledge of Latin America is required for the course, which is open to sophomores, juniors, and seniors.

POLI243801
Comparative Politics of Human Rights
PURNELL, JENNIE
Fall 2019
Every day, we seem to hear and read about horrific violations of human rights, from chemical warfare in Syria, to the plight of Rohingya refugees fleeing Myanmar, to the forced separation of migrant families in the United States, to violence against women and LGBT persons nearly everywhere. Since the end of World War II, countless human rights laws have been promulgated, institutions created, and advocacy campaigns launched. Have they made a difference? If so, under what conditions? Is respect for human rights greater or worse than it was more than half a century ago? We'll explore these issues and questions over the course of the semester.

POLI244001
A Continent on the Move: Immigration in Contemporary Europe
MOLLES, ELITSA V
Fall 2019
Why do people migrate? How do host states and societies react to an increasingly multicultural and diverse foreign population? What impacts the political, economic, and socio-cultural incorporation of Europe's immigrants? This course explores the central debates in immigration studies through a survey of contemporary Western Europe, with cases comprising immigrant populations in both traditional immigrant receivers (e.g., Moroccans in France or Turks in Germany) and "new" immigration countries (e.g., Africans and Latin Americans in Spain or Poles and Nigerians in Ireland). Middle Eastern refugees in Europe will be discussed throughout the semester. Particular emphasis is placed on how the relationship between the immigrant and the receiving state transforms both.
POLI244101
Comparative Politics of Development
HONIG, LAUREN
Fall 2019
This is a course about power, politics, and global development. Why are some countries rich and others poor? Why do some communities have few resources while their neighbors have plenty? How does inequality affect politics and vice versa? To answer these questions, we will start by critically examining what development is and how it can be measured. Then we will move on to examine theories linking politics to development. We will explore the effects of colonialism, geography, conflict, natural resource wealth, and foreign aid, among others. The readings from this course draw from political science, economics, anthropology, and history. The course engages with active policy debates about development while examining the deep roots of global inequality.

POLI244601
Natural Resource Politics
HONIG, LAUREN
Fall 2019
This course examines the relationship between natural resources and politics, with an emphasis on developing countries. The first half of the semester focuses on the paradox of plenty: when and why does wealth in natural resources lead to negative outcomes for governance, democracy, and development? In the second half of the semester, we will examine scarcity and conflict. How should scarce resources such as good land and clean water be managed? When does competition over resources devolve into conflict? Is there something special about diamonds? In examining these questions (and others), we will seek to understand how these issues are conditioned by policies and political institutions.

POLI250601
UN and International Security
CRAWFORD, TIMOTHY W
Fall 2019
The course begins with the League of Nations and the origins of the UN and its key structures. Then we examine the UN's role in collective security, arms control and disarmament, and peacekeeping as these activities were practiced during the Cold War and as they have evolved in recent years. We then turn to UN activities that go beyond treating the symptoms of conflict and aim instead to fight its root causes, such as racism and human rights violations. Finally, we close with an exploration of the meaning of UN legitimacy and the future prospects of the Security Council.

POLI251801
Ideas, Values, and American Foreign Policy
DEESE, DAVID A
Fall 2019
What are the historical roots and contemporary implications of liberalism and nation-building in American foreign policy? In what ways have liberalism and nation-building shaped presidential foreign policy doctrines and priorities? How have U.S. foreign policy leaders attempted to spread core ideas and institutions to other countries? In particular, how have key American officials understood the relationship between markets and democracy? To what extent might U.S. policies and decisions be expected to spread liberalism to countries in the Middle East? Finally, what can be learned from the continuing cases of Afghanistan and Iraq?
POLI252501
Politics and Institutions of International Economics
DEESE, DAVID A
Fall 2019
Examines the contending theoretical approaches to the politics of international economic relations through the issue of globalization. Emphasizing the period since World War II, it analyzes the primary political questions and international institutions associated with trade, money and finance, multinational corporations, and development. It concludes with the perennial challenge of leadership and change in international political economy.

Global Governance
ERICKSON, JENNIFER L
Fall 2019

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/political-science.html
How do states and other actors in the international community manage global challenges? What are the sources of order in international politics? In the absence of world government, questions about how international rules are made, monitored, and enforced are important and widespread. This course provides an overview of the concept and theories of global governance, with a focus on power, institutions, and norms in contemporary international relations. It then examines the stakeholders, processes, and outcomes of global governance in the context of policy areas such as fragile states and conflict, the global economy, arms control, health, and the environment.

Schedule: T TH 1 30*
Room: DEVLIN HALL 010
POLI334001
Sem: Democracy and Our Schools
HARTNEY, MICHAEL T
Fall 2019
This course examines K-12 education policy through the lens of American politics. On the one hand, schools influence American democracy by cultivating norms of civic and political engagement among youth. Yet public schools are also agencies of government, which means that education policy is established through democratic political processes. This interplay between democracy and education raises fundamental questions about the consequences of living in a nation that relies on elected officials to govern its schools. We begin by examining contestation over the very purposes of public education. We then assess the formal institutions, groups, and ideas that shape education policymaking. Along the way we will be guided by questions such as: Does democracy compromise educational equity? How much say should the public have in determining education policy? Should schools be organized primarily by politics or by markets?

POLI351101
Realist Theories of International Relations
KIRSHNER, JONATHAN D
Fall 2019
"Realism" is often invoked in international relations to mean many different things. By policymakers, it is often cited as a source of support for - and opposition to - the use of force by the U.S. in world politics. By scholars, the term realism has been deployed as a rhetorical weapon (implying opponents are "unrealistic"), as a challenge to well-intended but "utopian" foreign policies, and, often, in an academic context, as a synonym for "structuralism," which it need not be. In this course, we will look closely and critically at the tradition of realism in International Relations Theory, both to find out exactly what realism does stand for and to see how it can help us better understand world politics more generally.

POLI352101
International Law
NAKAZATO, HIROSHI
Fall 2019
This course examines the role of international public law (the "law of nations") in the world today. It takes as its starting point the academic (and practical) debate about the utility of international law in world politics. From there, we consider the philosophical foundations of law, the sources of international law, and the application of international law in different arenas. In particular, the course will focus on how international law deals with a number of issues, including the connection between domestic and international law and the laws on territory, jurisdiction, human rights, and security, as well as other relevant topics.

POLI352701  
Sem: Terrorism, Insurgency, and Political Violence  
KRAUSE, PETER J  
Fall 2019  
Terrorism and insurgency dominate the headlines today, but how much do we really know about these forms of political violence? Are they inventions from the modern era, or do they have a deeper past? What drives an individual to join an armed group? Why do some groups choose to employ violence, while others do not? Are terrorism and insurgency effective political tactics? Just how significant is the threat of terrorism? This course will address these and other questions, while introducing students to relevant analytical frameworks, theories, and cases concerning terrorism, insurgency, and related forms of political violence. In addition to its topical focus, this course could rightly be called a methods course. Students in the class will learn how to improve their analytical thinking, conduct high quality research, and present an effective argument, both orally and in writing. They will learn the potential and pitfalls of theories of political violence through constant analysis and engagement with the history of terrorism and insurgency. By the conclusion of the course, students will emerge not only with a far richer understanding of these issues, but also as more sophisticated consumers, analysts, and producers of knowledge.

POLI444901
Domestic Politics of Post-1945 Europe
LAURENCE, JONATHAN
Fall 2019
This course examines civil society and parliamentary democracy in Western Europe since World War II. What are the distinctive features of European political systems? How have the major political cleavages developed and changed in the last sixty years? Material will cover institutions and political participation in several countries, from prime ministers and presidents to political parties and social movements. We will consider the influence of Europeanization and regional movements on domestic politics. The course will also pay particular attention to the political impact of mass labor migration, including the emergence of right wing parties and contemporary politics of cultural diversity.

**East Asian Security**  
**ROSS, ROBERT S**  
**Fall 2019**  
This class offers an analytical perspective on the strategic conditions of post-Cold War East Asia. It examines the regional political structure, the strategic characteristics of the region's great power relationship (U.S.-China relations), and the implications for the conflicts on the Korean peninsula, in the Taiwan Strait, and in the South China Sea and the role of alliance relationships in regional diplomacy. From these different perspectives, it attempts to understand the sources of state behavior and prospects for regional stability and instability.

POLI459301
International Relations of the Middle East
KRAUSE, PETER J
Fall 2019
Media coverage of the Middle East increases by the day, but in-depth knowledge of the region and its politics remain in short supply. Why has the Middle East seemingly experienced so much conflict? How do ethnic and religious identities, domestic politics, and the balance of power between nations help explain state behavior in the region? What explains variation in the political situation of Middle Eastern states since the beginning of the Arab Spring? This course will address the international relations of the Middle East from World War I to today. The course will focus on the most powerful states in the region-Egypt, Israel, Iran, Iraq, Saudi Arabia, Syria, and Turkey-in addition to foreign powers that have historically played a significant role in the Middle East, such as the United States and Great Britain. They are the key actors in the past and present wars, negotiations, alliances, revolutions, movements, interventions, and peace treaties that are the focus of the course.

**Honors Seminar: Human Rights and the Refugee Crisis**  
**BANUAZIZI, ALI**  
**Fall 2019**
This course explores cultural values, religious traditions, and political conditions that enhance or impede human rights within individual states and the international community. It focuses on the following key questions: Can religious traditions and values reinforce human rights or should they be promoted on purely secular grounds? How should conflicts between universal human rights norms and indigenous traditions and values be resolved, and when is it legitimate for outside powers or international agencies to intervene in response to human rights violations by sovereign states? And who bears the responsibility to protect the rights of stateless persons and refugees?

Quantitative Methods in Political Science  
**HOPKINS, DAVID A**  
**Fall 2019**
This course provides an introduction to quantitative methods commonly employed in the social sciences to make descriptive and causal inferences, with a particular focus on the general linear model used in bivariate and multivariate regression analyses. It requires no previous statistical experience and emphasizes practical applications of the concepts introduced. Students will have the opportunity to conduct an original quantitative analysis to address an empirical research question of their choice.

**Credits:** 03  
**Schedule:** W 4 30-7  
**Room:** MCGUINN HALL 223  
**Satisfies Core Requirement:** None  
**Comments:** POLI7232 is a non-subfield graduate course; this course will fulfill an elective course in your political science graduate degree program.

**POLI772601**  
**Democracy in America**  
**MELNICK, ROWELL S**  
**Fall 2019**  
This seminar will use Alexis de Tocqueville's *Democracy in America* to examine fundamental issues in the study of American politics. Readings from *Democracy in America* will be coupled with contemporary political science works. What are Tocqueville's central insights? Was his description of American politics accurate? How has the U.S. changed since he wrote? These are among the questions we will address in the course.

**Credits:** 03  
**Schedule:** M 4 30-7  
**Room:** MCGUINN HALL 226A  
**Satisfies Core Requirement:** None  
**Comments:** Do not take this course if you have already taken PO392/POLI4392.

POLI780701
International Relations Field Seminar
ERICKSON, JENNIFER L
Fall 2019
This seminar provides an overview of the field of international relations. It has four main goals: (1) to understand the dominant theoretical perspectives and debates within the field; (2) to evaluate the strengths and weaknesses of contrasting arguments within those debates; (3) to ground individual empirical interests within the context of these broader theoretical issues; and (4) to provide a theoretical foundation for academic research and teaching in international relations. As a whole, the course is intended to provide theoretical and conceptual tools for the academic study of international relations.

POLI780901  
Modern State  
EASTER, GERALD M  
Fall 2019  
This seminar examines the modern state in comparative historical perspective. The focus is on the relationship between war, the state and society. The course considers how modern warfare contributed to the rise of the modern state as the principal form of organization in world politics. In addition, it seeks to demonstrate how the state gives shape to modern society. Finally, the course addresses the issue of the decline of the modern state in response to post-modern military and economic challenges.

POLI781001
**Power Transitions in Theory and Practice**
ROSS, ROBERT S

**Fall 2019**
This class offers an analytical perspective on how great powers respond to power transitions (the rise and decline of powers), and the implications for war and peace. It considers multiple theoretical perspectives on power transitions, with attention to the factors that determine the sources of power transitions and the factors that affect the course of great power conflict. It considers case studies of power transitions drawn from European and Asian history, examining the variation in origins and outcomes. It considers the implications of these theoretical and historical perspectives for understanding the contemporary U.S.-China power transition and the prospects for war and peace.

POLI790801
Adam Smith
HANLEY, RYAN P
Fall 2019
An intensive survey of the moral and political philosophy of Adam Smith. Primary focus on his two published texts, *The Theory of Moral Sentiments* and the *Wealth of Nations*, with some additional consideration of the roles played in his larger system his lectures on rhetoric and jurisprudence and his essays on scientific inquiry. Specific concepts to be examined will include the key concepts of Smith's moral theory (esp. his concepts of sympathy, spectatorship, virtue, perfection and corruption), the key concepts of his political theory (esp. his concepts of authority, law, and the state and its responsibilities), and the key concepts of his economic thought (esp. the benefits and effects of the division of labor, free trade, and economic planning).
POLI793801  
The Political Philosophy of Rousseau  
KELLY, CHRISTOPHER J  
Fall 2019  
This course will involve a close reading of Rousseau's *Emile*. It will investigate the relation between individual happiness and devotion to the community.

Political Science Courses: Spring 2020

POLI104101
Fundamental Concepts of Politics
HETZNER, CANDACE

Spring 2020
This is an introduction to the study of politics through a consideration of some of the basic elements associated with governing: the political association, justice, constitutions, equality, liberty, conflict among citizens and between citizens and governments, conflict among governments. Each of the course instructors uses a different set of readings, drawing on a mix of political philosophy texts, works on international politics, novels, biographies. Emphasis is on interesting and important readings, discussion, and writing.

POLI104201
Introduction to Modern Politics
BEHNEGAR, ALICE P
Spring 2020
This course examines the politics and government of modern states, identifying what is distinctly modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself—the most typical modern political arrangement—as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

POLI106101
Introduction to American Politics
LANDY, MARC
Spring 2020
An overview of contemporary American government and politics focusing on how the institutions envisioned by the Framers of the Constitution (Congress, the judiciary, the executive) function today. Particular emphasis will be placed on how developments since the 1960s have affected the interaction of national, state, and local governmental actors, political participation, the articulation of interests, and policy formulation and implementation. Topics covered will include the media, public interest and advocacy organizations, campaign technologies and consultants, and public policy research institutes (think tanks). Whenever possible, comparisons between the U.S. and other advanced industrial democracies will be explored.

Policy and Politics in the U.S.
HARTNEY, MICHAEL T
Spring 2020
This course is designed to acquaint students with the major features of American policymaking at the national level by engaging in primary research and extensive memo-writing on selected policy issues. Each student will be expected to become familiar with at least three policy areas, understanding existing government policies and underlying tradeoffs and paradoxes; proposing intellectually defensible and politically feasible reforms; and suggesting political strategies for enacting these reforms. Possible topics include social security, environmental regulations, federal aid and mandates for education, affirmative action, welfare, and the use of public lands.

POLI233401
Political Behavior and Participation
HOPKINS, DAVID A
Spring 2020
How do citizens form opinions about politics, and how do these attitudes influence their participation in political life? This course addresses these questions by surveying the most prominent sources of influence on the political orientations of individuals, including personality effects, socialization, interpersonal dynamics, cognitive biases, and the news media. We then apply these findings to the most common forms of political behavior, including party affiliation, electoral participation, activism, and protest, aiming to explain why different citizens support different political candidates and causes—as well as why some members of the public engage extensively in political activity while others remain uninvolved.

POLI233801
Environmental Politics and Policy
HARTNEY, MICHAEL T
Spring 2020
This course provides an overview of environmental politics in the U.S., with an emphasis on the ways in which environmental policy is developed and implemented. We begin by analyzing the historical development of environmental policy in the U.S. paying close attention to how the environment as an issue has evolved from the time of the country's founding through to the modern environmental movement. We then examine specific case studies related to contemporary policy challenges. Whether climate change, nonpoint source pollution, Not in My Back Yard (NIMBY) politics, or natural disasters, today citizens are confronting the consequences of rapid economic growth and development. Along the way we will consider the key actors that shape environmental outcomes including: Congress, the EPA, industry lobbyists, state and local environmental agencies, advocacy groups, the science community, and the private sector.
POLI234101
American Political Thought I
HALE, DENNIS B
Spring 2020
This course examines American political thought from the colonial settlements through the end of the Civil War. Topics include: religion and politics; modern liberalism; republican and democratic ideas in the colonies and states; the Constitution; parties; race and slavery; equalitarian ideas in politics, religion, and private life; judicial review, federalism, the democratic executive, constitutionalism, and representative government.

POLI234201
American Political Thought II
KERSCH, KENNETH I
Spring 2020
This course surveys the history of American political thought since the Civil War, with an emphasis on both recurring themes (such as liberal individualism and religiosity) and resurgent conflicts (such as over the scope of government power, and the meaning of democracy and political equality). Topics include Populism, Progressivism, feminism, Social Darwinism, the Social Gospel, New Deal/Great Society liberalism, civil rights, the Beat Generation, Black Power, the student revolts of the 1960s, the sexual revolution of the 1970s, and the 1980s conservative ascendancy.

POLI240501
Comparative Politics of the Middle East  
BAILEY, KATHLEEN T  
Spring 2020  
The course explores origins of Muslim majority societies and political systems in the Middle East. It covers the formative era of Islamic civilization, and traces the diffusion of the Middle Eastern Islamic paradigm, culminating in the Ottoman system, and explores the social and political disruptions caused by the breakup of Muslim empires and establishment of European economic, political and cultural domination. It addresses how these forces led to the creation of national states and changes in class structure, and explores how the failure of Western forms of modernization and political organization led to demands for the formation of new political communities based on the revival of Islamic principles. Discussions will center Islam's compatibility with liberalism, secularization, modernity, democracy, and terrorism. Recent developments surrounding the "Arab Spring" and its aftermath will be explored. The course includes a crisis simulation exercise.

POLI242201
Comparative Social Movements
CHRISTENSEN, PAUL T
Spring 2020
This course examines the theoretical and empirical literature on social movements in order to understand their genesis, evolution, and successes and failures. We will start by exploring the international theoretical literature on social movements, in order to identify commonalities and differences in the experiences of social movements in a wide array of locations and historical moments. The course will then turn to a more detailed empirical study of a number of social movements, some international, some national, some regional, and some local, including labor movements, indigenous movements, women's movements, movements based on liberation theology, and national liberation/terrorist movements.

Comparative Politics of Human Rights
PURNELL, JENNIE
Spring 2020
Every day, we seem to hear and read about horrific violations of human rights, from chemical warfare in Syria, to the plight of Rohingya refugees fleeing Myanmar, to the forced separation of migrant families in the United States, to violence against women and LGBT persons nearly everywhere. Since the end of World War II, countless human rights laws have been promulgated, institutions created, and advocacy campaigns launched. Have they made a difference? If so, under what conditions? Is respect for human rights greater or worse than it was more than half a century ago? We'll explore these issues and questions over the course of the semester.

POLI245101
France and the Muslim World
LAURENCE, JONATHAN
Spring 2020
Colonies, migrations, wars, world cups, and terrorism... For over two centuries, the French Republic (and Empire) has had a complex and occasionally tormented relationship with Islam and the Muslim world. The exchange of ideas, politics--and populations--has transformed all parties involved. At times serving as a beacon of freedom and enlightenment, at other times France's relationship with its citizens of Muslim origin and its Mediterranean neighbors has been fraught with tensions. This course will examine these relationships through political science texts and with the aid of films and novels.

POLI251501
The Politics of International Money and Finance
KIRSHNER, JONATHAN D
Spring 2020
The management of money is generally understood to be a highly complex and technical matter, and as a result, it is commonly argued, best left in the hands of dispassionate technocrats guided by the neutral logic of abstract economic theory. But money is always and everywhere a political phenomenon. When it comes to questions of money and finance, locally and globally, political factors and forces inevitably, inescapably, and fundamentally shape choices and determine outcomes. In this course we consider the political foundations of monetary matters, with a focus on topics including central banking, financial crises, the future of the dollar, the unique social meaning of money, the Euro crisis, and more.

**Politics of Energy and Climate in the U.S. and International Perspective**  
**DEESE, DAVID A**  
**Spring 2020**  
Why is energy and climate policy fundamentally political, deeply entwined with human, national, and international security, and critical to global stability and well-being? Major course units assess the main actors and institutions in energy; including OPEC and international markets; contrast the primary challenges confronting energy policy in the exporting and importing states; evaluate the implications of climate disruption and the solutions across the sixty largest greenhouse gas emitting states; and analyze how energy and climate politics shapes global security and sustainability. Class members will also conduct a global climate negotiation and study in depth the regional security and political economy of the (Persian) Gulf states.

POLI254801
The World Wars: Causes, Conduct, and Unintended Consequences
O’ROURKE, LINDSEY A
Spring 2020
This course examines the origins, military conduct, and societal consequences of World War I and World War II. We will look at each war from the perspective of state leaders designing their state's military strategy and the soldiers fighting for them. What caused the outbreak of each war? What was each state's military strategy and how did it interact with the strategies of other states? Why were so many soldiers willing to risk their lives and kill others on an unprecedented scale of destructiveness? Topics covered include: the social, political, and technological developments necessary to fight wars of this scale; domestic, accidental and interstate explanations for WWI; the military strategies of the major combatants in both wars; the Versailles Treaty and Post-WWI order; individual, economic, and interstate explanations for WWII; the European and Pacific theaters; German mass killings; and Japan's surrender.

**POLI260501**  
The Architecture of Power  
DIPASQUALE, DAVID M  
Spring 2020
This course will examine the political and philosophical implications of architectural design and civic planning. From the time of Socrates, philosophers have paid careful attention to the manner in which the principles of political philosophy could be realized in physical form. The course will offer students an introduction to the history of architectural theory, with special emphasis on the manner in which a specific type of regime (democratic, fascist, communist, and monarchic, for example) sought to embody its standard of justice in buildings and the manipulation of space. We will trace the reasoning behind the sometimes radical transformation of the world around us by reviewing and analyzing key texts (and buildings, if applicable) from important artistic and intellectual figures, such as: Frank Lloyd Wright, Claude-Nicolas Ledoux, Adolf Loos, Rem Koolhaas, Gottfried Semper, Jane Jacobs, Tom Wolfe, Le Corbusier, John Ruskin, Robert Venturi, and Vitruvius. Epochal architectural movements like The International Style, Neoclassicism, Postmodernism, and Brutalism will be introduced to help us understand the built environment (and therefore ourselves) a little better. Spanning centuries, the course will also bring matters much closer to home by asking each student to present as a final project one design meant to improve the Boston College campus. Class sessions will include film and additional visual media. Field trips to Boston/ Cambridge and the Frederick Law Olmsted park.

POLI262101  
Politics and Literature  
HANLEY, RYAN P  
Spring 2020  
Imaginative literature offers a unique and important point of entry into serious engagement with the core questions of political philosophy. Our course will carefully examine several classic eighteenth-century literary works as guides for an inquiry into two particularly central questions of political philosophy. First, what is the human being? Second, what sorts of moral and cultural norms and political institutions best promote the flourishing of the human being? Authors to be examined include such classic Enlightenment authors as Swift, Defoe, Montesquieu and Diderot, as well as comparatively lesser-known authors such as Fénelon and De Graffigny.

**Irish Politics 1916 to Present: Modernization and Evolving Relations with the Church, Northern Ireland, the European Union**  
**MCGRAW, SEAN D**  
**Spring 2020**  
Ireland, a country rich in history, has undergone dramatic changes in the twentieth century beginning with its fight for independence and culminating in its meteoric rise during the Celtic Tiger years. What explains Ireland's distinctive political trajectory and how does it compare to other European nations? How should we understand the Celtic Tiger, the rapid series of social, economic and political transformations that have occurred within Ireland since the 1990s? This course explores these questions by studying the political actors and institutional settings of Irish politics, the nature of political influence and the shaping of political priorities, and the forces that shape policy outcomes. It will address such critical issues as the legacies of colonialism and civil war, nationalism, democratization, the relationship between the Church and State, the Northern Ireland Troubles and the European Union. While the course focuses on the Republic of Ireland, it will adopt a broad comparative perspective, situating the country both within the wider global context and within the political science literature.

POLI449601
Democracy and Political Mediation in the Global South
MARCESSE, THIBAUD
Spring 2020
This seminar proposes to explore the variation in democratic outcomes across the Global South. Why have some states remained democratic while others have experienced various forms of authoritarianism? Why are political parties stronger in some countries than others? The course will start with a discussion of institutional legacies such as colonialism to account for the transition to and consolidation (or not) of democracy. Looking at empirical evidence from different regions, such as Latin American and the Caribbean, Africa, South Asia and the Middle East, the course will provide a dynamic and comparative overview of democratic institutions, such as political parties and party systems, discuss informal linkages between citizens and political parties, review the broader implications of development for democratic stabilization and look at the impact of institutional reforms such as decentralization on political participation and the exercise of citizenship.

Seminar: Modern Classics of International Relations
CRAWFORD, TIMOTHY W
Spring 2020
This seminar will examine five major books, and related articles, published in the field of International Relations over the last sixty years. Each deals theoretically and empirically with the nature of the international system and the sources of order, stability, and war within it. Through close readings, intensive discussions and critical writing, we will explore each book and, cumulatively, the connections among them. The ultimate objective is to build conceptual and theoretical foundations for thinking about the present state and future prospects of international order while achieving, along the way, a deeper understanding of the international political systems of the past.

POLI493401
Honors Seminar: Inequality and Politics
SCHLOZMAN, KAY L
Spring 2020
In this course, we will seek to understand the relevance of inequality for politics in America, where Tocqueville long ago noted an egalitarian commitment. We will consider the nature, justice, and dimensions of inequalities in society; the contrast between the formal political equality that inheres in citizenship and the actual inequalities of political influence; and the nature and impact of public policies -- for example, voting rights, educational policies, and tax policies -- that enhance or diminish equality.

**POLI772701**  
American Political Development I  
**LANDY, MARC**  
**Spring 2020**
This seminar looks at the course of American history from the Federalist period of the 1790's through the end of the nineteenth century for the purpose of understanding subsequent American politics. Its axiom is that contemporary politics cannot be adequately understood without understanding its philosophical and historical underpinnings nor without examining the critical political conflicts and institutional developments that have occurred. Readings consist of original documents and secondary works by historians and political scientists.

POLI780008

**Advanced Directed Study**  
**SHELL, SUSAN**  
**Spring 2020**

Advanced Directed Study is a final paper project for eligible second year Master's students. It is a focused and substantial paper, written under the guidance and approval of a supervising faculty member. The project is intended to cultivate expertise in a subject in which the student has formed an interest and has already done some work in. Examples include: further development of a paper from a previous seminar with a case study, primary sources or original research; an extended critical literature review; or, a delegated project in cooperation with a supervising professor's own research.

**Credits:** 03  
**Schedule:** BY ARRANGEMENT  
**Room:** None  
**Satisfies Core Requirement:** None  
**Comments:** MA students who are interested in enrolling for the Advanced Directed Study are advised to contact Professor Gerald Easter early on in the fall semester of their second year of the MA program. Professor Easter will make the final decision as to which professor will supervise the Advanced Directed Study for each individual student.  
**Prerequisites:** None

POLI780401
Politics and Society in the Middle East
BANUAZIZI, ALI
Spring 2020
This graduate seminar provides a comparative survey of the Middle East and North Africa, with emphasis on the economic, social, and cultural dimensions of politics. After a broad historical introduction to the region, it explores the contemporary patterns of authority and governance, the persistence of authoritarianism and the quest for democracy, ethnicity and identity politics, economic inequality and class relations, the dominant role of religion in politics, minority rights, and gender relations. A special focus in the latter part of the seminar will be on the social bases, ideologies, dynamics, and consequences of the recent revolutionary and protest movements in the region.

The Political Economy of Development  
HONIG, LAUREN  
Spring 2020  
This is a graduate-level course on the political economy of development. This course examines the political roots of economic development with attention to the role of institutions, redistributive politics, and governance. In addition to studying the key debates within the political economy of development, this course examines comparative methodologies and how empirical evidence is used.

POLI781801  
Global Public Goods and Cooperation in International Politics  
DEESE, DAVID A  
Spring 2020  
Some of our most urgent challenges, from global warming and international financial crises to nuclear proliferation, global epidemics or disruption of the internet, can be understood as "global public goods." These require international actors to bargain, coordinate, and collaborate in reaching effective responses. This seminar investigates the nature of public goods and collective action in order to help understand these pressing challenges, possible responses to them, and how politics both limits and opens opportunities for policy formation. It begins with prevalent theories about the production of public goods, from the local to transnational and global, and analysis of their governance. It then studies in depth three case studies, providing international financial stability, slowing the spread of nuclear weapons worldwide, and mitigating global climate disruption. It concludes by examining the implications of rising socio-economic inequality in major countries worldwide.

Psychology Courses: Summer 2019

PSYC111001
Introduction to Brain, Mind, and Behavior
LAMOUREUX, JEFFREY A
Summer 2019
The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. This course will help students to understand the neuroscientific bases of psychological phenomena.

PSYC112001
Introduction to Behavioral Statistics and Research I
MACEVOY, SEAN P
Summer 2019
This course is the first in a two-semester sequence surveying research methodologies and statistical procedures. In this first semester the emphasis is on statistics. Students will be introduced to the most common topics and procedures in descriptive and inferential statistics. PSYC1120 is a large lecture course with a smaller breakout section (corequisite PSYC1122).

PSYC223401
Abnormal Psychology
OGREN, MARILEE
Summer 2019
This course provides an introduction to the field of abnormal psychology. Major topics include theoretical and empirical approaches to the study of psychopathology; assessment and diagnosis of abnormality; and psychological, behavioral, biological, and sociocultural characteristics of the major syndromes of psychopathology. Legal and ethical issues and current approaches to the treatment and prevention of psychological disorders will also be discussed.

PSYC224201
Personality Theories
CANAVAN, DONNAN
Summer 2019
Does personality make us who we are? Whether selecting a mate, voting for a president, or understanding ourselves, we want and need to know about personality. In this course we consider how personality can be measured, how well it predicts behavior, what shapes our personality, and whether personality can be changed.

Credits: 03
Schedule: T TH 8 15-11 30
Room: CAMPION HALL 231
Satisfies Core Requirement: None
Comments: None
Prerequisites: PSYC1111.
Corequisites: None

PSYC226902
Child Development
TOPPER, STACEE S
Summer 2019
How do young children learn to speak a language or how to count? How do young children perceive their environment and develop emotional understanding? This course will serve as an introduction to developmental psychology. We will cover a broad range of topics from prenatal development to language development in childhood. We will discuss developmental theories, past and current findings, and methods used in developmental research. By the end of this course, students will have a broad understanding of child development and the methods used to complete developmental studies.
PSYC227101
Memory and the Brain
SPETS, DYLAN S
Summer 2019
Memory enables you to have skills, to communicate with other people, to make intelligent
decisions, to remember your loved ones, and to know who you are. Without memory, you would
not be you. Although human memory has been studied for over two thousand years, the
neuroscience of human memory has only been studied for the last two decades. In this course,
following an introduction on the types of memory and brain regions of interest, we will discuss
the following key topics on the neuroscience of human memory: the tools of cognitive
neuroscience, brain regions associated with long-term memory, brain timing associated with
long-term memory, long-term memory failure, working memory, implicit memory, memory and
other cognitive processes, explicit memory and disease, long-term memory in animals, and the
future of memory research.

PSYC227201
Cognitive Psychology: Mental Processes and their Neural Substrates
MACEVOY, SEAN P
Summer 2019
This course introduces the scientific study of mental function from an information processing perspective. The course examines how information is processed and transformed by the mind to control complex human behavior. Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.

Credits: 03
Schedule: M W 8 15-11 30
Room: GASSON HALL 306

PSYC228101
Sport Psychology
MOORE, KRISTINA
Summer 2019
This course is a survey of theories and applications of sport and exercise psychology as a science and a practice. The course will examine cognitive, affective, behavioral, and developmental considerations in sport and physical activity. Topics may include: individual aspects such as personality, motivation, and anxiety; social processes such as team cohesion and group dynamics; and mental skills training areas such as confidence, imagery, goal-setting, and concentration.

PSYC220001
Introduction to Social Work
RYAN, SARAH E
Fall 2019
Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

PSYC223401
Abnormal Psychology
OGREN, MARILEE
Fall 2019
This course provides an introduction to the field of abnormal psychology. Major topics include theoretical and empirical approaches to the study of psychopathology; assessment and diagnosis of abnormality; and psychological, behavioral, biological, and sociocultural characteristics of the major syndromes of psychopathology. Legal and ethical issues and current approaches to the treatment and prevention of psychological disorders will also be discussed.

**PSYC227201**  
Cognitive Psychology: Mental Processes and their Neural Substrates  
WEINSTEIN-JONES, YANA  
Fall 2019

This course introduces the scientific study of mental function from an information processing perspective. The course examines how information is processed and transformed by the mind to control complex human behavior. Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.

**PSYC227401**  
Sensation and Perception  
MACEVOY, SEAN P  
Fall 2019
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.

Fall 2019
This course focuses on the social psychology of stereotyping, prejudice, and discrimination. In other words, we will examine beliefs about members of social groups (stereotypes), evaluations of group members (prejudice), and behaviors towards members of social groups based on their group membership (discrimination). Also we will study how these issues shape the experiences of social group members, especially when they are members of low-status and/or minority groups. Rather than relying on anecdotal evidence, we will examine theories of stereotyping, prejudice, and discrimination through empirical research findings.

PSYC332901
Psychophysiology of Stress
IVKOVIC, VLADIMIR
Fall 2019
This course explores the psychological and physiological factors underlying stress, including basic principles of psychophysiology and fundamental concepts of stress. Topics include emotion, motivation, multitasking, attention, arousal, and distraction. Physiological mechanisms underlying stress will be examined relative to health and abnormal behaviors, such as addictions, mood disorders, and violence. Students will be instructed in methods of stress control, including cognitive behavioral techniques and meditation.

Schedule: M 4-6 20
Room: DEVLIN HALL 010
Satisfies Core Requirement: None
PSYC333401
Interpersonal Violence
TISHELMAN, AMY C
Fall 2019
This course will review research, assessment, treatment, and current controversies in the area of family violence, focusing on child sexual abuse, child physical abuse, and spousal abuse. The course will consist of a combination of a lecture and class discussion of the issues, including those related to memories of abuse, identification of abuse, and the legal, psychological, and social ramifications of extracting women and children from abusive homes.

PSYC333601
Clinical Psychology
ROSEN, KAREN
Fall 2019
Issues associated with the treatment of psychological disorders will be examined. The concepts of normality and pathology will be discussed in the context of various models of intervention. Several different schools of psychotherapy will be covered, with an emphasis on the theoretical assumptions and practical applications of each perspective. Studies on the effectiveness of psychotherapy will be reviewed. The clinical training and professional practices of psychologists will be discussed.
PSYC333801
Topics in Abnormal Psychology
OGREN, MARILEE
Fall 2019
This course considers several adult neuropsychiatric disorders such as Alzheimer's disease, stroke, schizophrenia, depression, bipolar disorder, and savant syndrome. We will consider basic research as well as case studies to analyze these disorders in terms of their neurological and psychological basis, etiology, symptomology, diagnosis, treatment, and prognosis.

PSYC334201
Sport and Exercise Psychology
MOORE, KRISTINA
Fall 2019
This course will provide a broad introduction to sport and exercise psychology as both a science and a practice. Content will include major theories, seminal and current empirical research, and practical considerations concerning the cognitive processes, emotional states, social influences, and developmental systems involved in sport and exercise participation and performance. Topics will span across individual, group, and context and may include personality, motivation, anxiety, team cohesion, group dynamics, as well as psychological skills training areas such as confidence, imagery, arousal regulation, goal-setting, and concentration. Students will synthesize material and design appropriate applications to sport and exercise settings.

**PSYC334501**  
**Social Motivation**  
**CANAVAN, DONNAH**  
**Fall 2019**

How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

**Culture and Emotions**  
**RUSSELL, JAMES**  
**Fall 2019**  
The course is devoted to major psychological perspectives on emotion (such as cognitive and social psychological) both historic and contemporary, with an emphasis on how culture enters into the theory. The second part of the course focuses on ethnographies and other evidence on the possible roles of culture in emotion. Specific topics to be covered include universal recognition of emotion from facial expression, role of language in emotion, feeling rules, emotion scripts, and the development of children's understanding of emotion.

**PSYC336001**  
**How Extraterrestrials Think**  
**HARTSHORNE, JOSHUA K**  
**Fall 2019**
This course covers what we know about the minds of extraterrestrials. You might think that we don't know anything about extraterrestrials on account of the fact that we haven't met any. In fact, study of human cognition has taught us a lot not just about humans, but about what is and isn't possible. So we actually can make some definitive statements about what aliens must be like (assuming there are any). For instance, it can be shown that society could not exist if we did not have memories, so we can be fairly certain that any extraterrestrials who are advanced enough to have large-scale societies must have memories. In short, thinking about extraterrestrial cognition allows us to hold up a mirror to humanity and ask why we are the way we are, and whether there are other ways to be. The course will involve approx. 50% reading relevant findings from psychology and 50% analyzing depictions of aliens from film and literature. There will be three units: alien perception, alien morality, and alien language.

PSYC336201
Mind of a Dog: How Canine Cognition Informs Human Psychology
JOHNSTON, ANGELA M
Fall 2019
This course will provide an overview of recent research in canine cognition. Students will become familiar with the full range of tools and techniques used to get a glimpse inside the mind of a dog, learn about recent findings in canine cognition, ranging from how dogs interpret human eye contact to what they understand about human language, and develop the ability to think critically about what work in canine cognition can tell us about human psychology. We will take on big-picture questions regarding social learning, theory of mind, emotion, social evaluation, third-party learning, collaboration, communication, and language.

PSYC338601
Psychopharmacology: Behavior, Performance, and Brain Function
LAMOUREUX, JEFFREY A
Fall 2019
This course explores psychopharmacology, the science of drugs and behavior. We will discuss synaptic neurochemistry as associated with a number of specific mechanisms of drug action and outline brain circuits which mediate drug actions such as reward. Major classes of psychotropic drugs will be introduced, including both drugs of abuse and psychotherapeutic agents used in the treatment of mood disorders and psychosis.

PSYC338801
Neurobiology of Eating and Eating Disorders
PETROVICH, GORICA D
Fall 2019
This course will review the neural mechanisms controlling food intake, and body weight regulation under normal circumstances and in eating disorders. Eating is not only controlled by metabolic signals (e.g., hormones, peptides), but also by extrinsic or environmental factors that are not directly related to energy balance (e.g., stress, emotion, social/cultural factors). Likewise the brain systems regulating hunger are associated with networks mediating stress, reward, emotion, and learning and memory. The course will explore the current neuroscience findings from animal models, and human studies relevant to appetite, regulation of eating, and eating disorders.

**PSYC440101**  
**Research Practicum in Computational Methods**  
**ANZELLOTTI, STEFANO**  
**Fall 2019**

This course is a practical introduction to the convergence between psychology, neuroscience, and artificial intelligence. Ideas from psychology and neuroscience have inspired the development of artificial neural networks. Their current instantiations, deep neural networks, are having a profound impact on computer science and society, but also on the study of the brain and cognition. This course starts with a brief introduction to the roots of artificial intelligence in psychology and neuroscience, followed by a brief, accessible introduction to the mathematical foundations of deep neural networks. In the remainder of the course, students will learn to use python and pytorch and will work in groups to implement and train deep neural networks to build models of behavior or of the brain. Prior experience with computer programming is highly recommended; students with no experience in programming are encouraged to meet the instructor before enrolling.

**Credits:** 03  
**Schedule:** T TH 1 30*  
**Room:** MCGUINN HALL 303
PSYC443101
Positive Psychology
CANAVAN, DONNAH
Fall 2019
This advanced undergraduate seminar reflects a new direction in psychology that focuses on topics that emphasize people's positive characteristics and processes. Characteristics that will be studied include happiness, kindness, generosity, love, and gratitude. Growth, healing, relatedness, and curiosity are among the processes that will be examined. The course will also address the antecedents and consequences of positive social situations such as peace, solidarity, and massive public responses to catastrophes like 9/11.

PSYC443501
Images of Mental Illness in Film and Literature
SCHNEIDER, BARRY H
Fall 2019
This course is devoted to the representations of mental illness in film and literature, which are often more complex and more personal than the descriptions of psychological disorders in scientific writings. Students deepen their understanding of abnormal psychology as they criticize material from selected books and films containing depictions of disorders. These creative works will be examined in terms of the possible motivation of the authors and filmmakers and the potential for the creative works to decrease or increase stigma. The messages conveyed about the nature of abnormality are emphasized throughout the course. The course concludes with consideration of the ways in which psychologists and other mental-health professionals are depicted in these media.

**PSYC443601**  
**Clinical Fieldwork in Psychology**  
**ROSEN, KAREN**  
**Fall 2019**  
This course will provide students with an opportunity to integrate theoretical and empirical work in clinical psychology with the real-life experience of working in a clinical setting. Students will select, together with the professor, a field placement (e.g., hospital, community clinic, day treatment center, shelter, emergency hot line, preschool classroom, prison). Students' work in the field will involve at least eight hours per week with weekly, on-site supervision. Weekly class meetings will focus on the discussion of issues relevant to the direct application of mental health services to child, adolescent, and adult patients.

**Credits:** 03  
**Schedule:** M 1 30-4

Research Practicum in Child and Adolescent Clinical Psychology  
**SCHNEIDER, BARRY H**  
**Fall 2019**

This practicum focuses on research inspired by the assumption that faulty interpersonal interactions are at the core of psychological disorders of children and adolescents. Research methods for studying both peer and family relationships are considered as well as standard tools for the identification of participants for clinical research. Students will participate in the analysis of data on interpersonal relationships and adjustment. They will learn to interpret the data and write a manuscript in APA style.

**PSYC444101**

Research Practicum in Sport and Exercise Psychology  
**MOORE, KRISTINA**  
**Fall 2019**

This course introduces students to research in sport and exercise psychology. Course content will focus on the various methods used to study psychosocial aspects of sport, exercise, and physical activity. Students will become familiar with quantitative and qualitative methods by examining current research in the field and participating in hands-on, collaborative research assignments. Students will also choose a topic related to course content, conduct a literature review, design a study, collect and analyze data, write a scientific paper in APA style, and present their findings.
PSYC444301
Research Practicum in Social and Cognitive Methods
HEBERLEIN, ANDREA S
Fall 2019
This course explores how questions are asked and answered in social and cognitive psychology, focusing on discussions of articles and the conduction of a series of research projects and demonstrations. We will cover topics including research ethics, constructing experimental variables, experiment design, a few specific types of methods and their uses/constraints, and how to write an APA-style research report.

**Research Practicum in Developmental Psychology**  
**TOPPER, STACEE S**  
**Fall 2019**

This course is designed to serve as an overview of the research methods used in the study of Developmental Psychology. Over the course of the semester, you will become comfortable with all aspects of the scientific method. While completing a semester long research project proposal, you will learn to identify research questions, design a thoughtful scientific study, and propose statistical analyses. Students will gain experience reading, analyzing, and critiquing current research in developmental psychology. By the end of course, you will be familiar with the different methods used in developmental research and become critical consumers of research in this area.

Students may elect to write a thesis during the senior year. In most cases, the thesis involves original empirical research, although theoretical papers may be permitted in exceptional instances. Students must obtain the consent of a faculty member to serve as thesis advisor. Students who choose to write a thesis are encouraged to take an Independent Study with a prospective thesis advisor during the junior year to develop a thesis proposal. Registration requires a syllabus/contract form, which is found on the Psychology Department's website; go to Undergraduate, then Academic Opportunities, then Independent Courses: Research, Honors Program, and Senior Thesis.

**PSYC550101**  
Experimental Design and Statistics  
BROWNELL, HIRAM H  
Fall 2019
This course focuses on experimental design and related statistical methods. It covers between-subject, within-subject, and mixed designs with one and two factors. Statistical topics include the relevant statistical model and model assumptions, omnibus test, test of contrasts, multiple comparison, effect size, and power calculations. One and two sample t tests will also be revisited. If time permits, advanced topics such as designs with nested factors or random factors, mixed model approach, and nonparametric approach may also be covered.

**Credits:** 03  
**Schedule:** T TH 3*  
**Room:** MCGUINN HALL 303  
**Satisfies Core Requirement:** None  
**Comments:** None  
**Prerequisites:** An undergraduate course in statistics.

**PSYC558701**  
**Cellular Perspectives on Motivated Behavior**
MCDANALD, MICHAEL A
Fall 2019
The goal of the course is to describe how changes in activity--and the composition--of single cells contribute to motivated behavior. Behaviors to be covered include but are not limited to: fear and anxiety, reward learning, addiction, feeding, pair bonding, and aging. The bulk of the reading and lecture materials will come from the primary literature and an extensive neuroscience background is required. As such this course is targeted for graduate students and only the exceptional undergraduate.

PSYC559001
History of Psychology
WEIDMAN, NADINE
Fall 2019
A hundred years ago, psychology was a tiny academic specialty called mental philosophy. In a matter of decades, however, psychology burgeoned into an enormous field influencing both scholars and the popular imagination (think IQ test, think analyst's couch). What accounts for the rise of psychology to its all-powerful position? This course will examine the twentieth century trajectory of psychology, asking how it has shaped, and been shaped by, cultural, social, and political conditions, and exploring major thinkers such as William James, Sigmund Freud, B.F. Skinner, Stanley Milgram, Abraham Maslow, and others.

PSYC650101
Graduate Programming Lab
KURKELA, KYLE A
Fall 2019
The course provides an introduction to R programming language. Students will learn how to program in R language, and how to use R for research in psychology. Students will develop a programming mindset by learning and exercising programming tasks, e.g., manage the data, manipulate the variables, plot the data, make graphs and tables, and conduct statistical analysis.

PSYC660201
Analysis with Missing Data
RYU, EHRI
Fall 2019
This course is to provide an introduction to the theory and application of analytic strategies for analyzing data with missing values. The course will cover traditional and modern approaches to dealing with missing data. SAS and Mplus will be used as primary software packages. Students must have completed graduate level courses in multiple regression and structural equation modeling.

Psychology Courses: Spring 2020
PSYC103201
Science of Emotion
HEBERLEIN, ANDREA S
Spring 2020
This course examines the scientific study of emotion for undergraduate students with no background in psychology. Topics include such questions as: What are the functions of emotion, interpersonally and intrapersonally? What are some ways that emotions can be dysfunctional? Are emotions the same across cultures? How do we know what someone else is feeling? How does emotion interact with decision-making? In addressing these questions, we will incorporate discussions of how psychological experiments are constructed, performed, and interpreted.

Credits: 03
Schedule: M W F 11
Room: GASSON HALL 305
Satisfies Core Requirement: Social Science
Comments: Does not provide credit toward completion of the Psychology major.
Prerequisites: None

Cross-listed with: None
Frequency: Annually

PSYC109201
Humans and Other Animals: The Mental Life of Animals
LAMOUREUX, JEFFREY A
Spring 2020
What is a human, and who is an animal? Humanism has questionably attributed reason, morality, speech, ritual, and the capacity to imagine future worlds to humans alone. All major philosophies and religions try to separate humans from animals: in Genesis, God distinguishes Adam and Eve from the beasts, then instructs Adam to name them. Humans still grapple with the ethics of eating, wearing, and experimenting on animals, as well as understanding how various mental abilities are represented across species. These courses use comparative psychology and literary study to interrogate the blurry and problematic boundaries between human and nonhuman animals.

PSYC111001
Introduction to Brain, Mind, and Behavior
HEYMAN, GENE M
Spring 2020
The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. This course will help students to understand the neuroscientific bases of psychological phenomena.

PSYC111301
Introduction to Neuropsychological Disorders
KENSINGER, ELIZABETH A
Spring 2020
In this seminar, we will discuss the function of the brain through the lens of neuropsychological disorders. We will cover disorders of attention (e.g., neglect), memory (e.g., amnesia, dementia), and vision (e.g., prosopagnosia, blindsight), discussing the characteristics of each disorder and what its existence has taught us about brain function. This course is a one-credit seminar, designed to facilitate communication between a small group of students, to foster scientific thinking, and to enhance each student's communication and critical thinking skills.

PSYC220001
Introduction to Social Work
RYAN, SARAH E
Spring 2020
Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

Spring 2020
This course offers students the opportunity to study a topic of personal interest, working independently under the supervision of a faculty member within the Psychology Department. A student may obtain the consent of a faculty member to serve as his or her instructor by contacting the faculty member directly. The instructor, working with the student, decides on the nature of readings and related activities involved as well as the precise form of scholarly work required. Registration requires a syllabus/contract form, which is found on the Psychology Department's website; go to Undergraduate, then Academic Opportunities, then Independent Courses: Research, Honors Program, & Senior Thesis.

PSYC223401
Abnormal Psychology
OGREN, MARILEE
Spring 2020
This course provides an introduction to the field of abnormal psychology. Major topics include theoretical and empirical approaches to the study of psychopathology; assessment and diagnosis of abnormality; and psychological, behavioral, biological, and sociocultural characteristics of the major syndromes of psychopathology. Legal and ethical issues and current approaches to the treatment and prevention of psychological disorders will also be discussed.

PSYC224101
Social Psychology
HEBERLEIN, ANDREA S
Spring 2020
This course explores the scientific study of social thought and behavior. How do we understand, interact with, and influence other minds--and our own? How might we apply psychology to social problems? Topics include mind perception, emotion, persuasion, stereotyping, and moral psychology.

Credits: 03
Schedule: T TH 12*
Room: GASSON HALL 306
Satisfies Core Requirement: None
PSYC224501
Psychology of Motivation
MOORE, KRISTINA
Spring 2020
Understanding human motivation extends beyond instincts, drives, needs, and rewards. This course explores motivation from multiple lenses including biological, cognitive, social, and developmental approaches. Students will examine psychological theories and principles of motivation from biological motives like hunger, thirst, and pleasure to more contemporary social-cognitive views involving self-efficacy, self-determination, competence and control, attribution, and achievement goal theories. Students will consider applications to relevant contexts including the classroom, the workplace, social relationships, and performance.

PSYC226001
Developmental Psychology
MOORE, MICHAEL J
Spring 2020
This course is an introduction to developmental psychology. The course examines topics in personality, social, and cognitive development.

Credits: 03
Schedule: T TH 12*
PSYC227201
Cognitive Psychology: Mental Processes and their Neural Substrates
BROWNELL, HIRAM H
Spring 2020
This course introduces the scientific study of mental function from an information processing perspective. The course examines how information is processed and transformed by the mind to control complex human behavior. Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.

PSYC227401
Sensation and Perception
MACEVOY, SEAN P
Spring 2020
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.

**Credits:** 03

Comparative Psychology: Study of Animal Behavior  
LAMOUREUX, JEFFREY A  

Spring 2020  
This course is a survey of animal behavior from the psychologist's perspective. The methods and aims of comparative psychology are presented as we consider how and why psychologists should study animal behavior. All species are faced with fundamental problems such as navigating in their environment, finding food and water, defending against predators, communicating with conspecifics, attracting a mate, and learning and remembering information. The course will examine the very different strategies that various species, including humans, have evolved for solving these problems, and discuss reasons why these different kinds of strategies have evolved.

**Credits:** 03

**PSYC332101**  
Psychology of Religion  
KOLLARETH, DOLICHAN M  

Spring 2020  
The course is a survey of psychological theory and research investigating religious beliefs, experiences, and practices. Specific topics include the origin of religious beliefs, developmental processes in religiousness, individual differences in religiousness, religious conversion, religion and well-being, and religion and social behavior. In covering these topics, we will approach religion from social, developmental, neuroscientific, and cognitive perspectives. The course will deal with aspects of both Western and Eastern religious traditions while discussing the psychological elements of religious life.

**Credits:** 03  
**Schedule:** M W F 3
PSYC332801
Aggression, Anxiety, and ADHD
SCHNEIDER, BARRY H
Spring 2020
This seminar is devoted to the causes, manifestations, and treatment of these disorders in childhood, adolescence, and adulthood. The interplay of genetics, physiological processes, family interaction, peer relations, cognition, and personality is a core theme. A critical analysis of research is complemented by case studies from journals, biographies, autobiographies, novels, and films.

PSYC333101
Developmental Psychopathology
TISHELMAN, AMY C
Spring 2020
This course will provide an introduction to the field of developmental psychopathology, an area of psychology that combines the topics of developmental and abnormal psychology in order to facilitate an understanding of maladaptive behavior within a developmental framework. Course material will emphasize how aspects of development bear upon the subsequent adaptation of an individual and will generate an appreciation of normal and pathological behavior in the context of the individual, his or her developmental history, and current conditions. Examples of specific topics include the developmental impact of parent-child attachment, child maltreatment, peer relationships, and resilience in development.

PSYC334501
Social Motivation
CANAVAN, DONNAH
Spring 2020
How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

PSYC336601
Social and Emotional Development
ROSEN, KAREN
Spring 2020
In this course, we will explore developmental changes in social and emotional functioning from birth through adolescence. We will study the beginning of emotion expression and the emergence of attachment relationships, the development of emotional regulation, and the socialization of children during infancy. We will then continue to examine emotional changes and social development through toddlerhood, early childhood, middle childhood, and adolescence. The influences of parents, siblings, peers, and caregivers will be examined, as will the issues of individual differences, stability and change, and coherence of development across contexts and over time.

PSYC336701  
Psychology of Art  
WINNER, ELLEN  
Spring 2020  
This course considers philosophical questions about art such as these: Can art be defined? Can art express emotion? Why do we enjoy sadness and fear in art but not life? Are aesthetic judgments just matters of subjective taste? What's wrong with a perfect fake? We will focus on experiments from psychology that attempt to answer these questions with empirical evidence.

PSYC336901  
Understanding the Social World: Social Cognition in Humans and Other Animals  
MCAULIFFE, KATHERINE J  
Spring 2020  
This course will address the puzzle of how we make sense of our social world by focusing on questions such as: how do we carve our world into meaningful social groups, understand what others are thinking and maintain productive cooperative relationships? These questions will be tackled using both developmental and comparative approaches, with the goal of understanding how social cognition takes shape over childhood and what aspects of human social cognition are shared with other animals.
PSYC337101
Cognitive Neuroscience: Exploring Mind and Brain
RITCHEY, MAUREEN
Spring 2020
Have you ever wondered where your memories are stored? Or how we perceive a rich visual world based on simple changes in light? Or what is going on in your brain when you're distracted during class? Cognitive neuroscience aims to reveal the connections between mind and brain, linking cognitive phenomena to neurobiological processes. This course will introduce the neural bases of perception, attention, memory, emotion, and other cognitive functions, as well as the key research methods used to investigate these topics (functional MRI, EEG, lesion studies, neurostimulation). The course will also encourage critical evaluation of the scientific evidence presented in primary research articles in cognitive neuroscience. Class periods will include instructor-led lectures as well as team-led discussions of primary research articles.

Credits: 03
Schedule: T TH 9*
Room: CAMPION 303

PSYC337601
Developmental Neuroscience
OGREN, MARILEE
Spring 2020
Developmental Neuroscience covers the principles governing the development of the nervous system. These principles include (but are not limited to) induction, neurogenesis, cell migration, differentiation, axonal guidance, pattern formation, synaptogenesis, and experience dependent development of the nervous system. Principles of neural development are illustrated by research in a variety of vertebrate and invertebrate organisms. Students must have taken Introduction to Neuroscience and be comfortable with cellular and molecular biology.

Credits: 03  
Schedule: T TH 12*  
Room: HIGGINS HALL 225  
Satisfies Core Requirement: None  
Comments: None  
Prerequisites: PSYC2285.  
Corequisites: None

---

PSYC338101  
Psychobiology of Emotional Learning  
COLE, SINDY

Spring 2020
This course will introduce students to research and theory in regards to the psychobiology of emotional learning and behavior. Behavioral experiments demonstrating basic concepts in emotional learning will be described, as well as experiments aimed at determining the neural circuits which govern this learning and behavior. Additional coursework will explore the role of both developmental factors and sex differences in emotional learning. Most of the findings presented will be from non-human animal research, but some human studies will be highlighted.

Credits: 03  
Schedule: T TH 9*  
Room: GASSON HALL 202  
Satisfies Core Requirement: None  
Comments: None  
Prerequisites: PSYC2285. or similar introduction to neuroscience course.  
Corequisites: None
**PSYC338301**  
**Neurobiological Basis of Learning**  
**IVKOVIC, VLADIMIR**  
**Spring 2020**  
This course will explore the neural mechanisms that underpin basic processes of learning and memory. We will investigate both systems-level neuroscience (e.g., What do the hippocampus, amygdala, VTA, etc. actually do?), as well a more molecular view of the role of specific intracellular processes in producing changes in synaptic connections. The molecular focus of the course will comprise a detailed investigation of long-term potentiation (LTP), and its relation to endogenous memory processes. Systems-level topics will focus on fundamental associative and non-associative learning phenomena in non-human animal models.

**Credits:** 03  
**Schedule:** TH 4 30-6 50  
**Room:** GASSON 203  
**Satisfies Core Requirement:** None  
**Comments:** None  
**Prerequisites:** PSYC2285. Or an equivalent neuroscience course.  
**Corequisites:** None

**Frequency:** Annually

---

**PSYC339701**  
**Cognitive and Neural Bases of Person Knowledge**  
**ANZELLOTTI, STEFANO**  
**Spring 2020**  
This course is discusses how people acquire knowledge about others. The first part of the course focuses on the perceptual mechanisms involved in the recognition of other agents, their identity, their facial expressions, and their actions. The second part of the course covers how these perceptual "ingredients" are used to make inferences about other people's mental states (i.e., their emotions), their beliefs, their goals, and their traits. During the course, we will read and discuss recent research articles, and explore how different types of evidence and different methods can be used to constrain theories of cognition and of the brain.
PSYC443301
Addiction, Choice, and Motivation
HEYMAN, GENE M
Spring 2020
Course provides a selective survey of drug use and abuse. Students will have the opportunity to explore the social and economic correlates of drug overdoses, using published but often difficult to access data from health services, judicial agencies, and behavioral science researchers. Class discussion and short writing assignments are an essential feature of the course. Goals include practice writing brief reports, critical analysis of claims about addiction, and practice analyzing and synthesizing quantitative data on features of drug use and its correlates. Familiarity with Excel is helpful but not essential.

Credits: 03
Schedule: T 4 30-6 50
Room: GASSON 308
Satisfies Core Requirement: None
Comments: None
Prerequisites: PSYC1110. Introductory course in statistics.
Corequisites: None
Cross-listed with: None
Frequency: Annually

PSYC443401
Psychology of the Immigration Experience
SCHNEIDER, BARRY H
Spring 2020
This seminar focuses on the psychological dimensions of the immigration experience, including motivation to emigrate, stages of acculturation, and the roles of language, war trauma, family support, and cognitive flexibility in promoting adaptation to a new culture. Special consideration is given to the immigration experience of people with mental health problems. Complementing the theoretical writings and research findings are in-person interviews with Bostonians who have emigrated from other countries.

**Credits:** 03

**PSYC443601**  
**Clinical Fieldwork in Psychology**  
**ROSEN, KAREN**  
**Spring 2020**  
This course will provide students with an opportunity to integrate theoretical and empirical work in clinical psychology with the real-life experience of working in a clinical setting. Students will select, together with the professor, a field placement (e.g., hospital, community clinic, day treatment center, shelter, emergency hot line, preschool classroom, prison). Students' work in the field will involve at least eight hours per week with weekly, on-site supervision. Weekly class meetings will focus on the discussion of issues relevant to the direct application of mental health services to child, adolescent, and adult patients.

**Credits:** 03  
**Schedule:** M 1-3 30  
**Room:** MCGUINN HALL 332  
**Satisfies Core Requirement:** None  
**Comments:** Seniors only. Priority will be given to students who are in the Clinical Concentration.

*Research Practicum in Sport and Exercise Psychology*  
MOORE, KRISTINA  
**Spring 2020**  
This course introduces students to research in sport and exercise psychology. Course content will focus on the various methods used to study psychosocial aspects of sport, exercise, and physical activity. Students will become familiar with quantitative and qualitative methods by examining current research in the field and participating in hands-on, collaborative research assignments. Students will also choose a topic related to course content, conduct a literature review, design a study, collect and analyze data, write a scientific paper in APA style, and present their findings.

**Individual Differences and Social Behavior**  
**CANAVAN, DONNAH**  
**Spring 2020**  
This course will study a series of individual differences or personality variables such as narcissism, self-esteem, defensive styles, fear of success/self defeat, and the Big Five. Each of these personality variables will be studied in a framework that focuses on the context of development as well as the traits and behaviors which are consequences (and correlates) of these personality variables. While the social context (of development) will be emphasized, the biological and cultural contexts will also be presented. Issues surrounding measurement and change in these variables will also be discussed.

**PSYC446501**  
**Research Practicum in Developmental Psychology**  
**TOPPER, STACEE S**  
**Spring 2020**
This course is designed to serve as an overview of the research methods used in the study of Developmental Psychology. Over the course of the semester, you will become comfortable with all aspects of the scientific method. While completing a semester long research project proposal, you will learn to identify research questions, design a thoughtful scientific study, and propose statistical analyses. Students will gain experience reading, analyzing, and critiquing current research in developmental psychology. By the end of course, you will be familiar with the different methods used in developmental research and become critical consumers of research in this area.

PSYC447901
Research Practicum: Neurogastronomy
HERZ, RACHEL S
Spring 2020
How do our senses--what we see, hear, smell, and taste, and the sensory features of how food is presented to us--influence what, when, and how much we eat? How do moods, expectations, the situation we are in, and the people we are with influence our feelings of hunger and satiety, and even how we metabolize food? How does what we eat influence our emotions, and how do our personalities and moral convictions influence what we eat? These are some of the topics that will be addressed in this research practicum involving critical reading, class presentations, research projects, and active participation.

PSYC556001
Advanced Topics in Developmental Psychology
CORDES, SARA J
Spring 2020
This seminar explores major theories and issues in cognitive developmental psychology. Students gain a historical understanding of the emergence of developmental psychology as a field, become familiar with Piagetian theory, and explore more recent theories and findings in the aftermath of Piaget. For graduate students and advanced undergraduates.

Credits: 03

Frequency: Annually

PSYC557101
Controversies in Cognitive Neuroscience
SLOTNICK, SCOTT
Spring 2020
Cognitive Neuroscience is the study of how human mental processing relates to activity in specific brain regions. Current controversies in Cognitive Neuroscience will be critically examined by evaluating key articles relating to the following questions. Are there category specific processing regions in the brain (e.g., a region specialized for processing faces)? Can visual images be pictorial? Does short-term memory related activity in prefrontal cortex mirror more posterior perception related activity patterns? Do recollection and familiarity--two types of long-term memory--depend on different sub-regions of the medial temporal lobe? Does attention modulate activity in primary visual cortex?

**PSYC558301**  
**Molecular Basis of Learning and Memory**  
**CHRISTIANSON, JOHN P**  
**Spring 2020**  
Persistent yet pliable behavioral adaptations are the result of learning and memory. The goal of this course is to provide an introduction to the fundamental cellular and molecular mechanisms that permit the storage and retrieval of information. After a primer on cellular and molecular neurobiology, students will read and discuss the seminal works on the following topics: intrinsic (cellular), synaptic and morphological plasticity, molecular mechanisms of consolidation, modulators of memory systems, and diseases of memory. The course participants will select additional topics for discussion and writing assignments.

**Credits:** 03  
**Schedule:** F 1-3 30  
**Room:** MCGUINN HALL 303  
**Satisfies Core Requirement:** None

**PSYC558501**  
**Advanced Brain Systems: Motivation and Emotion**  
**PETROVICH, GORICA D**  
**Spring 2020**  
This course will review the organization of neural networks that control motivated and emotional behaviors in mammals. This is a functional neuroanatomy course that will discuss how the brain regions are interconnected to form functional systems.
PSYC660101  
Structural Equation Modeling  
RYU, EHRI  
Spring 2020  
This course provides an introduction to the theory and application of structural equation modeling (SEM). The topics are basic concepts of structural equation models, path models with measured variables, measurement models, confirmatory factor analysis, structural equations with latent and measured variables, and extensions and advanced application. The course assumes that you have already completed a course in multivariate statistics. LISREL will be used to perform statistical analysis.

Romance Languages and Literatures Courses: Summer 2019

RLRL102001
The Immigrant in Film and Literature
WOOD, CHRISTOPHER
Summer 2019
The experiences of the displaced, the exile and the immigrant have inspired great literature and cinema in the Spanish speaking world. This course will delve into a variety of narratives about the perilous journeys of Central Americans and Mexicans making their way to the North, the terrifying voyages of the brave and desperate people crossing to Spain from North Africa, and the struggle to adapt to new social, cultural and linguistic realities. Students will read, in English translation, short stories, short novellas, and first-hand accounts of immigrant experiences and watch several Spanish-language movies with English subtitles.

