A semester-long project in the course of which a student carries out an investigation
and research of an original nature or formulates a mature synthesis of a topic in
physics. The results are presented as a written thesis, which the student will defend in
an oral examination. This course is highly recommended for majors considering
graduate study in physics.

PHYS876001
Introduction to Quantum Computing RUBIN, RON S
Spring 2021
This course is an introduction to the new field of quantum computation. What is a
quantum computer? How does it work? What can it do? The course will explore the
mathematics, physics, and computer science associated with these questions. The
course will be taught at the senior undergraduate/graduate level, and prior courses in
quantum mechanics and linear algebra will be essential. Senior undergraduate and
graduate students in mathematics, computer science associated with these questions. The
course will be taught at the senior undergraduate/graduate level, and prior courses in
quantum mechanics and linear algebra will be essential. Senior undergraduate and
graduate students in mathematics, computer science, and chemistry with this
background are encouraged to enroll. Topics: Thermodynamics of Computation,
Axioms of Quantum Mechanics, Composite Systems, Qubits, Intrinsic Spin of Electrons
and Photons, Density Matrix Theory, Bloch Sphere, Entanglement, Schmidt Number
and Entanglement Entropy, Entanglement of Space with Spin, Bell Inequalities, EPR,
Weak Coding, Quantum Key Distribution, Circuit Model of Computation, Quantum
Circuits, Deutsch Algorithm, Bernstein-Vazirani Algorithm, Simon’s Problem, Quantum
Search, Quantum Period Finding, Quantum Fourier Transform, Factoring Prime, RSA
Encryption.

PHYS897501
Many Body Physics BEDELL, KEVIN
Spring 2021
Many Body Physics is the study of matter when interactions matter. This is a very rich subject area and it is impossible to cover all of them. The goal of this Many Body Physics course is to focus on a few theoretical techniques including, e.g., Greens Functions and Feynman Diagrams that provide a unified view of these areas. These techniques can be used to derive some of the more familiar theoretical results for many body systems, the Hartree-Fock approximation, the random phase approximation (RPA), the kinetic equation, and response functions to name a few. These techniques will be applied to a number of interacting systems that could include, Quantum Fluids (Fermi and Bose Fluids), Graphene, Superconductors/Superfluids, and Ferromagnetic metals.

Political Science Courses: Summer 2020

**POLI120601**
The Politics of Self-Rule: Ireland, Northern Ireland, and Scotland
HARTNEY, MICHAEL T; MAURO, ROBERT M
Summer 2020

A century ago, Ireland, Northern Ireland, and Scotland were integral parts of Great Britain and the United Kingdom and were governed by the British Parliament. Now each has its own parliament, although only Ireland is fully independent of the UK. We will consider the development of self-rule in these three places, how self-rule operates today and the major challenges that each administrative unit faces. We will also examine the key political questions that each parliament is currently debating. Our understanding of these matters will be greatly enhanced by the visits we will pay to each of the three parliaments and to other sites that are particularly important for understanding the political development of the three places. Students will also benefit from interacting with a variety of political leaders, policy analysts, journalists, civil servants, and citizen activists in Ireland, Northern Ireland, and Scotland.

**Credits:** 03

**POLI123501**
Tajikistan: Politics, Culture, Society
ASHUROV, BARAKATULLO
Summer 2020

The course explores the diversity and continuity of contemporary Tajik politics, culture, and society, including historical roots. After exploring contemporary political context and institutions, the course will approach Tajik culture, social structures, and everyday life from the historical caravan trade and pastoralism to contemporary collective farm and urbanism.

**Corequisites:** None
**Status:** OPEN

**POLI225101**
Food, Power, and Politics
NAKAZATO, HIROSHI
Summer 2020

This course will seek to provide an intellectual and analytical-driven framework around the question of food as an integral part of any human experience, but particularly our experience with food through across cultures. We each have a unique opportunity to understand better the role of food in each of our lives as we move through this summer program by examining our own cultural and political assumptions and those of others from a new point of view. We can appreciate the lenses brought by other individuals, cultures and places to the acts of eating and producing food. Finally, we can express the human experience of food in ways that represent our understandings, experiences and vision for a healthy, just and pleasurable relationship to food in ways that can be shared and appreciated by others. In eating and producing food, we exist simultaneously in a deeply personal and communal place, a place of the present, past and future in which we are never more and less than human.

**POLI243801**
Comparative Politics of Human Rights
PURNELL, JENNIE
Summer 2020

Every day, we seem to hear and read about horrific violations of human rights, from chemical warfare in Syria, to the plight of Rohingya refugees fleeing Myanmar, to the forced separation of migrant families in the United States, to violence against women and LGBTQ persons nearly everywhere. Since the end of World War II, countless human rights laws have been promulgated, institutions created, and advocacy campaigns launched. Have they made a difference? If so, under what conditions? Is respect for human rights greater or worse than it was more than half a century ago? We'll explore these issues and questions over the course of the semester. This course fulfills the Comparative Politics subfield requirement of the Political Science major.

How to Rule the World: Introduction to Political Theory BARTLETT, ROBERT C

Fall 2020

This introductory course in political theory will be devoted to exploring what may well be the highest political theme: the requirements of great political rule. What must we do in order to govern well? Even more important, what must we know? With these and related questions in mind, you will be asked to read, reflect on, and write carefully about a handful of foundational texts that all deal, in very different ways, with the question of the requirements of great political leadership.

POLI105101
Flawed Founders: George Washington and the Mythology of a Heroic President
LANDY, MARC
Fall 2020
This course focuses on the accomplishments and flaws of a great founder: George Washington. It seeks to illuminate his character and also to understand his role in the formation of the new American polity, regarding both its virtues and flaws. As the country's first president he led the effort to forge an enduring national government. How did he succeed so brilliantly in those efforts? Yet even as he was fighting for and presiding over a republic ostensibly dedicated to liberty and equality he abetted a system that perpetuated bondage and inequality. By the end of his life he controlled over 500 slaves. He bought, sold, and rented them. He was a full participant in a culture that subordinated women. This course will scrutinize Washington's public life—as general and politician; his private life—as slaveholder, husband and friend; and the complex interplay between his public and private personas. To better understand his thought processes and his presentation of self it will make extensive use of his speeches and letters as well as contemporary descriptions and assessments of him. The details of his life are most richly captured in Ron Chernow's biography of him, from which students will read. This scrutiny will also help to explain Washington's own role in creating the mythical status he has come to enjoy.

Value of Freedom: Politics and Economics
HERTZNER, CANDACE
Fall 2020
Who is free? What does it mean to be free? In what ways do individuals and societies show that they value freedom? In these paired courses, we will approach these enduring questions from the perspectives of Political Science, Economics, and History. During the colonial and post-colonial eras, ideas about political and economic freedom closely aligned with the development of liberal democracy and capitalism. Our courses will evaluate the contradictions of liberal ideas and structures within their greater historical context through case studies across the globe. In this way, students may begin to understand what it means to be free for themselves today.

POLI108101
Introduction to International Politics
CRAWFORD, TIMOTHY W
Fall 2020
This course examines the principle sources of the behavior of countries in international politics, including the nature of the international system and the decision-making process within states. It examines such issues as the sources of power, the causes and implications of the security dilemma, the dynamics of alliances, the causes of war, international political economy, and the dilemmas of world order. This course is strongly recommended for students who plan to take upper level international politics courses.

Introduction to Comparative Politics
MCGRaw, SEAN D
Fall 2020
This course provides an overview of the political science subfield of Comparative Politics. Comparative Politics is the study of domestic politics among the 200 plus countries around the world. The class introduces students to three features of Comparative Politics: (1) comparative research design and the comparative method; (2) major theoretical themes in comparative politics; and, (3) sampling of case studies comparing politics in selected countries of the world.

The Cost of Free Speech
BAYLES, MARTHA
Fall 2020
The course will focus on the challenge of preserving the Western ideal of free speech in a world where democratic governments seem paralyzed by political and cultural polarization; powerful tech companies have become unwilling content regulators; and authoritarian regimes deploy digital technology for surveillance, censorship, and propaganda. The goal is to help students situate the classic debate over free speech in both the contemporary landscape and the broader historical context.

both politicians and professors speak of diversity as an unqualified good that Americans must continually strive to achieve. Yet what exactly do we mean by “diversity”? Along what dimensions—racial, social class, cultural, phenotypical, religious, ideological—do we define diversity? More to the point, are there any limits such that the merits of diversity (or presumed merits) diminish once certain levels of diversity are achieved.

This course is designed to acquaint students with the major features of American policymaking at the national level by engaging in primary research and extensive memo-writing on selected policy issues. Each student will be expected to become familiar with at least three policy areas, understanding existing government policies and underlying tradeoffs and paradoxes; proposing intellectually defensible and politically feasible reforms; and suggesting political strategies for enacting these reforms. Possible topics include social security, environmental regulations, federal aid and mandates for education, affirmative action, welfare, and the use of public lands.

This course will introduce students to the basic techniques of data science including data visualization, hypothesis testing, and simple linear regression. Students will learn how to use the R statistical software to analyze political data. This is an introductory class; no math or statistics background is necessary.

This course will introduce students to the basic techniques of data science including data visualization, hypothesis testing, and simple linear regression. Students will learn how to use the R statistical software to analyze political data. This is an introductory class; no math or statistics background is necessary.

A general survey of American political parties and elections. Investigation of such topics as how voters make choices, the conduct of campaigns, the role of media in political campaigns, the importance of money in politics, and changing political commitments and party alignments will entail consideration of the issues, personalities, and campaign tactics involved in recent elections. Emphasis will be placed on the role of parties in structuring political conflict and the role of elections in enhancing citizen control of political leaders. We will follow the progress of the 2020 elections as they unfold.

A general survey of American political parties and elections. Investigation of such topics as how voters make choices, the conduct of campaigns, the role of media in political campaigns, the importance of money in politics, and changing political commitments and party alignments will entail consideration of the issues, personalities, and campaign tactics involved in recent elections. We will follow the progress of the 2020 elections as they unfold.

Americans are habitually fierce critics of Congress even as they like (and usually reelect) their own representatives. In this course, we try to explain this paradox by investigating the ways in which the structure and organization of Congress allows members to cultivate personal popularity despite rampant disapproval of the institution in which they serve. Among other topics, the course addresses the nomination and election of congressional candidates, the roles of congressional parties and leaders, and the influence over the legislative process of the committee system, rules and procedures, lobbyists and interest groups, and other branches of government.

This course proposes an overview of the politics of South Asia as a regional security complex, starting with the colonial legacies of state building in the region, but also considering the 1979 Soviet invasion of Afghanistan, the 1980 revolution in Iran, and the rise of corporate liberalism in the region. The course will look at the roots of contemporary populism in the region, and how this brand of politics challenges traditional party linkages and contributes to the erosion of democratic norms.

POLI243101 Radical Political Economy: From Marx to Anti-Globalization CHRISTENSEN, PAUL T Fall 2020
This course examines the work of radical thinkers from Marx to contemporary critics of globalization. The course examines Marx's theory of history and his writings on capitalist economics and politics. It explores the evolution of radical thinking on issues such as the state; the role of class in contemporary societies, particularly in relation to issues of gender, ethnicity, and religion as bases for identity and power; and prospects for progressive social transformation. We conclude with a critical examination of theories imperialism and globalization, and what they imply for the future of societies at different stages of development.

POLI243801 Comparative Politics of Human Rights PURNELL, JENNIE Fall 2020
Every day, we seem to hear and read about horrific violations of human rights, from chemical warfare in Syria, to the plight of Rohingya refugees fleeing Myanmar, to the forced separation of migrant families in the United States, to violence against women and LGBTQ persons nearly everywhere. Since the end of World War II, countless human rights laws have been promulgated, institutions created, and advocacy campaigns launched. Have they made a difference? If so, under what conditions? Is respect for human rights greater or worse than it was more than half a century ago? We'll explore these issues and questions over the course of the semester. This course fulfills the Comparative Politics subfield requirement of the Political Science major.

POLI244001 A Continent on the Move: Immigration in Contemporary Europe MOLLES, ELITSA V Fall 2020
Why do people migrate? How do host states and societies react to an increasingly multicultural and diverse foreign population? What impacts the political, economic, and socio-cultural incorporation of Europe’s immigrants? This course explores the central debates in immigration studies through a survey of contemporary Western Europe, with cases comprising immigrant populations in both traditional immigrant receiver countries (e.g., Moroccans in France or Turks in Germany) and “new” immigration countries (e.g., Africans and Latin Americans in Spain or Poles and Nigerians in Ireland). Middle Eastern refugees in Europe will be discussed throughout the semester. Particular emphasis is placed on how the relationship between the immigrant and the receiving state transforms both.

POLI244101 Comparative Politics of Development HONIG, LAUREN Fall 2020
This is a course about power, politics, and global development. Why are some countries rich and others poor? Why do some communities have few resources while their neighbors have plenty? How does inequality affect politics and vice versa? To answer these questions, we will start by critically examining what development is and how it can be measured. Then we will move on to examine theories linking politics to development. We will explore the effects of colonialism, geography, conflict, natural resource wealth, and foreign aid, among others. The readings from this course draw from political science, economics, anthropology, and history. During this semester we will examine both the deep roots of global inequality and engage with active policy debates about development.

POLI250601 UN and International Security CRAWFORD, TIMOTHY W Fall 2020
This course begins with the League of Nations and the origins of the UN and its key structures. Then we examine the UN’s role in collective security, arms control and disarmament, and peacekeeping as these activities were practiced during the Cold War and as they have evolved in recent years. We then turn to UN activities that go beyond treating the symptoms of conflict and aim instead to fight its root causes, such as racism and human rights violations. Finally, we close with an exploration of the meaning of UN legitimacy and the future prospects of the Security Council.

POLI251801 Ideas, Values, and American Foreign Policy DEESE, DAVID A Fall 2020
What are the historical roots and contemporary implications of liberalism and nation-building in American foreign policy? In what ways have liberalism and nation-building shaped presidential foreign policy doctrines and priorities? How have U.S. foreign policy leaders attempted to spread core ideas and institutions to other countries? In particular, how have key American officials understood the relationship between power, markets and democracy? To what extent might U.S. policies and decisions be expected to spread liberalism to countries in the Middle East? Finally, what can be learned from the continuing cases of Afghanistan and Iraq?

POLI252301 Intelligence and International Security CRAWFORD, TIMOTHY W Fall 2020
This course examines the role of intelligence in international security. It provides an overview of the conceptual foundations of intelligence studies and the traditional dimensions of intelligence activity (clandestine collection, analysis, counterintelligence, and covert action). We will then examine classic cases of intelligence success and failure in times of war and peace. Finally, we will explore intelligence's role in today's most important international security challenges: WMD proliferation; the war on terrorism; peacekeeping and humanitarian intervention; and War Crimes prosecutions.

Global Governance ERICKSON, JENNIFER L
Fall 2020
How do states and other actors in the international community manage global challenges? What are the sources of order in international politics? In the absence of world government, questions about how international rules are made, monitored, and enforced are important and widespread. This course provides an overview of the concept and theories of global governance, with a focus on power, institutions, and norms in contemporary international relations. It then examines the stakeholders, processes, and outcomes of global governance in the context of policy areas such as fragile states and conflict, the global economy, arms control, health, and the environment.

POLI265603
The Question of Justice KELLY, CHRISTOPHER J
Fall 2020
Almost all human beings agree that to live well one must live with others. But how are we to live together? What end or purpose orders our relations? What are our obligations? What are our rights? By examining the writings of various seminal thinkers, this seminar seeks to shed light on these questions which are at the core of the great controversies between political orders and even between political parties.

**Seminar: The Anatomy of Dictatorship**

**BAILEY, KATHLEEN T**

**Fall 2020**

This course examines the conditions that give rise to authoritarian regimes; policies and strategies of authoritarian leaders; the different types of authoritarianism; leadership succession and stability; and consequences and outcomes of dictatorship. We will use a variety of sources to explore the politics of authoritarianism such as theoretical approaches, in-depth case studies, biographies, novels, and film.

**Irish Politics 1916 to Present: Modernization and Evolving Relations with the Church, Northern Ireland, the European Union**

**MCGRAW, SEAN D**

**Fall 2020**

Ireland, a country rich in history, has undergone dramatic changes in the twentieth century beginning with its fight for independence and culminating in its meteoric rise during the Celtic Tiger years. What explains Ireland's distinctive political trajectory and how does it compare to other European nations? How should we understand the Celtic Tiger, the rapid series of social, economic and political transformations that have occurred within Ireland since the 1990s? This course explores these questions by studying the political actors and institutional settings of Irish politics, the nature of political influence and the shaping of political priorities, and the forces that shape policy outcomes. It will address such critical issues as the legacies of colonialism and civil war, nationalism, democratization, the relationship between the Church and State, the Northern Ireland Troubles and the European Union. While the course focuses on the Republic of Ireland, it will adopt a broad comparative perspective, situating the country both within the wider global context and within the political science literature.

**Democracy in Africa**

**HONIG, LAUREN**

**Fall 2020**

This is an advanced undergraduate seminar on democracy and elections in Africa. In this course, we will examine important theoretical debates on democracy, electoral authoritarianism, constitutional design, voter behavior, party systems, and brokerage, among others. We will study two countries holding elections this fall particularly closely. Students will analyze these elections in real-time, as a window into a variety of topics related to democracy, political institutions, and political participation.

**The Future of War**

**ERICKSON, JENNIFER L**

**Fall 2020**

What is the future of war? This question has persistently occupied scholars, policymakers, and military analysts. Yet, as new technologies emerge, politics shift, and security threats expand, it takes on increasing relevance and urgency in contemporary international politics. This course will explore historical and contemporary questions about the future of war related to why states fight wars, how they fight wars, and how they seek to regulate the conduct of war in light of new technologies.

**Rising Powers and Power Transitions in Theory and History**

**ROSS, ROBERT S**

**Fall 2020**

This seminar offers multiple analytical perspectives on rising powers/power transitions as a cause of war among the great powers in international politics. It considers the role of power transitions/rising powers as a particular source of great power war, as well as other sources of war that may affect the likelihood of a power transition war. It examines these issues from both theoretical perspectives and through analysis of significant cases studies of power transitions. It concludes with an effort to understand the implications of the rise of China and the U.S.-China power transition from both theoretical and historical perspectives.

**International Law**

**NAKAZATO, HIROSHI**

**Fall 2020**

This course examines the role of international public law (the "law of nations") in the world today. It takes as its starting point the academic (and practical) debate about
the utility of international law in world politics. From there, we consider the philosophical foundations of law, the sources of international law, and the application of international law in different arenas. In particular, the course will focus on how international law deals with a number of issues, including the connection between domestic and international law and the laws on territory, jurisdiction, human rights, and security, as well as other relevant topics.

Domestic Politics of Post-1945 Europe LAURENCE, JONATHAN
Fall 2020
This course examines civil society and parliamentary democracy in Western Europe since World War II. What are the distinctive features of European political systems? How have the major political cleavages developed and changed in the last sixty years? Material will cover institutions and political participation in several countries, from prime ministers and presidents to political parties and social movements. We will consider the influence of Europeanization and regional movements on domestic politics. The course will also pay particular attention to the political impact of mass labor migration, including the emergence of right wing parties and contemporary politics of cultural diversity.

Research Methods in Political Science HOPKINS, DAVID A

Fall 2020

This course provides an introduction to the practice of empirical research in political science. It addresses a variety of prominent methodological approaches, including experimental and quasi-experimental designs, field studies, interviews, content analysis, survey research, and aggregate data analysis. We will also consider relative strengths, tradeoffs, and syntheses of qualitative and quantitative methods. The course aims to equip students both to conduct original research and to evaluate the work of others.

POLI793301
Descartes HANLEY, RYAN P
Fall 2020
What is enlightenment, and how should an individual seeking to become enlightened go about doing so? Our course will attempt to begin to answer these questions via an intensive study of Descartes's philosophical writings, focusing especially (though not exclusively) on Discourse on the Method and Meditations on First Philosophy.

POLI793501
Heidegger's Progeny WILFORD, PAUL T
Fall 2020
The course will treat works by Martin Heidegger and several of his students or followers, such as Karl Lohwth, Georg Gadamer, Alexander Kojève, Leo Strauss, Hannah Arendt, Jacob Klein, and Hans Jonas. The class will begin with a brief consideration of Heidegger's radical critique of the philosophic tradition before turning to examine a variety of ways in which Heidegger's students appropriated, elaborated, criticized, rejected, or otherwise engaged with what they all recognized as the groundbreaking significance of Heidegger's work. The class will investigate questions concerning the challenge of Heidegger's historicism to political philosophy, rival theories of interpretation, communication, and hermeneutics, the relation between human historicity and revelation, problems of technological innovation and the ecological crisis, and the idea of "the end of history."

Political Science Courses: Spring 2021

POLI104101
Fundamental Concepts of Politics HETZNER, CANDACE
Spring 2021
This is an introduction to the study of politics through a consideration of some of the basic elements associated with governing: the political association, justice, constitutions, equality, liberty, conflict among citizens and between citizens and governments, conflict among governments. Each of the course instructors uses a different set of readings, drawing on a mix of political philosophy texts, works on international politics, novels, biographies. Emphasis is on interesting and important readings, discussion, and writing.

POLI104201
Introduction to Modern Politics BEHNEGAR, ALICE P
Spring 2021
This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself—the most typical modern political arrangement—as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

**POLI127901 Americans, Ugly and Beautiful BAYLES, MARTHA**  
**Spring 2021**  
This course is not about "hard power," meaning coercive military or economic action. Instead, it is about "soft power," meaning attraction, persuasion, the power of example. Despite today's decline, America's image and influence still permeate the world, conveyed through every media platform and taking such different forms as news reports, entertainment, face-to-face interactions, and "public diplomacy" (government efforts to cultivate goodwill among overseas populations). How did these different modes of communication work in the past? How should they work today? What messages should the people of the United States be sending to the 95 percent of humanity who are not American? What messages are we in fact sending? These questions will be explored historically, thematically, and by region.

POLI233401
Political Behavior and Participation HOPKINS, DAVID A
Spring 2021
How do citizens form opinions about politics, and how do these attitudes influence their participation in political life? This course addresses these questions by surveying the most prominent sources of influence on the political orientations of individuals, including personality effects, socialization, interpersonal dynamics, cognitive biases, and the news media. We then apply these findings to the most common forms of political behavior, including party affiliation, electoral participation, activism, and protest, aiming to explain why different citizens support different political candidates and causes as well as why some members of the public engage extensively in political activity while others remain uninvolved.

POLI233501
Conflict and Polarization in American Politics HOPKINS, DAVID A
Spring 2021
It was once common for observers to note—and sometimes bemoan—the relative lack of partisan and ideological polarization in American politics, yet many now believe that Americans have become too politically divided. This course examines the nature of political differences in the public, explaining how distinctions of race, sex, social class, religion, ideology, and issue positions are associated with differing choices at the ballot box. We will consider whether the strong ideological conflict now evident in elite institutions reflects similar divisions among citizens, and investigate whether the United States has in fact split into “red” and “blue” partisan territory.

POLI240501 Comparative Politics of the Middle East BAILEY, KATHLEEN T
Spring 2021
This course explores origins of Muslim majority societies and political systems in the Middle East. It covers the formative era of Islamic civilization, and traces the diffusion of the Middle Eastern Islamic paradigm, culminating in the Ottoman system, and explores the social and political disruptions caused by the breakup of Muslim empires and establishment of European economic, political and cultural domination. It addresses how these forces led to the creation of national states and changes in class structure, and explores how the failure of Western forms of modernization and political organization led to demands for the formation of new political communities based on the revival of Islamic principles. Discussions will center Islam's compatibility with liberalism, secularization, modernity, democracy, and terrorism. Recent developments surrounding the “Arab Spring” and its aftermath will be explored. The course includes a crisis simulation exercise.

POLI241301
The New Worlds of Welfare Capitalism: Economic Reform, Redistribution, and Social Policy
MARCESSE, THIBAUD
Spring 2021
Under what conditions do states decide to redistribute and fund a welfare state? This course builds on scholarship in institutional economics and political economy to consider the evolution of welfare states in both industrialized economies and emerging economies in the global south. It will not only consider the impact of economic reforms such as market and trade liberalization on welfare regimes, but also look at the evolution of the structure of taxation and its impact on social policies. The course will discuss some of the challenges faced by emerging economies in the implementation of welfare policies in the absence of large-scale redistribution.

POLI244001
A Continent on the Move: Immigration in Contemporary Europe MOLLES, ELYSA V
Spring 2021
Why do people migrate? How do host states and societies react to an increasingly multicultural and diverse foreign population? What impacts the political, economic, and socio-cultural incorporation of Europe's immigrants? This course explores the central debates in immigration studies through a survey of contemporary Western Europe, with cases comprising immigrant populations in both traditional immigrant receivers (e.g., Moroccans in France or Turks in Germany) and "new" immigration countries (e.g., Africans and Latin Americans in Spain or Poles and Nigerians in Ireland). Middle Eastern refugees in Europe will be discussed throughout the semester. Particular emphasis is placed on how the relationship between the immigrant and the receiving state transforms both.

The Causes of War CRAWFORD, TIMOTHY W
Spring 2021
In the first two-thirds of the course we will survey the major strands of theory concerning the causes of war and apply them to the First World War—a monumental human disaster for Europe and a pivotal event in world politics, therefore making it a very important case. The last one-third of the class will focus on contemporary problems of war and peace (e.g., civil wars, ethnic conflict, proliferation of weapons of mass destruction, and terrorism) using theoretical approaches introduced earlier as well as new ones.

POLI255001
Nuclear Weapons and International Relations O'ROURKE, LINDSEY A
Spring 2021
This course examines the origins, military conduct, and societal consequences of World War I and World War II. We will look at each war from the perspective of state leaders designing their state's military strategy and the soldiers fighting for them. What caused the outbreak of each war? What was each state's military strategy and how did it interact with the strategies of other states? Why were so many soldiers willing to risk their lives and kill others on an unprecedented scale of destructiveness? Topics covered include: the social, political, and technological developments necessary to fight wars of this scale; domestic, accidental and interstate explanations for WWII; the military strategies of the major combatants in both wars; the Versailles Treaty and Post-WWII order; individual, economic, and interstate explanations for WWII; the European and Pacific theaters; German mass killings; and Japan's surrender.

POLI263801
Islamic Political Philosophy
DIPASQUALE, DAVID M
Spring 2021
What is the relationship between philosophy and Islam? Does the divine law (Shari'a) need to be supplemented with purely rational reflections on the nature and purpose of political life? What is the place of tolerance and individual rights in the Islamic legal and philosophic tradition? We will explore these and similar questions by focusing on two particularly fertile periods of Islamic thought: the encounter of Islam with Greek philosophy in the classical period and its encounter with the modern secular west in late modernity.

POLI340601
Irish Politics 1916 to Present: Modernization and Evolving Relations with the Church, Northern Ireland, the European Union
MCGRAW, SEAN D
Spring 2021
Ireland, a country rich in history, has undergone dramatic changes in the twentieth century beginning with its fight for independence and culminating in its meteoric rise during the Celtic Tiger years. What explains Ireland's distinctive political trajectory and how does it compare to other European nations? How should we understand the Celtic Tiger, the rapid series of social, economic and political transformations that have occurred within Ireland since the 1990s? This course explores these questions by studying the political actors and institutional settings of Irish politics, the nature of political influence and the shaping of political priorities, and the forces that shape policy outcomes. It will address such critical issues as the legacies of colonialism and civil war, nationalism, democratization, the relationship between the Church and State, the Northern Ireland Troubles and the European Union. While the course focuses on the Republic of Ireland, it will adopt a broad comparative perspective, situating the country both within the wider global context and within the political science literature.

POLI340901
Human Rights and Film in Latin America PURNELL, JENNIE
Spring 2021
This course explores human rights in Latin America as depicted through the medium of film. We'll begin with an overview of human rights in the region, and then turn to readings, films, and documentaries dealing with physical integrity rights, gender inequalities, migration, environmental struggles, and transitional justice. Prior course work on Latin America and/or human rights is required.

POLI341601
Race and Ethnicity in Latin America PURNELL, JENNIE
Spring 2021
This course examines the politics of ethnicity and race in contemporary Latin America. Our focus will be on the struggles of indigenous peoples and people of African descent to create more just, egalitarian, and rights-respecting societies and political systems. Prior course work on Latin America is highly recommended.

POLI351001
Globalization CHRISTENSEN, PAUL T
Spring 2021
This course examines the political, economic, social, and cultural implications of the increasingly integrated world system. The course focuses on conflicting assessments of international institutions (IMF, World Bank, WTO) and political governance; the impact of economic integration; and the effects of globalization on state sovereignty, democracy, and social cohesion. Specific case studies will include: globalization and the environment; globalization, gender, and work; globalization and immigration/migration; globalization and the illicit economy, and anti-globalization social movements and activism.

POLI360401
Capitalism and Socialism HANLEY, RYAN P
Spring 2021
For the past two centuries, capitalism and socialism have been taken to represent the two fundamental alternatives available to us with regard to the organization of the economy. But what exactly do we mean when we invoke these concepts, and what exactly are the fault lines that render them distinct? Through an intensive study of the foundational philosophical texts that gave rise to these traditions, our course will seek to gain clarity about what we mean when we invoke these today. Authors to be examined will include Rousseau, Adam Smith, Marx, and Hayek, as well as key writings in the tradition of Catholic Social Thought.

POLI361101 1776
HANLEY, RYAN P
Spring 2021
The year 1776 was a landmark year in the history of freedom. Not only did it witness the birth of our nation "conceived in liberty, and dedicated to the proposition that all men are created equal," but it also saw the publication of several seminal works by the leading political thinkers of the Enlightenment. This course will examine these texts--including works by Thomas Paine, John Adams, Thomas Jefferson, Edward Gibbon, David Hume, and Adam Smith--giving special attention to the concepts of liberty they set forth.

The Promise and Perils of Technology

POLI362301

THIBAUD, PAUL T

Spring 2021

This course investigates how technology has transformed our political, socio-economic, and religious lives, engaging with a range of sources from philosophic texts to literary classics, political tracts, and dystopian novels. The course will have three main components. We will consider (1) the philosophic innovations at the beginning of modernity, especially the arguments by Francis Bacon and Rene Descartes that we ought to become "the masters and possessors of nature" for "the relief of man’s estate," (2) the early critics of the transformation, especially Jean- Jacques Rousseau’s skepticism about technological progress and the profound questions about human nature raised by Mary Shelley’s novel "Frankenstein," and (3) the contemporary political challenges posed by industrialization and globalization, poignantly expressed by Mahatma Gandhi, and the gravity threat of bioengineering and the ecological crisis, focusing on Hans Jonas’s classic work, The Imperative of Responsibility.

International Relations of the Middle East

POLI459301

KRAUSE, PETER J

Spring 2021

Media coverage of the Middle East increases by the day, but in-depth knowledge of the region and its politics remain in short supply. Why has the Middle East seemingly experienced so much conflict? How do ethnic and religious identities, domestic politics, and the balance of power between nations help explain state behavior in the region? What explains variation in the foreign policies of Middle Eastern states amidst the Arab Spring, the civil war in Syria, and rivalries in the Gulf? This course will address the international relations of the Middle East from World War I to today.

Muslims in American Society and Politics

POLI429401

SKERRY, PETER N

Spring 2021

An examination of the demographic, social, cultural, religious, and political forces that are shaping the emergent American Muslim community. Intergenerational family dynamics, Muslim schools, mosque governance, civil religion in America, advocacy, group politics, and voting patterns will be examined. We will explore linguistic, national-origin, and sectarian differences among immigrant-origin Muslims, particularly their political implications. African-American Muslims will also be considered, especially their relations with immigrant-origin Muslims. Attention will be paid both to the impact of Muslims on American society and to the impact of American institutions and policies, especially post-9/11 initiatives such as the Patriot Act, on Muslims.

The Political Philosophy of Alfarabi

POLI449101

DIPASQUALE, DAVID M

Spring 2021

The Political Philosophy of Alfarabi (d. 950) founded the main tradition of philosophy in the Islamic world. Regarded by his successors such as Avicenna (Ibn Sina), Averroes (Ibn Rushd) and Maimonides as the "Second Teacher" or greatest philosophical figure following the death of Aristotle, Alfarabi was understood to have been the leading authority in two fields of study, namely, logic and political science. This course will involve a close reading of The Philosophy of Plato and Aristotle. No prior acquaintance with the Arabic language or Islamic philosophy is necessary.

The American Founding HALE, DENNIS B
Spring 2021
This seminar will examine the political debates associated with the American Founding. We will read some of the more important pre-Founding texts; examine the debate between and among the Federalists and Anti-Federalists; and study some of the immediate post-Founding discussions over such contested matters as: the nature of the Union, the powers of states, the status of slavery, the role of political parties,
the appropriate way to understand the presidency, the Congress, and the federal courts.

**Credits:** 03

**POLI771901**
American Politics From the Ground Up SKERRY, PETER N

**Spring 2021**
The populist wave in American politics highlights the limitations of approaches focusing on formal organizations and government bureaucracies, particularly at the national level. As "political realists" such as Galston, Yack, and Honig note, informal and emergent social bonds and cultural forces also demand attention. Others emphasize the causal priority of ideas. This debate will be engaged by examining the social and cultural dimensions of politics. Topics to be considered will include: informal, pre-political social formations such as families and neighborhoods; non-economic aspects of corruption; community institutions such as churches, synagogues, and mosques; labor unions; and Alinsky community organizations. So will social and political movements such as the Tea Party and other manifestations of populism. These will be examined in the context of a regime improbably characterized by both identity politics and expertise.