Credits: 03
Schedule: T TH 6-9 15
Room: STOKES HALL 115N

RLRL115001
The Twentieth Century and the Tradition in Paris
EPSTEIN, THOMAS
Summer 2019
Paris in the first third of the twentieth century was very much at the center of what we call Modernism, a period of upheaval in European and world culture. Concentrating on literature and visual art but also including philosophy, architecture, religious experience and music, we will explore and analyze some of the new Modernist music, such as Stravinsky or Debussy, and travel together to Giverny, the hometown of the impressionist painter Claude Monet. I will also lead numerous excursions around Paris. Our readings will include poetry (Eliot, Yeats, Apollinaire, Rimbaud), fiction (Gide, Proust, Kafka, Camus), philosophy (Nietzsche, Weber, Weil, Heidegger, Sartre), a play by Pirandello, and artists' statements. You will be expected to produce short weekly essays and a term paper, which will be completed after returning from Paris.

Romance Languages and Literatures Courses: Fall 2019

RLRL102301
Elementary Portuguese I
RODRIGUES, JOSE D
Fall 2019
This beginning course is designed for students with little or no knowledge of the Portuguese language. It is an introduction to the language and cultures of the Portuguese-speaking world: Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, Cape Verde, Sao Tome and Principe and East Timor. Students will be engaged in basic activities and conversation, read simple texts, and study basic grammar structures and vocabulary (personal and family information, daily routines, food, housing, hobbies).

Credits: 03
Schedule: M W F 3
Room: GASSON HALL 304
Satisfies Core Requirement: None
Comments: Conducted in Portuguese
Prerequisites: None
RLRL229201
Modern Middle Eastern and Arabic Literature
SALAMEH, FRANCK
Fall 2019
This course examines the complex, multicultural nature of the Middle East by surveying twentieth century literature of Arabic-speaking lands, Israel, and Turkey. Topics include identity, culture, religion, nationalism, conflict, and minority narratives. Of Arabic works, we will read at the writings of Adonis, Darwish, and Qabbani. Of Hebrew works, we will examine the writings of Amichai and Bialik. Of the works written French, English, Kurdish, Syriac, Turkish, and various Middle Eastern dialects, we will survey the writings of Andree Chedid, Mario Levi, Charles Corm, Louis Awad, Said Akl, and Orhan Pamuk.

Cross-listed with: ENGL2348, NELC2161
Frequency: Periodically

RLRL332801
Islam and the Iberian Peninsula
GOIZUETA, ELIZABETH T
Fall 2019
This course will examine the relationship between cultures in the Euro-Arab context from both historical and contemporary perspectives. It will begin with an examination of the historical influence of Islam in the Iberian Peninsula from the eighth to the fifteenth centuries. During that period, Spain presented an example of religious tolerance and the place where the followers of the three Abrahamic religions lived, arguably, in harmony with one another. Against this background, the course will explore the interactions and mutual influences between the Iberian and the Islamic cultures from the Middle Ages to the present.
**Credits:** 03

**DAKOVA, MARIELA**  
**Fall 2019**  
An overview of ethnic, cultural, and religious diversity among peoples of the Balkans (Albanians, Bosnians, Bulgarians, Croats, Greeks, Macedonians, Romanians, Serbs, Slovenes, Jews, Turks, and gypsies [Roma]). It is a study of what constitutes the various parameters of identity: linguistic typologies, religious diversity (Catholicism, Orthodoxy, Islam, and Judaism), culture, and social class. An analysis of the origins of nationalism, the emergence of nation-states, and contemporary nationalism as a source of instability and war in the Balkans will be considered.

Frequency: Biennially

SLAV316801
Russian Drama
LIN, TONY H
Fall 2019
A close reading of exemplary Russian plays from neoclassicism to modernism. Employing principles developed by Konstantin Stanislavsky--the transformative Russian director and theater visionary--the course examines how literature in performance affects the audience. The course culminates in the production of a play, which students cast, direct, and design. Plays by Fonvizin, Griboedov, Pushkin, Gogol, Ostrovsky, Turgenev, Chekhov, Blok, Mayakovsky, and other authors. Conducted entirely in English. No knowledge of Russian is required.

Credits: 03
Schedule: M W F 2
Room: GASSON HALL 303
Satisfies Core Requirement: None
Comments: Conducted in Russian
Prerequisites: None
Corequisites: None
Cross-listed with: ENGL3168

SLAV218001
From Russia with Love: Russian Musical and Visual Culture
LIN, TONY H
Spring 2020
In this interdisciplinary course, students will become familiar with sounds and images that represent Russia's contribution to world culture and Russians live by, such as symphonies by Tchaikovsky and Shostakovich as well as paintings by Repin and Chagall. We will consider the artists' aesthetic convictions in the context of several important artistic movements (e.g., Romanticism, the Avant-Garde, and Socialist Realism). The class will take a trip to the Boston Symphony Orchestra, and each student will design a final project, which can be creative or performative. Formal musical training and/or the ability to read music, while helpful, are not prerequisites for the course.

Sociology Courses: Summer 2019

**SOCY100101**

*Introductory Sociology*

EDDY, SAMANTHA M  

**Summer 2019**

This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

**Credits:** 03  

**Schedule:** T TH 1-4 45  

**Room:** STOKES HALL 115N  

**Satisfies Core Requirement:** Social Science  

**Comments:** Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.

**Prerequisites:** None

SOCY102401
Gender and Society
COMLEY, CALIESHA L
Summer 2019
This course explores the formation, experience, and change of women's and men's social lives in history. Topics include (1) gendered differences in the organization of power, kinship, economic well-being, race, national identity, and ethnicity, religion, sexuality, and culture; (2) socialization into masculine and feminine social roles; (3) the impact of global economic and technological change on social constructions of gender; (4) gender, popular culture, and the mass media; (5) gender equality and social justice.

Credits: 03
Schedule: T TH 6-9 15
Room: STOKES HALL 105S
Satisfies Core Requirement: Social Science
Comments: This can be taken as part of the Women's Studies minor.
Prerequisites: None
Corequisites: None

Frequency: Annually

SOCY103001
Deviance and Social Control
CARROLL, JACLYN
Summer 2019
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

Credits: 03
Schedule: T TH 6-9 15
Room: STOKES HALL 105S
Satisfies Core Requirement: Cultural Diversity,Social Science
Comments: Fulfills a requirement in the Women's Studies Program and the Pre-Law Program.
Prerequisites: None
Corequisites: None
Society and Environmental Transformations
HUANG, XIAORUI
Summer 2019
Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods. Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

Sociology of Health and Illness
CARR, KYLE A
Summer 2019
The World Health Organization defines health as a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. This course will consider this whole-person definition across the human life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.
SOCY330701
Race in the Criminal Justice System
SIMMONS, CEDRICK-MICHAEL N
Summer 2019
This class will examine the growth of the prison system and its relationship to structural racism in the United States. Students will examine the historical context in which the prison system expanded and privatized, with specific reference to desegregation and changes in the United States’ immigration and national security policies. A heavy emphasis will be placed on differences in how deviance is defined for peoples of different races, genders, classes and sexual orientations.

**SOCY332101**  
**Building Sustainable Communities**  
**DELSESTO, MATTHEW J; CERMAK, MICHAEL**  
**Summer 2019**  
This course will investigate contemporary urban environments through the eyes of urban farmers and community innovators who are building more equitable communities and sustainable relationships with the land. Fieldwork, class discussions, environmental media, and workshops with community partners will facilitate our engagement with sustainability narratives and practices. Course themes include the urban planning and racial politics, challenges and opportunities of deindustrialization, the environmental justice movement, youth education, organizational development, and community-based urban transformation.

Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor’s syllabus for a more exact description.

**Credits:** 03  
**Schedule:** T TH 3*  
**Room:** CARNEY HALL 308  
**Satisfies Core Requirement:** Social Science  
**Comments:** Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.  
**Prerequisites:** None
SOCY100107
Introductory Sociology
COATARPETER, PATRICK
Fall 2019
This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

Schedule: T TH 9*
Room: STOKES HALL 213S
Satisfies Core Requirement: Social Science
Comments: Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.

SOCY100201
Introduction to Sociology for Healthcare Professions
FAN, WEN
Fall 2019
This course is designed to present the fundamentals of sociology to an audience of future healthcare professionals. Attention is given both to micro-level (interpersonal) and macro-level (organizational) behavior. One of the major goals of the course is to enable students to ground themselves and their families sociologically, by examining their own community and social class origins. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY102401  
Gender and Society  
EDDY, SAMANTHA M  
Fall 2019  

This course explores the formation, experience, and change of women's and men's social lives in history. Topics include (1) gendered differences in the organization of power, kinship, economic well-being, race, national identity, and ethnicity, religion, sexuality, and culture; (2) socialization into masculine and feminine social roles; (3) the impact of global economic and technological change on social constructions of gender; (4) gender, popular culture, and the mass media; (5) gender equality and social justice.

SOCY103001
Deviance and Social Control
PFOHL, STEPHEN J
Fall 2019
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

SOCY103101
Society and Environmental Transformations
FITZGERALD, JARED
Fall 2019
Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods. Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

**SOCY103601**  
**Introduction to Latin American Societies**  
**MORELLO, GUSTAVO**  
**Fall 2019**

The aim of this course is to introduce students to sociology while exploring Latin American societies. The course will start with a general presentation of both sociology and Latin America. We will discuss what sociology is, and the different ways of studying societies. We will take some time to study the birth of modern Latin American nations. Relying on this historical background, we will explore Latin American societies through sociological concepts such as race, gender, social violence, religion, sports, and culture. Finally, we will pay attention to U.S.-LA relations and the fact of Latino people living in the United States.

SOCY103801
Race, Class, and Gender
SIMMONS, CEDRICK-MICHAEL N
Fall 2019
Viewing race, class, gender, sexuality, and other identities as inseparable from discussions of inequality and power, this course will begin by discussing the social construction of these categories and how they are connected. We will then look at how these social identities shape and are also shaped by four general subject areas: (1) wealth and poverty, (2) education, (3) family, and (4) crime, law, and social policy. Although this course is separated into subject areas, we shall see that these areas greatly overlap and are mutually influenced by one other.

**SOCY107201**  
**Inequality in America**  
**SPANGLER, EVE**  
**Fall 2019**  
This course examines class inequity in American society. It not only describes how the rich, the poor, and the middle classes live, but also how they relate to one another. Topics include the strategies used by the rich for maintaining the status quo, the hopes cherished by the middle class for improving their position, and the obstacles that keep the poor in their place. Students can choose between readings that emphasize the dynamics of inequality as they are enacted by men or women, and by people of color or Caucasians.

**SOCY107801**  
**Sociology of Health and Illness**  
**MORELOCK, JEREMIAH C**  
**Fall 2019**  
The World Health Organization defines health as a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. This course will consider this whole-person definition across the human life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.
SOCY108901
Women and the Body
HESSE-BIBER, SHARLENE
Fall 2019
This course covers Western cultural pressures on women to be super-slender. We analyze biological, sociological, and feminist perspectives on the body especially with regard to issues of beauty and body image and sexuality. We analyze how race, ethnicity and class intersect to create differences among women's relationship to their bodies. In what way do biological perspectives illuminate as well as cloud understanding of women's relationship to their bodies? We explore mass-mediated pressures on women's bodies through films, women's magazine, reality TV, and social networking sites. We examine the plastic surgery industry and the growing trend toward "designer bodies."

SOCY109201
Peace or War
DERBER, CHARLES
Fall 2019

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/sociology.html
We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World. In the first part of the course, we explore core theories of the roots of war. In the second part, we focus on the Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism" as well as conflicts such as Rwanda and Sudan. The fourth section explores the United Nations, social activism among students, and other routes to peace.

Aging and Society
MOORMAN, SARA
Fall 2019
"Age doesn't matter unless you're a cheese," quipped actress Billie Burke (the Good Witch in The Wizard of Oz). Nevertheless, age does matter within societies. This class will cover specific topics in four general areas of sociological study: roles and relationships (e.g., within the family), inequalities (e.g., ageism), institutions (e.g., health care), and social change (e.g., the aging of the population). By the end of the course, you will have acquired a new approach to thinking about how you and others age in the social world and the ways in which age is portrayed in the media.

SOCY150101
Global Implications of Climate Change
GAREAU, BRIAN J; PISANI GAREAU, TARA
Fall 2019
Climate change is one of the defining issues of our time. Decisive and swift action to mitigate carbon emissions is needed in order to prevent catastrophic events and unhealthy environments for future generations. Societies worldwide will need to adapt to a new environmental reality. However, the causes, effects, and costs of climate change are not equally distributed, which raises questions about responsibility and justice. This course will encourage critical engagement with and personal reflection on these important issues, covering the science behind climate change, the use of different energy sources and their impact on carbon emissions, and the different roles of governments, businesses, religious communities, and individuals for enacting (and preventing) ambitious solutions to climate change.

Planet in Peril: The History and Future of Human Impacts on the Planet
SCHOR, JULIET; PARTHASARATHI, PRASANNAN

Fall 2019

The twenty-first century opened with crises of climate, bio-diversity, and eco-system functioning. In this class we address ecological overshoot from the perspectives of sociology and history, emphasizing the role of inequality, the state, inequality, and power. The course combines contemporary analyses with a long historical record of human impact, considering both the familiar and the novel in the realm of ecological challenges. We devote substantial attention not only to causes but to solutions. Topics to be covered include: the Columbian exchange, forests, agriculture, water, climate change, toxics, and population. Solutions include state policy, social movements, individual action, and social innovation.

SOCY170701
Passion, Power, and Purpose: Adolescence in a Digital Age
LIANG, BELLE
Fall 2019
Youth are the sparks that keep society moving forward. Whereas adolescents have been stereotyped as restless, vulnerable, and self-centered, this course will take a positive youth development (PYD) lens to understanding biological, cognitive, and social transitions of this period in our global present. In contrast to deficit-oriented theories of adolescence, PYD focuses on youths' passions, power, and purposes, and providing them with the resources needed to achieve their potentials. This course will involve both research and "search"--the scholarly study of diverse paths leading from childhood to adulthood and exploration into one's own journey.

Citizenship, Immigration, and Belonging in the United States: Can Education Save Us?
OLIVEIRA, GABRIELLE; CASTRO SAMAYOA, ANDRES
Fall 2019
Why has the "build the wall" chant become so popular at political rallies throughout our nation? Beyond appeals to erect brick and mortar structures, how have legal policies shaped the mobility across state boundaries? Tracing the history of the (im)migrant paradigm in the United States, we focus on the role of legal, social, and individual factors that continue to politicize (im)migration in the United States. By focusing on migration as a historical and contemporary discourse, we explore a key question in this course: what can education do to address the chronic injustices derived from policing borders? As a student beginning your first year in college, this course is an opportunity to learn about a timely topic to examine how your college years can prepare you to enact change in the world.

**Law and Adolescence: Children of Immigrants**
None
Fall 2019
What differentiates childhood from adolescence? How have societies in the United States and Latin America defined shifting notions of childhood and adolescence, and how does law intersect with rites of passage? These paired courses will familiarize students with markers of mobility and incorporation and develop students' understanding of how legal regimes in Latin America and the United States define parameters of childhood, adolescence, and adulthood. Students will learn to recognize how legal regimes in the Americas define boundaries across the life course and the contradictions in how youths experience the emotional, legal, political, and cultural transition of coming-of-age.

**SOCY225401**  
Community Service Research Seminar  
DEROSA, MARLA C  
Fall 2019

CRP is a two-semester program (SOCY2254 and SOCY2255) offering leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In Fall, students in SOCY2254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for Spring. In Spring, students sign up for SOCY2255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

Society and National Identity in the Balkans  
DAKOVA, MARIELA  
Fall 2019
SOCY330301
Social Construction of Whiteness
PIATELLI, DEBORAH A
Fall 2019
This course explores the social construction of race through the lens of whiteness. By examining whiteness as both a race and historical system of privilege, students will gain a deeper understanding of the persistence of racism. We will examine the distribution of privilege within American society at both the interpersonal and institutional levels; as well as consider how whiteness operates within the social constructs of class and gender. Through writing and in-class group discussion, students will examine their own identities and consider how consciously or unconsciously they are affected by these processes, as well as consider strategies for challenging racism.

SOCY331001
Studies in Crime and Social Justice
HEDGES, JESSICA D
Fall 2019
Crime and social justice are considered not as distinct, but indivisible constructs produced through specific knowable institutional/personal practices. Course allows students to analyze perspectives on the process through which laws and criminal justice institutions have been/continue to be constructed; situate crime study within a "power reflexive" framework, while being attentive to the operation of race, class, and gender as features of contemporary social relations/institutions; discuss contemporary intellectual and practical efforts challenging existing conceptual and political structures relating to crime and social justice; and imagine/articulate institutions paralleling the vision of social justice developed throughout the course.

SOCY332501
Immigration and Identity
HAIDER, MAHEEN
Fall 2019
The course explores both the history of U.S. immigration while connecting it to contemporary issues of immigration in the current Trump era. The course is designed to challenge students as we critically examine immigration theory and focus on the geo-political changes (in particular War on Terror) impacting immigrants, immigration, and immigration policy. We answer three perennial questions: (1) What is an immigrant? (2) Who is an immigrant? (3) How does one become an immigrant? We will look at the intersection of immigrant identities (class, race, ethnicity, gender, and religion) while examining immigrant experiences in the host society.

**SOCY334201**
**Faith and Conflict: Religion and Social Change in Latin American Societies**
**MORELLO, GUSTAVO**
**Fall 2019**

Liberalism was a major political influence in most of the new Latin American republics during the nineteenth century. During most of the twentieth century, the church stood itself against modernity and fought against progressive and liberal positions. However, during the Sixties, a very important renewal in theology took place in the church. This renewal had political consequences in Latin America, where wide portions of the faithful and clergy supported progressive theology. The seminar will study the progressive theological ideas and their impact in Latin America. We will frame this discussion in the debate about secularization and modernity in the continent.

SOCY334601  
Environmental Justice  
LARGESSE, ELISE B  
Fall 2019  
This course examines challenges and controversies associated with the unequal distribution of environmental hazards across communities. Students will explore the social, industrial, and government forces that create inequitable burdens of environmental pollution as well as movements to reduce such burdens. While a majority of the course will focus on the United States, readings will include cases from around the world. Students will be expected to actively contribute to class discussions and to complete a pilot research project on the environmental justice implications of an area of everyday consumption such as food, clothing, cleaning, transportation, or technology.

SOCY335801  
Gender and Sports  
KIM, KYOUNG-YIM  
Fall 2019  
This course uses sport to understand gender relations in a society. The course examines the ways that gender and intersections of race, class, and sexuality are produced by and within relations of power, and how normative definitions of gender and its intersections underpin normative practices in sport, health, and physical cultural contexts. Drawing on feminist scholarship, this course provides a critical insight into the history of gender relations, and how gender is used to reproduce and resist inequalities in sport, health, and physical culture.
SOCY335901
Sports in American Society
KIM, KYOUNG-YIM
Fall 2019
This course provides a critical entry point into the sociology of sport in American society that examines the sociological role of sport in the making of American society and culture, as well as the reverse. The purpose of the course is to better understand sport as a social institution, and to analyze the dynamic interplay of economic, political, social, and other forces within which forms of sport and physical activity have been developed, implemented, and contested in America.

**Social Justice in Israel/Palestine**  
**SPANGLER, EVE**  
**Fall 2019**

This seminar provides the intellectual underpinnings for an immersion trip to Israel/Palestine in January. Students in this course must commit to the trip and, upon their return, to a project that uses the knowledge they gained in Israel/Palestine. The seminar will include a review of the Israeli and Palestinian history, an analysis of the contested theological claims to the land, and an examination of conflict resolving strategies focusing on cross-border groups operating in Israel/Palestine (e.g., Prime, Combatants for Peace, Parents Circle). Finally, we will consider possible economic futures for the area under both one and two state scenarios.

SOCY337001
Gender, Health, and Inequality
BIRK, LARA B
Fall 2019
This course explores interactions between gender, health, and inequality. Viewing gender (and race, class, sexuality, and other identities as inseparable) and as inextricably linked to discussions of health and inequality, this course will discuss social constructions of these categories and how they are connected. For example, what does health even mean and who decides? Are unequal health outcomes due to life chances or life choices? How do we understand nature/nurture debates? While emphasis will be given to sociological approaches, health will be explored holistically and theories will be integrative (e.g., including psychology, biology, and epigenetics). Applied topics range from mental and physical paradigms of health, alongside environmental and contested illnesses in a "post-natural" world.

SOCY337301
Sexuality and Society
CARROLL, JACLYN
Fall 2019
This course explores societal understandings of sexuality through examining the ways that sexuality is promoted, repressed, and contested within American society. The topic will be surveyed in terms of social behavior, identity, culture, and power. Course readings will emphasize the influence of culture, institutions, and social interactions on sexuality, as well as explore the role of the state and the power of social norms in constructing sexuality.

American Economic Crisis and Social Change
DERBER, CHARLES
Fall 2019
This course offers a new way to think about America, focusing on our values, our intertwined economic and social crises exploding in the 2008 Wall Street meltdown, and systemic solutions. Our economic problems include growing poverty and inequality, a shrinking job market, and the failure of many of our industries and corporations to compete globally; our social crisis includes the growth of violence, family breakdown, global warming, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system.

Inside-Out: Perspectives on Crime, Corrections, and Justice
DELSESTO, MATTHEW J
Fall 2019
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections, and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the marriage of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. Most sessions will meet at the Suffolk County House of Correction.

**SOCY338801**  
**Culture Through Film**  
**Hamm, James H**  
**Fall 2019**  
We will explore contemporary issues, perception and reality, language, race, gender, sexual orientation, indigenous rights, marriage, colonialism, protest and chaos, and attempt to "think outside the box." Each week we will view one or more films that raise questions about the ways we understand these issues. The films have been selected to enable us to experience alternative ways of thinking about concepts with which we probably feel comfortable. The goal of the course is to allow us to realize that many of our beliefs are cultural constructions and in fact are always in the process of revision.

**Sociology of Visual Culture: Images and Power, Resistance and Change**

**PFOHL, STEPHEN J**

**Fall 2019**
Visual cultures are today entangled within pulsating webs of suggestive electronic imagery. Some images fascinate us. Others make us afraid. Dominant images captivate our attention in ways that are steeped in heterosexist, racialized, militarized, nationalistic, and capital-intensive coloniality. This seminar explores the iconic power of visual images in media-saturated global society. How do visual images influence our imagination of others and ourselves, our pleasures, ethics, and politics? In exploring this question, seminar participants are invited to engage with a variety of artful sociological approaches to the study of visual culture--critical perspectives on sensate ways of seeing and their power.

SOCY667001
Technology and Culture
GRIFFITH, WILLIAM
Fall 2019
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

SOCY770401
Regression Models for Categorical Data
FAN, WEN
Fall 2019
This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The major topics of the course will include OLS regression diagnostics, binary, ordered, and multinominal logistic regression, models for the analysis of count data (e.g., Poisson and negative binomial regression), treatment of missing data, and the analysis of clustered and stratified samples. Familiarity with Stata is required for this course.

Credits: 03
Schedule: T TH 9*
Room: O'NEILL LIBRARY 245
Satisfies Core Requirement: None
Comments: None
Prerequisites: Familiarity with Stata is a prerequisite for this course.
Corequisites: None
SOCY771001
Social Inquiry Research Seminar
SARKISIAN, NATALIA
Fall 2019
This course presents the wide range of alternative research methods available to and widely used by the social researcher. Among those considered are the following: survey research, observational field research, intensive interviewing, experimental research, historical analysis, and content analysis. Considerable attention will be given to comparisons among these alternative methods, to an assessment of the relative strengths and limitations of each, and to issues related to research design and proposal writing. In the context of these alternative research methods, attention will be given to problem formulation, measurement, reliability, validity, sampling, and ethical considerations.

SOCY771501
Classical Social Theory
MAGUBANE, ZINE
Fall 2019
Focusing on the work of Marx, Durkheim, and Weber, the course traces the philosophic, intellectual, and social history of the ideas, themes, concepts, and schools of thought we now call "classical sociological theory." Supportive thinkers will also be discussed as they contributed to the emergence and establishment of modern sociological thought.

Credits: 03
Schedule: T 4 30-7
SOCY776101
Second Year Graduate Writing Seminar
BABB, SARAH L
Fall 2019
The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects. Students will be graded on the drafts of their research papers submitted at the end of the spring semester.

Credits: 03
Schedule: BY ARRANGEMENT
Room: None
Satisfies Core Requirement: None
Comments: This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry.
Prerequisites: None

SOCY776301
Topics in Environmental Sociology
JORGENSON, ANDREW K
Fall 2019
This Ph.D.-level course is designed as both a stand-alone seminar and a follow-up to the Environmental Sociology seminar (SOCY5562). The seminar will focus on a set of identified topics in contemporary environmental sociology. Emphasis is placed on the reading and discussion of published empirical work.

Dissertation Seminar
SARKISIAN, NATALIA
Fall 2019
This is a continuing research workshop which covers all stages of the research process, from conceptualization and theory development through data analysis and writing. The workshop is intended primarily for sociology graduate students working on dissertations. Others will be welcomed on a case-by-case basis. The group meets bi-weekly, with individual meetings with the professor as necessary. All students who are writing dissertations are strongly recommended to enroll in this workshop, at least for one semester.

**SOCY100101**
Introductory Sociology

OUIMETTE, MONIQUE

Spring 2020
This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

Credits: 03
Schedule: T TH 3*
Room: STOKES HALL 115N
Satisfies Core Requirement: Social Science
Comments: Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.
Prerequisites: None

SOCY100201
Introduction to Sociology for Healthcare Professions
FAN, WEN
Spring 2020
This course is designed to present the fundamentals of sociology to an audience of future healthcare professionals. Attention is given both to micro-level (interpersonal) and macro-level (organizational) behavior. One of the major goals of the course is to enable students to ground themselves and their families sociologically, by examining their own community and social class origins. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

Credits: 03
Schedule: M W 3*

Gender and Society
EDDY, SAMANTHA M
Spring 2020
This course explores the formation, experience, and change of women's and men's social lives in history. Topics include (1) gendered differences in the organization of power, kinship, economic well-being, race, national identity, and ethnicity, religion, sexuality, and culture; (2) socialization into masculine and feminine social roles; (3) the impact of global economic and technological change on social constructions of gender; (4) gender, popular culture, and the mass media; (5) gender equality and social justice.
SOCY103001
Deviance and Social Control
PFOHL, STEPHEN J
Spring 2020
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

Sociology of Health and Illness
MORELOCK, JEREMIAH C
Spring 2020
https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/arts-sciences/sociology.html
The World Health Organization defines health as a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. This course will consider this whole-person definition across the human life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.

**Peace or War**  
**DERBER, CHARLES**  
**Spring 2020**  
We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World. In the first part of the course, we explore core theories of the roots of war. In the second part, we focus on the Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism" as well as conflicts such as Rwanda and Sudan. The fourth section explores the United Nations, social activism among students, and other routes to peace.

SOCY171101
Social Inequality in America
SPANGLER, EVE
Spring 2020
This course takes a structural and systemic view of inequality, exploring how legally protected economic advantage cascades into institutional inequality in other areas, such as politics, education, science, and popular culture. Students will consider the diverse means by which inequality is justified and then made to seem invisible, while also taught the tools available for making a difference.

SOCY171401
Shop-Apocalypse: Consumer Culture's Past and the Fate of the Planet
FLEMING, ROBIN; SCHOR, JULIET
Spring 2020
Although we are increasingly aware that our habits of consumption affect the environment, it is hard to imagine that consuming patterns are capable of being changed. In this class, students will learn that practices of consumption are both socially and historically constructed, that they change dramatically over time, and that there are (and always have been) urgent moral issues connected to practices of consumption. We will explore the global, social, and environmental dimensions of consumption, studying things like the 1897 Sears catalog, 1950s television shows, Canada Goose jackets, DIY manuals and makerspaces, and hippy cookbooks of the 1960s.

SOCY171501
Family Matters: Psychology and Adoption
KIM, OH MYO
Spring 2020
In recent decades, the enduring question?what is a family??has intertwined itself with religious, political and global concerns as nation-states and many different faiths have begun to regulate and create new modalities of the family. Understanding kinship?biological and constructed?is fundamental to evaluating this global turn. Using adoption as a critical lens, our linked courses encourage students to question definitions of family, evaluate how ideas of kinship have changed over time, and consider kinship?s impact on one?s sense of self, one?s relationship to family and genealogy, and one?s understanding of the past.

SOCY174501
Law and Adolescence: Children of Immigrants
MILLAN OVANDO, DANIEL
Spring 2020
What differentiates childhood from adolescence? How have societies in the United States and Latin America defined shifting notions of childhood and adolescence, and how does law intersect with rites of passage? These paired courses will familiarize students with markers of mobility and incorporation and develop students' understanding of how legal regimes in Latin America and the United States define parameters of childhood, adolescence, and adulthood. Students will learn to recognize how legal regimes in the Americas define boundaries across the life course and the contradictions in how youths experience the emotional, legal, political, and cultural transition of coming-of-age.

**SOCY174601**  
**Motivations for Human Cooperation: Sociological Perspective**  
**ATTWOOD-CHARLES, WILLIAM**  
**Spring 2020**

What motivates us to cooperate? Are we, as many have suggested, driven primarily by self-interest or is there room for altruism? Readings will draw from sociobiology, community ecology, sociology, economics, and political theory to highlight examples of cooperation unfolding in the natural world around us, explain why cooperation among humans is so difficult, and ways in which we have formulated formal and informal "rules" to incentivize human cooperation. Through case studies, we will explore how cooperation occurs between individuals in small groups and organizations, in addition to the role of large institutions in enabling and constraining various types of cooperation. Students will have an opportunity to reflect on theories of cooperation and develop practical frameworks for resolving cooperative dilemmas in an equitable manner.

SOCY200001
Oh my God! A Sociological Intro to Religion in the U.S.
MORELLO, GUSTAVO
Spring 2020
This course presents you a basic sociological approach to religion in the United States. We ask what religion is, how it is present and influential in U.S. society, its interactions with ethnicity, gender, and American politics. We will focus on people's religious practices, and how religiosity influence their personal lives. This is not a class about U.S. religious history, or about a comparison of the main beliefs among different traditions. We will pay attention to historical developments and theological ideas, but our aim is to understand how do people live religion in their daily lives, and how that practices relates to other aspects of their social life.

Advanced Community Service Research Seminar II
DEROSA, MARLA C
Spring 2020

CRP is a two-semester program (SOCY2254 and SOCY2255) offering leadership, research, and public policy training for students interested in working with Latino, Asian American, and/or African Diaspora communities. In fall, students in SOCY2254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In spring, students sign up for SOCY2255 in conjunction with a Readings and Research to conduct their projects. The spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

Gender, Sexuality, and Athletics
KIM, KYOUNG-YIM
Spring 2020
This course aims to examine sport as a form of popular culture where ideas around gender, sexuality, and status in North American cultures are embodied and performed. In this course, we will discuss the significance of sports to ideas of the self and the body as well as in broader cultural, social, economic, and political realms. We will analyze a variety of issues including the relationships of sport and gender to some institutions like the government, media, business, religion, and education. We will chart changing conceptions of health, fitness, and the body as well as the relationship between technology and the body in sports. The role of celebrity and commercial media in producing sports as entertainment will be discussed. We will also investigate questions about the significance of sports and athletes to contemporary processes of globalization. The material in this course covers a broad array of topics and methodologies from anthropology, sociology, literature, kinesiology, and women's and gender studies. The interdisciplinary design encourages critical thinking about the complex ways that sports normalize ideologies of biological difference, capitalist competition, and essential inequalities between people. The course presents students of culture and society with some approaches in the study of social difference, inequality, and change. Throughout this course, students will be encouraged to think about how sports operate in their everyday lives and to apply concept

SOCY330301
Social Construction of Whiteness
PIATELLI, DEBORAH A
Spring 2020
This course explores the social construction of race through the lens of whiteness. By examining whiteness as both a race and historical system of privilege, students will gain a deeper understanding of the persistence of racism. We will examine the distribution of privilege within American society at both the interpersonal and institutional levels; as well as consider how whiteness operates within the social constructs of class and gender. Through writing and in-class group discussion, students will examine their own identities and consider how consciously or unconsciously they are affected by these processes, as well as consider strategies for challenging racism.

Immigrant Experiences and the Family
MILLAN OVANDO, DANIEL
Spring 2020
Migration processes shape the composition of families through separation and reunification. Importantly, immigration laws in the United States have centered on the family. However, immigration policies can also place families at risk of separation. This course will address the contemporary experiences of immigrants and their families, including family formation, detention/deportation, educational experiences, and labor. We will undertake a multi-method approach by encountering texts from researchers who draw upon survey, demographic, interview, and/or ethnographic data to analyze the role of immigration policies and practices on the experiences of immigrant families.

SOCY334601
Environmental Justice
LARGESSE, ELISE B
Spring 2020
This course examines challenges and controversies associated with the unequal distribution of environmental hazards across communities. Students will explore the social, industrial, and government forces that create inequitable burdens of environmental pollution as well as movements to reduce such burdens. While a majority of the course will focus on the United States, readings will include cases from around the world. Students will be expected to actively contribute to class discussions and to complete a pilot research project on the environmental justice implications of an area of everyday consumption such as food, clothing, cleaning, transportation, or technology.
SOCY336401
Human-Wildlife Conflicts and Co-existence
KELLY, JENNIFER R
Spring 2020
This course introduces students to a wide spectrum of wild animal issues through an interactive and interdisciplinary lens. The course captures the diversity of both negative and positive interactions between humans and wildlife in rural and urban contexts. To highlight these different encounters, we will look at a range of ecosystems around the world including those in New England and Costa Rica. The course covers: the ecological, social, and economic significance of species; the social and economic impacts of species in our backyards; how species are adapting to smaller spaces; and the increase in human-wildlife interactions. This course ensures that students gain more than a basic understanding of the topics discussed by working with an organization that focuses on wild animals, by encouraging students to reflect on the wild animals they encounter in their own communities, and in bringing their personal experiences to discussion forums. The discussions, service learning, case studies, and examples allow for a deeply rich and applied understanding of the course themes. Human-Wildlife Conflicts and Co-existence provides an academic experience that is engaging, interdisciplinary, applied, personal, and inclusive, not just in terms of its accessibility and variety, but in terms of the multi-species perspectives it uncovers.

SOCY336801
Masculinity, Sexuality, and Difference
INGRAM, BRETT D
Spring 2020
This course will examine constructions of masculinity and sexuality in Western society from a critical cultural perspective. We will consider the ways in which cultural narratives about "acceptable" masculine behaviors and attitudes catalyze social conflicts, reinforce established power hierarchies, and organize the modes of being available to people of different gender identities and sexual orientations. We will also evaluate the liberating potential of emergent discourses and practices that seek to cultivate greater acceptance of diversity, and promote social healing. There will be a concentrated focus on popular cultural forms (especially television, film, music, sports, and social media) that are particularly influential to contemporary men and boys.

**SOCY337501**  
**American Economic Crisis and Social Change**  
**DERBER, CHARLES**  
**Spring 2020**  
This course offers a new way to think about America, focusing on our values, our intertwined economic and social crises exploding in the 2008 Wall Street meltdown, and systemic solutions. Our economic problems include growing poverty and inequality, a shrinking job market, and the failure of many of our industries and corporations to compete globally; our social crisis includes the growth of violence, family breakdown, global warming, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system.

Inside-Out: Perspectives on Crime, Corrections, and Justice
DELSESTO, MATTHEW J
Spring 2020
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections, and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the marriage of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. Most sessions will meet at the Suffolk County House of Correction.

SOCY338801
Culture Through Film
HAMM, JAMES H
Spring 2020
We will explore contemporary issues, perception and reality, language, race, gender, sexual orientation, indigenous rights, marriage, colonialism, protest and chaos, and attempt to "think outside the box." Each week we will view one or more films that raise questions about the ways we understand these issues. The films have been selected to enable us to experience alternative ways of thinking about concepts with which we probably feel comfortable. The goal of the course is to allow us to realize that many of our beliefs are cultural constructions and in fact are always in the process of revision.
SOCIY339101
Social Movements
ATTWOOD-CHARLES, WILLIAM
Spring 2020
Social movements have played a major role historically, helping bring about much that is often taken for granted: democratic governance, chattel slavery's demise, women's suffrage, the 40-hour work week, and basic environmental regulations. Today, movements remain central to social change, but just as in the past, they are often denigrated, from the left and the right. This course critically surveys movements across time, space, and ideology, though we focus on the U.S., with particular attention to the modern climate justice movement and conservative countermovement. Students will learn concepts and tools from social movement theory while applying them experientially.

**SOCY493101**  
**Important Readings in Sociology**  
**ATTWOOD-CHARLES, WILLIAM**  
**Spring 2020**  
Ordinarily, students will take this course during the spring of their junior year. The purpose of this seminar will be to read and discuss a series of books that are generally thought to be important contributions to the field. The books chosen will reflect a range of substantive issues, methodological approaches, and theoretical perspectives. The abiding question throughout this seminar class will be the following: What are the characteristics of powerful and compelling sociological work?

Senior Honors Thesis
MOORMAN, SARA
Spring 2020
After having completed their research proposal in SOCY4961, Students in the Undergraduate Sociology Honors Program then complete the data collection, the analysis, and the writing of their senior thesis during the spring of the senior year. In SOCY4963.01 students complete their thesis research under the direction of their faculty advisor. Ordinarily, students are expected to complete their thesis by April 15, approximately two weeks before all senior honors students present the findings of their research in a public meeting.

SOCY551201
Qualitative and Mixed Methods
HESSE-BIBER, SHARLENE
Spring 2020
Qualitative and Mixed methods research is moving across the social science landscape. Funding agencies now require a qualitative and/or mixed methods component in their funding guidelines. This course introduces a range of qualitative and mixed methods designs approached from a qualitative perspective. We introduce a "hands on" approach to explore elements of qualitative and mixed methods projects - from the formulation of questions to data collection, analysis and interpretation. We utilize a computer assisted program to analyze and interpret mixed methods data. Students will develop a qualitative or mixed methods research proposal project or conduct a critical review of existing research employing mixed methods designs. This course welcomes graduate students from a range of the health sciences, education as well as the social sciences and humanities. We examine how mixed methods research can promote credibility of evidence within given mixed methods projects. Faculty: Sharlene Hesse-Biber

SOCY553001
Studies in Crime, Deviance, and Social Control
PFOHL, STEPHEN J
Spring 2020
This grad-level class involves a sociological exploration of power-charged rituals of social control and the ?deviants? such rituals target, as well as resistance to control by those that power excludes, marginalizes, stigmatizes, or attempts to silence. How do gendered, class-based, and racialized forms of power influence battles between agents of control and those they label as ?other?? Drawing on critical theoretical and historical scholarship, we review major religious, legal, medical, social science, and ethical-political approaches to crime, deviance, and social control, paying attention to global digital technologies of control and resistance. Other issues include racialized policing; mass incarceration; the pharmaceutical management of ?madness;; surveillance in everyday life; elite and governmental deviance; and the global trafficking of people, sex, drugs, body parts, weapons, terrorism, and mesmerizing media images capable of inducing fascinating and fearful waves of affect.

SOCY556201
Environmental Sociology I
HUANG, XIAORUI
Spring 2020
This is a reading and discussion seminar that provides an overview of theoretical and empirical work in environmental sociology. After a brief introduction to the origins of the field, the seminar will cover topics that are representative of what is current in the area, especially bodies of theory and research that are national, international, and global in scope and research that is structural in orientation, with a key focus on how large-scale social institutions and organizational forms impact the environment, and also how they shape the ways in which individuals and smaller groups interact with the natural environment. Attention is also given to how environmental sociology makes fundamental contributions to interdisciplinary research in environmental studies and sustainability science.

SOCY556501
Introduction to Social Work
RYAN, SARAH E
Spring 2020
Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

SOCY557701
Sociology of Religion
MORELLO, GUSTAVO
Spring 2020
This is a mixed grad/undergrad seminar designed for students in Sociology or related fields (like Theology, Social Work, Political Sciences, and History). Students will gain knowledge on the classics of the Sociology of religion, the main theoretical discussions, and the contemporary trends in the field. It will cover some theoretical and methodological perspectives as well as research literature, and will include three geographical areas: U.S., Europe and Latin America. We will start exploring the current discussions in the field. Then we will devote time to read the classics: What have the 'Founding Fathers' of sociology (Marx, Durkheim, and Weber) said about religion? After that we proceed to study the main theoretical frameworks to understand religion from a sociological perspective: Secularization and Rational Choice theories. We will also look at other alternative analyses, like cultural theories, popular religiosity and lived religion.

SOCY667001
Technology and Culture
GRIFFITH, WILLIAM
Spring 2020
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

**Multivariate Statistics**

**JORGENSON, ANDREW K**

**Spring 2020**

Starting with the spring semester of 2018 this course will assume knowledge of the material covered in the current version of SOCY7702 and that includes (1) a solid background in Stata programming and (2) a recent course in basic statistics. We will be switching from SPSS used last year to Stata to be used this year. We will cover exploratory factor analysis, logistic regression, basic discriminant analysis, and multiple imputation to deal with missing data; but our focus, and more than 50% of the course, will deal with multiple regression and related issues and procedures including: data transformations, analysis of residuals and outliers, interaction terms, quadratic regression, dummy variables, analysis of covariance, stepwise regression, and path analysis. This course does not require a knowledge of matrix algebra or calculus. Students who are advanced undergraduates or graduate students from other departments are welcome, but you must first get the written permission of the instructor.
SOCY770601
Longitudinal Data Analysis
SARKISIAN, NATALIA
Spring 2020
This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The course will focus on panel data management and analysis, with topics including change models, fixed and random effects models, GEE models, and mixed models. All analyses in the course will be conducted using Stata, but no previous Stata experience is necessary.

SOCY771101
Empirical Research Seminar
BABB, SARAH L
Spring 2020
This course guides graduate students through data collection and analysis, explores techniques and technologies of analysis and interpretation, and discusses research ethics arising in the process of data collection. The course has three components. First, students refine and revise their proposals from SOCY7710, complete IRB approval of their projects, and begin data collection and analysis. Second, students compile and begin to incorporate into their analysis a reading list that will constitute the basis of their literature review for this project. Third, students attend and submit written responses on the departmental seminar series and sessions with invited speakers across the university.

**SOCY771601**  
**Contemporary Social Theory**  
**PFOHL, STEPHEN J**  
**Spring 2020**  
This seminar is a graduate level introduction to contemporary social theory. It concerns the historical context and development of a wide variety of perspectives used by social theorists to make sense of multiple social worlds. It also concerns the ways in which social theories are themselves sociologically constructed. Theoretical frameworks addressed include: functionalism and cybernetics; symbolic interactionism and pragmatism; exchange, behavioral, and conflict perspectives; feminism; Marxism; phenomenology and ethnomethodology; critical race theory; queer theory; structuralism and poststructuralism; as well as postcolonial and postmodern theories of the subject and power.

SOCY776101
Second Year Graduate Writing Seminar
BABBB, SARAH L
Spring 2020
The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects. Students will be graded on the drafts of their research papers submitted at the end of the spring semester.

Credits: 03
Schedule: BY ARRANGEMENT
Room: None
Satisfies Core Requirement: None
Comments: This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry.

SOCY777101
Understanding Consumer Society
SCHOR, JULIET
Spring 2020
This course is designed to train graduate students in the sociology of consumption and to analyze contemporary contradictions and trends in consumer culture. We begin with the history of consumer culture, then move on to classic authors (Frankfort School, Veblen, Bourdieu, Giddens), as well as more recent versions of these approaches. We pay particular attention to Bourdieu, whose work has been particularly influential. In the last third of the course we consider consumption from the perspective of topical areas: identity consumption, consumption and race, global consumer culture, sustainable consumption and others.

ARTS110105

Drawing I: Foundations
REEVES, BRIAN A

Summer 2019
The use of line, plane, and volume is explored to develop the student's comprehension of pictorial space and understanding of the formal properties inherent in picture making. Class work, critiques, and discussions will be used to expand the student's preconceived ideas about art. This course incorporates historical components and writing assignments.

ARTS111501

Imagination and Creativity in Irish Landscapes
IVY, CANDICE M

Summer 2019
This hands-on study abroad course is open to students of all levels of artistic background and areas of concentration. This course comprises a uniquely immersive and field-based study at the Burren College of Art - based within the renovated remains of a sixteenth-century castle on the west coast of Ireland. The surrounding landscape is the Burren, a one-of-a-kind ecological land mass of limestone, formed under an ancient ocean, and fostering ecosystems containing flora and fauna unique to the area. Culturally, the region is home to numerous unearthed remains of historical dwellings, tombs, and artifacts, which further sculpt the terrain. Through individual and collaborative creative projects using a variety of media, students use the terrain to investigate, question and expand upon firsthand observation and analysis of relationships between cultural and natural systems. Course content will consist of trips to regional sites, field based research, creative workshops, lectures and art production supported by local ecologists, artists, story-tellers and historians.
ARTS116301
Introduction to Digital Photography
MULDOWNEY, GREER R
Summer 2019
Students will become familiar with how to create a photograph with a digital camera and how to use photographic techniques to control the look of an image. Students will develop good digital asset management practices by using Adobe Photoshop. This course introduces the fundamental principals of photography and its history for universal applications and is available to all majors. Students will need to have a DSLR that is at least 10 megapixels to take this course.

ARTS110302
Issues and Approaches to Studio Art
GALLAGHER, SHEILA E
Fall 2019
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

ARTS110401
Design: Seeing Is Believing
WEISBERG, DEBRA
Fall 2019
Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks "good" without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110701
Design I: Foundations
KODI, KHALID I
Fall 2019
This foundation course is structured to introduce students to the fundamental issues of design by providing a basis for regarding our environment and organizing what we see into a coherent whole. We will learn how to process our surrounding visual information primarily through the exercise of drawing. In the process of learning a new visual language, we will emphasize discovery of personal attitudes and approaches rather than on the techniques of the finished work. Students will be introduced to the process of design through the exploration of the basic concepts of the elements and principles of design, historical approaches, and skills involved in design.

ARTS112501
Innovation through Design Thinking
RUTIRASIRI, CHOKDEE R
Fall 2019
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

ARTS114101
Ceramics I
COOPER, MARK
Fall 2019
This course will deal with all phases of ceramics from slab construction to bowl making and a good deal of effort will go into considering a variety of sculptural possibilities at a foundation level. This course covers the broadest range of ceramic techniques and information. The emphasis in the second semester will be on combining the various techniques and concepts acquired previously into a working order, as well as an exposure to additional technical and conceptual information. Those students starting ceramics in second semester will be given individual assistance in beginning techniques.

Ceramics/Mixed Media Sculpture
COOPER, MARK

Fall 2019
Ceramics/Mixed Media Sculpture is a course that will focus on the development of ideas to be expressed through ceramics and mixed media. Students will be introduced to a range of approaches both conceptually and technically throughout the class. The course will address the individual ideas and concerns of each student allowing for a wide range of approaches, materials, and scale. This could include anything from very small-scale sculptural objects to installations and large public scale projects to be created in modular units. This course does not require previous experience. Students will be introduced to working methodologies that match their previous knowledge while introducing new approaches.

ARTS220701
Urban Design for Complexity and Sustainability
LITTELL, MATTHEW
Fall 2019
The course explores the changing demands on urban environments in the twenty-first century and the newest policies, technologies, and design approaches that are being developed to address them. Topics will include analyses of the factors that shape the physical form of cities, including zoning and regulatory contexts, real estate development patterns, transportation infrastructure, environmental challenges, and aesthetics. The material will be introduced as case studies and surveys, with presentations by design professionals, city officials, and real estate developers. Students will gain literacy in zoning, real estate metrics, planning, and issues related to architectural design and large scale urban design. The semester will conclude with a final project synthesizing many of the topics covered.

ARTS223001
Introduction to Video Art
FRIEDMAN, JENIFER G
Fall 2019
Introduction to Video Art is an Art course examining video as a medium for artistic expression and conceptual inquiry. How can we use video to ask questions about ourselves, our viewers, or our world? Responding to instruction about video, sound, and editing techniques, students produce multiple assignment based video art pieces and a self-designed final project. Class sessions are comprised of screenings, discussions, technical demonstrations, and group critiques of students' projects. Screenings and readings cover a variety of topics, including: past and present video art, experimental/expanded cinema, performance art, art in the age of digital culture, and philosophical and sociological topics. Readings, screenings, and discussions are designed to provide a conceptual basis for students' video art projects, while critiques and writing assignments provide a forum for dialogue
ARTS223501
Intermediate Digital Art: Animation
CASSIDY, JANE
Fall 2019
This course will offer an introduction to understanding new and experimental approaches to creating animations. Through screenings, class discussions, and critiques students will analyze aesthetics, concepts and harbor their own, to be made apparent in their assignments. In learning the time-based program Adobe After Effects students will learn how to edit, layer, create, and generate material. Students will gain an understanding of animation, motion graphics, and post-production techniques. Areas covered include gifs, storyboarding, special effects, text animation, and short-form narrative.

**Painting IV: Layered Image**  
**CONLEY, ALSTON**

**Fall 2019**

This is a hands-on painting course that explores ways to develop and construct new imagery. We will seek challenging approaches to the organization and composition of painting space through layered and juxtaposed images. The many possible sources for imagery may include, but are not limited to, personal memorabilia, cultural references, museums of science and natural history, text, and the internet. Class time is organized around painting, complemented by slide lectures, critiques, readings, and gallery visits.
ARTS333001
Pandora's Box
IVY, CANDICE M
Fall 2019
This is an all media (painting, drawing, photo, collage) intermediate level studio class. The class will use myth, fable, and fairy tales to generate ideas for art making. Students should have taken at least one studio class in their preferred medium. In addition to in-class studio work there will be assigned readings, class critiques, and slide lectures as well as studio, museum, gallery visits, and a final portfolio review.

ARTS110302
Issues and Approaches to Studio Art
IVY, CANDICE M
Spring 2020
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

REISS, PAUL V
Spring 2020
This foundation course is structured to introduce students to the fundamental issues of design by providing a basis for regarding our environment and organizing what we see into a coherent whole. We will learn how to process our surrounding visual information primarily through the exercise of drawing. In the process of learning a new visual language, we will emphasize discovery of personal attitudes and approaches rather than on the techniques of the finished work. Students will be introduced to the process of design through the exploration of the basic concepts of the elements and principles of design, historical approaches, and skills involved in design.

ARTS110901
Design is Human
BURNS, JENNIFER L
Spring 2020
"Design" today is buzzed about in fields ad diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design; studying the shaping of place by architects, planners and infrastructure engineers; and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-19th to early-20th century to understand what design has promised, what it delivered, and what it could still become.

ARTS112501
Innovation through Design Thinking
RUTIRASIRI, CHOKDEE R
Spring 2020
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

This course will deal with all phases of ceramics from slab construction to bowl making and a good deal of effort will go into considering a variety of sculptural possibilities at a foundation level. This course covers the broadest range of ceramic techniques and information. The emphasis in the second semester will be on combining the various techniques and concepts acquired previously into a working order, as well as an exposure to additional technical and conceptual information. Those students starting ceramics in second semester will be given individual assistance in beginning techniques.

ARTS220801
Drawing the Figure: Observation to Expression
LACEY
Spring 2020
Together we will venture into a world of the body as represented through drawing materials on 2D surfaces. You will learn techniques and approaches to drawing the figure and will work in the studio from a live model. Simultaneously, you will examine the relationship between cultural philosophies and their affects on the figurative representations they produced. Studio work include: drawing the body; revise those ideas; developing finished drawings; researching historical and contemporary innovations and doing creative copies of these master works; working from memory and contextualized imagination; translate sensory experience through the representations of the body.

ARTS22301  
Intermediate Painting III  
AUSTEN, HARTMUT  
Spring 2020  
The course reviews and expands on the fundamental painting skills and materials acquired in Painting 1. Students continue to work on assigned and individual projects that highlight historical and contemporary methods and concepts of the discipline. Projects are mostly based on work from direct observation, but some will use found images, memory, and imagination as sources to promote visual judgment and development of a more personal direction. Exhibition visits, illustrated presentations, and a writing assignment are supplementing the program.

ARTS222401
Bare Naked Approaches to Painting the Figure-Painting III
FREIBERG, ARIEL R
Spring 2020
This course is an introduction to the human body as a form and as a subject for creating paintings. The course will introduce the student to portraiture and full figure painting, using both the student and in class models as the subject. The student will be introduced to a variety of painting styles and techniques through side presentations and assigned projects. This is an intermediate/advanced level course and the student will be encouraged to focus on personal imagery and style while maintaining a concentration on representational painting.

ARTS223010
Introduction to Video Art
HOELTERMANN, JANNE
Spring 2020
Introduction to Video Art is an Art course examining video as a medium for artistic expression and conceptual inquiry. How can we use video to ask questions about ourselves, our viewers, or our world? Responding to instruction about video, sound, and editing techniques, students produce multiple assignment based video art pieces and a self-designed final project. Class sessions are comprised of screenings, discussions, technical demonstrations, and group critiques of students' projects. Screenings and readings cover a variety of topics, including: past and present video art, experimental/expanded cinema, performance art, art in the age of digital culture, and philosophical and sociological topics. Readings, screenings, and discussions are designed to provide a conceptual basis for students' video art projects, while critiques and writing assignments provide a forum for dialogue.

**ARTS223601**  
**Digital Art: Print-Based Media**  
**CASSIDY, JANE**  
**Spring 2020**

This course will explore digital art as it relates to the processes and methodologies in image manipulation, compositing, representation, sequencing and story-telling. Students will work toward developing their aesthetic skills within the context of applications such as Adobe Photoshop and Adobe Illustrator, and other appropriate software. Areas covered include compositing of photographs, digital painting, flip-books, large-scale prints, and gif animation. It is presumed that students will have taken Intro to Digital Art (or a similar course), or have proficient experience in Photoshop or Illustrator before entering the class.

ARTS225001
Introduction to Graphic Design
REEVES, BRIAN A
Spring 2020
This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems, including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

ARTS228001  
Digital Diaries: Creating a Personal Body of Work in the Digital Age  
BADEN, KARL  
Spring 2020  
Students learn and use advanced techniques in Adobe Photoshop, Illustrator and InDesign to create a body of work exploring the meaning in their lives, examples may include family history, friends, relationships, or life-changing experiences. Technical demonstrations, critiques, discussions of established photographers is part of each class. The goal is to design and produce an actual book of their project, printed by an online service (iBook, Blurb, Shutterfly, etc). Digital Diaries is an intermediate/advanced level course.

Credits: 03  
Schedule: TH 2-5  
Room: DEVLIN 401F  
Satisfies Core Requirement: None  
Comments: Permission of Instructor required. Students must have their own camera (film or digital) and basic familiarity with Photoshop (Art & Digital Technology or its equivalent).

Frequency: Periodically

ARTS330601
Alternative Approaches in Drawing
AUSTEN, HARTMUT
Spring 2020
Fresh ideas and approaches to drawing are essential for the creative development of a department and its students. This class will explore both traditional and new conceptions of what drawing can be. We will conduct our investigation using traditional materials as well as new media in the service of crossing and pushing established boundaries. Utilizing and deepening our understanding of "mark-making' we will further explore drawing's breath and expanse across disciplines as well as its potential to expand on the what it means to 'draw from observation'."

Credits: 03
Schedule: TH 9-12
Room: DEVLIN HALL 413
Satisfies Core Requirement: None
Comments: None
Prerequisites: Two previous studio classes (one in drawing) or permission of instructor.
Corequisites: None
Cross-listed with: None
Frequency: Periodically

ARTS332801
Senior Minor Project
AUSTEN, HARTMUT
Spring 2020
This course comprises hands-on studio work and readings that address contemporary issues in the visual arts. It is an upper level class for those with a serious interest in art making and visual thinking. Students are expected to work in a medium of their choice with which they are familiar. Studio assignments will be developed out of the issues explored in the readings. Students are expected to produce a body of studio work and to make an oral presentation that situates their work in relation to the topics under investigation.

Credits: 03
Schedule: W 2-5
Room: DEVLIN HALL 413
Satisfies Core Requirement: None
Comments: This course is limited to Studio Art Minors in their senior year or by permission of the instructor.
Prerequisites: Required for Studio Art Minor.
Corequisites: None

Frequency: Annually

ARTS333301
Video Installation
CASSIDY, JANE
Spring 2020
In this course, we will develop video art and animation specifically for three-dimensional installation. Software covered includes Adobe Premiere Pro and After Effects for editing and creation of material and MadMapper for projection mapping. We will research environments, space, location, and sculpture to develop video projects. Ultimately, the time-based projects will be created for indoor and outdoor installation, projection mapping, and live visual performance. The semester will culminate with two live projection performances that students must research, create, publicize, and install at The Waterworks Museum and onto O’Neill Library during the Arts Festival. Collaboration and cohort support will be key within this class to help see bright and energetic installation projects transform our surroundings.

ARTS333501
Advanced Digital Design: Designing Spaces
YANG
Spring 2020
This course explores the possibilities of using 3D modeling software to design and describe 3D spaces and objects. Beginning with a solid foundation in the principles of architectural drawing and 3D modeling, students will develop their spatial design skills and build software proficiency in parallel through creative projects, readings, and short essays. Students will draw on their personal experiences of the built environment to create new 3D works. Key course concepts will be drawn primarily from the fields of architecture and sculpture, with additional materials from the fields of art and architectural history, photography, industrial design, and graphic design. This course provides an opportunity for upper-level art students interested in design to create a large amount of portfolio-quality work, and final projects are student-driven. Students should have a working knowledge of the Adobe Creative Suite before taking this course.

Credits: 03
Schedule: W 6 30-9 30
Room: DEVLIN HALL 401F
Satisfies Core Requirement: None
Comments: Preference will be given to majors and minors in Studio Art.
Prerequisites: ( ARTS2250 OR ARTS2276 ). Or permission of the Instructor. Adobe Creative Suite knowledge.
Corequisites: None

ARTS336101
Intermediate Photography: Conceptual and Studio
MULDOWNEY, GREER R
Spring 2020
This production course explores the potential of the photographic medium through both color and black and white pictures. Working with current photographic digital imaging technology and techniques, students will advance their skills in digital-image capture and high-quality output as well as analog printing. Lectures and assignments will concentrate on both traditional photographic-based picture making and digital technologies. Students will be expected to develop their own project ideas and to work in series. This course requires additional work outside of class time.

Theatre Courses: Summer 2019

THTR117001
Introduction to Theatre
CRONIN, BRIAN P
Summer 2019
This is a survey course for primarily non-majors. Its aim is to impart an appreciation of the theatre as an artistic and humanizing experience. There will be discussion of the various elements that contribute to the development of theatre as a specialized art form including historical and cultural influences, staging styles and techniques, and the multiple genres of dramatic writing. Several plays illustrating the above will be read and attendance at selected performances is required.

Theatre Courses: Fall 2019

THTR101001
Acting Techniques: Presentations and Creativity
RIGGIN, PATRICIA
Fall 2019

Powerful presentations and team building are very much a part of the theatre art, and those entering a variety of professions can learn a great deal from the training that actors receive. This course teaches students the skills that actors use to nurture creativity, to give powerful performances on stage, and to work well as a team. The training involves work on vocal and physical presence, reducing anxiety through relaxation exercises, and playing with the imagination through improvisations. By learning to live more in the moment and being attuned to one’s audience through better listening skills, students will begin to sense when the body and voice are helping or sabotaging a presentation. This training will then be applied to public speaking and group work. This elective course does not count toward the Arts Core or the Theatre Major or Minor.

Fall 2019
The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to stage lighting control, follow-spot operation and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

THTR102101
Theatre Production Lab II: Scenery and Paint Prep
SWIFT, RUSSELL L
Fall 2019
The Scenery Construction and Scenic Paint Prep Lab will introduce students to the skills necessary to construct, rig, and load-in scenery; layout and paint scenery; be introduced to the variety of tools and techniques used in scene painting and construction. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production. Skills will be developed in construction techniques that include wood working, metal working, fabric manipulation, and rigging, design layouts, painting on large scale, and more. Safety procedures that relate to these areas will be taught and practiced. Students will work on departmental productions during the semester. The work that students do will vary and will be determined by that student's individual abilities and interest, as well as the needs of the specific production that we are working on. Discuss paint or construction preferences with the instructor. Students will work on departmental productions during the semester. The work that students do will vary and will be determined by that student's individual abilities and interest, as well as the needs of the specific production that we are working on. Discuss paint or construction preferences with the instructor. Students will complete 26 hours of lab work over the course of the semester. No previous experience is required.

THTR102701
Theatre Production Lab II: Dramaturgy
LANG, THERESA
Fall 2019
The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

THTR103901
Theatre Production Lab III: Assistant Stage Manager
TRAUB, ADELE N
Fall 2019
Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

**THTR104901**  
**Advanced Production Lab: Stage Manager**  
**TRAUB, ADELE N**  
**Fall 2019**

Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR112001
Elements of Dance
KIM, SUN HO
Fall 2019
This course is designed to develop the student's knowledge and experience of dance as an art form. The elements of dance used in ballet, modern, and jazz will be introduced along with the principles of composition. The aesthetics of dance as an art form will also be studied. Students will be reading texts as well as viewing dance works in live performance and on video. This course will provide a groundwork for students who wish to do further work in technique, composition, and performance.

Beginning Ballet I
PARSONS, MARGOT
Fall 2019
This course is designed to challenge both the experienced and beginner dancer. Individual
attention will be given with the goal of perceiving the technical and artistic aspects of dance as a
performing art. Each class will incorporate barre and center work with phrases appropriate to
the individuals in the class. Students will become familiar with the vocabulary and the historical
background of ballet. Work in anatomy, kinesiology, costume design, and music will be
introduced. Dress code will be leotard and tights or unitard, and ballet shoes. A pianist will
accompany each class.

THTR114001
Elements of Theatrical Design
DALLEY, JACQUELINE; TIALA, CRYSTAL; ADELBERG, JEFF
Fall 2019
This course introduces students to the design and composition of the stage: scenic, lighting,
costume, and sound. By the end of the class students will have a working knowledge of the
processes involved in design and will have the ability to effectively compose and design visual
and audial components of a performance. The class will utilize creative and collaborative
processes that can be applied to any creative work. It is recommended for anyone interested in
design and directing. Students must also enroll in the associated one-credit lab THTR1018.
Required for Theater Majors.

Dramatic Structure and Theatrical Process
CUMMINGS, SCOTT T
Fall 2019
This foundational course provides a thorough introduction to theatre and drama study. It is geared towards, though not limited to, Theatre majors (or prospective majors) in their first year. Dramatic texts are studied as blueprints for performed events. Students will read a wide range of plays in order to develop play analysis skills and to gain an awareness of how structure shapes meaning. Fundamental aspects of theatrical process and production are also taken into consideration.

THTR221301
The Spoken Voice: Onstage and Off
RIGGIN, PATRICIA
Fall 2019
This course develops the student's vocal instrument and vocal/physical awareness through exercises designed to release tension in the body, free the breath, and expand the use of resonators and articulators. The voice work will progress from the rediscovery of sound in the body, to the opening of the vocal channel (jaw, tongue, soft palate), to the exploration of resonance and vocal freedom. Speech and dialect work are also a component of this course as the students explore monologues from the classical theatre and scenes that require dialects.

Credits: 03
Schedule: null
Room: None
Satisfies Core Requirement: None
Comments: Kristin Linklater's voice work is the basis of this course taught by one of her designated teachers.
Prerequisites: THTR1103. Or with permission of the instructor.

THTR222101
Contemporary Dance I
KIM, SUN HO
Fall 2019
Contemporary dance is an introductory class open to everyone. In this studio course, students will gain a greater understanding of the basic concepts of a variety of styles of contemporary dance techniques based on modern dance, jazz and pop-culture dance such as hip-hop, funk and other dance forms seen in the media. Also, the course will address how dance might incorporate other disciplines like film, visual art, architecture, physics, literature, etc., into a new cross-disciplinary dance form and create a unique type of dance expression and perspective. Appropriate dance attire is required.

THTR223901
Stage Management Basics
TRAUB, ADELE N
Fall 2019
This course is a lecture/laboratory course with the major emphasis on the practice and application of the art and science of stage management. Course work will include a thorough investigation of the theory and principles of human resource management, as well as technical production. Discussions will include production preparation, rehearsal management, union rules, working relationships, and all essential skills of a professional stage manager. Special emphasis will be placed on the application of theory to actual stage management situations.

THTR225101
Principles of Theatre Management
HENRIKUS, JULIE A
Fall 2019
This course is designed to provide an introduction to the managerial, administrative, and leadership aspects of both for-profit and non-profit theatre. This class will consist of lectures on the fundamentals of arts management, case studies, project work, and a series of in-depth conversations with leaders in the field of theatre and/or performing arts management. Emphasis will be placed on: marketing, PR, budgeting, audience development, producing, fundraising, education, and community relations. Producing work in today's world, the challenges and opportunities, will be a theme throughout the semester.

THTR227501
History of Theatre I
HECHT, STUART J
Fall 2019

This course follows the simultaneous development of the actor, playwright, architect, and director from the Egyptian theatre through to the Elizabethan and Jacobean theatre. The course will also study the development of dramatic structure and form over time. In a larger sense, it will examine the role and function of theatre in each successive society, determining how the stage reflects the social, political, and cultural concerns of each age.

THTR334701
Costume Design
DALLEY, JACQUELINE
Fall 2019
The art of costume design integrates artistic imagination with the practical concerns of theatrical production. The course is designed to help students develop the fundamental skills used by costume designers, focusing particular attention on character analysis, period research, and visual communication. The course will include a series of exercises and projects to develop skills in figure drawing, rendering in various media, fabric selection and color. Students will learn how to communicate character, mood and style through costume following two learning tracks: (1) developing the concept and theory of the design and (2) communicating the design through figure drawing and rendering.

Credits: 03
Schedule: T TH 1 30*
Room: None
Satisfies Core Requirement: None
Comments: Students are not required to have advanced drawing skills to take this class. There are several class sessions devoted to learning and practicing drawing and painting techniques.
Prerequisites: None

THTR334901
Lighting Design for the Stage
ADELBERG, JEFF
Fall 2019
The theory of illumination for the arts is explored in its fullest implications. Theater, dance, cinema, video, photography, and rock and roll lighting will be used as examples of the art of creative illumination. As an art form and a practical science, media lighting presents a complex subject for detailed investigation. Some drafting ability and practical experience in one of the areas previously mentioned is desirable as background for the course.
THTR336201
Playwriting I
CUMMINGS, SCOTT T
Fall 2019
This writing-intensive course offers a practical introduction to the art and craft of writing for performance. Students will engage in numerous writing exercises that highlight the special demands and opportunities of writing for the stage. Emphasis is placed on finding ways to contact and release the theatrical imagination and on mastering the basics of writing a solid dramatic scene. Exemplary plays by established playwrights will be studied as appropriate, but the overwhelming emphasis is on student writing.

THTR337801
Creative Dramatics
JORGENSEN, LUKE R
Fall 2019
This class investigates the power of drama to educate, inspire and empower the individual. The course focuses on drama pioneers whose work crosses over borders between the fields of education, theater, drama therapy and social justice. This is a hands-on investigation of theories and techniques and will include working with local middle school students to observe and apply ways of making drama with adolescents. Creative Dramatics is essential for activists, directors and for teachers in obtaining additional certification to teach drama. Subjects include storytelling, improvisation, Commedia Dell'Arte, drama therapy, Theatre of the Oppressed, and Theatre for Youth. It examines the work of Viola Spolin, Augusto Boal, Winifred Ward, Jerry Grotowski, and Jacob Moreno.

Contemporary American Theatre
LOPEZ, MELINDA F
Fall 2019
This upper-level theater studies course surveys important playwrights and developments in American theater and drama over the past four decades. Works by Sam Shepard, Maria Irene Fornes, David Mamet, David Henry Hwang, Tony Kushner, Paula Vogel, Suzan-Lori Parks, and others are studied. Special topics include the off-Off Broadway movement of the 1960s; the resident-regional movement and the decentralization of American theater; the advent of multiculturalism and performance studies; and the rise of solo performance.

**Theatre Courses: Spring 2020**

**THTR101001**  
**Acting Techniques: Presentations and Creativity**  
**RIGGIN, PATRICIA**  
**Spring 2020**  
Powerful presentations and team building are very much a part of the theatre art, and those entering a variety of professions can learn a great deal from the training that actors receive. This course teaches students the skills that actors use to nurture creativity, to give powerful performances on stage, and to work well as a team. The training involves work on vocal and physical presence, reducing anxiety through relaxation exercises, and playing with the imagination through improvisations. By learning to live more in the moment and being attuned to one's audience through better listening skills, students will begin to sense when the body and voice are helping or sabotaging a presentation. This training will then be applied to public speaking and group work. This elective course does not count toward the Arts Core or the Theatre Major or Minor.

THTR101101
Theatre Production Lab I: Scenery Run
SWIFT, RUSSELL L
Spring 2020
The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to scene shifting, prop running, rigging, and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

THTR102701
Theatre Production Lab II: Dramaturgy
LANG, THERESA

Spring 2020
The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

Theatre Production Lab III: Assistant Scenic Designer
TIALA, CRYSTAL

Spring 2020
For this lab, students will assist the scenic designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the scene shop. They will assist with such activities as research, the creative development of the design idea, model building, drafting, properties research, and interacting with the scene shop and scenic painters.

**THTR103201**  
**Theatre Production Lab III: Assistant Costume Designer**  
DALLEY, JACQUELINE  
Spring 2020

For this lab, students will assist the costume designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the costume shop. They will assist with such activities as research, pulling from stock, shopping, special construction projects, wigs, ensemble costuming, and being a liaison during dress rehearsals. Students will work on one departmental production during the design process through dress rehearsals. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal.

THTR103901
Theatre Production Lab III: Assistant Stage Manager
TRAUB, ADELE N
Spring 2020
Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901
Advanced Production Lab: Stage Manager
TRAUB, ADELE N
Spring 2020
Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR105101
Advanced Production Lab: Technical Director
SWIFT, RUSSELL L
Spring 2020
The Technical Director Lab will allow students to develop the skills necessary to plan the construction, rigging, load-in, and budgeting of scenery. Through actual hands on practice, students will be allowed to develop their abilities in the areas of theatre production related to organizing the construction of scenery. Skills will be developed in planning, budgeting, construction drawings and crew organization. Safety procedures that relate to these areas will be taught and practiced. Students will work on a specific departmental production during the semester. The work that students do on that production will vary by student and will be determined by individual abilities and interest, as well as the needs of the specific production that we are working on.

Elements of Dance
KIM, SUN HO
Spring 2020
This course is designed to develop the student's knowledge and experience of dance as an art form. The elements of dance used in ballet, modern, and jazz will be introduced along with the principles of composition. The aesthetics of dance as an art form will also be studied. Students will be reading texts as well as viewing dance works in live performance and on video. This course will provide a groundwork for students who wish to do further work in technique, composition, and performance.

Beginning Ballet II  
PARSONS, MARGOT  
Spring 2020  
This course, a continuation of Beginning Ballet I, is designed to challenge both the experienced and beginner dancer. Individual attention will be given with the goal of perceiving the technical and artistic aspects of dance as a performing art. Each class will incorporate barre and center work with phrases appropriate to the individuals in the class. Students will increase their ballet vocabulary and their understanding of the historical background of ballet. In addition, there will be readings in anatomy and dance criticism. Dress code will be leotard and tights or unitard, and ballet shoes. A pianist will accompany each class.

Ballroom Dance: Mid-Nineteenth Century
BURGESS, QUINN M
Spring 2020
Students in this course will learn a selection of mid-nineteenth century ballroom dances such as the waltz, the polka, a quadrille, and country dances such as the Virginia Reel. In addition, students will connect with the past through an exploration of topics such as women's and men's fashion, etiquette, and the physical world of the ballroom. Students will be asked to synthesize the information contained in the course though the embodiment of a character that will be presented in class. These elements will encourage each student to envision the past, bringing it to life with an understanding of the relationships between dance, etiquette, fashion, and the culture of the period.

Elements of Stagecraft
DALLEY, JACQUELINE; SWIFT, RUSSELL L; TODESCO, CRISTINA
Spring 2020
This course introduces the craft, skill, and safety of technical theatre production. Students will learn the basics of professional practices of the theater industry behind the scenes. A significant portion of time will be spent in the theater workspaces learning common practices of production. Students will be exposed to the basic industry safety standards, scenic construction, hanging and focusing lighting equipment, costume construction, drafting and painting for the stage. Students must also enroll in the associated one-credit lab THTR1017. The course is recommended for future educators or anyone entering the performing arts industry. Required for Theater Majors.

THTR170301  
Performing the Immigrant Experience  
STAHL, MEGAN E  
Spring 2020  
The show-stopping lyrics, "Immigrants: We get the job done," are from the Broadway smash Hamilton. The production's resonance with our contemporary zeitgeist serve as a potent reminder that the history of the United States is truly a story of immigrants. This course examines the impact that such immigrant experiences have had on the narratives told in American theatre, and analyzes the ways in which diasporic communities have used the stage to challenge the power dynamics of a dominant cultural hierarchy. Through the plays and theatrical movements studied in class, students will investigate the construction and performance of immigrant identities by Irish, Italian, Jewish, African, Asian, Latinx, and Middle Eastern theatre practitioners in the United States.

Contemporary Dance I
KIM, SUN HO
Spring 2020

Contemporary dance is an introductory class open to everyone. In this studio course, students will gain a greater understanding of the basic concepts of a variety of styles of contemporary dance techniques based on modern dance, jazz and pop-culture dance such as hip-hop, funk and other dance forms seen in the media. Also, the course will address how dance might incorporate other disciplines like film, visual art, architecture, physics, literature, etc., into a new cross-disciplinary dance form and create a unique type of dance expression and perspective. Appropriate dance attire is required.
THTR224701
Makeup Design for the Stage
DALLEY, JACQUELINE
Spring 2020
This course introduces students to basic makeup techniques for the stage. Students will study makeup design principles and develop a mastery of applied techniques. Using the theories of highlight and shadow, and an examination of facial anatomy and how it changes with age, the student will learn to change the look of the face to suit different characters. Emphasis will be placed on character analysis and research, and translating that into a makeup design. Time will also be given to study various styles of makeup (e.g., fantasy, cartoon, period makeup, etc.) and special-effect makeup.

**THTR228501**  
**History of Theatre II**  
**HECHT, STUART J**  
**Spring 2020**

Continuation of History of Theatre I. It begins in 1642 in England and tracks the simultaneous development of the actor, playwright, architect and director. However, it studies this evolution within the larger cultural and political contexts that implicated every decision from the content of dramas to the seating arrangements within auditoriums. Among the epochs and influences that will be considered are art and decadence in English Restoration comedy, the role of the playhouse in the rise American proletarian culture, the impact of sentimentalism and Victorian morality on playwriting, and the advent of psychology and its effect on acting.

THTR334401
Stage Design I
TIALA, CRYSTAL
Spring 2020
This course will concentrate on contemporary professional design practices and theories for the stage. Students will study the evolution of theater design and will investigate the development of imagistic design forms, produce effective spatial environments and create ideas through rigorous research of imagery. Processes will include script analysis and the study of imagery as well as techniques in drafting and model building.

THTR336201
Playwriting I
LOPEZ, MELINDA F
Spring 2020
This writing-intensive course offers a practical introduction to the art and craft of writing for performance. Students will engage in numerous writing exercises that highlight the special demands and opportunities of writing for the stage. Emphasis is placed on finding ways to contact and release the theatrical imagination and on mastering the basics of writing a solid dramatic scene. Exemplary plays by established playwrights will be studied as appropriate, but the overwhelming emphasis is on student writing.

THTR337701
Fashion and Decor: A Cultural History
TIALA, CRYSTAL; DALLEY, JACQUELINE
Spring 2020
Trends in fashion and interior decoration simultaneously shape and are shaped by the culture from which they grow. When we look at styles of a particular period, we see reflections not just of personal taste, but also social values, political and economic developments, influence of popular culture, new technology, and the overall mood of the period. Through lectures, discussions and visual research projects, this class will examine trends in fashion and decor as they relate to the cultures of the eighteenth, nineteenth, and twentieth centuries, highlighting the correlation between fashion, decorative arts, architecture, and interior design.

THTR338701
Modern Theatre and Drama: Ibsen to Albee
HECHT, STUART J
Spring 2020
Theatre offers much-needed perspective on our world which is why we have seen many recent Broadway revivals of Modernist plays: they address/anticipate the progressive ideals, social and political concerns, and issues of identity, relevant today and beyond. This upper-level theatre studies course traces the development of Modern drama and theatre from roughly 1870 to 1970, considering the innovative, ground-breaking work of dramatists such as Ibsen, Strindberg, Chekhov, Shaw, O'Neill, Brecht, Beckett, Pinter, and Albee. In this course we will consider the originals and revivals, analyze texts and learn how to "read" styles. We may also stage moments from each play in class. There will be a midterm, final, and term paper.
THTR440401
Advanced Acting Technique
RIGGIN, PATRICIA
Spring 2020
Advanced Acting Technique builds on the foundations developed in Acting III: the ability to work moment by moment, to "do truthfully," to release the spontaneous self, and to emotionally prepare. The student actor will progress by applying these skills to advanced scene work that demands rigorous preparation, the addition of character transformations, and the use of heightened language. Prerequisites: Acting I, Acting II, and Acting III (or permission of the instructor)

Credits: 03

Theology Courses: Summer 2019

THEO100101
Biblical Heritage I
KOKOT, JENNA C
Summer 2019
The Bible has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Bible raises most of the perennial questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of Biblical texts in terms of the central concerns of the Core curriculum will be the primary goal of the Biblical Heritage.

Credits: 03
Schedule: M W 6-9 15
Room: STOKES HALL 401N
Satisfies Core Requirement: Theology
Comments: You must take both sections of Biblical Heritage (THEO1001 and THEO1002) to receive Core credit. There are no exceptions.

THEO101601
Introduction to Christian Theology I
WILKINS, JEREMY
Summer 2019
This is a two-semester course that fulfills the Theology core requirement. This sequence of courses considers significant questions in conversation with some of the most important writings in the tradition of Western Christian thought. Its purpose is to encourage students by drawing systematically on primary sources of historical significance to uncover the roots of the Christian faith and life and to delineate the values for which this tradition of faith stands. Students considering a minor course of study in the Faith, Peace, and Justice Program will find this course of special interest.
Credits: 03
Schedule: M W 6-9 15
Room: STOKES HALL 131N
Satisfies Core Requirement: Theology
Comments: This is a year long course where you must take both sections of Introduction to Christian Theology (THEO1016 and THEO1017) first Part I, then Part II to receive Core credit. There are no exceptions.

**THEO102301**  
**Exploring Catholicism: Tradition and Transformation**  
**EDWARDS, STEPHANIE C**  
**Summer 2019**  
This course is a two-semester exploration of the vision, beliefs, practices, and challenge of Catholicism. The first semester explores human existence as lived in the light of the Mystery of God and the gift of Jesus Christ. The second semester considers the Church as the people of God, gathered and sent forth in the Spirit; the sacraments as catalysts of ongoing transformation in Christ; and the challenge of the spiritual life today. Close analysis of passages from the Bible will be supplemented by readings from contemporary theologians, literary figures, and social commentators.

THEO122301
Saints and Sinners
ROBINETTE, BRIAN; BERGIN, WILLIAM N
Summer 2019
TBD
THEO228601
Philosophy of Peace and Hospitality
KEARNEY, RICHARD
Summer 2019
This course will introduce students to the dynamics of conflict and the challenges involved in bringing about reconciliation among groups divided by distrust and enmity. By drawing on recent thinkers and artists who have reflected on the encounter between self and other and upon the risks and challenges involved in opening oneself to the stranger, the course will propose a hermeneutics of hospitality as a means to overcome prejudice based violence and bring about reconciliation among divided groups. The central feature of this hermeneutic will be the art of exchanging narratives between religions, ethnicities, cultures, and persons. Various approaches will be examined including artistic expression, organized dialogue, and community building efforts in order to better understand the way in which the exchange of narratives plays a vital role in reconciliation. Students will also learn to notice the way similar conflict dynamics are present in their own social and political circumstances. They will become better equipped to examine tendencies to exclusion and violence in their own lives, to develop hospitable practices and attitudes that lead to peace, and to engage in effective peacemaking activities back home. This examination takes place in one of Europe’s oldest conflict zones (Croatia & surrounding countries), at the crossroads between the political and religious systems of the east and west (Islam and Christianity, Ottoman and European Monarchies, Communism and Capitalism).

**THEO108815**
Person and Social Responsibility I
HIMES, KENNETH R; BERNARD-HOVERSTAD, SARA
Fall 2019
The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering, and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

Credits: 03
Schedule: T TH 1 30*
Room: STOKES HALL 111S
Satisfies Core Requirement: Philosophy, Theology
Comments: Enrollment limited to freshmen, sophomores, and juniors
Prerequisites: None
Corequisites: THEO1088.
Cross-listed with: PHIL1088
Frequency: Annually

THEO134101
Peaceful Conflict Resolution Methods
NIELSEN, RICHARD P
Fall 2019
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

**THEO136101**  
**Praying Our Stories**  
**PONSETTO, DANIEL P**  
**Fall 2019**

Significant experiences of God's presence are often thought of as extraordinary. They are moments we might expect while on retreat, during community worship, or while sitting under the stars. We might assume that to find God we must transcend our mundane life and get to another place. This course will explore how God is in fact more likely, and thankfully, discovered in the ordinary. Ignatian spirituality does not distinguish between secular and sacred, work and prayer, or God and "real life." Instead, it is about finding God in our lived experience and cooperating with God to transform that experience.

THEO140107
Engaging Catholicism
HINSDALE, MARY ANN; MARSHALL, LAUREL A
Fall 2019
Roman Catholicism is a global religious tradition with over 1.2 billion adherents. In this Core course students will be offered an introductory engagement with the Roman Catholic tradition. This engagement will include consideration of the history, principal beliefs, exemplary figures, and communal practices of the Roman Catholicism. The course will also explore contemporary issues and challenges facing Catholicism today.

THEO140201
God, Self, and Society
HIMES, MICHAEL J; RUGG, STEPHEN P; LANDRITH, ROBIN
Fall 2019
The purpose of this course is to introduce students to the dynamics of theological reflection in
an academic setting. Framed as a quest for truth, transformation, and justice, the course invites
students to explore key questions and themes of enduring human significance in conversation
with the classic texts, ideas, and practices that animate the Christian theological tradition. Such
questions include: What is theology? What is the ultimate horizon of our lives? What does it
mean to be human? Who is Jesus Christ? And how can we know and serve the common good?
Faculty: The Department.

THEO142001
The Everlasting Covenant: The Hebrew Bible
GILLIHAN, YONDER; JORDAN, JEFFERY V
Fall 2019
The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Faculty: The Department.

THEO143001
Buddhism and Christianity in Dialogue
HUR, WON-JAE
Fall 2019
This course is both an introduction to Buddhism and to Buddhist-Christian comparative
learning. In early weeks we study concepts and practices of Theravāda and Zen Buddhism from
Southeast and East Asia. We then explore some areas of Christian thought that can be
compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth,
sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on
one or more of the following topics: spiritual practices of deepening care and discernment, faith-
based action, interfaith learning, ecology, and/or feminism.

THEO143201
Hinduism and Christianity in Dialogue
CORNILLE, CATHERINE M; MAAYAN, DAVID
Fall 2019
It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. Faculty: The Department.

**THEO143301**  
**Chinese Religions and Christianity in Dialogue**  
**MOZINA, DAVID J; WRATEE, BYRON D**  
**Fall 2019**  
This course asks foundational questions about the nature of the divine, the human, and the relationship between the two. What is the nature of ultimate reality? How did the world and all in it come to be? Are human beings naturally moral or must we learn how to be good? What is the full capacity of human being? We shall ponder answers to these questions and more by putting selected Biblical and Christian texts in conversation with selected Confucian, Daoist, and Buddhist texts from the Chinese literary canon.

THEO143401
Judaism and Christianity in Dialogue
LANGER, RUTH; ZHAI, YUJIA
Fall 2019
In 1974, the Vatican explicitly called on Catholics to understand Jews as they understand themselves. In our world of dialogue and post-Holocaust repair of relations, Jews similarly ought to understand Christians. This course will explore key topics in the contemporary Christian-Jewish dialogue with the goal of both enabling this understanding of the other and enhancing self-understanding. Students who do not identify with either tradition are welcome to enrich this conversation. Faculty: The Department

THEO170001
Theological Inquiry
DELONG-BAS, NATANA J
Fall 2019
This course introduces students to the study of theology in an academic setting. With a focus on theology as a process of open-ended inquiry, the course explores such topics as God, faith, symbol, doctrine, reason, transcendence, love, suffering, death, and the cultivation of spiritual and ethical practices in view of human flourishing. While working primarily within the Judeo-Christian tradition, the course draws upon insights from other religious traditions as well as other academic disciplines. One part of a two-course sequence: students taking this course will enroll in a Core Renewal Theology course in the other semester of the academic year.

**THEO170501**  
**The Pursuit of Happiness in Theology and Spirituality**  
**PREVOT, ANDREW L**  
**Fall 2019**  
This course investigates the pursuit of happiness through close readings of theological and spiritual texts in the Christian tradition. It explains why this tradition treats the desire for wealth as a serious obstacle to the true happiness and joy which are found only in God. It introduces students to Ignatian methods for personal decision-making focused on experiences of deep spiritual consolation. It explores some of the ways that the Christian tradition urges its followers to prioritize the happiness and well-being of others, especially the poor and oppressed. And it highlights examples of Christian saints who maintained inner peace and joyful love even in the midst of great suffering.

**Geographies of Imperialism: Theology of Colonization**  
**DELONG-BAS, NATANA J**  
**Fall 2019**

The age of empires is past—or is it? In this course, we examine the enduring ideas of empires and their challengers through the present day, using the lenses of history and theology (Christianity and Islam). Beginning with the traditional geographies of maps, we explore how empires colonized not only territories with physical borders, but also bodies and minds, using race, gender, sexuality, ethnicity, education, laws and institutions. Using the British and French empires in the Middle East and North Africa as case studies, we will identify and question how to overcome the boundaries still imposed on people today.

**THEO211401**  
**When Gods Begin Again: Intro to African and African Diaspora Religions**  
**MCELWAINE, MICHELLE L**  
**Fall 2019**
This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yoruba and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santeria, Brazilian Candomble, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

THEO216001
The Challenge of Justice
SNYDER, JOSHUA R
Fall 2019
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

THEO223001
Mass Incarceration: Philosophical and Theological Perspectives
MCCOY, MARINA B
Fall 2019
This course will explore problems of justice in relation to incarceration in the United States with particular attention to attention to race, social class, gender, and immigration status. Students will read authors writing on the philosophy of race, gender, and class in relation to incarceration, the phenomenology of solitary confinement and the concept of "social death," church documents and theological works on incarceration, and works on restorative justice and other models of justice that serves the common good. Catholic Social Justice teachings and discussion will also be a part of the course. The course will also address interconnections between immigration and incarceration. This course will be offered as a PULSE elective, in which students undertake four hours per week of service in the City of Boston at institutions such as Suffolk Country Jail and non-profits that provide transitional services for returning residents or formerly incarcerated individuals or that advocate for prison reform. The PULSE office will vet and coordinate students' placements and serve as a liaison with community partners.

THEO224101
Roman Religion
ESHLEMAN, KENDRA J

Fall 2019
The Romans lived in a world full of gods; religion affected every part of Roman life, from politics to warfare to entertainment. Christianity took shape within this world, and Roman religion, especially the mystery cults, has often been regarded as a model for the early church. Yet the Roman concept of 'religion' has very little in common with modern, Judeo-Christian-influenced notions. In this class we will explore the theory and practice of religion in the ancient Roman world, as reflected in ancient literary texts, as well as in epigraphic and archaeological evidence. Themes include the nature of Roman worship, from state cult to magic and mysteries, the interplay between religion and politics, and the development of Christianity in its pagan context.

THEO229301
Cultural and Social Structures I
SWEENEY, MEGHAN T

Fall 2019
This course focuses on examining the cultural foundations that underlie the contemporary ways in which people choose to structure literally, figuratively, and symbolically the way they live together. Our study centers on questions about how our cultural and social structures are the concrete expression in politics, city planning, architecture, literature, etc., of what we value and of the things we consider meaningful and important.
THEO295001
The Ten Commandments
GILLIHAN, YONDER
Fall 2019
What are the Ten Commandments? Why are there three versions in the Bible? Why are they displayed on the U.S. Supreme Court building, when they Supreme Court has blocked their public display in multiple high profile cases? This class surveys the origin and historical meanings of one of the Bible’s most iconic and frequently cited texts: the Ten Commandments (AKA the "Decalogue," an English term that comes from Greek and means "Ten Laws"). The heart of the class is a ten-week comparative study of major historical interpretations of each of the ten laws. Interpretations that we will consider include ancient writers, Medieval theologians, Catholic and Protestant theologians and Church documents. We will consider how the Ten Commandments have been interpreted from a variety of perspectives, including historical-critical, systematic-constructive, in legal theory, and from critical liberationist perspectives, including feminist, Black, queer, and post-colonial. Students will be evaluated on team research and presentation assignments, and on three brief research/reflection essays.

THEO311701
Love and the Human Condition
ROBINETTE, BRIAN
Fall 2019
This course introduces students to classic texts and themes related to human and divine love. Through a careful study of primary texts, both in theoretical and narrative formats, the course is designed to promote extensive classroom conversation and written reflection as we consider forms of love such as affection, friendship, erotic attraction, and agapeic service. Other important themes that will emerge in our study include: freedom, rivalry, suffering, death, beauty, conversion, heroism, and vocation. By situating the dynamics of human and divine love in this way, the course offers an opportunity to reflect upon the meaning of the human condition.

**Theology Majors' Seminar**  
**CAHILL, LISA**  
**Fall 2019**  
The Majors' Seminar is designed to help majors extend their understanding of the meaning and methods of theology and religious studies. It provides students with an opportunity to synthesize aspects of their course work and identify key themes, questions, and areas in need of further study. This is done primarily through the research and writing of a seminar paper. This course is offered each fall and spring and may be taken senior or junior year. Sufficiently advanced students are urged to take the seminar in junior year.
THEO336001
Living Truthfully: Way to Personal Peace and Social Change
PENNA, ANTHONY
Fall 2019
The primary purpose of this course is to examine the proposition that it is better to tell the truth than tell the lie. Too often, we are tempted to live out an illusion. The personal and social costs of keeping an illusion pumped are steep. Personal peace and courage are born when we settle in on the truth of our identity and dare to live it. In short, this course proposes that the larger life is possible when we come home to the smaller life that defines us as individual women and men.

THEO355701
Catholicism and Social Responsibility
HEYER, KRISTIN E
Fall 2019
This course explores the tradition of Catholic social thought and in its theoretical and lived forms. It probes the theological and moral foundations of social responsibility and the relationships between the church and civil society. It investigates the implications of the tradition's core commitments (including human rights, solidarity, the option for the poor, liberation, the common good) for contemporary questions of justice. It attends to the ways structural inequalities and harmful ideologies impact the course's applied ethics topics (e.g., racialized violence, migration, labor rights, and food justice). Finally it considers growing edges of the tradition in need of development.

**THEO357701**  
**Conciliar Traditions of the Catholic Church**  
**COOLMAN, BOYD**  
**Fall 2019**

This course offers an introduction to the conciliar tradition of the Roman Catholic Church. The course will begin with an historical overview of the ecumenical and Catholic councils, from the councils of Nicaea and Constantinople in the early church era, to the Council of Trent and the First Vatican Council in early modernity. It will then turn to an extended exploration of the Second Vatican Council, its interpretation and reception. The course provides an introduction to the development of Catholic theology, in regard to both form and content, from the beginning to the present.

THEO534801
New Testament Ethics  
PERKINS, PHEME  
Fall 2019  
An introduction to ethical reflection in the New Testament which will treat the teaching of Jesus in the Sermon on the Mount (Matt 5-7 and parallels), select parables (Luke 10-19 and parallels) and moral formation in Pauline churches (Gal, 1 Cor). Individual modules will treat (a) social justice and concern for the poor; (b) love commands; and (c) sexuality, marriage and family. Students are introduced to ethical material from both Jewish and Stoic sources that deal with comparable topics.

THEO542901
Theology and Ecology
HINSDALE, MARY ANN
Fall 2019
This course studies the emergence of ecological theology as a form of liberation theology. It investigates the roots of environmental degradation in the Judeo-Christian tradition and the attempts of contemporary theologians to re-envision our understanding of God, human being and nature in order to shape a sustainable, planetary theology. Authors studied include Thomas Berry, Teilhard de Chardin, Leonardo Boff, Dennis Edwards, Ivone Gebara, Elizabeth Johnson, Sallie McFague, Rosemary Radford Ruether, and statements of the World Council of Churches, the Orthodox Patriarchs, and the Catholic hierarchy.

THEO550501
Sacraments and Art
BERGIN, WILLIAM N
Fall 2019
Much of our artistic heritage was commissioned to embellish places of worship and to deepen understanding of the ceremonies celebrated there. These works of art offer often-ignored insights into Christian sacraments that complements more traditional theological approaches. This course seeks to deepen our appreciation of Christian sacraments by acknowledging painting, sculpture and architecture as a locus theologicus. Both historical and thematic in approach, it explores sacramentality, incarnation, iconoclasm, typology as well as selected themes from sacramental theology. The course will include off-site visits.

THEO551701
The Sacramental Principle
HIMES, MICHAEL J
Fall 2019
The Christian tradition can be understood and organized in various ways. Among the central systematic principles which have provided lenses through which to see the relationship among the elements of the tradition is sacramentality. This course will explore the sacramental principle using initiation, reconciliation and Eucharist as prime instances of its functioning. The focus of the course, however, is not on particular sacramental rituals but on the sacramental vision of reality which characterizes Christianity as it is understood in the Catholic tradition.

THEO657801
Daoism
MOZINA, DAVID J
Fall 2019
Daoism (sometimes spelled Taoism) has been imagined in the West as an Eastern philosophy of blithe individuality and environmental consciousness. But what have Daoist thought and practice meant to Chinese practitioners? The answer might surprise. This course will examine major moments of thought and practice from the early, medieval, and modern periods of China's most successful indigenous religious tradition. Close readings of texts and images will challenge Western assumptions about what this religious tradition has been all about, and by extension, how we imagine the general categories "theology" and "religion."

THEO701801
Priesthood, Celibacy, and Authority in Ancient Christianity
HUNTER, DAVID G
Fall 2019
In the late antique and early medieval periods the eastern and western branches of Christianity developed distinctive practices in regard to the marriage, celibacy, and sexual continence of the clergy. By the sixth century the eastern churches, for the most part, required celibacy of bishops, but allowed presbyters and deacons to marry prior to ordination. By the late fourth century the western churches, by contrast, attempted to enforce permanent sexual continence on the three highest ranks of the clergy, but did not refrain from ordaining married men. The eastern tradition was enshrined in the sixth-century legislation of Emperor Justinian and in the canons of the seventh-century Council in Trullo; the Western tradition is found in papal letters of the late fourth century, as well as in several of the Latin Fathers (Ambrose, Jerome, Ambrosiaster). Our aim in this course is to explore these diverse traditions and to discern the reasons behind these historical developments. We will study the emergence of the offices of bishop, presbyter, and deacon in the early church, the gradual appropriation of hieratic terminology (“priest” and "priesthood"), and the role of regulations such as single marriage, sexual continence, and complete celibacy in defining the authority of the clergy.

THEO701901
Classic Texts in American Theology
MASSA, MARK
Fall 2019
This course examines texts that defined both the "Great Tradition" in American theology (Reinhold Niebuhr, William James, Walter Rauschenbusch) as well as texts that have profoundly shaped American Catholic theology (David Tracy, Elizabeth Johnson, etc.)

**THEO702101**  
**Liberation Theology**  
**PREVOT, ANDREW L**  
**Fall 2019**  
This seminar introduces students to classic and contemporary works in liberation theology that emerge from diverse historical contexts and address matters of universal concern. It examines the organic relationship between liberation theology and grassroots social movements confronting problems of extreme poverty, racism, sexual violence, and environmental devastation. It clarifies the liberative meaning of doctrinal traditions in areas such as trinitarian theology, Christology, pneumatology, soteriology, and theological anthropology and explores various approaches to a spirituality of liberation. It engages prominent critiques of liberation theology and touches on recent innovations such as the decolonial turn.

THEO705201
Theological Bioethics: From the Basics to the Future
VICINI, ANDREA
Fall 2019
The Course addresses, first, the basics issues in bioethics focusing on the beginning of human life (reproductive technologies, prenatal diagnosis, abortion), biomedical research (transplantation, AIDS, genetic research, stem cell research), sustainability, and the end of human life (palliative care, vegetative state, euthanasia). Second, it discusses the bioethical concerns raised by developing biotechnologies (e.g., neurosciences, oncofertility, nanotechnology, cyborg technologies). By studying the current theological debate and the Catholic Magisterium, principles and theories will be highlighted aiming at supporting personal decision-making and pastoral service.

**THEO776201**  
**Christian Ethics: Major Figures**  
**CAHILL, LISA**  
**Fall 2019**  
This course will explore the theological ethics of Augustine, Aquinas, Luther, Calvin, and Menno Simons (Radical Reformation). It will highlight the interrelation of concepts of nature, sin, virtue, grace, justification, and sanctification; the nature of politics and government; the church and politics; and the ethics of gender and marriage, and of war and peace. This is a doctoral seminar; the last few weeks of the course will be dedicated to discussion of students' potentially publishable research projects.

THEO881701
Christ in the New Testament
PERKINS, PHEME
Fall 2019
This seminar studies the diverse Christological patterns in the New Testament: Jesus as embodiment of Wisdom in sayings and hymns (John); as fulfillment of messianic hopes (Matthew); as crucified and resurrected redeemer (Paul), and as exalted in heaven (Rev). Both Jewish elements in these patterns and their reformulation in second and third century Christianity (Justin Martyr, Irenaeus, Valentinians and Origen) will be discussed. The final section of the seminar will discuss the use of these studies in Catholic systematics (Schillebeeckx, Gutierrez, Schussler-Fiorenza, Johnson and Benedict XVI).

Peaceful Ethics: Social Action Leadership Methods
NIELSEN, RICHARD P
Spring 2020
The course focuses on methods we can use individually and together in addressing ethics issues and in helping to build and maintain ethical communities and organizations within different types of political-economic environments and realities. Methods considered include: ethics reasoning, dialogue, and persuasion methods; win-win negotiating and incentive methods; win-lose, nonviolent forcing and compliance methods; internal due process and governance methods; and alternative institution building and social movement methods.

THEO140201
God, Self, and Society
HIMES, MICHAEL J; KARANOVICH, ROBERT Z; RUGG, STEPHEN P
Spring 2020
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?
Faculty: The Department.

THEO142001
The Everlasting Covenant: The Hebrew Bible
VANDERHOOF, DAVID; DESOUZA GARNER ASSIS, LUIZ
Spring 2020
The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Faculty: The Department.

THEO143001
Buddhism and Christianity in Dialogue
MAKRANSKY, JOHN J; MAAYAN, DAVID
Spring 2020
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravāda and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism.

THEO143101
Islam and Christianity in Dialogue
VANZANDT COLLINS, MICHAEL

Spring 2020
This course engages the quest for truth and meaning in the faith traditions and practices of Islam and Christianity through the lens of comparative theology. We will use textual, historical, social, cultural, and gender analyses to examine and reflect on understandings of God, scripture, worship, sacred rites and rituals, religious law, and membership in the faith community, in addition to a comparative approach to Biblical and Quranic narratives, characters, and concepts of prophethood and saints, with special emphasis given to Jesus, Muhammad, and the Virgin Mary.

THEO143103
Islam and Christianity in Dialogue
DELONG-BAS, NATANA J
Spring 2020
This course engages the quest for truth and meaning in the faith traditions and practices of Islam and Christianity through the lens of comparative theology. We will use textual, historical, social, cultural, and gender analyses to examine and reflect on understandings of God, scripture, worship, sacred rites and rituals, religious law, and membership in the faith community, in addition to a comparative approach to Biblical and Quranic narratives, characters, and concepts of prophethood and saints, with special emphasis given to Jesus, Muhammad, and the Virgin Mary.

THEO143201
Hinduism and Christianity in Dialogue
DANIELSON, CRAIG E
Spring 2020
It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. Faculty: The Department.

THEO143301
Chinese Religions and Christianity in Dialogue
MOZINA, DAVID J; WRATEE, BYRON D
Spring 2020
This course asks foundational questions about the nature of the divine, the human, and the relationship between the two. What is the nature of ultimate reality? How did the world and all in it come to be? Are human beings naturally moral or must we learn how to be good? What is the full capacity of human being? We shall ponder answers to these questions and more by putting selected Biblical and Christian texts in conversation with selected Confucian, Daoist, and Buddhist texts from the Chinese literary canon.

In The Beginning: Biblical Explorations of Our Origins
COOLEY, JEFFREY L; ACKERMANN, DOMENIK
Spring 2020
This course will introduce students to the assorted biblical texts describing the creation of life and the cosmos. Our goals are (1) to understand the various authorial intents of those texts within their ancient contexts, (2) to recognize the larger cultural environment in which these texts were composed, with which they interacted, and to which they responded, (3) to comprehend the ancient authors' distinctive ways of knowing about the world and the past, and to appreciate how biblical creation texts were later understood by successions of communities up to the scientific age.

THEO170601
Being Human in a World of Artificial Intelligence: A Theological Perspective
PETILLO, LOUIS M
Spring 2020
Some technologists argue that human history is rapidly moving towards a technological “singularity” — the invention of an artificial superintelligence that would trigger an exponential and uncontrolled growth in technology. Unimaginable changes to human civilization would result. This course invites students to explore the questions and challenges that Artificial Intelligence and, in particular, a technological singularity pose for a human existence understood within a Christian theological framework. How would the presence of an artificial super-intelligence or a digitally enhanced human consciousness change how we think about what it means to be human, the meaning of God, and the future of humanity?

THEO211401
When Gods Begin Again: Intro to African and African Diaspora Religions
MCELWAINE, MICHELLE L

Spring 2020
This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yoruba and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santeria, Brazilian Candomble, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

THEO216001
The Challenge of Justice
SNYDER, JOSHUA R
Spring 2020
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

Credits: 03
Schedule: T TH 3*
Room: STOKES HALL 217N
Satisfies Core Requirement: None
Comments: This course satisfies the introductory requirement for students taking the minor in Faith, Peace, and Justice Studies. Other students interested in examining the problems of building a just society are welcome.

**THEO280001**  
**Race, Freedom, and the Bible in America**  
**GILLIHAN, YONDER**  
**Spring 2020**  
Discourse about American identity, purpose, and ethics has drawn on Scripture for its themes, terms, and claims to authority, from the nation's political genesis as a refuge for English Puritans to its current incarnation as "secular sanctuary" of ethnic and religious pluralism. This team-taught course surveys uses of the Bible and other "American Scriptures" in discourse on race and civil rights, focusing on its use by political opponents. Assigned readings, essays, and discussions will survey specific meanings that scriptures have acquired at critical historical moments, and what the multiplication of interpreters, methods, and meanings implies for prospects for unity.

THEO322301
The Ethics of Global Public Health and the Common Good
VICINI, ANDREA
Spring 2020
Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes. International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

Theology Majors' Seminar
HUNTER, DAVID G

Spring 2020
The Majors' Seminar is designed to help majors extend their understanding of the meaning and methods of theology and religious studies. It provides students with an opportunity to synthesize aspects of their course work and identify key themes, questions, and areas in need of further study. This is done primarily through the research and writing of a seminar paper. This course is offered each fall and spring and may be taken senior or junior year. Sufficiently advanced students are urged to take the seminar in junior year.

THEO400301
Confucianism
MOZINA, DAVID J

Spring 2020
Confucian thought and practice is the bedrock of the moral, philosophical, cultic, and political life of all East Asian cultures (Chinese, Korean, Vietnamese, Japanese, and the East Asian diaspora). Close readings of texts from the classical, medieval, and modern periods will challenge Asian (and Western) assumptions of what this rich and influential tradition of thought and practice has been about, and how we imagine the general categories "theology" and "religion." Graduate students who wish to take the course should contact the instructor.

THEO534901
Israel in Jewish Theologies
LANGER, RUTH

Spring 2020

Israel, both the people and the land, are central to Jewish theology as concrete manifestations of God's covenants. This course will explore the evolving meanings of these concepts from the Bible to today, looking at themes like peoplehood, life in the land, exile from it, and (messianic) return. The second part of the course will focus specifically on the theologies of a range of modern Jewish thinkers, with the goal of helping students to understand aspects of contemporary Israel and its meaning to world Jewry.

THEO535501

Coming to Terms with Guilt: Jewish-Christian Relations in the Aftermath of the Holocaust

VON KELLENBACH, KATHARINA

Spring 2020

In preparation for the millennium celebration, Pope John Paul II issued a series of apologies for Christian complicity in historical evils, including the Holocaust, in order to facilitate a ?purification of memory.? We will explore this concept in its theological, ethical, and political dimensions. What role did the Holocaust play in shifting Christian teachings of Jewish guilt (for the death of Christ) to a recognition of Christian guilt for anti-Judaism? How do religious rituals of teshuvah and penance help individuals and communities confront guilt in the aftermath of political atrocity? Can we speak of the ?purification of memory? in the context of Jewish-Christian relations after the Holocaust? Is Holocaust memory relevant and applicable to other instances of historical injustice, such as slavery, genocide, or sexual violence?

Patristic Greek II
SCHATKIN, MARGARET
Spring 2020
This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

THEO547101
Bread Broken for a New World
BERGIN, WILLIAM N
Spring 2020
The Eucharist is primarily about the future. God has laid hold of human history and has begun to transform it from within. The Eucharist has the power to shape the community that celebrates it to be a source of life in a broken and fragile world. This course examines the biblical roots of the Eucharist in the meal traditions of the Jewish people, in the table fellowship of Jesus and in his death on the Cross.
THEO549801
HIV/AIDS and Ethics
KEENAN, JAMES F
Spring 2020
This course looks at how we can understand a bit better the ethics of public health through the lens of HIV/AIDS. There besides studying the virus itself, we examine the varied related ethical issues regarding stigma, prevention, research, gender inequity, economic disparities, local culture, religion, funding, and access.

**THEO550601**  
**Marriage and Sexuality in the Christian Tradition**  
**HUNTER, DAVID G**  
**Spring 2020**  
From its earliest days the Christian tradition was marked by distinctive practices regarding marriage and sexuality. A bias against second marriages, a general prohibition of remarriage after divorce, rejection of polygamy, an emphasis on procreation, etc. became some of the characteristics of Christian morality and signs of a specifically Christian identity. This course will examine the history and development of these traditions, their foundation in scripture, and their context in the surrounding cultures.

THEO551701
The Sacramental Principle
HIMES, MICHAEL J
Spring 2020
The Christian tradition can be understood and organized in various ways. Among the central systematic principles which have provided lenses through which to see the relationship among the elements of the tradition is sacramentality. This course will explore the sacramental principle using initiation, reconciliation and Eucharist as prime instances of its functioning. The focus of the course, however, is not on particular sacramental rituals but on the sacramental vision of reality which characterizes Christianity as it is understood in the Catholic tradition.

THEO555401
Encountering the Qur'an: Contexts and Approaches
MORRIS, JAMES W
Spring 2020
Using only English-language sources, this seminar will focus on developing the skills and background needed to understand and reliably interpret the Qur'an in translation. The course will also introduce the traditional contextual materials, such as Prophetic history (Sira, hadith), recitation, "tales of the prophets," textual development, and tafsir. But seminar sessions will focus on close reading and interpretation of selected early (Meccan) Suras.

THEO555901
Dante's "Divine Comedy" in Translation
SHEPARD, LAURIE
Spring 2020
An introduction to and critical reading of the "Divine Comedy" (in English translation), one of the world's greatest epic poems, produced by "the chief imagination of Christendom" (Yeats). Dante's journey through Hell, Purgatory, and Paradise will be analyzed at its multiple levels of interpretation: literal and allegorical, theological, philosophical, political, and literary. Compendium of an entire epoch of European civilization, the "Comedy" will also be interrogated for its responses to the fundamental questions of human existence: God, the Cosmos, the Self, Good and Evil, Right and Wrong, Suffering, and Happiness.

Credits: 03

THEO700501
Christian Ethics and Migration
HEYER, KRISTIN E
Spring 2020
This course examines the phenomenon of global migration from a Christian theological perspective. Texts from social scientific, legal, and policy perspectives will frame the phenomenon of contemporary migration. The seminar will then undertake ethical analyses of migration paradigms, policies and practices in light of resources from the Christian tradition, considering questions related to globalization, citizenship, economic justice, gender, family ethics, and integration.

THEO700901
Psalms and the Cult
VANDERHOOF, DAVID
Spring 2020
The Book of Psalms, sometimes called Israel's "Songbook," engages the world of religious practice, or cult, in a variety of ways. This is true, also, of other biblical poetic compositions outside of the Psalms. The present course investigates the problem of Psalms and the Cult from a number of perspectives by posing a variety of questions. To what extent does Israel's poetry reflect or take for granted specific cultic practices? Are such practices individual or communal? Were they connected with expert oversight? How might Psalms have been used during cultic practice? Were they liturgical or performative texts? How might the relationship between psalms and prophecy inform the discussion? Students will formulate answers to these and other questions by close reading of a selection of Psalms in Hebrew, and by engagement with secondary literature and material culture evidence. Three semesters of Biblical Hebrew or equivalent.

Credits: 03

THEO702201
Ethics for Apocalyptic Times
CAHILL, LISA
Spring 2020
In view of recent theological challenges to the idea that Christian social ethics (as well as liberation theology and political theology) must be committed to and can produce significant contributions to historical justice, this course will study the significance of Christian theologies of sin, salvation, eschatology, and hope for the church's political responsibilities and prospects for change. Ecological ethics and women's activism will be highlighted.

Law and Religion
KAVENY, M CATHLEEN
Spring 2020
This course examines the various ways in which law and religion interact. Part I looks at the "Law of Religion," focusing on key First Amendment Cases. Part II looks at "Religion in Law," examining how religious ideas affected secular notions of marriage. Part III looks at the complicated ways in which law and religion influence each other. A key example will be how the Civil War altered biblical interpretation on the morality of slavery.

THEO744301
Comparative Religion: History and Methods
CORNILLE, CATHERINE M
Spring 2020
The comparative study of religions has evolved through different stages of methodological reflection since its establishment as an autonomous discipline over a century ago. Questions concerning the nature and goal of comparison and the possibilities and limits of understanding individuals belonging to other religions remain at the heart of any engagement with religious pluralism. We will explore these questions through a study of the theories of early phenomenologists of religion such as Gerardus Van der Leeuw, through the work of Mircea Eliade and his critics, and up to the contemporary approaches of figures such as Jonathan Z. Smith.

THEO746101
Human Rights Interdisciplinary Seminar
KANSTROOM, DANIEL
Spring 2020
The study of human rights defies disciplinary boundaries. This seminar, sponsored by the Center for Human Rights and International Justice (CHRIJ), provides a rare space to examine human rights from an interdisciplinary perspective. The seminar brings together faculty affiliated with the Center, students from across the university, visiting scholars, and guest speakers to examine issues of human rights and international justice. The spring 2020 seminar will begin with an overview and brief historical review of human rights instruments and then explore a series of complexities for those seeking to engage in human rights scholarship, advocacy, and activism. We seek to engage critically with human rights discourse and actions as they intersect with gender, culture/ethnicity, race, class, and other categorizations. More details on the 2020 seminar at https://www.bc.edu/content/bc-web/centers/chrij/academics/seminar.html.

Credits: 03
Schedule: TH 2-4 20
Room: CAMPION HALL 016
Satisfies Core Requirement: None
Comments: Registration by permission only. The Center invites applications from students enrolled in a graduate professional degree in any of Boston College's divisions. Undergraduate seniors will be considered, space permitting. To apply, students must submit a brief statement (no longer than one page, single-spaced) to humanrights@bc.edu with the subject line "Human Rights Interdisciplinary Seminar application." Please include your Eagle ID and academic discipline in the application. The application deadline is Friday, November 5, 2019.
Prerequisites: With permission of the Instructor.

THEO759601
Synoptic Studies: Recent Issues
ROTH, DIETER T
Spring 2020
This course focuses on recent issues in the study of Matthew, Mark, and Luke. Particular emphasis will be given to recent trends in studies of the Synoptic Problem, the Q source, the relationship of Marcion's Gospel to Luke, the parables, and the textual transmission of the Synoptic Gospels. Furthermore, in order to better understand Matthew, Mark, and Luke in both their historical contexts and contemporary receptions, attention will also be given to significant recent contributions to the study of these Gospels from a variety of hermeneutical perspectives.
THEO759901
Theological Exegesis in Early Christianity
MAGREE, MICHAEL C
Spring 2020
In this course students will read ancient Christian authors as part of a long tradition of attempting to understand God through the reading of sacred texts. The course will cover three basic topics, which will be kept distinct even while the class examines them simultaneously. The first topic is early Christians' own understanding of, and consistency with, the principles of their exegesis, especially the "rule of faith." The second topic is the early Christian practice of scriptural exegesis, especially as this exegesis was relevant to doctrinal and theological debates, and to preaching. The final topic is the social and religious context of the principles and practice of Christian exegesis. To this end I am assigning significant readings in non-Christian sources to provide context for the Christian ones. The course will proceed in a generally chronological fashion, in order to allow students to note patterns of development and change over time. Selected secondary readings will be assigned for each session as a way to introduce students to the ongoing scholarly discussions in this field. All readings will be in English translation, though students with facility in the original languages are encouraged to employ this in their reading and research. The course is aimed at doctoral students in Historical Theology/History of Christianity, though there should be significant material appealing to students in Biblical Studies, Systematics, Comparative Theology, and Ethics.

THEO761101
Hebrew Exegesis of the Dead Sea Scrolls
GILLIHAN, YONDER
Spring 2020
This course begins with exegesis of the Hebrew text of the three "Rules" found in the Qumran caves and in the Cairo geniza: the Community Rule (1QS), the Rule for the Congregation (1QSa), and the Damascus Rule (CD). We will also survey passages from other sectarian texts devoted to interpretation of scripture and history, esp. the pesharim. Students with ability to read Aramaic will read selections from the Aramaic DSS that complement the Hebrew texts, and all will read the entire corpus of non-biblical mss. in English translation.

THEO767101
Theology of Edward Schillebeeckx
HINSDALE, MARY ANN
Spring 2020
This doctoral seminar will be devoted to the reading of primary texts from three periods in the work of Edward Schillebeeckx (1914-2009): (1) the early existential-phenomenological retrieval of Thomas Aquinas's theology of sacraments; (2) the shift to historical consciousness and hermeneutics during and after Vatican II, particularly exemplified in his Christology; (3) the shift to critical theory and its critique of modernity, leading to an historical praxis of mysticism and politics in the light of a suffering world.
THEO780301
Graeca
PERKINS, PHEME
Spring 2020
Rapid reading in Jewish Greek texts (LXX, Philo, Josephus), with an introduction to research in the authors treated, for students who have completed Intermediate Greek.

Credits: 03
Schedule: M 4 30-6 50
Room: MCGUINN HALL 526

THEO795601
Theology as Hermeneutical
LAWRENCE, FREDERICK G
Spring 2020
To understand (1) the Christian drama of salvation as presented in the Old and New Testaments; (2) the development of the creeds; (3) the difference between a Christian world view and Christian theology.

Credits: 03
Schedule: M 4 30-6 50
THEO800401
Sustainability, Health, and Theological Ethics
VICINI, ANDREA
Spring 2020
Sustainability is a major global challenge facing humankind and its survival. With particular attention given to sustainability and health, the doctoral seminar studies selected theological themes and authors (from recent classics to more recent contributions). In particular, the seminar examines how theological discourse addresses what threatens sustainable conditions of life on Earth and how diverse theological approaches promote sustainable individual, institutional, and collective practices around the planet.

UNAS101601
Designing Your Career: An Exploration Course
SMITH, JULIANNE M; MCCALLICK, LAUREN K
Fall 2019
In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

UNAS102001
OTE First Year Success Seminar
PETIGNY, ANDY O
Fall 2019
The First Year Success Seminar will take place in the fall semester of every year, and will provide OTE summer graduates with supplemental information on both the Thea Bowman AHANA and Intercultural Center and other Boston College resources, in-depth coverage of certain topics through interactive workshops, readings, videos, and group discussions. The First Year Success Seminar will also serve as the primary mode of communication between students and BAIC staff. Students can expect to participate in workshops presented by various organizations in the BC community focused on stress management, budgeting, time management, financial literacy, and effective studying techniques.

OTE First Year Success Seminar
DATE, DANIELLE V
Fall 2019
The First Year Success Seminar will take place in the fall semester of every year, and will provide OTE summer graduates with supplemental information on both the Thea Bowman AHANA and Intercultural Center and other Boston College resources, in-depth coverage of certain topics through interactive workshops, readings, videos, and group discussions. The First Year Success Seminar will also serve as the primary mode of communication between students and BAIC staff. Students can expect to participate in workshops presented by various organizations in the BC community focused on stress management, budgeting, time management, financial literacy, and effective studying techniques.

UNAS102501
Innovation through Design Thinking
RUTIRASIRI, CHOKDEE R
Fall 2019
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Peaceful Conflict Resolution Methods
NIELSEN, RICHARD P
Fall 2019
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

Trash Talking: Political Ecology of Waste and Resources
WORL, JESSICA S
Fall 2019
We live wasteful lives. We create wastes in our homes as well as our mines, farms, factories, and stores. But what is waste, actually? Why is one thing a waste and another a resource? How and why is waste generated, circulated, and disposed the way it is, and what are the implications of these flows? In what ways do wastes cross boundaries--and create them? These paired courses dive into the world of waste to explore this pervasive yet often invisible aspect of our modern world. Complementary perspectives reveal the complex relationships among waste, society, and the environment.

**How Democracies Die: The Politicization of Emotions**  
**ZUNIGA NIETO, CARLOS GERAR**  
**Fall 2019**

Democracies have existed for thousands of years, and are common today, but do they have a shelf-life? What drives their life-cycles? What is the role of emotions in the formation and breakdown of political allegiances? What are the emotional ingredients necessary to sustain a civil society? These paired courses will familiarize students with historical examples of democratic collapse and historical thinkers who have tried to understand why it occurs. Students will learn to recognize how political emotions contribute to norm erosion and the collapse of civil societies, and how they are essential to forging stable and cohesive democratic civil societies.

Oppression and Change in Contemporary United States: Sociocultural and Psychological Perspectives
GOODMAN, LISA A
Fall 2019
This course engages the topic of social oppression and transformation from social and psychological perspectives. Using research, scholarship, and creative work from psychology, education, sociology, history, and popular culture, we will explore institutional, ideological, interpersonal, and individual aspects of oppression across four social locations — social class, gender, race, and sexual orientation. For each location, we will start with our own stories of privilege and oppression; move to an empathic engagement with the stories of others; broaden to understand the way that structural dynamics shape those stories; and finally, dive into specific social issues, including family poverty, violence against women, mass incarceration, and LGBTQ homelessness.

Life, Liberty, and Health: Policy, Politics, and Law
CHIRBA, MARY ANN
Fall 2019
If health is our "greatest happiness" (Thomas Jefferson), why is U.S. health care such a mess? We have rights to vote and free speech, but do we have a right to health? This course explores the role of policy, politics, and law in the pursuit of life, liberty, and health. Topics include the history of our health care system; prescription drug costs; government-mandated vaccinations, the "right to try" unproven therapies; and the roles of law, medicine, and money in creating and containing the growing problems of opioid abuse and concussion injuries in the NFL, college, and youth sports.

Humans and Other Animals: Changing Perceptions of Humankind’s Place in Nature
BROWNE, RORY A
Fall 2019
This course examines our changing relations with other animals over the last three hundred years. Has an assumption of mastery been replaced by a sense of kinship, and a right to exploitation by an obligation of stewardship? The scientific contributions to these possible changes will be considered, as will such cultural phenomena as pet-keeping and bird-watching. Emphasis will be placed on human relations with the great apes and on local interventions in the evolution, conservation, and animal rights debates. Ultimately, we will be considering humanity’s sense of itself through its relations with others: the ape is the mirror of ourselves.

When Life Happens: Disability and the Stories We Tell
DUNSFORD, CLARE M
Fall 2019
In this literature core course students will read stories of disability written by those who are disabled and those who love them or are interested in understanding their lives. We will read memoir, fiction, and essays that explore a range of physical and developmental disabilities. Questions of representation — who gets to tell the story, how disability has been represented historically at different times and in different cultures — will be considered in terms of literary analysis and disability theory.

Environmental Crisis: Sustainability, Resources, and the Future
KRONES, JONATHAN S
Fall 2019
Today's rapidly growing world is putting significant stresses on the environment and natural resources to an extent that some believe threatens long-term human survival. This class explores this "sustainability crisis" as it manifests in a variety of natural resource systems, such as agriculture, energy, water, and minerals and materials. What is it about the current functioning of these systems that makes them unsustainable? What needs to change to achieve balance between present and future needs? We will learn how technology, the environment, governance, economics, and even ethics interact to enable or preclude different environmental futures.

Privacy, Fairness, and Law
YEN, ALFRED C
Fall 2019
These courses give students basic knowledge about computer science, programming, and law to explore the meaning of privacy, the privacy-related challenges posed by computer technology, and possible technical and legal methods of establishing and preserving privacy. Students will discover that, in different contexts, privacy takes on different meanings that sometimes create contradiction. Students will therefore have to wrestle with compromises necessary to accommodate various visions of privacy. No solution will be perfect, and students will experience the challenge and complexity of making modern policy, regulatory, and technical trade offs.

Community Service Research Seminar
DEROSA, MARLA C
Fall 2019
CRP is a two-semester program that offers leadership, research, and public policy training for students interested in working with communities of color in Massachusetts. In the fall, students will participate in a seminar to study the process of community-based research and its methodologies and begin to design a research proposal for an independent study with a faculty advisor for the spring semester research project. The seminar will also include a lecture series, in which academic researchers and community professionals will discuss their current work and experiences on issues related to four research-interest communities.

Cross Currents Seminar: Thinking About Economic Inequality and College Student Life
HOWELL, BURTON
Fall 2019
This seminar will look at the consequences of economic inequality in the lives of high financial need undergraduates studying at elite universities. Students will apply what they are learning in other classes to daily campus life. We will ask questions about the challenges of thriving at an affluent institution. The class includes readings from memoirs of low income students at Princeton, Vassar, Saint Michael’s, Stanford, and Boston College. This course is recommended for Montserrat students.
UNAS333301
Cross Currents: Thinking About Law and Economics
FELTER, JOHN K
Fall 2019
This seminar will explore how economic theory applies to positive and normative analyses of law, legal issues and legal systems. It will investigate how traditional economists analyze the law and how behavioral economists have challenged and complemented traditional economic theories in several real world situations. This seminar may be attractive, not only to students who are interested in careers in law and economics, but also to a wider audience of students who are intellectually curious about how law, economics, and the psychology of decision-making and choice influence our daily lives.

**Cross Currents: Thinking About Mindfulness and Meditation**  
**CICHELLO, CHRISTINE KAMP; CASTRICUM, SARAH**  
**Fall 2019**

Mindfulness and meditation can enhance all areas of life and work, from academic pursuits like critical thinking and close reading, to our holistic formation as people who care for others and our wider world. This course will introduce a range of contemplative practices, for example centering and breath-focused meditation, movement practices such as walking the Labyrinth, and reflective practices such as the Ignatian Examen. There will be opportunities to encounter them in the classroom where appropriate, always with attention to their traditions and contexts of origin. We will explore shared themes such as the fruitful tension between meditation and activism, and the relationship between intellectual knowledge and faith. Students will each follow a practice of their choice and pursue an area of individual research throughout the semester, reflecting on their experience through journaling and class discussions.

Cross Currents Seminar: Thinking about Intercultural Competency
GOODE, MATTHEW L
Fall 2019
Students entering the workforce today, no matter what profession or field of study, need to be equipped with the knowledge, skills, and attitudes to successfully interact with colleagues, clients, customers and communities who are different from themselves. This seminar will help students develop their knowledge and skills through intentional exposure to relevant theoretical materials, meaningful and structured interactions with diverse groups of people, and reflection on the impact of these experiences on their own identities and their relationships with others. Experience with domestic and international diverse populations will be explored.

UNAS334401
Cross Currents Seminar: Thinking About Successful Teams
CHIOZZI, ADRIENNE M; LUTZ, ANDREW R
Fall 2019
This seminar studies strategies for working with and building successful teams in contexts like education, athletics, business, health care, government. Students discuss stages of team development and defined roles found on high-functioning teams. Katzenbach and Smith define a team as "a small number of people with complementary skills committed to a common purpose, performance goals, and approach for which they hold themselves mutually accountable." We utilize team-based theories to reflect on students' team experiences, connect discussions to their coursework, and think creatively about their impact as productive team players in the future.

Designing Your Career: An Exploration Course
SMITH, JULIANNE M; MCCALICK, LAUREN K
Spring 2020
In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

UNAS102501
Innovation through Design Thinking
RUTIRASIRI, CHOKDEE R
Spring 2020
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Global Ethics and Pragmatic Solidarity
LYKES, M BRINTON; ESTELRICH BARCELO, BARTOME
Spring 2020
This interdisciplinary seminar offers participants an opportunity to critically reflect upon selected philosophical and social scientific readings and their lived experiences towards understanding multiple local and global systems and structures that give rise to and sustain social injustice. Specifically, you will begin by exploring your social positions at the intersection of 'race,' gender, social class, sexuality, ethnicity, language, abilities, etc. You will develop criteria for understanding the multiple local and global contexts in which you live towards exploring options for taking actions alongside individuals and communities directly affected by social injustices. You will also explore how action-reflection processes can contribute to clarifying your self-understanding and social position vis-a-vis each other and those with whom you act locally and globally.

Coming of Age: Crisis and Calm Revealed through Literature

MICHALCZYK, SUSAN A

Spring 2020

What does it mean to come of age? What experiences define us, as we make our journey through life? How do we process those moments of crisis and calm, so that we can become better prepared to engage effectively in all that life holds for us as adults? Exploring written narratives of the adolescent experience provides opportunities for personal growth, for understanding of this challenging transition, and for recognizing common patterns and bonds we all share. Through analysis of narrative techniques, students explore approaches to storytelling that create a pact between author and reader that encourages consideration of their stories

**UNAS350001**  
**Biomedical Research Ethics**  
**CHEN, JIIN-YU**  
**Spring 2020**

Biomedical research aims to understand the underlying causes of disease in order to alleviate human suffering and to deepen our knowledge of the inner workings of biological processes. Advances in these areas have brought numerous successes, saving many lives and greatly contributing to our understanding of biology, physiology, and anatomy at multiple levels. However, these advances have also brought related questions about biomedical research's aims, scope, methods, and consequences. How have these advancements changed our understanding and treatment of disease and illness? Are there limits to what biomedical research should pursue? How are the needs of the present held in tension with the demands of the future? This course will examine these questions by drawing upon history, literature, and ethics to examine the growth and development of biomedical research and its effects, which continue to shape society's future direction.

**UNAS746101**  
**Human Rights Interdisciplinary Seminar**  
**KANSTROOM, DANIEL**  
**Spring 2020**  
The study of human rights defies disciplinary boundaries. This seminar, sponsored by the Center for Human Rights and International Justice (CHRIJ), provides a rare space to examine human rights from an interdisciplinary perspective. The seminar brings together faculty affiliated with the Center, students from across the university, visiting scholars, and guest speakers to examine issues of human rights and international justice. The spring 2020 seminar will begin with an overview and brief historical review of human rights instruments and then explore a series of complexities for those seeking to engage in human rights scholarship, advocacy, and activism. We seek to engage critically with human rights discourse and actions as they intersect with gender, culture/ethnicity, race, class, and other categorizations. More details on the 2020 seminar at https://www.bc.edu/content/bc-web/centers/chrij.academics/seminar.html.

**Credits:** 03  
**Schedule:** TH 2-4 20  
**Room:** CAMPION HALL 016  
**Satisfies Core Requirement:** None
Comments: Registration by permission only. The Center invites applications from students enrolled in a graduate professional degree in any of Boston College's divisions. Undergraduate seniors will be considered, space permitting. To apply, students must submit a brief statement (no longer than one page, single-spaced) to humanrights@bc.edu with the subject line "Human Rights Interdisciplinary Seminar application." Please include your Eagle ID and academic discipline in the application. The application deadline is Friday, November 5, 2019.

Christian Ethics Courses: Summer 2019

TMCE700801
Introduction to Catholic Social Ethics
POPE, STEPHEN J
Summer 2019
This course introduces the rich tradition of social ethics engaged explicitly by Leo XIII, Rerum novarum (1891), continued by his successors and bishops conferences, and enriched by theological reflection that continues today. Attention will be given to the principal documents (encyclicals, Gaudium et spes (1965), pastoral letters), and the contexts from which they emerged to gain facility in applying social analysis to contemporary concerns. Key themes to be studied: life and dignity of the human person, solidarity, social participation and the common good, the preferential option for the poor, and economic development and work, among others.

TMCE705201
Theological Bioethics: From the Basics to the Future
VICINI, ANDREA
Fall 2019
The Course addresses, first, the basics issues in bioethics focusing on the beginning of human life (reproductive technologies, prenatal diagnosis, abortion), biomedical research (transplantation, AIDS, genetic research, stem cell research), sustainability, and the end of human life (palliative care, vegetative state, euthanasia). Second, it discusses the bioethical concerns raised by developing biotechnologies (e.g., neurosciences, oncofertility, nanotechnology, cyborg technologies). By studying the current theological debate and the Catholic Magisterium, principles and theories will be highlighted aiming at supporting personal decision-making and pastoral service.