American National Institutions in a Mature Welfare State MELNICK, ROWELL S

**Spring 2021**
This seminar focuses on (1) how our peculiar political institutions have shaped the American welfare state, and (2) how the expansion and maturation of the welfare state has changed American politics. Topics include partisan polarization and the persistence of divided government; the centralization of power within Congress and its preoccupation with budget matters; the paradox of growing administrative power and vulnerability; the entrenchment of "adversarial legalism"; the incentives for presidents to go around rather than through Congress; mobilization and counter-mobilization by interest groups; and efforts by state governments to create national policies.

Advanced Directed Study EASTER, GERALD M

**Spring 2021**
Advanced Directed Study is a final paper project for eligible second year Master's students. It is a focused and substantial paper, written under the guidance and approval of a supervising faculty member. The project is intended to cultivate expertise in a subject in which the student has formed an interest and has already done some work in. Examples include: further development of a paper from previous seminars with a case study, primary sources or original research; and extended critical literature review; or, a delegated project in cooperation with a supervising professor's own research.

Global Public Goods and Cooperation in International Politics DEESE, DAVID A

**Spring 2021**
Some of our most urgent challenges, from global warming and international financial crises to nuclear proliferation, global epidemics or disruption of the internet, can be understood as "global public goods." These require international actors to bargain, coordinate, and collaborate in reaching effective responses. This seminar investigates the nature of public goods and collective action in order to help understand these pressing challenges, possible responses to them, and how politics both limits and opens opportunities for policy formation. It begins with prevalent theories about the production of public goods, from the local to transnational and global, and analysis of their governance. It then studies in depth three case studies, providing international financial stability, slowing the spread of nuclear weapons worldwide, and mitigating global climate disruption. It concludes by examining the implications of rising socioeconomic inequality in major countries worldwide.

**POLI782501**
This seminar covers major concepts, theories, and research programs in the field of security studies: the concepts of national security interests and strategies, state and grand strategy; morality and war; civil-military relations; the security dilemma and offensive-defense theory; alliance politics and collective security; arms races and arms control; nuclear strategy; coercive diplomacy; proliferation and counter-proliferation; and terrorism and counter-terrorism. In additional to reviewing key theoretical works on these subjects, we will examine important empirical cases from the Cold War and recent international crises.

Institutions in International Politics

DEESE, DAVID A

Spring 2021

This graduate seminar probes the nature and limits of cooperation in world politics. It begins by examining the fundamentals of power, conflict, and cooperation at international and global levels. It focuses on the sources, evolution, and prospects for cooperation, including competing theoretical understandings. Key questions include the importance of regions and regionalism, the effects of democracies and democratization, and the role of both balancing and leadership at the global level.

Weekly papers, oral presentations, and a major research project are required.

**Psyc111001**
**Introduction to Brain, Mind, and Behavior LAMOUREUX, JEFFREY A**
**Summer 2020**
The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. This course will help students to understand the neuroscientific bases of psychological phenomena.

**Credits:** 03
**Room and Schedule:** ONLINE COURSE;ASYNCHRONOUS;MUST LOGIN WEEKLY;JUN 29 - AUG 14;
Satisfies Core Requirement: Natural Science
Prerequisites: None
Corequisites: None
Cross-listed with: None
Frequency: Annually
Student Level: CORE
Comments: Counts for Social Science core for classes of 2020, 2021, 2022, 2023; counts for Natural Science core for classes 2024 and beyond
Status: OPEN

---

**Psyc223402**
**Abnormal Psychology OGREN, MARILEE**
**Summer 2020**
This course provides an introduction to the field of abnormal psychology. Major topics include theoretical and empirical approaches to the study of psychopathology; assessment and diagnosis of abnormality; and psychological, behavioral, biological, and sociocultural characteristics of the major syndromes of psychopathology. Legal and ethical issues and current approaches to the treatment and prevention of psychological disorders will also be discussed.

**Credits:** 03

**Psyc224201**
**Personality Theories CANAVAN, DONNAH**
**Summer 2020**
Does personality make us who we are? Whether selecting a mate, voting for a president, or understanding ourselves, we want and need to know about personality. In this course we consider how personality can be measured, how well it predicts behavior, what shapes our personality, and whether personality can be changed.

**Credits:** 03
examined throughout the course as students discover how neuroscience and faith converge or diverge in their contributions to understanding of the human experience and its development throughout life's unique pathways. To engage in this exciting dialogue about larger questions that may integrate these seemingly disparate and often siloed modern and ancient disciplines, students will be exposed to key concepts, definitions and vocabulary in neuroscience and recent advancements in related biological fields such epigenetics. We will then be able to engage in investigating and returning to important questions that may thematically bridge these fields. Through extensive writing, reflection and dialogue students will have the opportunity to deepen their understanding of the relationships among faith, religion, spirituality, and modern science.

PSYC339202
Neuroscience of Addiction RAY, MADELYN H
Summer 2020
This course provides an introduction to the scientific study of psychopharmacology, with an emphasis on drugs of abuse and pharmacological treatments for addiction. A general overview of drug action (basic pharmacology) and the behavioral factors that influence drug action will be provided. This overview will be followed by in-depth analysis of the physiological and behavioral effects of the drugs discussed.

Psychology and Neuroscience Courses: Fall 2020

PSYC109101
Thinking about Feelings: The Psychology of Emotion HEBERLEIN, ANDREA S
Fall 2020
How does the language that we speak shape our emotional concepts? Is our emotional experience different than that of someone from a different culture? How do we recognize others' emotions? Does emotion get in the way of making good decisions, or does it help? We will discuss these and other questions from the perspective of psychological science, focusing on the ways that questions are formulated into experiments and answered using scientific methods. Through this course, students will learn about both classic and current research on emotion, gain experience with designing an experiment, and develop skills in reading scientific research articles.

PSYC227201
Cognitive Psychology: Mental Processes and their Neural Substrates MACEVOY, SEAN P
Summer 2020
This course introduces the scientific study of mental function from an information processing perspective. The course examines how information is processed and transformed by the mind to control complex human behavior. Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.

PSYC332201
Religion and the Brain: An Introduction to Neurotheology BLACK, JESSICA M
Summer 2020
The brain is an organ of adaptation and such plasticity allows humans the capacity to build and draw upon faith and reason throughout times of stress and the building of resilience. Brain development throughout all life stages will be examined as we consider the following primary question: What does the field neuroscience help us to understand about faith throughout the life span, and what does it leave out? Contexts that confer stress or build resilience are
PSYC111001
Introduction to Brain, Mind, and Behavior HEYMAN, GENE M
Fall 2020
The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. PSYC224201
Personality Theories RUSSELL, JAMES
Fall 2020
Does personality make us who we are? Whether selecting a mate, voting for a president, or understanding ourselves, we want and need to know about personality. In this course we consider how personality can be measured, how well it predicts behavior, what shapes our personality, and whether personality can be changed.

PSYC227401
Sensation and Perception MACEVOY, SEAN P
Fall 2020
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.
Credits: 03
Room and Schedule: CASSON HALL 310, T TH 9*: HYBRID;

PSYC332401
The Psychology of Prejudice and Discrimination ZIMBLER, MATTITIYAHU
Fall 2020
This course focuses on the social psychology of stereotyping, prejudice, and discrimination. In other words, we will examine beliefs about members of social groups (stereotypes), evaluations of group members (prejudice), and behaviors towards members of social groups based on their group membership (discrimination). Also we will study how these issues shape the experiences of social group members, especially when they are members of low-status and/or minority groups. Rather than relying on anecdotal evidence, we will examine theories of stereotyping, prejudice, and discrimination through empirical research findings.
Credits: 03

PSYC333601
Clinical Psychology ROSEN, KAREN
Fall 2020
Issues associated with the treatment of psychological disorders will be examined. The concepts of normality and pathology will be discussed in the context of various models of intervention.
Several different schools of psychotherapy will be covered, with an emphasis on the theoretical assumptions and practical applications of each perspective. Studies on the effectiveness of psychotherapists will be reviewed. The clinical training and professional practices of psychotherapists will be discussed.

Sport and Exercise Psychology MOORE, KRISTINA  
Fall 2020  
This course will provide a broad introduction to sport and exercise psychology as both a science and a practice. Content will include major theories, seminal and current empirical research, and practical considerations concerning the cognitive processes, emotional states, social influences, and developmental systems involved in sport and exercise participation and performance. Topics will span across individual, group, and context and may include personality, motivation, anxiety, team cohesion, group dynamics, as well as psychological skills training areas such as confidence, imagery, arousal regulation, goal-setting, and concentration. Students will synthesize material and design appropriate applications to sport and exercise settings.

**PSYC334501**  
Social Motivation CANAVAN, DONNAH  
Fall 2020  
How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

**Credits:** 03

**PSYC335301**  
Culture and Emotions RUSSELL, JAMES  
Fall 2020  
The course is devoted to major psychological perspectives on emotion (such as cognitive and social psychological) both historic and contemporary, with an emphasis on how culture enters into the theory. The second part of the course focuses on ethnographies and other evidence on the possible roles of culture in emotion. Specific topics to be covered include universal recognition of emotion from facial expression, role of language in emotion, feeling rules, emotion scripts, and the development of children's understanding of emotion.
This course explores psychopharmacology, the science of drugs and behavior. We will discuss synaptic neurochemistry as associated with a number of specific mechanisms of drug action and outline brain circuits which mediate drug actions such as reward. Major classes of psychotropic drugs will be introduced, including both drugs of abuse and psychotherapeutic agents used in the treatment of mood disorders and psychosis.

Credits: 03

Status: OPEN

PSYC338801
Neurobiology of Eating and Eating Disorders PETROVICH, GORICA D
Fall 2020
This course will review the neural mechanisms controlling food intake, and body weight regulation under normal circumstances and in eating disorders. Eating is not only controlled by metabolic signals (e.g., hormones, peptides), but also by extrinsic or environmental factors that are not directly related to energy balance (e.g., stress, emotion, social/cultural factors). Likewise the brain systems regulating hunger are associated with networks mediating stress, reward, emotion, and learning and memory. The course will explore the current neuroscience findings from animal models, and human studies relevant to appetite, regulation of eating, and eating disorders.
Credits: 03
Room and Schedule: DEVLIN HALL 008,M W F 12; Satisfies Core Requirement: None Prerequisites: ( PSYC2285 OR PSYC3384 ).

PSYC339001
Neurobiology of Psychiatric Disorders MCDANNALD, MICHAEL A
Fall 2020
All people are directly or indirectly impacted by psychiatric disorders. It is now clear that virtually all psychiatric disorders have their basis in the brain. This course will explore the neurobiology of psychiatric disorders. We will focus particularly on clinical studies examining brain function in people with psychiatric disorders and animal models aiming to better understand these disorders. Students are expected to have a strong background in neuroscience prior to entering this course.

PSYC339101
Ethical Controversies in Psychology and Neuroscience WEIDMAN, NADINE
Fall 2020
Can MRI machines really "see" your thoughts? Should our brains or our free will be held responsible for our behavior? Should psychotropic drugs be used for neural enhancement, or only to treat illness? Psychology and neuroscience raise a host of ethical controversies—from claims to peer into the privacy of the mind, to applications in the courtroom, to treatment of experimental subjects. Rather than determining the "right" answers, this course explores the scientific, political, social, moral, and religious values these debates involve. Readings include works by scientists, philosophers, historians, theologians, and ethicists. Students enact the roles of stakeholders in in-class debates.
Credits: 03
Room and Schedule: M 3-5 30;ONLINE;SYNCHRONOUS;

PSYC440101
Research Practicum in Computational Methods ANZELLOTTI, STEFANO
Fall 2020
This course is a practical introduction to the convergence between psychology, neuroscience, and artificial intelligence. Ideas from psychology and neuroscience have inspired the development of artificial neural networks. Their current instantiations, deep neural networks, are having a profound impact on computer science and society, but also on the study of the brain and cognition. This course starts with a brief introduction to the roots of artificial intelligence in psychology and neuroscience, followed by a brief, accessible introduction to the mathematical foundations of deep neural networks. In the remainder of the course, students will learn to use python and pytorch and will work in groups to implement and train deep neural networks to build models of behavior or of the brain. Prior experience with computer programming is highly recommended; students with no experience in programming are encouraged to meet the instructor before enrolling.

PSYC443101
Positive Psychology CANAVAN, DONNAH
Fall 2020
This advanced undergraduate seminar reflects a new direction in psychology that focuses on topics that emphasize people's positive characteristics and processes. Characteristics that will be studied include happiness, kindness, generosity, love, and gratitude. Growth, healing, relatedness, and curiosity are among the processes that will be examined. The course will also address the antecedents and consequences of positive social situations such as peace, solidarity, and massive public responses to catastrophes like 9/11.
Credits: 03
Room and Schedule: CARNEY HALL 007,F 9 30-12; Satisfies Core Requirement: None
Prerequisites: PSYC1121 AND ( PSYC2241 OR PSYC2242 ).
Corequisites: None Cross-listed with: None Frequency: Annually

PSYC443501
Images of Mental Illness in Film and Literature SCHNEIDER, BARRY H
Fall 2020
This course is devoted to the representations of mental illness in film and literature, which are often more complex and more personal than the descriptions of psychological disorders in scientific writings. Students deepen their understanding of abnormal psychology as they critique material from selected books and films containing depictions of disorders. These creative works will be examined in terms of the possible motivation of the authors and filmmakers and the potential for the creative works to decrease or increase stigma. The messages conveyed about the nature of abnormality are emphasized throughout the course. The course concludes with consideration of the ways in which psychologists and other mental-health professionals are depicted in these media.

PSYC443601
Clinical Fieldwork in Psychology ROSEN, KAREN
Fall 2020
This course will provide students with an opportunity to integrate theoretical and empirical work in clinical psychology with the real-life experience of working in a clinical setting. Students will select, together with the professor, a field placement (e.g., hospital, community clinic, day treatment center, shelter, emergency hot line, preschool classroom, prison). Students' work in the field will involve at least eight hours per week with weekly, on-site supervision. Weekly class meetings will focus on the discussion of issues relevant to the direct application of mental health services to child, adolescent, and adult patients.
Credits: 03
Room and Schedule: M 3 30-4;ONLINE;SYNCHRONOUS;
Satisfies Core Requirement: None
Prerequisites: PSYC3336.
Corequisites: None
PSYC44101
Research Practicum in Sport and Exercise Psychology MOORE, KRISTINA
Fall 2020
This course introduces students to research in sport and exercise psychology. Course content will focus on the various methods used to study psychosocial aspects of sport; exercise, and physical activity. Students will become familiar with quantitative and qualitative methods by examining current research in the field and participating in hands-on, collaborative research assignments. Students will also choose a topic related to course content, conduct a literature review, design a study, collect and analyze data, write a scientific paper in APA style, and present their findings.

PSYC444801
Achievement Motivation CANAVAN, DONNAH
Fall 2020
This course presents a wide-ranging set of theories/ideas about achievement and what facilitates and hinders it. Topics include intrinsic and extrinsic motivation, success, productivity, competition, fear of success, fear of failure, greed, risk, and social energy. Some of the psychological processes that will be covered are the childhood, cultural, and educational origins of achievement motivation, the development of expertise, and success and psychological health.

PSYC447001
Research Practicum in Cognitive Psychology BROWNELL, HIRAM H
Fall 2020
This course introduces students to the research process in cognitive psychology and cognitive neuroscience. The semester starts with a review of experimental design, common methods, critical reading of journal articles, and ethics. Then, students work individually or in small groups to carry out a research project in an area of language or cognition that relates to cognitive neuroscience. Possible research topics are discussed in class. The research project entails reviewing the psychological and neuroscientific literature, identifying an appropriate research topic, designing and carrying out an empirical study, and evaluating and communicating the results.
Credits: 03
Room and Schedule: CAMPION HALL 231,T 10 30-1;
Satisfies Core Requirement: None

PSYC447101
Research Practicum in Experimental Psychology HEYMAN, GENE M
Fall 2020
Students will conduct experiments on cognition and decision making, evaluate social and psychological aspects of opiate use as measured by mortality and social-economic measures, and learn how write APA-style research reports. Class readings provide the conceptual background for our studies. Class discussion focuses on the readings and methods for analyzing and presenting our research results.
Credits: 03
Room and Schedule: T 4-6 30:ONLINE:SYNCHRONOUS;

**Fall 2020**  
For students in the Honors Program writing a thesis. All Honors Program students write a thesis during the senior year. In most cases, the thesis involves original empirical research, although theoretical papers may be permitted in exceptional instances. Honors students are encouraged to take an Independent Study with a prospective thesis advisor during the junior year, to develop a thesis proposal. The designation "Graduated with Departmental Honors" will be granted by the Honors Program Committee upon successful completion of the Honors Program requirements and the final evaluation of the thesis. Registration requires a syllabus/contract form, which is found on the Psychology Department’s website; go to Undergraduate, then Academic Opportunities, then Independent Courses: Research, Honors Program, and Senior Thesis.

PSYC556501
Origins of Virtue MCAULIFFE, KATHERINE J
Fall 2020
Drawing on experimental work with adults, children, and animals, this graduate seminar will explore the origins of virtue. This course is discussion-based and reading/writing intensive. Each meeting will focus on the origins of a different virtue such as justice, honesty, trustworthiness, and loyalty. Students will gain familiarity with evolutionary and developmental perspectives on virtue, will have a chance to develop their own empirical approaches to the study of virtue, and will have a chance to lead class discussions.

PSYC557301
Advanced Topics in the Neuroscience of Memory RITCHET, MAUREEN
Fall 2020
When we remember a past event, we form a mental representation of its specific details, including the people, places, and time associated with the event. Understanding the nature of these memory representations is an important challenge for neuroscientists. This seminar will focus on theoretical and experimental approaches to characterizing memory representations in the brain, targeting questions such as: Where are memories stored? Can we identify and manipulate individual memory representations? How do memory representations change over time? And what aspects of memory are reactivated versus reconstructed? The course will integrate research from the cognitive and behavioral neurosciences, incorporating both human and rodent studies of memory. Class meetings will typically include student-led discussions of journal articles related to each week's topic.

PSYC550101
Experimental Design and Statistics MAGNUS, BROOKE E
Fall 2020
This course focuses on experimental design and related statistical methods. It covers between-subject, within-subject, and mixed designs with one and two factors. Statistical topics include the relevant statistical model and model assumptions, omnibus test, test of contrasts, multiple comparison, effect size, and power calculations. One and two sample t tests will also be revisited. If time permits, advanced topics such as designs with nested factors or random factors, mixed model approach, and nonparametric approach may also be covered.

PSYC554201
Theories of Human Emotion RUSSELL, JAMES
Fall 2020
This seminar covers the major psychological theories of human emotion, beginning with the classic writings of William James and continuing to contemporary controversies about the nature of emotion. Some of the questions to be considered are whether or not there are basic emotions, the relation of emotion to cognition and action, and whether emotions are innate or learned through our particular culture. The focus is on biological, social, and cultural subdisciplines of psychology, but contributions of anthropology, philosophy, and other disciplines will be discussed as well.

Status: CANCELLED

PSYC220001
Introduction to Social Work RYAN, SARAH E
Spring 2021
Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.
Credits: 02
Room and Schedule: GASSON HALL 306,W 7-9 30; HYBRID;
Satisfies Core Requirement: None
Prerequisites: None
Corequisites: None
Cross-listed with: SCWK6600, SOCY5565 Frequency: Annually

### PSYC220617
**Independent Study YOUNG, LIANE L**
**Spring 2021**
This course offers students the opportunity to study a topic of personal interest, working independently under the supervision of a faculty member within the Psychology Department. A student may obtain the consent of a faculty member to serve as his or her instructor by contacting the faculty member directly. The instructor, working with the student, decides on the nature of readings and related activities involved as well as the precise form of scholarly work required. Registration requires a syllabus/contract form, which is found on the Psychology Department's website; go to Undergraduate, then Academic Opportunities, then Independent Courses: Research, Honors Program, and Senior Thesis.

**Spring 2021**  
This course offers students the opportunity to study a topic of personal interest, working independently under the supervision of a faculty member within the Psychology Department. A student may obtain the consent of a faculty member to serve as his or her instructor by contacting the faculty member directly. The instructor, working with the student, decides on the
This course explores the scientific study of social thought and behavior. How do we understand, interact with, and influence other minds—and our own? How might we apply psychology to social problems? Topics include mind perception, emotion, persuasion, stereotyping, and moral psychology.

Credits: 03
Room and Schedule: T TH 10 30*-ONLINE;SYNCHRONOUS; Satisfies Core Requirement: None
Prerequisites: None Cross-listed with: None Frequency: Annually
Student Level: UNDERGRAD-MAJORS
Comments: None
Status: CLOSED
Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.

The Psychology of Prejudice and Discrimination ZIMBLER, MATTITIYAHU Spring 2021
This course focuses on the social psychology of stereotyping, prejudice, and discrimination. In other words, we will examine beliefs about members of social groups (stereotypes), evaluations of group members (prejudice), and behaviors towards members of social groups based on their group membership (discrimination). Also we will study how these issues shape the experiences of social group members, especially when they are members of low-status and/or minority groups. Rather than relying on anecdotal evidence, we will examine theories of stereotyping, prejudice, and discrimination through empirical research findings.

PSYC227401 Sensation and Perception MACEVOY, SEAN P
Spring 2021
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.

PSYC228901 Comparative Psychology: Study of Animal Behavior JOHNSTON, ANGELA M
Spring 2021
This course is a survey of animal behavior from the psychologist’s perspective. The methods and aims of comparative psychology are presented as we consider how and why psychologists should study animal behavior. All species are faced with fundamental problems such as navigating in their environment, finding food and water, defending against predators, communicating with conspecifics, attracting a mate, and learning and remembering information. The course will examine the very different strategies that various species, including humans, have evolved for solving these problems, and discuss reasons why these different kinds of strategies have evolved.

PSYC332901 Psychophysiology of Stress IVKOVIC, VLADIMIR
Spring 2021
This course explores the psychological and physiological factors underlying stress, including basic principles of psychophysiology and fundamental concepts of stress. Topics include emotion, motivation, multitasking, attention, arousal, and distraction. Physiological mechanisms underlying stress will be examined relative to health and abnormal behaviors, such as addictions, mood disorders, and violence. Students will be instructed in methods of stress control, including cognitive behavioral techniques and meditation.

Credits: 03

PSYC334501  
Social Motivation ZIMBLER, MATITIYAHU  
Spring 2021  
How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.  
Credits: 03  
Room and Schedule: W 9 30-12;ONLINE;SYNCHRONOUS;

PSYC336001  
How Extraterrestrials Think HARTSHORNE, JOSHUA K  
Spring 2021  
This course covers what we know about the minds of extraterrestrials. You might think that we don't know anything about extraterrestrials on account of the fact that we haven't met any. In fact, study of human cognition has taught us a lot not just about humans, but about what is and isn't possible. So we actually can make some definitive statements about what aliens must be like (assuming there are any). For instance, it can be shown that society could not exist if we did not have memories, so we can be fairly certain that any extraterrestrials who are advanced enough to have large-scale societies must have memories. In short, thinking about extraterrestrial cognition allows us to hold up a mirror to humanity and ask why we are the way we are, and whether there are other ways to be. The course will involve approx. 50% reading relevant findings from psychology and 50% analyzing depictions of aliens from film and literature. There will be three units: alien perception, alien morality, and alien language.  
Credits: 03  
Room and Schedule: T TH 1 30-3;ONLINE;SYNCHRONOUS;

PSYC336601  
Social and Emotional Development ROSEN, KAREN  
Spring 2021  
In this course, we will explore developmental changes in social and emotional functioning from birth through adolescence. We will study the beginning of emotion expression and the emergence of attachment relationships, the development of emotional regulation, and the socialization of children during infancy. We will then continue to examine emotional changes and social development through toddlerhood, early childhood, middle childhood, and adolescence. The influences of parents, siblings, peers, and caregivers will be examined, as will the issues of individual differences, stability and change, and coherence of development across contexts and over time.  
Credits: 03

PSYC336901  
Understanding the Social World: Social Cognition in Humans and Other Animals MCAULIFFE, KATHERINE J  
Spring 2021  
This course will address the puzzle of how we make sense of our social world by focusing on questions such as: how do we carve our world into meaningful social groups, understand what others are thinking and maintaining productive cooperative relationships? These questions will be tackled using both developmental and comparative approaches, with the goal of understanding how social cognition takes shape over childhood and what aspects of human social cognition are shared with other animals.

PSYC337101  
Cognitive Neuroscience RITCHES, MAUREEN  
Spring 2021  
Have you ever wondered where your memories are stored? Or how we perceive a rich visual world based on simple changes in light? Or what is going on in your brain when you're distracted during class? Cognitive neuroscience aims to reveal the connections between mind and brain, linking cognitive phenomena to neurobiological processes. This course will introduce the neural bases of perception, attention, memory, emotion, and other cognitive functions, as well as the key research methods used to investigate these topics (functional MRI, EEG, lesion studies, neurostimulation). The course will also encourage critical evaluation of the scientific evidence presented in primary research articles in cognitive neuroscience. Class periods will include instructor-led lectures as well as team-led discussions of primary research articles.  
Credits: 03

PSYC337301  
Learning and Motivation LAMOURFEX, JEFFREY A  
Spring 2021  
This course examines fundamentals of learning theory. We will examine principles of classical and instrumental learning in animals and will discuss the human application of these principles in the home, classroom and clinical settings. We will focus heavily on classic and recent experiments designed to assess the processes and content of associative learning. Lastly, we will consider whether animals simply acquire stimulus-response tendencies, or if they have a more cognitive representation of their world, again focusing on how we can even ask this experimentally.

Developmental Neuroscience OGREN, MARILEE  
Spring 2021  
Developmental Neuroscience covers the principles governing the development of the nervous system. These principles include (but are not limited to) induction, neurogenesis, cell migration, differentiation, axonal guidance,
This course is discusses how people acquire knowledge about others. The first part of the course focuses on the perceptual mechanisms involved in the recognition of other agents, their identity, their facial expressions, and their actions. The second part of the course covers how these perceptual “ingredients” are used to make inferences about other people’s mental states (i.e., their emotions), their beliefs, their goals, and their traits. During the course, we will read and discuss recent research articles, and explore how different types of evidence and different methods can be used to constrain theories of cognition and of the brain.

Research Practicum in Child and Adolescent Clinical Psychology SCHNEIDER, BARRY H
Spring 2021
This practicum focuses on research inspired by the assumption that faulty interpersonal interactions are at the core of psychological disorders of children and adolescents. Research methods for studying both peer and family relationships are considered as well as standard tools for the identification of participants for clinical research. Students will participate in the analysis of data on interpersonal relationships and adjustment. They will learn to interpret the data and write a manuscript in APA style.

PSYC444101
Research Practicum in Sport and Exercise Psychology MOORE, KRISTINA
Spring 2021
This course introduces students to research in sport and exercise psychology. Course content will focus on the various methods used to study psychosocial aspects of sport, exercise, and physical activity. Students will become familiar with quantitative and qualitative methods by examining current research in the field and participating in hands-on, collaborative research assignments. Students will also choose a topic related to course content, conduct a literature review, design a study, collect and analyze data, write a scientific paper in APA style, and present their findings.

PSYC444501
Research Practicum in Developmental Psychology TOPPER, STACEE S
Spring 2021
This course is designed to serve as an overview of the research methods used in the study of Developmental Psychology. Over the course of the semester, you will become comfortable with all aspects of the scientific method. While completing a semester long research project proposal, you will learn to identify research questions, design a thoughtful scientific study, and propose statistical analyses. Students will gain experience reading, analyzing, and critiquing current research in developmental psychology. By the end of course, you will be familiar with the different methods used in developmental research and become critical consumers of research in this area.
Credits: 03

PSYC447201 FMRI
SLOTNICK, SCOTT
Spring 2021
For over a century, human brain mapping has been conducted by correlating lesion location with impaired behavior. In the last 25 years, functional magnetic resonance imaging (fMRI)—a noninvasive neuroimaging technique with excellent spatial resolution—has given rise to an explosion of knowledge regarding the role of specific brain regions in particular types of cognitive processing (such as shifting attention or memory retrieval). The aim of this course is to provide an in-depth examination of fMRI by reviewing the physical basis of the fMRI signal and its relation to neural activity in addition to considering issues of experimental design and data analysis. Brain mapping techniques based on lesions and electrophysiology are also discussed.

Research Practicum: Neurogastronomy HERZ, RACHEL S
Spring 2021
How do our senses—what we see, hear, smell, and taste, and the sensory features of how food is presented to us—influence what, when, and how much we eat? How do moods, expectations, the situation we are in, and the people we are with influence our feelings of hunger and satiety, and even how we metabolize food? How does what we eat influence our emotions, and how do our personalities and moral convictions influence what we eat? These are some of the topics that will be addressed in this research practicum involving critical reading, class presentations, research projects, and active participation.

PSYC448101
Research Practicum in Behavioral Neuroscience WORLEY, NICHOLAS
Spring 2021
This course will introduce students to research methods used in behavioral neuroscience. We will read and discuss a variety of methods-ranging from traditional to cutting edge—that researchers use to determine the underlying brain circuitry and mechanisms of observable behaviors. Students will learn to execute end neuroscience projects by posing and testing behavioral neuroscience research questions, conducting and writing a literature review, analyzing data, and writing a research paper.
Credits: 03
Room and Schedule: GASSON HALL 304, T TH 6-8 30; Satisfies Core Requirement: None Prerequisites: PSYC2285 AND PSYC1120.

Senior Thesis I KENSINGER, ELIZABETH A
Spring 2021
Students may elect to write a thesis during the senior year. In most cases, the thesis involves original empirical research, although theoretical papers may be permitted in exceptional instances. Students must obtain the consent of a faculty member to serve as thesis advisor. Students who choose to write a thesis are encouraged to take an Independent Study with a prospective thesis advisor during the junior year to develop a thesis proposal. Registration requires a syllabus/contract form, which is found on the Psychology Department's website; go to Undergraduate, then Academic Opportunities, then Independent Courses: Research, Honors Program, and Senior Thesis.

Senior Thesis II BROWNELL, HIRAM H
Spring 2021
This is a continuation of PSYC4490. Students writing a thesis may take only a one-semester thesis course, or they may take a two-semester sequence, PSYC4490 and PSYC4491.

Credits: 03
Room and Schedule: BY ARRANGEMENT; Satisfaction Core Requirement: None Prerequisites: None

PSYC558701
Cellular Perspectives on Motivated Behavior MCDANNAID, MICHAEL A
Spring 2021
The goal of the course is to describe how changes in activity--and the composition--of single cells contribute to motivated behavior. Behaviors to be covered include but are not limited to: fear and anxiety, reward learning, addiction, feeding, pair bonding, and aging. The bulk of the reading and lecture materials will come from the primary literature, and an extensive neuroscience background is required. As such this course is targeted for graduate students and only the exceptional undergraduate.
Credits: 03
Room and Schedule: CAMPION HALL 009,F 9 30-12; Satisfies Core Requirement: None
Prerequisites: PSYC2285. At least two 3000-level courses in the Systems Neuroscience cluster.

PSYC660101
Structural Equation Modeling RYU, EHRI
Spring 2021
This course provides an introduction to the theory and application of structural equation modeling (SEM). The topics are basic concepts of structural equation models, path models with measured variables, measurement models, confirmatory factor analysis, structural equations with latent and measured variables, and extensions and advanced application. The course assumes that you have already completed a course in multivariate statistics. LISREL will be used to perform statistical analysis.

Romance Languages and Literatures Courses:
Summer 2020

RRL102001
The Immigrant in Film and Literature WOOD, CHRISTOPHER
Summer 2020
The experiences of the displaced, the exile and the immigrant have inspired great literature and cinema in the Spanish speaking world. This course will delve into a variety of narratives about the perilous journeys of Central Americans and Mexicans making their way to the North, the terrifying voyages of the brave and desperate people crossing to Spain from North Africa, and the struggle to adapt to new social, cultural and linguistic realities. Students will read, in English translation, short stories,
short novellas, and first-hand accounts of immigrant experiences and watch several Spanish-language movies with English subtitles.

**Credits:** 03

**Room and Schedule:** ONLINE COURSE; ASYNCHRONOUS; JUN 29 - AUG 14

**Satisfies Core Requirement:** None

**Prerequisites:** None

**Corequisites:** None

**Cross-listed with:** ADRRL1020

**Frequency:** Periodically

**Student Level:** UNDERGRAD ELECT

**Comments:** All class discussions and assignments will be in English.

---

**Romance Languages and Literatures Courses: Fall 2020**

**RLRL102301**

**Elementary Portuguese I**

**RODRIGUES, JOSE D**

**Fall 2020**

This beginning course is designed for students with little or no knowledge of the Portuguese language. It is an introduction to the language and cultures of the Portuguese-speaking world: Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, Cape Verde, Sao Tome and Principe and East Timor. Students will be engaged in basic activities and conversation, read simple texts, and study basic grammar structures and vocabulary (personal and family information, daily routines, food, housing, hobbies).

**Credits:** 03

**Room and Schedule:** CAMPION HALL 200, M W F 3; Satisfies Core Requirement: None

**Prerequisites:** None

**Comments:** Conducted in Portuguese

**Status:** OPEN

---

**RLRL332801**

**Islam and the Iberian Peninsula**

**GOIZUETA, ELIZABETH T**

**Fall 2020**

This course will examine the relationship between cultures in the Euro-Arab context from both historical and contemporary perspectives. It will begin with an examination of the historical influence of Islam in the Iberian Peninsula from the eighth to the fifteenth centuries. During that period, Spain presented an example of religious tolerance and the place where the followers of the three Abrahamic religions lived, arguably, in harmony with one another. Against this background, the course will explore the interactions and mutual influences between the Iberian and the Islamic cultures from the Middle Ages to the present.

SLAV116401
Death in Russian Literature: Heroes, Cowards, Humans EPSTEIN, THOMAS
Spring 2021
Russian literature has always had an affinity for narratives depicting the meaning(s) of death. Reading from its first great modern writer (Pushkin) to its latest Nobel Prize winner (Svetlana Alexieivitch), our course will investigate three primary representations of death in Russian literature: heroization of death (sacrifice and death as the condition of a good life); banalization of death (death as meaninglessness); demonization of death (death as sin; death that must be overcome). Throughout we will attempt to understand how the ways in which we conceive of death inform the ways we choose to live.

Sociology Courses: Summer 2020

SOCY100102
Introductory Sociology GARCIA, CARLOS D
Summer 2020
This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor’s syllabus for a more exact description.

SOCY103001
Deviance and Social Control CARROLL, JACLYN
Summer 2020
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.
Credits: 03

SOCY107801
Sociology of Health and Illness CARR, KYLIE A
Summer 2020
The World Health Organization defines health as a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. This course will consider this whole-person definition across the human life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.

SOCY332101
Building Sustainable Communities DELSESTO, MATTHEW J; CERMAK, MICHAEL
Summer 2020
This course will investigate contemporary urban environments through the eyes of urban farmers and community innovators who are building more equitable communities and sustainable relationships with the land. Fieldwork, class discussions, environmental philosophy, and collaborative partnership will facilitate our engagement with sustainability narratives and practices. Course themes include the urban planning and racial politics, challenges and opportunities of deindustrialization, the environmental justice movement, urban sustainability, community education, organizational development, and community-based urban transformation.

SOCY334601
Environmental Justice COATARPETER, PATRICK
Summer 2020
This course examines challenges and controversies associated with the unequal distribution of environmental hazards across communities. Students will explore the social, industrial, and government forces that create inequitable burdens of environmental pollution as well as movements to reduce such burdens. While a majority of the course will focus on the United States, readings will include cases from around the world. Students will be expected to actively contribute to class discussions and to complete a pilot research project on the environmental justice implications of an area of everyday consumption such as food, clothing, cleaning, transportation, or technology.

SOCY337801
Inside-Out: Perspectives on Crime, Corrections, and Justice DELSESTO, MATTHEW J
Summer 2020
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections, and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the marriage of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. Most sessions will meet at the Suffolk County House of Correction.

Sociology Courses: Fall 2020

SOCY100101
Introductory Sociology HUANG, XIAORUI
Fall 2020
This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

SOCY103001 Deviance and Social Control CARR, KYLE A
Fall 2020
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

SOCY103101 Society and Environmental Transformations RIEGER, ANNNIKA
Fall 2020
Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods. Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

SOCY103601 Introduction to Latin American Societies MORELLO, GUSTAVO
Fall 2020
The aim of this course is to introduce students to sociology while exploring Latin American societies. The course will start with a general overview of the different ways of studying societies. We will take some time to study the birth of modern Latin American nations. Relying on this historical background, we will explore Latin American societies through sociological concepts such as race, gender, social violence, religion, sports, and culture. Finally, we will pay attention to U.S.-LA relations and the fact of Latino people living in the United States.

Room and Schedule: MERCERT CENTER 127 M W F 9: SATISFIES CORE REQUIREMENT: CULTURAL DIVERSITY, SOCIAL SCIENCE
Prerequisites: None

SOCY104901 Social Problems UYAN, DENIZ
Fall 2020
This course is an exploration of different sociological approaches to the study of social problems and social trends in contemporary society. It examines the linkages between social structures/institutions, culture and human experience. Finally, we will pay attention to U.S.-LA relations and the fact of Latino people living in the United States. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY105801 Sociology of the Family MOORMAN, SARA
Fall 2020
In recent years, U.S. public policy has focused on strengthening the nuclear family as a primary strategy for reducing poverty and improving the lives of America’s youth. It is often assumed that this type of family is healthy, financially independent, heterosexual, violence-free, normative, and grounded in historical tradition. This course examines these assumptions sociologically while considering systemic variations in race/ethnicity, class, gender, ability, and sexual orientation and among American families.

SOCY107101 Global Inequalities CHUANG, JULIA
Fall 2020
What is globalization and what are its consequences? This course examines the relationship between globalization and global inequality. This course is divided into four parts. First we ask: who are the beneficiaries of the outsourced economy? Second, we look at the emergence of a new global underclass. Third, we look specifically at the U.S., and ask what the decline of the American manufacturing base. Finally, we return to examine the movement of capital across the globe, and ask: what are the new risks of globalization in the face of systemic financial crises like the banking crisis of 2008?

SOCY107801 Sociology of Health and Illness MORELOCK, JEREMIAH C
Fall 2020
The World Health Organization defines health as a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. This course will consider the whole person definition across the life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.

This course covers Western cultural pressures on women to be super-slim. We analyze biological, sociological, and feminist perspectives on the body especially with regard to issues of beauty and body image and sexuality. We analyze how race, ethnicity, and class intersect to create differences among women’s relationships to their bodies. In what way do biological perspectives illuminate as well as cloud understanding of women’s relationship to their bodies? We explore mass-mediated pressures on women’s bodies through films, women’s magazine, reality TV, and social networking sites. We examine the plastic surgery industry and the growing trend toward “designer bodies.”

Growing Up Gendered: Socio-Cultural Perspectives onto Gender in Contemporary Society HESSE-BIBER, SHARLENE

Fall 2020
To what extent is anatomy destiny? We discuss key concepts of sex vs. gender. We delve into the critical societal forces that normalize a gender binary “male” and “female.” We address biological, sociological and psychological frameworks that maintain the sex/gender binary across the life cycle (childhood through adulthood). How is our gendered identity constructed? What impacts do families, schools, the mass media and our social relationships on and off-line reinforce or challenge our gender identity? Our sexuality? How does our gender and sexual identity intersect with other dimensions of individual identity such as race, class, ethnicity and sexual preferences? We examine the cultural pressures on women to be slender and men to be muscular body and ways in which conformity to these body image ideals can lead to eating disorders and gendered violence. The class includes lectures, small group discussions, and group reflection projects.

Research Methods EDDY, SAMANTHA M

Fall 2020
This course acquaints students with the range of research methods used in sociological work. We cover the philosophical assumptions which underlie a scientific approach to the study of social life, and consider the interplay of data method and theory. In addition to presentation of specific techniques, we will also consider questions surrounding the politics and ethics of research in the social sciences.

SOCY222501
Introduction to Feminisms MURPHY, ANNALYSSA G

Fall 2020
This introductory course offers both an overview and a foundation for understanding the various movements that make up what has come to be called the feminist movement in the U.S. Because systems of privilege and disadvantage shape women's and men's identities and social positions in multiple and unique ways, Introduction to Feminisms analyzes gender from an interdisciplinary approach and applies numerous academic disciplinary methods to the study of gender, including history, literature, psychology, and sociology, and explores women's and men's experiences within various cultural contexts, including socioeconomic class, race and ethnicity, religion and spirituality, nations of citizenship, origin, and generation.

SOCY222502
Introduction to Feminisms MURPHY, ANNALYSSA G

Fall 2020
This introductory course offers both an overview and a foundation for understanding the various movements that make up what has come to be called the feminist movement in the U.S. Because systems of privilege and disadvantage shape women's and men's identities and social positions in multiple and unique ways, Introduction to Feminisms analyzes gender from an interdisciplinary approach and applies numerous academic disciplinary methods to the study of gender, including history, literature, psychology, and sociology, and explores women's and men's experiences within various cultural contexts, including socioeconomic class, race and ethnicity, religion and spirituality, nations of citizenship, origin, and generation.

will be exposed to the rich and peculiar theoretical history of the body.

This course is an examination of how bodies have been conceptualized, valued, and regulated in health and wellness initiatives throughout American history. Students will explore the many ways that bodies have been known, evaluated, and managed throughout the Western world, and in doing so, they will be exposed to the rich and peculiar theoretical history of the body.
SOCY333001  Immigrant Experiences and the Family MILLAN OVANDO, DANIEL Fall 2020
Migration processes shape the composition of families through separation and reunification. Importantly, immigration laws in the United States have centered on the family. However, immigration policies can also place families at risk of separation. This course will address the contemporary experiences of immigrants and their families, including family formation, detention/deportation, educational experiences, and labor. We will undertake a multi-method approach by encountering texts from researchers who draw upon survey, demographic, interview, and/or ethnographic data to analyze the role of immigration policies and practices on the experiences of immigrant families.

SOCY333401  Inequality and Education MILLAN OVANDO, DANIEL Fall 2020
Educational attainment has been framed as instrumental for upward mobility. However, educational spaces can reproduce inequality. This course will use an intersectional approach to consider the role of race, class, gender, and immigration status in the educational experiences of children from kindergarten through 12th grade and young adults in college. Quantitative approaches can highlight representative patterns in educational performance and attainment while qualitative approaches can provide a textured viewpoint in day-to-day educational experiences. We will draw on both to understand educational disparities and their short and long-term consequences.

SOCY334201  Faith and Conflict: Religion and Social Change in Latin American Societies MORELLO, GUSTAVO Fall 2020
Liberalism was a major political influence in most of the new Latin American republics during the nineteenth century. During most of the twentieth century, the church stood itself against modernity and fought against progressive and liberal positions. However, during the Sixties, a very important renewal in theology took place in the church. This renewal had political consequences in Latin America, where wide portions of the faithful and clergy supported progressive theology. The seminar will study the progressive theological ideas and their impact in Latin America. We will frame this discussion in the debate about secularization and modernity in the continent.

SOCY334601  Environmental Justice LARGESESS, ELISE B Fall 2020
This course examines challenges and controversies associated with the unequal distribution of environmental hazards across communities. Students will explore the social, industrial, and government forces that create inequitable burdens of environmental pollution as well as movements to reduce such burdens. While a majority of the course will focus on the United States, readings will include cases from around the world. Students will be expected to actively contribute to class discussions and to complete a pilot research project on the environmental justice implications of an area of everyday consumption such as food, clothing, cleaning, transportation, or technology.

SOCY335801  Gender and Sports KIM, KYOUNG-YIM Fall 2020
This course uses sport to understand gender relations in a society. The course examines the ways that gender and intersections of race, class, and sexuality are produced by and within relations of power, and how normative definitions of gender and its intersections underpin normative practices in sport, health, and physical cultural contexts. Drawing on feminist scholarship, this course provides a critical insight into the history of gender relations, and how gender is used to reproduce and resist inequalities in sport, health, and physical culture.

SOCY335901  Sports in American Society KIM, KYOUNG-YIM Fall 2020
This course provides a critical entry point into the sociology of sport in American society that examines the sociological role of sport in the making of American society and culture, as well as the reverse. The purpose of the course is to better understand sport as a social institution, and to analyze the dynamic interplay of economic, political, social, and other forces within which forms of sport and physical activity have been developed, implemented, and contested in America.

SOCY336501  Human-Wildlife Conflicts and Co-existence KELLY, JENNIFER R Fall 2020
This course introduces students to a wide spectrum of wild animal issues through an interactive and interdisciplinary lens. The course captures the diversity of both negative and positive interactions between humans and wildlife in rural and urban contexts. To highlight these different encounters, we will look at a range of ecosystems around the world including those in New England and Costa Rica. The course covers: the ecological, social and economic significance of species; the social and economic impacts of species in our backyards; how species are adapting to smaller spaces; and the increase in human-wildlife interactions. This course ensures that students gain more than a basic understanding of the topics discussed by working with a non-profit organization that focuses on wild animals, by encouraging students to reflect on the wild animals they encounter in their own communities, and in bringing their personal experiences to discussion forums. The discussions, service learning, case studies and examples allow for a deeply rich and applied understanding of the course themes. Human-Wildlife Conflicts and Co-existence provides an academic experience that is engaging, interdisciplinary, applied, personal, and inclusive, not just in terms of its accessibility and variety, but in terms of the multi-species perspectives it uncovers. SOCY336701
Social Justice in Israel/Palestine SPAGLER, EVE
Fall 2020
This seminar provides the intellectual underpinnings for an immersion trip to Israel/Palestine in January. Students in this course must commit to the trip and, upon their return, to a project that uses the knowledge they gained in Israel/Palestine. The seminar will include a review of the Israeli and Palestinian history, an analysis of the contested theological claims to the land, and an examination of conflict resolving strategies focusing on cross-border groups operating in Israel/Palestine (e.g., Prime, Combatants for Peace, Parents Circle). Finally, we will consider possible economic futures for the area under both one and two state scenarios.

SOCY337301
Sexuality and Society CARROLL, JACLYN
Fall 2020
This course explores societal understandings of sexuality through examining the ways that sexuality is promoted, repressed, and contested within American society. The topic will be surveyed in terms of social behavior, identity, culture, and power. Course readings will emphasize the influence of culture, institutions, and social interactions on sexuality, as well as explore the role of the state and the power of social norms in constructing sexuality.

SOCY337501
American Economic Crisis and Social Change DERBER, CHARLES
Fall 2020
This course offers a new way to think about America, focusing on our values, our intertwined economic and social crises exploding in the 2008 Wall Street meltdown, and systemic solutions. Our economic problems include growing poverty and inequality, a shrinking job market, and the failure of many of our industries and corporations to compete globally; our social crisis includes the growth of violence, family breakdown, global warming, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system.

SOCY337801
Inside-Out: Perspectives on Crime, Corrections, and Justice DELSESTO, MATTHEW J
Fall 2020
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections, and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the marriage of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. Most sessions will meet at the Suffolk County House of Correction.

Internship in Sociology I JORGENSEN, ANDREW K
Fall 2020
This internship program is designed for students who wish to acquire practical work experience in a human service, political, social research, or social policy agency–private or governmental, profit or nonprofit. Students have the primary responsibility of locating their own placement setting; however, both the instructor and the BC Internship Program Office in the Career Center can be of help. Students must meet with the instructor before registering to receive permission to register for the course, make sure that they will be available at the time the seminar will meet, and receive the details about the course and placements.

Political Sociology KADIVAR, MOHAMMAD ALI
Fall 2020
An intensive examination of foundational texts representing pluralist, elite, and class theories of the state in industrialized capitalist democracies. The course includes lecture and seminar-style discussion of the historical dimensions of political sociology as well as its application to current areas of inquiry. After revealing its foundations, the course will explore how political sociology is used in studies on governmentality, globalization and state crises, and environmental history.
Students will be expected to participate in course discussions, provide weekly write-ups, and write a final paper.

SOCY667001
Technology and Culture GRIFFITH, WILLIAM
Fall 2020
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

### SOCY770401
**Regression Models for Categorical Data FAN, WEN**  
**Fall 2020**

This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The major topics of the course will include OLS regression diagnostics, binary, ordered, and multinomial logistic regression, models for the analysis of count data (e.g., Poisson and negative binomial regression), treatment of missing data, and the analysis of clustered and stratified samples. Familiarity with Stata is required for this course.

**Credits:** 03  
**Room and Schedule:** CAMPION HALL 131,M W 9*;  
**Satisfies Core Requirement:** None  
**Prerequisites:** Familiarity with Stata is a prerequisite for this course.  
**Corequisites:** None  
**Cross-listed with:** None  
**Frequency:** Annually  
**Student Level:** GRADUATE

### SOCY771001
**Social Inquiry Research Seminar SARKISIAN, NATALIA**  
**Fall 2020**

This course presents the wide range of alternative research methods available to and widely used by the social researcher. Among those considered are the following: survey research, observational field research, intensive interviewing, experimental research, historical analysis, and content analysis. Considerable attention will be given to comparisons among these alternative methods, to an assessment of the relative strengths and limitations of each, and to issues related to research design and proposal writing. In the context of these alternative research methods, attention will be given to problem formulation, measurement, reliability, validity, sampling, and ethical considerations.

**Credits:** 03  
**Room and Schedule:** TH 10-12 30;ONLINE;SYNCHRONOUS;  
**Satisfies Core Requirement:** None

### SOCY771501
**Classical Social Theory SPANGLER, EVE**  
**Fall 2020**

Focusing on the work of Marx, Durkheim, and Weber, the course traces the philosopihc, intellectual, and social history of the ideas, themes, concepts, and schools of thought we now call "classical sociological theory." Supportive thinkers will also be discussed as they contributed to the emergence and establishment of modern sociological thought.

SOCY100101
Introductory Sociology OUIMETTE, MONIQUE
Spring 2021
This course conveys a sense of the history of sociology and introduces
students to the most essential concepts, ideas, theories, and methods of the
discipline. Special topics may include interaction in everyday life, sociology of
the family, gender roles, race and ethnic relations, and the sociology of work,
among others. We will deal with fundamental questions about what it means to
be a human being living in a society at a given moment in history. Ordinarily,
SOCY1001.01 is reserved for majors and minors. Note that Introductory
Sociology is taught by different instructors; check each instructor’s syllabus for
a more exact description.

SOCY100201
Introduction to Sociology for Healthcare Professions GOLDMAN, ALYSSA W
Spring 2021
This course is designed to present the fundamentals of sociology to an
audience of future healthcare professionals. Attention is given both to micro-
level (interpersonal) and macro-level (organizational) behavior. One of the
major goals of the course is to enable students to ground themselves and their
families sociologically, by examining their own community and social class
origins. It will highlight issues of interest to healthcare professionals, along
with sociological concepts that appear on the MCAT exam. NOTE THAT
LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY103001
Deviance and Social Control CARR, KYLE A
Spring 2021
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

SOCY104901
Social ProblemsUYAN, DENIZ
Spring 2021
This course is an exploration of different sociological approaches to the study of social problems and social trends in contemporary society. It examines the linkages between social structures/institutions, culture and human experience. The course emphasizes theoretical research issues, especially how, and to what degree, the understanding of social problems is a direct result of the processes used to define social problems as well as the research methods and procedures used to investigate them. Students will learn to critique popular discourses from a critical sociological perspective and will be encouraged to form their own opinions and critiques.

SOCY107101
Global Inequalities CHUANG, JULIA
Spring 2021
What is globalization and what are its consequences? This course examines the relationship between globalization and global inequality. This course is divided into four parts. First we ask: who are the beneficiaries of the outsourced economy? Second, we look at the emergence of a new global underclass. Third, we look specifically at the U.S., and ask what the decline of the American manufacturing base. Finally, we return to examine the movement of capital across the globe, and ask: what are the new risks of globalization in the face of systemic financial crises like the banking crisis of 2008?

SOCY109201
Peace or War DERBER, CHARLES
Spring 2021
We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World. In the first part of the course, we explore core theories of the roots of war. In the second part, we focus on the Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism," as well as conflicts such as Rwanda and Sudan. The fourth section explores the United Nations, social activism among students, and other routes to peace.

Understanding Race, Gender and Violence JOHNSON, MARILYN; MCGUFFEY, CLIFTON S
Spring 2021
This course explores pressing problems of modern race and gender-based violence across the globe, including domestic violence, youth gangs, police violence, sexual assault, and genocide. Using both historical and sociological perspectives, we will examine the roots of such violence, the ways in which it has been expressed, the meanings attached to it, and its implications for society—particularly for racial/ethnic minorities, women, and LGBT people. The lab for the course will involve students in collaborative work with local anti-violence projects and organizations in the Boston area.

Who Are You? The Sociology of Self GROSS, NORA
Spring 2021
How do you answer the question of who you are? Are you your body, your IQ, your race, your gender, your personality, your social roles or relationships (e.g., student, sibling), where you grew up? These courses explore the science and sociology of the self. We will examine how the modern sciences have understood the self since the nineteenth century. Scientific knowledge has been used to quantify and compare human traits and make recommendations about how best to live, work, and play. It has also been deployed to reinforce social inequalities and stigmatize minority groups. Similarly, sociologists have theorized the ways people define themselves in relation to others, sort themselves into groups and construct social boundaries, and perform their identities. Sociological thinking also examines the role of institutions (like colleges) in both reproducing and disrupting unequal outcomes for various social groups.

Course topics will include racial and sexual science, the social construction of deviant identities, the self in relation to college life, and the self in the age of social media, self-care, and quarantine.

Gender, Sexuality, and Athletics KIM, KYOUNG-YIM
Spring 2021
This course aims to examine sport as a form of popular culture where ideas around gender, sexuality, and status in North American cultures are embodied and performed. In this course, we will discuss the significance of sports to ideas of the self and the body as well as in broader cultural, social, economic, and political realms. We will analyze a variety of issues including the relationships of sport and gender to some institutions like the government, media, business, religion, and education. We will chart changing conceptions of health, fitness, and the body as well as the relationship between technology and the body in sports. The role of celebrity and commercial media in producing sports as entertainment will be discussed. We will also investigate questions about the significance of sports and athletes to contemporary processes of globalization. The material in this course covers a broad array of topics and methodologies from anthropology, sociology, literature, kinesiology, and women's and gender studies. The interdisciplinary design encourages critical thinking about the complex ways that sports normalize ideologies of biological difference, capitalist competition, and essential inequalities between people. The course presents students of culture and society with some approaches in the study of social difference, inequality, and change. Throughout this course, students will be encouraged to think about how sports operate in their everyday lives and to apply concepts.

Closed on Sundays: Religious Change in Modern Societies MORELLO, GUSTAVO
Spring 2021
What is going on with religion in our world? How do we understand it? What is the role of religion in contemporary societies, if any? We will explore the current answers to these questions, and also devote time to reading the classics. We will explore what the 'Founding Fathers' of sociology (Max, Durkheim, Weber, and Du Bois) had said about religion, and also study the main theoretical frameworks to understand religion from a sociological perspective: secularization and rational choice theories. Finally, we will debate new trends in understanding religion in our globalized societies. Students will gain knowledge on the classics of the sociology of religion, the main theoretical discussions, and the contemporary trends in the field. It will cover some theoretical and methodological perspectives, as well as research literature, and include different geographical and cultural region.

Genetics and Society HESSE-BIBER, SHARLENE
Spring 2021
This course is geared toward social science and humanities students as well as those in the sciences. We examine the rise of genetic knowledge and advanced biotechnologies and their consequences on society. We examine the historical and contemporary aspects of genetic research from the eugenics movement to the sequencing of the human genome. We provide a sociological lens focusing issues such as the ethics and science of genetics and genetic testing, genetic engineering, human cloning. We analyze the ethical, political, and economic impacts of genetic technologies. We delve into how genetic knowledge impacts concepts such as self, identity, disability, reproduction, and delinquency. We examine the nature versus nurture debate by analyzing the origins of sex differences, gender identity, and gender inequality.

Consumption, Health, and the Environment QUIMETTE, MONIQUE
Spring 2021
There are many health and environmental impacts associated with consumption activities, yet such impacts often remain hidden or obscured in the course of everyday life. In this applied course, students will examine health and environmental issues associated with consumption activities. Over the course of the semester, students will learn concepts from environmental health, environmental sociology, the sociology of consumption, and public policy. Each student will engage in an original preliminary research project on a contemporary issue related to consumption and environmental health. Students will develop an understanding of the power dynamics and inequalities associated with identifying, defining, managing, and mitigating the health and environmental impacts of consumption activities. Skills, perspectives, and
analytic frameworks learned in this course will be useful for students in their roles as individual consumers, citizens, and professionals.

**Immigrant Experiences and the Family**  
MILLAN OVANDO, DANIEL  
**Spring 2021**  
Migration processes shape the composition of families through separation and reunification. Importantly, immigration laws in the United States have centered on the family. However, immigration policies can also place families at risk of separation. This course will address the contemporary experiences of immigrants and their families, including family formation, detention/deportation, educational experiences, and labor. We will undertake a multi-method approach by encountering texts from researchers who draw upon survey, demographic, interview, and/or ethnographic data to analyze the role of immigration policies and practices on the experiences of immigrant families.

**Environmental Justice**  
LARGESSE, ELISE B  
**Spring 2021**  
This course examines challenges and controversies associated with the unequal distribution of environmental hazards across communities. Students will explore the social, industrial, and government forces that create inequitable burdens of environmental pollution as well as movements to reduce such burdens. While a majority of the course will focus on the United States, readings will include cases from around the world. Students will be expected to actively contribute to class discussions and to complete a pilot research project on the environmental justice implications of an area of everyday consumption such as food, clothing, cleaning, transportation, or technology.

**Masculinity, Sexuality, and Difference**  
INGRAM, BRETT D  
**Spring 2021**  
This course will examine constructions of masculinity and sexuality in Western society from a critical cultural perspective. We will consider the ways in which cultural narratives about "acceptable" masculine behaviors and attitudes catalyze social conflicts, reinforce established power hierarchies, and organize the modes of being available to people of different gender identities and sexual orientations. We will also evaluate the liberating potential of emergent discourses and practices that seek to cultivate greater acceptance of diversity, and promote social healing. There will be a concentrated focus on popular cultural forms (especially television, film, music, sports, and social media) that are particularly influential to contemporary men and boys.

**American Economic Crisis and Social Change**  
DERBER, CHARLES  
**Spring 2021**  
This course offers a new way to think about America, focusing on our values, our intertwined economic and social crises exploding in the 2008 Wall Street meltdown, and systemic solutions. Our economic problems include growing poverty and inequality, a shrinking job market, and the failure of many of our industries and corporations to compete globally; our social crisis includes the growth of violence, family breakdown, global warming, overwhelming corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system.

**Social Movements**  
KADIVAR, MOHAMMAD ALI  
**Spring 2021**  
Social movements have played a major role historically, helping bring about much that is often taken for granted: democratic governance, chattel slavery’s demise, women’s suffrage, the 40- hour work week, and basic environmental regulations. Today, movements remain central to social change, but just as in the past, they are often denigrated, from the left and the right. This course critically surveys movements across time, space, and ideology, though we focus on the U.S., with particular attention to the modern climate justice movement and conservative countermovement. Students will learn concepts and tools from social movement theory while applying them experientially.

**Environmental Sociology I**  
KELLY, JENNIFER R  
**Spring 2021**  
This is a reading and discussion seminar that provides an overview of theoretical and empirical work in environmental sociology. After a brief introduction to the origins of the field, the seminar will cover topics that are representative of what is current in the area, especially bodies of theory and research that are national, international, and global in scope and research that is structural in orientation, with a key focus on how large-scale social institutions and organizational forms impact the environment, and also how they shape the ways in which individuals and smaller groups interact with the natural environment. Attention is also given to how environmental sociology makes fundamental contributions to interdisciplinary research in environmental studies and sustainability science.

SOCY493101
Important Readings in Sociology SCHOR, JULIET
Spring 2021
Ordinarily, students will take this course during the spring of their junior year. The purpose of this seminar will be to read and discuss a series of books that are generally thought to be important contributions to the field. The books chosen will reflect a range of substantive issues, methodological approaches, and theoretical perspectives. The abiding question throughout this seminar class will be the following: What are the characteristics of powerful and compelling sociological work?

Senior Honors Thesis MOORMAN, SARA
Spring 2021
After having completed their research proposal in SOCY4961, Students in the Undergraduate Sociology Honors Program then complete the data collection, the analysis, and the writing of their senior thesis during the spring of the senior year. In SOCY4963.01 students complete their thesis research under the direction of their faculty advisor. Ordinarily, students are expected to complete their thesis by April 15, approximately two weeks before all senior honors students present the findings of their research in a public meeting.

SOCY500001
Interviewing Methods CHUANG, JULIA
Spring 2021
In this course, students will develop the necessary skills to conceptualize, plan, and execute interview-based research projects. We will go from formulating a research question, designing a rigorous research design, recruiting respondents, creating an interview guide, conducting interviews, and analyzing and writing up data. This is a practicum course: students are expected to
either collect interview data in tandem with the course or begin the course with interview data already collected and ready to analyze. We will workshop data, and we will consider various strategies for knitting together data with theory in order to produce analysis. Finally, we will also consider reflexivity, ethics, and the complexities of interviewing various populations. Students at all levels of the graduate student process are welcome, as course participants will be organized into working groups based on their project’s current stage.

SOCY551801
Craft of Ethnography CHUANG, JULIA
Spring 2021
This course introduces students to the craft of sociological ethnography. It has three components. In the first, students learn the basic techniques of three “schools” of ethnography. In the second, students read ethnographies from each approach, seeking to understand which techniques led to the finished text. In the final and main course component, students will put these techniques to practice during the term, as they design and conduct a small-scale ethnographic research project, learning in the process the logistics of selecting a field site, recruiting informants, interviewing, recording and analyzing data.

SOCY556501
Introduction to Social Work RYAN, SARAH E
Spring 2021
Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

SOCY559301
Advanced Topics in Transnational Feminism HESSE-BIBER, SHARLENE
Spring 2021
Transnational feminism challenges the view of “global/international” feminisms that erases differences within and between nations. There is a tendency toward a Eurocentric/Colonial viewpoint that melds difference into one “feminist mold.” Transnational Feminisms highlight the varying contexts of women’s lives looking at multiple frameworks of difference. Transnational Feminists focus on the link between women’s situated lives and the ever-changing relationships in which they are engaged in terms of movements of people, capital, and ideas. This course will challenge Western feminists to examine their own standpoint within a global system.

Technology and Culture GRIFFITH, WILLIAM
Spring 2021
This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms “citizen” and “ethics” in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

<td>Starting with the spring semester of 2018 this course will assume knowledge of the material covered in the current version of SOCY7702 and that includes (1) a solid background in Stata programing and (2) a recent course in basic staistics. We will be switching from SPSS used last year to Stata to be used this year. We will cover exploratory factor analysis, logistic regression, basic discriminant analysis, and multiple imputation to deal with missing data; but our focus, and more than 50% of the course, will deal with multiple regression and related issues and procedures including: data transformations, analysis of residuals and outliers, interaction terms, quadratic regression, dummy variables, analysis of covariance, stepwise regression, and path analysis. This course does not require a knowledge of matrix algebra or calculus. Students who are advanced undergraduates or graduate students from other departments are welcome, but you must first get the written permission of the instructor.</td>

Quantitative Data Management SARKISIAN, NATALIA
Spring 2021
This course will provide a comprehensive introduction to quantitative data management using Stata; the focus will be on working with complex datasets (both cross-sectional and longitudinal) and preparing them for analysis. This course is intended for students who need to manage data for academic or non-academic projects.

SOCY771101
Empirical Research Seminar BABB, SARAH L
Spring 2021
This course guides graduate students through data collection and analysis, explores techniques and technologies of analysis and interpretation, and discusses research ethics arising in the process of data collection. The course has three components. First, students refine and revise their proposals from SOCY7710; complete IRB approval of their projects, and begin data collection and analysis. Second, students compile and begin to incorporate into their analysis a reading list that will constitute the basis of their literature review for this project. Third, students attend and submit written responses on the departmental seminar series and sessions with invited speakers across the university.

SOCY771601
Contemporary Social Theory MAGUBANE, ZINE
Spring 2021
This seminar is a graduate level introduction to contemporary social theory. It concerns the historical context and development of a wide variety of perspectives used by social theorists to make sense of multiple social worlds. It also concerns the ways in which social theories are themselves sociologically constructed. Theoretical frameworks addressed include: functionalism and cybernetics; symbolic interactionism and pragmatism; exchange, behavioral, and conflict perspectives; feminism; Marxism; phenomenology and ethnomethodology; critical race theory; queer theory; structuralism and poststructuralism; as well as postcolonial and postmodern theories of the subject and power.

Second Year Graduate Writing Seminar CHUANG, JULIA
Spring 2021
This seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects. Students will be graded on the drafts of their research papers submitted at the end of the spring semester.

DOCTORAL STUDIES DEPT

SOCY98101
Dissertation Seminar SARKISIAN, NATALIA
Spring 2021
This is a continuing research workshop which covers all stages of the research process, from conceptualization and theory development through data analysis and writing. The workshop is intended primarily for sociology graduate students working on dissertations. Others will be welcomed on a case-by-case basis. The group meets bi-weekly, with individual meetings with the professor as necessary. All students who are writing dissertations are strongly recommended to enroll in this workshop, at least for one semester.

ARTS111501
Imagination and Creativity in Irish Landscapes IVY, CANDICE M
Summer 2020
This hands-on study abroad course is open to students of all levels of artistic background and areas of concentration. This course comprises a uniquely immersive and field-based study at the Burren College of Art—based within the renovated remains of a sixteenth-century castle on the west coast of Ireland. The surrounding landscape is the Burren, a one-of-a-kind ecological land mass of limestone, formed under an ancient ocean, and fostering ecosystems containing flora and fauna unique to the area. Culturally, the region is home to numerous unearthed remains of historical dwellings, tombs, and artifacts, which further sculpt the terrain. Through individual and collaborative creative projects using a variety of media, students use the terrain to investigate, question and expand upon firsthand observation and analysis of relationships between cultural and natural systems. Course content will consist of trips to regional sites, field based research, creative workshops, lectures and art production supported by local ecologists, artists, story-tellers and historians.

Introduction to Graphic Design REEVES, BRIAN A
Summer 2020
This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems,
including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

ARTS110302
Issues and Approaches to Studio Art
GALLAGHER, SHEILA E
Fall 2020
...
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students’ critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

Design: Seeing Is Believing REISS, PAUL V
Fall 2020
Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks “good” without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110701
Design I: Foundations REEVES, BRIAN A
Fall 2020
This foundation course is structured to introduce students to the fundamental issues of design by providing a basis for regarding our environment and organizing what we see into a coherent whole. We will learn how to process our surrounding visual information primarily through the exercise of drawing. In the process of learning a new visual language, we will emphasize discovery of personal attitudes and approaches rather than on the techniques of the finished work. Students will be introduced to the process of design through the exploration of the basic concepts of the elements and principles of design, historical approaches, and skills involved in design.