Virtue Ethics
DALY, DANIEL J
Fall 2019
This course introduces the emerging field of Christian virtue ethics. The course begins with a study of the theological and philosophical theories of virtue that have shaped contemporary Catholic and Protestant accounts of virtue. Attention is given to the relation of virtue theory and the virtues to: the Gospels and the life of Jesus; the Christian community; theological anthropology; human happiness; the natural law; and moral norms. The course also discusses the academic and pastoral uses of virtue ethics through the examination of contemporary cases in light of the virtues.

TMCE811701
Christian Ethics and Social Structures
DALY, DANIEL J
Fall 2019
This course examines the various ways in which Christian ethicists have addressed social structures, from the groundbreaking work of Latin American liberation theologians in the 1960s to today. The course emphasizes the necessity of understanding social realities (such as structure, culture, and the relation of structure and moral agency) in order produce normative claims regarding social evil and how persons should respond such evil. To that end, the course introduces students to prominent social theories, such as methodological individualism and critical realism. The course then turns to critical contemporary ethical problems, such as global warming and the exploitation of labor.

TMCE851801
Global Health and Theological Ethics
VICINI, ANDREA
Fall 2019
The course engages theological ethics in promoting global health as an urgent good and right that is integral to a vision of just society. Global health challenges (from HIV/AIDS to poverty and underdevelopment) are studied by highlighting international examples (from Asia, Africa, and the Americas) that help to identify the theological agenda and to implement it. Public health concerns and universal health coverage are part of this agenda worldwide. The course's theological analyses and proposals rely on Catholic and Protestant insights (from social doctrine to philosophical and theological bioethical discourse).

**TMCE700401**  
**The Moral Dimension of the Christian Life**  
**DALY, DANIEL J**

**Spring 2020**

This course provides a foundational and systematic overview of the basic components of Catholic moral theology. The content of the course is an exposition and analysis of topics traditionally treated under the heading of fundamental moral theology: moral character, moral freedom and its limits, the relationship of spirituality and morality, sin and conversion, conscience, the use of scripture in moral reasoning, natural law, the teaching authority of the church in moral matters, the development of moral norms, discernment and moral decision-making.

Health Care Ethics

DALY, DANIEL J

Spring 2020

This course explores contemporary Catholic health care ethics. The course begins by examining the sources, methods, and influential documents of the Catholic medical ethical tradition. The syllabus traces the development of the tradition from the sixteenth to the twenty-first century. Prominent secular approaches in the field are studied as well. The course then takes up: (1) clinical, case-based medical ethics; and, (2) ethics at the institutional level. Applied topics include: abortion; access to health care and the distribution of medical resources; end of life ethics; mergers among Catholic and non-Catholic health institutions; and international recruiting of health care workers.

TMHC801301
Ignatian Spirituality: Foundations, Traditions and Pastoral Applications
MOONEY, CATHERINE
Summer 2019
This course surveys the origins, traditions, and contemporary applications of Ignatian spirituality. We will systematically read and examine foundational works by Ignatius, including his Testament, Spiritual Diary and, especially, the Spiritual Exercises. We will explore the meaning of these texts in their historical context and in conversation with contemporary scholars and pastoral practitioners. In the course of class discussions and assignments, students will have the opportunity to arrive at their own interpretations of these classic texts and to explore ways to incorporate insights from Ignatian spirituality into ministerial and educational venues.

TMHC719501  
Classic Wisdom for Discerning the Spirits  
GEGER, BARTON T  
Fall 2019  
A study of the discernment of spirits in the ancient church, beginning with the Old and New Testaments, select Church Fathers, the Life of St. Anthony, the sayings of the desert fathers and mothers, and Evagrius Ponticus and John Cassian. For the purposes of showing their relevance for the present day, continuities with the "Spiritual Exercises" of St. Ignatius Loyola and "The Screwtape Letters" of C. S. Lewis will be considered.

**Pathways to God: Classic Texts on Prayer and Christian Mysticism**  
**MOONEY, CATHERINE**  
**Fall 2019**

This course explores the theological and pastoral dimensions of both classic texts and contemporary theological reflections on prayer and Christian mysticism. Texts are paired with specific topics, e.g., Benedict of Nursia (lectio divina); Francis of Assisi and Teilhard de Chardin (encountering God in the cosmos); Cloud of Unknowing (centering prayer), Ignatius of Loyola (discernment, consolations, desolations); Teresa of Avila (mystical phenomena); John of the Cross (dark night). Other topics include the Church’s public prayer, icons, embodied and performative prayer, the possibility of everyday mysticism, the relationship between prayer/mysticism and social justice. Theological reflections by, e.g., McGinn, Rahner, Ruffing, Boff.

**Seminar: Three Doctors of the Church: Catherine of Siena, Teresa of Avila, and Therese of Lisieux**

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/theology-ministry/history-christianity.html
MOONEY, CATHERINE
Fall 2019
Just three women have been designated Doctors of the Church. They were, variously, church reformers, subjects of inquisitions, founders of religious movements, counselors to prelates, spiritual directors, theologians, visionaries, mystics, religious nun or laywoman. We will examine how world events, ecclesiastical politics, and theological currents shaped and were shaped by their contributions. The course will examine their writings; how each women understood herself, the Church, and Christian life in their respective eras; how their contemporaries understood or misunderstood them; what motivated twentieth-century popes to declare them Doctors of the Church; and what they have to teach us today.

 tmhc714901
the jesuits in the modern church: innovations and struggles
brouillette, andre
spring 2020
since its inception in the sixteenth century, the society of jesus has emerged as a leading force in the catholic church, bringing about a new thrust in spirituality and religious life, and putting its imprint on education, culture, and theology. we will explore the history of the catholic church through the lens of the worldwide history of the jesuits from their foundation to our days. throughout this journey, we will encounter ignatius loyola, francis xavier, jean de brebeuf, mateo ricci, pedro arrupe, and pope francis, as well as the themes of inculturation, the arts, the social apostolate, and vatican ii.
TMHC717901
History of Western Christianity III: Catholicism from the French Revolution to Vatican II
VON ARX, JEFFREY
Spring 2020
What John O'Malley, S.J. calls the Church's "long nineteenth century," from the French revolution to the 1950's, although often considered a period of secularization, was also a great age of renewal for the Roman Catholic Church. It witnessed a tremendous institutional growth of the Church, the assertion of doctrinal and administrative control from Rome known as ultramontanism, the flowering of spirituality and devotional life, and the spread of the faith from Europe throughout the world by means of extensive missionary activity. This course will consider the institutional and intellectual transformation of the Church in the nineteenth century, but will also pay close attention to changes in popular piety and the social role of the Church. Focus will be both topical and regional.

TMHC718101
The Constitutions of the Society of Jesus
GEGER, BARTON T

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/theology-ministry/history-christianity.html
**Spring 2020**
Many writers describe the Jesuit Constitutions as an institutionalization of the dynamic, individual-centered spirituality found in the Spiritual Exercises of St. Ignatius. This course takes a different tack, approaching the Constitutions as an ideal key for unlocking a fuller and more accurate understanding of the saint's spiritual doctrine. Attention is given to classic rules and constitutions of earlier religious communities, as well as to certain principles of Aristotelian-Thomistic philosophy, both of which are essential for understanding the content of the Constitutions and its controversial novelties.

**TMHC850701**  
**Seminar: Early Christian Ethics**  
**CARDMAN, FRANCINE**  
**Spring 2020**  
An examination of major ethical themes and issues in early Christian life from the second through the sixth centuries (Apostolic Fathers through Gregory the Great). The goal of the seminar is to explore the range of approaches and sources for Christian ethics in this period through extensive reading and discussion of primary sources (homilies, letters, apologetic writings, ethical and theological treatises) and through seminar presentations. A final research paper allows for in-depth work on a particular figure or topic.

TMNT800501
Great Themes of the Bible
CLIFFORD, RICHARD J; MONNIG, MATTHEW S
Fall 2019
A survey of several key themes that emerge and re-emerge in the Christian Bible (encompassing both the Old and New Testaments). These themes include creation and eschatology; election and the nations; covenant and law; mediator/suffering servant; divine justice; sin and forgiveness; manifestations of God (e.g., Wisdom, Word, Spirit); Kingdom of God; and resurrection. This course serves as a good capstone course for M.T.S. and M.Div. students. Accommodations can be made for more advanced students.

TMNT808601
Second Temple Judaisms
HARKINS, ANGELA K
Fall 2019
This course surveys the diverse forms of Judaism that are present during the Second Temple period (519 BCE- 70 CE) in order to better understand the rich cultural and religious context from which Christianity and Rabbinic Judaism emerged. Topics that will be discussed include canonization; deuterocanon, rewritten Bible; prayer and ritual; Hellenistic Judaism; the Maccabean Period; Messianism; Purity/Impurity; Dead Sea Scrolls; Philo; Josephus; Paul and others.

**TMNT856001**
Seminar in Current New Testament Scholarship
MATTHEWS, CHRISTOPHER

**Fall 2019**
This seminar will engage in sustained critical examination of recent scholarly work that represents, or has the potential to become, ground-breaking for the discipline of New Testament studies. At the end of this course students will be able to comprehend and critically engage scholarly work of the highest quality in the disciplinary field.

**Credits:** 03
**Schedule:** T 4-6
**Room:** None
**Satisfies Core Requirement:** None
**Comments:** None
**Prerequisites:** MTS or equivalent, with significant work in biblical studies. The course is appropriate for doctoral students, STL and ThM students concentrating in biblical studies, and other advanced graduate students with completed courses in biblical studies and contemplating additional advanced study (e.g., second-year MTS students).

Corequisites: None
Cross-listed with: None
Frequency: Periodically

TMNT200301
New Testament Greek II
KAKAVAS, MARIA
Spring 2020
The main objective of the course is to be able to read the New Testament in the original. This is the second part of the two semester course where we will finish all Croy’s lessons, provided that a good understanding and working knowledge of the material has been attained. We will cover a chapter every two class meetings and the third meeting we will have a review, a quiz and may introduce a new chapter depending on the progress. The students will be expected to master the basic grammar and most common vocabulary of the New Testament Greek, complete all assignments on time and participate actively in class.

Credits: 03
Schedule: M 3 30*
Room: None
Satisfies Core Requirement: None
Comments: In order to enroll in this course, a student must have previously completed New Testament Greek I.
Prerequisites: TMNT2002. With permission of the Instructor.

TMNT701301
Acts of the Apostles
MATTHEWS, CHRISTOPHER
Spring 2020
An exegetical analysis of Luke's narrative of the birth and growth of the early church and its key theological themes (e.g., God, Jesus, the Holy Spirit, the twelve apostles, Jerusalem, the church, Jews and Christians, the Gentiles, Christology, eschatology, mission, salvation history). The treatment will proceed with particular attention to the Gospel of Luke, the genre and purpose(s) of Luke's second book, and the life setting of the Lukan author and audience.

TMNT807701
Prayer and Ritual in the Biblical World
HARKINS, ANGELA K
Spring 2020
This course will examine the experiential elements of prayers and ritual practices described in the canonical Scriptures with some consideration of the literature outside of the Bible (e.g., the Dead Sea Scrolls and pseudepigrapha, ANE, Hellenistic ritual texts). Methodological approaches that understand the body and its experiences as an integrated whole (e.g., ritual studies, cognitive science of religion, emotion studies, and performance studies) will assist us in pursuing the question of how does the embodied experience of prayer and ritual participate in the generation of religious ideas (belief) and commitment?

TMOT809801
Prophets
DAVIS, ANDREW R
Summer 2019
This course provides a historical, literary and theological overview of the prophets and the prophetic books in the Hebrew Bible. Although we will look at the Former Prophets, most of the class will focus on the Latter (Writing) Prophets. When possible, we will read prophetic books in their entirety, but for longer books we will read selected texts. By the end of this course I hope that you will better appreciate the rich diversity of form, style and theology we find in the prophetic books.

Credits: 03
Schedule: M W 5 45-9
Room: SIMBOLI HALL 100
Satisfies Core Requirement: None
Comments: This course will be offered summer 2019, June 14-July 11 (Monday-Thursday) from 5:45-9:00 p.m. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage:

TMOT701401
The Core Narrative of the Old Testament: Genesis to Kings
DAVIS, ANDREW R
Fall 2019
A study of the Pentateuch and the Deuteronomistic History (Deuteronomy to Kings) through lectures, and sections in which students present an exegesis of important passages. Solid knowledge of these books is essential to understand the rest of the Bible. This course does not duplicate other introductions, for we read only Genesis through Kings (not the Prophets, Wisdom Literature, or Psalms), and a third of the class time is devoted to small sections, which are designed to sharpen exegetical and preaching skills.

The Psalms: Prayer of Israel, Prayer of Christians

SIMONE, MICHAEL

Fall 2019

From ancient times to the present, the Book of Psalms has held a central role both in expressing and in shaping the faith experience of Jews and Christians. This course investigates the Book of Psalms with some attention to similar literary material from other OT and NT books and from other ancient Near Eastern sources. It will consider issues of genre, poetic features and structure, theological themes, and dramatic logic. The course will also examine how psalms function in Christian spirituality, both in the liturgy (considering the lectionary for Mass and the liturgy of the hours) and in personal prayer.

Credits: 03
Schedule: TH 9 30-11 30
Room: SIMBOLI HALL 130
Satisfies Core Requirement: None
Comments: None
Prerequisites: No prerequisites, but TMOT7014 The Basic Narrative of the Old Testament: Genesis to Kings is highly recommended.
Corequisites: None
Cross-listed with: None
Frequency: Periodically
Besides containing some of the Bible's most beautiful poetry, the Book of Isaiah is an important witness to periods of tremendous upheaval in Israel's history. This course will examine the book from a range of perspectives--literary, historical, and especially theological. We will consider how First, Second, and Third Isaiah make theological sense of difficult times and help later readers, including us, do the same.

**Credits**: 03  
**Schedule**: T 9 30-11 50  
**Room**: SIMBOLI HALL 130  
**Satisfies Core Requirement**: None

Job and Suffering
DAVIS, ANDREW R
Spring 2020
This course examines how the Hebrew Bible addresses questions around human suffering. After surveying different biblical perspectives, we will immerse ourselves in the Book of Job, in which Job and his friends (and, ultimately, YHWH) consider the meaning of Job?s suffering. While this course is primarily interested in the theologies of the Book of Job, we will also take into account the book?s literary artistry, redaction history and historical context. By the end of this course I hope you will have a better understanding of this important book, which is as timeless, complex, and inexhaustible as the mystery it contemplates.

Pastoral Studies Courses: Summer 2019

TMPS700601
Grief and Loss
KELLEY, MELISSA M
Summer 2019
Grief may be understood as the response to a significant loss. We will explore pastoral, theological, religious, and secular perspectives on grief and loss and seek to integrate these perspectives where appropriate. We'll consider important new research in thanatology and review traditional psychological theories of grief in light of contemporary critiques. We will explore the experience of grief in light of context and culture and consider which features may be universal. We will attend to often unrecognized dimensions of grief—disenfranchised grief and the grief born of injustice. We'll focus on how to respond pastorally to grieving individuals and communities.

TMPS708001
Spiritual Formation for Ministry
QUINN, BARBARA; REGAN, JACQUELINE
Summer 2019
This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program. Summer 2019 meeting dates are: June 25, June 27, July 1, July 3, July 8 and July 11, from 2:00-4:00 p.m.

TMPS714301
Mapping Campus Ministry: Culture, Person, and Strategy
O'KEEFE, THERESA A
Summer 2019
The course and conference are an opportunity for those working in Catholic college campus ministry to gain perspective on the enduring cultures in the higher education setting. Through a lens of a Catholic theological anthropology, an interdisciplinary faculty from Boston College will: offer an overview of higher education to help make sense of cultures seen on campuses; an analysis of cultural practices (e.g., hooking up, binge drinking, competition, and high anxiety); suggest a Christian vision of personhood and relationality; and create a space wherein participants can strategize how they might develop a culture of relational personhood on their own campus.

Credits: 01
Schedule: JUL 08 - JUL 11
Room: None
Satisfies Core Requirement: None
Comments: This summer 2019 Conference Week course will meet July 8-11 from 8:45-11:45 a.m. There will also be afternoon workshops (Monday-Wednesday) from 2:00-4:00 p.m. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. TMPS718401
Integrating Multi-Cultural Competencies in Pastoral Care and Counseling
ROOZEBOOM, WILLIAM D
Summer 2019
Each human being is multilayered, complex, and culturally embedded. In other words, each person is like all others at a universal level (as a human being), like some others at a communal level (as a member of larger groups such as race and gender), and like no other at a personal level (unique and particular). To be ethical and effective, practices of pastoral care and counseling must be integrative and attend to all three layers of identity (universal, communal, and personal) and be mindful of contextuality and particularity. Therefore, this course presents an approach of cultural and contextual awareness and analysis to enrich practices of pastoral care and counseling. Emphasis is given to one's ability to examine the influences of culture norms and values, power dynamics, self-awareness, and issues of relational justice. Students will learn to deconstruct culturally informed value-laden biases in one's own culture and reconstruct just, multi-culturally competent ways of providing pastoral care in diverse contexts with culturally diverse populations.

**Credits:** 03  
**Schedule:** JUL 15 - AUG 01  
**Room:** None  
**Satisfies Core Requirement:** None  
**Comments:** This is an interdisciplinary and integrative course and meets the integrative course requirement for dual-degree students. This course will meet summer 2019, July 15-August 1 (Monday-Thursday) from 6:00-9:00 p.m. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage: www.bc.edu/bc-web/schools/stm/academics/summer-at-stm.

**TMPS719801**  
**Singing Theology: How Liturgical Music Shapes What We Believe**  
**BALDOVIN, JOHN**  
**Summer 2019**
Singing in church is one of the most effective pastoral tools at our disposal. This module will explore what is sung in Catholic churches and what can be sung. The work of a number of contemporary hymn composers will be studied: Sylvia Dunstan, Delores Dufner, Brian Wren, Carl Daw, Shirley Erena Murray, Ruth Duck, Adam Tice and others. Attention will also be paid to the inclusion of African American and Latino music in American Catholic worship.

**Credits:** 01  
**Schedule:** M W 6-9  
**Room:** SIMBOLI HALL 110  
**Satisfies Core Requirement:** None  
**Comments:** This one-credit course meets July 15-July 18, 2019 from 6:00-9:00 p.m. This counts as a M.Div. module course. Students may not enroll in this course for audit status. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. **Canon Law for Pastoral Ministers**

**JARRELL, LYNN; REYNOLDS, NANCY**

**Summer 2019**

This course is a general introduction to canon law. The following topics will be covered: an overview of general norms, the rights and obligations of all the members of the Church, the key structures in the Universal Church and in the Particular Church (archdiocese and diocese), Parish Life, the sacramental office of the Church, marriage law, an introduction to tribunals and the annulment/dissolution processes. Emphasis will be placed on the pastoral aspect of canon law. The goals are for students to leave the class knowing where to find answers to canonical questions and a healthy respect for the law.

**Credits:** 03  
**Schedule:** M W 5 45-9  
**Room:** SIMBOLI HALL 135  
**Satisfies Core Requirement:** None
Comments: This summer 2019 course will be offered June 24-July 11 (Monday-Thursday) from 5:45-9:00 p.m. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. TMPS800703
Contextual Education
O'KEEFE, THERESA A
Summer 2019
This is the supervised ministry requirement of the MATM and MAPM, completed in the later in the degree. It is composed of three elements: work at a supervised ministry site; supervision; and participation in the classroom component (on-campus or online). The experience continues across both fall and spring semesters. Ministry sites and supervisors must be investigated and established prior to the beginning the experience. Therefore, prior to registration, students need to contact the Faculty Director of Contextual Education to initiate the placement process.

Credits: 02
Schedule: M T 2-4 30
Room: SIMBOLI HALL 135
Satisfies Core Requirement: None
Comments: Students in the MAPM should register for TMPS800703 for 2-credits summer 2019. Students in the MATM Hybrid should register for TMPS800702 for the fall and spring semesters. Students in the MATM on-campus should register for TMPS800701 for the fall and spring semesters.

TMPS851501
Advanced Professional Ministry Practicum
WEISS, JOSEPH E

Summer 2019

The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

Credits: 06
Schedule: BY ARRANGEMENT
Room: None
Satisfies Core Requirement: None
Comments: Students must obtain permission from the professor to enroll in this course.
Prerequisites: Completion of the Professional Ministry Practicum.

Pastoral Studies Courses: Fall 2019

TMPS701801
Death and Dying
KELLEY, MELISSA M
Fall 2019
The study of death and dying is a complex, multidimensional, and evolving field. This course draws on contemporary theory and research to explore death and dying from multiple perspectives, including religious, theological, pastoral, and psychological. Topics include societal attitudes toward death; facing one's own death; cultural features of death and dying; end-of-life issues; children and death; funerals and the use of ritual in ministry to the dying; pastoral sensitivities and skills for ministering to the dying; and pressing contemporary concerns, such as death in the workplace, institutional death, violent death, and death in global perspective.

TMPS704101
The Practice of Ministry with Youth and Young Adults
O'KEEFE, THERESA A
Fall 2019
This course aims to explore elements critical to the effective practice of ministry for and with youth and young adults. Considering the broad demographics herein, this class attends to fostering the skills of discernment and mentoring, which would be valuable across the spectrum of these varied constituencies and contexts. Together the class explores the contexts of the ministry (ecclesial and social), identifies a vision for the work, and considers how that vision might assist in discerning God's action in and direction for work with youth and young adults.

**Spiritual Formation for Ministry**
ROSSI, RICHARD O; QUINN, BARBARA

Fall 2019

This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program. Summer 2019 meeting dates are: June 25, June 27, July 1, July 3, July 8 and July 11, from 2:00-4:00 p.m.

TMPS709001
Ministry in a Diverse Church: Latino Perspectives and Beyond
OSPINO, HOSFFMAN
Fall 2019
Catholicism in the United States is presently shaped by rich cultural traditions that demand creative approaches to ministry in the midst of diversity. Nearly 45% of all Catholics in the country are Hispanic, 40% Euro-American, 4% Asian-American, 3.7% African-American, among others. Students in this course explore key questions and discuss ministerial strategies that will help them develop cultural competencies for effective ministry today. The course builds on the U.S. Latino/a Catholic experience as a case study while addressing core issues in ministry that affect everyone in the Church. Ecumenical and international perspectives are welcomed into this conversation.

TMPS709301
Introduction to Pastoral Care and Counseling: A Narrative Approach
KELLEY, MELISSA M
Fall 2019
In this foundational course, we develop an understanding of critical dimensions of competent and compassionate pastoral care and counseling today. This course has four primary foci. First, we consider theoretical perspectives that may ground this large ministerial field. Second, we study concrete methods and skills for effective pastoral care. Third, we examine some challenging realities to which all pastoral caregivers must respond at some point, including domestic violence, grief and loss, and suicide. Finally, we consider the person of the pastoral caregiver, including the necessity of resilience in ministry and next steps in developing as a pastoral caregiver. Throughout the course, we explore pastoral care/counseling from contemporary theological, psychological, and cultural perspectives. We also consider the specific roles and possible strategies of the pastoral caregiver and the faith community in supporting individuals and communities as they harness strengths and resources to negotiate challenges and create or maintain stability and well-being. This course includes lecture, readings, discussion, and exercises.

**Credits:** 03  
**Schedule:** F 9-12  
**Room:** SIMBOLI HALL 135

TMPS718201
Pastoral Care in/with Communities of Faith: Creating Networks of Care
ROOZEBOOM, WILLIAM D
Fall 2019
Life is in inherently relational, multidimensional, interconnected, and located within larger systems and structures - i.e., communities. Thus, our practices of pastoral care and counseling must likewise attend to the multidimensional and systemic nature of relationality. This course uses an interdisciplinary approach to explore personal, pastoral, and communal processes of creating networks of care in communities of faith and para-church organizations. Both pastoral and lay leaders will learn how to engage and utilize systems theory, conflict theory, therapeutic skills and processes, and theological and spiritual resources to navigate conflict, foster dialogue, and build constructive solutions and possibilities in community as part of an overarching practice of pastoral care. Particular attention will be given to one's self-in-relationship and the capacity to remain a non-anxious, non-reactive constructive presence.

TMPS720701
Professional Ministry Practicum
WEISS, JOSEPH E
Fall 2019
The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

PONZONE, ANDREA
Fall 2019
This course examines the nature, history, and sources of Canon Law in the Catholic Church. It presents an overview of the norms provided in the 1983 Code of Canon Law concerning general norms (Book I), the People of God (Book II), the teaching munus of the Church (Book III), temporal goods (Book V), and, more briefly, penal law (Book VI) and processes (Book VII). Relevant legislation promulgated after the CJC and comparison with selected norms of the 1990 Code of Canons of the Eastern Churches are included for a complete understanding of the subject.

TMPS851501
Advanced Professional Ministry Practicum
WEISS, JOSEPH E
Fall 2019
The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

Pastoral Studies Courses: Spring 2020

TMPS700601
Grief and Loss
KELLEY, MELISSA M
Spring 2020
Grief may be understood as the response to a significant loss. We will explore pastoral, theological, religious, and secular perspectives on grief and loss and seek to integrate these perspectives where appropriate. We'll consider important new research in thanatology and review traditional psychological theories of grief in light of contemporary critiques. We will explore the experience of grief in light of context and culture and consider which features may be universal. We will attend to often unrecognized dimensions of grief—disenfranchised grief and the grief born of injustice. We'll focus on how to respond pastorally to grieving individuals and communities.

**Credits:** 03  
**Schedule:** F 1-4  
**Room:** SIMBOLI 130  
**Satisfies Core Requirement:** None  
**Comments:** This course will be offered summer 2019, July 15-August 1 (Monday-Thursday) from 8:45-11:45 am. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage: www.bc.edu/bc-web/schools/stm/academics/summer-at-stm. This course will also be offered in spring 2020.

**TMPS707801**  
**Pastoral Care of the Family**  
**KELLEY, MELISSA M**  
**Spring 2020**

This course presents specific topics that are important for effective and compassionate pastoral care of families today. We will examine challenging realities that may shape and/or disturb families and lead members to seek pastoral care, such as domestic violence, substance abuse, imprisonment of a family member, grief and loss, and family caregiver stress. We will consider the specific needs of families affected by injustices and harsh difficulties such as poverty and immigrant/refugee status. We will consider the specific roles and strategies of the pastoral caregiver and the faith community in helping families to negotiate challenges and create stability and well-being.

TMPS708001
Spiritual Formation for Ministry
ROSSI, RICHARD O; QUINN, BARBARA
Spring 2020
This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program. Summer 2019 meeting dates are: June 25, June 27, July 1, July 3, July 8 and July 11, from 2:00-4:00 p.m.

TMPS718701
M.Div. Spiritual Formation
QUINN, BARBARA
Spring 2020
All M.Div. students participate in a one-credit comprehensive program of formation that expresses the STM's commitment to the formation of the whole person for effective ministry. Students who are members of religious orders or candidates for ordination fulfill the one-credit requirement for formation by participating in the formation programs required by their religious orders or diocese. Lay students are required to complete the seven components of the one-credit program that follow over the course of three years.

Credits: 01
Schedule: BY ARRANGEMENT

TMPS719701
Building Intercultural Competence
PALAZZI VON BUREN, FELIX J
Spring 2020
Theology and Pastoral Ministry today encompasses to understand the processes of evangelization of peoples and their cultures, not only from the multicultural recognition, but from a genuine evangelical interculturality. Therefore, the goal of this course is to offer a systematic and global reflection on the intercultural competence as a theological and pastoral challenge that will help us to understand, preserve and deepen our cultural identities as members of a faith community. Catholic faith and identity is always embodied in cultures. Hence, the course will consider ways to develop appropriate attitudes and skills to carry out the Church's mission to Evangelize from an intercultural approach.

TMPS720701
Professional Ministry Practicum
WEISS, JOSEPH E
Spring 2020
The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

TMPS808801
Calling out from the Depths: Jewish and Christian Interpretations of the Psalms
DAVIS, ANDREW R; ROSE, OR
Spring 2020
For centuries, Jews and Christians have turned to the Book of Psalms in times of joy and thanksgiving, and in times of sadness and lament. However, there have been far fewer opportunities for members of these two communities and others to explore these ancient poetic texts together as fellow spiritual seekers. What do we share in common? Where do we differ? How might reading these sources with people with different religious or ideological commitments impact our relationship with the text?

Credits: 01
Schedule: WED 4:30-6:30 PM
Room: None
Satisifies Core Requirement: None

Comments: STM Module Course. This course will meet the following Wednesdays from 4:30-6:30 p.m., at Hebrew College: February 12, 19 and 26, March 18, April 1 and 22. There will also be 3 one-hour meetings of just STM students at the STM. Dates TBD.

Prerequisites: At least one course in Biblical Studies and one course in Theology. Pre-requisites can be taken at the undergraduate or graduate level.

TMPS812201

Canon Law of the Sacraments

PONZONE, ANDREA

Spring 2020

This course examines Book IV of the 1983 Code of Canon Law, the sanctifying munus of the Church. It presents a canonical study of the Sacraments of the Catholic Church, other Acts of Divine Worship, and Sacred Places and Times. Special emphasis is placed on the Sacrament of Marriage, not only on substantive norms (cann. 1055 ? 1165) but also on Book VII as regards the Process for Declaration of Marriage Nullity. A comparison with selected norms of the 1990 Code of Canons of the Eastern Churches will highlight some specificities of Sacramental Law of the Eastern Catholic Churches.

Credits: 03

Schedule: T 3-5 30

Room: SIMBOLI HALL 130

Satisifies Core Requirement: None

Comments: Students who have not completed an introductory course in Canon Law are required (prior to the beginning of the course) to submit a preliminary essay to the instructor demonstrating basic knowledge and appropriation of the essential elements of the Code of Canon Law and insights from the work of Martin De Agar, Joseph T., A Handbook on Canon Law (Wilson and Lafluer, 2007).

Prerequisites: One year of graduate level theology required; recommended, Introduction to Canon Law (TMPS8121), or equivalent.

TMRE715501  
Catholic Higher Education Administration & Leadership  
JAMES, MICHAEL J  
Summer 2019  
This course explores contemporary issues, organizational and governance structures and distinct characteristics of successful Mission leadership for administrators at Catholic Colleges and Universities focusing on effective campus policy development, strategic planning, and assessment. Students will engage research, historical literature, Church documents, lectures and group exercises. A unique component to this course is participation in the Institute for Administrators in Catholic Higher Education (IACHE) - a four-day seminar for senior administrators and leaders in Catholic higher education where internationally recognized scholars and practitioners address the challenges and opportunities that Catholic higher education faces on a daily basis.

**TMRE721201**  
**Fostering Faith through Communities of Practice**  
**REGAN, JANE**  
**Summer 2019**

The journey of a disciple can be thought of as an apprenticeship; that is, we learn how to be disciples by being disciples in relationship with others who are working to put their discipleship into practice as well. Drawing on the concept of "communities of practice," this one week course examines the notion of situated learning, outlines the elements of communities of practice, and makes proposals for the pastoral implementation of this concept within parishes and Catholic schools.

**Credits:** 01  
**Schedule:** JUL 08 - JUL 11  
**Room:** None  
**Satisfies Core Requirement:** None  
**Comments:** This one-credit MODULE course will be offered summer 2019, July 8-11 (Monday-Thursday) from 6:00-9:00 p.m. Students are not allowed to enroll in this course for audit status. This course counts as a M.Div. module. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. **TMRE721301**  
**Youth and Justice: In and Beyond the Classroom**  
**WELCH, CHRISTOPHER J**  
**Summer 2019**
This practical module engages practitioners who work with youth in classroom, parish, and other ministerial settings. In a collaborative environment, participants will consider the Church’s mandate to educate for justice given the developmental capacities of youth in the particular sociocultural contexts in which they minister, especially the consumerist and digital milieu of contemporary society. Participants will focus not simply on teaching youth the content of the Church’s rich tradition of social justice, but will also consider how best to engage youth in the reflective and formative practices of justice in the settings in which they find themselves. Participants will add elements to their own philosophies of educating for justice and will develop tools to use in their own educational and ministerial settings.

**Credits:** 01

**Schedule:** M W 6-9

**Room:** SIMBOLI HALL 130

**Satisfies Core Requirement:** None

Institute for Administrators/Catholic Higher Ed

JAMES, MICHAEL J

Summer 2019
Each July, the Institute for Administrators in Catholic Higher Education hosts a five-day seminar providing a singular opportunity for administrators and leaders at Catholic colleges and universities around the globe to interact with some of the nation's most outstanding scholars and practitioners as they address issues that Catholic higher education faces on a daily basis. The seminar is designed to serve administrative leaders such as presidents, provosts, vice-presidents, deans, mission officers, major program directors, and others in positions responsible for institutional mission and identity. For more information, please visit the website: https://www.bc.edu/bc-web/schools/lynch-school/sites/iache.html.

TMRE807501
Teaching Theology and Religion: Fundamental Questions
OSPINO, HOSFFMAN
Summer 2019

Teaching theology/religion is more than a mere occupation or an addendum to the many tasks in a theologian's busy schedule. It is a calling and an art. Yes, the art of intentionally engaging in constructive dialogue in particular educational settings about people's experience of the sacred and the encounter with the divine in the everyday. It is imperative that it be done well. This course is a reflective exercise on the act of teaching theology/religion and its pedagogical implications. The course explores fundamental questions such as the conditions of possibility of teaching about God and the sacred, the vocation of the theological educator, the relationship of the scholar of religion to a faith tradition, and the socio-cultural dynamics shaping theological education, among others. The course welcomes students who are planning on teaching theology/religion as an academic subject.

TMRE707301
Adult Believers in a Postmodern Context
REGAN, JANE
Fall 2019
What are the dynamics that make adults ready and able to live effectively as people of faith in our contemporary postmodern context? What does it mean to be a believer in such a context and how are adults supported in the maturity of faith? Theology, psychology, and education theory all have a contribution to make in addressing these questions. Focused consideration is given to contemporary theories in adult development and adult learning. Attention is given to the implications of this for the parish/congregation, but broader applications are also considered.

Religion and Higher Education
JAMES, MICHAEL J
Fall 2019
Faith, religion, and spirituality have become topics of increasing interest for scholars and practitioners in higher education administration and student personnel development. This course explores the historical, sociological, and cultural dynamics between religion and higher education. Topics include secularism, modernity, and challenges to the integration of faith and intellectual life. Additional topics include: religious pluralism; religion in secular higher education; legal issues surrounding religion and higher education; academic freedom; constitutional matters; modernism, post-modernism, post-secularism and the tensions and opportunities that these cultural/intellectual movements pose for religion and higher learning in a modern, democratic, pluralistic society.

TMRE700001
Contemporary Approaches to Religious Education
REGAN, JANE
Spring 2020
The task of forming a people of faith is the challenge each generation must embrace. Beginning with an understanding of theological reflection, this course weaves the elements of religious education with their theological foundation: What is practical theology? Who is the learner? How do we understand tradition(ing)? What place does conversation have in our ecclesiology? How do we educate for lived faith? These theological elements are then integrate with the practical elements of forming faith today. Appropriate for those engaged in parish ministry and those intending to teach at the high school level or adults.

TMRE708301
Education for Justice and Peace
O'KEEFE, THERESA A
Spring 2020
In this course, students study and practice initiatives that work for understanding, justice, and peace. Recognizing that much injustice happens across some divide, the course begins with an investigation of our experiences of otherness and connection. We consider how cultural narratives undergird our sense of identity and purpose, and investigate them theologically. We look to educational theorists from the early twentieth century to the present, who reflect that education itself is a work of justice. The course culminated with group projects that give students an opportunity for speaking and listening across divides for the sake of understanding and justice.

Catholic Higher Education
JAMES, MICHAEL J
Spring 2020
This course offers an historical and philosophical overview of Catholic higher education, a survey of current scholarship and related Church documents, and an examination of the role of Catholic higher education - particularly in the U.S. - and its relationship with the Church, contemporary academic culture, and the broader society. This course also engages students in an analysis of contemporary issues facing Catholic higher education particularly, faith and reason, the Catholic intellectual tradition, Catholic social thought, governance and leadership models, student development, and institutional mission, identity, and culture.

Systemic and Historical Theology Courses: Summer 2019

TMST200801
Introductory Latin: Summer Intensive
HARKINS, FRANKLIN T
Summer 2019
This elementary course in Latin presumes no prior study of the language. Basic principles of Latin phonology, morphology and syntax will be treated in classes and reinforced by regular homework exercises and their review in class. Emphasis will be placed on the vocabulary that is appropriate to the various theological disciplines. This course is highly intensive and requires significant weekly work and a fair measure of independent learning. Students will be expected to master the basic grammar and most common vocabulary.

**Keys to the Council: The Church and Vatican II**

**GAILLARDETZ, RICHARD R**

**Summer 2019**

The Second Vatican Council was arguably the most significant ecclesial event for Roman Catholicism in the last four centuries. Although 'Vatican II' has become a staple of contemporary church lingo, few who invoke it (including many bishops and theologians!) seem to have really grasped what happened at that council and what its consequences are for the life of the church today. This course will study the Second Vatican Council as both a seminal ecclesial event and as a source for a revitalized vision of the church for the third millennium.

Sacraments in the Life of the Church  
BERGIN, WILLIAM N  
Summer 2019

After exploring sacrament in its broadest sense, the meaning of sacramentality, and other fundamental elements of Roman Catholic sacramental theology, we will examine each sacrament both in its role in the life of the church as well as its role in each individual's faith journey. We will address historical background and contemporary issues about the Sacraments of Initiation, Baptism, Confirmation and Eucharist, the Sacraments of Healing, Reconciliation and the Sacrament of the Sick; and Sacraments at the Service of Communion, Marriage and Holy Orders.

Theology of the People in the Teaching of Pope Francis
LUCIANI, RAFAEL F
Summer 2019
This seminar explores the connection between Pope Francis? theological-pastoral options and the "theology of the people," which is a type of Latin American liberation theology. We will demonstrate how Francis consistently enlists a theological method that understands pastoral ministry and academic theology as a unity that takes as its focus of reflection the culture of the poor. Using an integrated historical, theological, and pastoral approach, we will examine concepts such as "people," "option for the poor," ?popular pastoral," and the "mystic of living together." We will also study how these concepts can be understood in other contexts beyond Latin American.

TMST705101
Development of Christological Doctrine
DUNKLE SJ, BRIAN P

Fall 2019
Jesus' question to his disciples, "Who do you say that I am?" (Mk 8:29) received a definitive response in Church doctrine only through a long and tumultuous process of development. In seeking to formulate our own responses to this question, we need to appropriate the contents of this process. The project of this course is to integrate contemporary questions with those that generated the development of christological doctrine so that we may delve deeper into the mystery of the human-divine identity of Jesus Christ.

Ignatius the Theologian: An Introduction to Ignatian Spirituality
BROUILLETTE, ANDRE
Fall 2019
Ignatius Loyola did not write theological treatises, but his experience of God and its practical implications in his life and that of others reveal in his writings a coherent theological vision. Through the study of Ignatius' works (Spiritual Exercises, Diary, Autobiography, Constitutions, Letters), and the works of later Ignatian spiritual authors and theologians (e.g., Rahner, Cusson, Barry, Arrupe), we will unravel key theological themes operative within Ignatian spirituality.

**TMST716701**  
Thinking Theologically for a Diverse Church and Society  
PINEDA-MADRID, NANCY  
Fall 2019  
In recent decades, the Catholic Church in the United States has become much more conscious of its ethnic diversity, particularly more aware of the long significant and now increasing presence of Latina/o Catholics; the deep abiding roots of African American Catholics; the presence of widely diverse Asian-American Catholics as well as the faith of this country’s First Peoples. The theologies emergent from these groups bring enormous insight calling all Catholic faithful to a more authentic living of catholicity as a mark of the church. This course serves as an introduction to the distinct theologies emergent from these various groups and gives each student the opportunity to consider how each theological discourse enriches Church and Society in the U.S.
TMST719301
Sacraments: Theology and Practice
BALDOVIN, JOHN
Fall 2019
This course will be a basic introduction to sacramental theology and pastoral practice geared toward the sacraments requirement for MA students. It will cover basic and general issues like the nature of sacraments in general and the nature and function of ritual and symbol. Each of the Church's seven sacraments will be dealt with from a number of perspectives e.g., feminist and liberationist. Students will be expected to do a "live" analysis of a Eucharistic liturgy as well as one other sacramental liturgy.

TMST801101  
**Creation and Eschatology**  
PALAZZI VON BUREN, FELIX J  
**Fall 2019**  
How does Christian faith invites us to imagine the relationship between "this world" and "the world to come"? How does that affect the way we live and work in the world? This course explores key biblical texts, Christian doctrine, and contemporary theologies. Special attention is given to the relationship between religion and science, especially biblical hermeneutics; evolution and theology; death, judgment, heaven, and hell; the significance of Christian faith in bodily resurrection; and the biblical and theological basis for concern for the environment and a creation-centered spirituality.

TMST802101  
Priesthood: Theology and Praxis  
WEISS, JOSEPH E  
Fall 2019  
This Level Two course is open to all students and focuses on ordained ministry of the Roman Catholic priesthood in terms of its biblical and theological foundations, historical development, contemporary issues, pastoral practice, and priestly spirituality, especially as treated in the pertinent ecclesial documents. Also treated are the cooperation between laity and clergy and the roles of lay ecclesial ministry as well as both tensions and critiques arising out of the Church's reservation of the priesthood to males and mandatory celibacy. Ecclesiology is a prerequisite for counting this course for the Ecclesial Ministry requirement in the M.Div. curriculum.

TMST804301
Historical Spiritual Classics in Theological Perspective
GRIFFITH, COLLEEN M
Fall 2019
This course will survey historical classics, examining the generative themes that are suggestive for our time and foundational in the construction of a contemporary spirituality. Authors will include Augustine, Benedict, Francis and Clare of Assisi, Julian of Norwich, Catherine of Genoa, Ignatius of Loyola, Teresa of Avila, and John of the Cross. Thematic questions will be brought to the reading of core texts.

TMST808501
The Christology of Thomas Aquinas
HARKINS, FRANKLIN T
Fall 2019

This course provides an introduction to the Christology of Thomas Aquinas (1225-1274) primarily as set forth in the Summa theologiae. Through close reading of IIIa qq. 1-59 in English translation, we will consider Aquinas's teaching on the Incarnation and Christ's life and work. The sacraments as extensions of Christ's saving work throughout time and space will also be examined. Primary sources will be supplemented by modern scholarship on various aspects of Aquinas's Christology. Throughout the course we will attend particularly to Aquinas's sources and working method as a scholastic theologian.

TMST810701
Mariology
GUIDER, MARGARET E
Fall 2019
How are we to account for the upsurge in interest regarding Mary both within and beyond Christian churches around the world? Mindful of this question, the course surveys the origins and development of Marian doctrine and devotion using a fourfold method of theological inquiry (dogmatic, historical, social scientific, aesthetic). Conscious of the interactive dynamics of religion, culture, politics, and social change, the course examines selected themes, claims, and controversies that pertain to the contemporary study of Mary. The course also explores the significance of Marian art, music, literature, film, and sites of pilgrimage for spirituality and theological imagination.

TMST811001
The Mystery of the Trinity
LUCIANI, RAFAEL F
Fall 2019
The course will offer the Scriptural sources, the dogmatic development and the works of contemporary theologians that have contributed to the Church's reflection on God, One and Triune, as revealed through the life and praxis of Jesus of Nazareth. This fundamental path will permit us to offer a systematic Trinitarian theology of God as Mystery of salvation and liberation of all.

Credits: 03
Schedule: T 6 30-9
Room: None
Satisfies Core Requirement: None
Comments: Prerequisite: One course in Christology
Prerequisites: None
Corequisites: None

TMST811401
Intermediate Latin Readings
HARKINS, FRANKLIN T
Fall 2019
This course seeks to develop proficiency in reading Latin beyond the basics of syntax and grammar learned at the introductory level. Latin texts considered in the course will be theological in nature and drawn from the ancient, medieval, and/or early-modern period of the history of Christianity. Presently the STM offers no course beyond the Summer Intensive Latin introduction for students seeking to develop their facility with the language further. The course would be especially useful for students planning to apply to doctoral programs in the History of Christianity and Systematic Theology.
Credits: 03
Schedule: TH 9 30-11 50
Room: SIMBOLI HALL 300
Satisfies Core Requirement: None
Comments: None
Prerequisites: Students must have at least one year (two semesters) of coursework in Latin language or its equivalent. The Summer Intensive Latin course, for example, would meet the requirement of this prerequisite.
Corequisites: None
Cross-listed with: None
Frequency: Periodically

TMST811501
Theology of Liberation
VALIENTE, ORFILIO E
Fall 2019
Latin American liberation theology traces its origins to the grassroots Christian communities that struggled for social justice in the 1960s. This course explores the distinctive way in which Latin American liberation theologians correlate their interpretation of their social context with the Christian tradition and praxis in a mutually-critical manner. We will critically examine their fundamental presuppositions, their contribution to theology, and their efforts to articulate the Christian message as an effective response against oppression and on behalf of a full human liberation. We will also incorporate some of the liberationist voices that emerge from other social and cultural situations.

TMST854801
Tradition
LENNAN, RICHARD J
Fall 2019
This seminar examines a prominent theme in Catholic theology. The seminar will chart the shifts in theologies of tradition through the nineteenth and twentieth centuries. There will also be a focus on contemporary theologies of tradition, as well as feminist and other critiques of tradition. The initial focus will be on interpretations of tradition from the period before Vatican II (Newman, Blondel, Congar, and Ratzinger). The seminar will also explore Vatican II's contribution to the theology of tradition and the theologies that have followed the council. The place of "reception," "creativity," and the "development of doctrine" will also be examined.

Credits: 03
Schedule: null
Room: None
Satisfies Core Requirement: None

Systematic and Historical Theology Courses:
Spring 2020

TMST702001
The Church
GUIDER, MARGARET E
Spring 2020
The ecclesial dimension of Christian faith is the focal point of this course. The course will locate the church within both a Trinitarian theology and a theological anthropology. Specific topics for exploration include the place of the church in the Creed, the sacramentality of the church, a theology of mission, and of structure and authority. The course will also explore current issues shaping the church's life and its place in the wider culture.

Credits: 03
Schedule: T 3-5 50
Room: SIMBOLI HALL 100
Satisfies Core Requirement: None
Comments: This course will be taught fall 2019 by Richard Lennan and spring 2020 by Margaret Guider, OSF.
Prerequisites: None
Corequisites: None
Cross-listed with: None
Frequency: Annually

TMST702401
Christology
BROUILLETTE, ANDRE
Spring 2020
This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

**Credits:** 03  
**Schedule:** T 9 30-11 50  
**Room:** SIMBOLI HALL 100  
**Satisfies Core Requirement:** None  
**Comments:** Summer 2019: This course will be offered twice ONLINE: May 13-June 21, 2019 and June 17-July 26, by Cynthia Cameron. Add/drop dates are May 14 and June 18. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage: www.bc.edu/bc-web/schools/stm/academics/summer-at-stm. This course will be also offered fall 2019 by Ernesto Valiente and spring 2020 by Andre Brouillette, S.J.

**Prerequisites:** None  
**Corequisites:** None  
**Cross-listed with:** None  
**Frequency:** Periodically

**TMST704501**  
**Grace**  
**DOYLE, DOMINIC F**  
**Spring 2020**  
A historical and textual examination of how some Christian thinkers have described and conceptualized the experience of grace. After considering New Testament sources, the class will examine, through lecture and discussion, the following approaches: patristic (e.g., Irenaeus, Augustine, Pelagius), medieval (Aquinas), reformation (Luther, Calvin, Trent, John of the Cross), and modern (Congar, Rahner, Balthasar, Lonergan, liberation theology). Themes to be explored include sin, forgiveness, and healing; divine initiative and human freedom; sanctification; the relationship between nature and grace; social dimensions of grace; and theologies of the Spirit.

**Credits:** 03  
**Schedule:** F 10-12  
**Room:** SIMBOLI HALL 110
**TMST706801**  
The Eucharist: Re-creating a New World in Memory of Christ  
BERGIN, WILLIAM N  
Spring 2020  
The Eucharist is the liturgical enactment of the saving mystery of Christ. It is a ritual that can transform the community that celebrates it to be a source of life in a broken and fragile world. This course examines the biblical roots of the Eucharist in the meal traditions of the Jewish people, in the table fellowship of Jesus, in his death on the Cross. It looks at how the Christian community has variously responded to the Lord's command to "do this in memory of me" until he comes again. The impact of historical controversies of contemporary debate is discussed.

**Credits:** 03

**TMST708101**  
Writing and Research for Theology and Ministry  
PETRO, SUSANNAH  
Spring 2020
This course provides an introduction to writing and research for students engaged in STM degree programs. Through a series of workshops, the course will introduce students to the basics of research, developing a thesis statement, and the use of sources, as well as the different kinds of writing that STM faculty require (research papers, biblical exegeses, theological reflection papers). With an individual tutor, students will work on developing research paper that has been assigned in the current semester.

**Credits:** 01  
**Schedule:** T 6 30-8 30  
**Room:** None  
**Satisfies Core Requirement:** None  
**Comments:** This is a year long course. Students register both fall and spring semesters and will receive 1-credit in the spring semester.  
**Prerequisites:** None  
**Corequisites:** None  
**Cross-listed with:** None  
**Frequency:** Annually

**TMST708801**  
Theology of Culture  
**DOYLE, DOMINIC F**  
**Spring 2020**  
This course explores the relationship between theology and culture through the following questions: How do particular cultures shape Christian faith? How has the Church, for better or worse, changed (or failed to change) the various cultures into which it has been received? How are rapid advances in technology shaping culture and how should the Church respond? How do theologians navigate between their local context and global economic realities that influence all locales? How does the study of culture, which integrates the various branches of inquiry into human meaning, challenge and invigorate theological reflection?

TMST715101
Introduction to Patristic Theology
DUNKLE SJ, BRIAN P
Spring 2020
This course presents the methods and insights of patristic treatments on the topics of theology through a study of major figures and texts. After an overview of the culture and context of the early church, we will treat patristic reflection on: Scripture, faith and reason, Christ, Trinity, the church, liturgy, ethics, and prayer. Authors and literature include, but are not limited to: Ignatius of Antioch, Justin Martyr, Irenaeus, Clement of Alexandria, The Martyrdom of Perpetua and Felicity, Origen, Tertullian, Athanasius, Basil of Caesarea, Gregory of Nazianzus, Gregory of Nyssa, Hilary of Poitiers, Ambrose, Augustine, and John Chrysostom.

The Church and Interreligious Dialogue
CORNILLE, CATHERINE M
Spring 2020
Dialogue between religions has become one of the urgent yet intractable challenges of our time. In this course, we will focus on the engagement of the Catholic Church and Catholic theologians in interreligious dialogue. The first part of the course will deal with topical issues, such as the history of, and the theological foundations for dialogue, intermonastic dialogue, scriptural reasoning, etc. The second part will focus on the particular dialogues between Christianity and Islam, Christianity and Judaism, Christianity and Hinduism, and Christianity and Buddhism

TMST721901
The Ecclesiology of Pope Francis
LUCIANI, RAFAEL F
Spring 2020
This Course explores the reception of the Ecclesiology of the Second Vatican Council by Pope Francis. In this context, Pastoral conversion and Synodality are key to understand how Francis’ ecclesial proposal of an inverted pyramid produces an ecclesiogenesis that leads to a new way of proceeding in the Church that starts from below, from the sensus fidelium, and then upwards. From this perspective, the church in Latin America emerges as a source church, opening a new phase in the reception of the Council and a powerful renewed ecclesiology. His reception of the Council calls for new ways of being church grounded in a People of God ecclesiology that demands a revision of lifestyles, practices of communal discernment, and structural reform.

TMST802201  
Seminar in Practical Theology  
GRIFFITH, COLLEEN M  
Spring 2020  
Christian theology at its best is marked by the pastoral interest of serving the life of the church in the world. Necessarily, the study of the church; specifically, its nature, purpose, and mission provides a framework within which to consider the task of practical theology. The methodology and issues that distinguish practical theology flow from this larger ecclesial context. This seminar will focus on models of the church, the art of doing theology in service of the church, and some foundational themes of practical theology (e.g., hermeneutics, praxis, culture and inculturation, and our post-modern context).  

Credits: 03  
Schedule: T 9 30-11 50  
Room: SIMBOLI HALL 110  
Satisfies Core Requirement: None  
Comments: Students are encouraged to make an appointment to discuss registration with the professor.

TMST804101
Theological Anthropology and the Body
GRIFFITH, COLLEEN M
Spring 2020
Issues of embodiment relating to theology, spirituality, and ministry form the substance of this course. We will probe understandings of the body found in the historical Christian tradition and draw insights regarding human bodiliness from contemporary theology, philosophy, psychology, and social theory. Finally, we will examine the role of the body in lived Christian faith with a particular emphasis on spirituality, education, and pastoral care.

Eschatology and the Kingdom of God
PALAZZI VON BUREN, FELIX J
Spring 2020
This course examines the relationship between history and eschatology through the lens of the
"Kingdom of God" that is central to Jesus' preaching. It proposes a hermeneutic that will take as
point of departure the church's eschatological statements. We will examine these statements
within the framework of the human historical process and the pilgrimage of God's People
towards the reign of God.

TMST810901
The Trinity in the Early Church
DUNKLE SJ, BRIAN P
Spring 2020

An introduction to early Christian Trinitarian theology and its enduring pertinence to the Church’s worship of God as one and three, Father, Son, and Holy Spirit. Treating authors from Justin Martyr to John of Damascus, we explore the scriptural and philosophical features of, among other issues, the “Cappadocian solution,” the “psychological analogies” of Augustine, the roots of the filioque, and the challenge of Islam. We will consider the retrieval of patristic Trinitarian theology by recent authors, especially in light of debates on ontotheology, the immanent and the economic Trinity, and social analogies for divine perichoresis.

Credits: 03

TMST811601
The Reception of the Second Vatican Council in Latin America
LUCIANI, RAFAEL F
Spring 2020
This course explores how the Latin American Church received the Second Vatican Council, paying particular attention to CELAM`s Conferences (Council of Latin American Bishops). We will show how the Latin American reception of the Council, especially through the documents Gaudium et spes and Lumen gentium, has implications for the church throughout the world. We will study the novel theological method that emerged from this regional reception, characterized by its inductive and empiric approach to history, and the ecclesiology centered on the People of God, which Pope Paul VI incorporated in his magisterium. Finally, we will analyze how this reception, characterized by a collegial and synodal way of proceeding, allows us to understand Pope Francis` vision for church reform.

Credits: 03
Schedule: null
Room: None
Satisfies Core Requirement: None
Comments: This course will be taught in English and Spanish.

TMST856201
The Theology of Johann Baptist Metz
VALIENTE, ORFILIO E
Spring 2020
This seminar will unfold by first examining Johann Metz's early relationship and subsequent break with the theology of Karl Rahner. Next we will explore Metz's critical dialogue with the thinkers of the Frankfurt school and the manner in which this encounter led to the formulation of Metz's early political theology. We will then turn to Metz's mature political theology as a "theology after Auschwitz." Some of the themes to be considered include Metz's assertion of the need for "anamnestic rationality," his focus on "the theodicy question," his apocalyptic eschatology, and his articulation of a mystical-political spirituality.

TMST856401
Reconciliation in a World of Conflict
VALIENTE, ORFILIO E
Spring 2020
The twentieth century's legacy is marked by social conflict and war: more than 200 million people killed because of political repression, ethnic or religious wars. Enlisting a theological lens, this seminar examines the Christian resources and contribution to the problem of reconciliation. After examining the most important secular approaches to the problem of personal and social conflict, we will focus on the main Christian theologies of reconciliation, including the works of Robert Schreiter, Miroslav Volf, John de Gruchy, and Jon Sobrino. Their theologies will be examined through individual case studies of the Balkan region, South Africa, and El Salvador.

ADGR770301
Research Methods and Data Analysis
BRADLEY, SUSAN P
Summer 2019
This course introduces students to basic social science research methods. The primary objective is for students to learn to read and evaluate research as well as create contributions to their chosen profession or field of research. By the end of the course, students will be more knowledgeable of basic research design and statistical methods. Additionally, students will better understand how to use research findings to improve and enhance their professional roles. Note: This course is required for all students who entered the MS in Administrative Studies Program AFTER June 1, 2014. Please see an academic advisor to ensure appropriate placement in courses.

ADGR778501
Leadership and Decision Making: Ignatian-Based Applied Ethics
NOONE, GREGORY P
Summer 2019
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Human Resource Development
WILLIAMS, HEATHER
Summer 2019
This course focuses on employees and how to get the highest level of performance out of employees. What motivates your employees? What makes them want to stay? How do you prevent attrition? This course will start with an introduction to organizational design and relevant organizational development theories. It will then move to talent acquisition and employee training, where use of analytics and metrics will be introduced. Next, students will learn performance management methods and appraisal, including use of instruments and rating scales. The course will then move to career development and leadership development including assessing talent, developing career paths, and succession planning. The course will conclude by helping students understand the differences between coaching and mentoring, and how to effectively manage organizational talent.

Applied Research Project
HILES, ELISABETH A
Summer 2019
The Applied Research Project for Leadership & Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular MS specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Leadership and Decision Making: Ignatian-Based Applied Ethics
NOONE, GREGORY P
Fall 2019

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/advancing-studies/wcas-administrative-studies.html
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Leader as Change Agent
MOBLEY, FOSTER W
Fall 2019
A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent. MEETS ONLINE ON THURSDAYS.

Talent Management
MCDONALD, BRIAN R
Fall 2019
Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in-class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

ADGR809001
Workforce Planning and Employment
GUMM, JENNY A
Fall 2019
Strategic Workforce Planning takes a broad view of the organization to assure the right people and right skillsets are in place to drive strategy and reinforce culture. Key stakeholders are partners in the process to ensure adoption within the organization, and collaboration is necessary to drive alignment of people, process and technology. Workforce planning considers the balance between the current state, the organization's evolution, and the desired future state. Finding that balance requires measuring the system, and evaluating both the internal and external environments. This course will help you think about how to assess organizations, learn to work with the organization's strategy and culture to determine the key factors driving Workforce Planning, how to apply different frameworks, and to create a gap analysis between the current state and the desired state. From this framework, you will look at ways to implement the strategy, and learn to use data to inform your thinking.

Applied Techniques: Software and Reporting  
MUSSEIRIAN, LALIG J  
Fall 2019  
The objective of the course is to provide students with an introduction into various Project Management tools and techniques for both Waterfall and Agile delivery approaches. We will then dive deeper into the most popular project management tools, such as Microsoft Project, TFS, and Jira, with hands-on exercises and in-class team projects so the students learn how to use the tools in a practical way. Additional topics will include Earned Value Analysis, Gantt Charts, Milestones, Troubled Project Analysis and Recovery, Project Management Office (PMO) and reporting, and properly matching the methods and tools to the particular project and company - culture. Students will work in teams to create project plans and management reports, which will then be presented in class for feedback and comments. This will be an interactive, hands-on class, so we can practice Waterfall and Agile principles using the tools, and not just learn them from a theoretical perspective.

Stakeholder Management  
CHIRKOVA, AZA  
Fall 2019
Course provides students with deeper dive in subjects of Managing the various Stakeholders who affect Project progress. Stakeholders are not just the team members, they are also people with the company at all levels and all functions, including the executive management and the executive Champion. Students are alerted on how to identify, enhance or minimize the impact and the support of external Stakeholders be it clients, business partners, Government agencies at the local, state, and Federal levels. Stakeholders may also be members of the general public and/or public organizations either in support of or in opposition of the Project. The students will be introduced to various Communications methods and techniques to improve the Stakeholder support and keep them engaged. Course is a hybrid of in-class sessions and online asynchronous work.

ADGR777701
Evolution of Marketing Strategies in the Digital Era
MADDEN, SCOTT W
Spring 2020
A practical overview of the role and potential of marketing. Developing a market strategy to reach new and evolving markets depends on understanding emerging communication activities and styles, the accurate identification of needs, and expertise in generating and converting inquiries. Elements of a marketing strategy, including pricing, promotion, product decisions, and distribution are included. Creative development of the marketing mix utilizing traditional and interactive components. Strategy formulation and control of the marketing function in a digital world are emphasized.
ADGR778501
Leadership and Decision Making: Ignatian-Based Applied Ethics
NOONE, GREGORY P
Spring 2020
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Leader as Change Agent
MOBLEY, FOSTER W
Spring 2020
A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent. MEETS ONLINE ON THURSDAYS.

ADGR803001
Talent Management
MCDONALD, BRIAN R
Spring 2020
Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in-class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

ADGR804601
Organization Theory and Design
BENT, LAUREN G

Spring 2020
Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private, and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

**Agile Methodologies**  
**MUSSERIAN, LALIG J**  
**Spring 2020**
Companies that produce software are increasingly turning to agile development practices to help them stay competitive. Strategic project management is focused on the rapid and repeatable delivery of software, speed to market and risk mitigation as part of the project management process. Project Managers and project teams need to become well-versed in Agile practices and the highly collaborative and iterative methods which have made Agile and experienced "Agilista's" in high demand. This course starts with an overview for project managers and project teams on a variety of Agile methods, followed by a deeper dive into the most popular Agile process called Scrum. We will cover a prescriptive methodology for "Scrumming," with activities grouped into categories of People, Process and Technology within the 3 recommended phases for the successful implementation of projects with Scrum. For each phase, we will review a set of inputs and outputs, definitions and common terminologies, tips for success, inputs and outputs and the various Scrum ceremonies for a comprehensive course on running a Scrum project. This will be an interactive, hands-on class, so we can practice Scrum principles and not just learn them from a theoretical perspective.

ADGR812001  
Marketing Analytics  
HARRISON, MICHAEL J  
Spring 2020
As industries become increasingly competitive, companies rely more and more on marketing to attract buyers and prove the value of their spend from brand awareness to impact on revenues. Doing so in today's digital world requires a clear understanding and management of metrics and analytics. The Internet promises to revolutionize the dynamics of international commerce and permits new types of measurement tools that will expand the data available to marketers, including advertising measurement and customer profiling. This course will provide students with the main tools to lead marketing performance and help them answer key questions such as: How can I lead marketing performance by designing the appropriate metrics? What are the most important marketing metrics and analytics for me to use? How can I measure my various marketing programs' impact on revenue and profit? How can I best communicate marketing results with my executive team and board?

Social Influence
RIVERAS, JORGE
Spring 2020
The Social Influence course is designed to give students a comprehensive approach to understanding social influence marketing. Consumers can be influenced not only for buying products or services but to assume certain attitudes, particular behaviors, or decisions. Social media in its different forms employs multiple tools and strategies to impact the social norms, values, and beliefs. This new field of marketing encompasses different domains such as culture, consumer behavior, social media, social psychology and its subset of persuasion. Dividing the course in 5 distinctive modules offers the possibility to first cover the determinants of the system of values and norms that are shared among a group of people. Then, the external and internal factors influencing consumers before focusing on the different techniques employed by different media outlets. Through lectures, discussions, case studies, and current news, students will learn and apply various theoretical frameworks to analyze the process of influencing an audience.

Applied Research Project
GUMM, JENNY A
Spring 2020
The Applied Research Project for Leadership & Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular MS specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

ADBI201501
Climate Change Solutions
COLE, JENNIFER S
Fall 2019
We are bombarded daily with media reports on the effects, policy, and financial aspects of climate change. Participants in this course, will learn about: the difference between climate change, the greenhouse effect, and global warming; the basic science of how Earth's atmosphere formed, how it has changed through time, and how humans are impacting both weather and climate. Through a close reading and critical-thought based analysis, we will understand the impacts of climate change on agriculture, weather, economics, and poorer nations. We will discuss how science can more clearly inform policy at national and global levels, grapple with the social justice element of weather-related phenomena in poorer nations, and will dispel common myths surrounding global warming. We will also talk about the role technofixes. Students will complete a research paper based on our readings and discussions that shows clearly what we can and should do about climate change. The class is solution-oriented, and will conclude with discussing a mix of returning to a more sustainable way of obtaining our food and energy as well as the role technology plays in our future. The opportunity will exist to attend optional extra-credit lectures, both on and off campus.

Sustainability Science
COLE, JENNIFER S
Spring 2020
Through technology and our growing population, humans are altering the planet at rates much faster than Earth can adjust to the changes. The health of the planet and of its human population are inevitably intertwined. In this course we'll explore areas where the human species is causing long-term alteration to the Earth's systems by consuming and impairing our planet's natural resources. We will look at the problems we face in managing limited resources in a technological age and rapidly growing world, the natural processes with which we interact, the wastes we generate, and the pros and cons of various potential solutions to these problems. We'll survey issues that are critical to the future of humanity.

ADBI202501
Green Buildings
COLE, JENNIFER S
Spring 2020
Seventy-five percent of electricity generated in the United States is used in the built environment, and nearly half of all greenhouse gases come from buildings. In this course, we will look at how to increase sustainability by green building, including the theory, history, state of the industry, and best practices. We will investigate building assessment systems including LEED, FORTIFIED, and NetZero. At the completion of this course, students will have a basic working knowledge of: green and natural building design; sustainable building assessment; landscaping and encouraging walking, biking, and public transport; building efficient thermal envelopes; an overview of efficient mechanical and electrical systems; water conservation systems including re-use; waste management and green material selection; indoor environmental quality including indoor air pollution, lighting, and views; green construction operations; building commissioning; and economic analysis of green buildings. Optional field trips TBA.