ARTS110901
Design Is Human BURNS, JENNIFER L
Fall 2020
"Design" today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

ARTS112501
Innovation through Design Thinking RUTIRASIRI, CHOKDEE R
Fall 2020
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Ceramics/Mixed Media Sculpture COOPER, MARK
Fall 2020
Ceramics/Mixed Media Sculpture is a course that will focus on the development of ideas to be expressed through ceramics and mixed media. Students will be introduced to a range of approaches both conceptually and technically throughout the class. The course will address the individual ideas and concerns of each student allowing for a wide range of approaches, materials, and scale. This could include anything from very small-scale sculptural objects to installations and large public scale projects to be created in modular units. This course does not require previous experience. Students will be introduced to working methodologies that match their previous knowledge while introducing new approaches.

ARTS116101
Photography I KESSLER, LISA H
Fall 2020
This class explores the concepts, techniques, and language of photography via the use of contemporary digital technologies. Through lectures, class instruction, assignments and critiques, students will develop visual literacy, proficiency with the digital SLR camera, and an understanding of the fundamentals of photography and Photoshop.
We will be looking at trends in contemporary photography and referencing its history to create a full picture of the medium. Students will be introduced to a well-structured workflow for the capture, upload, organization, selection, post-processing, and export of the digital photograph. Students will have multiple photographing assignments and critiques designed to build visual, technical and conceptual skills, and will produce a final portfolio of sequenced or thematic imagery. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. Students will need to have a DSLR or mirrorless camera with manual controls that captures RAW files of at least 10 megapixels. This course requires no previous photography experience. It DOES NOT fulfill a CORE Arts requirement.

ARTS220601
The Art of Portraiture CHONG, SAMMY
Fall 2020
This drawing course focuses on the genre of portraiture, both in theory and in practice. The Mona Lisa, carnival portraits, and everything in between they all share the same initial approach to the figure. We will first hone in on the structure of the head. From there, we will use value, shapes, and color to create strong portraits with charcoal, gouache, and watercolor pencils. Along with traditional methods we will explore contemporary approaches to portraiture, with differing uses of format, composition, and color schemes.

### ARTS220701
#### Urban Design for Complexity and Sustainability
**LITTELL, MATTHEW**
**Fall 2020**
The course explores the changing demands on urban environments in the twenty-first century and the newest policies, technologies, and design approaches that are being developed to address them. Topics will include analyses of the factors that shape the physical form of cities, including zoning and regulatory contexts, real estate development patterns, transportation infrastructure, environmental challenges, and aesthetics. The material will be introduced as case studies and surveys, with presentations by design professionals, city officials, and real estate developers. Students will gain literacy in zoning, real estate metrics, planning, and issues related to architectural design and large scale urban design. The semester will conclude with a final project synthesizing many of the topics covered.

### ARTS223001
#### Introduction to Video Art
**HOELTERMANN, JANNE**
**Fall 2020**
Introduction to Video Art is an Art course examining video as a medium for artistic expression and conceptual inquiry. How can we use video to ask questions about ourselves, our viewers, or our world? Responding to instruction about video, sound, and editing techniques, students produce multiple assignment based video art pieces and a self-designed final project. Class sessions are comprised of screenings, discussions, technical demonstrations, and group critiques of students’ projects. Screenings and readings cover a variety of topics, including: past and present video art, experimental/expanded cinema, performance art, art in the age of digital culture, and philosophical and sociological topics. Readings, screenings, and discussions are designed to provide a conceptual basis for students’ video art projects, while critiques and writing assignments provide a forum for dialogue.

**Credits:** 03
**Room and Schedule:** W 6-9;ONLINE;SYNCHRONOUS;
**Satisfies Core Requirement:** None
**Prerequisites:** Students should have taken at least one studio or film class.
**Corequisites:** None
**Cross-listed with:** FILM2230

Class work, critiques, and discussions will be used to expand the student's preconceived ideas about art. This course incorporates historical components and writing assignments.
ARTS110201
Painting I: Foundations CHONG, SAMMY
Spring 2021
This is an introduction to the materials, methods, and vocabulary of painting. The course uses observation and learning to see as the cornerstone for painting, but involves expression and abstraction as well as representation. The emphasis is on making the painting come alive rather than on copying. Students are expected to paint in the studio during class and to complete outside assignments. Critiques, slide lectures, and museum visits are integral parts of the course. This course incorporates historical components and writing assignments.

ARTS110302
Issues and Approaches to Studio Art GALLAGHER, SHEILA E
Spring 2021
This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses.

ARTS110501
Making Prints/Making Books: An Introduction to Printmaking and Book Arts STIGLIANO, STEPHANIE
Spring 2021
In this course, students will be introduced to the world of printmaking and book arts through practical, hands-on assignments. Students will learn to make relief prints, and will leave the class with a book designed from their prints. Art in book form tells a story with words, images, structure, and material. The developmental process of making a print is akin to the building of a narrative. Both of these graphic arts have existed in tandem throughout history. They are ways to communicate ideas to a broader public, so it makes sense to explore them together in the classroom. Students who are just learning to draw and accomplished draftsmen can both benefit from making prints and books. Each assignment will balance technical, conceptual, and formal goals. We will discuss the design basics of line, shape, texture, light and shadow, space, and composition. The printmakers will create series, sequences, and variations on a theme. We will look at books and prints from different eras and cultures, and take advantage of the college's numerous collections. There will be written components, such as an observational response to a single print and a reflection on an individual book work. The students will present their artwork as the focus of group discussion and critique. Additionally, they will receive individual feedback during each class meeting.

ARTS110901
Design is Human BURNS, JENNIFER L
Spring 2021
“Design” today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

ARTS112501
Innovation through Design Thinking RUTIRASIRI, CHOKDEE R
Spring 2021
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

ARTS114501
Theory and Practice of Film and Video Making BARBER, ESTRELLA
Spring 2021
This course will focus primarily on the production of short narrative and non-fiction projects, but will also touch on documentary film, video art, and digital storytelling. Students will use video or film cameras, editing software, and other tools to produce short films, video art, music videos, and other digital works. Emphasis will be placed on the creative process and on developing skills in storytelling. Issues of form, style, and technique will be explored in each project.

ARTS114513
History of Modern Art and Architecture REID, JEFF
Spring 2021
This course will introduce students to the history of modern art and architecture, from the late nineteenth century to the present. We will examine the evolution of art and architecture through the lenses of industrialization, technology, and social change. We will also consider the role of women and minorities in the production of modern art and architecture. Students will be expected to participate actively in class discussions and to write short papers on the readings.

ARTS116101
Photography I MULDOWNEY, GREER R
Spring 2021
This class explores the concepts, techniques, and language of photography via the use of contemporary digital technologies. Through lectures, class instruction, assignments and critiques, students will develop visual literacy, proficiency with the digital SLR camera, and an understanding of the fundamentals of photography and Photoshop. We will be looking at trends in contemporary photography and referencing its history to create a full picture of the medium. Students will be introduced to a well-structured workflow for the capture, upload, organization, selection, post-processing, and export of the digital photograph. Students will have multiple photographing assignments and critiques designed to build visual, technical and conceptual skills, and will produce a final portfolio of sequenced or thematic imagery. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. Students will need to have a DSLR or mirrorless camera with manual controls that captures RAW files of at least 10 megapixels. This course requires no previous photography experience. It DOES NOT fulfill a CORE Arts requirement.

We will be looking at trends in contemporary photography and referencing its history to create a full picture of the medium. Students will be introduced to a well-structured workflow for the capture, upload, organization, selection, post-processing, and export of the digital photograph. Students will have multiple photographing assignments and critiques designed to build visual, technical and conceptual skills, and will produce a final portfolio of sequenced or thematic imagery. This course introduces the fundamental principles of photography and its history for universal applications and is available to all majors. Students will need to have a DSLR or mirrorless camera with manual controls that captures RAW files of at least 10 megapixels. This course requires no previous photography experience. It DOES NOT fulfill a CORE Arts requirement.

ARTS220801
Drawing the Figure (Drawing II): Observation to Expression CHONG, SAMMY
Spring 2021
Together we will venture into a world of the body as represented through drawing materials on 2D surfaces. You will learn techniques and approaches to drawing the figure and will work in the studio from a live model. Simultaneously, you will examine the relationship between cultural philosophies and their effects on the figurative representations they produced. Studio work include: drawing the body; revise those ideas; developing finished drawings; researching historical and contemporary innovations and doing complete copies of these master works; working from memory and contextualized imagination; translate sensory experience through the representations of the body.

ARTS222001
Intermediate Painting III AUSTEN, HARTMUT
Spring 2021
The course reviews and expands on the fundamental painting skills and materials acquired in Painting 1. Students continue to work on assigned and individual projects that highlight historical and contemporary methods and concepts of the discipline. Projects are mostly based on work from direct observation, but some will use found images, memory, and imagination as sources to promote visual judgment and development of a more personal direction. Exhibition visits, illustrated presentations, and a writing assignment are supplementing the program.

ARTS222401
Bare Naked Approaches to Painting the Figure-Painting III CHONG, SAMMY
Spring 2021
This course is an introduction to the human body as a form and as a subject for creating paintings. The course will introduce the student to portraiture and full figure painting, using both the student and in class models as the subject. The student will be introduced to a variety of painting styles and techniques through side presentations and assigned projects. This is an intermediate/advanced level course and the student will be encouraged to focus on personal imagery and style while maintaining a concentration on representational painting.

ARTS223010
Introduction to Video Art HOELTERMANN, JANNE
Spring 2021
Introduction to Video Art is an Art course examining video as a medium for artistic expression and conceptual inquiry. How can we use video to ask questions about ourselves, our viewers, or our world? Responding to instruction about video, sound, and editing techniques, students produce multiple assignment based video art pieces and a self-designed final project. Class sessions are comprised of screenings, discussions, technical demonstrations, and group critiques of students’ projects. Screenings and readings cover a variety of topics, including: past and present video art, experimental/expanded cinema, performance art, art in the age of digital culture, and philosophical and sociological topics. Readings, screenings, and discussions are designed to provide a conceptual basis for students’ video art projects, while critiques and writing assignments provide a forum for dialogue.

ARTS223601
Digital Art: Print-Based Media REEVES, BRIAN A
Spring 2021
This course will explore digital art as it relates to the processes and methodologies in image manipulation, compositing, representation, sequencing and story-telling. Students will work toward developing their aesthetic skills within the context of applications such as Adobe Photoshop and Adobe Illustrator, and other appropriate software. Areas covered include compositing of photographs, digital painting, flip-books, large-scale prints, and gif animation. It is presumed that students will have taken Intro to Digital Art (or a similar course), or have proficient experience in Photoshop or Illustrator before entering the class.

ARTS225001
Introduction to Graphic Design REEVES, BRIAN A
Spring 2021
This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems, including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

Spring 2021
This course comprises hands-on studio work and readings that address contemporary issues in the visual arts. It is an upper level class for those with a serious interest in art making and visual thinking. Students are expected to work in a medium of their choice with which they are familiar. Studio assignments will be developed out of the issues explored in the readings.
Students are expected to produce a body of studio work and to make an oral presentation that situates their work in relation to the topics under investigation.

ARTS228001
Digital Diaries: Creating a Personal Body of Work in the Digital Age BADEN, KARL
Spring 2021
Students learn and use advanced techniques in Adobe Photoshop, Illustrator and InDesign to create a body of work exploring the meaning in their lives. Examples may include family history, friends, relationships, or life-changing experiences. Technical demonstrations, critiques, discussions of established photographers is part of each class. The goal is to design and produce an actual book of their project, printed by an online service (Book, Blurb, Shutterfly, etc.). Digital Diaries is an intermediate/advanced level course.

ARTS333401
Advanced Mixed Media IVY, CANDICE M
Spring 2021
This course explores the possibilities of using 3D modeling software to design and describe 3D spaces and objects. Beginning with a solid foundation in the principles of architectural drawing and 3D modeling, students will develop their spatial design skills and build software proficiency in parallel through creative projects, readings, and short essays. Students will draw on their personal experiences of the built environment to create new 3D works. Key course concepts will be drawn primarily from the fields of architecture and sculpture, with additional materials from the fields of art and architectural history, photography, industrial design, and graphic design.
This course provides an opportunity for upper-level art students interested in design to create a large amount of portfolio-quality work, and final projects are student-driven. Students should have a working knowledge of the Adobe Creative Suite before taking this course.

ARTS330601
Alternative Approaches in Drawing AUSTEN, HARTMUT
Spring 2021
Fresh ideas and approaches to drawing are essential for the creative development of a department and its students. This class will explore both traditional and new conceptions of what drawing can be. We will conduct our investigation using traditional materials as well as new media in the service of crossing and pushing established boundaries. Utilizing and deepening our understanding of "mark-making," we will further explore drawing’s breath and expanse across disciplines as well as its potential to expand on the what it means to "draw from observation."

Theatre Courses: Summer 2020
THTR117001
Introduction to Theatre CRONIN, BRIAN P
Summer 2020
This is a survey course for primarily non-majors. Its aim is to impart an appreciation of the theatre as an artistic and humanizing experience. There will be discussion of the various elements that contribute to the development of theatre as a specialized art form including historical and cultural influences, staging styles and techniques, and the multiple genres of dramatic writing. Several plays illustrating the above will be read and attendance at selected performances is required.

For this lab, through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to stage lighting control, follow-spot operation and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

Theatre Production Lab II: Scenery and Paint Prep SWIFT, RUSSELL L
THTR102101
Fall 2020
The Scenery Construction and Scenic Paint Prep Lab will introduce students to the skills necessary to construct, rig, and load-in scenery; layout and paint scenery; be introduced to the variety of tools and techniques used in scene painting and construction. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production. Skills will be developed in construction techniques that include wood working, metal working, fabric manipulation, and rigging, design layouts, painting on large scale, and more. Safety procedures that relate to these areas will be taught and practiced. Students will work on departmental productions during the semester. The work that students do will vary and will be determined by that student's individual abilities and interest, as well as the needs of the specific production that we are working on. Discuss paint or construction preferences with the instructor. Students will complete 26 hours of lab work over the course of the semester. No previous experience is required.

### THTR102701

**Theatre Production Lab II: Dramaturgy LANG, THERESA**  
**Fall 2020**

The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

---

Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage and front of house tasks, such as managing the stage crew, coordinating道具 and lighting, and handling stage management tasks. They will have the opportunity to work with the stage manager, learning how to organize and manage the technical and administrative aspects of a production. Students will focus on the different roles and responsibilities of the stage manager, including areas such as scheduling, communication, and budgeting.
during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

### THTR112001
#### Elements of Dance
**KIM, SUN HO**
**Fall 2020**
This course is designed to develop the student's knowledge and experience of dance as an art form. The elements of dance used in ballet, modern, and jazz will be introduced along with the principles of composition. The aesthetics of dance as an art form will also be studied. Students will be reading texts as well as viewing dance works in live performance and on video. This course will provide a groundwork for students who wish to do further work in technique, composition, and performance.

### THTR114001
#### Elements of Theatrical Design
**DALLEY, JACQUELINE; ADELBerg, JEFF; TODESCO, CRISTINA**
**Fall 2020**
This course introduces students to the design and composition of the stage: scenic, lighting, costume, and sound. By the end of the class students will have a working knowledge of the processes involved in design and will have the ability to effectively compose and design visual and auditory components of a performance. The class will utilize creative and collaborative processes that can be applied to any creative work. It is recommended for anyone interested in design and directing. Students must also enroll in the associated one-credit lab THTR1018.  
Required for Theater Majors.

THTR221301
The Spoken Voice: Onstage and Of RIGGIN, PATRICIA
Fall 2020
This course develops the student's vocal instrument and vocal/physical awareness through exercises designed to release tension in the body, free the breath, and expand the use of resonators and articulators. The voice work will progress from the rediscovery of sound in the body, to the opening of the vocal channel (jaw, tongue, soft palate), to the exploration of resonance and vocal freedom. Speech and dialect work are also a component of this course as the students explore monologues from the classical theatre and scenes that require dialects.

Dance for Musicals I LEDUC, LINDSEY

Fall 2020

This course is designed for the beginner to experienced dancer. Each student will study jazz, tap, modern/contemporary dance, ballroom, world dance and more. Emphasis is placed on the individual student's development in dance technique, physical conditioning and artistic expression. Students will begin the study of the most influential choreographers of past and present, including De Mille, Bennett, Fosse, Robbins and others. Each class will consist of a body warm-up, strength and flexibility training and choreographed combinations. Both a written and performance final will be given. Specific dress and footwear will be required.

Intermediate Ballet I PARSONS, MARGOT

Fall 2020

This course is designed to continue to challenge those who have taken the Ballet Essentials in the fall semester and to invite new students into the class who are either at the level of an experienced or advanced beginner dancer. Individual attention will be given with the goal of perceiving the technical and artistic aspects of dance as a performing art. Each class will incorporate barre and center work with phrases appropriate to the individuals in the class.

Students will become familiar with the vocabulary and the historical background of ballet. Work in anatomy, kinesiology, costume design, and music will be introduced. Dress code will be leotard and tights or unitard, and ballet shoes. A pianist will accompany each class.

THTR334701
Costume Design DALLEY, JACQUELINE
Fall 2020
The art of costume design integrates artistic imagination with the practical concerns of theatrical production. The course is designed to help students develop the fundamental skills used by costume designers, focusing particular attention on character analysis, period research, and visual communication. The course will include a series of exercises and projects to develop skills in figure drawing, rendering in various media, fabric selection and color. Students will learn how to communicate character, mood and style through costume following two learning tracks: (1) developing the concept and theory of the design and (2) communicating the design through figure drawing and rendering.

THTR337601
American Musical Theatre HECHT, STUART J
Fall 2020
This course examines the development and workings of the American musical, from the multiple roots of its inception through to the present. As we trace the evolution of this diverse theatrical form, we will study its leading creative artists and productions, its use of music, lyrics and book, its ties to American culture and shifting tastes. Through lecture, text and recordings, we explore the musical's value and function beyond issues of entertainment. The course will cover the work of George M. Cohan, Irving Berlin, the Gershwins, Cole Porter, Rodgers with Hart and with Hammerstein, Leonard Bernstein, Stephen Sondheim and more.

THTR337801
Creative Dramatics JORGENSEN, LUKE R
Fall 2020
This class investigates the power of drama to educate, inspire and empower the individual. The course focuses on drama pioneers whose work crosses over borders between the fields of education, theater, drama therapy and social justice. This is a hands-on investigation of theories and techniques and will include working with local middle school students to observe and apply ways of making drama with adolescents. Creative Dramatics is essential for activists, directors and for teachers in obtaining additional certification to teach drama. Subjects include storytelling, improvisation, Commedia Dell'Arte, drama therapy, Theatre of the Oppressed, and Theatre for Youth. It examines the work of Viola Spolin, Augusto Boal, Wiminfred Ward, Jerry Grotowski, and Jacob Moreno.

Theatre Production Lab II: Dramaturgy LANG, THERESA
Spring 2021
The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

THTR103801
Theatre Production Lab III: Assistant Director JORGENSEN, LUKE R
Spring 2021

For this lab, students will assist the director with many aspects of the rehearsal process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the professional directing process. The lab will last from preproduction through opening night. This lab applies to faculty and professionally directed productions only.

THTR103901
Theatre Production Lab III: Assistant Stage Manager TRAUB, ADELE N
Spring 2021

Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage duties during performances. ASM's must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901
Advanced Production Lab: Stage Manager TRAUB, ADELE N
Spring 2021

Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of
the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR105101
Advanced Production Lab: Technical Director SWIFT, RUSSELL L
Spring 2021
The Technical Director Lab will allow students to develop the skills necessary to plan the construction, rigging, load-in, and budgeting of scenery. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to organizing the construction of scenery. Skills will be developed in planning, budgeting, construction drawings and crew organization. Safety procedures that relate to these areas will be taught and practiced. Students will work on a specific departmental production during the semester. The work that students do on that production will vary by student and will be determined by individual abilities and interest, as well as the needs of the specific production that we are working on.

Elements of Dance KIM, SUN HO
Spring 2021
This course is designed to develop the student's knowledge and experience of dance as an art form. The elements of dance used in ballet, modern, and jazz will be introduced along with the principles of composition. The aesthetics of dance as an art form will also be studied. Students will be reading texts as well as viewing dance works in live performance and on video. This course will provide a groundwork for students who wish to do further work in technique, composition, and performance.

Ballroom Dance: Mid-Nineteenth Century BURGESS, QUINN M
Spring 2021
Students in this course will learn a selection of mid-nineteenth century ballroom dances such as the waltz, the polka, a quadrille, and country dances such as the Virginia Reel. In addition, students will connect with the past through an exploration of topics such as women's and men's fashion, etiquette, and the physical world of the ballroom. Students will be asked to synthesize the information contained in the course though the embodiment of a character that will be presented in class. These elements will encourage each student to envision the past, bringing it to life with an understanding of the relationships between dance, etiquette, fashion, and the culture of the period.

Performing the Immigrant Experience STAHL, MEGAN E
Spring 2021
The stop-stopping lyrics, "Immigrants: We get the job done," are from the Broadway smash Hamilton. The production's resonance with our contemporary zeitgeist serve as a potent reminder that the history of the United States is truly a story of immigrants. This course examines the impact that such immigrant experiences have had on the narratives told in American theatre, and analyzes the ways in which diasporic communities have used the stage to challenge the power dynamics of a dominant cultural hierarchy. Through the plays and theatrical movements studied in class, students will investigate the construction and performance of immigrant identities by Irish, Italian, Jewish, African, Asian, Latinx, and Middle Eastern theatre practitioners in the United States.

Contemporary Dance I KIM, SUN HO
Spring 2021
Contemporary dance is an introductory class open to everyone. In this studio course, students will gain a greater understanding of the basic concepts of a variety of styles of contemporary dance techniques based on modern dance, jazz and pop-culture dance such as hip-hop, funk and other dance forms seen in the media. Also, the course will address how dance might incorporate other disciplines like film, visual art, architecture, physics, literature, etc., into a new cross-disciplinary dance form and create a unique type of dance expression and perspective. Appropriate dance attire is required.

THTR222601
Intermediate Ballet II PARSONS, MARGOT
Spring 2021
A continuation of Intermediate Ballet I (THTR2225). As in Intermediate Ballet I, individual attention will be given with the goal of perceiving the technical and artistic aspects of dance as a performing art. Each class will incorporate barre and center work with phrases appropriate to the individuals in the class. Students will continue to increase their ballet vocabulary and their understanding of the historical background of ballet. In addition, there will be further readings in anatomy and dance critique. Dance code will be leotard and tights or unitard, and ballet shoes. A pianist will accompany the class.

THTR224701
Makeup Design for the Stage DALLEY, JACQUELINE
Spring 2021
This course introduces students to basic makeup techniques for the stage. Students will study makeup design principles and develop a mastery of applied techniques. Using the theories of highlight and shadow, and an examination of facial anatomy and how it changes with age, the student will learn to change the look of the face to suit different characters. Emphasis will be placed on character analysis and research, and translating that into a makeup design. Time will also be given to study various styles of makeup (e.g., fantasy, cartoon, period makeup, etc.) and special-effect makeup.

THTR225601
Theatre in Boston: The Critical Eye CUMMINGS, SCOTT T
Spring 2021
While it is understood that the art of the theatre is only realized in performance, we all too often rely on the script alone when we study the theatre. This course examines the script in performance to help the student develop an informed critical eye. We will travel throughout Boston to see eight to ten plays in area theatres. The primary goal of this course is to develop the means to critically evaluate performance and to investigate the process and value of the artist's interpretation of a text.

THTR228501
History of Theatre II HECHT, STUART J
Spring 2021
Continuation of History of Theatre I. It begins in 1642 in England and tracks the simultaneous development of the actor, playwright, architect and director. However, it studies this evolution within the larger cultural and political contexts that implicated every decision from the content of dramas to the seating arrangements within auditoriums. Among the epochs and influences that will be considered are art and decadence in English Restoration comedy, the role of the playwright in the rise of American proletarian culture, the impact of sentimentalism and Victorian morality on playwriting, and the advent of psychology and its effect on acting.

THTR330301
Meisner Acting Technique RIGGIN, PATRICIA
Spring 2021
Acting III explores the essential principles of acting using the methods developed by Sanford Meisner and William Esper. Through a progression of structured improvisations, the actor’s ability to work moment by moment and to truthfully live in those moments is developed. These exercises are designed to stimulate impulses, sharpen concentration and listening skills, and develop the imagination, spontaneity and emotional skills of the actor. During the semester, students apply the exercises acquired through these exercises to scene work. (Formerly listed at Acting III class).

THTR332201
Dance for Musicals II LEDUC, LINDSEY
Spring 2021
Students will expand on their knowledge of jazz, tap, modern/contemporary dance, ballroom, world dance and others. Influential choreographers’s styles and characteristics of past and present will be analyzed and learned through the study of their repertoire. Such repertoire might include pieces from West Side Story, Fosse, Chicago, and Thoroughly Modern Mille, among others. Continued emphasis will be placed on the individual students’ exploration of dance technique, physical conditioning, and artistic expression. Audition techniques will be emphasized. Each class will consist of a body warm-up, strength and flexibility training and choreographed combinations.

THTR337701
Fashion and Decor: A Cultural History TIALA, CRYSTAL; DALLEY, JACQUELINE
Spring 2021
Trends in fashion and interior decoration simultaneously shape and are shaped by the culture from which they grow. When we look at styles of a particular period, we see reflections not just of personal taste, but also social values, political and economic developments, influence of popular culture, new technology, and the overall mood of the time period. Through lectures, discussions and visual research projects, this class will examine trends in fashion and decor as they relate to the cultures of the eighteenth, nineteenth, and twentieth centuries, highlighting the correlation between fashion, decorative arts, architecture, and interior design.

THTR338701
Modern Theatre and Drama: Ibsen to Albee HECHT, STUART J
Spring 2021
Theatre offers much-needed perspective on our world which is why we have seen many recent Broadway revivals of Modernist plays: they address/anticipate the progressive ideals, social and political concerns, and issues of identity, relevant today and beyond. This upper-level theatre studies course traces the development of Modern drama and theatre from roughly 1870 to 1970, considering the innovative, ground-breaking work of dramatists such as Ibsen, Strindberg, Chekhov, Shaw, O'Neill, Brecht, Beckett, Pinter, and Albee. In this course we will consider the original revivals analyze texts and learn how to "read" styles. We may also stage moments from each play in class. There will be a midterm, final, and term paper.

THTR446201
Playwriting II
CUMMINGS, SCOTT T
Spring 2021
This laboratory course continues the work begun in Playwriting I on an advanced level and a more independent basis. In addition to in-class writing and take-home assignments, students will write a fully developed full-length play or two complete one-acts. The course places particular emphasis on the completion of lively, well-structured, rehearsal-ready scripts, and in that interest, a major revision of a work-in-progress is important.

The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?

Inscribing the Word: The New Testament KOKOT, JENNA C
Summer 2020
The New Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the New Testament raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the New Testament in terms of the central concerns of the core curriculum will be the primary goal of THEO 1421 Inscribing the Word. The New Testament. **Peaceful Conflict Resolution Methods**

**NIELSEN, RICHARD P**

**Fall 2020**

This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

**Praying Our Stories**

**PONSETTO, DANIEL P**

**Fall 2020**

Significant experiences of God's presence are often thought of as extraordinary. They are moments we might expect while on retreat, during community worship, or while sitting under the stars. We might assume that to find God we must transcend our mundane life and get to another place. This course will explore how God is in fact more likely, and thankfully, discovered in the ordinary. Ignatian spirituality does not distinguish between secular and sacred, work and prayer, or God and "real life."

Instead, it is about finding God in our lived experience and cooperating with God to transform that experience.

THEO140110
Engaging Catholicism
CRUZ, MARIA ANGELA SOCORRO
Fall 2020
Roman Catholicism is a global religious tradition with over 1.2 billion adherents. In this Core course students will be offered an introductory engagement with the Roman Catholic tradition. This engagement will include consideration of the history, principal beliefs, exemplary figures, and communal practices of the Roman Catholicism. The course will also explore contemporary issues and challenges facing Catholicism today. Satisfies Core requirement for: Theology (Christian Theology)

THEO140201
God, Self, and Society JACKSON-MEYER, KATHERINE A
Fall 2020
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good? Satisfies Core requirement for: Theology (Christian Theology)

THEO142001
The Everlasting Covenant: The Hebrew Bible WALTON, ANDREW E
Fall 2020
The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. THEO143001
Buddhism and Christianity in Dialogue MAKRANSKY, JOHN J; MILESKI, JOHN G
Fall 2020
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another.

THEO143301

Chinese Religions and Christianity in Dialogue DEPARTMENT

Fall 2020

This course asks foundational questions about the nature of the divine, the human, and the relationship between the two. What is the nature of ultimate reality? How did the world and all in it come to be? Are human beings naturally moral or must we learn how to be good? What is the full capacity of human being? We shall ponder answers to these questions and more by putting selected Biblical and Christian texts in conversation with selected Confucian, Daoist, and Buddhist texts from the Chinese literary canon. THEO143401

Judaism and Christianity in Dialogue LANNER, RUTH; ACKERMANN, DOMENIK

Fall 2020

In 1974, the Vatican explicitly called on Catholics to understand Jews as they understand themselves. In our world of dialogue and post-Holocaust repair of relations, Jews similarly ought to understand Christians. This course will explore key topics in the contemporary Christian-Jewish dialogue with the goal of both enabling this understanding of the other and enhancing self-understanding. Students who do not identify with either tradition are welcome to enrich this conversation. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)
Flawed Founders: King David and the Theology of a Political Hero
VANDERHOOFT, DAVID; KIMBALL, KATHERINE M
Fall 2020
This course explores the portrayal of King David in the Bible and its implications for understanding the historical and theological significance of the great king. How should readers of the Bible appreciate David, the significance of his accomplishments in political terms, and his ongoing influence in theological reflection about the ideal ruler, justice, and the relationship between God and King? The course will focus on the biblical narrative, on contemporary non-biblical records, on archaeological evidence, and on the images of David in later texts and artistic images. Modern methods of biblical scholarship will guide the inquiry, but attention will also be given to the philosophy of history and to evaluation of literary artistry in the Bible.

THEO229101
Philosophy and Theology of Community I Sweeney, Meghan T
Fall 2020
This seminar explores the nature of community, with particular focus on community in the American context. Some of the central historical, cultural, political and religious forces that have shaped both American community and the American understanding of community are examined. These questions are initially approached from an historical perspective with an assessment of philosophical ideas which were dominant in the political thinking of the American founders. The seminar then considers the historical development of those ideas in light of the way they are concretized in political practice, arriving at an assessment of contemporary American thinking on community.

THEO230001
The Walking Dead ADKINS, AMEY
Fall 2020
What happens when we die? Historically, the conditions of death in America have never been equal or just for all, but do visions of an afterlife resolve the inequities of lived experience? With Orlando Patterson's pronouncement of the black slave and social death in mind, this course examines the way a theological vision of "the damned" informs everything from racialized injustice and incarceration, to sovereignty and Zombie anxiety in the American conscience. Bringing together philosophy, theology, and critical race theory, we will consider how constructions of death, memory, eternity, and the Other speak to the ethics of a life "well-lived."

Parables in Early Christianity ROTH, DIETER T
Fall 2020
Though parables play an important role in the New Testament and early Christianity, nearly every aspect of the study of parables has been the subject of vigorous disagreement. This course will consider various debated issues including the definition of a parable, the interpretation of parables, and how parables relate to the study of the historical Jesus. Its aim, therefore, is to provide students with the knowledge and tools to better understand early Christian parables and frameworks within which to interpret them.

THEO311701
Love and the Human Condition ROBINETTE, BRIAN
Fall 2020
This course introduces students to classic texts and themes related to human and divine love. Through a careful study of primary texts, both in theoretical and narrative formats, the course is designed to promote extensive classroom conversation and written reflection as we consider forms of love such as affection, friendship, erotic attraction, and agapeic service. Other important themes that will emerge in our study include: freedom, rivalry, suffering, death, beauty, conversion, heroism, and vocation. By situating the dynamics of human and divine love in this way, the course offers an opportunity to reflect upon the meaning of the human condition.

THEO320201
Immigration and Ethics HEYER, KRISTIN E
Fall 2020
This course entails an interdisciplinary examination of contemporary immigration with a primary focus on the U.S. context. Texts from social scientific, legal, and policy perspectives frame the phenomenon of contemporary migration. Theological and philosophical texts, along with PULSE placement experiences, illuminate ethical assessments of immigration practices. Special attention will be given to Christian anthropology and ethics as resources for analysis as well as the role of gender in matters of migration and citizenship.
THEO326101
Spirituality and Sexuality MC DARGH, HARRY J
Fall 2020
How does our experience of ourselves as sexual beings open us to the experience of the holy, and conversely, how might our desire for God be intimately related to our sexual desire and longings? These are the questions that will be the focus of our work. Not a course on sexual ethics, this course is an exploration of the complex interrelationship of sexual and spiritual desire as both are reflected upon in the Christian spiritual tradition.

THEO336001
Living Truthfully: Way to Personal Peace and Social Change PENNA, ANTHONY
Fall 2020
The primary purpose of this course is to examine the proposition that it is better to tell the truth than to tell the lie. Too often, we are tempted to live out an illusion. The personal and social costs of keeping an illusion pumped are steep. Personal peace and courage are born when we settle in on the truth of our identity and dare to live it. In short, this course proposes that the larger life is possible when we come home to the smaller life that defines us as individual women and men.

THEO442901
God, Power, and Politics in the Bible VANDERHOOF, DAVID
Fall 2020
The course will analyze the close, perhaps inseparable, relationship between biblical ideas about God and ideas about the institutions of local and international government (mainly in the Hebrew Bible or Old Testament). A basic assumption is that the spheres of politics and theology were inextricably linked in ancient Israel, as they were in other cultures of the ancient Near East. The focus in the course will be on the biblical communities during the eras of the great empires of the first millennium B.C.E.: Assyria, Babylon, Persia, and Greece. We will ask, for example, what the relationship was between God and King, between rulers and subjects, between power and justice, and between imperialism and religion. In each case, answers or hypotheses will emerge from close reading of select biblical and non-biblical texts.

THEOS00301
Conflctanism MOZINA, DAVID J
Fall 2020
Confucian thought and practice is the bedrock of the moral, philosophical, cultic, and
political life of all East Asian cultures (Chinese, Korean, Vietnamese, Japanese, and the
East Asian diaspora). Close readings of texts from the classical, medieval, and modern
periods will challenge Asian (and Western) assumptions of what this rich and influential
tradition of thought and practice has been about, and how we imagine the general
categories “theology” and “religion.” Graduate students who wish to take the course
should contact the instructor.

Sexuality and the Spirit WEISS, JAMES M
Fall 2020
Christian spirituality has come to integrate sexuality as part of the key Christian
process of loving God, neighbors/fathers, and self. We shall explore this dynamic
development—and the disagreements—in theology and spirituality of Catholics,
Protestants, and Anglicans over recent decades, with attention to single persons
(adults and children), married persons (and differing views of marriage), LGBTQ,
vowed celibates, divorced, widowed, and other special topics (including sexual
violence). Invited speakers will address the class. The course is designed to advance
understanding and care of self and others. For undergraduates or graduates who have
completed one theology Core.

Women and the Church HINDSDE, MARY ANN
Fall 2020
The religious and social experience of women from a variety of cultures, including the 
experience of class participants, form the basis of this seminar. We will (1) study the 
historical roots of Christian feminist theology; (2) explore the critiques and alternative 
reconstructions of traditional understandings of the Bible, God, human beings and their 
relationship to the world that have been offered by Christian feminist theologians 
writing from a variety of ideological perspectives; and (3) investigate the ways in 
which women have defined themselves in relationship to the church, particularly in 
terms of spirituality and ministry.

THEO559901
A Theology of Food: Eating, Drinking and the Eucharist BERGIN, WILLIAM N
Fall 2020
Eating and drinking are primordial human experiences that nourish individuals, sustain 
communities and are at the heart of rituals in many religions. In the Judeo-Christian 
tradition rituals play an important part in the unfolding dialog between God and 
humanity. Christians believe in a privileged encounter with the Lord Jesus in the 
Eucharistic meal of bread and wine. Eternal life is portrayed as a great banquet in 
God's presence. This course articulates a theology of the Eucharist that takes meal as 
it's point of departure. It examines how this central Christian action both shapes the 
divine-human relationship and informs our response to contemporary issues such as 
creation and ecology, hunger and suffering, solidarity and exclusion, hope and 
eternity.

THEO703101
The Pelagian Controversy HUNTER, DAVID G
Fall 2020
In the early decades of the fifth century a theological conflict arose that has come to be known as the “Pelagian Controversy.” Beginning in the East, but soon spreading to the West, the debate involved crucial questions about the created nature of human beings, the impact of sin, and the respective roles of divine grace and human freedom in the process of salvation. It eventually expanded to include questions about human sexuality and predestination. This course will examine the emergence of the controversy in the ascetical theology of Pelagius, its pre-history in controversies over the legacy of Origen of Alexandria, and its development in the theology of Augustine and his opponents. This attention will also be given to the early medieval aftermath of the controversy in the so-called “semi-Pelagian” movement in Gaul.

Theological Bioethics: From the Basics to the Future VICINI, ANDREA
Fall 2020
The course addresses, first, the basics issues in bioethics focusing on the beginning of human life (reproductive technologies, prenatal diagnosis, abortion), biomedical research (transplantation, AIDS, genetic research, stem cell research), sustainability, and the end of human life (palliative care, vegetative state, euthanasia). Second, it discusses the bioethical concerns raised by developing biotechnologies (e.g., neurosciences, oncofertility, nanotechnology, cyborg technologies). By studying the current theological debate and the Catholic Magisterium, principles and theories will be highlighted aiming at supporting personal decision-making and pastoral service.

THEO134201  
Peaceful Ethics: Social Action Leadership Methods NIELSEN, RICHARD P  
Spring 2021  
The course focuses on methods we can use individually and together in addressing ethics issues and in helping to build and maintain ethical communities and organizations within different types of political-economic environments and realities. Methods considered include: ethics reasoning, dialogue, and persuasion methods; win-win negotiating and incentive methods; win-lose, nonviolent forcing and compliance methods; internal due process and governance methods; and alternative institution building and social movement methods.

THEO143001
Buddhism and Christianity in Dialogue MAKRANSKY, JOHN J; MILESKI, JOHN G
Spring 2021
This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism—understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

Hinduism and Christianity in Dialogue MYLROIE, MARY K Spring 2021
It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. THEO170301
Building a Habitable Planet: The Origins and Evolution of the Earth: Theological Perspectives DELONG-BAS, NATANA J Spring 2021
Introduction to Christian and Islamic ethics and theology on the origins and evolutions of the earth and its diverse life forms. We will consider the grand meanings of life and the universe and theological understandings of creation, evolution, and the age of the earth, concluding with thinking about how human use of earth's resources is a reflection of our theological understandings of ourselves and our place in the world. Theological perspectives will include both historical and contemporary voices from both faith traditions, with attention to inclusion of the voices of women, minorities, and non-Westerners.

THEO171101
Neuroscience and Religion: Conflict, Coexistence or Collaboration KELLEY, JESSICA M; BLACK, MELISSA M Spring 2021
This course will give students the opportunity to understand how theology and neuroscience may operate with helpful synergy rather than in opposition. Over the course of the semester, we will explore the "developing brain" and how the brain changes with age and the implications that has for faith formation
and spiritual development. We will then look at the "loving brain" and the importance of social relationships for brain development and religious identity. Finally, we will study the "giving brain" and the importance of reciprocity and empathy in brain development and spiritual formation.

**THEO211401**
**When Gods Begin Again: Intro to African and African Diaspora Religions**
**MCSELWaine, Michelle L**
**Spring 2021**

This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yoruba and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santeria, Brazilian Candomble, Songo Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

**THEO216001**
**The Challenge of Justice**
**SNYDER, JOSHUA R**
**Spring 2021**

This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

**Mass Incarceration: Philosophical and Theological Perspectives**
**LOTT, MICAH**
**Spring 2021**

This course will explore problems of justice in relation to incarceration in the United States with particular attention to attention to race, class, gender, and immigration status. Students will read authors writing on the philosophy of race, gender, and class in relation to incarceration, the phenomenology of solitary confinement and the concept of "social death," church documents and theological works on incarceration, and works on restorative justice and other models of justice that serves the common good. Catholic Social Justice teachings and discussion will also be a part of the course. The course will also address interconnections between immigration and incarceration. This course will be offered as a PULSE elective, in which students will devote four hours per week of service in the City of Boston at institutions such as Suffolk County Jail and non-profits that provide transitional services for returning residents or formerly incarcerated individuals or that advocate for prison reform. The PULSE office will vet and coordinate students' placements and serve as a liaison with community partners.

**THEO226001**
**Modern Jewish Thought**
**BLOCK, NICHOLAS**
**Spring 2021**

This course investigates the impact of modernity on Jewish thought and religion. Highlights include readings Spinoza, Moses Mendelssohn, Martin Buber, and Rachel Adler. First, the rise of the modern state led Jews to confront a crucial question: how can they belong to both the Jewish people and to their countries? Second, modernity emphasizes individual autonomy: we decide as individuals what is good for us. How can this emphasis co-exist with religious law and tradition? Third, modernity involves a strong belief in the authority of reason and progress. In this light, is religion rational or a matter of psychological experience? We will turn to third broader historical phenomena that represent a crisis of modernity: the rise of Zionism, the Holocaust, feminism. These phenomena continue to radically transform Jews and Judaism in our post-modern age. Key terms to be traced through the semester are "community" and "Law" as Jews defined themselves and were defined along religious, racial, and national lines.

THEO232701
Perspectives on War, Aggression, and Conflict Resolution I JACKSON-MEYER, KATHERINE A
Spring 2021
This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacemaking.

THEO280001
Race, Freedom, and the Bible in America GILLIHAN, YONDER
Spring 2021
This course explores the role of the African American in the history of the United States. The course begins with a study of the role of African Americans in the development of American culture and society and focuses on issues of race, ethnicity, and culture and their role in shaping American culture. Special attention is given to the role of African Americans in the development of American culture and society and to the role of African Americans in the development of American culture and society.

THEO295001
The Ten Commandments GILLIHAN, YONDER
Spring 2021
What are the Ten Commandments? Why are there three versions in the Bible? Why are they displayed on the U.S. Supreme Court building, when the Supreme Court has blocked their public display in multiple high profile cases? This class surveys the origins and historical meanings of one of the Bible's most iconic and frequently cited texts: the Ten Commandments (AKA the "Decalogue," an English term that comes from Greek and means "Ten Laws"). The heart of the class is a ten-week comparative study of major historical interpretations of each of the ten laws. Interpretations that we will consider include ancient writers, Medieval theologians, Catholic and Protestant theologians and Church documents. We will consider how the Ten Commandments have been interpreted from a variety of perspectives, including historical-critical, systematic-constructive, in legal theory, and from critical liberationist perspectives, including feminist, Black, queer, and post-colonial. Students will be evaluated on team research and presentation assignments, and on three brief research/reflective essays.

THEO579501
Reading the New Testament without Presupposing Supersessionism SVARTVIK, JESPER
Spring 2021
Supersessionism teaches that Christianity has commonalities with Judaism while simultaneously replacing it. Finding expression throughout church history, it has shaped Christian traditions of reading the New Testament. Today, many biblical scholars argue that because the New Testament predates this idea, we need to read the New Testament without supersessionist presuppositions. Second Temple Judaism is not in theological contrast with the New Testament, but is its historical context. This course will explore these re-readings of the New Testament, focusing on texts like Jesus’ parables, the passion narratives, and the Pauline proclamation that the gospel is “good news” for Jews and gentiles.

THEO702701
Decoloniality and Liberation Theologies MENDOZA ALVAREZ
Spring 2021
The Global South has developed in the recent half century a new perspective of epistemic autonomy. Beyond postcolonial studies, now the question is about how the subaltern peoples promote their own experiences, practices, voices and narratives of dignity, resistance and hope. The Theologies of Liberation have been inspired by this decolonial critique, and they explore this new “lucub theological” for a global society.

THEO702801
Contemporary Theology ROBINETTE, BRIAN
Spring 2021
This seminar explores major figures, texts, and trends in contemplative approaches to theology. By “contemplative” it meant a disposition of deep openness and receptivity, a working familiarity with silence, hiddenness, and the implicit dimensions of thought, feeling, and awareness. None, other than a story of figures and texts that exhibit a broadly contemplative sensibility, the seminar inquires into the practice of contemplation (e.g., ways of attending, the cultivation of skills, the formation of habits, etc.) and the way such practice bears upon (or might bear upon) theology itself. Classic figures and texts will be treated alongside contemporary trends of contemplative renewal.

THEO702901
Biotechnologies, Health, and Theological Ethics VICINI, ANDREA
Spring 2021
In dialogue with scientists, philosophers, and theological ethicists, the doctoral seminar examines current advances in developing scientific disciplines and studies their ethical challenges for health and society by relying on theological ethics. After reflecting on biotechnology in general, in its two parts the seminar focuses, first, on biotechnologies that directly affect human health by considering human genetics (genetic information, research, testing, screening, editing, therapy, pharmacogenomics, and enhancement), stem cell research, regenerative medicine, and neuroethics, and second, the seminar studies new biotechnologies that indirectly regard human health: synthetic biology, nanotechnology, cybernetics, robotics, artificial intelligence, transhumanism, posthumanism, and astrobiology.

THEO703201
Pauline Interpretation in Late Antiquity: Ambrosiaster and His Contemporaries HUNTER, DAVID G
Spring 2021
One of the striking features of early Christian literature, especially in the Latin West, is the proliferation of interest in the epistles of St. Paul. From Marius Victorinus in the mid-fourth century to Augustine and Pelagius in the late fourth and early fifth centuries, there is abundant evidence of a revival of Pauline commentary and theology. At the center of this revival stands the first complete Latin commentary on the Pauline epistles, composed by the anonymous author now called “Ambrosiaster.” In this class we will study the Pauline commentary of Ambrosiaster with special attention to its relations to its contemporaries and its influence in the theological tradition.

THEO703401
Early Christian Asceticism: Body, Sex, and Society in Late Antiquity HUNTER, DAVID G
Spring 2021
One of the more significant developments in the study of early Christianity in the past thirty to forty years has been an increased awareness of the importance of ascetical theory and practice. Social historians (e.g., Peter Brown), scholars of religion (e.g., Elizabeth Clark), and systematic theologians (e.g., Sarah Coakley) have examined early Christian sources from a variety of perspectives, seeking both to understand the impact of ascetic behavior in shaping late antique society and culture and to retrieve its value for the present day. This course will survey a wide variety of ascetical texts from both the western (Latin) and eastern (Greek, Syriac, Coptic) Christian traditions. Issues to be studied include: the role of biblical interpretation in the development of ascetical theologies; the varied anthropological perspectives underlying different forms of Christian asceticism; and the connection between Christian ascetical practice and its non-Christian predecessors and analogues in Judaism and Greco-Roman religion and philosophy. While the focus of the class will be the examination of primary sources, major secondary studies will also be read.

THEO7079101
Moral Agency HEYER, KRISTIN E
Spring 2021
This course explores the topic of moral agency through texts in theological ethics treating autonomy, human rights, conscience, and sin. It also incorporates interdisciplinary literature that considers ways in which agency is impacted by social practices, structures, and cultural norms. Case studies will be incorporated to consider how concrete social questions may impact standard understandings of autonomy and agency and the influence of nonrational factors on human freedom.

THEO746101
Human Rights Interdisciplinary Seminar LYKES, M BRINTON
Spring 2021
The study of human rights defies disciplinary boundaries. This seminar, sponsored by the Center for Human Rights and International Justice, provides a rare space to examine human rights from an interdisciplinary perspective. It brings together faculty affiliated with the Center, students from across the university, visiting scholars, and guest speakers to examine issues of human rights and international justice. The spring 2021 seminar will begin with an overview and brief historical review of human rights as understood in the West and then explore a series of complexities for those seeking to engage in human rights scholarship, advocacy, and activism. We seek to engage critically with human rights discourse and actions as they intersect with gender, culture/ethnicity, "race," social class, and other categorizations as well as with emergent challenges from Indigenous people of the global South beyond Northern epistemologies, understandings, and praxis.

The Minor Prophets: Judgment, Justice, Restoration VANDERHOOF, DAVID
Spring 2021
The seminar will investigate the corpus of the Book of the Twelve, sometimes called the Minor Prophets. Emphasis will be on the first nine books, from which students will read substantial selections in Hebrew. The course will emphasize philological precision, exegetical skills, critical methods, and theological interpretation. Recent scholarly approaches to understanding the corpus will figure prominently. Students will also have the opportunity to read Qumran commentaries on the Twelve directly from original photographs.

THEO789401
Philosophy for Theological Ethicists KAVENY, M CATHELEEN
Spring 2021
The purpose of this class is to introduce theological ethicists to some philosophers who have been influential in discussions in theological/religious ethics over the past fifty years. The particular aims are threefold: (1) to allow students to engage with major works of philosophy; (2) to enable the seminar to collectively familiarize itself with the discussions these works have generated in the field of theological ethics; and (3) to encourage doctoral students to engage deeply with one or more of these philosophers in articulating and pursuing questions that will animate their own research, including their comprehensive exams. There are four basic areas covered (1) distributive justice (Rawls, Sandel, Walzer, Nozick); (2) virtue theory (MacIntyre, Nussbaum); (3) rights talk (Finnis, Dworkin, Glendon (on international law)); (4) cosmopolitanism (Appiah, Benhabib). Students will be required to produce two 12-15 page papers; one assessing the role of a philosopher's thought in the field of theological ethics, and the second furthering the student's own work in either comprehensive exam prep or dissertation research.

THEO796801
Theological Anthropology HINSDALE, MARY ANN
Spring 2021
This graduate seminar explores modern and postmodern theological approaches to the Christian doctrines of creation, sin, and grace. The study of each doctrine begins with a brief survey of biblical and classical understandings/controversies, followed by consideration of the critiques and corrective offers by post-liberal, political, and contextual/creation theologians. The impact of recent developments in cosmology, social constructivist understandings of gender, sexuality and selfhood, and perspectives from critical race theory, class, and disability may also be explored, according to student interest.

THEO797701
Twentieth Century Catholic Moral Theologians KEENAN, JAMES F
Spring 2021
The course looks at the most important works that shaped Catholic Theological Ethics in the twentieth century. It analues the innovative works of Lottin, Tillemann, and Gillemman whose works challenged the classical paradigm of manualists like Davis, Jone, Ford and Kelly. The course then looks at Häring, and at the roots of professionalism that result from that same Council. The legacy of Fuchs as well as twentieth century papal encyclicals are also studied. The course concludes with the emerging work of Latin American liberationists, American feminist and black moral theologians, African inculturationists, and Asian theological ethicists

Designing Your Career: An Exploration Course SMITH, JULIANNE M
Fall 2020
In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.
Credits: 01
Room and Schedule: CAMPION HALL 300,T 4 30-6; Satisfies Core Requirement: None Prerequisites: None Corequisites: None Cross-listed with: None Frequency: Annually Student Level: UNDERGRAD ELECT Comments: This course is open to sophomores, juniors and seniors in the Morrissey College of Arts and Sciences, Woods College of Advancing Studies, and Applied Psych majors within the Lynch School of Education. UNAS102501
Innovation through Design Thinking RUTIRASIRI, CHOKDEE R
Fall 2020
Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

New Scientific Visions I/Perspectives IV MCKAUGHAN, DANIEL J
Fall 2020
Can the study of modern mathematics and the natural sciences prove to be a genuine liberation of the human spirit? This unusual question will form the central theme of this course. The course will explore major developments in the fields of mathematics, biology, physics, chemistry, and the earth and space sciences from ancient Greece, through the modern scientific revolutions of the seventeenth century, and into the twentieth century achievements and paradoxes of modern number theory, the discovery of DNA, relativity theories, quantum mechanics, and contemporary cosmologies.

Peaceful Conflict Resolution Methods NIELSEN, RICHARD P
Fall 2020
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

Life, Liberty, and Health: Policy, Politics, and Law CHIRBA, MARY ANN
Fall 2020
If health is our “greatest happiness” (Thomas Jefferson), why is U.S. health care such a mess? We have rights to vote and free speech, but do we have a right to health? This course explores the role of policy, politics, and law in the pursuit of life, liberty, and health. Topics include the history of our health care system; prescription drug costs; government-mandated vaccinations, the “right to try” unproven therapies; and the roles of law, medicine, and money in creating and containing the growing problems of opioid abuse and concussion injuries in the NFL, college, and youth sports.

When Life Happens: Psychology Views Disability HAUSER-CRAM, PENNY
Fall 2020
In this social science core course, we will explore the socially—constructed meaning of disability and the ability—disability continuum as viewed by both psychology and the social sciences more broadly. We will analyze contemporary and historical perspectives on disability both in the United States and globally, including stigmatization, false claims, and popular myths. In what ways has psychology both advanced and undermined our understanding of disability as part of the human condition?

Community Service Research Seminar HAIDER, MAHEET
Fall 2020
CRP is a two-semester program that offers leadership, research, and public policy training for students interested in working with communities of color in Massachusetts. In the fall, students will participate in a seminar to study the process of community-based research and its methodologies and begin to design a research proposal for an independent study with a faculty advisor for the spring semester research project. The seminar will also include a lecture series, in which academic researchers and community professionals will discuss their current work and experiences on issues related to four research-interest communities.

Cross Currents Seminar: Thinking About Successful Teams DONOGHUE, CAROLYN A; LUTZ, ANDREW R
Fall 2020
This seminar studies strategies for working with and building successful teams in contexts like education, athletics, business, health care, government. Students discuss stages of team development and defined roles found on high-functioning teams. Katzenbach and Smith define a team as “a small number of people with complementary skills committed to a common purpose, performance goals, and approach for which they hold themselves mutually accountable.” We utilize team-based theories to reflect on students’ team experiences, connect discussions to their coursework, and think creatively about their impact as productive team players in the future.

Peaceful Ethics: Social Action Leadership Methods

NIELSEN, RICHARD P

Spring 2021

The course focuses on methods we can use individually and together in addressing ethics issues and in helping to build and maintain ethical communities and organizations within different types of political-economic environments and realities. Methods considered include: ethics reasoning, dialogue, and persuasion methods; win-win negotiating and incentive methods; win-lose, nonviolent forcing and compliance methods; internal due process and governance methods; and alternative institution building and social movement methods.

Global Ethics and Pragmatic Solidarity

LYKES, M BRINTON; ESTELRICH BARCEO, BARTOME

Spring 2021

This interdisciplinary seminar offers participants an opportunity to critically reflect upon selected philosophical and social scientific readings and their lived experiences towards understanding multiple local and global systems and structures that give rise to and sustain social injustice. Specifically, you will begin by exploring your social positions at the intersection of ‘race,’ gender, social class, sexuality, ethnicity, language, abilities, etc. You will develop criteria for understanding the multiple local and global contexts in which you live towards exploring options for taking actions alongside individuals and communities directly affected by social injustices. You will also explore how action-reflection processes can contribute to clarifying your self-understanding and social position vis-a-vis each other and those with whom you act locally and globally.

Neuroscience and Religion: Conflict, Coexistence, or Collaboration KELLEY, MELISSA M; BLACK, JESSICA M
Spring 2021
This course will give students the opportunity to reflect on and analyze evidence of how theology and neuroscience may operate with helpful synergy rather than in opposition. Over the course of the semester, we will explore the "developing brain" and how the brain changes with age and the implications that has for faith formation and spiritual development. We will then look at the "loving brain" and the importance of social relationships for brain development and religious identity. Finally we will study the "giving brain" and the importance of reciprocity and empathy in brain development and spiritual formation.

Advanced Community Service Research Seminar II HAIDER, MAHEEN
Spring 2021
CRP is a two-semester program (SOCY2254 and SOCY2255) offering leadership, research, and public policy training for students interested in working with Latino, Asian American, and/or African Diaspora communities. In fall, students in SOCY2254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In spring, students sign up for SOCY2255 in conjunction with a Readings and Research to conduct their projects. The spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

**Cross Currents Seminar: Thinking About Successful Teams**  
**DONOGHUE, CAROLYN A; LUTZ, ANDREW R**  
**Spring 2021**  
This seminar studies strategies for working with and building successful teams in contexts like education, athletics, business, health care, government. Students discuss stages of team development and defined roles found on high-functioning teams. Katzenbach and Smith define a team as "a small number of people with complementary skills committed to a common purpose, performance goals, and approach for which they hold themselves mutually accountable." We utilize team-based theories to reflect on students' team experiences, connect discussions to their coursework, and think creatively about their impact as productive team players in the future.

**Biomedical Research Ethics**  
**CHEN, JIIN-YU**  
**Spring 2021**  
Biomedical research aims to understand the underlying causes of disease in order to alleviate human suffering and to deepen our knowledge of the inner workings of biological processes. Advances in these areas have brought numerous successes, saving many lives and greatly contributing to our understanding of biology, physiology, and anatomy at multiple levels. However, these advances have also brought related questions about biomedical research’s aims, scope, methods, and consequences. How have these advancements changed our understanding and treatment of disease and illness? Are there limits to what biomedical research should pursue? How are the needs of the present held in tension with the demands of the future? This course will examine these questions by drawing upon history, literature, and ethics to examine the growth and development of biomedical research and its effects, which continue to shape society’s future direction.

Schiller Institute for Integrated Science and Society

Global Public Health and the Common Good Courses: Summer 2020

PHCG121001 Public Health in a Global Society EDMONDS, JOYCE K; HAWKINS, SUMMER S Summer 2020

This foundation course presents public health as an interdisciplinary science focused on health promotion and disease prevention at the population level. The course provides an overview of the history of public health, global burden of disease, sub-disciplines of public health, maternal/child health, and nutrition, and emphasizes the collaborative nature of the field through examples in research and practice. An inherent principle in public health is advancing social justice and this course, and the public health sequence more broadly, focuses on at-risk populations, reducing health disparities, and improving health equity at the population level.

PHCG212001 Epidemiology EDMONDS, JOYCE K; HAWKINS, SUMMER S Fall 2020

Epidemiology is the study of the distribution and determinants of health and disease in populations, and the application of this knowledge to improve health outcomes. This course will provide an introduction to the basic concepts and methods of epidemiology. Topics will include: measures of disease occurrence and association, study design, basic statistics, reading and interpreting published epidemiological studies, and special topics (e.g. chronic disease epidemiology, outbreak investigations), with an emphasis on critical thinking and application.

Credits: 03
Room and Schedule: Stokes Hall 295s, T TH 12*; HYBRID

PHCG13001 Global Public Health Law CHIRBA, MARY ANN; WIRTH, DAVID Fall 2020

This course will examine the critical role of law in creating and implementing social policy and achieving (or at least seeking) social justice. Through the lens of current global trends, it will study the ways in which laws and regulations operate to promote and protect—as well as impede—both individual and public health at the local, national, and international levels. Specific topics may include the following: global differences in the definition of health care as a human right, expanded trace in agricultural products, domestic threats to public health, anthropogenic organic compounds, and the integrity of resources of the global commons. This course is designed to instill the policy-makers of tomorrow with the active skill set necessary to grapple with new public health challenges as they arise.

Room and Schedule: Carney Hall 306, M W 1*;

PHCG132001 Cancer Epidemiology STRAIF, KURT H Spring 2021

Cancer is the second leading cause of death today in many countries around the world in the aftermath of the epidemiological transition. Globally, cancer incidence will increase from an estimated 18.1 million new cases in 2018 to 29.5 million new cases by 2040, with the majority of the increase expected in low- and middle-income countries. Cancer control strategies must focus on primary and secondary prevention of cancer as the most effective response to these public health challenges. The first step in cancer prevention is to identify the causes of human cancer and to determine what works in cancer prevention. The aim of the course is to provide the student with the knowledge and skills to identify relevant cancer types, their established and suspected risk factors and established measures of primary and secondary prevention (screening) of cancer, globally, regionally, and nationally. Within and between countries the poor are often more affected by cancer, therefore cancer control must also aim to reduce the social inequalities in cancer.

Christian Ethics Courses: Summer 2020

**PHCG22301**  
The Ethics of Global Public Health and the Common Good  
VICINI, ANDREA  
Spring 2021  
Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes.  
International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

**PHCG414001**  
Children's Health and the Environment  
LANDRIGAN, PHILIP J; PADOS, BRITT F  
Spring 2021  
This course will provide students with fundamental understanding of the powerful influence of the environment on health and disease in children. It will enable students to understand why children are uniquely sensitive to toxic chemicals and other environmental hazards and how toxic exposures in early life can influence risk of disease across the life span. It will familiarize students with the major environmental hazards of our time, including lead, mercury, pesticides, and air pollution as well as with the links between the built environment, climate change, and children's health. Using case studies, it will explore the linkages between children's environmental health and social justice. It will conclude with a discussion of options and strategies for translating science to public policy to prevent diseases of environmental origin in children.

**TMCE700401**  
The Moral Dimension of the Christian Life  
DALY, DANIEL J  
Summer 2020  
This course provides a foundational and systematic overview of the basic components of Catholic moral theology. The content of the course is an exposition and analysis of topics traditionally treated under the heading of fundamental moral theology: moral character, moral freedom and its limits, the relationship of spirituality and morality, sin and conversion, conscience, the use of scripture in moral reasoning, natural law, the teaching authority of the church in moral matters, the development of moral norms, discernment and moral decision-making.

Ecological Values, Catholic Theology and Ethics  
ZENNER, CHRISTIANA  
Summer 2020  
Recent decades have seen a turn to discussion of ecological values in Catholic theologies and beyond. This course will look at how questions of nature and ecological value have been framed in post-Vatican II Catholic theologies, including papal documents, theological reflections, and through lived communities of action. The course will attend especially to Laudato Si' (2015), including study of its antecedents and consideration of its implications. Among other sites of reflection, three major topics of inquiry will be: (1) the ascribed and debated content of "integral ecology," (2) the interlocking social and ecological realities of climate change and fresh water, and (3) the recent papal turn to indigenous ecological knowledge in Laudato Si' in conversation with the 2019 Amazon synod, where questions of ecological values and theology came to the fore.

**TMCE700801**  
Introduction to Catholic Social Ethics  
IOZZIO, MARY JO  
Fall 2020  
This course introduces the rich tradition of social ethics engaged explicitly by Leo XIII, Rerum novarum (1891), continued by his successors and bishops conferences, and enriched by theological reflection that continues today. Attention will be given to the principal documents (encyclicals, Gaudium et spes (1965), pastoral letters), and the contexts from which they emerged to gain facility in applying social analysis to contemporary concerns. Key themes to be studied: life and dignity of the human person, solidarity, social participation and the common good, the preferential option for the poor, and economic development and work, among others.

**Comments:** None

This course addresses, first, the basics issues in bioethics focusing on the beginning of human life (reproductive technologies, prenatal diagnosis, abortion), biomedical research (transplantation, AIDS, genetic research, stem cell research), sustainability, and the end of human life (palliative care, vegetative state, euthanasia). Second, it discusses the bioethical concerns raised by developing biotechnologies (e.g., neurosciences, oncofertility, nanotechnology, cyborg technologies). By studying the current theological debate and the Catholic Magisterium, principles and theories will be highlighted aiming at supporting personal decision-making and pastoral service.

Course Area Unspecified Courses: Summer 2020

TMTM200801
Introductory Latin: Summer Intensive HARKINS, FRANKLIN T
Summer 2020
This elementary course in Latin presumes no prior study of the language. Basic principles of Latin phonology, morphology, and syntax will be treated in classes and reinforced by regular homework exercises and their review in class. Emphasis will be placed on the vocabulary that is appropriate to the various theological disciplines. This course is highly intensive and requires significant weekly work and a fair measure of independent learning. Students will be expected to master the basic grammar and most common vocabulary.
Credits: 06

Comments: This STM 6-credit summer course meets June 8-July 31, 2020 (Monday-Thursday) from 8:45 a.m-11:45 a.m. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage at: www.bc.edu/bcweb/schools/utm/academics/summer-at-utm.

TMTM723101
Religion, Theology, and Aesthetics BADER MAYER, JENNIFER; MINTA, ANNA
Summer 2020

The course studies human sexuality in light of the contributions that come from human experience and human sciences, biblical scholarship, theological insights and debates, and the Catholic Magisterium. Personal dimensions (e.g., bodiliness, development, orientation, identity, affectivity), social components (e.g., gender, economic dynamics), and historical shifts will be highlighted. The anthropological, hermeneutic, and phenomenological approaches that will be privileged allow us to discuss behaviors and practices critically and to strengthen and promote virtuous and just relationships.

**TMTM200401**

**Directed Readings**

**STEWART, JENNIFER**

**Fall 2020**

This course attempts to provide orientation in a question that has become a major public issue, i.e., religion (meaning the plurality of religions and religious and/or spiritual worldviews). In media reports, religion is frequently depicted as a source of social strife and violence that tends to threaten the standpoints of democratic secular states. Nonetheless, religion(s) had, historically speaking, a major impact on European cultures in a variety of ways, not least on their actual value systems. The specific European history of religion's decline of influence on state, society, and the individual--known as secularization--did not prepare Europeans well for dealing with religion as a public issue. Consequently, this course takes a second, scientific and multi-disciplinary look at religion: Sociology, Philosophy, Anthropology, Political Science, Cultural Studies, and Theology will provide theoretical approaches to one of the most ambiguous phenomena, religion. It will offer basic knowledge of what genuine religious questions are and how they are formulated in some of the so-called World religions (Christianity, Islam, and Buddhism) that might generate some impact on European cultures in the future as well.

**Credits:** 03

**Comments:** This 2-credit Directed Readings course will be offered through Catholic Private University in Linz, Austria. It is scheduled for Mondays from 8-10 a.m. Dates TBA.

**Status:** OPEN
Contemporary philosophers from nonreligious perspectives such as Martin Heidegger, Hannah Arendt, Giorgio Agamben, Alain Badiou, Gianni Vattimo, or Slavoj Žižek have taken up fundamental categories of the Jewish-Christian tradition in order to politically rethink the present. Their secular thinking which is generally considered not to be religiously oriented can be characterized as the marked attempt of regain- ing theological concepts and terms such as agape, parousia, forgiveness, messianism, faith, hope, incarnation, kenosis, resurrection, and vocation. This Seminar focuses on the analysis of these theological categories within the process of dislocating as well as on translating them into other contexts and discourses while exploring their legibility and significance for the present. Thus, two issues are at stake: first, the question of whether and how Christian symbols and narratives can still contribute to a renewed social cohesion by promoting a new perception of human beings in current pluralistic societies.

Second, the seminar aims at understanding the possible influence and impact of Christianity on secular philosophy in order not only to promote mutually complementary learning processes but also to compel both (post)modern reason and religious reasoning to reflect on their own limits.