Business Management Courses: Spring 2020
ADBM105201
Introduction to Organizational Behavior
DONNELLAN, GERARD J
Spring 2020
To thrive in constantly transforming organizations, it is important to understand the factors which influence performance and satisfaction, and the dynamics critical to interacting with and managing others effectively. Reviews the major theories of management and considers how personality, motivation, communication, perception, group dynamics, leadership style and organizational culture affect productivity and personal and professional success.

Public Relations
HENNESSEY, SEAN M
Fall 2019
This course is designed to be an examination of the technical, counseling, and planning elements in public relations. Attention in the course will focus on public relations campaigns, non-profit public relations, and the often complex relationship between management strategies and promotional objectives. Emphasis will also be placed on developing proper writing techniques for public relations. Included among the writing assignments will be a press release, planning statement, contact sheet, and a press kit.

Corporate Systems Courses: Summer 2019

ADSY114001
Research: Techniques and Processes
COUTURE, NEAL J
Summer 2019
Recommended as the first course, it examines the logic of research design and explores how data are approached, collected, and analyzed in an interactive information age. Practical applications across disciplines introduce both the electronic and traditional tools and techniques necessary to interpret and utilize findings. Cases and presentations prepare students to analyze, evaluate, and challenge specific applications and to suggest alternative interpretations. Online databases, the WWW and the internet expand options.

Corporate Communication
FALLON, CAROL A

Fall 2019
In a globally competitive and technologically advanced world, the ability to convey ideas and persuade diverse audiences is critical to professional success in every organization. Course provides a learning environment which develops proficient communication skills. Focusing on business writing and oral presentations with particular attention to purpose and audience, the curriculum offers strategies for effective business communication in letters, memos, e-mail, reports, proposals, resumes, meetings, and presentations. Classroom interaction, written assignments, collaborative media design, and team presentations provide multiple opportunities to demonstrate and enhance skills and to receive feedback on your professional communication style.

Leadership and Innovation
RYAN, EDMOND F
**Fall 2019**
Positioning organizations and individuals for success amid volatile global financial, economic, technological, and political uncertainty demands principled, insightful leadership as well as imaginative, innovative, and operational expertise. This course examines disruptive sources (including fraud, scandals), the accelerating pace of change which renders past experience and knowledge insufficient, and the need for leaders making decisions about the future to think and behave like innovators. The focus is on creating open optimistic climates that engage employees, develop skills and talents, and promote continuous knowledge sharing, smart work designs, and creative problem solving. The course explores strategies critical to influencing performances and implementing customized responses to motivation, morale, and performance issues.

Inside-Out: Perspectives on Crime, Corrections, and Justice
DELESTO, MATTHEW J
Fall 2019
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the integration of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. For most sessions, class will meet at the Suffolk County House of Correction. Due to the unique nature of this course, registration is by application only. Security in the Cloud
FITTON, JULIE A
Summer 2019
Course provides an understanding of basic cloud deployment models, including private, public, hybrid, and community, and the various service platforms (e.g., SaaS, PaaS, IaaS). Course addresses governance control and responsibility for cloud security together with cloud security components, and covers service provider security and its evaluation, security standards (e.g., SSAE-16, CSA-CCM, Shared Assessments, NIST, CIS), procurement, and service level agreements (SLAs). Security topics include traffic hijacking, data isolation/storage segregation, identity management, virtualization security, continuity, data recovery, logging, notification, and auditing.

Cybersecurity: Designing Offensive and Defensive Capabilities  
MAOR, ETAY  
Summer 2019

This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

Ethical Issues in Cybersecurity and the Ignatian Paradigm  
HURLEY, DEBORAH  
Summer 2019
Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

ADCY695501  
**Applied Research Project For Non-Profit Organizations**  
**MISATA, KELLEY**  
**Summer 2019**
This course provides students with hands-on experience in the development, delivery, and results analysis of an information and cybersecurity assessment process for local non-profit organizations. The assessment tool that will be used is a prototype based on the NIST Cybersecurity Framework (CSF). Students will explore how NIST CSF maps to other well-known assessment frameworks including NIST SP800-53, NIST SP800-171, COBIT 5, and ISO 27000. Students will review the assessment tool and other research through the lens of the non-profit environment. Students will complete a controlled assessment of a local non-profit, which will help them develop skills in assessing, through the lens of information and cyber security, a business environment. Students will utilize these skills in bridging the gap between technical jargon and non-technical audiences by preparing and presenting their assessment findings to the executive leadership of the assessed non-profit. Students will gain a practical ability to perform an information/cybersecurity risk assessment along with the process of developing and delivering the assessment as a part of the students' learning.

ADCY600001  
Cyber Ecosystem and Cybersecurity  
ESCALANTE, DAVID J; REY, PATRICK J  
Fall 2019
Course provides an overview of Cyberspace, defines the scope of Cybersecurity, and addresses information classification and system compartmentalization. Course includes an appreciation of information confidentiality, integrity, and availability, and covers Cybersecurity architecture, strategy, services, hardware, software, and cloud services. The course also examines national security issues, critical infrastructure, and the potential for cybercrime and cyber terrorism, as well as the need for corporations to align their security with business needs and consider the threat from malicious employees, contractors, and/or vendors.

Organizational Effectiveness: Governance, Risk Management, and Compliance
ALDRICH, PHILIP
Fall 2019
Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities. Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

ADCY665001
Role of Intelligence: Enabling Proactive Security
FORD, RONALD M; MAGEE, KENNETH W
Fall 2019
Course addresses internal and external intelligence sources, including intrusion detection, log analysis, data mining, M&A due diligence, HUMINT, and the role of an Information Security Operations Center (ISOC). From an external perspective, the course covers information gathering, intelligence feeds/sources, and fusion centers as well as the automation, filtering, validation, analysis, and dissemination of intelligence. The course also provides an understanding as to technical countermeasures (e.g., sandboxes, honeypots), and addresses the roles of DHS, FBI, NSA, and DOD.

**ADCY690001**  
**Ethical Issues in Cybersecurity and the Ignatian Paradigm**  
**HURLEY, DEBORAH**  
**Fall 2019**  
Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

Cybersecurity Courses: Spring 2020

**ADCY600001**
Cyber Ecosystem and Cybersecurity
OATES, WILLIAM G
Spring 2020
Course provides an overview of Cyberspace, defines the scope of Cybersecurity, and addresses information classification and system compartmentalization. Course includes an appreciation of information confidentiality, integrity, and availability, and covers Cybersecurity architecture, strategy, services, hardware, software, and cloud services. The course also examines national security issues, critical infrastructure, and the potential for cybercrime and cyber terrorism, as well as the need for corporations to align their security with business needs and consider the threat from malicious employees, contractors, and/or vendors.

ADCY605001  
**Cybersecurity Policy: Privacy and Legal Requirements**  
**POWERS, KEVIN R; FICK, KATHERINE J**  
**Spring 2020**  
Course provides a comprehensive examination of the laws, regulations, and Executive Orders concerning data protection and privacy, including PCI, HIPAA, GLBA, SOX, FISMA, NIST, FISA, CFAA, and their overseas counterparts, and the roles of federal, state, and local regulators and law enforcement officials. The course also examines data protection and national security issues governed by various Federal agencies (e.g., SEC, FTC, FCC, DOE, DOJ, DHS, NSA, Treasury), including suspicious activity reporting (SAR) requirements under the Patriot Act. Additionally, the course addresses intellectual property protection, security classifications, data location requirements, audits, compliancy assessments, and individual, class-action, and shareholder derivative litigation and liability.

ADCY630001
Network and Infrastructure Security
ESCALANTE, DAVID J

Spring 2020
Course provides an understanding of the threats and vulnerabilities in Cybersecurity and an introduction to the concepts of layering defense and providing for defense-in-depth. Specific topics include operating system security, component lifecycle management, database security, server security, application security, mobile devices, BYOD, and end-point security. The course covers the roles of physical security, system hardening, firewalls, encryption, anti-virus, and malware defense. The course also introduces identity and access management, role-based access control (RBAC), intrusion detection, penetration testing, and incident response.

ADCY635001
Incident Response and Management
BURNS, KEVIN J

Spring 2020
Course provides an understanding of the design and development of a Cybersecurity strategy which aligns with private industry and government needs, including incident documentation/analysis, response planning, and the role of a critical event response team (CERT) in determining recovery, managing liability and communications, coordinating with law enforcement, and protecting corporate reputation. Course also examines leadership and the adoption and implementation of a proactive stance through monitoring and responding to internal and external intelligence, including monitoring network traffic, activity logs (SIEM) for data breaches, denial of service (DoS), and integrity events, and outlines the roles of information security operations centers (ISOCs) and network operations centers (NOCs).

Cyber Investigations and Digital Forensics

SWINDON, KEVIN; RUSSELL, TIMOTHY W

Spring 2020

Course covers forensic investigation, case prioritization, and case management, and addresses procedural documentation, standards of evidence, reporting, and disclosure requirements. The digital forensic portion of the course provides an understanding as to disk imaging, file recovery, trace-back techniques, network analytics, evaluation of metadata, malware, and anti-forensics. Additionally, the course covers the out-sourcing of the investigative function, or part thereof, to third parties, and provides specific case studies, including a practical laboratory project.

ADCY650001
Organizational Effectiveness: Governance, Risk Management, and Compliance
ALDRICH, PHILIP
Spring 2020
Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities. Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

ADCY670001
Privacy Law
HURLEY, DEBORAH
Spring 2020
This timely, topical course offers a comprehensive examination of protection of privacy and personal data, including identity, financial, health, educational, and other data. These subjects pervade numerous, diverse aspects of the economy and society in the Information Age, from human rights to international trade. Students will learn about: Fair Information Practices; the development of modern privacy law in the United States and around the world; Fourth Amendment privacy and the autonomy of the individual in relation to the state; key U.S. laws (HIPAA, FERPA, GLBA, GINA, COPPA, etc.); significant international rules (European Union's new General Data Protection Regulation (GDPR), etc.); important institutions (Federal Trade Commission, Data Protection Authorities, etc.); standards; Privacy by Design and Default; and emerging issues.

**ADCY692501**  
**Cybersecurity: Risk and Resiliency**  
**WILKINSON, DAVID; ANTONS, KAREN E**  
**Spring 2020**  
Course provides a comprehensive understanding of the fundamentals of risk management and applies them to the cyber security and digital risk management environments. It addresses methodologies for comparing digital risks and deciding between acceptance, mitigation, risk transfer, and avoidance. The course compares popular methodologies for quantifying, comparing, and categorizing digital risks. It includes specific topics such as Risk and Control Self-Assessment (RCSA), Risk Appetite Statement (RAS), Risk Tolerance metrics, Three Line Defense Model, Risk Register, Third-Party Risk Management, and Factor Analysis of Information Risk (FAIR). Participants attending this course will be introduced to a broad spectrum of risk management principles, learn how to apply them in cyber security and digital environments, and immediately be able to contribute to cyber risk management using a risk management toolbox learned in this course that is applicable across a wide scope of business, government, academia, and beyond.
ADCY695501
Applied Research Project For Non-Profit Organizations

MISATA, KELLEY

Spring 2020

This course provides students with hands-on experience in the development, delivery, and results analysis of an information and cybersecurity assessment process for local non-profit organizations. The assessment tool that will be used is a prototype based on the NIST Cybersecurity Framework (CSF). Students will explore how NIST CSF maps to other well-known assessment frameworks including NIST SP800-53, NIST SP800-171, COBIT 5, and ISO 27000. Students will review the assessment tool and other research through the lens of the non-profit environment. Students will complete a controlled assessment of a local non-profit, which will help them develop skills in assessing, through the lens of information and cyber security, a business environment. Students will utilize these skills in bridging the gap between technical jargon and non-technical audiences by preparing and presenting their assessment findings to the executive leadership of the assessed non-profit. Students will gain a practical ability to perform an information/cybersecurity risk assessment along with the process of developing and delivering the assessment as a part of the students' learning.

ADEC732001
Econometrics
BASTIAN, NATHANIEL D
Summer 2019
This course focuses on the application of statistical tools used to estimate economic relationships. The course begins with a discussion of the linear regression model, and examination of common problems encountered when applying this approach, including serial correlation, heteroscedasticity, and multicollinearity. Models with lagged variables are considered, as is estimation with instrumental variables, two-stage least squares, models with limited dependent variables, and basic time-series techniques.

ADEC739001
Empirical Money and Banking
KAZEMI, HOSSEIN S
Summer 2019
This course focuses on a study of money, banking and financial markets with a clear emphasis on central banking and conduct of monetary policy. An in-depth analysis of fixed income markets in addition to equities and other financial instruments in this course provides students with the opportunity to master intricacies of financial markets and investing in them. Additionally, the connection between movements in the financial markets and monetary policy is examined on a daily basis. An extended use of Bloomberg Professional LP in this course makes this very applied class particularly valuable to anyone interested in bridging the gap between the economic theory and practice.
ADEC743001
Big Data Econometrics
BASTIAN, NATHANIEL D
Summer 2019

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naive Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

ADEC746001
Predictive Analytics/Forecasting
FULTON, LAWRENCE V
Summer 2019
This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750001
Ethics, Economics, and Public Policy
MC GOWAN, RICHARD
Summer 2019
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC754001
Marketing Analytics for Economists
AFFINITO, LETIZIA
Summer 2019
Specifically designed for Economists, this course will enable students to use analytics to improve marketing performance and lead marketing efforts. Students will be able to answer key questions such as: How to design the appropriate metrics and analytics to monitor/improve marketing efforts? How can I measure my various marketing programs' impact on revenue and profit? How can I clearly define the business problem? How can I better understand the company's goals? How can I communicate insights, not just facts? Which are all the relevant drivers (e.g., marketing and environmental factors) and outcomes (e.g., purchase funnel metrics) and how do they work in marketing? Which tool, of the many available, is best for which problem? In studying a range of firms across a range of contexts and industries, the course builds on recent advances in industrial organization and organizational economics. We use a number of cases and real life examples/simulations to discuss each of the points presented in the course. As such, the course ultimately is designed to focus on the essential topics and problems of Marketing Analytics as experienced by business managers in real life situations. Ultimately, the course will emphasize two kinds of skills: Analytical skills, which are required for Marketing Analytics; and soft (i.e., leadership) skills, which are required for implementation. The course will begin with the analytical skills and then move on to implementation issues.

**ADEC791001**  
**Software Tools for Data Analysis**  
**ARLASHIN, ANATOLY S**  
**Summer 2019**
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools—spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

ADEC113201
Principles of Economics II/Macroeconomics
TOMIC, ALEKSANDAR S
Fall 2019
Course introduces national income determination and government policy. Topics include national income accounting, national income determination, employment, changes in supply and demand, uncertainties in a digital economy, money, interest rates, and inflation, fiscal and monetary policy, international trade, and business cycle.
ADEC221001
Behavioral Economics: an Emerging Perspective
LOPEZ RAGO, RICARDO A
Fall 2019
Why do people often behave in ways that are clearly not in their best interest? Integrating an understanding of human behavior into the more traditional economic models offers a fuller explanation of how behavior influences seemingly rational choices and suggests ways to optimize decision-making. This course explores the impact of the current economic crisis, competition, procrastination, certainty/uncertainty, investments, emerging technologies, career flexibility, obesity, and divorce to explain outcomes and performance.

Fall 2019
This course is designed to introduce students to the concepts and data-based tools of statistical analysis commonly employed in Applied Economics. In addition to learning the basics of statistical and data analysis, students will learn to use the statistical software package Stata to conduct various empirical analyses. Our focus will be on learning to do statistical analysis, not just on learning statistics. The ultimate goal of this course is to prepare students well for ADEC 7320.01, Econometrics.

ADEC732001
Econometrics
VICENTINI, GUSTAVO J
Fall 2019
This course focuses on the application of statistical tools used to estimate economic relationships. The course begins with a discussion of the linear regression model, and examination of common problems encountered when applying this approach, including serial correlation, heteroscedasticity, and multicollinearity. Models with lagged variables are considered, as is estimation with instrumental variables, two-stage least squares, models with limited dependent variables, and basic time-series techniques.
Credits: 03
Schedule: M 6 30-9
Room: GASSON HALL 303
Satisfies Core Requirement: None
Comments: Prerequisite: ADEC7310 Data Analysis

ADEC734001
Advanced Urban and Regional Economics
O'HAVER, ROBERT R
Fall 2019
This is an advanced course in urban and regional economics. The field of urban and regional economics addresses a wide variety of questions and topics. At the most general level, the field introduces space into economic models and studies the location of economic activity. The course will use microeconomic models to address general and interesting questions about the existence and emergence of cities: why do cities exist and why do some grow more rapidly? Why do people live in cities? How do firms and households decide where to locate within given metropolitan areas? What determines the growth and size of a city? Which policies can modify the shape of a city? The course will also analyze the economic issues that arise because people and firms locate in cities. It will focus on many specific urban economic issues such as firm location, crime, transportation, housing, education, inner-city economic development, and local government economics.

ADEC736001
Financial Economics
KOWALIK, MICHAL K
Fall 2019
This course teaches the practical application of finance theory to decisions made in industry. We will learn how individuals and firms choose investment portfolio decisions under uncertainty with a particular focus on topics such as the capital asset pricing model, market imperfections, borrowing constraints, market efficiency and security valuation. Understanding how interest rates, exchange rates, and risk work will aid your understanding of multiple firm problems such as why does a firm chooses a specific investment or place of manufacturing. In addition, studying term structures and discounted cash flows are important to understanding the decision to invest over time.

ADEC741001
Operations Research in Applied Economics
BASTIAN, NATHANIEL D
Fall 2019
This course provides an introduction to the use of operations research methods in economics. For this purpose, the course starts with a brief review of the basics from microeconomic theory, calculus and linear algebra, which is followed by the conceptual foundations of economic modeling and the applications of optimization techniques on various economic problems. The course provides a very sound perspective on how to use operations research techniques in any kind of economic and managerial decision making, which has becoming an increasingly sought after skill. We will work on various problems, including portfolio management, resource management, environment and energy related regulations, etc.

ADEC743001
Big Data Econometrics
VELICHE, RAZVAN
Fall 2019
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naive Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

**ADEC746001**  
**Predictive Analytics/Forecasting**  
**BRADLEY, ROBERT J**  
**Fall 2019**
This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750001
Ethics, Economics, and Public Policy
MC GOWAN, RICHARD
Fall 2019
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC781001
Empirical Behavioral Economics
DEGEEST, LAWRENCE R
Fall 2019
Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

**ADEC782001**  
**Economics of Innovation and Entrepreneurship**  
**SILE, AYSE E**  
**Fall 2019**

Innovation and entrepreneurship have been the key drivers behind economic growth across developed economies and even more so in the U.S. However, innovations and entrepreneurism develop under a high degree of risk and uncertainty and, in most cases, rupture existing structural and traditional patterns and practices. Economic policies along with regulation set the incentives for innovation and entrepreneurship. Intellectual property rights and competition ensure that innovators receive a fertile and collaborative market structure to reach their potential.

ADEC783001
Communication and Leadership in Applied Economics
CESMELI, ERDOGAN
Fall 2019
This course on "Leadership and Communication for Applied Economists" has been specifically designed to meet the needs of graduate students in the Applied Economics program. Each individual session focuses on helping students understand leadership traits and develop commensurate written or oral communication skills to reinforce their influential skills. Students will discuss their current writing projects in the context of each session's topic. Also, the course will also focus on the topics related to leadership, effective written and oral communications tailored to specific audiences. In addition to leadership & communication skills, students will practice elevator speeches, short written communications and other presentations.

ADEC791001
Software Tools for Data Analysis
ARLASHIN, ANATOLY S
Fall 2019
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools--spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

ADEC221001  
Behavioral Economics: an Emerging Perspective  
AMARSAIKHAN, ENKHMANLAI  
Spring 2020  
Why do people often behave in ways that are clearly not in their best interest? Integrating an understanding of human behavior into the more traditional economic models offers a fuller explanation of how behavior influences seemingly rational choices and suggests ways to optimize decision-making. This course explores the impact of the current economic crisis, competition, procrastination, certainty/uncertainty, investments, emerging technologies, career flexibility, obesity, and divorce to explain outcomes and performance.
ADEC250001
Elementary Economic Statistics
CLOTE, MARIE
Spring 2020
This course equips students with the techniques of analysis and interpretation of quantitative data. Topics considered are descriptive statistics, basic probability, discrete and continuous probability distributions, sampling and estimation, testing statistical hypotheses, correlation and regression, and analysis of variance. No calculus background required.

ADEC320201
Macroeconomic Theory
SIMEONOV, DIMITAR A
Spring 2020
Course analyzes national income determination and macroeconomic government policies. Emphasis on Keynesian theories of national product and its components, national income and employment, liquidity demand, and the money supply process. Looks at how the "new economy" impacts traditional economic theory.
ADEC334001
Labor Economics
KOWALIK, MICHAL K
Spring 2020
Applies basic tools of economic analysis to studies of labor markets, employment, wage inequality, income distribution, and government policies. Topics include supply and demand for labor, the influence of technology on markets, market structure, changes in capital markets, human capital theory, labor unions, employment and income policy, discrimination and affirmative action.

Social Policy Analysis
DEPARTMENT
Spring 2020
This course introduces the role of social policy analysis in explaining the ideological, institutional and scientific foundations of the modern "social welfare state." The course covers social policy modeling, normative political theory and distributive theories of justice, rights, opportunities, equality, social equity and poverty. Theories are tested with applications in four major social policy areas: employment, health, housing and welfare.

ADEC351001  
Mathematics for Economists  
GARVEY, PAUL R  
Spring 2020  
This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for MS in Applied Economics program.

Credits: 04

ADEC737001
Applied Stress Testing for Economists
ROELANDS, SEBASTIAAN
Spring 2020
Since the financial crisis of 2008, banks and bank holding companies in the United States have faced increased regulation. One of the recent changes to these regulations is known as the Comprehensive Capital Analysis and Review (CCAR). At the core of these new regulations, specifically under the Dodd-Frank Wall Street Reform and Consumer Protection Act and the stress tests it mandates, are a series of ?what-if? or ?scenario analyses? requirements provided by the Federal Reserve. In this course we will examine these new regulations and build models which help to satisfy these requirements and will build both ?bottom-up? and ?top-down? models which incorporate external economic scenarios. We will also spend time with the creation of these scenarios. The final project will involve presenting results to experienced banking professionals. Experience with some statistical computing software is required (R, Stata, or eViews).

We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750001
Ethics, Economics, and Public Policy
MC GOWAN, RICHARD
Spring 2020
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC753001
Measuring Business Cycles, Trends and Growth Cycles
OZYILDIRIM, ATAMAN K
Spring 2020
This course will focus on the measurement and analysis of business cycles with a special emphasis on business forecasting. Leading indicators are used as forecasting tools to predict when economies move from expansion to recessions and vice versa. Taking an applied empirical approach, we will cover data and tools used for analysis of short term conditions. While business cycle analysis is concerned with short-term fluctuations, understanding the long-term growth path of an economy is important to interpret short-term movements. Applications of trend estimation methods will also be covered. We will study cycles in developing economies which have experienced long periods of continuous growth. Our focus is on important economic indicators and a discussion of data issues such as price indexes, deflation, and seasonal adjustment. How can these indicators be applied and interpreted to understand short term trends in the economy? How can they assist in economic and business decision making?

Communication and Leadership in Applied Economics
CESMELI, ERDOGAN
Spring 2020
This course on "Leadership and Communication for Applied Economists" has been specifically designed to meet the needs of graduate students in the Applied Economics program. Each individual session focuses on helping students understand leadership traits and develop commensurate written or oral communication skills to reinforce their influential skills. Students will discuss their current writing projects in the context of each session's topic. Also, the course will also focus on the topics related to leadership, effective written and oral communications tailored to specific audiences. In addition to leadership & communication skills, students will practice elevator speeches, short written communications and other presentations.

ADEC784001
Management of Projects in Applied Economics
SILE, AYSE E
Spring 2020
From an economics perspective, the success of a project mostly relies on the maximization of profit to allow for reinvestment and further growth and profits. The course will focus on best practices that enable the successful implementation of and excellence in project management with a focus on economics. The course also discusses the technical, cultural, and interpersonal skills necessary to successfully manage projects from start to finish. It emphasizes that project management is a professional discipline with its own tools, body of knowledge, and skills. Concepts are reinforced by case studies covering a wide variety of project types and industries.

ADEC791001
Software Tools for Data Analysis
ARLASHIN, ANATOLY S
Spring 2020
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools—spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

Market Research and Analysis  
SILE, AYSE E  
Spring 2020  
Market research is the systematic gathering and interpretation of information and data using the statistical and analytical methods and techniques of the applied economics and statistics to gain insights or support decision making. This course provides you with the skills and tools needed to understand and evaluate market research. Market research and analysis involve developing research questions, collecting data, analyzing it and drawing inference, with a view to making better decisions. To this end, the course is organized into two basic parts: (1) Data collection and research design, and (2) Tools and applications of research and data analysis. The course will provide a framework for conducting research, knowledge to properly design research, techniques and tools to analyze data and infer insights, and practical information sources.
ADEC793001
Fundamentals of Private Equity
YANMAZ-KARSLIGIL, GUL
Spring 2020
This course is for students who wish to gain a high-level understanding of the private equity ecosystem. Private equity is no longer niche, but a large and global asset class with trillions of dollars under management that touches many aspects of people's daily lives all over the world. There are now thousands of private equity firms globally, and the industry has evolved to the point where different players offer distinct investment strategies and execution styles. Topics will include LBOs, venture capital, structures, economics, due diligence, portfolio construction, performance measurement, impact on society, agency issues, and ethical considerations. Through class discussion, guest lectures, and case studies, students will develop an understanding and appreciation for this unique asset class that is not well understood by many.

Environmental and Natural Resource Economics
OLCUM, GOKCE A
Spring 2020
This course examines where the tension between economic activities and environment stems from, how economic activities cause environmental degradation and what kind of regulatory actions should be taken in order to maintain the balance between economic growth and environmental sustainability. The course has two main parts, theory and applications. We will start with analyzing the underlying economic theory of market failures, economic valuation, economic incentive instruments, and then move onto the applications of the economic theory to real world cases, i.e., air pollution control and climate change mitigation policies, water quality management and waste management.

ADEN108001
Literature Core
NORWOOD, KELSEY E
Summer 2019
In Literature Core, students explore the principal motives which prompt people to read literature: to assemble and assess the shape and values of one's own culture, to discover alternative ways of looking at the world, to gain insight into issues of permanent human importance as well as issues of contemporary urgency, and to enjoy the linguistic and formal satisfactions of literary art. Literature Core will strive to develop the student's capacity to read and write with clarity and engagement, to allow for that dialogue between the past and present we call history, and to provide an introduction to literary genres.

Studies in American Ethnic Literature
SARR, AKUA
Fall 2019
Ethnic difference has a profound effect on personal and social understandings of what it means to be an American. Multicultural fiction navigates the complex terrain of race and ethnicity in America. Fiction depicts a variety of experiences and suggests that what constitutes an American identity is far from settled. A discussion of the literature invites students to share their own personal narratives--stories of race, ethnicity, class, gender, faith, and nationality--to further uncover what it means to be "ethnic" in America. Writers include: S. Alexie, E. Danticat, J. Diaz, J. Eugenides, and J. Lahiri.

ADEN120301
Social Networking in the Digital Age
FRUEH, CINDY A
Spring 2020
Social networking sites like Facebook and Twitter have, for better or worse, changed the nature of friendship. Today people meet, converse, and interact online. Networks connect people across continents, enable collaboration from afar, facilitate sharing of news and information, offer group support, and provide a vital means of communication for the elderly and the housebound. Social networking also raises many questions: among the troubling developments, power-users "collect" friends; digital conversations are easily misinterpreted; news is sometimes skewed and traditional news outlets undermined; and conversations, once private, are now visible to entire networks. Readings, discussion, and reflection explore the positive and negative aspects of social networks, providing a rich palette for writing.

ADEN124401
Film: Literature and Law
MICHALCZYK, JOHN; MICHALCZYK, SUSAN A
Spring 2020
Interest in the rapport between film and literature as it relates to the law intrigues us as much today as ever. Literature captures the drama of a legal trial or an investigation into a brutal, racial murder. Film then takes this rich material and shapes it into a compelling form with dynamic visuals and other narrative techniques. The course explores the power of story-telling and the impact of film to embody and inhabit law and its relationship to ideas about inferiority, liberty, citizenry, race, justice, crime, punishment, and social order. Film adaptations from short stories, plays, and novellas will comprise the body of the curriculum.

ADEN128701
Popular Fiction: Action Thrillers
SARR, AKUA
Spring 2020
James Patterson has defined action thrillers by the intensity of emotions they create ... of apprehension and exhilaration, of excitement and breathlessness. ... By definition, if a thriller doesn?t thrill, it?s not doing its job. John Grisham, Dan Brown, Stieg Larson, Michael Crichton, Tess Gerritson, Thomas Harris - whether legal, political, military, medical, psychological or sci-fi writers - nonstop action, precarious situations, hair-raising suspense, and heroic characters all exemplify the best thrillers. Course examines the various thriller genres, the control of pacing, the treatment of time, the use of language, and the manipulation of event. Students come to understand and work with the ways authors tell a story and sense what is essential for making fiction.

**From Gothic to Sublime: A Survey of Nineteenth Century British Literature**  
**RUTLEDGE, DUSTIN L**  
**Spring 2020**  
Coinciding with the expanding Imperial Empire, nineteenth century Britain experienced great advances in both education and technology, leading to greater literacy among the populace, as well as mass production in the publishing industry. As such, popular literature emerged. This course explores the poetry and short fiction of the Romantic and Victorian eras, considering how the literature of the period reflects the social and political sensibilities of the age. Highlighted authors include Wordsworth, Keats, Browning, Rossetti, Tennyson, Wilde, Dickens, and Kipling.

Finance Courses: Fall 2019

**ADFN104501**  
**Investments: Stocks, Bonds, Securities Market**  
O'BRIEN, GREGORY P  
**Fall 2019**
Course explores tools to better understand the complex financial investment which all investors have access to and must now use to meet their long term financial objectives. In periods of economic and financial uncertainty, financial knowledge is critical to achieving greater financial security. Focus is on two key elements of the investment process--security analysis and portfolio management. Security analysis involves understanding the characteristics of various securities such as stocks, bonds, options, and futures contracts in the marketplace. Portfolio management is the process of combining individual securities into an optimal portfolio tailored to the investor's objectives and constraints. Familiarity with Introductory Finance is recommended but not required.

Investments: Stocks, Bonds, Securities Market
STARCK, VINCENT
Spring 2020

Finance Courses: Spring 2020
Course explores tools to better understand the complex financial investment which all investors have access to and must now use to meet their long term financial objectives. In periods of economic and financial uncertainty, financial knowledge is critical to achieving greater financial security. Focus is on two key elements of the investment process--security analysis and portfolio management. Security analysis involves understanding the characteristics of various securities such as stocks, bonds, options, and futures contracts in the marketplace. Portfolio management is the process of combining individual securities into an optimal portfolio tailored to the investor's objectives and constraints. Familiarity with Introductory Finance is recommended but not required.

**ADFA126501**
**History of American Architecture**
MC CONNELL, JOHN C
**Fall 2019**
Introductory course investigates American Architecture from the first European settlement to the present. Within the context of cultural, political, and technological change, students investigate the process whereby society leaves its legacy to posterity through its buildings. Attention focuses on the influence of such factors as tradition, environment, stylistic change, the inventiveness of individual architects, and the impact of technology.

**Introduction to Theater**
PLUTO, ANNE E
**Fall 2019**
This course examines the form and meaning of theatre in civilizations from the ancient Greeks to modern times and is designed to expose the student to the live performance experience through the study of various elements of theatre and performance, the history of theatre, and dramatic literature. Attention is paid to the relationship between live performance and other mediatized forms, like film and television, with which the student likely will already be familiar. Students will be required to read and analyze various plays and films of plays, to view two live productions, take a walking tour of Boston College theatre spaces, and to explore the process of theatrical production.

ADGE116301
Environmental Issues and Resources
GALLI, KENNETH G
Summer 2019
Hybrid Core Course includes three themes: (1) Intro to Environmental Geology, (2) How to write well and how to write field trip reports, (3) How to use Google Earth to understand Earth Materials and Processes. Learn about the major processes at work inside and on the surface of the earth. Learn to be a careful observer and to write succinct field trip reports, through two field trips and the writing of a field trip report. Each class is designed to examine the facts, historical background, and through in-class exercises, homework and field trips, provide experience in analyzing and solving real world problems associated with environmental issues, resources and sustainability. Demonstrations, videos, readings and several field trips underscore important concepts and applications and the importance of careful observation. Online Google Earth exercises, done remotely, will introduce the power of this geographic application to understand geology.

ADGE250001
Natural Disasters and Catastrophes
COLE, JENNIFER S
Fall 2019
The course "Natural Disasters and Catastrophes" is global treatment of environmental history and science of natural and man-made disasters. The class presents basic science, along with detailed case studies of past and present events. The course examines a range of disasters including volcanoes, earthquakes, floods, tsunami, fire, landslides, hurricanes, famines, pandemic diseases, meteorite impacts, and hurricanes. Class lectures and discussions will highlight the role of science in studying natural disasters and will describe the mechanisms responsible for these phenomena. Nightly readings will expand upon, and galvanize students' newfound knowledge using a range of case studies. Natural Disasters and Catastrophes traces the transition of our understanding of disasters from religious and superstitious explanations to contemporary scientific accounts.

ADHA700001
Introduction to Healthcare Systems and Organizations
BEAUVAIS, BRADLEY M
Summer 2019
Provides students with an overview of healthcare services in the United States, including their historical development within a unique social, economic, and political environment. Current institutional structures and delivery systems are described, as are the evolving health needs of Americans. Emphasis is placed upon the basic concepts and issues associated with the management and regulation of healthcare providers and the delivery of services.

ADHA701001
Health Policy
LINVILLE, LISA J
Summer 2019
Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection and Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

**Health Analytics for Decision Making and Critiquing and Assessing Evidence**

**BAKER HEARLD, KRISTINE R**

**Summer 2019**

In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

**Healthcare Information Technology**  
**STETTHEIMER, TIMOTHY D**  
**Fall 2019**

This course explores the critical role of e-health and information systems in the planning, operation, and management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals, and medical practices. Students will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPPA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data and systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

ADHA702001
Healthcare Human Resources Management
BOWES, ARTHUR
Spring 2020
Human resources issues face the healthcare managers, from benefits to grievances to labor relations management in health organizations with organized labor. This course covers personnel practices such as job analysis and description, recruitment, selection, and compensation in various health delivery system settings. The course focuses on skill development in dealing with personnel at all levels of education, licensure, and skill sets.

ADHA702501
Healthcare Finance
BEAUVAIS, BRADLEY M
Spring 2020
This course introduces basic theory and principles of finance as applied to the healthcare industry. Financial statements, cost measurement, budgeting, capital investment decisions, and reimbursement models are explored. Students are given an overview of health economic concepts (e.g., sustainability), and are introduced to performance-based payments and value purchasing concepts.

ADHA703001
Healthcare Ethics
BESHANSKY, JONI
Spring 2020
In this course, ethical and moral considerations associated with the management of healthcare facilities and the provision of health services are examined. Treatment of ethical and moral issues emphasize the understanding of diverse viewpoints and methods for resolving conflicting moral obligations. Student apply course concepts through the exercises and cases in ethical decision making for leaders of healthcare organizations.

ADHA704501  
Health Analytics for Decision Making and Critiquing and Assessing Evidence  
BAKER HEARLD, KRISTINE R  
Spring 2020  
In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

ADHA705001
Healthcare Information Technology
STETTHEIMER, TIMOTHY D
Spring 2020
This course explores the critical role of e-health and information systems in the planning, operation, and management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals, and medical practices. Students will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPPA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data and systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

ADHS111701
Atlantic Worlds I, 1500-1800
MILLER, KAREN
Summer 2019
In this course, students examine the significance of developing global relationships, interdependencies, and tensions within and between societies in the Atlantic World between 1500 and 1800. The focus is on responses to religious, economic, and political changes in an increasingly diverse and "dis-integrated" world order of Western Europe, West Africa, and the Americas. As the "known worlds" of the Atlantic expanded, resisted, and attempted to accommodate changes brought about through religion, rights, and revolution over this 300 year period, our tasks are to examine what happened, why they may have happened, and how these changes were significant then and now.

ADHS108101
Modern History I
MENKE, MARTIN R
Fall 2019
Survey of the great ideas of the Western tradition from the Renaissance to the French Revolution. The focus is on the rise of the modern state in Germany (Holy Roman Empire, Treaty of Westphalia), England (Glorious Revolution and the roots of constitutional rule), and France (Divine Right Absolutism), the relationship of religion and politics (which suffers more, religion or politics?), and early modern European culture (Renaissance, Baroque, Rococo, Classicism) as well as Europe's interactions with Asia, Africa, and the Americas. Each class consists of a slide lecture and primary source-based discussion.
ADHS116801
Anglo-American Relations in Twentieth and Twenty-first Centuries
PAUL, MICHAEL G
Fall 2019
Course examines the actions of Anglo-American relations in a global context during key events of the twentieth and twenty-first centuries, including World War I, World War II, the Cold War, and the recent wars in the Middle East, to discover whether or not the U.S. and Britain followed parallel policies on the world stage based on an idea of a "special relationship."

ADHS126301
Hitler, the Churches, and the Holocaust
MENKE, MARTIN R
Fall 2019
To better understand the climate and complexities that contributed to the Christian church’s weakened responses to Hitler’s policies, the course examines the development of Christian anti-Judaism, anti-Semitism, and nationalism. It analyzes the resistance that emerged in response to totalitarianism and to the Holocaust, and considers the main Christian post-Holocaust efforts as they contribute to theological development and current thinking.

**History of New England**  
**HANNAN, CHRISTOPHER W**
Fall 2019
For nearly four centuries, this region has managed to maintain an identity broadly American and distinctly New England. Course examines the region's social, cultural, and political history, with particular attention to the Boston area in periods of momentous change. Topics explored include witchcraft in Salem; the Minutemen and the American Revolution; nineteenth-century immigration from Ireland; Boston's Civil War; urban and suburban growth and the social crises of the 1960s and 1970s. Analysis of local historical sites serves to deepen understanding of New Englanders' enduring attachment to the past.

ADHS113001
History of Boston: Puritans to Patriots
HANNAN, CHRISTOPHER W
Spring 2020
Course covers the history of Boston from its founding through the momentous events of the seventeenth and eighteenth centuries when Boston became the second most important city in the British Empire. During the tumultuous eighteenth century, Boston significantly expanded financially and geographically, becoming the capital of New England before facing a number of difficulties in the mid-1700's. Course traces Boston's central role in the American Revolution, with an emphasis on Adams, Revere and others, as well as the Boston Massacre, the Tea Party and the Battle of Bunker Hill. We will then focus on how Boston reinvented itself after independence to become by the 1820's, the "Hub of the Universe."
ADHS114201
An Emerging World
PAUL, MICHAEL G
Spring 2020
Focuses on events in Europe to view how the world community of nations defined their role in and came to terms with the twenty-first century. Novels, memoirs, essays and documentaries reveal the events and decisions that forced or allowed nations to define themselves in the modern world. Topics include Europe and World War I; the Great Depression; World War II; decolonization and the Cold War; and resurgent nationalism and the ?new world order, globalization and terrorism.? Books include Regeneration, Pat Barker; The Road to Wigan Pier, George Orwell; The European Home Fronts, Earl Beck; Blood and Belonging, Michael Ignatieff; and brief readings.

ADHS211001  
**Art, Politics, and Propaganda: Birth of the Nation State 1300-1700**  
**PAUL, MICHAEL G**  
**Spring 2020**  
This course examines the crucial role of Art and Politics in the creation of the Nation State during the Renaissance. We will look specifically at the Tudor and Stuart era in England and Scotland in order to examine the intersection of Art and artists and the politics of the time. In placing Art in its historical context, we will investigate how the Tudor and Stuart dynasties used Art (paintings, poetry, plays, and literature) as a way of engendering and solidifying the concept of the Nation State. We hope to discover the role played by political factors, and various art forms, in confirming the legitimacy of the Nation State in England between 1300-1700.

ADHS221001  
**For God and Country**
MENKE, MARTIN R  
Spring 2020  
The phrase ?For God and Country? seems self-evident, but what if obeying God requires disobeying the country?s government? Can a person of faith endorse the slogan ?my country, right or wrong?? In this course, historical examples serve to achieve a greater understanding of the tension between religious and civic imperatives. Historical examples will range from Christian martyrdom in the Roman Empire or the Jewish uprising at Masada to Christians resisting the Nazi regime. Examples from the three monotheistic religions of the West will be analyzed. Required readings consist of historical documents. This course is fully online and class discussions will occur synchronously and asynchronously.

ADIT130001
Coding Boot Camp
MIKOLAJCZAK, BARBARA J; WALSH, AARON
Summer 2019
During this two-week summer coding boot camp (which is followed by self-paced online exercises to be completed at your own pace, on your own schedule, through the end of July) students are taught the fundamentals of coding using HTML, the markup language that every Web site and many mobile phone apps are built with, and the industry-standard JavaScript programming language. Designed specifically for individuals who have never programmed before (or have very little prior experience), this camp teaches participants how to create their own Web sites from scratch and how to bring them to life with JavaScript. No auditors.

Social Media: To the Web and Beyond
MIKOLAJCZAK, BARBARA J; WALSH, AARON
Summer 2019
This course addresses current and forthcoming Social Media technologies, Web sites, software programs, and mobile apps (iPhone and Android apps) with a special focus on privacy and security. Rich and interactive forms of communication, collaboration, and socialization are the heart of Social Media, but come at a price: privacy breaches, identity theft, cyber-stalkers, and "online addictions" are among the many issues that we must grapple with. In this unique course students learn how to harness the power of Social Media while protecting themselves and guarding their privacy. Technologies covered in this course include Social Networking (Facebook, Google+, LinkedIn, Tinder, Snapchat, etc.); video and photo sharing (YouTube, Vimeo, Twitch, Instagram, Imgur, etc.); video games and virtual worlds (Minecraft, World of Warcraft, League of Legends, Second Life, etc.), as well as a forthcoming generation of Social Media technologies. No auditors.

Information Technology Courses: Fall 2019

ADIT134001  
Exploring the Internet  
WALKER, JAMES A  
Fall 2019  
This course takes a tour of the essential technologies that have shaped today's Internet. Along the way, students acquire the fundamental knowledge and skills needed to make the best use of this vast repository of information. Course focuses on web-site development using the core dynamic html technologies such as HTML5 and Cascading Stylesheets (CSS). Students gain a clearer understanding of just what exactly the Internet is through the study of its history and underlying protocols. No prior web-development experience and no prerequisites are required. Course is a prerequisite for all programming courses. No auditors.
ADIT134801
Information Systems Applications
MIKOLAJCZAK, BARBARA J
Fall 2019
This immersive education course covers the fundamentals of operating the Windows and Macintosh OS and a variety of desktop productivity applications. Includes basic concepts: terminology, word processing, spreadsheet, presentation applications, portable document format, webpage browsing, Internet safety, network terminology, blogging, and authoring tools. Students taught to utilize virtual world environments and blogs as well as online discussion groups (via the Internet) for course work conducted outside of class. No auditors.

ADIT135001
Introduction to Programming
OLIVA, RAMIRO
Fall 2019
This course teaches students the fundamental concepts of programming (coding). First we will define what a programming language is and then we will learn its grammar and syntax. We will learn about variables, conditionals, and iteration. We will also learn about arrays, functions, and objects. We will use the industry-standard JavaScript programming language to put into practice all of these concepts. Designed specifically for individuals who have little-to-no programming experience, this course teaches participants in a project based environment how to code JavaScript, the language of the web. During this course students will: (1) Learn how to think of problems logically and computationally, (2) Use programming tools to express themselves creatively as they learn the fundamentals of coding, and (3) Create real-world applications. No auditors.

This course provides a strong starting foundation for understanding the complex threats system managers face today and what they need to do to harden their systems against attack. Today’s business system managers need to understand these threats and know how to protect their digital assets. Students in this course will look at computer security through a variety of lenses. Specific topics will include: protecting the physical infrastructure, computer system design considerations, identity and access management functions and how they fit in, the role of network security tools, the importance of audits and having the right security processes and policies in place, business continuity and disaster recover planning, managing vendor contracts and special consideration for cloud-based systems, and ethical considerations.

**ADIT330801**  
**Project Management**  
**CANN, SCOTT**  
**Spring 2020**

Participation in IT projects can happen from a variety of angles; from individual contributor, to project team member, to project manager and executive sponsor. As such, this course will take a 360-degree perspective on project management, incorporating the important peripheral elements that influence the discipline. This course will help students develop practical skills for functioning in a variety of roles on projects, including project manager, while developing an appreciation for the importance of governance and project and portfolio management (PPM) in an IT environment, looking at the concept and the practice of projects from the perspective of participant, practitioner, and executive sponsor.

ADIT404001
Intermediate Coding and Design
OLIVA, RAMIRO
Spring 2020
With an incredibly flexible and fast changing technological environment, developers today must be able to adapt quickly and hit the ground running when entering into the work force or a new company. This course will explore a general-purpose high-level programming language as the basis for solving different types of technical problems. These problems or projects will enable you to put into practice language syntax and semantic theory. Additionally, you will also learn to collaborate and track your source by using version control. Finally, software development is not just about learning the syntax and semantics of a computer language. Software development is also about communication, critical thinking, and design, therefore this course will provide ample material to expand your critical and design thinking skills. These skills will enable you to be successful in different work environments.

ADIT405801
Systems Architecture
MARCOTTE, RENE N
Spring 2020
This course provides the fundamentals for a student's career as a Software Systems Engineer. The student will learn the various Software Development Life Cycles including Waterfall, Extreme Programming, and Agile. The student will analyze software architecture patterns and qualities such as scalability and maintainability. This course will also cover the various tiered approach to software architecture such as the data, business logic and presentation layered approach. The student will also investigate the latest and future architecture approaches such as cloud, big data, and robotic and intelligent automation. This course requires no software development requirements or experience.

ADLA505301
Employment and Labor Law
DEPARTMENT
Fall 2019
This introduction to the rapidly evolving law of the workplace focuses on how the law works in practice today providing important information for employees and managers. Looks at traditional common law such as "Employment At Will" and areas of employment law topics including hiring, promotion and termination, workplace security, privacy and safety, compensation and benefits, immigration, and labor-management relations. Course also covers the various laws prohibiting discrimination in the workplace, with a focus on federal statutes and regulations as well as the emerging legal issues around Social Media in the workplace.
Law Courses: Spring 2020

ADLA300101
Criminal Justice
VEGA, CESAR A
Spring 2020
This course provides an introduction, overview, and survey of the American criminal justice system and its subsystems--police, courts, juvenile justice, corrections, and victim witness assistance. The class will examine the role, development, policies, and management of the different public agencies and organizations that constitute the criminal justice system. Emphasis is also placed on the study of current and future critical issues such as due process, discretion in the administration of justice, community policing, police ethics, domestic violence intervention, technology to combat crime, threat assessment protocols and counter terrorism strategies, and evidence-based juvenile and adult offender institutional and community-based treatment programs.

Mathematics Courses: Summer 2019

ADMT190101
Calculus I
CENGIZ, MUSTAFA
Summer 2019
MATH1100 is a first course in the calculus of one variable intended for biology, computer science, economics, management, and premedical students. It is open to others who are qualified and desire a more rigorous mathematics course at the core level. Topics include a brief review of polynomials and trigonometric, exponential, and logarithmic functions, followed by discussion of limits, derivatives, and applications of differential calculus to real-world problem areas. The course concludes with an introduction to integration.

Credits: 03
Schedule: T TH 6-9 15
Room: GASSON HALL 206
Satisfies Core Requirement: Mathematics
Comments: MATH1100 is not open to students who have completed a calculus course at the college level. Students contemplating majors in Chemistry, Computer Science/B.S., Environmental Geosciences, Geological Sciences, Mathematics, or Physics should enroll in MATH1102. ADMT1901 section for BCE students only.
Prerequisites: Trigonometry.
Corequisites: MATH1121. ( Or MATH1122, etc., depending on which section of MATH1100 taken.).
Cross-listed with: MATH1100

ADMT190501
Excursions in Advanced Mathematics
CHEUNG, CHI-KEUNG
Summer 2019
In this course, we will explore several areas of advanced mathematics through lectures, classroom discussions, and labs. These include topics such as topology, projective geometry, transformation geometry, computational geometry, chaos, and coding, which are not normally taught in the high school curriculum. Through studying these exciting developments in modern mathematics, students can further develop their critical thinking and problem-solving skills. A good background in high school algebra and geometry is recommended. Instructor Bio: Chi-Keung Cheung received his Ph.D. from University of California-Berkeley, and has been a math professor at BC since 1993. His research interests are in geometric analysis and complex analysis. In recent years, he has also actively participated in training high school and elementary school math teachers.

Philosophy of Cinema
CLEMENTE, MATTHEW J

Fall 2019
Just as some of the world's greatest philosophy is to be found in novels, some is to be found in cinema, both films of philosophical novels or plays or original screenplays. This course will be much more than "philosophical discussion of movies." It will raise and debate fundamental issues in the history of Western philosophy in and through selected films. We will also read the books or screenplays on which the films are based and compare the written texts with the film version.

ADPL150001

Ethics

CLEMENTE, MATTHEW J

Fall 2019

This course will look at ethics from a social and Christian perspective. This course provides an introduction to Christian ethical modes of reflection on contemporary issues that impact class, race, and gender groups. These include issues of poverty/economic justice, First World/Two-Thirds World relations, racism, and sexism. U.S. citizens often identify themselves as religious persons, but less often do the hard work of connecting religious ethical traditions with social policies that impact relations among social groups. We may come up with different conclusions, but the unifying element in this course is our engagement in the difficult process of ethical discernment that is informed by both social theory (i.e., analysis of class, race, and gender systems) and the Christian tradition (Catholic Social Teaching with its foundation in scripture, Thomistic ethics with its assumption that the world is defined and governed by objective moral laws, and church teaching which emanates from application of tradition and scripture to current ethical situations.) An integral component of this class is to be engaged with the world, i.e., pay attention to issues in the world that could benefit from the application of the material being discussed in class.

ADPL354001  
**Law and Morality**  
**MENNO, JAMES V**  
**Fall 2019**

What is the relationship between man-made law created by the courts and the legislature and religious values? Is there a religious and moral foundation to our civil law in the United States? What do we do when confronted by a "wrong" law such as segregation? How do we determine if a law is wrong? Should religious and moral codes be part of the fabric of decisional case law? This course will compare the classic moral thinking of such authors as Plato, Aquinas, Mill and Locke to actual Constitutional decisions on such issues as the war on terror, capital punishment, gay marriage, sexual privacy, immigration, freedom of religion, abortion and the right to refuse medical treatment.

CLEMENTE, MATTHEW J
Spring 2020
Two of the best ways to know yourself are to know your ancestors and to know the differences between yourself and others. The same applies to cultures. Premodern thinkers are both our intellectual ancestors and our significant "others." We will explore the "big ideas" of Socrates, Plato, Aristotle, Augustine, Aquinas, and many more (e.g., Solomon and Buddha) in this survey.

ADPL304001
Social and Political Philosophy
FITZPATRICK, MELISSA A
Spring 2020
Philosophy involves examining life as we know it, and human life necessarily involves cohabitating, cooperating, and collaborating with others. Social and political philosophy examines not only how we should live together, but why we live together in the various ways that we do. A central premise within social and political philosophy is that the causes and solutions to many of humanity's most significant challenges derive from our social and political institutions: our form of government, the nature and limits of sovereignty, how we conceive of citizenship, what forms of rights our government protects (or overlooks), and so on. Some of the questions we will investigate together include: What is the nature of authority? Rights? Equality? And justice? What is freedom? And what does it mean to live freely (and flourish) in a world with diverse human and non-human others? This course examines the principles that establish and justify societies and determine the rights and responsibilities of a society to its own members, and of a society to other societies--and ultimately, to the global community. Although this course will be historical in its orientation, it will also analyze these themes through the lens of contemporary thought and current events. The hope is that by understanding the sources and motivations of our political institutions, we will be in a better position to assess them critically and become more reflective, responsible, and engaged citizens.

ADPO104201

Introduction to Modern Politics

MCCRANOR, TIMOTHY

Summer 2019

This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself--the most typical modern political arrangement--as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

ADPO104101

Fundamental Concepts of Politics

NATOLI, MARIE D

Fall 2019

The study of politics is not only fascinating but crucial if one is to be a responsible citizen of the country and the world. Through an examination of U.S. political institutions (e.g., Congress, the Presidency, the courts) and other political actors (e.g., interest groups, the media, public opinion), this course will also expose students to broader political concepts that may be generally applied in studying politics as a whole.
Gender Politics
WHITCAVITCH-DEVOY, JULIA
Fall 2019
This course explores social, political, and theological definitions of gender in American culture and society. Students will gain a deeper understanding of how gender exists in and alongside of social and political environments and how its definition impacts institutional and personal life. Drawing on such thinkers as Edith Stein, Dorothy Day, and Teresa of Avila (not exhaustive), the course provides comparative analysis of gender theories while also framing those issues within the Catholic tradition. Students will learn how to carefully evaluate the interactions between gender and various institutions including marriage, religion, government, global economies, and family.

Executive Politics and Policy Making
NATOLI, MARIE D
Spring 2020
The political environment in any organization influences how power, control and conflict are used to affect change and develop policy. Course explores the dynamics among executive branch personnel in making public policy in American national government, focusing on the president, White House staff, senior presidential appointees in the agencies and career civil servants. Attention is given to the sources and uses of political power in the executive branch, the various configurations of political conflict found across policy areas, the constraints imposed by the larger political environment; the impact of uncertain international tensions and competing centers of power.

International Relations
FITZGIBBON, JOHN E; BAUMANN, ERIN E
Spring 2020
This course will cover the basic concepts and theories of International Relations, but will have a distinct focus on real-world political matters. The course will explore ideas of national power, political ideologies, nationalism, war and peace, diplomacy, globalization and terrorism. As a class, we will explore how these theoretical concepts actually impact the course of human history and peoples' lives. As part of the course, students will conduct research on a focused, real-world, international relations problem of their choosing.

Health Psychology
FLANNERY, RAYMOND B
Fall 2019
Today's age is one of intense stress. Health psychology acknowledges the mutual influence of the mind and body in the environmental context. Evidence suggests that rapid technological and social change may compromise physical and mental health. This course explores the nature of these stresses and the range of psychological means available to cope with them. Special areas of inquiry include stress arising from work, family, mobility, leisure, and cultural lifestyles. Emphasis is on self-assessment and informed choice of improving the quality of one's life.

Psychology and the Other: Interdisciplinary Seminar  
GOODMAN, DAVID M  
Fall 2019  
This course is an interdisciplinary course wherein students consider the shape of human subjectivity, experience, and identity from a variety of disciplinary, historical, clinical, and conceptual positions. Oriented around the scholarship and conversation taking place at the Psychology and the Other conference--featuring top thinkers in philosophy, theology, and psychology--this course addresses the many discourses, political imports, phenomenological markers, and philosophical heritages that underlie our understanding of and lived range in human experience. The course will emphasize socio-political and cultural dimensions of human experience, phenomenology of identity (gender, sexuality, self-other constitution), intersubjectivity and transformation/healing, intergenerational transmission of trauma, and psychological/theological/philosophical concepts of self and other relations. NOTE: In addition to the on-campus Saturday meetings, students registered for this course are required to attend the "Psychology and the Other" Conference in October: www.psychologyandtheother.com.

Theories of Personality
CANAVAN, DONNAH

Spring 2020
New developments and increasingly sophisticated technology inform and expand our understanding of the brain and human nature, personality, and individual differences. The course takes a fresh look at the similarities and differences that key figures, and key research have attributed to human nature. How do genetic inheritance, environment, and social factors interact to affect personality? Is personality stable or changing? How can modern psychology reconcile individual needs with those of the community? Readings consider theories of key figures and such factors as temperament, resilience, parenting, education, psychotherapy, gender, and attachment.

Abnormal Psychology
GOODMAN, DAVID M
Spring 2020
Students are introduced to the categories used to understand normal and abnormal behavior and adjustment in Euro-American contexts. The course focuses on the specific diagnoses that are recognized in the DSM-5 and by the general medical establishment in the United States. The course provides mainstream competencies concerning diagnostic nomenclature and medical descriptions of human suffering. It also provides tools to critically analyze this system of diagnosis and approach to human suffering. In-depth consideration of psychoanalytic theory and case studies are used.

Neuropsychology
DEPARTMENT
Spring 2020
This course in the Fundamentals of Human Neuropsychology approaches the study of the human brain from two organizational perspectives: biological and behavioral. The first third of the course covers the fundamentals (history, evolution, genetics and epigenetics, anatomy physiology, pharmacology, and methodology). The second third covers fundamental brain systems including sensory and motor systems, which illustrate basic circuitry and neuronal computation. The final third covers higher order cortical functions including language, cognition, social cognition, and neuropsychiatric disorders including traumatic, degenerative, and developmental disorders. Neuropsychological function is illustrated liberally with relevant case studies. Assessment consists of three objective (not essay) exams including a comprehensive final.

Sociological Theories
DELSESTO, MATTHEW J
Fall 2019
Sociological theory explores many complex questions that people have pondered for centuries, including the nature of human interdependence and how it evolves, inequality and why it is tolerated, social change and how it occurs, and social order and how it is maintained. This course introduces students to the major thinkers, classic texts, and relevant theoretical questions that have been and continue to be central perspectives within sociology. Through examining both classic and contemporary schools of sociological thought, we explore the basis for many of the core questions, debates, and methodological approaches within the discipline of sociology. Attention is paid to social and intellectual contexts, conceptual frameworks and methods, and contributions to contemporary social analysis. Throughout this course, we will also consider the application of theory and how these emergent ideas are relevant for contemporary society and current sociological research.

ADSO113001
Deviant Behavior and Social Control
CARROLL, JACLYN
Spring 2020
A look at patterns of deviant behavior such as crime, drug abuse, unconventional sexual behavior, suicide, and mental illness. Course examines how people define and respond to deviant behavior, issues of punishment and victim compensation; theories of social control and power; implications for social policy and change.
ADSO136501
Law and Society
MENNO, JAMES V
Spring 2020
Radical changes in the basic social fabric that dictate how people live, interact, communicate and work with one another create new demands for a legal system obligated to interpret and establish law. Examines emerging challenges to freedom of expression, public and private communication: cyberspace, bullying, the disparity of access to resources, family protection, national security and individual rights, and different ways of representing justice. It also explores how the balance of emotion and reason in our idea of justice "shifts" over time, corporate responsibility/irresponsibility, new definition of guilt and innocence, what is just/unjust social behavior, can citizens depend on the legal system, what holds society together.

Drugs and Society
SMITH, BRYAN A
Spring 2020

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/courses/advancing-studies/wcas-sociology.html
This course will present and explore a variety of popular and relevant non-mainstream issues of addiction in American society, going beyond simply the misuse of drugs and alcohol. A spectrum of definitions and diagnoses of addictive disorders will be discussed. It will study how the historical significance, social construction, systemic shame, cultural stigma, political influence (war on drugs), religion, and family dynamics influence people who suffer from addictive disorders. Socio-theoretical frameworks and etiological factors that explain motivations and behaviors of macro and micro addicted populations will be analyzed. Consideration will be given to the benefits and consequences of addiction in the context of individual rights, morality and legality. Finally, psychoeducation about available treatment options, as well as medical and mental health policy will be offered and critiqued.

ADSO250101
Sociological Theories
MORELOCK, JEREMIAH C
Spring 2020
Sociological theory explores many complex questions that people have pondered for centuries, including the nature of human interdependence and how it evolves, inequality and why it is tolerated, social change and how it occurs, and social order and how it is maintained. This course introduces students to the major thinkers, classic texts, and relevant theoretical questions that have been and continue to be central perspectives within sociology. Through examining both classic and contemporary schools of sociological thought, we explore the basis for many of the core questions, debates, and methodological approaches within the discipline of sociology. Attention is paid to social and intellectual contexts, conceptual frameworks and methods, and contributions to contemporary social analysis. Throughout this course, we will also consider the application of theory and how these emergent ideas are relevant for contemporary society and current sociological research.

Sports Leadership and Ignatian-based Ethics
UTZSCHNEIDER, CATHY; PATRNCHAK, JOSEPH M
Summer 2019
Sports leadership based on Ignatian ethics helps individuals, teams, and organizations realize high achievement with integrity and compassion. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models. Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

ADSA801501
Sports Analytics
SHEA, STEPHEN M
Summer 2019
Sports analytics is a rapidly evolving industry with careers in professional and amateur organizations, in the media, for supporting tech companies, and elsewhere. It's a modern application of so many academic disciplines, such as mathematics, computer science, physics, economics, marketing, and psychology; however, success in this course or in the industry doesn't require expertise in any of the above. This is a course on constructing, interpreting and communicating quantitative arguments in sports. For example, it might be quantifying injury risk for a pitcher, analyzing that risk relative to age and injury history, and then arguing to a general manager why they should or shouldn't sign player X to contract Y. Or, it might be investigating if there is a lack of competitive balance in women's college basketball, and if so, the reasons why. Students will develop statistical and writing literacy, learn basic computational skills and practice delivering oral arguments. Most importantly, students will think critically about real-world problems, where there isn't one correct solution and where there are many valid approaches. While students will do all of this in sports—a familiar medium where most have strong opinions and where amazing data is publicly available—these skills and competencies have universal application.

ADSA801801
The Athletic Director
LYNCH, MICHAEL P
Summer 2019
The role of the collegiate athletic director has evolved greatly over the years, from "former football coach turned administrator" to seasoned business executive. The Athletic Director today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a chief executive officer in a corporation and must have the acumen to match in order to be successful. This course will examine the myriad responsibilities that today's ADs hold in running the athletic enterprise on a college campus. The course will also delineate and define the most important leadership aspects of the position and those that are most determinate of successful careers in the field. The course will review the evolution of the position and describe the differences that are inherent in the position, based on university NCAA classification.

Coaching Today's Athlete
UTZSCHNEIDER, CATHY

Fall 2019
Best performance in sport is both art and science. Today?s effective coaches must know not just their specific sports, but also critical topics that affect the development and progress of each individual athlete. Through this course, coaches, athletic directors, athletes, parents of athletes, and other interested participants study principles of coaching and training in five one-day courses taught by leaders in sports psychology, sports nutrition, and athletic coaching. Focused on both theory and practice, day-long courses will focus on topics such as: - Building positive mindsets, team standards, and habits - Setting short- and long-term goals based on theories of excellence, incorporating life balance - Understanding the physiology of different populations, healthy fueling for high performance, and cross training - Developing an awareness of different personalities and learning styles - Stressing the importance of athlete self-care, including mental health, nutrition, and sleep - Preventing and managing injuries and burnout - Incorporating ethics into team cultures - Establishing a leadership style to build motivated teams

Operations and Event Management  
CONWAY, MATTHEW J  
Fall 2019  
As the sport industry continues to grow, so do the number of sport-related event management jobs. Event management is one of the most sought-after skills in the sports and entertainment industry. With the construction of massive new facilities, there is a growing need for skilled individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis. Today's sport event planner must be able to manage his personal life along with having strong conceptual, interpersonal, technical, and time management skills. The event planner must also be able to negotiate with sport event venues and recognize the importance of sport tourism and the need for collaborating with a wide variety of network organizations. This course provides you with necessary foundations of event management, including conceptualization, staffing, budgeting, financing, promoting, securing, and managing. You will have the opportunity to understand the competencies necessary for managing and operating sport events through theory and application.

Health and Wellness in Athletics and Sports Administration
RAMOS, DOUGLAS J
Spring 2020
This course, with a multidisciplinary perspective that involves athletes, health care providers, and administrators, will provide a basic overview of key health and wellness aspects within sport and the administration and delivery of that health care. It will explore the regulatory and medical legal landscape affecting sports health and wellness, beginning with the history and development of sports medicine at all levels and the evolving models currently being established. In addition to the athletes it will address the personal health and wellness of those nonathletes such as administrators and health care providers involved with athletic programs. Included in the course will be the administration and roles of members of the healthcare team. An overview of the history of sports medicine and the interaction of various health care systems in the U.S. with athletic entities will be discussed. Health and wellness priorities within the construct of an athletic department, team or program will be introduced on such topics as concussion, catastrophic injury, emergency action plans, supplement and drug usage, drug appeals & therapeutic use exemptions, mental health best practices, sexual violence, mind-body interactions in sports & injuries, strength & conditioning and sports performance, impact of select sports in society, families and the health & wellness of athletes, sleep, rest & recovery, health services in large sporting venues & national events and insurance and disability.

**ADSA801101**  
The History of Sport  
**HILES, ELISABETH A**  
**Spring 2020**
Sport is one of the largest businesses in the contemporary world. In its various forms, sporting competitions stretch across the globe, and in addition to national variants and indigenous sports, also attract a global media and support base in the form of mega events and Olympic Games. The aim of this course is to understand how sport developed around the world. In doing so the course will not only explain how sport has become a global obsession that dominates the media, sponsorship, and marketing rights and is the daily obsession of millions, but also assesses how ancient and nineteenth century ideals came to be enshrined in contemporary sport. After all, sport is not without meaning. There is the basic point of who won the game, but as a society we also ask how the game was played. On the one hand we are content to see elite players being paid of millions of dollars for throwing or kicking a ball, but also demand of them that they play the game the right way, that they adhere to a moral code centered on rules, and that they are a good role model. Much of this meaning that is given to contemporary sport can therefore appear contradictory. Unless we understand the history of sport then we cannot understand the modern forms that various sports take.

Catholic Crisis Points I: Twelve Events that Transformed the Church
SNYDER, JOSHUA R
Summer 2019
This course is the first in a two-course sequence, which offers a comprehensive introduction to the conciliar tradition of the Roman Catholic Church. This first course covers the period beginning with the first-century Council of Jerusalem and ending with the sixteenth-century Council of Trent, offering an historically-schematized overview of the ecumenical and Catholic councils of the period in question. This course attends to the evolution of councils as a means for church governance, decision-making, and conflict resolution. It also attends to the central doctrinal developments which the councils generated, including such doctrines as the Trinity, Christology, Eucharist, Church, papacy, sin-grace. Finally, the course situates these conciliar traditions within their wider historical, political, and cultural contexts. In this way, the course provides a comprehensive introduction to the history of the Catholic church and its central theological tenets.

ADTH200501
History of Theology
AGBAW EBAI, MAURICE ASHLEY
Fall 2019
This course seeks to examine the different historical epochs in terms of the theological concerns that shaped and defined them. Given that the Second Vatican Council defined Scripture as the soul of theology, the point of departure for the course will be the biblical times and themes, and the major theological currents that shaped both the Old Testament theology of the Old Testament as Israel’s history, and the New Testament theology of the New Testament as the history of the Apostolic Church. The course will consider the theological developments in the Greek East and the Latin West, in the Age of the Fathers. The Middle Ages and the theological framework of Scholasticism and Monasticism will shed light on the dominant theological currents of Medieval Christendom. Luther’s Reformation and the Council of Trent marked a watershed moment in the History of Theology, and hence deserves a critical consideration. With the Enlightenment, theology had to reassert itself under the categories of reason. This is typical of modern and post-modern theology, as seen in the developments that immediately preceded and followed the Second Vatican Council. Contemporary issues facing the world deserves a theological response, hence the necessity of examining issues like ecology (environmental and human), social justice, migration, et cetera, would constitute the central nexus of the historical evolution of theology today.

ADTH300001
Catholic Crisis Points I: Twelve Events that Transformed the Church
COOLMAN, BOYD
Fall 2019
This course is the first in a two-course sequence, which offers a comprehensive introduction to the conciliar tradition of the Roman Catholic Church. This first course covers the period beginning with the first-century Council of Jerusalem and ending with the sixteenth-century Council of Trent, offering an historically-schematized overview of the ecumenical and Catholic councils of the period in question. This course attends to the evolution of councils as a means for church governance, decision-making, and conflict resolution. It also attends to the central doctrinal developments which the councils generated, including such doctrines as the Trinity, Christology, Eucharist, Church, papacy, sin-grace. Finally, the course situates these conciliar traditions within their wider historical, political, and cultural contexts. In this way, the course provides a comprehensive introduction to the history of the Catholic church and its central theological tenets.

Theology Courses: Spring 2020

ADTH100201
Biblical Heritage II: New Testament
DARR, JOHN A
Spring 2020
An introduction to the literature, religious ideas, and historical settings of the New Testament. Focus is on major biblical concepts such as Christology, ecclesiology, grace, election, and ethics in the Gospels, the Pauline epistles, the Acts of the Apostles, and other canonical books.
ADTH101701
Introduction to Christian Theology II: Shaping Cultural Traditions
SNYDER, JOSHUA R
Spring 2020
What does it mean to be good? Is it possible to be both good and happy, both good and successful? Is morality subjective or are there clear ways to regulate it? How can we balance the individual and the community in our moral struggles? This course examines eight traditions of morality and ethics: existentialist, utilitarian, Catholic, Protestant, Christian feminist, Black theology, rights theories, and Aristotle. Students apply classic and modern thinkers to contemporary ethical problems emphasizing current events and movies. Interactive discussion is emphasized, so students discover the sources of values that formed their lives and develop a perspective for themselves and their futures.

ADTH401001
Liturgy and Sacraments
AGBAW EBAI, MAURICE ASHLEY
Spring 2020
In the Priestly Account of Creation in the Book of Genesis, we read that after the six days of creation, God blessed the seventh day and set it aside for rest and worship. All of creation is, therefore, oriented towards the worship of God. The Book of Exodus recounts the confrontation between Moses and Pharaoh as centered around the worship motif: "Let my people go," says Yahweh, "that they may worship me." Worship takes on a personalistic character in the New Testament, with Christ as the new and definitive Pascal Lamb. This course on liturgy and the sacraments, therefore, will study how liturgy developed in the Old and New Testaments as the worship of God. It will consider the transition from animal sacrifices to the worship of God in spirit and in truth, that is, liturgy as the oblatio rationabilis, in the thought of the Fathers, especially Justin the Martyr. Hence, the course will proceed in a twofold manner: firstly, it will treat the theology of liturgy, from Genesis to Revelation and in the thoughts of the Fathers, Councils, and Contemporary theologians. Secondly, it will treat the seven sacraments as doors to the sacred, doors to the worship and encounter of God.

Policies and Procedures - University Catalog

In our commitment to upholding the highest standards of integrity and excellence, the Boston College community operates in compliance with legal requirements and university policies. These policies and procedures guide the activities of students, faculty, and staff. Any changes to university policies and procedures will be updated and communicated here.

University Policies and Procedures

Accreditation of the University

Boston College is accredited by the New England Commission of Higher Education (NECHE). Prior to 2018, NECHE operated as the Commission on Institutions of Higher Education, a division of the New England Association of Schools and Colleges (NEASC). NEASC restructured in 2018 to align with the U.S. Department of Education’s requirement that NEASC’s higher education-related commission operate as an independent entity. Boston College has been accredited by NEASC, and now NECHE, since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines,
member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College’s most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College’s accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 3 Burlington Woods Drive, Suite 100, Burlington, MA 01803 (781-425-7785). For a paper copy of the information presented in this catalog, please contact the Boston College Office of Institutional Research, Planning & Assessment at 617-552-3111 or oir@bc.edu. The mailing address is Boston College, Institutional Research, Planning & Assessment, St. Clement’s Hall, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

In addition to NECHE, a variety of schools and programs at Boston College are affiliated with discipline-based accrediting agencies such as: Connell School of Nursing: American Association of Colleges of Nursing, Commission on Collegiate Nursing Education; Carroll School of Management: Association to Advance Collegiate Schools of Business; Law School: American Bar Association; Boston College School of Social Work: Council on Social Work Education; School of Theology and Ministry: The Association of Theological Schools; Morrissey College of Arts and Sciences, Chemistry Department: American Chemical Society; Lynch School of Education and Human Development, Teacher Education, Special Education, and Curriculum and Instruction programs: Council for the Accreditation of Educator Preparation; Counseling Psychology Programs: American Psychological Association, Masters in Psychology and Counseling Accreditation Council. For distance/online-related education, Boston College is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA).

**Annual Notification of Rights**

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights...
under FERPA. The annual notice is to appear in the *Boston College Bulletin* and in the *Boston College Student Guide*.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

**Student Rights Under FERPA**

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the
time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long
as the disclosure is for purposes related to the student's enrollment or transfer.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

Electronic access to selected directory information is available to both the Boston College community and the general public. A student who so wishes has the right to prevent the release of all directory information including verification of enrollment, or to suppress selected directory information at www.bc.edu/myservices (“Privacy Preferences Confirm/Review”). This must be done by the end of the first week of enrollment.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:
• Parents may obtain directory information at the discretion of the institution.

• Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.

• Parents may also obtain nondirectory information if they have a signed consent from the student.

Certificate of Enrollment

Visit the Certificate of Enrollment page for more information.

Certifying enrollment can be done for the following audiences:

• For current students and employees with access to the Agora Portal
• For alumni and external audiences, including employers

Consumer Notices and Disclosures (HEOA)

Boston College maintains a web page that provides all the annual consumer notices and disclosures required by the Higher Education Opportunity Act (“HEOA”) which reauthorized the Higher Education Act of 1965, as amended. This page, located at www.bc.edu/offices/evp/noticesanddisclosures.html, includes links to the following information:

• **Institutional and Student Information**, including information regarding the University’s academic programs, facilities, faculty, academic improvement plans, student rights with respect to the privacy of student records, transfer of credit policies, resources for students with disabilities, the diversity of the student body, voter registration, copyright and file-sharing, and how to reach the Office of Student Services, which maintains a wealth of resources and information for students and prospective students;

• **Financial Information**, including the cost of attendance, withdrawal and refund policies, information regarding financial aid programs

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/policies-procedures.html#academic_integrity_policies
(including information about eligibility requirements and criteria, forms, policies, procedures, and standards for maintaining aid), student employment information and exit counseling information, and how to reach the Office of Financial Aid;

- **Student Outcomes**, including information regarding retention rates, graduation rates, and placement and education of graduates; and

- **Health and Safety Information**, including the Campus Security and Fire Safety Report, the Drug-Free Campus and Workplace Program, and the University’s policy regarding vaccinations.

Each disclosure that is linked on the HEOA page explains how to get a paper copy of the specific disclosure. Alternatively, a request for paper copies of these disclosures may be made by calling the Office of the Executive Vice President (617) 552-3256, or sending a written request to: Boston College, Office of the Executive Vice President, Botolph House, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

**Disability Services Office**

The Disability Services Office (DSO) serves undergraduate and graduate students with physical, medical, psychological, and temporary disabilities. The Assistant Dean works with each student individually to determine the appropriate accommodations necessary for the student’s full participation in college programs and activities. The Assistant Dean also works with university administrators to develop policies and procedures pertinent to students with disabilities while acting as a general referral service on disability issues.

All accommodation requests must be submitted by June 1, 2019 to the DSO. This deadline does not apply to the Connors Family Learning Center and students registering for accommodations based on a learning disability or Attention Deficit Hyperactivity Disorder (ADHD).

For more information, contact:
Office of the Dean of Students  
Maloney Hall—Suite 448A  
140 Commonwealth Ave  
Chestnut Hill, MA 02467  
Phone: 617-552-3470  
E-mail: disabsrv@bc.edu

Services for students with learning disabilities and ADHD, as well as all testing accommodations, are coordinated through the Connors Family Learning Center (CFLC). The CFLC, located in O’Neill Library, provides academic support services and accommodations to undergraduate and graduate students. The CFLC’s services are extensive and vary depending upon the unique needs of the individual student.

For more information, contact:

Kathleen M. Duggan, Ph.D.  
Associate Director for Support Services  
The Connors Family Learning Center (CFLC)  
Thomas P. O’Neill Jr. Library, Room 200  
140 Commonwealth Avenue  
Chestnut Hill, MA 02467  
Phone: 617.552.8093  
E-mail: dugganka@bc.edu

Family Educational Rights and Privacy Act (FERPA)

Visit the Notices and Disclosures page for information regarding the Family Educational Rights and Privacy Act (FERPA).

- The page enumerates students rights under FERPA.  
- It also contains other notices and disclosures of interest to students and parents.

Financial Aid
Visit the Financial Aid page for more information about financial aid at Boston College.

Immunization

The state of Massachusetts requires that all full-time, part-time Health Sciences, and part-time visa carrying students entering college must submit proof of the following:

- Tetanus, Diphtheria, Pertussis (Tdap) vaccine one time booster after 6/2005 required for all incoming students. If Booster date is greater or equal to 10 years, a Td vaccine date must also be included.
- 2 MMR (measles, mumps, rubella) vaccines (these doses must be given at least four weeks apart beginning at or after 12 months of age).
- Hepatitis B vaccine series (a total of 3 doses at varying intervals).
- 1 dose of Meningococcal Conjugate Quadrivalent vaccine (MCV 4-A,C,Y,W-135) (Menactra, Menceve or Nimenrix only) for all full time students 21 years of age and younger. The vaccine must be on or after the sixteenth birthday or a signed waiver is acceptable.
- A reliable history of varicella disease documented by a health care provider or 2 doses of Varicella vaccine.
- Completion of the Tuberculosis Screening/Testing Form and accompanying testing if needed.

If proof of immunization for measles, mumps, rubella, hepatitis B, and/or varicella is not available, a blood titer showing immunity will be accepted.

Failure to show proof of immunizations within 30 days from the start of classes will result in a block on your registration and an administrative fee of $85 will be charged to your student account.

Majors and Minors

Visit the Majors and Minors page for more information about the following:

- Majors
- Minors
- Other Degree Programs

Massachusetts Medical Insurance

Visit the Medical Insurance page for more information regarding medical insurance at Boston College, including the following:

- Enrollment
- Waivers
- Forms
- Contacts and Questions

Notice of Nondiscrimination

Visit the Notice of Nondiscrimination page for more information, including:

- Boston College's policy of nondiscrimination
- Information regarding Title IX

Online Education

Boston College offers a variety of online programs in order to provide a BC educational experience for students who might not be able to attend in person. Whether continuing education courses, certificate programs, or full degrees, our online offerings are designed with the same Jesuit, Catholic inspiration as our on location courses, including caring for the whole person in the educational process.

State Authorization and Student Complaint Process

Boston College’s distance/online-related programs are overseen by the National Council for State Authorization Reciprocity Agreements (NC-SARA), of which Boston College is an approved member.

NC-SARA Student Complaints Procedure
As outlined by the NC-SARA student complaint process, a Boston College student must first attempt to resolve and file their complaint with the institution. In those instances when a complaint cannot be resolved at the institutional level, a student may file an appeal:

**Massachusetts Residents’ Student Complaint Procedure**

When a complaint cannot be resolved at the institutional level, Massachusetts residents may file a complaint via the Massachusetts Department of Higher Education’s (Mass DHE) online form.

[https://www.mass.edu/forstufam/complaints/complaintform.asp](https://www.mass.edu/forstufam/complaints/complaintform.asp)

For questions or additional information, the Mass DHE may be contacted at:

Massachusetts Department of Higher Education  
One Ashburton Place, Room 1401  
Boston, MA 02108  
(617) 994-6950

*For additional Mass DHE student complaint process information please refer to: [https://www.mass.edu/forstufam/documents/Final%20DHE%20Complaint%20Policy.pdf](https://www.mass.edu/forstufam/documents/Final%20DHE%20Complaint%20Policy.pdf)*

**Non-Massachusetts Residents’ Student Complaint Procedure**

For non-Massachusetts residents located in NC-SARA member states with complaints not resolved at the institutional level, students may file a SARA complaint utilizing the Massachusetts Department of Higher Education’s [NC-SARA Complaint Procedure and Online Form](https://www.mass.edu/forstufam/documents/Final%20DHE%20Complaint%20Policy.pdf).

Note that for students not located in a SARA member state with a complaint that cannot be resolved at the institutional level, the appropriate authority in your state of residence can be of assistance. *Currently, all states are members of NC-SARA, with the exception of California:*
Tuition and Fees

Visit the Tuition and Fees page for more information on the following:

- Tuition and fees
- Laboratory/course fees
- Tuition refund schedule

Veterans Benefits and Transition Act of 2018

The university will adhere to the requirements of Section 3679 of Title 38 of the Veterans Benefits and Transition Act of 2018 (referred to below as the "Veterans Benefits and Transition Act").

Boston College shall permit any student who is a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) to attend or participate in the course of education during the period beginning on the date on which such student provides to Boston College a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act and ending on the earlier of (i) the date on which the U.S. Secretary of Veterans Affairs provides payment for such course of education to Boston College, or (ii) the date that is 90 days after the date on which Boston College certifies for tuition and fees following receipt from the student such certificate of eligibility.

Boston College shall ensure that it will not impose any penalty (including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) borrow additional funds) on any student who is a covered individual because of
such student's inability to meet his or her financial obligations to Boston College due to the delayed disbursement of a payment to be provided by the Secretary of Veterans Affairs under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act.

The University reserves the right to deny access to services or impose additional fees in accordance with University policy on the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement if not paid by the student by the required due dates.

**Academic Integrity Policies**

**Academic Integrity (Undergraduate)**

**Policy and Procedures**

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their own work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process.

**Standards**

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to, the following:

**Cheating** is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student's work;
- actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

- the misrepresentation of one's own or another's identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;

- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;

- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;

- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

**Collusion** is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

**Promoting Academic Integrity: Roles of Community Members**

**Student Roles in Maintaining Academic Integrity**

Students have a responsibility to maintain high standards of academic integrity in their own work and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will, in the long run, build a peer-regulated community.
• If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or associate dean. Suspected violations by students reported to members of the faculty or to an associate dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or associate dean.

**Faculty Roles in Fostering Academic Integrity**

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

• At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
• Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.

• Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.

• Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.

• Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.

• Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

• promoting an environment where academic integrity is a priority for both students and faculty,

• ensuring that students who are honest are not placed at an unfair disadvantage, and

• establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures
In each school a Committee on Academic Integrity with both faculty and student members is to be constituted annually.

When a faculty member determines that a student's work violates the standards of academic integrity, the faculty member is encouraged to discuss the matter with the student, but in any case the faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take. If the faculty member decides to impose a grading penalty, a letter of notification describing the incident and the proposed grading penalty is to be sent to the associate dean of the school or college in which the course is taught. On receipt of such a notification, the associate dean will notify the student of the allegation and the evidence. The student's class dean will also be notified, if the course is outside of the student's home school or college. The student will be given an opportunity to respond to the allegation in writing. While a case is pending, the student may not withdraw from or change status in the course.

Each reported violation of the standards of academic integrity will be reviewed by the Committee on Academic Integrity of the school or college of the course. This will ensure that in cases involving students from more than one school, or students in joint or dual degree programs, the process and penalty will be consistent.

A board chosen by the chairperson of the Committee on Academic Integrity from the full Committee will be assigned to each case, with one of the faculty members as chairperson of the review board. The associate dean to whom the case has been reported will serve as a non-voting administrative resource. For cases that are reported in summer courses, the associate dean of the school in which the course is taught will decide the case.

The associate dean will convey to the faculty member and the student the board's findings as to responsibility and recommended sanctions. The associate dean will compile a complete file of each case. After notifying the student's class dean of the final resolution of the case, the file will be kept confidential in the Dean's office. Files on students found not responsible will be destroyed.
Penalties for students found responsible for violations will depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and the student's previous record of violations. The committee may simply affirm the faculty member's penalty and issue the student a "warning," which will be kept in a confidential file in the student's Dean's Office until the student graduates and will not be reportable to professional schools or outside agencies; or it may recommend a different grading penalty and/or impose additional administrative penalties. Such penalties may include university probation, suspension, or expulsion, all of which become part of a student's academic record and are reportable to graduate/professional schools and outside agencies.

Appeal of the board's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notice of the board's decision. The decision of the Dean will be final.

**Academic Integrity (Graduate)**

**Policy and Procedures**

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process. Cases of falsification, fabrication, and plagiarism that occur in the course of research are also subject to Boston College's research misconduct policy, which can be found at [https://www.bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html](https://www.bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html).

**Standards**
Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to the following:

**Cheating** is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student's work;
- actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

**Plagiarism** is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

**Other breaches of academic integrity include:**
• the misrepresentation of one's own or another's identity for academic purposes;
• the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
• the sale of papers, essays, or research for fraudulent use;
• the alteration or falsification of official University records;
• the unauthorized use of University academic facilities or equipment, including computer accounts and files;
• the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
• the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
• the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
• the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work, and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.
Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will in the long run build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or Associate Dean. Suspected violations by students reported to members of the faculty or to an Associate Dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or Associate Dean.

**Faculty Roles in Fostering Academic Integrity**

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:
At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.

Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.

Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.

Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.

Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.

Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

**Academic Deans**

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
• ensuring that students who are honest are not placed at an unfair disadvantage, and
• establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures

Graduate and professional students should refer to their department or school for procedures for adjudicating alleged violations of academic integrity. Penalties for students found responsible for violations may depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and/or the student's previous record of violations. Appeal of decision may be made to the representative of the department or school whose decision will be final.

Undergraduate Academic Regulations

Undergraduate Admission

Admission Information

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University’s mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, ethnic or national origin, religion, color, age, gender, marital or parental status, veteran status, disabilities, or sexual orientation.

Boston College seeks to maintain an undergraduate student body that represents a broad variety of abilities, backgrounds, and interests. Therefore, in selecting students, the Committee on Admission looks for
demonstrated evidence of academic ability, intellectual curiosity, strength of character, motivation, energy, and promise for personal growth and development. Requests for financial aid do not affect decisions on admission. The Undergraduate Admission website provides further details on the application requirements and deadlines.

**Admission from Secondary School**

While specific courses are not required, the Office of Undergraduate Admission recommends that students pursue a strong college preparatory program that includes four units of English, mathematics, social studies, and foreign language, as well as four units of a natural science. Such a program provides a solid foundation for high quality college work, as well as a stronger application in a highly selective admission process.

**Standardized Testing**

- The SAT (writing section is optional) or
- The American College Test (ACT) (writing section is optional)
- The submission of SAT subject exams is optional

All standardized test results are used in the admission process. Applicants are required to take all standardized tests no later than the October administration date of their senior year for Early Decision and by December of their senior year for Regular Decision.

The Committee on Admission will select the best combination of individual section scores when evaluating an application. International students for whom English is not their primary native language are required to submit the Test of English as a Foreign Language (TOEFL) results or the International English Language Testing System (IELTS). Students who score 650 or above in the SAT EBRW or 29 or better on the ACT English section may have this requirement waived.

**Application Procedures**
Regular Freshman Admission

Students applying to Boston College should submit the Common Application, the Boston College Writing Supplement and an $80 application fee no later than January 1. Both the Common Application and Boston College Writing Supplement are available on the Common Application website. Candidates are notified of action taken on their applications no later than April 1.

Early Decision

Early Decision I and II are binding programs for candidates who view Boston College as their unequivocal top choice institution. If admitted to Boston College through Early Decision, candidates must immediately withdraw applications to other institutions and enroll at Boston College. Students are required to submit an Enrollment Confirmation Fee to Boston College within ten days of receiving their admission offer.

Competitive Early Decision candidates present academic credentials, extracurricular engagement, and personal qualities that fit the profile of currently enrolled Boston College students. Because Early Decision attracts a small, but competitive pool of candidates, the acceptance rate will be higher at Early Decision. Completed Early Decision I applications and the Common Application Early Decision Agreement form must be submitted no later than November 1 for consideration. Candidates will learn of the Admission Committee's decision by December 15. Early Decision II applications are due by January 1 and candidates will learn of the Admission Committee's decision by February 15.

Applying to an Undergraduate Division

All applicants must designate to which of the four undergraduate divisions they are making their application: Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, Connell School of Nursing. Students are only considered for
admission to the division to which they applied. Students may not change divisions following admission, but may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the Academic Forms page.

International Student Admission

International students are expected to submit the same credentials (transcripts, recommendations, standardized tests, etc.) as domestic applicants. All documents should be submitted in English. If the credentials must be translated, the original must be submitted along with the translation. All international students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) exam or the International English Language Testing System (IELTS). A minimum TOEFL score of 250 on the computer-based test or 100 on the internet-based exam is recommended. A minimum IELTS score of 7.5 is recommended. Students applying from British systems must be enrolled in an A Level program to be considered.

Admission-in-Transfer

Transfer admission applications are available to students who have successfully completed three or more transferable courses (9 credits minimally) at a regionally accredited college or university. Transfer students must have a minimum cumulative grade point average of 3.0 to be considered for admission. Competitive applicants typically have a 3.5 to 3.7 cumulative grade point average. Students are encouraged to finish one full year of studies before seeking admission-in-transfer. Because a record of college achievement would not be available at the time of consideration, first semester freshmen may not apply for admission to the term beginning in January.
All candidates for transfer admission should submit the Transfer Common Application, the Boston College Writing Supplement, and all other required forms along with the $80 application fee. All portions of the Transfer Application can be found on the transfer website at www.bc.edu/transfer.

NOTE: A College Report must be submitted for every undergraduate institution attended full-time by the applicant. Additional copies of this form may be obtained from the Common Application website.

All supporting documents must be sent directly to the Boston College Undergraduate Processing Center, PO Box 67485, Chestnut Hill, MA 02467 by the sending institution. **Transcripts issued to students and photocopies will not be accepted.** The deadline for submitting applications is March 15 for the fall and November 1 for the spring. Fall candidates will be notified of action taken on their applications no later than May 20. Spring candidates will be notified no later than December 15.

Please consult the transfer admission website for additional information about admission-in-transfer.

**Transfer of Credit**

Boston College transfer credit policies are established by the Deans and Faculty of each undergraduate division. Course evaluations are completed by the Office of Transfer Admission. Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis. Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C- must have been earned. BC students must complete the following number of credit hours for graduation: Morrissey College of Arts and Sciences—120, Carroll School of Management—120, Lynch School of Education and Human Development—120, and Connell School of Nursing.
—117. A maximum of 60 credit hours will be allowed in transfer. The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit.

No credit will be granted for internships, field experiences, practica, or independent study.

Applicants seeking to have online courses accepted in transfer by Boston College should submit a syllabus for each course, including information about contact hours and exam requirements.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College.

For transfer students, courses taken during the summer prior to enrollment at Boston College should be approved in advance by the Office of Transfer Admission to avoid difficulty in the transfer of credits. For all incoming freshmen and currently enrolled students, all summer courses must be approved in advance by the appropriate deans.

**College credit courses taken in high school with high school teachers and other high school students cannot be used for credit. These courses may be assigned advanced placement units only if a corresponding College Board AP exam is taken and a qualifying score is earned.**

**Date of Graduation**

All undergraduate students are expected to spend four years enrolled as full-time students in order to earn a bachelor's degree.

Students generally may not accelerate the date of graduation stated in the acceptance letter, with the following exception: students who enter Boston
College after three or four semesters at a school where the normal credit requirements are less than those at Boston College and who experience a loss of one semester in their status as a result. If students have attended only one school prior to Boston College and the loss of status is due solely to differences between academic systems, students will be allowed to make up their status and graduate with their class.

A transfer student's date of graduation is determined by the number of credits accepted in transfer and the number of Boston College semesters these satisfy. The normal academic load for undergraduates is five 3- or 4-credit courses per semester. Thus, students are expected to have completed 30 credits at the end of one year, 45 at the end of a year and a half, and 60 credits at the end of two years. In determining a transfer student's date of graduation, leeway of 6 credits is allowed without loss of status. For example, students completing 24–30 credits are accepted as first-semester sophomores.

**Residency Requirement**

The requirements for the bachelor's degree generally include a minimum of eight semesters of full-time enrollment, at least four semesters of which must be at Boston College.

Transfer students may need more than eight semesters in total in order to complete all the university's degree requirements. As long as transfer students abide by all relevant University academic regulations, including at least four semesters at Boston College, they may seek to regain their original graduation-year status through course overloads and summer courses. In such cases, transfer students will not incur additional tuition charges for course overloads. Transfer students who seek to regain their original graduation date should consult with their associate dean to confirm that they are eligible to do so.

**Special Students**
Only those persons who wish to be enrolled as full-time day students are admitted by the Office of Undergraduate Admission. All other students wishing to attend Boston College on a part-time basis, for either day or evening classes, should contact the Dean of the James A. Woods, S.J., College of Advancing Studies, St. Mary’s Hall South, Ground Floor, Boston College, Chestnut Hill, MA 02467.

**Advanced Placement Units**

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Qualifying scores will be assigned advanced placement units as detailed at [www.bc.edu/advancedplacement](http://www.bc.edu/advancedplacement).

**College Courses Taken During High School**

Advanced placement units can be earned for college courses taken during high school. For more information, visit [www.bc.edu/advancedplacement](http://www.bc.edu/advancedplacement).

**Language Proficiency Requirements**

Refer to the Language Proficiency Requirements section below.

**Introductory Note on Academic Regulations**

Academic Regulations are effective from September of the current academic year (2019–2020) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.
Academic Grievances

Any student who believes he or she has been treated unfairly in academic matters should consult with the chairperson of the undergraduate or graduate department or his or her Academic Dean to discuss the situation and to obtain information about relevant grievance procedures.

Academic Record

A record of each student's academic work is prepared and maintained permanently by the Office of Student Services. While cumulative averages for academic majors are made available to undergraduate students who are currently enrolled, these averages are not maintained as part of a student's academic record. The student's semester averages and final overall cumulative average appear on the academic record. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Students are expected to attend classes regularly, take tests, and submit papers and other work at the times specified by the professor on the course syllabus. Students who are absent repeatedly from class or practica will be evaluated by faculty responsible for the course to ascertain their ability to achieve the course objectives and to continue in the course.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in class.

Professors will announce, reasonably well in advance, tests and examinations based on material covered in class lectures and discussions, as well as other assigned material. A student who is absent from class on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was
missed. The professor involved is free to decide whether a make-up will be allowed.

A student who is absent from class is responsible for obtaining knowledge of what happened in class, especially information about announced tests, papers, or other assignments.

In cases of prolonged absence the student or a family member should communicate with the student's Academic Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to classes should be made with the Academic Dean's Office as soon as the student's health and other circumstances permit.

**Absences for Religious Reasons**

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to make up such examination, or study or work requirement, that may have been missed because of such absence on any particular day. However, students should notify professors at the end of the first class meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

**Audits**

Undergraduate students may not audit a course with the exception of undergraduates in the Woods College of Advancing Studies.

**Core Curriculum—Undergraduate University Core Requirements**
The following course requirements comprise the Core Curriculum and are required for all students at Boston College in order to graduate. All Core courses must be 3 credits or more and cannot be taken pass/fail.

- 1 course in the Arts—Art, Art History, Film, Music, Theatre
- 1 course in Cultural Diversity—The Cultural Diversity requirement may be fulfilled by an approved course taken to fulfill another Core requirement, a major requirement, or an elective. Additionally, there are a number of Difference, Justice, and the Common Good courses, which satisfy the Cultural Diversity requirement, which can be found at bc.edu/core. Lynch students will take APSY1031. The CSON curriculum satisfies the Cultural Diversity requirement.
- 2 courses in History—one course pre-1800 and one post-1800
- 1 course in Literature—Classical Studies, English, German Studies, Romance Languages and Literatures, Slavic and Eastern Languages and Literatures
- 1 course in Mathematics—For CSOM students, one semester of Calculus (MATH1100 or higher) is required, and beginning with the class of 2022, CSOM students may take any course approved for Mathematics Core credit. For CSON students, MATH1180 Principles of Statistics for Health Sciences is the required Mathematics Core course.
- 2 courses in Natural Sciences—Biology, Chemistry, Earth and Environmental Sciences, Physics
- 2 courses in Philosophy
- 2 courses in Social Sciences—Economics (ECON1131 and ECON1132 are required for CSOM students graduating in 2020, 2021, and 2022; ECON1101 is required for CSOM students graduating in 2023), Political Science, Psychology, Psychology in Education (APSY1030 and APSY1031 are required for LSOE students), or Sociology
- 2 courses in Theology
- 1 course in Writing

Students are advised to select Core courses very carefully. Identification of Core courses can be determined by contacting the appropriate department in the Morrissey College of Arts and Sciences and by referencing the
Course Information and Schedule link at [www.bc.edu/myservices](http://www.bc.edu/myservices). For more information, visit [www.bc.edu/core](http://www.bc.edu/core).

**Core Renewal**

As a Jesuit, Catholic University, Boston College shares a 450-year old tradition of concern for the integration of the intellectual, moral, and religious development of its students. The centerpiece of Jesuit education has always been a common curriculum that emphasizes the study of the defining works of the humanities, natural sciences, and social sciences.

Our ongoing efforts to renew the University Core Curriculum aim to ensure that engagement with the Core, “broadens the intellectual horizons of students; introduces them to the best of contemporary pedagogy, research, and teaching; promotes their integration of knowledge, beliefs, and actions, and prepares them for lives of freedom, integrity, leadership, and service” ([The Vision Animating the Boston College Core Curriculum](http://www.bc.edu/core), 2014). Guided by this vision, students completing the University Core Curriculum will:

- Demonstrate the critical, mathematical, informational, analytic, expressive, and creative skills that are essential tools of the educated person well-prepared for a meaningful life and vocation;
- Understand the major ideas and methods of inquiry of the scholarly disciplines that comprise the university and be able to use those methods of inquiry as beginning practitioners to address complex contemporary problems;
- Be able to identify and articulate the strengths and limitations of the disciplines and the relationship of the disciplines to one another, and demonstrate an understanding of the breadth and diversity of human knowledge as well as its openness to integration in more comprehensive wholes;
- Be conversant with, and able to discuss intelligently, enduring questions and issues that are fundamental to human inquiry and that have shaped the traditions from which the university has emerged;
- Demonstrate the ability to apply more than one disciplinary perspective to the same enduring question or complex contemporary problem;
• Be familiar with the scholarly exploration of religious faith and understand how faith and reason are related in the search for truth;
• Demonstrate the ability to examine their values and experiences and integrate what they learn with the principles that guide their lives; and,
• Be prepared, and disposed, to use their talents and education as engaged global citizens and responsible leaders in service of the common good.

For more information on University Core Renewal at Boston College, please visit [www.bc.edu/core](http://www.bc.edu/core).

**Cross Registration**

**Woods College of Advancing Studies**

All full-time undergraduate students are limited to one Woods College of Advancing Studies (WCAS) course each semester. Freshmen may not enroll in any WCAS course.

WCAS courses can be used to fulfill elective requirements. Students must check with the appropriate department if they intend to use a Woods College of Advancing Studies course to fulfill a Core or major requirement.

**Boston Theological Interreligious Consortium**

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions:

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John’s Seminary and Theological Institute

This consortium offers complete cross-registration in several hundred courses, the use of library facilities in the nine schools, joint seminars and programs, and faculty exchange programs.

Theology majors and students in the School of Theology and Ministry who want to cross register through the Boston Theological Interreligious Consortium should pick up a cross registration petition in Lyons Hall and return it with an authorization by the appropriate date. Students are expected to consult with their advisor or department chairperson before cross registering.

The Consortium

Under a program of cross registration, sophomores, juniors, and seniors may take one elective course during each fall and spring semester at Boston University, Brandeis University, Hebrew College, Hellenic College, Pine Manor College, Regis College, or Tufts University if a similar course is not available at Boston College. Cross registration forms are available in the Office of Student Services, Lyons Hall.

Dean's List

The Dean's List recognizes the achievement of undergraduates semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

In order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have withdrawn from or failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.
Degree Audit

A degree audit is a computer-generated analysis that enables an undergraduate (except for Woods College of Advancing Studies) or law student and his or her advisor to assess the student's academic progress and unfulfilled requirements. Students in the Woods College of Advancing Studies can meet with an advisor and obtain a degree audit at any time.

The degree audit is a valuable tool for academic planning because it matches the courses that the student has taken with the requirements of his or her degree program or anticipated program. Students receive degree audits each semester prior to registration and have access to actual and simulated degree audits at www.bc.edu/myservices ("Degree Audit"). Students are responsible for completing all the requirements listed on the degree audit prior to graduation.

Degree with Honors

Academic honors printed in the Commencement program are based on averages at the end of the second semester senior year. The summa cum laude is awarded to the top 4.5 percent of the graduating class, magna cum laude to the next 9.5 percent, and cum laude to the next 15 percent. Academic honors are not calculated for graduate students.

Starting with the class of 2021, the cumulative average for degrees with honors will be as follows:

- summa cum laude (with the highest honors)—3.9–4.0
- magna cum laude (with high honors)—3.8–3.899
- cum laude (with honors)—3.667–3.799

Enrollment Status

Undergraduate Full-Time Enrollment Status
To be considered full-time, students must be registered for courses totaling at least 12 credits per semester. At least 9 of the credits must be in courses of 3 credits or more. Ordinarily, students should average 15 credits per semester with a target of completing 30 credits per academic year.

Lynch School of Education and Human Development students take a 3-credit First Year Experience course during freshman year. Woods College of Advancing Studies students must be enrolled in 12 credits to be considered full-time.

**Undergraduate Part-Time Enrollment Status**

Visiting or special students may enroll in one, two, or three courses each semester through the Woods College of Advancing Studies. Additional courses require the Dean's approval.

**External Courses**

After admission to Boston College, the only courses that a student may apply towards a degree will be those offered at Boston College in a regular course of study during the academic year. Any exceptions to this rule must be approved in writing by the Academic Dean before the courses are begun. Exceptions may be granted by the Academic Dean for official cross-registration programs, external summer study abroad, certain special study programs at other universities, and summer courses with an AD prefix in the Woods College of Advancing Studies.

A student must earn a grade of C- or better to receive credit for any course taken at another university. In some instances, the Academic Dean may stipulate a higher grade. After the course has been completed, the student should request that the registrar at the host university forward an official transcript to the Office of Student Services at Boston College.

**Final Examinations**
The final examination schedule for most courses is set before classes begin. It is available to the public, and students are responsible for consulting it. A student who misses a final examination is not entitled, as a matter of right, to a make-up examination except for serious illness and/or family emergency. No student should make travel arrangements to return home which are at odds with his or her examination schedule. Students who schedule a departure without so clearing their schedules risk failure in their final examinations.

Courses with multiple sections may have common departmental final examinations at a date and time determined by the Office of Student Services. Students with three final examinations scheduled for the same day are entitled to take a make-up exam at a later date during exam week. If one of the three exams is a common departmental exam, this is the exam that is taken at the later date.

In the Graduate School of the Morrissey College of Arts and Sciences, seminars and teacher-training courses may or may not have a semester examination at the discretion of the instructor.

No exams should be scheduled during the Study Days designated on the Academic Calendar.

**Language Proficiency Requirements**

All students in the Morrissey College of Arts and Sciences and the Carroll School of Management* must demonstrate intermediate-level proficiency in a foreign or classical language in order to graduate from Boston College. The Lynch School of Education and Human Development and the Connell School of Nursing do not have a language requirement.

The SAT II Subject and AP test scores below demonstrate intermediate-level proficiency at Boston College.

*Note: Beginning with the class of 2022, Carroll School will no longer have a language requirement.

Other Exams and Exam Score Minimums

- British A levels: Languages other than English A/B/C levels
- International Baccalaureate: Higher level foreign or modern classical language 6 or 7
- General Certificate of Education: German A level
- DELE exams (Diplomas de Español como Lengua Extranjera): B1 or higher level
- Successful completion of one of Boston College's language tests (for languages other than French, Italian, Spanish, and German)
- Successful demonstration of native proficiency by documentation or testing by one of Boston College's language departments

Testing is not available for all languages.

Fulfillment of the proficiency requirement by the examinations listed above does not confer course credit.

Course Work Meeting Language Proficiency Requirement
- Successful completion of the second semester of an intermediate-level Boston College modern or classical language course
- Successful completion of one Boston College modern or classical language course beyond the intermediate level
- Carroll School of Management only: Successful completion of four years of high school language study (need not be the same language, e.g., two years of Latin and two years of French)
- Carroll School of Management only: Successful completion of one year of a new language for students who enter Boston College with three years of high school foreign language

Students may not take foreign language courses on a pass/fail basis until they have completed the university’s language proficiency requirement. Language courses will count as Morrissey College of Arts and Sciences electives. Students with documented learning disabilities may be exempt from the language proficiency requirement and should consult with the Associate Dean.

**Grading**

The grading system consists of 12 categories, as follows: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. A is excellent; B is good; C is satisfactory; D is passing but unsatisfactory; F is failure.

Students who withdraw from a course after the drop/add period will receive a grade of W. The grade of W is not included in the calculation of the grade point average.

Students in the Connell School of Nursing must achieve a grade of C- or higher in nursing courses, or they will be required to retake the course.

With the approval of the Academic Dean of their school or college, students may be permitted to take courses for enrichment. These courses are normally taken in the summer. Courses approved for enrichment only, may, with the approval of the relevant department, go toward fulfilling a Core,
major, or minor requirement. However, grades for courses taken for 
enrichment are not computed into the cumulative average and are not 
counted toward the total course or credit requirement for graduation.

A student’s cumulative average is based on grades in courses taken in the 
full-time program at Boston College, plus other courses specifically 
approved for credit towards the degree by the Academic Dean. If a student 
fails a course, the course is not credited toward the degree, but the failing 
grade remains on the student’s transcript and a 0.0 is calculated into the 
student’s cumulative average. A failed course may be retaken for credit, 
with the new grade added to the GPA, but the original failure remains on the 
transcript and continues to be counted in the GPA. If a student retakes a 
failed course and fails it again, the course is again entered on the transcript 
and the grade is counted in the GPA. If a student retakes a course in which 
she or he has already received a passing grade, the repeated course is 
again entered on the transcript and the grade is calculated in the cumulative 
GPA, but the course is not credited toward the degree.

Grades will be posted at www.bc.edu/myservices ("Current Courses and 
Grades") at the close of each semester. Any student who believes there is a 
grade discrepancy on a semester grade should resolve the discrepancy 
within the first six weeks of the following semester.

**Grading Scale**

In computing averages, the following numerical equivalents for the twelve 
(12) letter grades are used:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

**Incomplete and Deferred Grades**

All required work in any course must be completed by the date set for the course examination. A student who has not completed the research or written work for a course taken in the fall or spring semester or is absent from the course examination in either semester, may, with adequate reason and at the discretion of the instructor, receive a temporary grade of Incomplete (I). All such I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer.

After that time, no further grade change will be allowed.

A faculty member may only assign a grade of J for a 2-semester course when the grade in the first semester is dependent on the grade issued at the end of the semester. The J grade has no GPA value. Instructors should assign a grade for each semester at the end of the second semester. Such courses may include an Internship, Dissertation Direction, or Student Teaching.

**Pass/Fail**

Sophomores, juniors, and seniors may elect to designate a course as pass/fail during the first seven class-days of the semester. Only electives can be taken pass/fail. Courses being used to fulfill major, minor, Core, or corequisites cannot be taken pass/fail.

Second-semester freshmen who have been approved by their Academic Dean for an overload of a sixth course of 3 credits or more may take that
course on a pass/fail basis, in which case the course may not be used to fulfill a major, minor, Core requirement, or corequisites.

No more than one course of 3 or more credits may be taken pass/fail in any semester. No student may take more than six pass/fail courses of 3 or more credits for credit toward a degree.

Courses in the Carroll School of Management and the Woods College may not be taken on a pass/fail basis. Departments may designate some courses as not available in general for pass/fail enrollment.

Students may not take foreign language courses on a pass/fail basis until they have completed the University's language proficiency requirement. Any foreign language course being used to fulfill a major, minor, Core, or corequisite cannot be taken pass/fail.

A student enrolled in a course on a pass/fail basis who earns a grade of D- or higher will receive a grade of Pass for the course.

**Pass/Fail Option for 1-Credit Courses in the Major**

At the discretion of the school or department, some 1-credit courses that are required for a major or minor may be offered on a pass/fail basis only (e.g., practica, performance).

**Grade Change**

Grade changes should be made only for exceptional reasons. For all students, the grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete to provide time to finish his or her course work. Such Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.
Graduation

Students are expected to satisfactorily complete eight semesters of full-time study (excluding summer terms) in order to earn the bachelor's degree. The University awards degrees in May, August, and December of each year, although commencement ceremonies are held only in May. A diploma will not be dated before all work is completed. Students who graduate in December may participate in commencement exercises the following May. In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at www.bc.edu/myservices (“Diploma Name Information - View/Update”) by the following dates:

- February 1 for May graduation
- May 1 for August graduation
- October 1 for December graduation

With permission from the student's Academic Dean, there are two ways the time to degree can be shortened (accelerated): (1) by qualifying for Advanced Standing or (2) by completing all requirements in less than 8 full-time semesters. Details of these two paths are given below.

Advanced Standing

Students who earn a minimum of 24 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in six or seven semesters of full-time study. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.
Beginning with the Class of 2024: Students who earn a minimum of 30 Advanced Placement units may be eligible for Advanced Standing and complete their undergraduate studies after six semesters of full-time study. Ordinarily, Advanced Standing is for one full year only. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.

For further details, visit [www.bc.edu/advancedplacement](http://www.bc.edu/advancedplacement).

**Acceleration**

After being in residence for at least three semesters, and no later than the end of the drop/add period in the seventh semester, full-time undergraduate students may apply to their Academic Dean to accelerate their degree program by one semester. The following conditions apply:

- Summer courses intended for acceleration must be taken at Boston College.
- Any credits over 15 in a semester used for acceleration are charged the per credit rate for the semester they are taken. Financial aid will not cover these additional charges.
- Students transferring into Boston College with first-semester sophomore status or above are not eligible to accelerate their program of study.
- Students who have elected to take Advanced Standing are not eligible to accelerate their graduation further.

**Internal Transfers**

Matriculated students wishing to transfer from one undergraduate college to another within Boston College should contact the Academic Dean's Office
of the school to which admission is sought. Students may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the Academic Forms page.

**Leave of Absence**

A student in good standing who desires to interrupt the usual progress of an academic program may petition for a leave of absence. The process begins in the appropriate Academic Dean’s Office and will be extended for no more than one year, although petition for renewal is possible. Students on leave of absence may not take courses to advance their status at Boston College without obtaining prior approval from the appropriate Academic Dean’s Office. Students may not participate in extracurricular activities while on a leave of absence. Normally, students returning from a leave of absence may not regain their original graduation year.

To assure re-enrollment for a particular semester following a leave of absence, students must notify their appropriate Academic Dean’s Office at least four weeks in advance of the start of the next semester.

**Medical Leave of Absence**

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student’s Academic Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student’s health care provider; the student’s consent for the provider to discuss the student’s condition with University
clinicians, and/or an independent evaluation of the student’s condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College’s medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: www.bc.edu/medinsurance. Students granted a medical leave may be entitled to a semester’s tuition credit to be provided upon readmission, and should consult their school’s policy regarding the tuition credit and their financial aid advisor.

**Military Leave Policy**

Boston College supports the participation of our students in all branches of the United States Military, both active duty and reserve, and recognizes that military obligations for such students may occasionally conflict with academic responsibilities. In such cases students who are in good academic standing and are called to duty for more than 30 days may take a leave of absence for up to three years and be guaranteed readmission to the same academic program and status they held at the start of the leave. The expected graduation date will be adjusted appropriately by the dean upon readmission. The student may qualify for a full tuition credit to be applied upon return from the leave, but will still be responsible for any board and room fees incurred.
The process for initiating the Leave is the same as that for a Medical Leave of Absence and will require official documentation of the student’s service obligation.

Students desiring to return after three years should apply for readmission through the Dean’s Office in their desired program to determine if programs or program requirements have changed.

For students whose military obligation will require fewer than 30 days away from classes, it may be possible to complete some or all of the registered coursework required to complete a successful semester. In such cases, students may be able to maintain their original graduation dates but would need to consult with the Dean’s Office and individual faculty instructors to determine if this is possible. If it is not possible to complete sufficient coursework for the semester, students may apply for a military leave of absence with the process outlined above.

For graduate and professional students the same process and conditions would apply. But such students receiving Boston College financial aid in the form of teaching or research stipends or tuition remission should consult the Director of Graduate Studies in their respective programs about potential funding issues before taking a leave as financial aid budgets are set annually by program and availability of funds may vary from year to year.

Majors, Minors, and Concentrations

Majors

A major is a systematic concentration of at least 30 credits (ordinarily ten courses) taken in a given academic discipline that enables a student to acquire a more specialized knowledge of the discipline, its history, its methodologies and research tools, its subfields, and the areas of concern in which the discipline is presently involved. This is done by means of a hierarchical sequence of courses or appropriate distribution requirements. In order to earn a major, students must have at least 27 credits in the major program that are not used to fulfill requirements for another major or minor.
Minors

Morrissey College of Arts and Sciences

Some departments offer a departmental minor for students who wish to complement their major with intensive study in another area. A departmental minor consists of at least 18 credits (ordinarily six courses). These must include one introductory level course and at least one upper-level course or seminar. In order to earn a departmental minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor. Students carrying a double major are advised not to minor.

For a complete list of minors visit the Majors and Minors page.

Interdisciplinary minors in the Morrissey College of Arts and Sciences must consist of at least 18 credits (ordinarily six courses) and must include either a required introductory course or a concluding seminar or project. (Note: Some programs require both.) In order to earn an interdisciplinary minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor or a Core requirement. The list and description of the interdisciplinary minors is available in the Morrissey College of Arts and Sciences section of this Catalog. Students choose courses for the minor in consultation with the director of the department's minor program.

Lynch School of Education and Human Development

Lynch School majors may minor in Special Education. Some Lynch School Elementary and Secondary Education majors are eligible to minor in Middle School Mathematics Teaching.

Further information on these minors is available in the Lynch School of Education and Human Development section of the University Catalog.

Connell School of Nursing
CSON students may pursue a Hispanic Studies minor, a Psychology minor, or a Humanities, Health, and Culture minor specifically for Nursing students by contacting the Academic Dean, Undergraduate Nursing Program. Six courses (18 credits) are required to complete the minor. Full details are available on the CSON website.

Carroll School of Management

Students in the Carroll School of Management may select any minor offered by the Morrissey College of Arts and Sciences. The minor in Human Resources Management—Applied Psychology and Human Development, offered in conjunction with the Lynch School of Education and Human Development, is available to CSOM students who have interests in developmental or educational psychology or in the social service professions.

CSOM students only may pursue an International Studies for Management minor. Students choose a country, or an area (e.g., the European Community), study or intern for at least one semester (or equivalent) at a university in that country, and take five international courses. Full details are available from the Academic Dean's Office.

For a complete list of minors visit the Majors and Minors page.

Concentrations

Carroll School of Management (CSOM)

Concentrations, or areas of specialization, are required for students earning degrees from Carroll School of Management and are available to Carroll School of Management students only. Most concentrations require four courses beyond the Core. However, some require five. Students must complete a concentration in one of the following areas: Accounting, Accounting and Information Systems, Accounting for Finance and Consulting, Computer Science, Corporate Reporting and Analysis, Economics, Finance, General Management, Information Systems,
Management and Leadership, Marketing, or Operations Management. Students declare a concentration second semester sophomore year or during the junior year.

**Overloads**

The standard semester course load for undergraduates is five 3-credit courses and a maximum of 20 credits, including labs and other 1- or 2-credit courses. Students are eligible to overload if they have earned at least a 3.0 overall cumulative GPA or a 3.0 GPA in the semester immediately prior to the one for which the overload is sought, in which case they may register online for a sixth course of 3 credits or more and a maximum of 24 credits, including labs and other 1- and 2-credit courses, during the first seven class-days of the semester.

Students are not permitted to take a sixth course of 3 credits or more during their first semester at Boston College. Second-semester freshmen who wish to overload with a sixth course of 3 credits or more must obtain permission from their Academic Dean.

Students with an overall cumulative GPA between 2.0 and 3.0 may, under exceptional circumstances, be allowed by their Academic Dean to enroll in a sixth course.

Students in a Woods College of Advancing Studies degree program may take a maximum course load of three courses per semester. Authorization for one additional course will be given only if the student has completed three courses in the previous semester, each with a grade of B- or better. One course may be taken during each Summer Session. Additional courses require authorization. Courses taken without reference to this regulation do not advance a student's Woods College degree program.

**Readmission**

Students who desire readmission must initiate the process in the Office of the appropriate Academic Dean of their school or college. Applications for
readmission should be made at least four weeks before the start of the semester in which the student seeks to resume study. The appropriate Academic Dean will then make the decision about readmission, after careful consideration of the best interests of both the student and the University.

In instances where a sustained period of time (more than one year) has elapsed since a student was last enrolled, the appropriate Academic Dean in consultation with the appropriate representative of the student’s department or program will identify the academic requirements, if any, that must be completed after readmission and before awarding the degree. Factors that will determine these requirements include, but are not limited to: the currency of the student’s knowledge in the student’s proposed academic major(s); the pertinence of courses completed at Boston College to current degree and licensure requirements; any academic work completed elsewhere that is relevant to degree and licensure requirements; and the length of the student’s absence.

If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student’s readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

**Satisfactory Academic Progress**

The requirements for Satisfactory Academic Progress are specified in the academic regulations for each school.

**Study Abroad—Office of International Programs**

Boston College international programs are open to BC undergraduate students who meet the requirements for study abroad as outlined by their Academic Dean. In order to be eligible for admission, students must be in good academic standing with a GPA of 3.0 or higher and have a clean disciplinary record. Final approval is at the discretion of the OIP, deans, and the Office of the Dean of Students. Many programs have additional
requirements and a selective application process. Students should consult with the OIP for specific admission requirements.

Students remain subject to the academic policies of their home department as well as the host institution. They are expected to register for a full course load as defined by BC and the host university in order to earn a full semester's worth of credit. Grades earned abroad on BC programs are converted into the BC grading scale and are factored into GPA calculations; credits are awarded based on the OIP course and credit requirement guidelines. For non-BC programs, students may transfer credit back to BC, as long as they earn the equivalent of a C- or higher. Grades on non-BC programs are not calculated into the BC GPA, though they do appear on the student's BC transcript as transfer credits.

Courses taken abroad which meet BC academic standards automatically count as general elective credit towards graduation. Students wishing to fulfill major, minor, or core requirements abroad on both BC and non-BC programs may do so with the approval of the appropriate department(s). The OIP maintains a list of abroad courses considered pre-approved for major, minor, and core requirements; for non-pre-approved courses, students must submit a completed BC Degree Audit Course Substitution and Waiver form to the Office of Student Services. Students are highly encouraged to seek such substitution approvals before taking courses abroad. For Cultural Diversity Core credit, paperwork is not required; instead, students must fill out an online request form at the Core Curriculum website.

A student's enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the Title IV, HEOA programs.

**Summer Courses**

As of summer 2018, summer courses taken at Boston College, with the exception of courses beginning with an AD prefix, count for academic credit
and all grades earned are factored into students' GPA as regular BC courses. Courses may satisfy Core or major/minor requirements as specified by the department, and will count toward the 120 credits required for the degree.

**BC Summer Courses Abroad**

BC summer courses taken abroad through the Office of International Programs (OIP) are factored into students' GPA as regular BC courses, and count for academic credit.

**Summer Courses at Other Institutions**

Summer courses taken at another university—local, national, international—or with an AD prefix in the Woods College of Advancing Studies, must be pre-approved from the Academic Dean using the Course Approval Form. Students will also need departmental approval if they want the summer course to fulfill a Core, language, major, or minor requirement. These summer courses may count for academic degree credit and grades will factor into the GPA if students have credit deficiencies. Students will receive enrichment credit if there is no prior credit deficiency. Enrichment credit means that the course may satisfy Core or major requirements with department permission, but will not count toward the 120 credits required for the degree. Courses, grades, and credits will be listed on the transcript but will not be calculated into the GPA. With the approval of the Academic Dean, students who incur deficiencies may use enrichment courses in previous summers to make up for deficiencies incurred subsequently.

Regardless of the number of summer credits earned, students must successfully complete a minimum of 96 degree credits during the academic year.

**Transcripts**

All current students submit requests for academic transcripts at [www.bc.edu/myservices](http://www.bc.edu/myservices) ("Transcript Request and Status"). Requests for
academic transcripts may also be submitted in writing to the following address: Transcript Requests, Office of Student Services, Lyons Hall, Boston College, Chestnut Hill, MA 02467, or faxed to 617-552-4975. For more information visit [www.bc.edu/transcript](http://www.bc.edu/transcript).

Requests are usually processed within 48 to 72 hours of receipt.

**Transcript/Diploma Holds**

Diplomas will not be issued, nor transcript requests honored, for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

**Transfer of Credit**

The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit. Courses in transfer with credit values ranging from 1–4 semester hours of credit will be considered on a course by course basis. A maximum of 30 credit hours for a first semester sophomore, 45 for a second semester sophomore and 60 semester hours of credit for an incoming junior will be allowed in transfer.

No transfer credit will be granted for internships, field experiences, practica, or independent study.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College. A new grade point average also begins when students transfer from the Woods College of Advancing Studies to one of the full-time undergraduate schools or when a full-time undergraduate transfers to the Woods College of Advancing Studies.
Courses taken at other institutions during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. Courses taken through the Boston College Summer Session during the summer prior to enrollment must be approved by the appropriate Academic Dean.

**University Communication Policies and Student Responsibilities**

Official communications of the University with its currently-enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

**Postal service and Campus mail:** For purposes of written communication, the student’s local and permanent addresses on record at Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at [www.bc.edu/myservices](http://www.bc.edu/myservices) ("Update Your Address/Phone/Emergency Contact Information") if the addresses are not accurate in university records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address via a link on the Office of International Programs website.

**E-mail:** The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check
for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student’s Boston College e-mail address in the “From:” and “Reply To:” lines, and should originate from the student’s Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

University Degree Requirements

The requirements for the bachelor's degree in the undergraduate day colleges are the completion with a satisfactory cumulative average (at least 1.5 in the Carroll School of Management and at least 1.667 in all other schools) and credit requirements which are distributed as follows:

- Morrissey College of Arts and Sciences students must accumulate at least 120 credits with 96 of the required 120 credits in departments of the Morrissey College of Arts and Sciences. Additional courses may be chosen from the offerings of the professional schools. Students in the Morrissey College of Arts and Sciences complete the Core curriculum, a major of at least 30 credits, and the language proficiency requirement.
- Carroll School of Management students complete 120 credits for graduation. All Lynch School of Education and Human Development majors complete 120 credits.
Connell School of Nursing students complete at least 117 credits, distributed over eight semesters of full-time academic work.

**Withdrawal from a Course**

Undergraduates may drop or add a course(s) online during the first seven class-days of the semester. Undergraduates only may drop a course until October 1, in the fall and February 15, in the spring semesters in their Academic Dean’s office. Students may not drop below 12 credits in a semester.

After the extended drop period, undergraduates who withdraw from a course will have a "W" recorded in the grade column of their academic record. A grade of W has no effect on the GPA. A student may re-take a course for which a W has been recorded, in which case both the W and the subsequent grade are entered on the academic record.

To withdraw from a course all students must go to the Academic Forms page of the Student Services website, print the withdrawal form, and then go to the Office of the Academic Dean for their school. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

**Withdrawal from Boston College**

Students who wish to withdraw from Boston College in good standing are required to file a Withdrawal Form in the Academic Dean’s Office. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

**University (Senior) Awards and Honors**

**Morrissey College of Arts and Sciences**
Frank J. Bailey, Sr. Award
An award, the gift of the Bailey family, in memory of their father Frank J. Bailey, given to the graduating senior with a distinguished academic record in the field of Middle Eastern and Islamic Studies.

John Bapst, S.J., Philosophy Award
An award in honor of John Bapst, S.J., given to the student whose overall performance in philosophy courses has been outstanding.

J. Robert Barth, S.J., Award for Excellence in the Arts
An award in honor of the Dean of the Morrissey College of Arts and Sciences (1988–1999), who established and nurtured departments and programs in the arts. This award is presented annually to a senior who has made outstanding contributions to Boston College in the fine or performing arts.

Andres Bello Award in Spanish
An award offered by Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in Spanish.

George F. and Jean W. Bemis Award
An award in memory of George Fisher Bemis (1899–1971) and Jean Wilmot Bemis (1903–1987) of Milton, MA, a devoted couple quietly of service to others and with whom it was a delight to work. The award seeks to single out a member of the senior class distinguished for service to others.

Albert A. Bennett Award
In honor of Albert A. Bennett (1888–1971), an accomplished mathematician, distinguished teacher, and a Visiting Professor of Mathematics at Boston College from 1962–1971. This award is given to a member of the senior class, who demonstrates a high level of mathematical achievement and who, in their undergraduate years, has shown interest in or a desire for a career in teaching.
**Wendy Berson Language Award**
An award, the gift of Mrs. Solomon Berson in memory of her daughter, Wendy Berson, given to the senior who demonstrates excellence in the area of Romance Languages in general and, specifically, the ability to speak one or more languages with great expertise.

**Laetitia M. Blain Award for Excellence in Musical Performance**
An award named in honor of Laetitia M. Blain, Musician-In-Residence at Boston College (1975–2000). This award is given annually to a senior who has contributed to the musical life on campus in a significant and outstanding way.

**Alice E. Bourneuf Award**
In honor of Alice E. Bourneuf, Professor of Economics at Boston College (1959–1977), this award is given to an outstanding senior in Economics based on achievement in both major and non-major courses, strength of curriculum, quality of written and creative work, and attitude toward the study of Economics.

**Francis A. Brick Award**
An award, the gift of Mrs. Francis A. Brick, in memory of her husband, Francis A. Brick, LL.D. 1896, given to the student who has been outstanding in character, loyalty, leadership, and scholarship during their four years at Boston College.

**The Dr. Donald S. Brown Award**
The Donald S. Brown Award was established in honor of the former director of the Office of AHANA Student Programs from 1978–2005. This award honors a senior who throughout their undergraduate career has made extraordinary contributions to the Boston College community in ways that have benefited AHANA students in the areas of leadership, service and academic development.

**Donald S. Carlisle Award**
An award established by the Department of Political Science in memory of Donald S. Carlisle, Professor of Political Science at Boston College (1968–
1997), given each year to a graduating senior for outstanding achievement in political science.

**Normand Cartier Award**
The Normand Cartier Award is given to a senior who is a member of the Lambda Psi Chapter of the Pi Delta Phi National French Honors Society and has demonstrated leadership in promoting French and francophone literature and culture in the Boston College community.

**Brendan Connolly, S.J., Award**
An award in honor of Brendan Connolly, S.J. (1913–1974), Director of Libraries at Boston College (1959–1974), a witty and deeply loyal man who loved books and respected learning. This award is made to a member of the senior class who is distinguished for the same characteristics.

**Matthew Copithorne Scholarship**
An award given to a graduate, exhibiting qualities of character, industry, and intelligence, and plans to do graduate study at Harvard or MIT.

**Cardinal Cushing Award**
An award donated by Francis Cardinal Spellman, in honor of Richard Cardinal Cushing, given annually to an undergraduate student for the best writing in fiction published in a Boston College undergraduate publication.

**Joseph G. and Margaret M. Dever Fellowship**
Founded by Robert Muse, Esq. '42, in honor of his classmate, Joseph Dever, the cash grant is given to a graduating senior who shows promise of a career in writing.

**John D. Donovan Award**
An award named in honor of John D. Donovan (Boston College, A.B. 1939; M.A. 1941; Harvard, Ph.D. 1951), Professor of Sociology (1952–1988). The Department of Sociology presents this award to the undergraduate student who submits the best paper written for a course in sociology during the previous year.
**Patrick Durcan Award**  
An award, the gift of Mrs. J. Greer, in memory of her brother, Rev. Patrick Durcan, given to the student whose overall performance in history courses has been outstanding.

**Figurito Family Award for Scholarly Achievement in Italian**  
An award presented in honor of Joseph Figurito, Professor of French and Italian at Boston College for over half the twentieth century, to a senior for scholarly achievement in Italian.

**The Deborah Fine Award**  
An annual gift, established in 2004, given by Ms. Judith Fine in memory of her daughter, a member of the Class of 1981. This award is given to a female member of the senior class who is going on to medical school in the fall.

**Edward H. Finnegan, S.J., Award**  
An award in memory of Rev. Edward H. Finnegan, S.J., given to the student who has best exemplified in their four years at Boston College the spirit of the College motto, “Ever to Excel.”

**Mary A. and Katherine G. Finneran Commencement Award**  
An award, the gift of Misses Elizabeth and Theresa Finneran, given to the student who has achieved outstanding success in studies, while also devoting time and talents to other activities for the enrichment of the College and student life.

**William A. Gamson Award**  
An award established by the Department of Sociology in honor of William A. Gamson, given each year to a graduating senior for outstanding academic achievement in sociology.

**Thomas I. Gasson, S.J., Award**  
An award in honor of Thomas I. Gasson, S. J., President of Boston College (1907–1914), given to the graduating senior with a distinguished academic record over a four-year period.
General Excellence Award
A gift of the Philomatheia Club, given to the student who has achieved general excellence in all branches of studies during their entire four years at Boston College.

Giffuni Prize
An award sponsored by the Giffuni Family Fund in honor of Vincent Giffuni (BC ’65), given to a senior who has written an outstanding thesis in economics.

The George J. Goldsmith Award
An award given in memory of longtime Physics Department faculty member George J. Goldsmith, who is remembered for both his scholarship and his selfless dedication to the students of Boston College, this award is given annually to a graduating physics major in recognition of excellence in academic achievement and research.

John L. Heineman Award
This award was established by the History Department in honor of the late John L. Heineman, a challenging and inspirational colleague (1963–2003), a Renaissance man, and a master teacher. It is given each year to a graduating senior in recognition of exceptional historical scholarship.

Janet Wilson James Essay Prize
An award in memory of Professor Janet Wilson James, historian and feminist scholar, given to a senior distinguished for scholarship in women’s studies.