**TMTM724601**

**Directed Readings: Heroines, Villains, Seducers, or Victims? Characters and Characterisation in the Book of Judges**

**GILLMAYR-BUCHER, SUSANNE; BADER MAYER, JENNIFER**

**Fall 2020**

In this course we will examine characters in the book of Judges. Among the various figures in the book of Judges there are exemplary figures as well as deterrent examples. Nevertheless, the narrative is cautious with evaluations. So that the readers have to come to their own conclusions based on the situation described and the figures portrayed in these texts. In this course we will focus on the literary figures, analyze how they are characterized, explore their moral complexity, and see how the interpretation of these characters influences the understanding of the stories.

**New Testament Greek II KAKAVAS, MARIA**

**Spring 2021**

The main objective of the course is to be able to read the New Testament in the original. This is the second part of the two-semester course where we will finish all Croy's lessons, provided that a good understanding and working knowledge of the material has been attained. We will cover a chapter every two class meetings, and the third meeting we will have a review, a quiz, and may introduce a new chapter depending on the progress. The students will be expected to master the basic grammar and most common vocabulary of the New Testament Greek, complete all assignments on time and participate actively in class.

**Credits:** 03

History of Christianity Courses: Fall 2020

TMHC702201
Spiritual Autobiography: Journeys into the Self and God MOONEY, CATHERINE
Fall 2020
This course examines the spiritual autobiographies of well-known individuals such as Augustine of Hippo, Teresa of Avila, Therese of Lisieux, Thomas Merton, Dorothy Day, Walter Ciszek, S.J., and Nancy Mairs. In addition to reading classic texts by profound and influential religious seekers, the class will explore how understandings of the self, God and the supernatural are shaped by diverse historical contexts. Lectures and discussion.

TMHC716601
Popes and the Papacy: From Peter to the Present MOONEY, CATHERINE
Fall 2020
A survey course of popes and papacy from Peter to Francis I, with attention to institutional, theological, and cultural contexts. The course is organized chronologically, while giving thematic attention to issues that cut across eras, e.g., papal primacy, conciliarism, infallibility, evolution of church structures, attitudes toward and roles of women, the laity, political alliances and relations with Jews, Protestants, etc. Coverage of major events, e.g., breach with eastern Christianity, crusades, Reformation, Trent, Holocaust controversies, Vatican II, conflict with U.S. nuns. Lectures with regular opportunities to discuss and probe readings for their relevance today.

**Seminar: Saints and Sanctity MOONEY, CATHERINE**

**Spring 2021**

This seminar examines the Christian saints from the formation of the cult of saints in
early Christianity through today. Topics include how to read saints’ lives; martyrdom;
why notions of sanctity change; how saint-making shifted from popular acclamation to
episcopal leadership and the role of gender, race, and ethnicity; shrines, relics and
pilgrimage; and the contemporary relevance of saints. Extensive discussion of primary
sources.

**Credits:** 3

**Course Title:** The Book of Job in the Middle Ages HARKINS, FRANKLIN T

**Course Description:**

- **Room and Schedule:** W 1-3; 50; ONLINE; SYNCHRONOUS

**New Testament Courses: Summer 2020**

**TMNT722101**

**Women and Christian Origins D’ANGELO, MARY ROSE**

**Summer 2020**

This course explores the New Testament and other literature of its context from a
feminist perspective. It attempts to retrieve the participation of women in movements
behind these works and delineates patterns of gender in their structure and theology,
considering the impact of the texts and their contexts on the construction of gender,
feminist politics, and arrangements of race and class both at the beginnings of
Christianity and in the twenty-first century.

**Introduction to the New Testament MONNIG, MATTHEW S**

**Fall 2020**

The New Testament is a collection of diverse writings that are central to Christian faith
and life. This course will introduce students to the literary characteristics, historical
context, and theological content of these writings and to the methods and approaches
associated with the modern discipline of biblical studies.

**Credits:** 3

**1 Corinthians MATTHEWS, CHRISTOPHER**

**Fall 2020**

A close reading of 1 Corinthians with attention to its historical and social setting, its
rhetorical structure, and its theological and ecclesiological significance for our
understanding of Paul’s thought and practice, and the history of early Christianity.
Thus the course will consist of a thorough survey of the structure, content, and key
themes (e.g., Christology, ecclesiology, eschatology, ethics, resurrection, role of
women) of Paul’s epistle based primarily upon an exegetical analysis of the text with
attention to current discussion in the scholarly literature.

**Gospel of Mark WILLS, LAWRENCE**

**Fall 2020**

A close exegetical analysis of Mark’s Gospel, with particular attention to Markan
literary

The course examines the canonical and non-canonical evidence for the life, teaching, and activities of Jesus of Nazareth with a focus on his context in first-century Judea and Galilee. It introduces the three phases or “quests” for a historical Jesus and discusses the relevance of scholarly reconstructions of the historical Jesus for ministerial contexts today.

New Testament Courses: Spring 2021

TMNT800501
Great Themes of the Bible
CLIFFORD, RICHARD J; STEGMAN, THOMAS
Fall 2020
A survey of several key themes that emerge and re-emerge in the Christian Bible (encompassing both the Old and New Testaments). These themes include creation and eschatology; election and the nations; covenant and law; mediator/suffering servant; divine justice; sin and forgiveness; manifestations of God (e.g., Wisdom, Word, Spirit); Kingdom of God; and resurrection. This course serves as a good capstone course for M.T.S. and M.Div. students.

TMNT709201
The Gospel of Matthew WILLIS, LARRY
Fall 2020
Our study of Matthew’s Gospel will attend to its literary features, social context, and theological content. In addition to helping us understand how the Matthean author used various sources to write his distinct narrative of Jesus’ ministry, Passion and Resurrection, historical-criticism will assist in contextualizing both author and community within a late first-century multi-cultural context. As the most commented upon Gospel in the early Church, we will also consider how Matthew’s emphasis on the OT and understanding of Jesus were received by early Christians who sought to articulate Christianity in light of the controversies at that time (e.g., Marcionism).

TMNT715601
Letter to the Romans MONNIG, MATTHEW S
Spring 2021
The significance of Paul’s letter to the Romans for Christian life and theology is hard to overstate. This course offers a careful, verse-by-verse reading of the letter, trying to understand it, in the first place, within Paul’s circumstances and concerns. The course will also highlight what the letter says about theology proper, Christology, pneumatology, soteriology, anthropology, and ecclesiology—as well as consider pastoral concerns.

TMNT721001
New Testament Gospels MONNIG, MATTHEW S
Spring 2021
This is an introductory core course on the four New Testament Gospels. Among the primary aims of this course is to provide an overview of the structure and content of each of the four Gospels (Matthew, Mark, Luke, and John) and an analysis of various scholarly methods for interpreting them. This course will review what scholars call the Synoptic Problem, an investigation into the relationship of the Synoptic Gospels (Matthew, Mark, and Luke) to one another, and discuss the arguments for and against the hypothetical source known as Quelle. This course will also discuss the relationship between the Gospel of John to the Synoptic Gospels, and the relationship between the Gospels and other relevant texts like the Gospel of Thomas. This study of the Gospels will be situated in an ecclesial framework that includes a theological perspective.

TMOT701401 The Core Narrative of the Old Testament: Genesis to Kings SIMONE, MICHAEL  
Fall 2020  
A study of the Pentateuch and the Deuteronomistic History (Deuteronomy to Kings) through lectures, and sections in which students present an exegesis of important passages. Solid knowledge of these books is essential to understand the rest of the Bible. This course does not duplicate other introductions, for we read only Genesis through Kings (not the Prophets, Wisdom Literature, or Psalms), and a third of the class time is devoted to small sections, which are designed to sharpen exegetical and preaching skills.

Old Testament Courses: Spring 2021

TMOT722601 Biblical Spirituality SIMONE, MICHAEL  
Spring 2021  
After spending part of the semester developing a definition of biblical spirituality through reading and discussion of works of, among others, Barbara Bove, RSCJ, and Jon Levenson, this seminar will expand on that understanding through a critical reading of biblical accounts, possibly including Jacob/Joseph, David, Psalms/Song of Songs, Luke/Acts, and Letters of John.
Pastoral Studies Courses: Summer 2020

TMGST70001
Spiritual Formation for Ministry QUINN, BARBARA; REGAN, JACQUELINE
Summer 2020

This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during

the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program.

Additional information:
- **El Paso-Ciudad Juarez Encounter Module**
  - This module will explore the theology and ethics of forgiveness in the Christian tradition, particularly as relevant to our contemporary church and world. We will examine key texts from Scripture, classical Christian thinkers, and recent theologians. Topics include: what it means to forgive and to be forgiven, the ethical status of anger and other negative emotions, the relation of forgiveness to reconciliation and restorative justice, the concepts of political forgiveness and political reconciliation, and forgiveness within interpersonal, ecclesial, and wider public settings.

- **El Paso-Ciudad Juarez Border Encounter**
  - The El Paso-Ciudad Juarez Border Encounter is a unique opportunity for STM students to engage with a variety of perspectives on the realities of immigration to the US at the US-Mexico border. The Encounter will be working with the Encuentro Project, which is a Catholic inter-cultural, faith-based immersion program based in El Paso, TX. It was co-founded and is run by Director Rafael Garcia, SJ as well as Program Coordinator & House Manager Todd Patenaude, FMS. Additionally, Sisters of Saint Francis of the Holy Family, lay persons, and members of the Hope Border Institute form part of the Encuentro Project team.

  - Encuentro Project seeks to facilitate encounters between immersion participants and other individuals such as asylum seekers, migrant, immigrant,
displaced, or refugee persons; Border Patrol agents, immigration and/or asylum lawyers, individuals working in NGOs or non-profits, and more. Through interactions with these individuals and communities, students will engage the lived realities of migration, learn more about Catholic Social Teaching through an experiential lens, and bring all these things into dialogue with their faith and relationship with God. This module provides students with an opportunity to engage in personal, academic, and spiritual formation, all while building community with our STM classmates.

TMPS72401
Pastoral Responses to the Problem of Pornography MONNIG, MATTHEW S
Summer 2020
Pornography is a growing issue in the Church and the society that ministers are frequently confronted with. U.S. bishops have called for a pastoral response to this problem (see their statement Create in Me a Clean Heart: A Pastoral Response to Pornography, 2015). This module will seek to equip those training for ministry to respond sensitively and seriously to this issue, especially in the context of confession and spiritual direction.

TMPS800703
Contextual Education O’KEEFE, THERESA A
Summer 2020
This is the supervised ministry requirement of the MATM and MAPM, completed in the later in the degree. It is composed of three elements: work at a supervised ministry site; supervision; and participation in the classroom component (on-campus or online). The experience continues across both fall and spring semesters. Ministry sites and supervisors must be investigated and established prior to the beginning the experience. Therefore, prior to registration, students need to contact the Faculty Director of Contextual Education to initiate the placement process.

TMPS851501
Advanced Professional Ministry Practicum WEISS, JOSEPH E
Summer 2020
The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

Pastoral Studies Courses: Fall 2020

TMPS704101
The Practice of Ministry with Youth and Young Adults O’KEEFE, THERESA A
Fall 2020
This course aims to explore elements critical to the effective practice of ministry for and with youth and young adults. Considering the broad demographics herein, this class attends to fostering the skills of discernment and mentoring, which would be valuable across the spectrum of these varied constituencies and contexts. Together the class explores the contexts of the ministry (ecclesial and social), identifies a vision for the work, and considers how that vision might assist in discerning God's action in and direction for work with youth and young adults.

Comments: This course is being offered as an ONLINE course for fall 2020.
Status: OPEN

In this foundational course, we develop an understanding of critical dimensions of competent and compassionate pastoral care and counseling today. This course has four primary foci. First, we consider theoretical perspectives that may ground this large ministry field. Second, we study concrete methods and skills for effective pastoral care. Third, we examine some challenging realities to which all pastoral caregivers must respond at some point, including domestic violence, grief and loss, and suicide. Finally, we consider the person of the pastoral caregiver, including the necessity of resilience in ministry and next steps in developing as a pastoral caregiver.

Throughout the course, we explore pastoral care/counseling from contemporary theological, psychological, and cultural perspectives. We also consider the specific roles and possible strategies of the pastoral caregiver and the faith community in supporting individuals and communities as they harness strengths and resources to negotiate challenges and create or maintain stability and well-being. This course includes lecture, readings, discussion, and exercises.

Student Level: GRADUATE
Comments: This course will be offered summer 2020. Note: Given the brevity of these summer courses, it is essential that students come prepared to engage in learning the very first day. To facilitate this, each course has 'Pre-Class' work to complete. This generally includes reading and often requires a written essay to be submitted before or on the first day of class. See the summer course webpage: https://www.bc.edu/bc-web/schools/stm/academics/summer-at-stm.html. There will be two sections of this course offered in fall 2020.

Pastoral Studies Courses: Spring 2021

TPMS708002
Spiritual Formation for Ministry TALVACCHIA, JUDITH; QUINN, BARBARA
Spring 2021
This two semester program, a requirement for first year M.A. Theology and Ministry students, cultivates practices for integrating faith, life, and ministry through prayer and reflection on central themes of spirituality for ministry. The program consists of two parts. First, a student commits to a small faith community, which meets on the same day and same time twelve times during the academic year under the guidance of a trained facilitator. Second, a student creates a spiritual formation plan (SFP), the components of which may be fulfilled throughout the duration of one's degree program.

### TMPS710107
**Directed Research in Pastoral Ministry KELLEY, MELISSA M**  
**Spring 2021**  
**TBD**  
**Credits:** 01
This course develops an understanding of pastoral care as personally and socially transformative theological practice. With an eye toward some key theological themes emerging within the pastoral care encounter, the course has three main aims: (1) fostering the skills of compassionate and active listening; (2) identifying and critically reflecting on the theologies operative in the life narratives of caregivers and care-seekers; (3) exploring some short-term pastoral crisis intervention models. The class combines lecture, discussion, and exercises.

TMPS800701
Contextual Education O'KEEFE, THERESA A
Spring 2021
This is the supervised ministry requirement of the MATM and MAPM, completed in the later in the degree. It is composed of three elements: work at a supervised ministry site; supervision; and participation in the classroom component (on-campus or online). The experience continues across both fall and spring semesters. Ministry sites and supervisors must be investigated and established prior to the beginning the experience. Therefore, prior to registration, students need to contact the Faculty Director of Contextual Education to initiate the placement process.

TMPSS804601
Identity: From Discovery to Integration O'KEEFE, THERESA A
Spring 2021
This course considers the process of identity formation, which comes to the fore in adolescence and is refined and integrated throughout adulthood. This course examines the questions and concerns that surround that discovery and integration process, particularly attending to how identity is problematized within postmodern contexts. Participants in this course pursue the question: how might we attend ministerially to young people growing through this process? Conducted in seminar format, participants are responsible for conducting topic discussions for the class. Prior coursework in youth and young adult ministry and/or developmental theory is required for registration.
Credits: 03
Room and Schedule: T 12-2 50: ONLINE; SYNCHRONOUS;
Satisfies Core Requirement: None
Prerequisites: TMPSS7041. OR similar course on adolescent development.

TMPSS812101
Introduction to Canon Law PONZONE, ANDREA
Spring 2021
This course examines the nature, history, and sources of Canon Law in the Catholic Church. It presents an overview of the laws provided in the 1983 Code of Canon Law and relevant complementary canonical legislation. This course will focus on general norms (Book I), the People of God (Book II), temporal goods (Book V). Given the current circumstances and issues about the Catholic Church’s sexual abuse crisis, a brief presentation of penal law (Book VI) and processes (Book VII) will be offered. This course is recommended as a foundational background for “Canon Law of the Sacraments.”

TMPSS851501
Advanced Professional Ministry Practicum WEISS, JOSEPH E
Spring 2021
The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring additional ministerial expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work, education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.
Credits: 03
Room and Schedule: M 3-4 50: ONLINE; SYNCHRONOUS;
Satisfies Core Requirement: None
Prerequisites: Completion of the Professional Ministry Practicum.

Comments: This course will be taught in fall 2020 by Joseph Weiss, S.J., and spring 2021 by Michael Simone, S.J.
Status: OPEN
Theology—classically defined as “faith seeking understanding”—does not happen in a vacuum. It is a most human exercise that involves the whole person living in particular socio-cultural and historical contexts. From such particular contexts theology draws its meaningfulness and relevance; rooted in them it speaks universally. Theology draws from our intimate relationships: with God, others, and the world. This course uses historical and contemporary experiences from U.S. Latino communities as a case study. Note: Latinos constitute nearly half of the Catholic population in the country. Examples of theological reflection rooted in the experience of other communities that are part of the U.S. Catholic tapestry will also be analyzed. The course explores the contextual nature of the theological task, the importance of method, and the roles of the theologian and the community in the process of doing theology.

Practical Theology Courses: Spring 2021

TMPT724801 Screening Theology: Theology In and Through Film VALENTIN, BENJAMIN Spring 2021
Highlighting the possibility and potential of a theology of culture, this course explores the ways in which recent Hollywood movies can be used as resources to think about and even to rethink the meaning of key theological concepts such as ideas of God, human nature, sin, Christ/human redemption, and eschatological hope. Through brief lecture presentations, reading materials, the viewing of movies, and class discussions, students will be encouraged to consider how an appreciative and critical engagement with popular culture can allow for a relevant and contemporary practical theology.

TMPT802201 Seminar in Practical Theology OSPINO, HOSFFMAN Spring 2021
Christian theology at its best is marked by the pastoral interest of serving the life of the church in the world. Necessarily, the study of the church; specifically, its nature, purpose, and mission provides a framework within which to consider the task of practical theology. The methodology and issues that distinguish practical theology flow from this larger ecclesial context. This seminar will focus on models of the church, the art of doing theology in service of the church, and some foundational themes of practical theology (e.g., hermeneutics, praxis, culture and inculturation, and our postmodern context).

Religious Education Courses: Summer 2020

TMRE706001 Education in Faith: Foundations and Practice GROOME, THOMAS Summer 2020
This course proposes theological, spiritual, and pedagogical foundations for a participatory and empowering approach to faith-based education, pastoral ministry, and service. Reflecting religious education as a mode of practical theology and concern for the spiritual foundations of Catholic education, the course invites participants to develop their own praxis of educating from and for faith. This is the purpose of the Church’s educational work in the world. However, it is also a responsibility of every Christian person and of every function of ministry and faith-based service.

TMRE715501 Catholic Higher Education Administration & Leadership JAMES, MICHAEL J Summer 2020
This course explores contemporary issues, organizational and governance structures and distinct characteristics of successful Mission leadership for administrators at Catholic Colleges and Universities focusing on effective campus policy development, strategic planning, and assessment. Students will engage research, historical literature, Church documents, lectures and group exercises. A unique component to this course is participation in the Institute for Administrators in Catholic Higher Education (IACHE) - a four-day seminar for senior administrators and leaders in Catholic higher education where internationally recognized scholars and practitioners address the challenges and opportunities that Catholic higher education faces on a daily basis.

TMRE716101 Mission, Curriculum, and Pedagogy: Teaching High School Religion CAMERON, CYNTHIA L Summer 2020
This course is designed to assist students in developing religion curriculum for adolescents, particularly within the setting of Catholic secondary schools. It considers the place of religious instruction within the larger ambit of the Catholic school’s mission, including interaction with campus ministry and service learning. It attends to frameworks of faith development within adolescence. It includes the development of learning outcomes and assessment tools; pedagogy; curricular maps; units and lesson plans. Finally, it calls participants to be self-aware of the teacher’s role through the development of a pedagogic creed.

Religious Education Courses: Spring 2021

TMRE700001
Contemporary Approaches to Religious Education REGAN, JANE
Spring 2021
The task of forming a people of faith is the challenge each generation must embrace. Beginning with an understanding of theological reflection, this course weaves the elements of religious education with their theological foundation: What is practical theology? Who is the learner? How do we understand tradition(ing)? Who is the learner? How do we understand tradition(ing)? What place does education faces on a daily basis. The seminar is designed to serve administrative directors, and others in positions responsible for institutional mission and identity. For more information, please visit the website: https://www.bc.edu/bcweb/schools/lynn-school/sites/lynn.html.

TMRE719101
The Craft of Teaching Theology: A Pedagogical Toolkit for the High School Teacher CAMERON, CYNTHIA L
Fall 2020
This course is designed to assist students in developing religion curriculum for adolescents, particularly at Catholic secondary schools. It invites students to consider the goals of a high school religion curriculum and the pedagogical approaches that are most useful in reaching those goals. It attends to the practices of effective teaching, such as curricular planning, resource selection, and pedagogical strategies, and places those practices within a framework of Catholic educational philosophy and theology.

TMRE8830
Adult Believers in a Postmodern Context REGAN, JANE
Spring 2021
What are the dynamics that make adults ready and able to live effectively as people of faith in our contemporary postmodern context? What does it mean to be a believer in
such a context and how are adults supported in the maturity of faith? Theology, psychology, and education theory all have a contribution to make in addressing these questions. Focused consideration is given to contemporary theories in adult development and adult learning. Attention is given to the implications of this for the parish/congregation, but broader applications are also considered.

**Systemic and Historical Theology Courses: Summer 2020**

**TMS702401**

**Christology VALIENTE, ORFILO E**

**Summer 2020**

This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

**Sacraments in the Life of the Church RADTKE, BARBARA A**

**Summer 2020**

After exploring sacrament in its broadest sense, the meaning of sacramentality, and other fundamental elements of Roman Catholic sacramental theology, we will examine each sacrament both in its role in the life of the church as well as its role in each individual’s faith journey. We will address historical background and contemporary issues about the Sacraments of Initiation, Baptism, Confirmation and Eucharist, the Sacraments of Healing, Reconciliation and the Sacrament of the Sick; and Sacraments at the Service of Communion, Marriage and Holy Orders.

**TMR707601**

**Education of Christians: Past, Present, and Future GROOME, THOMAS**

**Spring 2021**

The history of the church's educational ministry serves to enlighten its present pastoral praxis. Students in this course read original and classical documents as a treasury of wisdom for religious education and pastoral ministry. The course will closely parallel the history of theology, of the church, and of Western education.

Systematic and Historical Theology Courses: Fall 2020

**TMST700901**

Fundamental Theology BROUILLETTE, ANDRE

**Fall 2020**

The resources and methods of theology provide the framework for this course. A primary focus will be on the relationship between revelation, faith, and theology, which includes the role of the Bible and the church's doctrine. The course will also survey past and present methods in 'doing theology,' and consider the connection between theology and spirituality.

Fall 2020
Oscar Romero, Ignacio Ellacuria, and Jon Sobrino represent three leading figures in Latin American liberation theology. This seminar explores their converging theological projects, which outline a major trajectory in Catholic Theology since the Second Vatican Council. After exploring the historical and cultural context that shaped the work of these three men, we will engage on a close reading and critical evaluation of their work. Because they influence one another, we will particularly attend to those theological themes in which crosspollination has taken place: Christology, ecclesiology, soteriology and spirituality.

TMST804301
Historical Spiritual Classics in Theological Perspective GRIFFITH, COLLEEN M Fall 2020
This course will survey historical classics, examining the generative themes that are suggestive for our time and foundational in the construction of a contemporary spirituality. Authors will include Augustine, Benedict, Francis and Clare of Assisi, Julian of Norwich, Catherine of Genoa, Ignatius of Loyola, Teresa of Avila, and John of the Cross. These articulations have shaped the living out of their vocations as nuns and male and female celibacy. Eclesiology is a prerequisite for counting this course for the Ecclesial Ministry requirement in the M.Div. curriculum.

Systemic and Historical Theology Courses: Spring 2021

TMST702001
The Church
GUIDER, MARGARET E
Spring 2021
The ecclesial dimension of Christian faith is the focal point of this course. The course will locate the church within both a Trinitarian theology and a theological anthropology. Specific topics for exploration include the place of the church in the Creed, the sacramentality of the church, a theology of mission, and of structure and authority. The course will also explore current issues shaping the church's life and its place in the wider culture.

TMST715101
Introduction to Patristic Theology DUNKLE SJ, BRIAN P
Spring 2021
This course presents the methods and insights of patristic treatments on the topics of theology through a study of major figures and texts. After an overview of the culture and context of the early church, we will treat patristic reflection on: Scripture, faith and reason, Christ, Trinity, the church, liturgy, ethics, and prayer. Authors and literature include, but are not limited to: Ignatius of Antioch, Justin Martyr, Irenaeus, Clement of Alexandria, The Martyrdom of Perpetua and Felicity, Origen, Tertullian, Athanasius, Basil of Caesarea, Gregory of Nazianzus, Gregory of Nyssa, Hilary of Poitiers, Ambrose, Augustine, and John Chrysostom.

TMST724701
Faith and Justice: Liberation Theologies in the U.S. VALENTIN, BENJAMIN
Spring 2021
Liberation theologies are modes of theological discourse that rethink the purpose of religious thought and practice by placing attention on distinctive experiences of injustice and inequality encountered by different individuals and social groups. Although the liberation theology movement is now a global one, the United States has been the birthplace of a good number of liberation theologies. This course examines the emergence, development, emphases, and methodologies of four of these, including African American/Black theology of liberation, feminist theology of liberation, Latino/a theology of liberation, and LGBTQ theology of liberation. Besides offering a solid introduction to liberation theology, the course analyzes basic concepts underlying theories of injustice, domination, and oppression.

TMST801101
Creation and Eschatology PALAZZI VON BUREN, FELIX J
Spring 2021
How does Christian faith invites us to imagine the relationship between "this world" and "the world to come"? How does that affect the way we live and work in the world? This course explores key biblical texts, Christian doctrine, and contemporary theologies. Special attention is given to the relationship between religion and science, especially biblical hermeneutics; evolution and theology; death, judgment, heaven, and hell; the significance of Christian faith in bodily resurrection; and the biblical and theological basis for concern for the environment and a creation-centered spirituality.

Theological Anthropology and the Body GRIFFITH, COLLEEN M
Spring 2021
Issues of embodiment relating to theology, spirituality, and ministry form the substance of this course. We will probe understandings of the body found in the historical Christian tradition and draw insights regarding human bodiliness from contemporary theology, philosophy, psychology, and social theory. Finally, we will examine the role of the body in lived Christian faith with a particular emphasis on spirituality, education, and pastoral care.

TMST806101
Theological Approaches to the Holy Spirit BROUILLETTE, ANDRE
Spring 2021
The twentieth century has witnessed a renewed interest in the theological understanding of the Holy Spirit (i.e., pneumatology) in Western Christianity. Great theologians, such as Yves Congar, Jurgen Moltmann, or Hans Urs von Balthasar, have devoted important works to this enterprise. Unlike Christ, who, as the Image of God, can more easily be represented and grasped, the Holy Spirit remains an elusive—though powerful—figure of God.

**TMTST812601**
**Synodality and Reforms in the Church Today LUCIANI, RAFAEL F**
**Spring 2021**
This course explores the theological and pastoral roots of synodality as a consequence of the process of reception and deepening of the Ecclesiology of the People of God in the Second Vatican Council. In this context, pastoral conversion and synodal conversion are key to understand today's ecclesial proposal of an inverted pyramid that overcomes clericalism and leads to a new way of proceeding in the Church that starts from below, from the sensus fidei fidelium, and then upwards. From this perspective, we are entering in a new phase in the reception of the Council and a renewed ecclesiology, an event that involves the reform of structures and processes. This demands a conversion in the ecclesial mentality, a revision of lifestyles, practices of communal discernment, and structural reform. Therefore, the course will present synodality as a constitutive and constituent note of the Church that embraces a major reform.

The twentieth century's legacy is marked by social conflict and war: more than 200 million people killed because of political repression, ethnic or religious wars. Enlisting a theological lens, this seminar examines the Christian resources and contribution to the problem of reconciliation. After examining the most important secular approaches to the problem of personal and social conflict, we will focus on the main Christian theologies of reconciliation, including the works of Robert Schreiter, Miroslav Volf, John de Gruchy, and Jon Sobrino. Their theologies will be examined through individual case studies of the Balkan region, South Africa, and El Salvador.

This course introduces students to basic social science research methods. The primary objective is for students to learn to read and evaluate research as well as create contributions to their chosen profession or field of research. By the end of the course, students will be more knowledgeable of basic research design and statistical methods. Additionally, students will better understand how to use research findings to improve and enhance their professional roles. Note: This course is required for all students who entered the MS in Administrative Studies Program AFTER June 1, 2014. Please see an academic advisor to ensure appropriate placement in courses.

Accounting and Financial Analysis I
WILLIAMS, JASON M
Summer 2020
This is the basic accounting course. Financial statements, fundamental accounting concepts, procedures, terminology, and contemporary financial reporting are introduced using state-of-the-art business software. The course develops a user perspective to accounting to better understand what the numbers say. Explores the accounting cycle, the various statements that are the product of the process and the implications the data carry. Reviews areas where alternative methods of reporting are allowed. Designed for those using, not preparing data. Little or no formal accounting background needed.

ADGR778501
Leadership and Decision Making: Ignatian-Based Applied Ethics
NOONE, GREGORY P
Summer 2020
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Leadership and Decision Making: Ignatian-Based Applied Ethics
NOONE, GREGORY P
Summer 2020
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Business Strategy
GUMM, JENNY A
Summer 2020
Strategy is how leaders distinguish the organizations advantage in competitive markets. It is a set of guidelines that help direct decision making and the allocation of resources to accomplish the company’s key business goals and objectives. To succeed in the future, leaders must develop the means and capabilities needed to gain and sustain these advantages. This course introduces the concepts of strategic management by using readings, discussion, and case studies. The key components the course will cover are: the three horizons of strategy: external environments (social, political, technological, and economic); global markets; internal Factors and Implications (capabilities, talent, resources); the role of Culture and Change Management.

Organization Theory and Design
BENT, LAUREN G
Summer 2020
Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private, and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

Human Resource Development
WILLIAMS, HEATHER
Summer 2020
This course focuses on employees and how to get the highest level of performance out of employees. What motivates your employees? What makes them want to stay? How do you prevent attrition? This course will start with an introduction to organizational design and relevant organizational development theories. It will then move to talent acquisition and employee training, where use of analytics and metrics will be introduced. Next, students will learn performance management methods and appraisal, including use of instruments and rating scales. The course will then move to career development and leadership development including assessing talent, developing career paths, and succession planning. The course will conclude by helping students understand the differences between coaching and mentoring, and how to effectively manage organizational talent.

Applied Research Project
HILES, ELISABETH A
Summer 2020
The Applied Research Project for Leadership and Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular M.S. specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Inclusive Leadership INGALLS, JUDITH A
Fall 2020
This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and ‘classic’ articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

Leader as Change Agent ARROWOOD, RICK J
Fall 2020
A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change: establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influence and change agent.

ADGR809001
Workforce Planning and Employment GUMM, JENNY A
Fall 2020
Strategic Workforce Planning takes a broad view of the organization to assure the right people and right skillsets are in place to drive strategy and reinforce culture. Key stakeholders are partners in the process to ensure adoption within the organization, and collaboration is necessary to drive alignment of people, process and technology. Workforce planning considers the balance between the current state, the organization’s evolution, and the desired future state. Finding that balance requires measuring the system, and evaluating both the internal and external environments. This course will help you think about how to assess organizations, learn to work with the organization’s strategy and culture to determine the key factors driving Workforce Planning, how to apply different frameworks, and to create a gap analysis between the current state.
ADGR820101  
**Applied Techniques: Software and Reporting**  
MUSSERIAN, LALIG J  
**Fall 2020**

The objective of the course is to provide students with an introduction into various Project Management tools and techniques for both waterfall and agile delivery approaches. We will then dive deeper into the most popular project management tools, such as Microsoft Project, TFS, and Jira, with hands-on exercises and in-class team projects so the students learn how to use the tools in a practical way. Additional topics will include Earned Value Analysis, Gantt Charts, Milestones, Troubled Project Analysis and Recovery, Project Management Office (PMO) and reporting, and properly matching the methods and tools to the particular project—and company—culture. Students will work in teams to create project plans and management reports, which will then be presented in class for feedback and comments. This will be an interactive, hands-on class, so we can practice waterfall and agile principles using the tools, and not just learn them from a theoretical perspective.

Inclusive Leadership RYAN, JOAN R
Spring 2021
This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and 'classic' articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

Leadership and Decision Making: Ignatian-Based Applied Ethics NOONE, GREGORY P
Spring 2021
What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

ADGR801001
Leader as Change Agent ARROWOOD, RICK J
Spring 2021
A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent.

Talent Management MCDONALD, BRIAN R
Spring 2021
Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in-class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in-class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

Organization Theory and Design BENT, LAUREN G
Spring 2021
Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private, and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

ADGR811001
Agile Methodologies MUSSERIAN, LAILIG J
Spring 2021
Companies that produce software are increasingly turning to agile development practices to help them stay competitive. Strategic project management is focused on the rapid and repeatable delivery of software, speed to market and risk mitigation as part of the project management process. Project Managers and project teams need to become well-versed in Agile practices and the highly collaborative and iterative methods which have made Agile and experienced “Agilists” in high demand. This course starts with an overview for project managers and project teams on a variety of Agile methods, followed by a deeper dive into the most popular Agile process called Scrum. We will cover a prescriptive methodology for “Scrumming,” with activities grouped into categories of People, Process and Technology within the 3 requirements for the successful implementation of projects with Scrum. For each phase, we will review a set of inputs and outputs, definitions and common terminologies, tips for success, inputs and outputs and the various Scrum ceremonies for a comprehensive course on running a Scrum project. This will be an interactive, hands-on class, so we can practice Scrum principles and not just learn them from a theoretical perspective.