The David A. Karp Award
An award in honor of David A. Karp, Professor of Sociology from 1971–2012. While leading the Sociology Honors Program, he inspired generations of students to strive for insightful sociological listening and beautiful writing that is the hallmark of his work.

William A. Kean Memorial Award
An award, the gift of James M. Kean in memory of his brother, William A.
Kean ’35, given to that member of the graduating class deemed the outstanding English major.

_Bishop Kelleher Award_
An award donated by Francis Cardinal Spellman in honor of The Most Reverend Louis F. Kelleher, given to an undergraduate student for the best writing in poetry published in a Boston College undergraduate publication.

_William J. Kenealy, S.J., Award_
An award in memory of the late William J. Kenealy, S.J., Dean of the Boston College Law School (1939–1956), whose life was distinguished by a passion for social justice. This award is given to the graduating senior who has been distinguished in both academic work and social concern.

_T. Frank Kennedy, S.J., Award for Excellence in the Academic Study of Music_
An award given in honor of the co-founder, long-term chair, and guiding spirit of the Music Department to an outstanding senior who has shown consistent excellence in the academic study of Music.

_Joseph M. Larkin, S.J., Award_
An award presented annually to the senior member of the Boston College Dramatics Society who has most clearly exhibited the qualities of dedication and integrity exemplified by the life and career of Rev. Joseph M. Larkin, S.J.

_John Henry Lawton Award_
An award presented in memory of John Henry Lawton, to the member of the senior class who has shown outstanding scholarship in the Department of Communication.

_Allison R. Macomber, Jr., Award in the Fine Arts_
Two awards established and supported primarily by gifts from the Horbach Fund for outstanding work in the Fine Arts in honor of Allison R. Macomber, Jr., Artist-in-Residence at Boston College, 1963–1979, whose presence and
teaching opened the eyes not only of his students but of the entire community to the greatness and wonders of art.

**J. Paul Marcoux Award**
An award in honor of J. Paul Marcoux, Professor of Theater at Boston College (1964–1994), presented annually to a senior Theater major for excellence and growth, both academically and artistically, over their four years at Boston College.

**Richard and Marianne Martin Award**
In memory of Richard and Marianne Martin for their dedication to the ideals of art, and for their unstinting devotion to the goals and values of Boston College. Two awards are given by the Boston College Friends of Art; one to an outstanding scholar in art history, the other to a student who excels in studio art.

**Denis A. McCarthy Award**
The Denis A. McCarthy Award is given to an undergraduate for outstanding work in creative writing.

**John McCarthy, S.J., Award**
An award established in memory of Rev. John McCarthy, S.J., a most beloved scholar, faculty member, and Dean in the Morrissey College of Arts and Sciences, for those whose Scholar of the College projects are deemed most distinguished in the Humanities, the Social Sciences, the Natural Sciences and in History.

**Gail A. McGrath Award**
An award presented in memory of Dr. Gail A. McGrath, a beloved professor of Communication at Boston College (1966–1997), to a member of the senior class pursuing a graduate degree in Communication.

**Albert McGuinn, S.J., Award**
This award is in memory of the late Albert McGuinn, S.J., long-time Chairman of the Chemistry Department at Boston College, and presented to the senior candidate for the Bachelor of Science degree. The recipient has
most successfully combined proficiency in a major field of study with achievements, either academic, extracurricular, or a combination of both, in the social sciences or humanities.

*Henry J. McMahon Award*
In memory of Henry J. McMahon, faculty member and Associate Dean at Boston College (1946–1984). This award is given annually to the graduating senior of the Morrissey College of Arts and Sciences who has been accepted at a law school and who has been distinguished by scholarship, loyalty, and service to the College.

*The John J. Neuhauser Award in Computer Science*
An award given to the senior in the Morrissey College of Arts and Sciences who has demonstrated outstanding achievement in computer science.

*John F. Norton Award*
An award in honor of John F. Norton ’22, Boston College professor (1926–1965), given to the student who best personifies the tradition of humanistic scholarship.

*Cardinal O’Connell Theology Award*
An award, the gift of the late William Cardinal O’Connell, given to the student whose overall performance in theology courses has been outstanding.

*The Thomas H. O’Connor Award*
An award established by the History Department in honor of the late Thomas H. O’Connor, who taught in the department from 1950–1999, and who also served as Boston College University Historian. It is given each year to a graduating senior in recognition of outstanding achievement in the study of American history.

*Princess Grace of Monaco Award*
An award offered by Dr. Helene Day, Consul of Monaco, and Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in French.
**E. Paul Robsham Distinguished Service Award**
An award given annually by the Theater Department to the graduating senior, who though seldom sharing the spotlight, has worked with exceptional professionalism, dedication, creativity and enthusiasm behind the scenes to bring the benefits of the theater to the Boston College community.

**Paul J. Sally, Jr., Award**
A cash award, in honor of Paul J. Sally, Jr., '54, '56, Professor of Mathematics at the University of Chicago, a highly esteemed mathematician well known for his many contributions to mathematical endeavors at all levels. This award is bestowed on senior mathematics majors who demonstrate excellence in mathematics coursework of a particularly demanding nature.

**Secondary Education Minor Award**
This award is conferred on a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program within the Lynch School of Education and Human Development and has achieved distinguished success as a student teacher.

**Harry W. Smith Award**
An award, the gift of the Smith Family, in memory of Harry W. Smith, a leader in corporate and community philanthropic work, to honor a member of the senior class who has used personal talents to an exceptional degree in the service of others.

**Dr. Joseph R. Stanton, M.D., ’42 Award**
This award is a gift from Stanton Medical Associates in memory of Joseph Stanton, M.D. ’42. The award is intended for a graduating senior who has been accepted by a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

**Dr. Joseph S. Stanton Memorial Award**
An award, the gift of Doctors Richard Stanton ’38 and Joseph R. Stanton ’42 in memory of their father, Joseph Stanton who was also a doctor. The
award is given to the student who has been accepted to a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

*Tully Theology Award*
An award given in memory of the late Dennis H. Tully, given to the student who has written the best paper on a theological subject.

*Max Wainer Award*
An award, the gift of Anneliese K. Wainer, Ph.D., ’72, in honor of her husband, Max Wainer, given annually to the senior who is deemed the outstanding student in Classics.

**Lynch School of Education and Human Development**

*Charles F. Donovan, S.J., Award*
Presented to a member of the senior class in honor of Father Donovan, founding Dean of the School. The recipient exhibits superior leadership, academic, and innovative qualities, and demonstrates excellence in professional and personal commitment, with a genuine concern for the needs and values of others.

*General Excellence Award*
Presented to a senior who has at the same time manifested outstanding achievement in all courses of study during four academic years and qualifies for teaching licensure.

*Saint Edmund Campion Award*
Presented for excellence in an academic major.

*Reverend Edward H. Finnegan, S.J., Nominee Award*
Presented to the Lynch School nominee for the top undergraduate prize given to the graduating senior who best exemplifies the qualities of excellence, humility, and service to others and who best epitomizes the University's motto, "Ever to Excel."
Dr. Marie M. Gearan Award
Presented in honor of Professor Gearan, a member of the original faculty and first Director of Student Teaching, to a member of the senior class for outstanding academic achievement, campus leadership, and distinguished success as a student teacher.

Saint Richard Gwyn Award
Presented to a member of the senior class for outstanding promise as a secondary teacher.

Reverend Henry P. Wennerberg, S.J., Award
Presented in honor of Father Wennerberg, first spiritual counselor in the School, to a member of the senior class who is outstanding for participation and leadership in school and campus activities.

John J. Cardinal Wright Award
Presented in honor of Cardinal Wright to that senior who has shown expert use of creativity and imagination in the area of motivation, and at the same time is dedicated to high educational ideals.

John A. Schmitt Award
Presented to a member of the senior class who, as Professor Schmitt did, has consistently demonstrated compassion for fellow human beings, integrity in dealings with others, diligence in his or her profession, and courage in the pursuit of what he or she believes to be right.

Mr. and Mrs. Vincent P. Roberts Award
Presented to a member of the senior class who is distinguished for loyalty to the ideals and purposes of the Lynch School.

James F. Moynihan, S.J., Award
Presented in honor of Father Moynihan, first chair of the Psychology Department and Professor of Psychology in Education for many years, to a student in the Applied Psychology and Human Development Program, who has shown superior scholarship, contributed creatively to the well-being of
others, and has manifested dedication and commitment to the enhancement of the human development process.

**Patricia M. Coyle Award**

Given to the graduating senior in Elementary Education who is a clear thinker in the field, able to translate the theories of child development and learning into the practice of teaching young children with enthusiasm and love, and a person who is a thoughtful, reflective teacher, perceptive and sensitive to the needs of children.

**Karen E. Noonan Award**

Given to the graduating senior in Elementary Education who has the qualities of a "natural" teacher of young children; a person who can communicate warmth and a sense of excitement for learning; a person who loves the exhilaration of working with challenging students, and making each child in the classroom feel important and unique.

**Cynthia J. Sullivan ’79 Memorial Achievement Award**

Presented to members of the junior class who have achieved outstanding academic achievement; demonstrated qualities of loyalty, generosity of self, and integrity; and show an appreciation for the arts.

**Cynthia J. Sullivan Award Winner**

Presented to last year’s winner of the Cynthia J. Sullivan Memorial Achievement Award, this stipend is intended to fund graduate study or post-graduate travel.

**Reverend John Christopher Sullivan, S.J., Award**

Presented in honor of Father Sullivan, first Associate Dean in the School of Education, to a member of the senior class who, as Father Sullivan did, exhibits cheerfulness, creativity, enthusiasm, and high energy; who demonstrates respect for individuals and is supportive of others; who shares with them the gift of personal care, regard, individual attention, warmth, and respectful sense of humor; and whose personality and actions reflect an appreciation of the dignity and value of every individual.
**Bernard A. Stotsky/Professor John Eichorn Prize**
Awarded to a student who has demonstrated excellence in the area of special education at the undergraduate level and does a practicum or pre-practicum at the Campus School as part of an academic program of study in the Lynch School.

**Gretchen A. Bussard Award**
Presented to a member of the junior class in the Applied Psychology and Human Development Program who has used what he or she has learned in the classroom to improve the lives of others.

**Nancy E. Segal Award**
Presented to a member of the graduating class for exhibiting great courage in overcoming a personal challenge to excel academically.

**Albert A. Bennett Award**
Presented by the Morrissey College of Arts and Sciences, in honor of Professor Bennett (1888–1971), visiting professor of mathematics at Boston College 1962–1971, to a member of the graduating class who demonstrates a high level of mathematical achievement and who has shown interest in or a desire for a career in teaching.

**Secondary Education Award**
Given to the student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program and has achieved distinguished success as a student teacher.

**Lynch School Awards**
Presented to graduating seniors for academic excellence and outstanding performance in a variety of areas.

**Carroll School of Management**

**Thomas I. Gasson, S.J., Award**
Founded by Boston College for general excellence in all courses of study during the four years in the Carroll School of Management.
The Edward H. Finnegan, S.J. Memorial Award Nominee
The top commencement honor which recognizes a senior who best exemplifies the University's motto: "Ever to Excel."

The James Gips Outstanding Student in Information Systems Award
Awarded to the student who has demonstrated outstanding achievement in the field of Information Systems.

The John B. Atkinson Award
Founded by John B. Atkinson for excellence in all courses studied in the field of Operations Management.

George Aragon Outstanding Student Award
For an outstanding senior concentrating in Finance. The selection is made by the faculty committee of the Finance Department.

The Edgar F. Huse Memorial Award
An award presented annually by the faculty for excellence in Management and Leadership.

The Hutchinson Memorial Award
Presented by the Boston chapter of the American Marketing Association to a Marketing student.

The Raymond F. Keyes Service Award
Awarded to a senior concentrating in Marketing who has demonstrated a desire to provide service to the nonprofit community.

Charles W. Lyons, S.J., Award
Founded by Boston College for excellence in all courses studied in the field of Accounting.

The Patrick A. O'Connell Finance Award
Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Finance.
The Patrick A. O’Connell Marketing Award
Founded by Patrick A. O’Connell for excellence in all courses studied in the field of Marketing.

The Eric Allen Serra Award
Established in 1993 by the friends of Eric Allen Serra and awarded to a graduating senior who is actively involved in the BC community and best represents the attributes for which Eric is remembered by his friends.

The James E. Shaw Memorial Award
An award given to a senior in the Carroll School of Management who has been accepted to a recognized Law School. The student demonstrates a strong personal interest in the welfare of fellow students.

The Rev. Stephen Shea, S.J., Award
Awarded to the senior who has attained the highest average in all courses in Philosophy during four years in the Carroll School of Management.

The James D. Sullivan, S.J., Award
Awarded to a senior outstanding in character and achievement.

The Matthew J. Toomey Award
Founded by Mr. Knowles L. Toomey to honor the outstanding student in the Carroll School of Management Honors Program.

Outstanding Student in Business Analytics Award
Awarded to the senior who demonstrates excellence in all courses studied in the Business Analytics discipline.

Dean's Letter of Commendation
Awarded to a senior who is recognized for exemplary accomplishment in the Carroll School community.

Connell School of Nursing
Alumni Award
Established by the alumni to honor a nursing student for general excellence in both the classroom and in the wider Boston College community. The award winner will accept the degree for the class at the University Commencement.

Marie S. Andrews Clinical Performance Award
Established by the faculty to honor the student who has demonstrated, through performance across the clinical education portion of the curriculum, sensitivity to the needs of patients, respect for dignity and “wholeness” of the patient, and outstanding ability to deliver quality nursing care.

Cathy Jean Malek Award
Established by the faculty to honor the student who is a role model for his or her fellow classmates and underclassmen with consistent professionalism and integrity.

William F. Connell Award Undergraduate Nominee
Established by the faculty to honor one graduating student who best demonstrates the attributes of leadership, loyalty, service, achievement, humility, and goodwill.

Edward H. Finnegan, S.J., Award Nominee
Established by the faculty to honor the student, who through excellence, humility, and service to others, exemplifies the Boston College motto of “Ever to Excel.” The faculty of the four undergraduate schools at Boston College each nominates a candidate and the winner is announced at the University Commencement.

Reverend Edward J. Gorman, S.J., Leadership Award
Given to the student who, in the judgment of classmates, best exemplifies leadership and who has contributed to the William F. Connell School of Nursing through dedication, service, and sincerity.

Susan E. Donelan Inclusive Community Award
Given to the student who, in the judgment of classmates has promoted a
spirit of cultural awareness, inclusivity and support to foster the success of his or her graduating class.

**Jean A. O'Neil Achievement Award**
Established by the faculty to honor the graduating senior who has shown the greatest academic growth over the course of their four years of study in the baccalaureate nursing program.

**Maureen A. Eldredge Leadership and Volunteer Service Award**
Established by the faculty to honor the graduate who embodies the Jesuit ideals of being “men and women in service to others” through demonstrated leadership and substantial commitment to others in volunteer service.

**Graduate Academic Regulations**

University-wide academic regulations that pertain to all graduate and professional students are presented below. Students are expected to become familiar with the regulations that are specific to their school.

To learn about each school’s academic regulations, please refer to the following sites:

**Graduate School of the Morrissey College of Arts and Sciences**
[www.bc.edu/bc-web/schools/mcas/graduate/current-students/policies-and-procedures.html](http://www.bc.edu/bc-web/schools/mcas/graduate/current-students/policies-and-procedures.html)

**Lynch School of Education and Human Development, Graduate Programs**
- Master’s Students: [www.bc.edu/bc-web/schools/lsoe/sites/current-students/master-s-policies-and-procedures.html](http://www.bc.edu/bc-web/schools/lsoe/sites/current-students/master-s-policies-and-procedures.html)
- Doctoral Students: [www.bc.edu/bc-web/schools/lsoe/sites/current-students/doctoral-policies-and-procedures.html](http://www.bc.edu/bc-web/schools/lsoe/sites/current-students/doctoral-policies-and-procedures.html)

**Carroll School of Management, Graduate Programs**
[www.bc.edu/bc-web/schools/carroll-school/audience-pages/current-](http://www.bc.edu/bc-web/schools/carroll-school/audience-pages/current-)

https://www.bc.edu/content/bc-web/academics/sites/university-catalog/policies-procedures.html#academic_integrity_policies
Academic Regulations are effective from September of the current academic year (2019–2020) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student’s readmission to full-time study will apply, unless the Associate Dean specifies otherwise in writing at the time of readmission.

**Academic Grievances**

Any graduate or professional student who believes he or she has been treated unfairly in academic matters should consult with the faculty member...
or administrator designated by their school to discuss the situation and to obtain information about relevant grievance policies and procedures.

**Academic Record**

A record of each graduate or professional student’s academic work is prepared and maintained permanently by the Office of Student Services. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

**Attendance**

Graduate and professional students are expected to meet course requirements in classes, internships, and practica as specified in the syllabus or document prepared explicitly for the academic experience. A student who is absent repeatedly from these academic experiences will be evaluated by the responsible faculty member and/or designated supervisor(s) to ascertain the student’s ability to continue in the course and to achieve course objectives.

Professors may include, as part of the semester’s grades, marks for the quality and quantity of the student’s participation in the course.

Professors will announce, reasonably well in advance, tests, examinations and other forms of assessment based on the material covered in the course, as well as other assigned material. A student who is absent from a course is responsible for obtaining knowledge of what happened in the course, especially information about announced tests, papers, or other assignments.

A student who is absent from a course on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a makeup will be allowed.
In cases of prolonged absence the student or his or her representative should communicate with the student’s graduate Associate Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student’s return to the course should be made with the Graduate Associate Dean’s Office as soon as the student’s health and other circumstances permit.

**Absences for Religious Reasons**

Any graduate or professional student who is unable, because of his or her religious beliefs, to attend classes, internships, or practica, or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to makeup such examination, study or work requirement that may have been missed because of such absence on any particular day. However, students should notify professors and supervisors at the end of the first course meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

**Audits**

Graduate and professional students should consult their school or department for specific policies regarding audits.

**Comprehensive Examination or Qualifying Papers: Doctoral**

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations or qualifying papers for doctoral students.

**Comprehensive Examination: Master's Students**
Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations for master's students.

**Continuation: Doctoral Candidacy**

Graduate and professional students who have completed all required coursework and who have successfully completed the comprehensive examination or the oral defense of a publishable paper are admitted to doctoral candidacy. Doctoral candidates are required to register and pay for Doctoral Continuation (9999) during each semester of their candidacy or its equivalent.

Please refer to your school’s regulation for additional information on doctoral candidacy.

**Cross Registration**

**Boston Theological Interreligious Consortium**

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in the BTI.

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John’s Seminary and Theological Institute
The Consortium

Boston College is part of a consortium that includes Boston University, Brandeis University, Hebrew College, Hellenic College, Pine Manor College, Regis College, and Tufts University. Eligible students are allowed to take courses at any of these institutions if the same courses are not offered at Boston College at any time during the academic year. Cross registration materials are available from the Office of Student Services. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium.

Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality

Eligible graduate and professional students enrolled in degree programs during the academic year may apply to participate in the Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality, an inter-institutional enterprise established to advance the field of women’s studies and enlarge the scope of graduate education through new models of team teaching and interdisciplinary study. Faculty and students are drawn from nine member schools: Boston College, Boston University, Brandeis University, Harvard University, MIT, Northeastern, Simmons, Tufts, and UMass Boston. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium. Eligible students need to obtain permission from their department or school. Registration forms will be mailed from the Consortium to accepted students.

Enrollment Status

Full-Time Enrollment Status

Graduate and professional students should consult their school or department for specific policies regarding full-time enrollment status.

Final Examinations
For graduate level courses that have final examinations, professors may use the University’s final examination schedule, which is public and set before classes begin, or they may set the day and time of their final examination in the syllabus or document prepared explicitly for the academic experience. All students are responsible for knowing when their final examinations will take place and for taking examinations at the scheduled time. Students who miss a final examination are not entitled, as a matter of right, to a makeup examination except for serious illness and/or family emergency. Students who are not able to take a final examination during its scheduled time should contact the person designated by the department or school, preferably prior to the examination date, to inform them of their situation and to make alternative arrangements if granted permission to do so.

**Foreign Language Requirement**

Graduate and professional students should consult their school or department for specific policies regarding foreign language requirements.

**Grading**

In each graduate course, in which a graduate or professional student is registered for graduate credit, the student will receive one of the following grades at the end of the semester: A, A-, B+, B, B-, C, F, W, J, U, P, or I. The high passing grade of A is awarded for superior work. The passing grade of B is awarded for work that clearly is satisfactory at the graduate level. The low passing grade of C is awarded for work that is minimally acceptable at the graduate level. The failing grade of F is awarded for work that is unsatisfactory.

A pass/fail option is available for a limited number of courses. A U grade is recorded for ungraded courses such as doctoral continuation.

Please refer to your school’s regulation for additional information on grading.
Grading Scale

In computing averages, the following numerical equivalents are used. The entire grading scale is not used by all schools.

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

Grade Changes

Grade changes should be made only for exceptional reasons. The grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete. Incompletes may be granted to provide a student time to finish his or her course work after the date set for the course examination or in the course syllabus. Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

All I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer except for students
in the Boston College School of Social Work and the Boston College Law School.

Graduate and professional students should consult their school or department for more information on grade changes.

**Pass/Fail Electives**

Graduate and professional students should consult their school or department for specific policies regarding pass/fail electives.

**Good Standing**

Grades, satisfactory performance in internships and practica, and timely completion of degree requirements determine a student’s good standing in his or her program. Students should be informed in a timely manner if their good standing is in jeopardy and the conditions needed to maintain or establish good standing.

Graduate and professional students should consult their school or department for specific policies regarding academic good standing.

**Graduation**

The University awards degrees in May, August, and December of each year except to students in the Law School where degrees are conferred in May and December. Commencement ceremonies are held only in May. Students who have completed all requirements for the degree before a specific graduation date are eligible to receive the degree as of the university’s next official graduation date. A diploma will not be dated before all work is completed. Students who graduate in December or August may participate in commencement exercises the following May.

In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at [www.bc.edu/myservices](http://www.bc.edu/myservices) by
the following dates:

- February 1 for May graduation
- May 1 for August graduation
- October 1 for December graduation

**Leave of Absence**

**Voluntary Leave of Absence**

Graduate students who do not register for course work, Thesis or Dissertation Direction, or Interim Study in any given semester must request a leave of absence for that semester. Leaves of absence are not usually granted for more than two semesters at a time, and are rarely granted for students on Doctoral Continuation. Students may apply for a personal or medical leave of absence. As described below, appropriate documentation is required for a medical leave of absence.

Students may obtain a personal or medical leave of absence form online at www.bc.edu/studentservices and submit it for their school’s Associate Dean’s approval.

Leave time for either a personal or medical leave of absence will normally be considered a portion of the total time limit for the degree unless the contrary is decided upon initially between the student and the Associate Dean.

**Personal Leave of Absence**

Students on an approved personal leave of absence should contact the Associate Dean’s Office at least six weeks prior to the semester in which they expect to re-enroll. The appropriate Associate Dean will make the decision on the readmission request.

**Medical Leave of Absence**
If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student’s Associate Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student’s health care provider; the student’s consent for the provider to discuss the student’s condition with University clinicians, and/or an independent evaluation of the student’s condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College’s medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: www.bc.edu/medinsurance. Students granted a medical leave may be entitled to a semester’s tuition credit to be provided upon readmission, and should consult their school’s policy regarding the tuition credit.

Involuntary Leave of Absence
Students may be separated from the University for academic reasons (please refer to specific school or department policies for more information) or for reasons of health, safety, or when a student’s continuance at Boston College poses significant risk to the student or others. For additional information, visit Office of Student Outreach and Support Services.

**Readmission**

Graduate and professional students seeking readmission to the University should consult with the policies and procedures specified by their department or school. The decision to re-admit a student will be based on a consideration of the best interests of both the student and the University.

**Summer Courses**

In graduate programs, summer courses may be an integral part of the curriculum. Graduate and professional students should consult with their schools or departments for specific policies regarding summer courses.

**Time-to-Degree**

Graduate and professional students should consult their school or department for specific policies regarding time-to-degree.

**Transcripts**

All current graduate and professional students submit requests for academic transcripts at www.bc.edu/myservices. Requests for academic transcripts may also be submitted in writing to the following address: Transcript Requests, Office of Student Services, Lyons Hall, Boston College, Chestnut Hill, MA 02467, or faxed to 617-552-4975.

Requests are usually processed within 48 to 72 hours of receipt. For more information, visit www.bc.edu/transcripts.
Transcript/Diploma Holds

The University will not issue diplomas or release transcripts for any graduate or professional student with an outstanding financial obligation to the University, which includes failure to complete a mandatory loan exit interview.

Transfer of Credit

Graduate and professional students should consult their school or department for specific policies regarding transfer of credit.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled graduate and professional students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal service and Campus mail: For purposes of written communication, the student’s local and permanent addresses on record at the Office of Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses and to enter corrections at www.bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester and again soon after submitting any corrections.

E-mail: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with e-mail accounts as well as access to e-mail services.
from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

Students may forward their e-mail messages from their University e-mail accounts to non-university e-mail systems. In such cases, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

All student responses to official e-mail communications from the University must contain the student’s University e-mail address in the “From:” and “Reply To:” lines and should originate from the student’s University e-mail account, to assure that the response can be recognized as a message from a member of the University community.

**Withdrawal from a Course**

Graduate and professional students who withdraw from a course after the drop/add period (after the first seven class-days of the semester) will have a “W” recorded in the grade column of their academic record. To withdraw from a course all students must go to the Forms page of the Office of Student Services website, print the withdrawal form, and then go to the Office of the Associate Dean for their school. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

**Withdrawal from Boston College**

Graduate and professional students who wish to withdraw from Boston College in good standing are required to file a Withdrawal Form in the Associate Dean’s Office. In the case of students who are dismissed for
academic or disciplinary reasons, the Associate Dean will process the withdrawal.

**University Awards and Honors**

Please refer to your school or department website for information about awards and honors.

**Special Programs**

Boston College offers a number of special programs, including the following:

**Capstone Seminar Program**

The Capstone Seminar Program helps students to "cap off" their Boston College experience by a review of their education and a preview of their major life commitments after college. Capstone offers several integrative seminars each semester exclusively for seniors and second-semester juniors in all schools. The Capstone seminars explore the struggle to discern your own calling in life as you integrate the four crucial areas of work, relationships, society, and spirituality. Capstone seminars are taught by two dozen faculty from 20 different departments and all four colleges—Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, and Connell School of Nursing. Seminars are limited to 15 to 19 students. All courses are listed between UNCP5500 and UNCP5599 in the *Boston College Catalog*. Many Capstone Seminars are also cross-listed in the home department of the professor and can be taken for elective credit by majors or minors in that department. Department regulations vary. You may take only one Capstone course during your academic career. Capstones cannot be taken as Pass/Fail. For information, contact the Program Director, Fr. James Weiss via e-mail at [james.weiss@bc.edu](mailto:james.weiss@bc.edu) or see the University Courses section of this Catalog. You may also reference the Capstone Program website at [www.bc.edu/capstone](http://www.bc.edu/capstone).
Faculty and Staff Children Exchange Program (FACHEX)

FACHEX is an undergraduate tuition remission program for children of full-time faculty, administrators, and staff at participating Jesuit colleges and universities. The program for BC employees is administered through the Benefits Office in cooperation with the Office of Enrollment Management.

For Boston College employees, five consecutive years of full-time employment is required for establishing initial eligibility for the program. Employees must complete the FACHEX Certification Form available on the Boston College FACHEX website and return it to the Benefits Office for processing before December 1. Only the Benefits Office can certify an employee child as FACHEX eligible in the AJCU's FACHEX Database, and this form contains the required information for entry. Employees should also consult the FACHEX website for information about rules of the program, and strongly consider contacting the FACHEX Coordinator at the participating colleges and universities their child is applying at, to follow those school's specific admissions deadlines or requirements. BC does not maintain admissions policies of other schools in the program, and cannot advise on their behalf.

Employees should be aware, however, that FACHEX awards tend to be extremely limited in number and are highly competitive in terms of academic selectivity. As a result, there are no guarantees to the children of any given faculty or staff member that they will be able to utilize the FACHEX benefit at the institution of their choice. Also, many participating schools only consider incoming freshman applicants for FACHEX, so transfer students or upperclassmen may not be eligible.

Employees at other participating institutions should ask their respective Benefits Offices for information on requirements for eligibility. Parents and students should then visit the Boston College FACHEX website to view the necessary procedures and conditions for FACHEX applicants.

Gabelli Presidential Scholars Program
The Gabelli Presidential Scholars Program is a university-wide, 4-year co-curricular honors program that uniquely expresses the Jesuit heritage of Boston College. Approximately 15 incoming freshmen are chosen each year from the top one to two percent of the national pool of students applying for Early Action admission to Boston College. Students are selected on the basis of superior academic achievement and promise, leadership potential, and a demonstrated commitment to service to society. The Program offers these extraordinary individuals the richest academic experience available at Boston College, one that encourages the pursuit of excellence both within and beyond the University walls. Presidential Scholars receive a full-tuition merit scholarship.

In addition to enrollment in one of the University's several departmental honors programs, during the academic year Scholars meet weekly to discuss their area of concentrations (science and pre-med, humanities, political science and international studies, and management, economics and finance), to share experiences and find greater wisdom in applying for study grants, language programs, internships, and fellowships, and to partake in the cultural life of Boston at the theater or the symphony. To complement the emphasis on ideas and ideals they encounter in their classes, and in their summer programs, Presidential Scholars also give presentations to their fellow scholars about a variety of their experiences including study abroad, Advanced Study Grants, internships and thesis writing. These presentations serve as additional avenues of inspiration to younger scholars, offering them a glimpse of the opportunities that are open to them throughout their college careers. In addition, these presentations offer the upperclassmen scholars the opportunity to develop and refine their public speaking skills.

During the spring semester freshman Presidential Scholars travel to a country in Europe, while the sophomore Scholars travel to a country in Latin America. These trips are intended to be the starting point in the Scholars’ journey of becoming “global citizens.” In their freshman year, they spend a week in a non-English speaking European country, so as to realize skills that meet the challenge of linguistic differences. In their sophomore year,
they have an immersion experience of the social and economic challenges for our neighbors to the South.

In the summers, Scholars are challenged to test and apply what they have learned at Boston College to the world beyond the campus by participating in experiential learning programs focusing on service learning (after the first year), independent international study and travel (after the second year), and professional internship (after the third year).

Through this carefully balanced combination of academic rigor and co-curricular opportunities and challenges, the Gabelli Presidential Scholars Program seeks to develop exceptional scholars and leaders for the Boston College community and far beyond.

**Office of International Programs (OIP)**

International programs are an integral part of the undergraduate experience at BC. Each year approximately 1,200 students—or over 50% of a given graduating class—spend a semester, summer, or academic year studying, interning, conducting research, and/or volunteering abroad. BC collaborates with a variety of partner universities worldwide to administer programs in about 30 countries. To apply for semester/academic year programs abroad, students are required to have a 3.0 GPA and be in good disciplinary standing. Additional non-BC approved programs are listed on the OIP website. The OIP also offers around 30 short-term, faculty-led summer programs that are open to both BC and non-BC students and have no minimum GPA requirement. Students should begin planning to go abroad as early as their freshman year. Information on the OIP website, information sessions, and individual meetings with OIP advisors help students choose the best program for their academic needs.

For more information, please visit [www.bc.edu/international](http://www.bc.edu/international). The OIP is located in Hovey House (258 Hammond Street, 617-552-3827).

**Academic Year Programs***
*Note: “BC in –” programs denote those options where there is a resident director or on-the ground support staff in addition to services offered by the host institution. Services range from full-time coordinators to more limited support.

**Argentina**

*BC in Buenos Aires: Pontificia Universidad Católica Argentina (UCA)*
Semester or full-year program at this excellent private institution located in downtown Buenos Aires. Offerings include arts and music, economics and business, law and political science, humanities, and communication.

*BC in Buenos Aires: Universidad Torcuato Di Tella*
Semester or full-year program in Buenos Aires at one of Argentina's most prestigious private universities. Offerings include business, economics, political science, international studies, journalism, and history.

**Australia**

*Monash University*
One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program in a suburb of Melbourne. Offers courses across all disciplines.

*Notre Dame University*
Semester or full-year program at a small Jesuit university in Fremantle, Western Australia, with a wide range of courses across all subjects, particularly in the arts and humanities. Optional Australian Studies course with field trips.

*University of Melbourne*
One of the Group of Eight schools located in the heart of the city. Semester or full-year program. Exceptional in all subject areas, especially Arts and Sciences.
University of New South Wales
Semester or full-year program at one of the Group of Eight schools located in Sydney, with broad offerings across all disciplines. Internship opportunities and an optional pre-semester program to study the environment at the Great Barrier Reef.

University of Queensland
Group of Eight school located in Brisbane. Semester or full-year program with a broad curriculum. Exceptional in all subject areas, especially biology, marine studies, psychology, business and economics. Research opportunities for students.

University of Western Australia
Group of Eight school located in Perth. Semester or full-year program with a broad, excellent curriculum. Strong in all subject areas—particularly sciences, environmental sciences, social sciences, business, education, and music.

University of Sydney
Group of Eight school located in Sydney. Semester or full-year program with a broad curriculum. The majority of students enroll in arts and social sciences, business, science, engineering, information technologies, or health sciences.

Austria

Vienna University of Economics and Business (WU)
Semester or full-year program at one of Europe’s top business schools, with courses taught in English for CSOM or Economics students. No prior German language required.

Brazil

BC in Rio de Janeiro: Pontifícia Universidade Católica do Rio de Janeiro (PUC-Rio)
Semester or full-year program with courses in all disciplines. For students
with elementary, intermediate, and advanced Portuguese as well as advanced Spanish skills. Offers an English-language track in Brazilian and Latin American culture with a mandatory Portuguese course.

Chile

*Pontificia Universidad Catolica de Chile (PUC)*
Semester or full-year program in Santiago at Chile's premiere Catholic university. Courses include humanities, social sciences, economics, education, business, and law.

*Universidad Alberto Hurtado (UAH)*
Semester or full-year program at a small, prestigious Jesuit institution in Santiago. Good for social sciences, humanities, philosophy, business, literature, and pre-law.

China

*Chinese University of Hong Kong*
Semester or full-year program in a college system setting, with a wide range of courses taught in English. CUHK offers classes in business administration, education, engineering, the natural and social sciences, as well as a summer academic research opportunity (SURP).

*Hong Kong University of Science and Technology*
Semester or full-year direct enrollment program with a strong focus on business/management for CSOM students only. On-campus housing. Courses taught in English.

*University of Hong Kong*
Semester or full-year program suitable for most students, especially those concentrating in the humanities and sciences. Courses taught in English.

Denmark
Copenhagen Business School  
Semester or full-year program with courses taught in English for CSOM or economics students.

Copenhagen University  
Semester or full-year program with courses taught in English in the humanities, social sciences, law, health science, natural science, and theology.

Ecuador  
BC in Quito: Universidad San Francisco de Quito (USFQ)  
Semester or full-year program with course offerings across the disciplines. Limited science courses offered in English as well as courses in other subjects in Spanish. Community health course available for Nursing and pre-med students. Students participate in service work as part of the mandatory on-site coordinator course.

England  
BC in London: King's College London, University of London  
Semester or full-year program in London with course offerings across the disciplines including a pre-medical course track.

BC in London: London School of Economics (LSE)  
Full-year program in social sciences, including economics, finance, political science, and sociology.

BC in London: Queen Mary, University of London  
Semester or full-year program in London’s vibrant and diverse East End, with courses across the disciplines

BC in London: Royal Holloway, University of London  
Semester or full-year program with a suburban, park land campus and a wide range of course offerings for MCAS and CSOM students.
BC in London: School of Oriental and African Studies (SOAS), University of London
Semester or full-year program in central London with specialist studies of Africa, Asia, and the Near and Middle East, including history, languages, politics, religion, and sociology.

BC in London: University College London, University of London
Semester or full-year program for MCAS students at the University of London’s top-ranked college in central London.

University of Bristol
Semester or full-year program located in Bristol, England, with courses across the disciplines.

Durham University
Full-year program offering courses across many disciplines including English, history, philosophy, theology, economics, and the sciences.

Lancaster University
Semester or full-year program with courses across the disciplines, including courses in the sciences for pre-medical students and in management for CSOM students.

University of Liverpool
Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

University of Oxford, Mansfield College
Full-year program only. Suitable for students in MCAS interested in small, independent study.

France

BC in Paris: Université de Paris
Semester or full-year program based at the University of Paris. BC students attend the University of Paris IV (Sorbonne) or the University of Paris IX
(Dauphine). Offers a wide range of disciplines. Courses are taught in French, with a small number taught in English at the University of Paris IX (Dauphine).

**BC in Paris: L’Institut de Langue et de Culture Française (ILCF)**
A French language institute connected to L’Institut Catholique de Paris (ICP). French-taught semester program offers courses in French language, phonetics, grammar, and conversation. English-taught courses in other subjects are available.

**BC in Paris: L’Institut Catholique de Paris (ICP)**
Semester or full-year program offering French-taught courses in humanities, education, theology, and philosophy.

**BC in Paris: L’Ecole Supérieure de Commerce (ESCP)**
Semester program based at the oldest business school in France. Students take courses in international business, finance, economics, and marketing. Courses taught in French and/or English.

**BC in Paris: L’Institut d’Etudes Politiques de Paris (Sciences Po)**
Semester or full-year program offering courses in business, history, communications, law, journalism, political science, international relations, economics, and European studies. Courses taught in French and English.

**Germany**

**Eichstätt Catholic University**
Spring semester or full-year program at a small university located near Munich, with course offerings in arts and sciences, business, and education. Intensive pre-semester language program in Munich. Offers beginning and advanced track programs.

**Frankfurt School of Business & Management**
Semester or full-year program offering courses in business and law. Courses are taught in English. Excellent opportunity for business and economics majors in Frankfurt.
Greece

American College of Greece (ACG)
Semester or full-year direct enrollment program in Athens. Course offerings from wide range of curricula taught in English with highlights in business, communication, and psychology. University housing, activities, service, and internship opportunities.

Ireland

BC in Cork: University College Cork
Semester or full-year program offering a broad selection of courses in a wide range of disciplines including business, arts, and sciences. Fall semester students take a university early start program, while spring semester students take a mandatory Irish Studies course taught by the BC on-site coordinator.

BC in Dublin: National University of Ireland Maynooth
Semester or full-year program in a small campus environment outside of Dublin. Voted Ireland's Outstanding University for 2008. Mandatory Irish Studies course taught by the BC on-site coordinator.

BC in Dublin: Trinity College Dublin
Semester or full-year program at one of Europe's oldest and most prestigious institutions located in the center of Dublin. Wide range of courses across all disciplines. Mandatory Irish Studies course taught by the BC on-site coordinator.

BC in Dublin: University College Dublin (UCD)
Semester or full-year program with offerings across the disciplines, including Arts and Commerce. Students in the Arts and Sciences faculties select two departments in which to take their courses. Commerce students take most classes within the Quinn School. Mandatory Irish Studies course taught by the BC on-site coordinator.
BC in Galway: National University of Ireland, Galway
Semester or full-year program with course offerings across the disciplines. Some courses are approved for CSON students. Mandatory Irish Studies class taught by BC on-site coordinator.

Italy

BC in Parma: University of Parma
Semester or full-year program at the University of Parma, with a wide range of disciplines offered. Courses taught in Italian.

BC in Parma: L'Istituto Dante Alighieri, Parma
Semester or full-year program at the Istituto Dante Alighieri, offering a range of courses taught in English.

Bocconi University, Milan
Semester or full-year program based at one of the leading business schools in Europe. Courses taught in English and Italian.

Venice International University
Semester or full-year program located at Venice International University, an international higher education and research center co-run by fifteen consortium members from around the world. Based on San Servolo Island, just a few minutes from St. Mark's Square in the heart of Venice. Students take courses taught in English in the social sciences and international studies.

Japan

Sophia University
Spring semester or full-year program at a Jesuit sister university, with course offerings in English covering a wide range of disciplines. University housing in Tokyo.

Waseda University
Spring semester or full-year program with course offerings in English.
University housing and homestay options in Tokyo.

Lebanon

*American University of Beirut*
Semester of full-year program with wide ranging course offerings in English in the culturally vibrant scene of Beirut and the Levant. Excellent opportunity for Islamic Studies and Arabic language students. On-campus housing.

Mexico

*Universidad Iberoamericana: Mexico City*
Semester or full-year program for students in most disciplines at this private, Jesuit institution famed for research and social engagement. Courses are taught in Spanish.

Morocco

*Al Akhawayn University*
Semester or full-year program in Ifrane, with course offerings in English. Excellent opportunity for business students and those looking to study in francophone North Africa. Recommended for Islamic Studies and intensive Arabic language. Volunteer placements by arrangement.

Nepal

*BC in Kathmandu: Center for Buddhist Studies*
Semester or full-year program offers an in-depth study of Buddhist philosophy. Highly recommended for students interested in comparative religion, theology, and philosophy. Courses in Tibetan or colloquial Nepali language offered. Homestays with local families.

The Netherlands

*Amsterdam University College*
Semester or full-year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.
University College Utrecht
Semester or full year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

University of Amsterdam
Semester or full-year program with English courses available in the humanities and social sciences.

New Zealand

University of Otago
Semester or full-year program at one of New Zealand’s top-ranked universities. Exceptional course offerings across the disciplines, especially environmental sciences, business, theology, arts, and humanities.

Norway

University of Bergen
Semester or full-year program with wide ranging curriculum in English with strengths in natural and marine sciences.

The Philippines

Anteneo de Manila University
Semester or full-year program at a leading Jesuit university, with wide ranging curriculum in English. Good opportunity for CSOM students, as well as those interested in service.

Poland

Jagiellonian University
Semester or full-year program in politics, sociology, Polish language, literature, and culture at the University’s Center for European Studies.

Scotland
BC in Glasgow: University of Glasgow
 Semester or full-year program offering courses across all disciplines including economics, business, the sciences, and pre-medical.

Singapore

National University of Singapore (NUS)
 Semester or full-year program at leading research university. Wide variety of courses instructed in English.

South Africa

BC in Grahamstown: Rhodes University
 Semester or full-year program in Grahamstown with courses across the disciplines. Supervised service-learning placements through the BC program.

BC in Cape Town: University of Cape Town
 Semester or full-year program in Cape Town with courses across the disciplines. Recommended for students majoring in the sciences, business, and humanities. Volunteer opportunities available.

South Korea

Seoul National University
 Semester or full-year program at a leading research university with a range of courses offered in English. Opportunities to study Korean language.

Sogang University
 Semester or full-year program at a sister Jesuit university in Seoul, with a range of courses offered in English. Opportunity for intensive language study. On-campus housing.

Spain

BC in Barcelona: ESADE
 Semester program in Barcelona offering courses in business and law.
English-taught curriculum.

BC in Barcelona: Universidad Pompeu Fabra (UPF)
Semester or full-year program in Barcelona offering courses in Spanish in many disciplines, except the sciences.

BC in Granada: University of Granada, Granada Institute of International Studies (GRIIS)
Semester or full-year program with courses that focus on Spanish language, culture, history, literature, art history, economics, and politics.

BC in Madrid Carlos III English SAP
Semester or full-year program in English for students in most disciplines, especially in the social sciences and business.

BC in Madrid: Pontificia Comillas
Semester or full-year program for students in many disciplines at this private, Jesuit institution. The ICADE campus offers courses in business, economics, and law. The Sociales campus offers courses in social sciences, humanities, and international relations.

Universidad de Deusto
Semester or full-year program in Spain's Basque country on campuses in San Sebastián and Bilbao. San Sebastián offers courses in business, economics, literature, sociology, philosophy, and communications. Bilbao offers courses in most disciplines.

United Arab Emirates

American University of Sharjah (AUS)
Semester or full-year program in a diverse, English-language university in the heart of the UAE with a large international population. Courses available in the arts, humanities, sciences, languages, and management.

Summer Sessions
Faculty-led summer programs are open to undergraduate and graduate students with OIP approval. Programs are taught in English except for language courses. Programs listed are subject to change on an annual basis.

Europe

**Ballyvaughn, Ireland**
Imagination and Creativity and the Irish Landscape (3 credits)

**Barcelona, Spain**
Managerial Accounting (3 credits)

**Berlin, Germany**
Berlin: An Enduring Allure (3 credits)

**Bordeaux, France**
Intensive Intermediate French (6 credits)

**Dublin, Ireland**
The Business, History, and Politics of Sport (3 credits)

**Ireland, Northern Ireland, and Scotland**
The Politics of Self-Rule (3 credits)

**Madrid, Spain**
Introduction to Law and the Legal Process (3 credits)
Spanish Art History: from Al-Andalus to Picasso (3 credits)

**Paris, France**
Food Writing in Paris (3 credits)
Paris Noir: From La Negritude to Le Hip Hop (3 credits)
The Twentieth Century and the Tradition in Paris (3 credits)

**Paris, France and London, England**
Which is better? An Economic Comparison of Health Care in France, the
UK, and the USA (3 credits)

*Parma, Italy*
Food, Power, and Politics (3 credits)
The Art of Physics (3 credits)

*Rome, Italy*
Contemporary Italian Culture through Film (3 credits)
Saints and Sinners (3 credits)

*Venice, Italy*
Globalization, Culture, and Ethics (3 credits)
The Imaginary City: Why Writers Love Venice (3 credits)

*Zagreb, Croatia and Sarajevo, Bosnia and Herzegovina*
Philosophy of Peace and Hospitality (3 credits)

*Latin America*

*Quito, Ecuador*
Conservation Ecology in Ecuador (3 credits)
Global Health Perspectives (3 credits)

*Santiago, Chile*
Through the Eyes of Service: Social Justice in Chile (3 credits)

**Internships Abroad**

*Dublin, Hong Kong, Madrid, Paris, and Prague*
Eight-week, independent internship program offers students the opportunity to experience the local work culture first-hand. OIP staff work with students to design the best possible internship based on student interests, majors, and previous work experience.

**Other Opportunities**

**Overseas Teaching Program**
Students perform pre-practica or full practica in elementary or secondary student teaching abroad.

Applied Psychology and Human Development Practica Abroad

Lynch School students can do an Applied Psychology and Human Development Practicum while studying abroad. See the Dean's Office for details.

Washington Semester

BC offers a semester-long internship program in cooperation with American University in Washington, DC. The program combines academic courses with internship placements in legislative, executive, and interest-group offices in the nation's capital. The academic requirements for participation are the same as those for study abroad, and Washington semester programs are administered as approved external programs through the OIP. The program can be combined with a study abroad experience.

SEA Education Association Program

The university offers a semester-long opportunity with SEA Education Association (SEA), an Environmental Studies program, which challenges students intellectually and physically by combining a sailing experience with the study of the deep ocean. The interdisciplinary program tracks are designed for students who wish to gain a comprehensive understanding of the world’s oceans, as well as explore a specific ocean-related theme including a shore component. Students, especially those majoring in the natural sciences, can complete a semester with SEA as an alternative to study abroad, or in combination with another semester program. SEA programs are administered as approved external programs through the OIP.

Pre-Professional Programs

Pre-Law Advising
Boston College has a dedicated pre-law advisor and offers pre-law advising through the Career Center. The Boston College Career Center and two pre-law student associations, the Bellarmine Law Society and the AHANA Pre-Law Student Association, present panels each year on different aspects of the legal profession and the law school admission process. Career coaches are available to meet individually with students interested in law as a career whenever questions or concerns arise. While no particular major is preferred by law schools, it is suggested that students consider including some of the following courses in their programs of study: logic, mathematics, law, public speaking, English (especially intensive writing courses), history, sociology, and political science. You can indicate your interest in receiving announcements of pre-law panels and activities by officially registering as Pre-Law in the Academic Advising Center or Office of Student Services. Before scheduling a pre-law advising appointment, students should review the Boston College Pre-Law Advising Handbook (PDF). For further information, contact the Career Center at 617-552-3430 and view the Career Center's Government, Law, and Public Policy page for information on applying to law school.

**Pre-Health Program**

Medical, dental, veterinary, and other health professions schools welcome qualified students from diversified academic backgrounds. Thus, the student planning to pursue a health related career may choose for a major field of study in any one of the humanities, natural sciences, or social sciences. Below is a brief summary of the program. For detailed information, visit www.bc.edu/premed.

Health professions graduate schools expect each applicant to be well grounded in the fundamental sciences and to be familiar, through practical experience, with laboratory techniques. For these reasons, most health profession schools require one year of coursework at the college level in the following disciplines:

- General Chemistry with lab
- Organic Chemistry with lab
• Biology with lab
• Physics with lab
• English

In addition, one year of mathematics is usually strongly recommended. Some medical schools require calculus. Many health professions graduate schools have additional requirements, such as Biochemistry, Microbiology, Statistics, and Animal Nutrition, for example.

**Academic Plan**

*Four (+) Year Program*: The majority of pre-health students (76%) at BC, as well as other institutions, are applying to graduate schools in the health professions at the end of their senior year—or later. Students who elect to delay their applications have the opportunity to pursue other interests and/or opportunities (e.g., study abroad, completing a thesis, minoring in a non-science discipline, volunteer work, or research) thus potentially making them more attractive candidates. This is a good option for students who have performed modestly during freshman year, since it will allow additional time to bring grades, particularly in the sciences, into a more competitive range. The four year option also allows for greater flexibility in planning for entrance exams (MCAT, DAT, GRE). The average age for students beginning graduate school in the health professions is approximately 25; therefore, the applicant taking one or more (gap) growth year(s), is increasing.

For a complete overview of the required pre-health curriculum, course numbers, and recommended course sequencing, please visit the B.C. Pre-Health website ([www.bc.edu/premed](http://www.bc.edu/premed)).

**Three Year or Four Year Sequencing**

*Three Year Program*: Undergraduates who plan to matriculate to health professions graduate school the fall after they graduate will need to complete all required courses (see above) by the end of junior year.
Applications are filed the summer before senior year. While simultaneously taking junior year course work, we recommend that students study for and take the Medical College Admissions Test (MCAT) preferably by the end of spring semester (late April/May) of their junior year. Students taking the Dental Admissions Test (DAT) are encouraged to take it in early summer (e.g., May/June). In addition, health professions graduate schools expect a high level of academic performance, significant exposure to the health field, through clinical placements and shadowing as well as other meaningful extra-curricular experiences.

Clearly this is a great deal to accomplish in three years and, for this reason, increasing numbers of students choose the four year option above. If you follow the three year program and are a competitive candidate, you would be invited for interviews during the fall/early winter of your senior year. If accepted, you would begin graduate school in August/September following your graduation from BC.

**Advanced Placement**

For specific information regarding advanced placement, please visit [www.bc.edu/premed](http://www.bc.edu/premed).

**Further Information**

If you would like to speak with a staff member call 617-552-4663 or e-mail us at premed@bc.edu.

**PULSE Program for Service Learning**

For a description of the PULSE Program, please visit the [PULSE website](http://www.bc.edu/premed).

**Reserve Officers' Training Corps**

**Air Force Reserve Officers’ Training Corps**
Through a cross-enrolled program with Boston University, interested Boston College students may participate in the Air Force Reserve Officers’ Training Corps program. Scholarships (full and partial) are available to qualified students for four, three, or two years and include tuition (full or partial), books, fees, and a monthly stipend. Freshmen and sophomores can compete for 2- and 3-year scholarships, some of which would cover full tuition, others which cover $15,000 per academic year. Academic specialties for scholarships include all majors. All training, drills, and classes are held at the BU campus. Service obligations are one year for each scholarship year (active duty), while pilots are obligated for eight years active duty after completion of flight school. To obtain further information, contact the Department of Aerospace Studies, Boston University, 617-353-4705, afrotc-all-mail@bu.edu.

Army Reserve Officers’ Training Corps

The U.S. Army offers Reserve Officers’ Training Corps (ROTC) at Boston College as a partnership school in cooperation with Northeastern University. Combined, Boston College and Northeastern University make up the Liberty Battalion. Boston College students attend classes and training on the Chestnut Hill campus. Upon graduation and successful completion of all pre-commissioning requirements, Cadets receive a commission as a Second Lieutenant in the U.S. Army and serve on active duty or in the Reserves in a variety of fields. Qualified graduates may also be selected to attend professional schools, such as medical or law school.

Scholarships may be available for qualified high school students admitted to Boston College and college students currently attending BC. In addition, scholarships may be available to Boston College Nurses through the ROTC program. All scholarships include full tuition and mandatory fees, a monthly stipend, and money for books. Boston College also awards additional incentives for Army ROTC scholarship Cadets. For more information including an application, contact the Liberty Battalion Recruitment Officer at 617-373-2378 or the Boston College Department of Military Science (Carney Hall 171 and 172) at 617-552-2322/2580 or visit www.bc.edu/armyrotc.
Marine Corps Platoon Leaders’ Class (PLC)

Available in connection with the Marine Officers Selection Office, Boston, the PLC Program is open to qualified freshmen, sophomores, and juniors. No formal classes or training takes place during the academic year. Students/candidates attend Officer Candidate School (Quantico, VA) training either in two 6-week sessions (male freshmen/sophomores) or one 10-week session (male and female juniors/seniors). Pay and expenses are received during training. No commitment to the USMC is incurred after OCS until a degree is awarded and a Second Lieutenant’s commission issued. Service obligations are then three and a half years active duty or longer for aviation positions. Students/candidates may drop from the program at any time prior to commissioning. For more information, contact the Marine Officer Selection Office, Boston, at 888-753-8762.

Navy Reserve Officers’ Training Corps

Qualified BC students may cross enroll in Navy Reserve Officers’ Training Corps (and the Marine Corps Option) at Boston University. There are 3- and 4-year programs with possible scholarships (full tuition, some books/fees expenses, monthly stipend, but no room and board). All classes and drills are held at Boston University. Scholarship students incur an active duty service obligation. For further information, please contact the Department of Naval Sciences, Boston University, 617-358-0471, burotc@bc.edu.

ROTC courses display on the academic record but do not count towards the required number of credits for graduation or in the G.P.A.

Undergraduate Faculty Research Fellows Program

Boston College established the Undergraduate Faculty Research Fellows Program (URF) for the purpose of enhancing the academic experience of undergraduates by cultivating their research skills and fostering mentor relationships between undergraduates and faculty. The program provides a grant to faculty to pay for a student's research assistance with a faculty member's research project. It is considered student employment and the
student may work up to 20 hours a week during the academic semester, up
to 40 hours a week during semester breaks or the summer, depending on
faculty need, the funding available, and student availability. Students do not
apply directly.

The application for an Undergraduate Research Fellowship must come from
the faculty member whose research project the student will assist. Students
can inquire directly with faculty to express their interest in being involved in
the faculty member’s research. Students cannot receive academic credit for
work done under an URF.

Managed By

University Catalog
Office of Student Services
Lyons Hall 103
The University is led by William P. Leahy, S.J., 25th President of Boston College.

Provost and Dean of Faculties David Quigley oversees the University’s academic life and leads its distinguished faculty.

Boston College’s eight schools and colleges are led by academic deans, who report to the provost and direct the academic initiatives related to their schools. University vice presidents oversee Boston College’s administrative areas.

Boston College Board of Regents  

2019-2020  

The Boston College Board of Regents provides counsel and support to the president and the Board of Trustees on strategic priorities and matters essential to the future of the University. Rooted in the ideals of Jesuit higher education and the mission of Boston College, regents explore the value of the University in the world today and imagine the possibility of its impact on the world of tomorrow.

Business Law & Society

In the Business Law & Society Department, students examine the nuances—and impact—of law within all functional areas of management while developing critical-thinking skills.

Course offerings are both practical and relevant: Learn about current ethical and legal issues leaders in every industry confront. Core and elective courses cultivate essential analytical skills that are imperative for sound decision making.

The aptitude gained from business law courses is useful for careers in consulting, risk management, accounting, human resource management, finance, marketing, and securities.

Information Systems

Making up the largest portion of capital spending among U.S. corporations, information systems revolutionize industries, empower individuals and firms, and dramatically reduce costs. Because information systems are the lifeblood of the modern enterprise, we make sure our graduates can fulfill organizations’ needs for well-trained specialists and technology-savvy managers.

Our Information Systems Department provides undergraduate and graduate students with the knowledge and skills required to plan, develop, and deploy technology-based business solutions —both within organizations and for society at large.

Management & Organization

How can managers best develop and utilize the human capital in an organization and inspire their employees to thrive? Why do individuals and groups behave the way they do in organizations? What strategies should organizations pursue to grow and be productive? Our Management & Organization Department focuses on how to manage an organization's human resources and effectively develop and implement strategies for all types of organizations.

Through our programs, students develop the critical competencies for organizational success: leadership, communication, design, organizational development, and more.

We offer:

- An undergraduate concentration in Management and Leadership ([https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#58f529c4-fa77-4bfb-861f-632aaceebd9a-bc_tabbed_content-tab-0](https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#58f529c4-fa77-4bfb-861f-632aaceebd9a-bc_tabbed_content-tab-0)) and a co-concentration in Entrepreneurship ([https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#58f529c4-fa77-4bfb-861f-632aaceebd9a-bc_tabbed_content-tab-1](https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#58f529c4-fa77-4bfb-861f-632aaceebd9a-bc_tabbed_content-tab-1))

- A minor in Management and Leadership ([https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#06db9ee2-fdae-4ffa-b83a-f5ac786a778f-bc_tabbed_content-tab-2](https://www.bc.edu/bc-web/schools/carroll-school/academic-departments/management-organization/concentration-academics.html#06db9ee2-fdae-4ffa-b83a-f5ac786a778f-bc_tabbed_content-tab-2)) (for Morrissey College of Arts and Sciences, Connell School of Nursing, and Lynch School of Education students)

- A Ph.D. in Organization Studies ([https://www.bc.edu/bc-web/schools/carroll-school/graduate/phd-programs/phd-organizational-studies.html](https://www.bc.edu/bc-web/schools/carroll-school/graduate/phd-programs/phd-organizational-studies.html))

Marketing

This highly dynamic discipline thrives on change—change in customer attitudes, economies, demographics, industries, technology, society, and culture. It’s the driving force in sustaining meaningful and valuable customer relationships, developing new markets, building distinguished brands, and creating successful public and private enterprises.

Our Marketing Department prepares students with the knowledge, skills and tools to make smart strategic decisions in a rapidly changing marketplace. Our award-winning faculty are recognized leaders in their fields who publish extensively in top journals—including the *Journal of Marketing Research*, the *Journal of Consumer Research*, and *Marketing Science*.

Faculty supplement core readings with case studies and expose students to the latest marketing software programs and tools. With teaching and research directed at both academic and managerial audiences, students are primed to pursue careers in retail, sales, consumer products, advertising, brand management or consulting, product management, media/entertainment, or their own entrepreneurial ventures.

Operations Management

Our Operations Management Department prepares students to pursue careers in consulting, finance, healthcare, retail, transportation, human resources, computer science, marketing, technology, government, and the nonprofit world.

The department comprises two disciplines:

- **Operations Management**—a multi-dimensional, highly integrative business area that uses both quantitative analytical skills and cognitive problem solving to examine how organizations execute their missions and goals

- **Business Analytics**—which uses business data to guide the decision-making and competitive capabilities in an enterprises, examining what has happened, predicting what will happen, and exploring what should happen

Our faculty are dedicated teachers and researchers who leverage innovative approaches in addition to the traditional blend of case studies, lectures, and texts. Through executive presentations and course projects at both the graduate and undergraduate levels, prominent members of the business community often integrate into the classroom experience.

Joy Field Garners Top Award from Decision Sciences Institute

Associate Professor of Operations Management Joy Field has received the highest honor bestowed by the Decision Sciences Institute (DSI), a global society of more than 1800 scholars dedicated to fostering knowledge that improves managerial decisions.

On Markdowns, Know the Steps of a Tricky Dance

New research by Tingliang Huang examines posterior price-matching, where a firm sells a product before marking it down, but with a promise to reimburse the price difference, and present a model that isolates the role of customer bounded rationality in this interaction.

To support a broad range of course offerings, the Communication Department has assigned full-time faculty to teach the required classes. Our introductory classes (The Rhetorical Traditional and Survey of Mass Communication), research methods, theory classes, and writing-intensive seminars are taught by full-time faculty with Ph.D.s in communication. Electives are taught by full-time faculty members and by professionals with relevant industry experience.

Chestnut Hill, MA 02467
People

We have a distinguished faculty with a commitment to world-class research, teaching, and service. Many hold leadership positions in various professional associations. We embrace methodological pluralism. Our faculty members publish widely in major sociological journals and multidisciplinary journals, and many write influential books.

Their teaching and mentoring is reflected in our award winning students and alumni. Students work closely with faculty on research and publication projects and we have many examples of co-authored publications between faculty and students, both graduate and undergraduate. We encourage a very broad interdisciplinary approach to sociological inquiry and a collaborative, flexible learning environment in which students can achieve their full potential.

The Faculty Clusters page is intended to help graduate students form committees for their M.A. theses, area exams, and dissertations. Keep in mind when viewing it that we do have faculty in specialty areas not included on the clusters page, and that students are also free to solicit faculty from other departments within BC and from other universities to serve on their committees.

Education with a heart and soul—and the power to transform

Boston College, the first institution of higher education to operate in the city of Boston, is today among the nation’s foremost universities, a leader in the liberal arts, scientific inquiry, and student formation.

Grounded in the ideals that inspired our Jesuit founders, Boston College urges students to look inward but always to reach out—to develop their minds and talents to the fullest and use them in service to others.

We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

**BOSTON COLLEGE TRADITIONS**

**BEANPOT**

Best of Boston
Since 1952, teams from BC, BU, Harvard, and Northeastern have competed for hockey dominance in this legendary two-week tournament.

**RED BANDANA**

Remembering Welles Crowther
Every year, the BC community honors the memory of alumnus and 9/11 hero Welles Crowther ’99 with a 5K “Red Bandana Race” and a dedicated football and lacrosse game.

**ARTS FESTIVAL**

Creativity on Campus
Music, theater, dance, poetry—this vibrant community event draws more than 1,000 talented student and faculty performers.
Boston College: Answering Society’s Call

On behalf of the entire Boston College family, I am pleased to introduce you to Boston College, and to offer my vision for the University.

The history of Boston College is a narrative of response to society’s call. In 1863, that call came from an immigrant community that sought a Jesuit education to foster social mobility. Boston College offered that promise. Today, the call emanates from a world that has experienced an explosion of knowledge, but not a corresponding growth in understanding; a world that too often lacks trust in its leaders and faith in its institutions. It is a world that has developed wondrous technologies that link continents, but isolate human beings, leaving many men and women weary and dispirited, feeling distant from moral purpose, uncertain about knowledge or the very worth of human endeavor.

Boston College is uniquely capable of answering this call, of speaking to this world. As an institution of higher education, Boston College is committed to the discovery and transmission of knowledge. But reflecting its Jesuit and Catholic heritage, it also seeks to integrate excellence and religious commitment, to both inform and form its students.

Boston College endeavors to educate a new generation of leaders—men and women who will be capable of shaping the future with vision, justice, and charity—with a sense of calling, with concern for all of the human family.

We pursue this challenge because it is a worthy goal for any university, but particularly for Boston College, a university uniquely suited to be a beacon of hope and light for all. I invite you to join us, as a prospective student, parent, or friend.

William P. Leahy, S.J.
President
Where We Began

Boston College was founded in 1863 by the Society of Jesus (the Jesuits) to educate Boston’s predominantly Irish, Catholic immigrant community. It opened its doors on September 5, 1864, in a building on Harrison Avenue in Boston's South End, a "small streetcar college" for commuting students.

When it outgrew the limitations of the space, then-president Rev. Thomas I. Gasson, S.J., bought 31 acres of the former Lawrence Farm in Chestnut Hill, Massachusetts, and broke ground in 1909 on a new campus, today fondly known as "the Heights."

BC began as an undergraduate liberal arts college, but as its aspirations grew, it added graduate programs and professional schools fulfilling its charter as a university.

Through the decades, Boston College has become an internationally respected research university and a center of academic excellence.

Where We Are Going

Boston College builds upon its traditions. It seeks to be the national leader in the liberal arts; to fulfill its Jesuit, Catholic mission of faith and service; to continue to develop model programs to support students in their formation; and to seek solutions—as researchers, educators, leaders, and caregivers—that directly address the world’s most urgent problems.

Guiding Our Path

Boston College remains committed to leading its students on a comprehensive journey of discovery—one that integrates their intellectual, personal, ethical, and religious formation.

Inspiration for Boston College’s academic and societal mission is drawn from the University’s distinctive religious and intellectual heritage. As a Jesuit, Catholic University, Boston College is rooted in a worldview that calls us to learn, to search for truth, and to live in service to others. To fulfill that mission, we welcome and embrace the

and counting
Boston College students are inspired and challenged by the University’s motto “Ever to Excel.” Our graduates exemplify these words and leave the Heights prepared to make their mark in the world. Meet some talented and accomplished alumni who are leaders in their respective fields.