Marketing Analytics BAKER HEARLD, KRISTINE R
Spring 2021
As industries become increasingly competitive, companies rely more and more on marketing to attract buyers and prove the value of their spend from brand awareness to impact on revenues. Doing so in today’s digital world requires a clear understanding and management of metrics and analytics. The Internet promises to revolutionize the dynamics of international commerce and permits new types of measurement tools that will expand the data available to marketers, including advertising measurement and customer profiling. This course will provide students with the main tools to lead marketing performance and help them answer key questions such as: How can I lead marketing performance by designing the appropriate metrics? What are the most important marketing metrics and analytics for me to use? How can I measure my various marketing programs’ impact on revenue and profit? How can I best communicate marketing results with my executive team and board?

ADGR820001
Social Influence RIVERAS, JORGE
Spring 2021
The Social Influence course is designed to give students a comprehensive approach to understanding social influence marketing. Consumers can be influenced not only for buying products or services but to assume certain attitudes, particular behaviors, or decisions. Social media in its different forms employs multiple tools and strategies to impact the social norms, values, and beliefs. This new field of marketing encompasses different domains such as culture, consumer behavior, social media, social phycology and its subset of persuasion. Dividing the course in 5 distinctive modules offers the possibility to first cover the determinants of the system of values and norms that are shared among a group of people. Then, the external and internal factors influencing consumers before focusing on the different techniques employed by different media outlets. Through lectures, discussions, case studies, and current news, students will learn and apply various theoretical frameworks to analyze the process of influencing an audience.

ADGR830101
Foundations/Fundamentals of DEI CARTER, KAREN H
Spring 2021
Students will begin to understand the business case for DEI, major laws and policy related to DEI history. Rooted in critical race theory, the course will examine systemic contexts around social justice and social change, language and terms, difference between diversity and inclusion, what equity means, the concept of privilege and power differentials (dominant vs. non-dominant concept), and analyze current events (e.g., statistics around representation of diverse groups in the workforce). The course will look at major groups and understand some of the challenges that each faces (age, race, sexual orientation and identity, gender, and ability) and go deep by exploring each group's most common challenges and barriers, e.g., for POC, understanding concepts like Imposter Syndrome, Covering). Finally, the course will explore DEI business use cases.

Bias in the Workplace LOWE, PATRICIA N
Spring 2021
Understanding bias is critical to one's ability to "rewire the system to rewire behaviors" to make sustainable change. This course will examine Implicit Bias, Gender Bias, Cognitive Biases, Affinity Bias, Confirmation Bias, etc. In addition to broad topics of bias, course will examine emotional intelligence, self-awareness, self-knowledge, and empathy. The course will incorporate cases on bias in the workplace and give students practice on how to identify bias and how to develop strategies to mitigate bias. The course will also explore how bias impacts decision-making, especially in areas such as leadership, conflict resolution, and strategy formulation.

Applied Research Project GUMM, JENNY A
Spring 2021
The Applied Research Project for Leadership and Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular M.S. specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Biology Courses: Summer 2020
ADBI301001
Energy in the Twenty-First Century COLE, JENNIFER S
Summer 2020
Oil, gas, and coal have historically provided the foundation of our domestic and global energy needs. It is becoming increasingly apparent that, to attain a sustainable society, we must shift away from these polluting, non-renewable fossil fuel resources. Alternative energy sources are non-polluting and renewable and are therefore logical
replacements. Some are confused, however, as to why more progress hasn't been made towards phasing out fossil fuels and transitioning to alternative energy. This course will delve into the benefits and cons of fossil fuels, as well as the stumbling blocks to implementing the following alternative energy technologies: hydropower, wave power, biomass, solar, geothermal, wind, hydrogen and nuclear energies. Science, technology, policy, and societal concerns will be discussed in a seminar style where students are responsible for researching and presenting each type of energy. We will also discuss the "smart" use of energy, as well as the storage, transportation, housing, and consumption of energy. Our class will include a discussion of creating potential policies for the expedited phasing in of alternative technologies, including regional, strategic, health, safety, and environmental concerns. Students will leave this course with a depth of understanding of the technological obstacles to alternative energy but also will have a clear understanding of the pressing nature of this transition.

**Fall 2020**

Through technology and our growing population, humans are altering the planet at rates much faster than Earth can adjust to the changes. The health of the planet and of its human population is increasingly intertwined. In this course we'll explore areas where the human species is causing long-term alteration to the Earth’s systems by consuming and impairing our planet's natural resources. We will look at the problems we face in managing limited resources in a technological age and rapidly growing world, the natural processes with which we interact, the waste we generate, and the pros and cons of various potential solutions to these problems. We'll survey issues that are critical to the future of humanity.

**Human Performance Systems Analysis**  
**JOHNSON, TRISTAN**  
**Summer 2020**  
The field of human performance technology involves the analysis of systems and organizations as a prerequisite for the development of interventions to improve performance in the workplace. HPT analysis is designed to cover the key tasks that are involved in the analysis of performance systems. Students are introduced to the theoretical foundations of the field. Over the semester, students will carry out a performance systems analysis (PSA) project while learning about various HPT models. Students will interact with a client and participate in meetings, presentations, observations, and communications relevant to their project. This course is designed to provide the foundational information and activities to develop the skills necessary to be successful in completing performance systems analysis in a variety of settings. While the class will focus on a narrow domain, the skills learned in the course can be applied in a variety of domains.

ADCO177101
Applied Data Analysis and Interpretation HAY, DANIEL C
Fall 2020
This course will introduce students to the basics of data analysis and interpretation. Students will critically engage with actual data from across disciplines in order to develop their own interpretations of the underlying meaning. We will explore how these skills can apply to making decisions in academic, professional, and community contexts. The skills developed and practiced here will assist the students in critically evaluating and drawing meaning from data as well as making well-informed decisions from that data.

Communication Courses: Spring 2021

ADCO114301
Corporate Communication WHALEN, MARTHA A
Spring 2021
In a globally competitive and technologically advanced world, the ability to convey ideas and persuade diverse audiences is critical for professional success in any organization. This course offers exposure to numerous communication needs and strategies to address various corporate stakeholders. The course focuses on honing students’ written and oral presentation skills to target these corporate audiences—it presents suggested types of communication for each, based upon situations and circumstances.

Public Relations HENNESSEY, SEAN M
Fall 2020
This course is designed to be an examination of the technical, counseling, and planning elements in public relations. Attention in the course will focus on public relations campaigns, non-profit public relations, and the often complex relationship between management strategies and promotional objectives. Emphasis will also be placed on developing proper writing techniques for public relations. Included among the writing assignments will be a press release, planning statement, contact sheet, and a press kit.

Research: Techniques and Processes DEPARTMENT
Fall 2020
Recommended as the first course, it examines the logic of research design and explores how data are approached, collected, and analyzed in an interactive information age. Practical applications across disciplines introduce both the electronic and traditional tools and techniques necessary to interpret and utilize findings. Cases and presentations prepare students to analyze, evaluate, and challenge specific applications and to suggest alternative interpretations. Online databases, the WWW and the internet expand options.

Leadership and Innovation RYAN, EDMOND F
Fall 2020
Positioning organizations and individuals for success amid volatile global financial, economic, technological, and political uncertainty demands principled, insightful leadership as well as imaginative, innovative, and operational expertise. This course examines disruptive sources (including fraud, scandals), the accelerating pace of change which renders past experience and knowledge insufficient, and the need for leaders making decisions about the future to think and behave like innovators. The focus is on creating open optimistic climates that engage employees, develop skills and talents, and promote continuous knowledge sharing, smart work designs, and creative problem solving. The course explores strategies critical to influencing performances and implementing customized responses to motivation, morale, and performance issues.

Introduction to Criminology EVANS, WILLIAM B
Summer 2020
This course provides an introduction to the study of crime, deviance, and the criminal justice system. Specifically, this course is a survey of the causes and effects of criminality (sociological, psychological, biological, etc.) and the means taken to cope with criminal behavior. Emphasis is placed on the social context of crime, including examination of how different types of crimes relate to theory. Finally, the course will look ahead into the future of criminal theory.

Inside-Out: Perspectives on Crime, Corrections, and Justice DELSESTO, MATTHEW J
Summer 2020
This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the integration of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. For most sessions, class will meet at the Suffolk County House of Correction. Due to the unique nature of this course, registration is by application only. For more information and to obtain an application, please e-mail: delsesma@bc.edu.

ADJC210101
Corrections: Policies and Practices PAXSON, PEYTON J
Spring 2021
The United States incarcerates more people than any other country in
the world. This is due largely to cultural principles about the role of the individual
in society and the belief that people freely make the choices that they make.
Yet few American prisoners are successfully rehabilitated; nearly two-thirds of
current prisoners have been previously incarcerated for other crimes. This
course examines historical correctional policies and practices to understand
the current status of the correctional system and investigates emerging
correctional paradigms designed to better prepare criminal offenders for
successful reintegration into society.

**ADCY681001**
Cybersecurity: Designing Offensive and Defensive Capabilities MAOR, ETAY
Summer 2020
This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of countermeasures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

Ethical Issues in Cybersecurity and the Ignatian Paradigm HURLEY, DEBORAH
Summer 2020
Course provides "real life" complex, ethical situations for students to evaluate, as both decision- maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-malefice; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities. Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

Spring 2021
Course provides a comprehensive understanding of the fundamentals of risk management and applies them to the cyber security and digital risk management environments. It addresses methodologies for comparing digital risks and deciding between acceptance, mitigation, risk transfer, and avoidance. The course compares popular methodologies for quantifying, comparing, and categorizing digital risks. It includes specific topics such as Risk and Control Self-Assessment (RCSA), Risk Appetite Statement (RAS), Risk Tolerance metrics, Three Line Defense Model, Risk Register, Third-Party Risk Management, and Factor Analysis of Information Risk (FAIR). Participants attending this course will be introduced to a broad spectrum of risk management principles, learn how to apply them in cyber security and digital environments, and immediately be able to contribute to cyber risk management using a risk management toolbox learned in this course that is applicable across a wide scope of business, government, academia, and beyond.

ADCY695501
Applied Research Project For Non-Profit Organizations
MISATA, KELLEY
Spring 2021
This course provides students with hands-on experience in the development, delivery, and results analysis of an information and cybersecurity assessment process for local, non-profit organizations. The assessment tool that will be used is a prototype based on the NIST Cybersecurity Framework (CSF). Students will explore how NIST CSF maps to other well-known assessment frameworks including NIST SP800-53, NIST SP800-171, COBIT 5, and ISO 27000.
Students will review the assessment tool and other research through the lens of the non-profit environment. Students will complete a controlled assessment of a local non-profit, which will help them develop skills in assessing, through the lens of information and cyber security, a business environment. Students will utilize these skills in bridging the gap between technical jargon and non-technical audiences by preparing and presenting their assessment findings to the executive leadership of the assessed non-profit. Students will gain a practical ability to perform an information/cybersecurity risk assessment along with the process of developing and delivering the assessment as a part of the students' learning.

Economics Courses: Summer 2020
ADEC251001
Mathematics for Economists
GERRAUGHTY, LORIN E
Summer 2020
This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for M.S. in Applied Economics program.

ADEC736001
Financial Economics KOWALIK, MICHAL K
Summer 2020
This course teaches the practical application of finance theory to decisions made in industry. We will learn how individuals and firms choose investment portfolio decisions under uncertainty with a particular focus on topics such as the capital asset pricing model, market imperfections, borrowing constraints, market efficiency and security valuation. Understanding how interest rates, exchange rates, and risk work will aid your understanding of multiple firm problems such as why does a firm choose a specific investment or place of manufacturing. In addition, studying term structures and discounted cash flows are important to understanding the decision to invest over time.

ADEC738001
Empirical Health Economics BOWSER, DIANA M
Summer 2020
At its root, the study of health economics is the study of market failure and of government failure. We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries. We will use economics to explore how firms in the health care sector should behave, given the sometimes perverse incentives they face. As the course progresses, our emphasis will shift: in small groups, students will complete and present a data-driven (or empirical) project investigating a question relevant to healthcare providers, pharmaceutical companies, insurance companies, and/or government regulators. Skills developed in this class will allow students to think critically about incentives present in health care settings, analyze various types of health care data, and present ways to improve the performance of different players in the health care industry.

ADEC739001
Empirical Money and Banking KAZEMI, HOSSEIN S
Summer 2020
This course focuses on a study of money, banking and financial markets with a clear emphasis on central banking and conduct of monetary policy. An in-depth analysis of fixed income markets in addition to equities and other financial instruments in this course provides students with the opportunity to master intricacies of financial markets and investing in them. Additionally, the connection between movements in the financial markets and monetary policy is examined on a daily basis. An extended use of Bloomberg Professional LP in this course makes this very applied class particularly valuable to anyone interested in bridging the gap between the economic theory and practice.

ADEC746001
Predictive Analytics/Forecasting FULTON, LAWRENCE V
Summer 2020
This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750001
Ethics, Economics, and Public Policy MC GOWAN, RICHARD
Summer 2020
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to
establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC754001
Marketing Analytics for Economists AFFINITO, LETIZIA
Summer 2020
Specifically designed for Economists, this course will enable students to use analytics to improve marketing performance and lead marketing efforts. Students will be able to answer key questions such as: How to design the appropriate metrics and analytics to monitor/improve marketing efforts? How can I measure my various marketing programs' impact on revenue and profit? How can I clearly define the business problem? How can I better understand the company goals? How can I communicate insights, not just facts? Which are all the relevant drivers (e.g., marketing and environmental factors) and outcomes (e.g., purchase funnel metrics) and how do they work in marketing? Which tool, of the many available, is best for which problem? In studying a range of firms across a range of contexts and industries, the course builds on recent advances in statistical software and organizational economics. We use a number of cases and real life examples/simulations to discuss each of the points presented in the course. As such, the course ultimately is designed to focus on understanding the primary topics and problems of Marketing Analytics as experienced by business managers in real life situations.
Ultimately, the course will emphasize two kinds of skills: Analytical skills, which are required for Marketing Analytics; and "soft" (i.e., leadership) skills, which are required for implementation.
The course will begin with the analytical skills and then move on to implementation issues.

Software Tools for Data Analysis ARLASHIN, ANATOLY S
Summer 2020
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools—spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

ADEC737001
Applied Stress Testing for Economists ROELANDS, SEBASTIAAN
Fall 2020
Since the financial crisis of 2008, banks and bank holding companies in the United States have faced increased regulation. One of the recent changes to these regulations is known as the Comprehensive Capital Analysis and Review (CCAR). At the center of these new regulations, specifically under the Dodd-Frank Wall Street Reform and Consumer Protection Act and the stress tests it mandates, are a series of "what-if" or "scenario analyses" requirements provided by the Federal Reserve. In this course we will examine these new regulations and build models which help to satisfy these requirements and will build both "bottom-up" and "top-down" models which incorporate external economic scenarios. We will also spend time with the creation of these scenarios. The final project will involve presenting results to experienced banking professionals. Experience with some statistical computing software is required (R, Stata, or eViews).
Credits: 03

ADEC741001
Operations Research in Applied Economics BASTIAN, NATHANIEL D
Fall 2020
This course provides an introduction to the use of operations research methods in economics. For this purpose, the course starts with a brief review of the basics from microeconomic theory, calculus and linear algebra, which is followed by the conceptual foundations of economic modeling and the applications of optimization techniques on various economic problems. The course provides a very sound perspective on how to use operations research techniques in any kind of economic and managerial decision making, which has been becoming increasingly sought after skill. We will work on various problems, including portfolio management, resource management, environment and energy related regulations, etc.

Ethics, Economics, and Public Policy DEPARTMENT
Fall 2020
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC752001
Transfer Pricing SARAVIA, ANTONIO
Fall 2020
Transfer pricing involves the valuation of goods, services, and other assets exchanged between affiliated companies. Based on economic principles and governed by the U.S. tax code, international transfer pricing has continued to be a focal point for both multinational companies and tax authorities as a means to evaluate the allocation of income resulting from intercompany transactions conducted across borders. This course will include an introduction to basic tax and transfer pricing concepts, accounting and financial statement analysis, and an application of economic principles underlying transfer pricing analysis. Students will use real case studies and work in groups to consider the economics associated with conducting an international business, and apply transfer pricing methods to develop and support their analysis.

ADEC781001
Empirical Behavioral Economics DEGEEST, LAWRENCE R
Fall 2020
Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

ADEC782001
Economics of Innovation and Entrepreneurship SILE, AYSE E
Fall 2020
Innovation and entrepreneurship have been the key drivers behind economic growth across developed economies and even more so in the U.S. However, innovations and entrepreneurship develop under a high degree of risk and uncertainty and, in most cases, rupture existing structural and traditional patterns and practices. Economic policies along with regulation set the incentives for innovation and entrepreneurship. Intellectual property rights and competition ensure that innovators receive a fertile and collaborative market structure to reach their potential.

Software Tools for Data Analysis ARLASHIN, ANATOLY S
Fall 2020

Status: OPEN
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools—spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

ADEC738001
Empirical Health Economics BOWSER, DIANA M
Spring 2021
At its root, the study of health economics is the study of market failure and of
government failure. We will begin the course by studying the ways in which incentives
facing players in the health care industry are different from those present in other
industries. We will use economics to explore how firms in the health care sector should
behave, given the sometimes perverse incentives they face. As the course progresses,
our emphasis will shift: in small groups, students will complete and present a data-
driven (or empirical) project investigating a question relevant to healthcare providers,
pharmaceutical companies, insurance companies, and/or government regulators. Skills
developed in this class will allow students to think critically about incentives present in
health care settings, analyze various types of health care data, and present ways to
improve the performance of different players in the health care industry.

ADEC743001
Big Data Econometrics VELICHE, RAIZVAN
Spring 2021
This course demonstrates how to merge economic data analysis and applied
econometric tools with the most common machine learning techniques, as the rapid
advancement of computational methods provides unprecedented opportunities for
understanding "big data." This course will provide a hands-on experience with the
termology, technology, and methodologies behind machine learning with economic
applications in marketing, finance, healthcare, and other areas. The main topics
covered in this course include: advanced regression techniques, resampling methods,
model selection and regularization, classification models (logistic regression, Naive
Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based
methods, support vector machines, and unsupervised learning (principal components
analysis and clustering). Students will apply both supervised and unsupervised
machine learning techniques to solve various economics-related problems with real-
world data sets. No prior experience with R or Python is necessary.
Credits: 03
Room and Schedule: ONLINE COURSE; ASYNCHRONOUS; SPRING 1.; JAN 28-MAR 21.;

ADEC746001
Predictive Analytics/Forecasting BRADLEY, ROBERT J
Spring 2021
This course will expose students to the most popular forecasting techniques used in
industry. We will cover time series data manipulation and feature creation, including
working with transactional and hierarchical time series data as well as methods of
evaluating forecasting models. We will cover basic univariate Smoothing and
Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-
Winters, Unobserved Components Models and various filtering methods (Hodrick-
Prescott, Kalman Filter). Time permitting, we will also extend our models to
multivariate modeling options such as Vector Autoregressive Models (VAR). We will
also discuss forecasting with hierarchical data and the unique challenges that
hierarchical reconciliation creates. The course will use the R programming language
though no prior experience with R is required.

ADEC755001
Measuring Business Cycles, Trends and Growth Cycles OZYILDIRIM, ATAMAN K
Spring 2021
This course will focus on the measurement and analysis of business cycles with a special emphasis on business forecasting. Leading indicators are used as forecasting tools to predict when economies move from expansion to recessions and vice versa. Taking an applied empirical approach, we will cover data and tools used for analysis of short term conditions. While business cycle analysis is concerned with short-term fluctuations, understanding the long-term growth path of an economy is important to interpret short-term movements. Applications of trend estimation methods will also be covered. We will study cycles in developing economies which have experienced long periods of continuous growth. Our focus is on important economic indicators and a discussion of data issues such as price indexes, deflation, and seasonal adjustment. How can these indicators be applied and interpreted to understand short term trends in the economy? How can they assist in economic and business decision making?

ADEC754001
Marketing Analytics for Economists AFFINITO, LETIZIA
Spring 2021
Specifically designed for Economists, this course will enable students to use analytics to improve marketing performance and lead marketing efforts. Students will be able to answer key questions such as: How to design the appropriate metrics and analytics to monitor/improve marketing efforts? How can I measure my various marketing programs’ impact on revenue and profit? How can I clearly define the business problem? How can I better understand the company’s goals? How can I communicate insights, not just facts? Which are all the relevant drivers (e.g., marketing and environmental factors) and outcomes (e.g., purchase funnel metrics) and how do they work in marketing? Which tool, of the many available, is best for which problem? In studying a range of firms across a range of contexts and industries, the course builds on recent advances in industrial organization and organizational economics. We use a number of cases and real life examples/simulations to discuss each of the points presented in the course. As such, the course ultimately is designed to focus on the essential topics and problems of Marketing Analytics as experienced by business managers in real life situations. Ultimately, the course will emphasize two kinds of skills: Analytical skills, which are required for Marketing Analytics; and “soft” (i.e., leadership) skills, which are required for implementation. The course will begin with the analytical skills and then move on to implementation issues.

ADEC784001
Management of Projects in Applied Economics SILE, AYSE E
Spring 2021
From an economics perspective, the success of a project mostly relies on the maximization of profit to allow for reinvestment and further growth and profits. The course will focus on best practices that enable the successful implementation of and excellence in project management with a focus on economics. The course also discusses the technical, cultural, and interpersonal skills necessary to successfully manage projects from start to finish. It emphasizes that project management is a professional discipline with its own tools, body of knowledge, and skills. Concepts are reinforced by case studies covering a wide variety of project types and industries.

ADEC791001
Software Tools for Data Analysis ARSLASHIN, ANATOLY S
Spring 2021
The course provides students with an overview of popular software packages used today for data exploration, analysis, and visualization. The first part of the course will offer an overview of the non-programming tools—spreadsheet/Excel and Tableau. In Excel we will cover basic method, tools, charts, with the emphasis on pivot tables. In Tableau students will be introduced to data collection, exploration, and visualization methods. The second part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter, and arrange the data. The third part of the course will cover basic data analysis in statistical software packages Stata and R. Here students will learn how to write their own code for importing, cleaning, and exploring large datasets, as well as how to create, modify, and export complex charts and summaries for visual, qualitative, and quantitative analysis of the data.

ADEC792001
Market Research and Analysis SILE, AYSE E
Spring 2021
Market research is the systematic gathering and interpretation of information and data using the statistical and analytical methods and techniques of the applied economics and statistics to gain insights or support decision making. This course will provide you with the skills and tools needed to understand and evaluate market research. Market research and analysis involve developing research questions, collecting data, analyzing it and drawing inference, with a view to making better decisions. To this end, the course is organized into two basic parts: (1) Data collection and research design, and (2) Tools and applications of research and data analysis. The course will provide a framework for conducting research, knowledge to properly design research, techniques and tools to analyze data and infer insights, and practical information sources.

ADEN132601
Shakespeare I— The Author and His Times: Comedies and Dark Humor DEBUSCO, ANDREA C
Fall 2020
In this study of selected plays from the Shakespearean canon, we shall learn that his comedies are far more than "the plays which end in marriages." As our cornerstone, students will understand Elizabethan culture, and become familiar with Renaissance theories of love (including Plato, Christian ideals, and courtly love). We will also examine the deft use of humor in the plays, including the roots of what we enjoy in contemporary comedy: puns, double entendres, gender confusion, and slapstick physical comedy. Finally, we will analyze darker themes shared in common with his tragedies: oppression, the dangers of urban life, loneliness, marginalization and social injustice. We will evaluate selected plays as exemplars of his best work: A Midsummer Night's Dream; The Tempest; Much Ado about Nothing, and one darkly humorous tragedy—Hamlet.

ADEN139001
Global Literature SARR, AKUA
Fall 2020

Global literature goes beyond the notion of the globe as a physical geographic entity and transcends national boundaries to comment on the most prevailing aspects of the human condition. This course will attempt to redefine the borders of the world we live in through narratives that recognize the many conflicting issues of race, language, economy, gender and ethnicity, which separate and limit us, while also recognizing that regardless of the differences in our stories, we are united by our humanity.

Through literature, students will journey across continents, countries, cultures and landscapes, to reflect on various renditions on the human experience. Writers will include: Aravind Adiga (India), NoViolet Bulawayo (Zimbabwe), Edwidge Danticat (Haiti), Yu Hua (China), Dinaw Mengestu (Ethiopia), and Marjane Satrapi (Iran).

ADEN1382501
Women in American Literature NORWOOD, KELSEY E
Fall 2020
In this course, we will examine diverse representations of women's lives in American literature, building connections between representation, culture, and literary form. We will read texts about and by women across different genres and mediums ranging from poetry to prose, novel to film, and sentimental fiction to modern drama. Through the work of close reading, we will consider how language and form facilitate nuanced representation of women's experiences in ways that still resonate with readers today. In addition to traditional assignments, this course will include a final creative project in literary adaptation designed to draw connections between a course text and contemporary women's issues.

Geology Courses: Summer 2020
ADGE116301
Environmental Issues and Resources GALLI, KENNETH G
Summer 2020
Hybrid Core Course includes three themes: (1) Intro to Environmental Geology, (2) How to write well and how to write field trip reports, (3) How to use Google Earth to understand Earth Materials and Processes. Learn about the major processes at work inside and on the surface of the earth. Learn to be a careful observer and to write succinct field trip reports, through two field trips and the writing of a field trip report. Each class is designed to examine the facts, historical background, and through in-class exercises, homework and field trips, provide experience in analyzing and solving real-world problems associated with environmental issues, resources and sustainability. Demonstrations, videos, readings and several field trips underscore important concepts and applications and the importance of careful observation. Online Google Earth exercises, done remotely, will introduce the power of geographic application to understand geology.

ADHA7001001
Health Policy BESHANSKY, JONI
Summer 2020
Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protection and Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursements and regulation of individuals, insurers, and medical and healthcare organizations.

Healthcare Innovation-Based Strategy: Managing Change SMITH, KAREN M
Summer 2020
This course examines how organizations can innovate and adapt to the ever-evolving needs and demands of a dynamic competitive and regulatory health care environment. To do so, the course explores how organizations identify innovations, the factors that affect the adoption and implementation of innovations, and evaluating whether these innovations had their intended effect on organizational performance.
ADHA704501
Health Analytics for Decision Making and Critiquing and Assessing Evidence
BAKER HEARLD, KRISTINE R
Summer 2020
In today's highly competitive healthcare environment, data-driven decision making is key to ensuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

ADHA704501
Health Analytics for Decision Making and Critiquing and Assessing Evidence SIBLEY, ERIN M
Fall 2020
In today's highly competitive healthcare environment, data-driven decision making is key to assuring quality, increasing access, and minimizing cost. In an industry focused on evidence-based practices, healthcare managers must be able to use analytic tools and methods to critically evaluate care and practice to better inform decisions. Tomorrow's leaders must be able to make decisions based on research, evidence, and data to inform continuous improvement and innovation. The course will review data analysis principles and statistical analysis (e.g., probability, regression modeling, decision science, predictive forecasting, and time series analysis. Students will conduct data analyses and use results to make decisions. Students will focus on how to analyze and interpret data to optimize the decision-making process and assure evidence-based management practice.

ADHA705001
Healthcare Information Technology STETTHEIMER, TIMOTHY D
Fall 2020
This course explores the critical role of e-health and information systems in the planning, operation, and management of healthcare organizations. Students will learn how to assess and evaluate health information systems and business requirements in a variety of settings such as health systems, hospitals, and medical practices. Students
will develop skills in healthcare technology implementation design that addresses such industry-specific requirements as translating HIPAA and other regulations into specific technology decisions while implementing medical systems (EMR, lab, clinical services, medical database providers, etc.). Students will also learn how to manage multi-institutional relationships as they are expressed in technology implementations, including the many vendor configurations but also cross-provider organization relationships. Specific topics include data and systems integrations, communications protocols, security standards, procurement, and authentication and authorization.

**ADHA701001 Health Policy**  
**RYAN, KATHLEEN M**

**Spring 2021**

Federal and state-level healthcare policies affect a wide range of issues, including access to care, quality, cost, and modes of delivery. Effective healthcare managers must interpret and anticipate a changing policy landscape, and strategically apply that interpretation as part of the process of organizational planning and execution. In this course, the social and economic implications of contemporary healthcare policies are explored. Emphasis is placed on how public policy (e.g., Patient Protections and Affordable Care Act of 2010) influences human resources/capacity, values, needs, reimbursement and regulation of individuals, insurers, and medical and healthcare organizations.

ADHS108101
Modern History I MENKE, MARTIN R
Fall 2020
Survey of the great ideas of the Western tradition from the Renaissance to the French Revolution. The focus is on the rise of the modern state in Germany (Holy Roman Empire, Treaty of Westphalia), England (Glorious Revolution and the roots of constitutional rule), and France (Divine Right Absolutism), the relationship of religion and politics (which suffers more, religion or politics?), and early modern European culture (Renaissance, Baroque, Rococo, Classicism) as well as Europe's interactions with Asia, Africa, and the Americas. Each class consists of a slide lecture and primary source-based discussion.

ADHS112501
Diplomatic U.S. History PAUL, MICHAEL G
Fall 2020
An overview of the main developments of United States diplomatic history from its earliest beginnings to the present day. A look at how United States foreign relations emerged from revolutionary impulses to become a significant feature of American life. Uncovers the underlying trends during this period to see how the U.S. emerged itself from a collection of thirteen colonies into a major superpower. Issues of class, gender and race are at the fore as we discover how the United States came to integrate itself into the world community of nations.

History of U.S. Expansion, 1783-1917 BLAKELEY, BRYAN J
Spring 2020
This course will introduce students to the history of U.S. expansion across the North American continent and into the Pacific and Caribbean. We will investigate how a group of disparate former British colonies hugged the Atlantic seaboard conquered and colonized a vast area, using sources from the inhabitants of the lands that eventually became part of the U.S. as well as the Anglo-Americans on the front lines of expansion. We will attempt to understand the often violent encounters between established cultures and Anglo-Americans, including almost constant war with indigenous Americans, the War of 1812, the Mexican-American War, and the Spanish-American War. We will pay specific attention to the fundamentals of historical inquiry, including interpreting primary sources, putting them in historical context, and crafting historical arguments. Counts as History Core for Woods College degree students.

Development of the Pre-Modern World PAUL, MICHAEL G
Fall 2020
In this course, we will trace the development of our pre-modern world society, from Neolithic hunters and gatherers to Early Modern global explorers and scientists. Why did humans shift from a nomadic to a settled lifestyle and how did this facilitate the rise of the first great civilizations of Mesopotamia, Egypt, China and the Indus Valley? We will also focus on the contributions of, and interactions among, the critical civilizations of Greece, Rome, Byzantium, the Middle East, Sub-Saharan Africa, and the Americas, as well as the roots of our contemporary global religions, including, Judaism, Christianity, Buddhism and Islam. While this time period featured incredible ingenuity and technical advancements, it also witnessed catastrophic natural disasters and man-made conflicts that combined to dramatically reshape the course of human progress and lay the foundations of our modern world.

Atlantic Worlds BAILEY, MICHAEL T
Spring 2021
This class investigates the religious, economic, cultural, and political changes of an increasingly entangled Atlantic as its many “worlds” converged into an Atlantic world over the course of four centuries, from 1400-1800. It explores how Europeans, Africans, and Native Americans came into contact with one another and their varied spaces, biodiversity, and commodities, inspiring either conflict, negotiation, coordination, adaptation, or frequently all of the above depending on particular historical circumstances. Our tasks are to examine what happened, why such things happened, and how the changes were significant then and now.

ADHS132101
Government, Globalism, Capitalism: A History PAUL, MICHAEL G
Spring 2021
This course involves a comprehensive survey of the connection between politics, economics, and internationalism, and the effects of this connection in the development of World History. In particular, the course takes an in-depth look at the beginnings of capitalism in the sixteenth century; at how capitalism affected, and was affected by, the growth of the nation state; and at how capitalism became the dominant economic, social, and, in some cases, the religious belief system for many countries, particularly those in the West. We will also look at how the concept of capitalism has fared against global challenges from newer political/economic/religious ideologies such as Socialism, Marxism, Communism, Fascism, and international terrorism. And, finally, we hope to identify just how the theory and practice of global capitalism has proven to be so resilient, despite its evident flaws, to the extent that it remains one of the major forms of economic, cultural, social, and political systems practiced by many countries in the world today. Throughout this course, issues of race, gender, class, nationality, religion, and age will be to the fore, as we strive to discover how the world came to be as it is today.

ADHS179101
Modern World BLAKELEY, BRYAN J
Spring 2021
This course introduces students to the dynamic history of Latin America and the Caribbean. Starting with an examination of the wide range of indigenous cultures that flourished before the arrival of Europeans and progressing through the twentieth century, we will explore the histories of imperial rule, wars of independence and decolonization, nation-state development, inter-regional connections and conflicts, and global political-economic structures. We will also investigate selected country histories in more detail in order to provide a deeper look at this amazingly diverse region. Along the way we will use the interpretive lenses of race, gender, social class, and religion to examine events, and we will hear directly from a range of individuals by reading historical documents. We will pay specific attention to the fundamentals of historical inquiry, including interpreting primary sources, putting them in historical context, and crafting historical arguments.

ADHS184801
Women and Gender in World History MILLER, MARLYN L
Spring 2021
This course covers the major events in the history of the modern world (roughly 1450-1990) through the lens of gender in order to discover the way gender shapes political, intellectual, religious, economic, and social developments; how it intersects with race, class, sexuality, and relations of power; how it is differently understood and employed in various cultural and historical contexts; and how contact between peoples and their cultural and political systems changes understanding of gender roles. It will look at topics such as the development of the family, female rulership, religion and gender, gender in colonial and imperial contexts, gender and slavery, masculinity in nationalism and war, and changing ideas of gender in the twentieth century. Students will be asked to work with primary source material to craft historical arguments.