**Kevin Allocca ’06**  
Head of YouTube Culture and Trends  
Google

Exactly how many cat videos are there on YouTube? Not as many as you think, says Kevin Allocca—and he should know. He’s head of CATs (culture and trends) at the video-sharing site, where he tracks what’s trending and studies how global culture and online video intersect. The communication and film studies major says the critical thinking and persuasion skills he learned at BC helped him attain and succeed at the job he loves—and also complement his role as YouTube ambassador, representing the brand and sharing insights into viral video phenomena through speaking engagements around the world. He is also the author of a new book entitled “Videocracy: How YouTube is Changing the World... With Double Rainbows, Singing Foxes, and Other Trends We Can’t Stop Watching.”

**Steve Barry ’85**  
Managing Director  
Goldman Sachs & Co.

As managing director of Goldman Sachs & Co., and chief investment officer of fundamental equity at Goldman Sachs Asset Management, Steve Barry is responsible for the overall business management of the global Fundamental Equity franchise. He is also the chief investment officer of the Growth Team, responsible for the portfolio management and investment research process of the firm’s United States growth strategies. He also serves as chair of the Boston College Wall Street Council. Barry credits much of his professional success to Boston College and the lessons he learned here.
R. Nicholas Burns ’78, Hon. ’02
Former Undersecretary of State
U.S. State Department

Nicholas Burns says Boston College was a perfect fit for him because of its Jesuit mission. Burns dedicated his life to international affairs, rising through the State Department ranks to become Undersecretary of State for Political Affairs. Among other posts, Burns was the U.S. representative to NATO, Ambassador to Greece, and State Department spokesman. Fluent in French, Arabic, and Greek, Burns is a professor at Harvard’s Kennedy School of Government and member of the State Department’s Foreign Affairs Policy Board. Burns has received honorary doctorates from 12 American universities, including Boston College.

Darcel Clark ’83
District Attorney
Office of the Bronx District Attorney

Darcel Clark has earned a reputation as one of New York’s most respected jurists and public servants. The Bronx native, who rose from public housing to attend Boston College and Howard University Law School, has had a distinguished legal career as a prosecutor, an associate justice of the New York State Supreme Court Appellate Division, and, most recently, the first woman to be elected Bronx District Attorney. Clark is also a founding member of the Council for Women at Boston College and has served as a mentor for dozens of BC students.

Jack Connors, Jr. ’63, Hon. ’07
Founder and Chairman Emeritus
Hill Holliday Inc.

The founding partner and chairman emeritus of Hill, Holliday, Connors, Cosmopolis, Inc.—a Top 20 advertising firm with a client list that includes some of the best-known brands in the world—Jack Connors, Jr., built an industry giant while never forgetting his roots or commitment to his alma mater. One of Boston’s most respected civic and philanthropic leaders, he is a leading advocate for the city’s businesses, hospitals, and universities. Thanks to his efforts, Hill Holliday uses its resources to make a difference through pro bono work for dozens of non-profit and charitable organizations throughout Massachusetts.

Peter B. Dervan ’67, Hon. ’97
Chemistry Professor
California Institute of Technology

“I come to work excited every day,” says Peter Dervan. The pioneering researcher—winner of the National Medal of Science, the nation’s highest award for science achievement—traces the roots of his passion to a BC lab where he “had the good fortune” to be an undergraduate working in synthetic organic chemistry. “one of the most
powerful tools in modern science.” The experience awakened a zest for research that would fuel a distinguished career and the creation of a new field: bioorganic chemistry, in which he brings the art of synthesis, physical chemistry, and biology to bear on the study of DNA.

**Carolyn Dever ‘88**  
*Former Provost*  
*Dartmouth College*

After four years serving in the role of Provost, Carolyn Dever returned to teaching and research as an English professor at Dartmouth College. A gender studies scholar and expert on 19th-century British literature, she said she chose academia “to explore new ideas, ask difficult questions, and advance learning.” An English major at the Heights, she has both authored and edited books, and has previously served as a dean at Vanderbilt University. Her current research is focused on art and intimacy in Victorian Britain.

**Jared Dudley ’07**  
*Brooklyn Nets (NBA)*

The California native credits BC with helping him achieve his dream of playing in the NBA. Lightly recruited out of high school, Jared Dudley became an Eagle and never looked back. He capped his college career by earning Atlantic Coast Conference Player of the Year honors in 2007 and was a first-round draft pick. The NBA veteran hosts the Camp of Opportunity each summer for high school players. During a return to campus a few years ago, he said, “Always good to be back at Boston College! I owe everything to this school.”

**Doug Flutie ’85**  
*Sports broadcaster, autism awareness advocate*

A 1984 Heisman Trophy winner, veteran professional football player and current college football television analyst, Doug Flutie credits his BC education as the foundation for his success. He led the Eagles to a Top 5 ranking in his senior year, capping off the season with the famous “Hail Mary” touchdown pass in Miami. The most prolific offensive player in major college football history went on to play 21 professional seasons. He and his wife Laurie founded the Doug Flutie Jr. Foundation for Autism and have raised more than $16 million to improve the lives of people and families living with autism.

**Pete Frates ’07**  
*ALS research advocate*

A former BC baseball captain greatly admired by teammates and opponents, Pete Frates accepted his diagnosis of ALS with grace and determination and became the inspiration for the Ice Bucket Challenge. His foundation, the Pete Frates Ice Bucket Challenge, has raised millions for ALS research and awareness.
Challenge, which has raised more than $200 million for ALS research. Thanks to his efforts, and the generosity of people worldwide, the ALS Association says it hopes to announce a major breakthrough in treatment for the disease that affects roughly 30,000 Americans each year. "My new team is the ALS community and I have felt since Day 1 that I owe them my best effort to try to raise awareness and funds to end this disease," said Frates. For his heroic efforts, he was named Inspiration of the Year by Sports Illustrated in 2015.

Ken Hackett '68, Hon. '06
Former U.S. Ambassador to the Vatican

Ken Hackett says his Jesuit education prepared him to help build a better world, which is what the 1968 Boston College graduate has been doing for most of his life. His career began with the Peace Corps, followed by 40 years with Catholic Relief Services, where he traveled to every continent and helped with every human disaster imaginable. The management major was president of CRS from 1993-2011, overseeing 5,000 employees in more than 100 countries. Appointed by President Barack Obama, Hackett served as U.S. Ambassador to the Vatican from 2013 to 2017.

Jennie Chin Hansen '70, Hon. '08
Past President
AARP

A graduate of the Connell School of Nursing, Jennie Chin Hansen has always focused on the needs of older people, from her beginnings as a public health nurse in Idaho to her advocacy on behalf of the more than 35 million Americans 50 or older as president of AARP. Hansen was the first Asian American, the first nurse and the first baby-boomer to lead AARP. Hansen operates under the belief that problems can be solved with smart solutions, not necessarily expensive solutions—a lesson she said she learned in a Connell School course that required students to prepare a nutritious meal on a budget.

Chuck Hogan '89
Novelist, screenwriter

Writer Chuck Hogan penned his first novel as a BC student. He has since authored several acclaimed books and captivated international audiences on paper and screen. His Boston-based best-seller Prince of Thieves was adapted into “The Town,” a major motion picture starring and directed by Ben Affleck. A-list director Guillermo del Toro chose Hogan to co-author a vampire trilogy adapted for FX as “The Strain.” He also wrote the screenplay for the 2016 film “13 Hours: The Secret Soldiers of Benghazi.” At a campus appearance, Hogan, who majored in English and was honored with a BC Arts Council alumni award for distinguished achievement, told students, “My two key things are following my passion and working with the best people I can.”

Paloma Izquierdo-Hernandez '76, Hon. '14
President and CEO
Urban Health Plan Inc.

Paloma Izquierdo-Hernandez dedicates her life to reducing health disparities for disadvantaged individuals in the South Bronx and Queens, NY, where she has made invaluable contributions to health care and community life. Her inspired leadership transformed Urban Health Plan from a single site into a network that cares for more than 60,000 individuals, and is recognized among the nation’s top 20 community health centers. Following in the footsteps of her father—a pioneering doctor—and building on the tenets of her Jesuit education, she is passionately committed to a vision of care where no person lacks access to essential health services.

Clinton Kelly ’91
Television personality, author, designer

Clinton Kelly chose BC because he fell in love with the campus “vibe.” He sampled different fields at the Heights, exploring psychology, economics and environmental geoscience before discovering a passion for journalism. Though best known for his television roles, he launched his career at Marie Claire magazine, still writes for a number of publications, and is the author of several books. The co-host of ABC’s “The Chew” and former co-star of TLC’s “What Not to Wear” has returned to campus several times to inspire students to find their own paths—and, of course, to dress for success.

John F. Kerry, Law ’76, Hon. ’14
Former U.S. Secretary of State

Service to his country has defined the life of Secretary of State John Kerry. “That spirit of service is part of the fabric of this school, just as it is part of the fabric of our nation,” he said in his commencement address to the Class of 2014. This U.S. Navy and Vietnam War veteran served Massachusetts as a prosecutor, lieutenant governor and as U.S. Senator for 28 years. He then served as Secretary of State from 2013 to 2017. His 2018 memoir, Every Day Is Extra, was a New York Times bestseller.

Luke Kuechly ’15
Carolina Panthers (NFL)

Before becoming a star in the NFL, Luke Kuechly was a defensive force at Boston College, setting school and ACC records with 532 tackles on his way to becoming a three-time All-American. The marketing major was the only player to lead the NCAA in tackles more than one season. A 2012 first-round pick of the Carolina Panthers, Kuechly has led the NFL in tackles twice, earning him Rookie and Defensive Player of the Year honors along with two Pro Bowl appearances. Kuechly is a spokesman for Project Life, which registers college students for bone marrow donation.
Peter Lynch ‘65, Hon. ’95
Vice Chairman
Fidelity Management & Research Company

“Boston College gave me the confidence to compete with anyone,” Peter Lynch said of his undergraduate experience. Lynch transformed the world of investing as the portfolio manager of the Magellan Fund at Fidelity Investments, where he now serves as vice chairman. As a philanthropist, Lynch focuses on transforming lives. A founder and officer of The Lynch Foundation, his philanthropic focus has been on education, Catholic organizations, cultural initiatives and healthcare. At BC, the Lynch family has provided crucial support to signature initiatives of the Lynch School of Education and Human Development and the Carroll School of Management.

Julianne Malveaux ‘74, MA ‘76
Former President, Bennett College
Syndicated columnist

Julianne Malveaux has long been recognized for her progressive and insightful observations through all forms of media. She is a labor economist, noted author, and respected television commentator. Malveaux has been described as “the most iconoclastic public intellectual in the country.” Her contributions to the public dialogue on issues such as race, culture, gender, and their economic impacts are shaping public opinion in 21st century America. She received her bachelor’s and master’s degrees in economics from Boston College.

Ed Markey ’68, Law ’72
U.S. Senator

U.S. Senator Ed Markey (D-Mass) credits his Jesuit education at Boston College with preparing him for a successful career in public service. The former Massachusetts congressman spent 37 years in the U.S. House of Representatives before becoming senator in 2014. During his political career he has earned a reputation as a strong proponent of education, clean energy, telecommunications deregulation and job creation. Markey proudly upholds the legacy of former House Speaker Thomas P. “Tip” O’Neill ’36, who believed that politics was the noblest means of helping those in need.

Author and media commentator

James Martin, S.J.—a media giant and one of the most recognizable Jesuits in America—has appeared on CNN, NPR, and Comedy Central’s “The Colbert Report” (as the “Official Chaplain to the Colbert Nation”). Before he wrote The Jesuit Guide to (Almost) Everything, a practical spiritual guidebook drawn from the teachings of Society of Jesus founder St. Ignatius of Loyola, Fr. Martin studied theology at the precursor to BC’s School of Theology and Ministry. The author of several best-
Ernest Moniz ’66, Hon. ’16
Former U.S. Secretary of Energy

Considered one of the world’s foremost experts in his field, Ernest Moniz received the foundation of his knowledge at Boston College, graduating at the top of his class with a physics degree. A first-generation college graduate, Moniz was a Scholar of the College who considered Alumni Stadium his favorite place on campus. He served as President Obama’s Secretary of Energy from 2013 to 2017 and was a key negotiator of the 2015 historic nuclear agreement with Iran. Previously, Moniz had been on the MIT faculty since 1973 and served as undersecretary for the Energy Department during the Clinton Administration.

Joy Haywood Moore ’81, Hon. ’10
Interim vice president for Student Affairs
Boston College

“Every encounter I had with a Jesuit was one of care, concern, inspiration and encouragement... that was always part of my BC experience,” Joy Moore has said of her undergraduate years. An advocate for education, particularly for young girls and women, Moore led schools in Massachusetts and California, and from 2006 to 2010 was a senior leader of The Oprah Winfrey Leadership Academy for Girls, a tuition-free school in South Africa. Moore returned to BC in 2011, joining University Advancement, where she has led initiatives including “150 on the Road,” an alumni service campaign that prepared more than 450,000 meals in families in Africa.

Denise Morrison ’75
Former President and CEO
Campbell Soup Company

As a student at Boston College studying economics and psychology, Denise Morrison always knew she wanted to run a company someday. She began her career at Procter & Gamble and then spent decades in the food business working in senior positions at Kraft Foods, Nabisco, Nestle and Pepsi-Cola until becoming president and CEO of Campbell Soup Company, a global enterprise with a portfolio that extends beyond soup to such brands as Pepperidge Farm, V8, Swanson, Prego and Pace, among many others. During her tenure as CEO, she was regularly named among the Fortune and Forbes Most Powerful Women.

Patricia Noonan ’07
Actor, concert performer

With a passion for telling great stories, acclaimed actor, singer and writer Patricia Noonan has made a name for herself by breathing new life into the leading ladies of classic shows and working with composers and writers to bring original works to the stage and screen. As an accomplished performer, Noonan has gained critical acclaim for her roles in both film and television, as well as her work as a writer and producer. She has been praised for her versatile acting style and her ability to bring complex characters to life. Noonan’s dedication to her craft has earned her numerous accolades and has positioned her as a rising star in the entertainment industry.

Joy Haywood Moore ’81, Hon. ’10
Interim vice president for Student Affairs
Boston College

“Every encounter I had with a Jesuit was one of care, concern, inspiration and encouragement... that was always part of my BC experience,” Joy Moore has said of her undergraduate years. An advocate for education, particularly for young girls and women, Moore led schools in Massachusetts and California, and from 2006 to 2010 was a senior leader of The Oprah Winfrey Leadership Academy for Girls, a tuition-free school in South Africa. Noonan’s dedication to her craft has earned her numerous accolades and has positioned her as a rising star in the entertainment industry.
stage and screen, in on-Broadway performances at home in New York City, and in theaters from the east to west coasts, Noonan has shone onstage as an actress and concert performer, including at the renowned Kennedy Center. At BC, she not only performed the leads in many shows in Robsham Theater, but also debuted her original plays here on campus.

Elizabeth O’Day ’06
CEO and Founder
Olaris Therapeutics, Inc.

Entrepreneur Elizabeth O’Day is a firm believer that science can change lives. As a biochemistry major at Boston College, O’Day started Women in Science & Technology, which has provided high-school and college-aged women the opportunity to learn about careers in science. In addition to earning her PhD from Harvard University, O’Day founded Lizard Fashion, which uses fashion to promote science. She helped launch Project Spark, a technology-recycling program that funds education initiatives in Latin America, and in 2014 founded Olaris Therapeutics, which develops precision medicines for the most devastating diseases.

Chris O'Donnell ’92, Hon. ’17
Actor

Actor Chris O’Donnell has received critical acclaim in a career that has included film, stage and screen. The star of the Hollywood film “Scent of a Woman,” for which he earned a Golden Globe Award nomination, as well as the Broadway hit rendition of Arthur Miller’s “The Man Who Had All the Luck,” and the popular television series “NCIS: Los Angeles.” O’Donnell has achieved stardom while maintaining a reputation as one of the most respected individuals in the entertainment business. The father of five credits much of his success to the education he received at Boston College, and to the values instilled in him by his parents and BC’s Jesuits.

Steve Pemberton ’89, Hon. ’15
Chief Human Resources Officer
Workhuman

Pioneering corporate executive Steve Pemberton says much of his personal and professional life is anchored in his Boston College experiences. Now Chief Human Resources Officer at Globoforce, Pemberton wrote the best-selling memoir A Chance In the World (also the name of his non-profit), which chronicles his story of rising from a physically abusive foster home environment to a career as a successful corporate officer and motivational speaker who inspires others to overcome tragedy and become more than their circumstance. A film
adaptation of his memoir was released in 2017. He has been named among the top diversity officers (Fortunemagazine) and most influential African-Americans in corporate America (Savoy magazine).

Connie Anne Phillips '87
Publisher, Chief Revenue Officer
Glamour at Condé Nast

InStyle, Vogue and Glamour are just three of the high-profile magazines associated with publisher and chief revenue officer Connie Anne Phillips. An English major with a theology minor, Phillips, who describes her role as a “dream job,” is recognized as one of the best leaders in the industry. Thanks to her efforts, Glamour now reaches more people than any other Condé Nast title except Wired. The magazine mogul worked earlier in her career at fashion powerhouse Vogue—and counts the training she received at Boston College as a source of her success.

Amy Poehler '93
Actor, producer, author

Whether she’s delivering the perfect one-liner, reinventing herself as a new media entrepreneur or creating ways to inspire young girls to sharpen their smarts, Amy Poehler’s high-performance career “all goes back to improv,” she says. The star of NBC’s “SNL” and “Parks and Recreation,” the voice of Joy in Pixar’s “Inside Out,” and a high-profile producer, she honed her impromptu chops during her time with the nation’s oldest collegiate improv comedy troupe, BC’s “My Mother’s Fleabag.” She returned to her roots for an encore performance with the group when she accepted a BC Arts Council alumni award for distinguished achievement. In 2015, she received a Star on the Hollywood Walk of Fame.

Karyn Polito '88
Massachusetts Lieutenant Governor

In 2015, Karyn Polito was sworn in as the Lieutenant Governor of the Commonwealth of Massachusetts. After her graduation from the Carroll School of Management, Polito launched a career in public service, as a member of the Board of Selectmen for her hometown of Shrewsbury, Mass. She went on to serve as a State Representative for the 11th Worcester District in the Massachusetts House of Representatives for five terms. She is known for her advocacy on behalf of children and has worked to advance safety through legislation related to drunk drivers, defibrillators and young drivers.

Luke Russert '08
Former NBC News correspondent

Luke Russert reported for NBC News from Capitol Hill, where he covered the House of Representatives for “NBC Nightly News,” “Today,” MSNBC and NBCNews.com. The son of the late, legendary NBC newsmen Tim Russert and the writer Maureen Orth, Russert bridged a gap between the traditional media of his parents’
generation and the 24/7 electronic news environment of today. The history and communication major is a recipient of the Marlin Fitzwater Award for Leadership in Public Communications for his contributions to public discourse in the spirit of a healthy democracy. Russert was also nominated for an Emmy Award in 2013.

Matt Ryan ’08
Atlanta Falcons (NFL)

While a student-athlete at Boston College, Atlanta Falcons Quarterback Matt Ryan earned the nickname “Matty ice” for his remarkable coolness under pressure. The former ACC Player of the Year and First-team All-American, was selected in the first round (3rd overall) in the 2008 NFL draft before leading the Falcons to several postseason appearances, earning himself Pro Bowl honors along the way. At BC, Ryan distinguished himself as a standout student and campus leader. He has remained ever-loyal to his alma mater, proudly touting the benefits of his BC education both on and off the field.

Navyn A. Salem ’94, Hon. ’12
Founder and CEO
Edesia, Inc.

A visit to her father’s native Tanzania first brought Navyn Salem face to face with the urgent problem of malnutrition and the horror of children dying from hunger. Moved by her experience, the mother of four combined her compassion, business skills and social entrepreneurship—traits she attributes to her Boston College education—to found Edesia, a non-profit manufacturer of food products that treat and prevent malnutrition in children across the globe. Since it opened in 2010, the Edesia factory has produced enough ready-to-use foods, which have a life-changing impact, to reach 9 million children in over 50 countries.

Molly Schaus ’11
Olympic Medalist
Team USA

Molly Schaus is a Team USA ice hockey goaltender, and a two-time silver medalist at the Winter Olympics (2014, 2010). As a member of the U.S. Women’s National Team, she played in five International Ice Hockey Federation Women’s World Championships. Schaus finished her four-year career as Boston College’s all-time leader with 80 wins, a 1.81 goals-against-average and 3,428 saves in 134 games. She was a two-time Patty Kazmaier Memorial Award top-10 finalist (2009, 2011) and a two-time All-American. The Lynch School of Education and Human Development alumna was selected as an Athlete Role Model for the 2016 Winter Youth Olympic Games.

Phil Schiller ’82
Senior Vice President, Worldwide Marketing
Apple, Inc.

Phil Schiller applied his biology degree to launch a successful career with Apple, where he has worked
for nearly 30 years. The leader of Apple’s global marketing efforts, Schiller helped the company return to its role as a technology innovator, helping deliver breakthroughs such as the iMac, MacBook, iPod, iPhone, iTunes, and iPad and launching the App Store. Schiller’s love of Eagle hockey led to the Schiller Family Head Hockey Coach endowment. He meets twice a year with BC students who embark on the Carroll School of Management’s Tech Trek to Silicon Valley.

Laura Senn ‘78
Former Non-Executive Chairman
BJ’s Wholesale Club

As former president and CEO, Laura Senn oversaw big box giant BJ’s Wholesale Club—with more than 200 locations in 15 U.S. states, some 25,000 employees and nine million members. Senn, who majored in romance languages but had no definite ideas about a future career, is a retail veteran regarded as a business “game changer” who has been on the Fortune 500 CEOs list and named among the 50 Most Powerful Women in Business by the magazine. She later served as non-executive chairman of BJ’s, helping to set the company’s strategic direction. Honored for her philanthropy, Senn has said: “I’ve always found that I get way more back than I ever give.”

Alex Truesdell, M.Ed. ‘82
Founder and Executive Director
Adaptive Design Association, Inc.

Alex Truesdell embodies the Lynch School of Education and Human Development’s commitment to bettering the lives of children and families. This social entrepreneur has dedicated her career to special-needs children, from launching the Assistive Device Center at the Perkins School for the Blind to founding The Adaptive Design Association, which creates low-tech, affordable tools and furniture that help children with disabilities join activities in their homes, schools, and communities. Her visionary achievements in “disrupting traditional approaches to assistive technologies” were honored by a MacArthur Foundation “Genius Grant” in 2015.

Stephanie Valencia ‘04
Former Director of Strategic Outreach and Partnerships
Google, D.C.

A recipient of BC’s Archbishop Oscar A. Romero Scholarship in 2003, Stephanie Valencia’s interest in public policy led her to the nation’s capital. She has worked for three lawmakers, and served in the White House Office of Public Engagement, where she was Special Assistant to the President and Principal Deputy Director, focusing on a range of issues including housing, immigration, and outreach to the Hispanic community. In 2013, she joined the staff of the U.S. Secretary of Commerce, where she led public engagement and strategic planning initiatives. At Google’s Washington, D.C. policy office, she managed the company’s strategic outreach and partnerships with third party advocacy groups and think tanks.
Lesley Visser ’75 Hon. ’07
Hall of Fame Sportscaster
Boston Globe, CBS, ABC, and HBO

The most highly acclaimed female sportscaster of all time, Lesley Visser was voted to six professional halls of fame. A pioneer in the industry, she was the first woman enshrined in the Pro Football Hall of Fame, the first female sportscaster to carry the Olympic torch, the only woman to present the Lombardi Trophy after the Super Bowl, and the first woman to appear on network broadcasts of the Final Four, the NBA Finals, and the World Series. In her four-decade career, which began by writing for The Heights, she's covered everything from the Olympics to Wimbledon to the fall of the Berlin Wall.

Alberto Vasallo III ’89
President and CEO
Caribe Communications, El Mundo newspaper

As the leader of New England’s largest Latino newspaper and one of the longest-running Latino television personalities and producers in Boston, Alberto Vasallo III is among the region’s most respected and influential figures. The former host of “La Hora Del Café,” one of Spanish radio’s most popular drive-time shows, and producer and former host of “Revista Hispana” and “Urban Update” for NBC TV’s Boston affiliate, Vasallo also partnered with the Boston Red Sox in creating the Latino Youth Recognition days at Fenway Park, which have honored top Latino academic achievers for nearly three decades.

Marty Walsh ’10
Mayor
City of Boston

“Follow your dream – it is never too late to follow your dream,” Boston Mayor Marty Walsh told a Woods College of Advancing Studies audience just a few months after he was sworn in as Boston's 54th mayor in a Conte Forum ceremony. Walsh graduated from the Woods College at age 44, attending evening classes after spending his days representing the 13th Suffolk District in the Massachusetts House of Representatives. During his 16 years representing his Dorchester neighborhood, Walsh earned a reputation as a fierce advocate for working people and urban neighborhoods. Today, his Boston College diploma hangs in his office in Boston's City Hall.

Setti Warren ’93
Former Mayor and Massachusetts Gubernatorial Candidate
City of Newton

The former mayor of Massachusetts’ 11th largest city got started early in public service, as four-time president of his high school class, then as the second African-American to be elected president of the Undergraduate Government of Boston College. Setti Warren says BC provided him with "a great foundation" for a career that has included posts in the Clinton White House and the staff of U.S. Senator John F. Kerry, as well as a stint as New...
England FEMA director. A Navy veteran with service in Iraq, Warren earned praise for taking a comprehensive approach to meeting Newton’s capital and infrastructure needs. He now serves as the Executive Director of the Harvard Kennedy School’s Shorenstein Center on Media, Politics, and Public Policy.

**Erik Weihenmayer ’91, Hon. ’03**

**Mountain climber, author, motivational speaker**

Professional outdoor adventurer Erik Weihenmayer—blind since age 13—is the first sightless climber to scale Mount Everest—a feat chronicled in a 2001 Time cover story that described him as an international symbol of courage. He recounted that feat in a memoir, one of his many books, and is a popular motivational speaker worldwide. In his triumph over some of the world’s most formidable mountains, he completed the vaunted Seven Summits, ascending the highest points on every continent. To help people with challenges, Weihenmayer co-founded “No Barriers,” and embodied its mission in 2014 with a 277-mile kayak journey down the Colorado River through the Grand Canyon.

**Michael D. White ’74**

**Former President, Chairman and CEO**

**DirecTV**

Michael D. White served as president, chairman and CEO of DirecTV, one of the world’s leading providers of digital television entertainment services, reaching more than 19 million customers in the United States and nearly 10 million customers in Latin America. Prior to joining DirecTV, White had a long career at Pepsi, where he served in several senior positions, including CEO of PepsiCo International, vice chairman of PepsiCo, and president and CEO of Frito-Lay’s Europe, Africa and Middle East division. He is a proud advocate of his Boston College education, crediting the Jesuits with teaching him that “excellence is a journey, not a destination.”

**Tracey Wigfield ’05**

**Television writer, producer, actor**

Tracey Wigfield, who showcased her comedic skills on the stage at BC’s Robsham Theater as a theater and English double major, is now an award-winning writer, producer and actor in television. Wigfield was a writer for the NBC hit comedy “30 Rock,” sharing an Emmy with the show’s star, Tina Fey, for writing the series finale. She wrote and was co-executive producer for “The Mindy Project,” where she added acting to her repertoire, appearing in several episodes of the comedy. Most recently, she created the NBC comedy series “Great News.”

**Jerry York ’67**

**Boston College Men’s Hockey | Head Coach**

Jerry York, The Schiller Family Men’s Hockey Head Coach, has led the team since 1994, but his connection to BC goes back to his student days.
where he earned All-American honors as a forward in 1967. York is the winningest active coach in NCAA hockey, and leads the all-time list with more than 1,000 wins as of the end of the 2017-18 season. He has won the NCAA Division I Men’s Ice Hockey national championship five times as a coach, four of which were at BC. Beloved by his players past and present, he serves as a role model for NCAA coaches of all sports.

Documentary filmmaker

Jeremy Zipple is a Jesuit priest and award-winning documentary filmmaker whose films have been broadcast on PBS, National Geographic Television, Discovery and TLC. He is executive editor of America Films, part of the U.S. Jesuits’ official multimedia platform. From 2007-2012, as a staff producer at National Geographic, he directed, wrote and produced documentaries on a broad range of topics, from biblical archeology in the Near East to ancient Mayan civilization in the Yucatan. An encounter with the late Boston College Vice President William Neenan, S.J., led to Fr. Zipple’s decision to enroll in Boston College as a Presidential Scholar, and later, to enter the Society of Jesus.

Grace Simmons Zunci ’05
Senior Vice President of People
Chobani

As student body president, Rhodes Scholar nominee, and student representative of Boston College’s Church in the 21st Century initiative, it is a small wonder that Grace Simmons Zunci won the 2005 Edward H. Finnegan, S.J. Award as the senior who best exemplified BC’s motto “Ever to Excel.” She has stayed true to those words, working as a management consultant to the White House and Department of Homeland Security, then as an investment advisor for Goldman Sachs. Today, the BC Philosophy and Political Science major and Harvard Business School grad serves as senior vice president at Chobani, one of the top-selling yogurts in the US.

Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

Boston College participates in the Advanced Placement program of the College Entrance Examination Board. Applicants interested in advanced placement should make arrangements to take the Advanced Placement Examinations given by the College Board in May of each year.

The following table displays Boston College's Advanced Placement policy. Boston College reserves the right to change this policy, as is determined by campus administrators. In general, a student scoring four or five on the exams will be awarded advanced placement. In some instances, a score of three will make a student eligible for advanced placement. In most cases, students do not earn actual credit, rather, they fulfill corresponding requirements in the University Core Curriculum. You will still be required to take the full 120 credits necessary for graduation unless you have the equivalency of 30 AP credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years.

* IB elective units cannot be used to fulfill the four arts and sciences electives required for CSOM, but can count toward the 30 units required to be eligible to apply for advanced standing. Electives do not count toward the degree in any other scenario because IB units are generally used for placement only, not credit.

** Students interested in the Computer Science major must consult with the Computer Science Department to determine if these electives can in any way apply to the major.

Sports, Exercise and Health Science IB is not recognized by Boston College.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. * There are other A-Level courses offered that do not apply to a degree at Boston College. If the course is not listed here, no advanced placement units can be earned.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For all subjects with a coefficient of 5 or higher, advanced placement units will be assigned as follows:
- 6 units for scores of 13 or higher
- 3 units for scores of 10-12
Scores below 10 do not qualify.

Units may be used to fulfill corresponding University Core or major requirements.
No advanced placement units will be awarded for English.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For students who earn an exam score of 70 or higher on the final exam, advanced placement units will be awarded only for subjects in which the written exam was taken (no placement for oral exams) and the average score for the final exam over the last two years is 7 or higher. No advanced placement units can be earned for English.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

Placement will be considered for the four subjects scored in the Abitur final exams. For two subjects listed as the "main subject," scores of 10 or higher will earn 6 advanced placement units in corresponding subject areas. For two additional "basic courses" with scores of 10 or higher, 3 advanced placement units will be earned in the corresponding subject areas. No advanced placement units can be earned for English.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

Advanced placement units can be earned for exam scores of 4 or better. No advanced placement units can be earned for English.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

Students who earn a total of 30 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in three years. Students interested in this option should be in touch with their Dean following completion of their first semester at BC. No decisions on Advanced Standing will be made prior to that time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Dean before the start of their third year of undergraduate study.
Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Matricula. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

Advanced placement units can be earned for college courses taken during high school according to the following guidelines:

Students enrolled in courses designated as “college courses” that are taken at the high school with a high school teacher may only earn advanced placement units if corresponding College Board AP exams are taken and qualifying scores are earned. A college transcript alone cannot be used to earn advanced placement units for these courses.

College coursework taken on a college campus with a college professor and with other college students either during the academic year or over the summer may be evaluated for advanced placement units. Only courses that are deemed equal in depth and breadth to coursework taught at Boston College and are being used to supplement high school coursework (and not to fulfill high school requirements) will be considered.

Each 3- or 4-credit course with a grade of B or better will earn 3 advanced placement units. Students will still be required to take the full 120 credits necessary for graduation, unless they have the equivalency of 30 credits, in which case they may qualify for Advanced Standing and would be eligible to graduate from Boston College in 3 years. College transcripts for these courses should be submitted to the Office of Transfer Admission by August 1. Students who enroll at a local college to satisfy high school graduation requirements are not eligible for advanced placement units unless they take the corresponding College Board AP exams and earn qualifying scores.
For Current Students and Employees with Access to Agora Portal

Current students can request enrollment certification letters by logging into www.bc.edu/myservices ("Enrollment Certification Request"). These letters may be used to prove enrollment when outside scholarship committees and medical insurance companies request them.

For Alumni and External Audiences, Including Employers

Boston College has authorized the National Student Clearinghouse to provide degree and enrollment verifications. The National Student Clearinghouse can be contacted at:

Web: www.degreeverify.com
Phone: 703-742-4200
Fax: 703-742-4239
Email: degreeverify@studentclearinghouse.org
Mail: National Student Clearinghouse
13454 Sunrise Valley Drive, Suite 300
Herndon, VA 20171

Certification for Loan Deferment

The National Student Clearinghouse processes deferment forms. If you need an enrollment certification for deferment of a student loan, mail the forms to the Office of Student Services, Lyons Hall, Chestnut Hill, MA 02467 or stop by Lyons Hall. Your deferment form will be forwarded to the National Student Clearinghouse. If the enrollment certification does not require an official school seal or signature, you may process the certification through www.bc.edu/myservices.
Higher Education Opportunity Act (HEOA)

HIGHER EDUCATION OPPORTUNITY ACT (HEOA)
NOTICES AND DISCLOSURES

Family Educational Rights and Privacy Act (FERPA)

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the Boston College Bulletin and in the Boston College Student Guide.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:
• The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

• The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

• The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting
another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

FERPA RELEASE
FORM

Student Loan Code of Conduct for Employees

All Boston College employees whose job responsibilities include matters related to student financial aid are expected to maintain exemplary standards of professional conduct and must adhere to this Code of Conduct in compliance with Federal regulations. The Executive Director of Student Services shall notify these employees annually of their obligations under this Code.

Boston College:

https://www.bc.edu/content/bc-web/offices/student-services/about/notices-disclosures.html
Prohibits all revenue-sharing arrangements with lenders. The University will not promote or recommend any lender in exchange for a fee or other material benefit from that lender.

Does not request or accept offers of funds for private loans, including opportunity pool loans.

Certifies loans from any lender selected by a borrower without undue delay, and will not direct a first-time borrower’s loan to a particular lender.

Ensures that the process through which the student signs a Master Promissory Note preserves the student’s right to select the lender of his or her choice.

Does not arrange for alternate loan programs that disadvantage students or parents not enrolled in the program or receiving such loan terms.

Prohibits the request or acceptance of staffing assistance from lenders.

Prohibits employees or agents of a lender from identifying themselves, either directly or by implication, as an employee of Boston College to students, parents or any persons seeking information from Boston College.

Bases the selection of lenders for a preferred lender list solely on the best interests of the students and parents.

Fully discloses the selection process for a preferred lender.

Provides borrowers with consumer information about the loan products offered by the lenders on a preferred lender list, including any agreements lenders have to sell their loans to other entities.

Informs students and parents that they are not required to use any of the lenders on a preferred lender list and can select any lender of their choice.

Every Boston College employee involved in any aspect of the loan process (this includes, but is not limited to, the Financial Aid staff, both on the main campus and at the Law School, and the Enrollment Management staff) must avoid any situations that create a potential conflict of interest between the employee’s personal or outside interests and his or her role and responsibilities as an employee of Boston College, and must disclose to his or her supervisor any potential conflict as it arises.

Specifically, staff members must not:
• Solicit or accept gifts with more than a de minimis value from any business entity involved in any aspect of student financial aid, including, without limitation, cash payments, stocks, club memberships, favors, discounts, lodging, meals, entertainment, and services. This prohibition extends to a staff member's family (includes staff member's and spouse's: parent or stepparent; sibling or step-sibling; child or stepchild; and grandchild or step-grandchild, as well as a child's spouse and a sibling's spouse).

• Undertake any activity, whether compensated or not, outside of Boston College that has the potential to create a conflict of interest with the staff member's duties as a financial aid professional employed by Boston College, including accepting any fee, payment, or other financial benefit as compensation for any type of employment, consulting or other arrangement with a lender, guarantor, or servicer.

• Receive any compensation for serving on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors. A staff member wishing to serve on an advisory board must seek prior approval from his or her supervisor, and may be reimbursed only for reasonable expenses while serving on an approved advisory board.

Staff members should understand and adhere to all institutional policies and any local, state and federal requirements that are applicable to their conduct or job performance. Any staff member who has a question whether a particular situation or activity creates a conflict of interest or violates any law or policy should immediately notify their supervisor prior to commencing such activity, or at the earliest time when such a question arises. Supervisors shall contact the Office of the General Counsel upon receipt of any inquiries.

Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.
A student can prevent the release of all directory information including verification of enrollment, and may suppress selected directory information either to the Boston College community or to the general public. In order to do this, students must visit www.bc.edu/myservices to suppress the release of all or selected directory information. Suppression is available by selecting Privacy Preferences. Student directory information will not be blocked from faculty and staff conducting official University business.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's Student Educational Records policy.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Notice of Nondiscrimination

Visit the link below to view the Notice of Nondiscrimination.

NOTICE OF NONDISCRIMINATION

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:
Postal Service and Campus Mail

For purposes of written communication, the student’s local and permanent addresses on record at Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at www.bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address with the Office of International Programs.

E-mail

The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student’s Boston College e-mail address in the “From:” and “Reply To:” lines, and should originate from the student’s Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

State Complaint Process

Visit the link below to learn more about the Massachusetts state complaint process.

MA STATE COMPLAINT PROCESS

Visit the link below to learn more about the California state complaint process.
Voter Registration Information

Boston College believes that every student has a responsibility to be an engaged community member. To that end, we have partnered with TurboVote to provide you with the information and materials you need to vote in every election from local to presidential.

TurboVote gives you the tools to help you register to vote online. You may learn more about this service at bc.turbovote.org.
Financial Aid

Financial Aid Mission Statement

To serve as a bridge between students and their educational goals while fulfilling our responsibilities as stewards of federal, state and institutional funds:

- **Counsel:** To provide an open and welcoming environment to serve our students and their families in a student-centered culture with clear and effective communication, customer focus, and mutual respect.
- **Access:** To provide the tools and resources to help remove the financial barriers to accessing quality higher education.
- **Equity:** To treat each family equitably, understanding each situation is unique in its circumstance.
Undergraduate Financial Aid

Boston College remains committed to admitting students solely on the basis of their academic and personal accomplishments, and without regard to financial need. Boston College makes every effort to supplement family resources for students who require financial assistance. All Boston College grants and scholarships awarded by the Office of Student Services are awarded on the basis of institutional need. Boston College is committed meeting the full demonstrated institutional need of every student applying for financial aid.

We know that applying for financial aid can be a confusing and lengthy process. We hope that the resources provided on this site will give you and your family the tools and information necessary to help make a Boston College education possible. The financial aid staff is committed to working with you as you navigate this process.

All financial aid awarded by Student Services at Boston College is need-based.

Need-based aid assumes that the parents and the student are responsible for the cost of education to the extent of their abilities and that financial aid will be used to supplement the effort of the family. It also assumes that need can be calculated with uniformity and equity, meaning that income and assets are defined in the same way for everyone and all allowances are nondiscretionary in nature.

Boston College uses two separate aid formulas to determine eligibility for financial assistance.

Federal Methodology
Federal Methodology is used to determine a student's eligibility for all federal and state aid, including the Direct Subsidized and Unsubsidized Loans. Eligibility is determined from the data provided on the Free Application of Federal Student Aid (FAFSA). Boston College does not use the federal expected family contribution (EFC) determined by the FAFSA to award institutional need-based grants/scholarships.

Institutional Methodology

Institutional Methodology is used by Boston College, as well as many other private universities, to determine a family's eligibility for university funds. Boston College is committed to providing funds to meet the full demonstrated institutional need of every student applying for financial aid on time. The institutional expected family contribution is determined by the data provided on the Profile form (through College Scholarship Services) and appropriate tax documents. Eligibility for need-based institutional aid requires that the student be fully eligible for federal and state aid. The Profile is not required to determine eligibility for federal and state aid.

Financial aid awards for future years will be based on the application materials for that year. In general, the family contribution will not change dramatically unless there is a change in income, family size, number of children enrolled in undergraduate education, assets, or other application figures used in the analysis of a family's financial strength.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services.

Medical Insurance

Boston College is pleased to announce that the Blue Cross Blue Shield Student Blue Plan has been renewed and will continue to be offered to all eligible BC students for the 2019–2020 policy year, effective August 7, 2019. The Student Blue Plan provides comprehensive health insurance that includes access to Blue Cross Blue Shield's networks and pharmacies nationwide. The annual cost is $3,120. Your student account will be charged $1,300 for coverage from August 7, 2019 through January 9, 2020 and $1,820 for coverage from January 10, 2020 through August 6, 2020.

2019–2020 Medical Insurance Information

All students enrolled in a degree program, regardless of credit hours, and non-degree students enrolled at least 75% of full-time will be automatically enrolled in and billed for the Student Health Insurance Plan. Seventy-five percent of full-time enrollment is as follows:
- Morrissey College of Arts and Sciences, Graduate—7 or more
- Lynch School of Education and Human Development, Graduate—7 or more
- Carroll School of Management Graduate Programs—7 or more
- Connell Graduate School of Nursing—7 or more
- School of Social Work—7 or more
- Woods College of Advancing Studies, Undergraduate—9 or more
- Woods College of Advancing Studies, Graduate—7 or more
- School of Theology and Ministry—7 or more

Students studying abroad through both BC-sponsored and approved external programs will automatically be enrolled. Post-doctorate students are eligible to enroll on a voluntary basis.

Boston College will also automatically enroll and charge non-degree graduate and WCAS students registering at the credit levels listed above for the Student Health Insurance Plan. Students are responsible for monitoring their eligibility status.

Students who are not citizens or permanent residents of the United States will be automatically enrolled in the Boston College plan regardless of the number of their credit hours.

Students enrolled exclusively online are eligible to waive the insurance. The waiver form is available on the Forms tab.

**Dependent Enrollment**

Insured students have the option of enrolling their eligible dependents (a spouse or a child under the age of 26). You may also enroll dependents online at GallagherStudent.com/bc. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 20, 2019, for the fall semester and January 24, 2020, for the spring semester. Enrollment forms received after that date will not be accepted.

**Insurance Plan Benefits**

**Blue Cross Blue Shield Student Blue Plan Coverage**

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the summary of benefits (PDF) and the information available at GallagherStudent.com/BC for complete details about coverage, limitations and exclusions.

**Referrals from University Health Services**

A referral is not required with Blue Cross Blue Shield Student Blue Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit University Health Services' website for more information.

**Coverage off Campus**

If you paid the premium for the entire year, you will be covered from August 7, 2019, through August 6, 2020. Blue Cross Blue Shield Student Blue Plan provides the same benefits for students while they are on campus or on semester breaks, summer vacation, or study or travel abroad.
While studying or traveling abroad, keep your identification card with you and take a copy of the brochure for reference. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you will need to have the itemized bill(s) translated into English and include a letter informing the claims administrator that you are seeking reimbursement for charges previously paid. Be sure to include your name, ID number, address (to receive your reimbursement check), and the University's name on the bill.

On Call International can be reached toll free from the United States or Canada at 800-850-4556, or visit OnCallInternational.com.

**Coverage after Graduation**

Boston College students insured by BlueCross BlueShield can enroll in BlueCross BlueShield's direct non-group plan after their coverage ends through Boston College's program. The number at BlueCross BlueShield is 800-422-3545 to enroll.

**ID Cards**

If you are continuing on the Student Blue Plan from last year, your ID card is still valid. You will not be issued a new one. If you are new to the Student Blue Plan, you will receive an insurance ID card at either the on-campus or local address that BC has on file for you. Please go to www.bc.edu/myservices ("Update Your Address/Phone/Emergency Contact Information") and keep your local address up-to-date to ensure proper delivery. Carry your insurance ID card at all times. Show it to any health care provider or pharmacy before receiving care or filling a prescription.

If you need to see a doctor before you receive your ID, tell the provider that you are covered by the Blue Cross Blue Shield Student Blue Plan offered through Boston College. You do not need your card in order to be eligible to receive benefits. Your provider can call Gallagher Student Health & Special Risk at 800-394-4026 to verify eligibility. You can also download a letter confirming enrollment from GallagherStudent.com/BC, or download the Blue Cross Blue Shield MyBlue app to obtain a digital ID card. See http://myblue.bluecrossma.com/student for more information.
Leave of Absence

Students who are enrolled in the student insurance plan and who are required to take a leave of absence from Boston College for medical reasons will continue to be covered for the remainder of the semester in which the withdrawal takes place. Coverage may also be extended for the following semester with approval from Boston College. Please contact the Office of Student Services for more information.

Enrollment After Waiving the Student Health Insurance Plan

Students who initially waive participation in the Student Blue Plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver on the www.bc.edu/myservices or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the Student Blue Plan only on the basis of a qualifying event. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, available under the Forms tab.

2018–2019 Medical Insurance Information

All students enrolled in a degree program, regardless of credit hours, and non-degree students enrolled at least 75% of full-time will be automatically enrolled in and billed for the Student Health Insurance Plan. Seventy-five percent of full-time enrollment is as follows:
• Morrissey College of Arts and Sciences, Graduate—7 or more
• Lynch School of Education and Human Development, Graduate—7 or more
• Carroll School of Management Graduate Programs—7 or more
• Connell Graduate School of Nursing—7 or more
• School of Social Work—7 or more
• Woods College of Advancing Studies, Undergraduate—9 or more
• Woods College of Advancing Studies, Graduate—7 or more
• School of Theology and Ministry—7 or more

Students studying abroad through both BC-sponsored and approved external programs will automatically be enrolled. Post-doctorate students are eligible to enroll on a voluntary basis.

Boston College will also automatically enroll and charge non-degree graduate and WCAS students registering at the credit levels listed above for the Student Health Insurance Plan. Failure to maintain these credit levels will result in the termination of the mandatory health insurance plan. Students are responsible for monitoring their eligibility status.

Students who are not citizens or permanent residents of the United States will be automatically enrolled in the Boston College plan regardless of the number of their credit hours.

**Dependent Enrollment**

Insured students have the option of enrolling their eligible dependents (a spouse or a child under the age of 26). You may also enroll dependents online at GallagherStudent.com/bc. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 21, 2018, for the fall semester and January 25, 2019, for the spring semester. Enrollment forms received after that date will not be accepted.

Medical Insurance

Boston College is pleased to announce that the Blue Cross Blue Shield Student Blue Plan has been renewed and will continue to be offered to all eligible BC students for the 2019–2020 policy year, effective August 7, 2019. The Student Blue Plan provides comprehensive health insurance that includes access to Blue Cross Blue Shield's networks and pharmacies nationwide. The annual cost is $3,120. Your student account will be charged $1,300 for coverage from August 7, 2019 through January 9, 2020 and $1,820 for coverage from January 10, 2020 through August 6, 2020.

2019–2020 Blue Cross Blue Shield Student Blue Plan Summary of Benefits and Coverage

2019–2020 Medical Insurance Information

The medical insurance coverage periods are August 7, 2019 to January 9, 2020 for the fall and January 10, 2020 to August 6, 2020 for the spring. Waivers received by September 20, 2019 are for the entire academic year and those received by January 24, 2020 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period.

Domestic Students Waiver Requirements (U.S. Citizens and Permanent Residents)
Students who are enrolled in a health plan that is comparable to the Student Blue Plan may waive the BC coverage through www.bc.edu/myservices if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must **sign and submit a waiver form** before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:

- The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2019–2020 academic year.
- The student has compared their policy to the Student Blue Plan and certifies that their plan provides benefits that are at least comparable to the Student Blue Plan: 2019–2020 Blue Cross Blue Shield Student Blue Plan Summary of Benefits.
- The student's plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.
- The student's plan is not an out-of-state Medicaid plan, or one of the following MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver. MassHealth plans other than those listed here are acceptable for a waiver.
- No claims have been submitted for payment under the Student Blue Plan for the 2019–2020 enrollment periods.
- The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred.
- Students travelling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2019–2020 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.
Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by September 20, 2019, for the entire academic year or by January 24, 2020, for the spring semester only.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the Student Blue Plan. Once the waiver is submitted, the charge will be removed from the student account in real time; students and authorized payers can verify the adjustment by logging in to www.bc.edu/myservices ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through www.bc.edu/myservices or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the Student Blue Plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Petition to Waive After Published Deadline form, available on the Forms tab.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

**International Students Waiver Requirements (Students who are Not U.S. Citizens or Permanent Residents)**

In order to ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC’s Student Health Insurance Plan.** If you are insured through (1) your own or a parent/guardian/spouse’s health insurance plan offered through a U.S. employer or (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), you may be eligible for a waiver. MA Medicaid Plans: Children’s Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.
2018–2019 Medical Insurance Information

The medical insurance coverage periods are August 7, 2018 to January 10, 2019 for the fall and January 11, 2019 to August 6, 2019 for the spring. Waivers received by September 21, 2018 are for the entire academic year and those received by January 25, 2019 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period.

**Domestic Students (U.S. Citizens and Permanent Residents)**

Students who are enrolled in a health plan that is comparable to the Student Blue Plan may waive the BC coverage through www.bc.edu/myservices if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must **sign and submit a waiver form** before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:
The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2018–2019 academic year.

The student has compared their policy to the Student Blue Plan and certifies that their plan provides benefits that are at least comparable to the Student Blue Plan: 2018–2019 Blue Cross Blue Shield Student Blue Plan Summary of Benefits.

The student's plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.

The student's plan is not an out-of-state Medicaid plan, or one of the following MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver.

No claims have been submitted for payment under the Student Blue Plan for the 2018–2019 enrollment periods.

The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred.

Students travelling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2018–2019 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.

Incomplete waivers will not be processed. Waivers must be completed every year. All waivers must be submitted by September 21, 2018, for the entire academic year or by January 25, 2019, for the spring semester only. Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the Student Blue Plan. Once the waiver is submitted, the charge will be removed from the student account in real time; students and authorized payers can verify the adjustment by logging in to www.bc.edu/myservices ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. Students are responsible for verifying that their waiver was submitted correctly.
Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through www.bc.edu/myservices or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the Student Blue Plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Student Insurance Petition to Waive After Published Deadline Form.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

**International Students (Students who are Not U.S. Citizens or Permanent Residents)**

In order to ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC’s Student Health Insurance Plan**. If you are insured through (1) your own or a parent/guardian/spouse’s health insurance plan offered through a U.S. employer, (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), or (3) MassHealth or a plan purchased through the MA Health Connector (except Health Safety Net, Children’s Medical Security or MassHealth Limited), you might be eligible to waive coverage.

office for institutional diversity

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University’s mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, military status, or other legally protected status.

Boston College rejects and condemns all forms of harassment, wrongful discrimination, and disrespect. It has developed procedures to respond to
incidents of harassment whatever the basis or circumstance. Moreover, it is the policy of Boston College, while reserving its lawful rights where appropriate to take actions designed to promote the Jesuit, Catholic principles that sustain its mission and heritage, to comply with all state and federal laws prohibiting discrimination in employment and in its educational programs and activities on the basis of a person’s race, color, national origin, sex, religion, disability, age, marital or parental status, genetic information or family medical history, or military status, and to comply with state law prohibiting discrimination on the basis of a person's sexual orientation.

To this end, Boston College has designated its Executive Director for Institutional Diversity to coordinate its efforts to prevent discrimination in accordance with this notice and applicable laws. Individuals are welcome to raise any questions regarding this notice and the requirements of state and federal nondiscrimination laws with the Executive Director for Institutional Diversity:

Boston College Office for Institutional Diversity (OID)
140 Commonwealth Avenue (Office location: 129 Lake Street)
Chestnut Hill, MA 02467
Patricia Lowe,
Executive Director for Institutional Diversity/Title IX Coordinator
patricia.lowe@bc.edu
Phone: 617-552-3334
Email: TitleIXCoordinator@bc.edu

The Executive Director for Institutional Diversity oversees the efforts of the following additional Title IX coordinators: (i) Melinda Stoops, Associate Vice President for Student Affairs and Student Affairs Title IX Coordinator (for student sexual harassment complaints), Maloney Hall, Chestnut Hill, MA
02467 (617-552-3482); (ii) Linda Riley, University Harassment Counselor, 129 Lake Street, Brighton, MA (617-552-0486); and (iii) Jocelyn Fisher Gates, Senior Women’s Administrator and Athletics Title IX Coordinator, 310 Conte Forum, Chestnut Hill, MA 02467 (617-552-8303).

The following federal laws and regulations require the University not to discriminate on the basis of race, color, national origin, disability, sex, or age in treatment, employment, admission or access to Boston College and its educational programs and activities: Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1973 (Section 504), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act of 1975 (Age Act), and their respective implementing regulations at 34 C.F.R. Parts 100, 104, 106, and 110. Inquiries concerning the application to Boston College of each of the statutes and implementing regulations outlined above may be referred to the U.S. Department of Education, Office for Civil Rights, 5 Post Office Square, 8th Floor, Boston, MA 02109-3921 (617-289-0111).
Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services (https://www.bc.edu/content/bc-web/offices/student-services/about/Contact.html).

</tbody>
</table>

Tuition does not include the cost of lab fees, textbooks, or other required materials for specific courses. In general, full-time graduate and undergraduate students should anticipate costs for textbooks and course supplies of $1,300–$2,200 for the academic year. Textbook costs for specific courses can be found on the website for the Boston College Bookstore.
The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary.

The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Collection Cost and Fees

Matriculated students at Boston College are individually, personally, and primarily responsible to the University for paying all tuition and other fees associated with enrollment and room and board. This obligation also applies to any additional tuition and fees resulting from adjustments to course schedules. Students remain responsible in accordance with University policy for tuition and fees for classes for which they register, including any classes for which they have been withdrawn, been dropped, failed, or failed to attend. Students must formally withdraw from any/all classes that they do not attend in a particular semester. Students will not be relieved of their responsibility to pay tuition unless they withdraw from classes in accordance with the withdrawal timelines and procedures published by the Office of Student Services in this catalog or on its website (www.bc.edu/offices/stserv/academic/univcat/undergrad_catalog/policies_procedures.html#with) (https://www.bc.edu/offices/stserv/academic/univcat/undergrad_catalog/policies_procedures.html)

All billing statements are sent electronically. Information on how to access student bills and related account information is available on the Office of Student Services website, including at www.bc.edu/mybill (http://www.bc.edu/mybill). Students are responsible for reviewing their billing statements, making payments by the due date stated in the billing statement, and notifying the University’s Office of Student Services in a timely manner of any errors or discrepancies. A student may authorize parents, guardians or others to view their statements and pay on their behalf, but each student shall remain individually, personally and primarily responsible for the payment of all amounts charged to their accounts. There may be a $150 late payment fee assessed to unresolved accounts by the due date. Students will also be charged a fee of $25.00 for a returned check or returned electronic payment ($65 for any returned item over $2,000).

In the event a student’s account becomes delinquent or fails to comply with a payment plan approved by Boston College, then Boston College may withdraw the student, place holds on the student’s transcript and diploma, and deny access to University services, including registration, dining, residence hall selection, library, travel abroad and recreation services.
In the event a student's account becomes delinquent or if the student fails to comply with a payment plan approved by Boston College to bring the delinquent account current, Boston College may refer the student's delinquent account to a collection agency, attorney or other third party that provides collection-related services. In addition to the student's responsibility for paying any amounts due on the account prior to referral for collection-related services, the student shall be responsible for (a) paying any and all collection-related fees, which may be based on a percentage of a student's delinquent account balance, provided that such percentage does not exceed 40%, and (b) paying any and all costs incurred in connection with the efforts to collect on the student's delinquent account, including without limitation court costs and reasonable attorneys' fees. The University, or its agents, may also report a student's account delinquency to one or more of the national credit bureaus.

Notice of Consent to Collection Communications

By registering for a course at Boston College, a student authorizes Boston College and its agents and contractors to contact the student at any current or future phone number(s), email address(es) and wireless device(s) regarding the student's account and/or any payments owed to Boston College. Students also authorize Boston College and its agents and contractors to use automated telephone dialing equipment, artificial or prerecorded voice or text messages, and personal calls and emails, in their efforts to contact me. Students also consent to Boston College, or its affiliates, agents, and service providers, to recording telephone calls regarding the student's account in assurance of quality and/or other reasons.

Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services (https://www.bc.edu/content/bc-web/offices/student-services/about/Contact.html).

Withdrawals and Refunds

Fees are not refundable.

Tuition is cancelled subject to the following conditions:

- Notice of withdrawal must be made in writing to the dean of the student's school.
- The date of receipt of written notice of withdrawal by the Dean's Office determines the amount of tuition cancelled.
The cancellation schedule that follows will apply to students withdrawing voluntarily, as well as to students who are dismissed from the University for academic or disciplinary reasons. A student who drops, withdraws or fails to attend some or all of the classes for which the student registers will be responsible for paying all or a portion of tuition and fees in accordance with the refund schedules below. A student’s failure to attend class does not absolve the student of his or her financial responsibility as described herein.

**Undergraduate Refund Schedule**

2019–2020 Academic Year

Undergraduate students withdrawing by the following dates will receive the tuition refund indicated below.

**First Semester**
- by Aug. 23, 2019: 100% of tuition charged is cancelled
- by Sept. 6, 2019: 80% of tuition charged is cancelled
- by Sept. 13, 2019: 60% of tuition charged is cancelled
- by Sept. 20, 2019: 40% of tuition charged is cancelled
- by Sept. 27, 2019: 20% of tuition charged is cancelled

**Second Semester**
- by Jan. 10, 2020: 100% of tuition charged is cancelled
- by Jan. 24, 2020: 80% of tuition charged is cancelled
- by Jan. 31, 2020: 60% of tuition charged is cancelled
- by Feb. 7, 2020: 40% of tuition charged is cancelled
- by Feb. 14, 2020: 20% of tuition charged is cancelled

No cancellations are made after the fifth week of classes.

**Summer Session Refund Schedule: All Schools**

Prior to the second class meeting, 100% of tuition charged is cancelled. No cancellation of tuition is made after the second class meeting.

**Graduate Refund Schedule**

2019–2020 Academic Year
Graduate students withdrawing by the following dates will receive the tuition refund indicated below.

**First Semester**
- by Sept. 4, 2019: 100% of tuition charged is canceled
- by Sept. 6, 2019: 80% of tuition charged is canceled
- by Sept. 13, 2019: 60% of tuition charged is canceled
- by Sept. 20, 2019: 40% of tuition charged is canceled
- by Sept. 27, 2019: 20% of tuition charged is canceled

**Second Semester**
- by Jan. 22, 2020: 100% of tuition charged is canceled
- by Jan. 24, 2020: 80% of tuition charged is canceled
- by Jan. 31, 2020: 60% of tuition charged is canceled
- by Feb. 7, 2020: 40% of tuition charged is canceled
- by Feb. 14, 2020: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes. Federal Nursing Loans for graduates follow this refund schedule.

Woods College Students enrolled in 7-week courses in the Master's in Healthcare Administration, Master's in Applied Economics, and Graduate Certificate in Data Analytics programs may receive a 100% refund if withdrawn prior to the second class meeting. No refund will be given to students in these programs if withdrawn after the second class meeting.

**Summer Session**

Prior to the second class meeting, 100% of tuition charged is cancelled. No cancellation of tuition is made after the second class meeting.

**Law School Refund Schedule**

2019–2020 Academic Year

• by Jan. 10, 2020: 100% of tuition charged is canceled
• by Jan. 24, 2020: 80% of tuition charged is canceled
• by Jan. 31, 2020: 60% of tuition charged is canceled
• by Feb. 7, 2020: 40% of tuition charged is canceled
• by Feb. 14, 2020: 20% of tuition charged is canceled

Summer Session

Prior to the second class meeting, 100% of tuition charged is cancelled. No cancellation of tuition is made after the second class meeting.

Tuition Insurance Plan

Boston College is pleased to offer students a way to help protect their substantial financial investment in a college education. The Tuition Insurance Plan is an optional private insurance plan offered through A.W.G. Dewar, Inc. that assures subscribers who withdraw for illness or accident a refund throughout the semester, even if Boston College’s own refund policy has expired.

For costs, benefit levels, further information, or an application form, please contact John Strain at Dewar, 4 Batterymarch Park, Suite 320, Quincy, MA 02169-7468, 617-774-1555.

Federal Regulations Governing Refunds

If a student does not wish to leave any resulting credit balance on his or her account for subsequent use, he or she should request a refund at www.bc.edu/myservices (https://www.bc.edu/myservices) (“Request Student Account Refund”). If a student has a credit balance as a result of Federal Aid and he or she does not request a refund, the University will, within two weeks, send the credit balance to his/her local address.
Federal regulations establish procedural guidelines applicable to the treatment of refunds whenever the student has been the recipient of financial assistance through any program authorized under Title IV of the Higher Education Act of 1965. These guidelines pertain to the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal College Work-Study, and the Federal Stafford and PLUS Loan. In such cases, the regulations require that a portion of any refund be returned according to federal guidelines. Further, if a student withdraws, the institution must determine if any cash disbursement of Title IV funds, made directly to the student by the institution for non-instructional purposes, is an overpayment that must be repaid to the Title IV program. University policy developed to comply with the regulations at Boston College will be available upon request from the Office of Student Services.

Transcript Requests

Your authorization is required in order to release your transcript. There is no charge for transcripts.

- **Transcript requests will not be honored for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.**
- Boston College does not send electronic copies of transcripts or send transcripts via e-mail.
- Transcripts sent by Boston College via fax are considered unofficial.
- Students who received multiple degrees from Boston College may request separate transcripts for each of their degrees. Please indicate which transcript you would like to have sent on the Transcript Request Form. If this is not specified, then the transcripts for all degrees received will be sent.
- Transcripts are normally sent within 3 to 5 business days.
  
  **Note:** During grading periods, transcripts will be held until your grades are posted.
- You can reach the Transcript Office at 617-552-3300.

Transcript Request Form

Current Students or Employees with Access to Agora Portal

https://www.bc.edu/content/bc-web/offices/student-services/registrar/transcript-requests.html
Current students and employees can request an academic transcript at www.bc.edu/myservices. Log in, then click on "Transcript Request and Status." Review the information on the screen, add any additional information, and submit your request. Your request will be received immediately and processed as soon as possible. Use the status tracking page to follow your request. Your password acts as the authorization to release your record.

**Note:** Transcripts are provided to students and alumni free of charge, with one exception. Charges apply only if FedEx is selected as the mode of delivery. Applicable rates for standard overnight delivery are $40 for U.S. destinations and $60 for international destinations. Only Mastercard and Visa are accepted.

### Alumni

Alumni may submit a Transcript Request Form (PDF) to the Office of Student Services in Lyons Hall by printing the request form, signing the form, and sending the form to Boston College (address below) via mail or fax.

**Note:** Transcripts are provided to students and alumni free of charge, with one exception. Charges apply only if FedEx is selected as the mode of delivery. If you choose FedEx as your delivery option, you must complete the Transcript Request Form and then call the Office of Student Services at 800-294-0294 with your credit card information from 9:00 a.m. to 4:45 p.m. Monday, Tuesday, Thursday and Friday; from 9:00 a.m. to 3:45 p.m. on Wednesday; and on Friday during the summer from 9:00 a.m. until 2:45 p.m. Credit card information must be received by 2:00 p.m. to guarantee next business day delivery. Applicable rates for standard overnight delivery are $40 for U.S. destinations and $60 for international destinations. Only Mastercard and Visa are accepted.

### Requesting a Transcript via Mail or Fax

Print and **Mail** a completed Transcript Request Form to:
Boston College
Office of Student Services
Attention: Transcripts
Lyons Hall
140 Commonwealth Avenue
Chestnut Hill, MA 02467

Or print and Fax a completed Transcript Request Form to 617-552-4975.

**Requesting a Transcript in Person**

If you stop by Lyons Hall, you may fill out a Transcript Request Form (PDF). Please bring a picture ID card. Our office hours are on the main Student Services page.

**Apostilles or Authentication of Documents**

Some foreign governments and agencies require that diplomas and transcripts be certified with an apostille. An apostille is a document issued by the Massachusetts' Secretary of the Commonwealth that verifies the authenticity of the signature on the document; the capacity in which the person signing the document acted; and the identity of any stamp or seal affixed to the document. The apostille is a specific form of authentication for countries that participate in the Hague Convention of 1961. The Secretary of the Commonwealth’s office is the only agency in Massachusetts that is authorized to issue an apostille or certification for a notarized document going to a foreign country. Massachusetts does not certify out-of-state documents. They must be certified by the state of origin. Additional information can be found at http://www.sec.state.ma.us/pre/precom/comidx.htm.

Complete the Special Service for Apostille Process for Diploma and/or Official Transcript form available on the Office of Student Services website.

Addendum for Spring 2020, modified mid-semester due to COVID-19:

Dean's List

The Dean's List recognizes the achievement of undergraduates semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

For spring 2020, in order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.