Information Technology Courses: Summer 2020
ADIT130001
Coding Boot Camp MIKOLAJCZAK, BARBARA J; WALSH, AARON
Summer 2020
During this two-week summer coding boot camp (which is followed by self-paced online exercises to be completed at your own pace, on your own schedule, through the end of July) students are taught the fundamentals of coding using HTML, the markup language that every Web site and many mobile phone apps are built with, and the industry-standard JavaScript programming language. Designed specifically for individuals who have never programmed before (or have very little prior experience), this camp teaches participants how to create their own Web sites from scratch and how to bring them to life with JavaScript. No auditors.

Information Technology Courses: Fall 2020

ADIT135001
Introduction to Programming OLIVA, RAMIRO
Fall 2020
This course teaches students the fundamental concepts of programming (coding). First we will define what a programming language is and then we will learn its grammar and syntax. We will learn about variables, conditionals, and iteration. We will also learn about arrays, functions, and objects. We will use the industry-standard JavaScript programming language to put into practice all of these concepts. Designed specifically for individuals who have little-to-no programming experience, this course teaches participants in a project based environment how to code JavaScript, the language of the web. During this course students will: (1) Learn how to think of problems logically and computationally, (2) Use programming tools to express themselves creatively as they learn the fundamentals of coding, and (3) Create real-world applications. No auditors.

Data Visualization DEPARTMENT
Fall 2020
In today's information age with ever pressing demand for data skills, data visualization becomes a critical component of data science. By utilizing visual presentations, data visualization achieves an effective way of communicating insights from data, identifying hidden data patterns and trends, and telling the full story behind data. In this course, students are introduced to the foundations of data visualization along with various data visualization tools. We will introduce the key design principles, how to present data using a number of common data visualization tools (such as Excel and Tableau software). This course will provide students from all backgrounds the opportunity to learn data skills and have hands-on experience working with various datasets, creating visualizations and telling data stories. Students will develop data visualization skills that can be applied to their fields of study and future career. Topics covered include best practices in use of color, visualization principles, static and interactive visualizations, visualization types, and others.

ADIT330801
Project Management CANN, SCOTT
Fall 2020
Participation in IT projects can happen from a variety of angles; from individual contributor, to project team member, to project manager and executive sponsor. As such, this course will take a 360-degree perspective on project management, incorporating the important peripheral elements that influence the discipline. This course will help students develop practical skills for functioning in a variety of roles on projects, including project manager, while developing an appreciation for the importance of governance and project portfolio management (PPM) in an IT environment, looking at the concept and the practice of projects from the perspective of participant, practitioner, and executive sponsor.

ADIT136001
Database Management RUSSO, JOHN P
Spring 2021
If organizations run on knowledge, effective organizations depend on data management and analysis to integrate their systems with their strategies and their operations. This course analyzes the structure of database management systems, guides you through techniques for querying and analyzing an organization’s data, and teaches you how to build a well-structured relational database. Database management systems are studied, databases are compared to other technologies for storing and using data, and students develop extensive hands-on skills in exploring and querying databases. Students also analyze a set of information requirements, and then design and build a database. Oracle and the SQL language will be used extensively. By learning database management, the diligent student will make herself or himself more useful at work and more valuable to her or his employer.

ADIT200001
Computer Security BERNIER, BRIAN
Spring 2021
This course provides a strong starting foundation for understanding the complex threats system managers face today and what they need to do to harden their systems against attack. Today's business system managers need to understand these threats and know how to protect their digital assets. Students in this course will look at computer security through a variety of lenses. Specific topics will include: protecting the physical infrastructure, computer system design considerations, identity and access management functions and how they fit in, the role of network security tools, the importance of audits and having the right security processes and policies in place, business continuity and disaster recovery planning, managing vendor contracts and special consideration for cloud-based systems, and ethical considerations.

ADMT190101
Precalculus BRADY, DONALD
Fall 2020
MATH1100 is a first course in the calculus of one variable intended for biology, computer science, economics, management, and premedical students. It is open to others who are qualified and desire a more rigorous mathematics course at the core level. Topics include a brief review of polynomials and trigonometric, exponential, and logarithmic functions, followed by discussion of limits, derivatives, and applications of differential calculus to real-world problem areas. The course concludes with an introduction to integration.
Credits: 03
Room and Schedule: JUN 23 - JUL 30; Satisfies Core Requirement: Mathematics Prerequisites: Trigonometry.
Corequisites: MATH1121. (Or MATH1122, etc., depending on which section of MATH1100 taken.)
Cross-listed with: MATH1100 Frequency: Annually Student Level: CORE
Comments: MATH1100 is not open to students who have completed a calculus course at the college level. Students contemplating majors in Chemistry, Computer Science/B.S., Environmental Geosciences, Geological Sciences, Mathematics, or Physics should enroll in MATH1102. ADMT1901 section for BCE students only.

ADMT190501
Excursions in Advanced Mathematics CHEUNG, CHI-KEUNG
Summer 2020
In this course, we will explore several areas of advanced mathematics through lectures, classroom discussions, and labs. These include topics such as topology, projective geometry, transformation geometry, computational geometry, chaos, and coding, which are not normally taught in the high school curriculum. Through studying these exciting developments in modern mathematics, students can further develop their critical thinking and problem-solving skills. A good background in high school algebra and geometry is recommended. Instructor Bio: Chi-Keung Cheung received his Ph.D. from University of California-Berkeley, and has been a math professor at BC since 1993. His research interests are in geometric analysis and complex analysis. In recent years, he has also actively participated in training high school and elementary school math teachers.

**Applied Statistics LAWSON, JORDAN**

**Spring 2021**

This course is designed to provide students with a foundation in statistical analysis and computing. This class focuses on the concepts, language, and application of statistics to social sciences. In particular, students will learn to produce and interpret descriptive statistics and graphical and numerical representation of information; additionally, students will learn about measures of location, dispersion, position, and dependence, and how to conduct exploratory data analysis. Additional topics will include elementary probability theory (to aid with interpretation and understanding), point and interval estimation, hypothesis significance testing, and linear regression. To help facilitate understanding of the data analysis process, students will routinely apply what they have learned to real data using the R statistical programming language. Students will become familiar with the R statistical language through class lectures, homework assignments, and computer lab exercises, and take-home assignments. R is made freely available for public download. Real-world data sets will be provided to students for use in coursework.

ADPL150001
Ethics SEVERSON, ERIC
Fall 2020
This course will look at ethics from a social and Christian perspective. This course provides an introduction to Christian ethical modes of reflection on contemporary issues that impact class, race, and gender groups. These include issues of poverty/economic justice, First World/Two-Thirds World relations, racism, and sexism. U.S. citizens often identify themselves as religious persons, but less often do the hard work of connecting religious ethical traditions with social policies that impact relations among social groups. We may come up with different conclusions, but the unifying element in this course is our engagement in the difficult process of ethical discernment that is informed by both social theory (i.e., analysis of class, race, and gender systems) and the Christian tradition (Catholic Social Teaching with its foundation in scripture, Thomistic ethics with its assumption that the world is defined and governed by objective moral laws, and church teaching which emanates from application of tradition and scripture to current ethical situations.) An integral component of this class is to be engaged with the world, i.e., pay attention to issues in the world that could benefit from the application of the material being discussed in class.

ADPS418701
Neuropsychology GREINER, ELIZA M
Fall 2020
This course in the Fundamentals of Human Neuropsychology approaches the study of the human brain from two organizational perspectives: biological and behavioral. The first third of the course covers the fundamentals (history, evolution, genetics and
epigenetics, anatomy physiology, pharmacology, and methodology). The second third covers fundamental brain systems including sensory and motor systems, which illustrate basic circuitry and neuronal computation. The final third covers higher order cortical functions including language, cognition, social cognition, and neuropsychiatric disorders including traumatic, degenerative, and developmental disorders. Neuropsychological function is illustrated liberally with relevant case studies. Assessment consists of three objectives (not essay) exams including a comprehensive final.

**Psychology and Politics DEPARTMENT**  
**Fall 2020**  
This course examines the ubiquitous presence of power and politics in the context of human relationships and society. Students will emerge from this course with greater knowledge about and curiosity concerning the social, economic, political, cultural, and psychological processes that shape definitions of the self and identity and that contribute to the formation of subjectivities and behaviors within given governing systems, groups and political contexts. The relationships between and reciprocating impact of social, economic, and political forces are explored with emphasis placed on their implications for how we understand human identity, suffering, and freedom. This is an interdisciplinary course, and students will read and discuss works from the fields of psychology, political science, sociology, philosophy, anthropology and humanities.

**Positive Psychology**  
**CLUCAS LEADERMAN, EMILIE**  
**Spring 2021**  
Psychology has often focused on deficits and disability. Recently, however, added focus and research has been placed on the more positive aspects of human life. This course is designed to provide a systemic understanding of what we have learned about human capacity related to positive characteristics and processes, and how these tenets and skills can be learned and applied to improve our well-being. We will explore how a variety of components including biology, emotions, personality, lifestyle, culture, and environment continually interact in a dynamic process to promote a fulfilling and flourishing life. The course will foster creative thinking about concepts and methods of positive psychology. While focusing on each person’s unique potential for growth and development, social and professional contexts will also be emphasized, such as thriving within communities and organizations. Students will be encouraged to think critically about well-being and integrate their own personal experiences.

Deviance and Social Control None
Summer 2020
This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

Sports Analytics Courses: Summer 2020

**ADSA810101**

*Sports Analytics* SHEA, STEPHEN M

**Summer 2020**

Sports analytics is a rapidly evolving industry with careers in professional and amateur organizations, in the media, for supporting tech companies, and elsewhere. It’s a modern application of so many academic disciplines, such as mathematics, computer science, economics, and statistics. This course will help students understand the intersectionality of oppressions suffered by people of color, women, and LGBTQ people particularly as used in the criminal legal system. The course will consider this whole-person definition across the human life course using a range of sociological principles and perspectives. Major topics will include the structure of health care systems in the United States and globally, doctor-patient interaction, social and cultural influences on health and disease, and social disparities in the distribution of health and quality health care.
science, physics, economics, marketing, and psychology; however, success in this course or in the industry doesn't require expertise in any of the above. This is a course on constructing, interpreting and communicating quantitative arguments in sports. For example, it might be quantifying injury risk for a pitcher, analyzing that risk relative to age and injury history, and then arguing to a general manager why they should or shouldn't sign player X to contract Y. Or, it might be investigating if there is a lack of competitive balance in women's college basketball, and if so, the reasons why. Students will develop statistical and writing literacy, learn basic computational skills and practice delivering oral arguments. Most importantly, students will think critically about real-world problems, where there isn't one correct solution and where there are many valid approaches. While students will do all of this in sports—a familiar medium where most have strong opinions and where amazing data is publicly available—these skills and competencies have universal application.

The Athletic Director LYNCH, MICHAEL P
Summer 2020
The role of the collegiate athletic director has evolved greatly over the years, from "former football coach turned administrator" to seasoned business executive. The Athletic Director today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a chief executive officer in a corporation and must have the acumen to match in order to be successful. This course will examine the myriad responsibilities that today's AD's hold in running the athletic enterprise on a college campus. The course will also delineate and define the most important leadership aspects of the position and those that are most determinate of successful careers in the field. The course will review the evolution of the position and describe the differences that are inherent in the position, based on university NCAA classification.

Sports Leadership and Ignatian-based Ethics UTZSCHNEIDER, CATHY
Fall 2020
Sports leadership based on Ignatian ethics helps individuals, teams, and organizations realize high achievement with integrity and compassion. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models. Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

Coaching for Performance and Student Athlete Development UTZSCHNEIDER, CATHY
Fall 2020
As the sport industry continues to grow, so do the number of sport-related event management jobs. Event management is one of the most sought-after skills in the sports and entertainment industry. With the construction of massive new facilities, there is a growing need for skilled individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis. Today’s sport event planner must be able to manage his personal life along with having strong conceptual, interpersonal, technical, and time management skills. The event planner must also be able to negotiate with sport event venues and recognize the importance of sport tourism and the need for collaborating with a wide variety of network organizations. This course provides you with necessary foundations of event management, including conceptualization, staffing, budgeting, financing, promoting, securing, and managing. You will have the opportunity to understand the competencies necessary for managing and operating sport events through theory and application.

Athletic Facilities and Operations PRIOR, ROBERT M
Fall 2020
As the sport industry continues to grow, so do the number of sport-related event management jobs. Event management is one of the most sought-after skills in the sports and entertainment industry. With the construction of massive new facilities, there is a growing need for skilled individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis. Today’s sport event planner must be able to manage his personal life along with having strong conceptual, interpersonal, technical, and time management skills. The event planner must also be able to negotiate with sport event venues and recognize the importance of sport tourism and the need for collaborating with a wide variety of network organizations. This course provides you with necessary foundations of event management, including conceptualization, staffing, budgeting, financing, promoting, securing, and managing. You will have the opportunity to understand the competencies necessary for managing and operating sport events through theory and application.

Sports Security and Event Management HARTNETT, MICHAEL B
Fall 2020
To provide students with an understanding of the core security principles required to plan and provide a safe and secure environment for fans, event staff, and players. Students will learn the skills necessary to identify a wide variety of risks facing sporting events and sports venues. This includes how to mitigate those risks, develop emergency action plans and critical incident response protocols, and how to respond to a crisis in conjunction with state, local, and federal partners. Students will also learn how to develop and implement security plans for domestic and international sporting events, understand security principles involved in the daily operation of sports venues, and how to train staff and conduct training exercises for security colleagues.

The role of the collegiate athletic director has evolved greatly over the years, from managing coaches and student athletes to also overseeing business operations. Today, particularly at the highest levels of Division I, athletic directors are expected to manage complex operations and make difficult decisions. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models.

Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

Sports Law and Compliance PARISEAU, CARLENE M
Spring 2021
This course is designed to provide an overview of the legal concepts and principles that relate to sports as a recreational pursuit and sports as a business. The class and assignments will explore the relationship of law to organized sports, intercollegiate sports, and professional sports. Legal theories will be discussed and their application analyzed through discussion, research, and application to current and ongoing events in sports. We will also develop an understanding of the rules of sports, on field, off field, contract related, and created through the collective bargaining process.

ADTH300001
Catholic Crisis Points I: Twelve Events that Transformed the Church
SNYDER, JOSHUA R
Summer 2020
This course is the first in a two-course sequence, which offers a comprehensive introduction to the conciliar tradition of the Roman Catholic Church. This first course covers the period beginning with the first-century Council of Jerusalem and ending with the sixteenth-century Council of Trent, offering an historically-schematized overview of the ecumenical and Catholic councils of the period in question. This course attends to the evolution of councils as a means for church governance, decision-making, and conflict resolution. It also attends to the central doctrinal developments which the councils generated, including such doctrines as the Trinity, Christology, Eucharist, Church, papacy, sin-grace. Finally, the course situates these conciliar traditions within their wider historical, political, and cultural contexts. In this way, the course provides a comprehensive introduction to the history of the Catholic church and its central theological tenets.

ADTH140201
God, Self, Society COOLMAN, BOYD
Fall 2020
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? What does it mean to be good? Is it possible to be both good and happy, both good and successful? Is morality subjective or are there clear ways to regulate it? How can we balance the individual and the community in our moral struggles? This course examines eight traditions of morality and ethics: existentialist, utilitarian, Catholic, Protestant, Christian feminist, Black theology, rights theories, and Aristotle. Students apply classic and modern thinkers to contemporary ethical problems emphasizing current events and movies. Interactive discussion is emphasized, so students discover the sources of values that formed their lives and develop a perspective for themselves and their futures.

Policies and Procedures

In our commitment to upholding the highest standards of integrity and excellence, the Boston College community operates in compliance with legal requirements and university policies. These policies and procedures guide the activities of students, faculty, and staff. Any changes to university policies and procedures will be updated and communicated here.

University Policies and Procedures

Accreditation of the University

Boston College is accredited by the New England Commission of Higher Education (NECHE). Prior to 2018, NECHE operated as the Commission on Institutions of Higher Education, a division of the New England Association of Schools and Colleges (NEASC). NEASC restructured in 2018 to align with the U.S. Department of Education’s requirement that NEASC’s higher education-related commission operate as an independent entity. Boston College has been accredited by NEASC, and now NECHE, since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College’s most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College’s accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 3 Burlington Woods Drive, Suite 100, Burlington, MA 01803 (781-425-7785). For a paper copy of the information presented in this catalog, please contact the Boston College Office of Institutional Research and Planning at 617-552-3111 or oir@bc.edu. The mailing address is Boston College, Institutional Research and Planning, St. Clement’s Hall, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

In addition to NECHE, a variety of schools and programs at Boston College are affiliated with discipline-based accrediting agencies such as: Connell School of Nursing: American Association of Colleges of Nursing, Commission on Collegiate Nursing Education; Carroll School of Management: Association to Advance Collegiate Schools of Business; Law School: American Bar Association; Boston College School of Social Work: Council on Social Work Education; School of Theology and Ministry: The Association of Theological Schools; Morrissey College of Arts and Sciences, Chemistry Department: American Chemical Society; Lynch School of Education and Human Development, Teacher Education, Special Education, and Curriculum and Instruction programs: Council for the Accreditation of Educator Preparation; Counseling Psychology Programs: American Psychological Association, Masters in Psychology and Counseling Accreditation Council. For distance/online-related education, Boston College is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA).

Annual Notification of Rights

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the Boston College Bulletin and in the Boston College Student Guide.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.
Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

Electronic access to selected directory information is available to both the Boston College community and the general public. A student who so wishes has the right to prevent the release of all directory information including verification of enrollment, or to suppress selected directory information at www.bc.edu/myservices (“Privacy Preferences Confirm/Review”). This must be done by the end of the first week of enrollment.
Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Certificate of Enrollment

Visit the Certificate of Enrollment page for more information.

Certifying enrollment can be done for the following audiences:

- For current students and employees with access to the Agora Portal
- For alumni and external audiences, including employers

Disability Services Office

The Disability Services Office (DSO) serves undergraduate and graduate students with physical, medical, psychological, and temporary disabilities. The Assistant Dean works with each student individually to determine the appropriate accommodations necessary for the student's full participation in college programs and activities. The Assistant Dean also works with university administrators to develop policies and procedures pertinent to students with disabilities while acting as a general referral service on disability issues.

All accommodation requests must be submitted by June 1, 2019 to the DSO. This deadline does not apply to the Connors Family Learning Center and students registering for accommodations based on a learning disability or Attention Deficit Hyperactivity Disorder (ADHD).

For more information, contact:

Office of the Dean of Students

Maloney Hall—Suite 448A
140 Commonwealth Ave
Chestnut Hill, MA 02467

Phone: 617-552-3470

E-mail: disabsrv@bc.edu

Services for students with learning disabilities and ADHD, as well as all testing accommodations, are coordinated through the Connors Family Learning Center (CFLC). The CFLC, located in O'Neill Library, provides academic support services and
accommodations to undergraduate and graduate students. The CFLC’s services are extensive and vary depending upon the unique needs of the individual student.

For more information, contact:

Kathleen M. Duggan, Ph.D.
Associate Director for Support Services
The Connors Family Learning Center (CFLC)
Thomas P. O’Neill Jr. Library, Room 200
140 Commonwealth Avenue
Chestnut Hill, MA 02467
Phone: 617.552.8093
E-mail: dugganka@bc.edu

Family Educational Rights and Privacy Act (FERPA)

Visit the Notices and Disclosures page for information regarding the Family Educational Rights and Privacy Act (FERPA).

- The page enumerates students rights under FERPA.
- It also contains other notices and disclosures of interest to students and parents.

Financial Aid

Visit the Financial Aid page for more information about financial aid at Boston College.

Immunization

The state of Massachusetts requires that all full-time, part-time Health Sciences, and part-time visa carrying students entering college must submit proof of the following:

- Tetanus, Diphtheria, Pertussis (Tdap) vaccine one time booster after 6/2005 required for all incoming students. If Booster date is greater or equal to 10 years, a Td vaccine date must also be included.
- 2 MMR (measles, mumps, rubella) vaccines (these doses must be given at least four weeks apart beginning at or after 12 months of age).
- Hepatitis B vaccine series (a total of 3 doses at varying intervals).
- 1 dose of Meningococcal Conjugate Quadrivalent vaccine (MCV 4- A,C,Y,W-135) (Menactra, Menevo or Nimenrix only) for all full time students 21 years of age and younger. The vaccine must be on or after the sixteenth birthday or a signed waiver is acceptable.
- A reliable history of varicella disease documented by a health care provider or 2 doses of Varicella vaccine.
- Completion of the Tuberculosis Screening/Testing Form and accompanying testing if needed.
If proof of immunization for measles, mumps, rubella, hepatitis B, and/or varicella is not available, a blood titer showing immunity will be accepted.

Failure to show proof of immunizations within 30 days from the start of classes will result in a block on your registration and an administrative fee of $85 will be charged to your student account.

Important Notices and Disclosures under the HEOA

Boston College maintains a web page that provides all notices, disclosures, and other information required to be disclosed under the Higher Education Opportunity Act (HEOA). This web page is available at www.bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html. This page includes links to disclosures with the following information:

- **Institutional and Student Information**, including information regarding the University’s academic programs, facilities, faculty, academic improvement plans, accreditation, student rights with respect to the privacy of student records, transfer of credit policies, resources for students with disabilities, the diversity of the student body, voter registration, copyright and file-sharing, and how to reach the Office of Student Services, which maintains additional resources and information for students and prospective students;
- **Financial Information**, including the cost of attendance, withdrawal and refund policies, information regarding financial aid programs (including information about eligibility requirements and criteria, forms, policies, procedures, standards for maintaining aid, disbursements and repayment), student employment information and exit counseling information, and how to reach the Office of Financial Aid;
- **Student Outcomes**, including information regarding retention rates, graduation rates, and placement and education of graduates;
- **Health and Safety Information**, including the Annual Campus Security and Fire Safety Report which describes the University’s campus safety program policies and includes statistics for the previous three years concerning reported crimes and fires that occurred on campus; the Drug-Free Campus and Workplace Program; and the University’s policies with respect to immunizations required under Massachusetts law; and
- **Athletic Program Information**, describing how to request a report about the University’s athletic programs that includes participation rates, financial support, and other information on men’s and women’s intercollegiate athletic programs.

Each disclosure explains how you may request a paper copy of the information. Alternatively, you may request paper copies of these disclosures by calling the Office of the Executive Vice President (617) 552-3255 or sending a written request to: Boston College, Office of the Executive Vice President, Botolph House, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

Notice of Nondiscrimination

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University’s mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, military status, or other legally protected status.

Boston College rejects and condemns all forms of harassment, wrongful discrimination, and disrespect. It has developed procedures to respond to incidents of harassment whatever the basis or circumstance. Moreover, it is the policy of Boston College, while reserving its lawful rights where appropriate to take actions designed to promote the Jesuit, Catholic principles that sustain its mission and heritage, to comply with all state and federal laws prohibiting discrimination in employment and in its educational programs and activities on the basis of a person’s race, color, national origin, sex, religion, disability, age, marital or parental status, genetic information or family medical history, or military status, and to comply with state law prohibiting discrimination on the basis of a person’s sexual orientation.

To this end, Boston College has designated its Executive Director for Institutional Diversity to coordinate its efforts to prevent discrimination in accordance with this notice and applicable laws. Individuals are welcome to raise any questions regarding this notice and the requirements of state and federal nondiscrimination laws with the Executive Director for Institutional Diversity:

Boston College Office for Institutional Diversity (OID)

140 Commonwealth Avenue (Office location: 129 Lake Street)

Chestnut Hill, MA 02467

Patricia Lowe,

Executive Director for Institutional Diversity/Title IX Coordinator

patricia.lowe@bc.edu

Phone: 617-552-3334

Email: TitleIXCoordinator@bc.edu

The Executive Director for Institutional Diversity oversees the efforts of the following additional Title IX coordinators: (i) Melinda Stoops, Associate Vice President for Student Affairs and Student Affairs Title IX Coordinator (for student sexual harassment complaints), Maloney Hall, Chestnut Hill, MA 02467 (617-552-3482); (ii) Linda Riley, University Harassment Counselor, 129 Lake Street, Brighton, MA (617-552-0486); and (iii) Jocelyn Fisher Gates, Senior Women’s Administrator and Athletics Title IX Coordinator, 310 Conte Forum, Chestnut Hill, MA 02467 (617-552-8303).

The following federal laws and regulations require the University not to discriminate on the basis of race, color, national origin, disability, sex, or age in treatment, employment, admission or access to Boston College and its educational programs and activities: Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1973 (Section 504), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act of 1975 (Age Act), and their respective implementing regulations at 34 C.F.R. Parts 100, 104, 106, and 110. Inquiries concerning the application to Boston College of each of the statutes and implementing regulations outlined above may be referred to the U.S. Department of Education, Office for Civil Rights, 5 Post Office Square, 8th Floor, Boston, MA 02109-3921 (617-289-0111).
Tuition and Fees

Visit the Tuition and Fees page for more information on the following:

- Tuition and fees
- Laboratory/course fees
- Tuition refund schedule

Veterans Benefits and Transition Act of 2018

The university will adhere to the requirements of Section 3679 of Title 38 of the Veterans Benefits and Transition Act of 2018 (referred to below as the "Veterans Benefits and Transition Act").

Boston College shall permit any student who is a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) to attend or participate in the course of education during the period beginning on the date on which such student provides to Boston College a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act and ending on the earlier of (i) the date on which the U.S. Secretary of Veterans Affairs provides payment for such course of education to Boston College, or (ii) the date that is 90 days after the date on which Boston College certifies for tuition and fees following receipt from the student such certificate of eligibility.

Boston College shall ensure that it will not impose any penalty (including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) borrow additional funds) on any student who is a covered individual because of such student's inability to meet his or her financial obligations to Boston College due to the delayed disbursement of a payment to be provided by the Secretary of Veterans Affairs under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act.

The University reserves the right to deny access to services or impose additional fees in accordance with University policy on the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement if not paid by the student by the required due dates.

Academic Integrity Policies

Academic Integrity (Undergraduate)

Policy and Procedures

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their own work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process.

Standards

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to, the following:

Cheating is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:
• the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
• fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
• falsification of papers, official records, or reports;
• copying from another student's work;
• actions that destroy or alter the work of another student;
• unauthorized cooperation in completing assignments or during an examination;
• the use of purchased essays or term papers, or of purchased preparatory research for such papers;
• submission of the same written work in more than one course without prior written approval from the instructors involved;
• dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one’s own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

- the misrepresentation of one’s own or another’s identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
- the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will, in the long run, build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or associate dean. Suspected violations by students reported to members of the faculty or to an associate dean will be handled according to the procedures set forth
Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or associate dean.

Faculty Roles in Fostering Academic Integrity

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures

In each school a Committee on Academic Integrity with both faculty and student members is to be constituted annually.

When a faculty member determines that a student's work violates the standards of academic integrity, the faculty member is encouraged to discuss the matter with the student, but in any case the faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take. If the faculty member decides to impose a grading penalty, a letter of notification describing the incident and the proposed grading penalty is to be sent to the associate dean of the
school or college in which the course is taught. On receipt of such a notification, the associate dean will notify the student of the allegation and the evidence. The student's class dean will also be notified, if the course is outside of the student's home school or college. The student will be given an opportunity to respond to the allegation in writing. While a case is pending, the student may not withdraw from or change status in the course.

Each reported violation of the standards of academic integrity will be reviewed by the Committee on Academic Integrity of the school or college of the course. This will ensure that in cases involving students from more than one school, or students in joint or dual degree programs, the process and penalty will be consistent.

A board chosen by the chairperson of the Committee on Academic Integrity from the full Committee will be assigned to each case, with one of the faculty members as chairperson of the review board. The associate dean to whom the case has been reported will serve as a non-voting administrative resource. For cases that are reported in summer courses, the associate dean of the school in which the course is taught will decide the case.

The associate dean will convey to the faculty member and the student the board's findings as to responsibility and recommended sanctions. The associate dean will compile a complete file of each case. After notifying the student's class dean of the final resolution of the case, the file will be kept confidential in the Dean's office. Files on students found not responsible will be destroyed.

Penalties for students found responsible for violations will depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and the student's previous record of violations. The committee may simply affirm the faculty member's penalty and issue the student a "warning," which will be kept in a confidential file in the student's Dean's Office until the student graduates and will not be reportable to professional schools or outside agencies; or it may recommend a different grading penalty and/or impose additional administrative penalties. Such penalties may include university probation, suspension, or expulsion, all of which become part of a student's academic record and are reportable to graduate/professional schools and outside agencies.

Appeal of the board's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notice of the board's decision. The decision of the Dean will be final.

Academic Integrity (Graduate)

Policy and Procedures

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process. Cases of falsification, fabrication, and plagiarism that occur in the course of research are also subject to Boston College's research misconduct policy, which can be found at https://www.bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html.

Standards

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to the following:

Cheating is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or
altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
● falsification of papers, official records, or reports;
● copying from another student’s work;
● actions that destroy or alter the work of another student;
● unauthorized cooperation in completing assignments or during an examination;
● the use of purchased essays or term papers, or of purchased preparatory research for such papers;
● submission of the same written work in more than one course without prior written approval from the instructors involved;
● dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

Plagiarism is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one’s own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

Other breaches of academic integrity include:

● the misrepresentation of one's own or another's identity for academic purposes;
● the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
● the sale of papers, essays, or research for fraudulent use;
● the alteration or falsification of official University records;
● the unauthorized use of University academic facilities or equipment, including computer accounts and files;
● the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
● the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
● the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
● the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

Collusion is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

Promoting Academic Integrity: Roles of Community Members

Student Roles in Maintaining Academic Integrity

Students have a responsibility to maintain high standards of academic integrity in their own work, and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

● Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will in the long run build a peer-regulated community.
● If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or Associate Dean. Suspected violations by students reported to members of the faculty or to an Associate Dean will be handled according to the procedures set forth below.
Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or Associate Dean.

Faculty Roles in Fostering Academic Integrity

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students’ intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans’ responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

Procedures

Graduate and professional students should refer to their department or school for procedures for adjudicating alleged violations of academic integrity. Penalties for students found responsible for violations may depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and/or the student’s previous record of violations. Appeal of decision may be made to the representative of the department or school whose decision will be final.
Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University's mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, ethnic or national origin, religion, color, age, gender, marital or parental status, veteran status, disabilities, or sexual orientation.

Boston College seeks to maintain an undergraduate student body that represents a broad variety of abilities, backgrounds, and interests. Therefore, in selecting students, the Committee on Admission looks for demonstrated evidence of academic ability, intellectual curiosity, strength of character, motivation, energy, and promise for personal growth and development. Requests for financial aid do not affect decisions on admission. The [Undergraduate Admission website](https://admission.bc.edu/) provides further details on the application requirements and deadlines.

### Admission from Secondary School

While specific courses are not required, the Office of Undergraduate Admission recommends that students pursue a strong college preparatory program that includes four units of English, mathematics, social studies, and foreign language, as well as four units of a natural science. Such a program provides a solid foundation for high quality college work, as well as a stronger application in a highly selective admission process.

### Standardized Testing

- The SAT (writing section is optional) or
- The American College Test (ACT) (writing section is optional)
- The submission of SAT subject exams is optional

All standardized test results are used in the admission process. Applicants are required to take all standardized tests no later than the October administration date of their senior year for Early Decision and by December of their senior year for Regular Decision.

The Committee on Admission will select the best combination of individual section scores when evaluating an application. International students for whom English is not their primary native language are required to submit the Test of English as a Foreign Language (TOEFL) results or the International English Language Testing System (IELTS). Students who score 650 or above in the SAT EBRW or 29 or better on the ACT English section may have this requirement waived.

### Application Procedures

**Regular Freshman Admission**

Students applying to Boston College should submit the Common Application, the Boston College Writing Supplement and an $80 application fee no later than January 1. Both the Common Application and Boston College Writing Supplement are available on the Common Application website. Candidates are notified of action taken on their applications no later than April 1.
Early Decision

Early Decision I and II are binding programs for candidates who view Boston College as their unequivocal top choice institution. If admitted to Boston College through Early Decision, candidates must immediately withdraw applications to other institutions and enroll at Boston College. Students are required to submit an Enrollment Confirmation Fee to Boston College within ten days of receiving their admission offer.

Competitive Early Decision candidates present academic credentials, extracurricular engagement, and personal qualities that fit the profile of currently enrolled Boston College students. Because Early Decision attracts a small, but competitive pool of candidates, the acceptance rate will be higher at Early Decision. Completed Early Decision I applications and the Common Application Early Decision Agreement form must be submitted no later than November 1 for consideration. Candidates will learn of the Admission Committee's decision by December 15. Early Decision II applications are due by January 1 and candidates will learn of the Admission Committee's decision by February 15.

Applying to an Undergraduate Division

All applicants must designate to which of the four undergraduate divisions they are making their application: Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, or Connell School of Nursing. Students are only considered for admission to the division to which they applied. Students may not change divisions following admission, but may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the Academic Forms page.

International Student Admission

International students are expected to submit the same credentials (transcripts, recommendations, standardized tests, etc.) as domestic applicants. All documents should be submitted in English. If the credentials must be translated, the original must be submitted along with the translation. All international students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) exam or the International English Language Testing System (IELTS). A minimum TOEFL score of 250 on the computer-based test or 100 on the internet-based exam is recommended. A minimum IELTS score of 7.5 is recommended. Students applying from British systems must be enrolled in an A Level program to be considered.

Transfer Admission

Transfer admission applications are available to students who have successfully completed three or more transferable courses (9 credits minimally) at a regionally accredited college or university. Transfer students must have a minimum cumulative grade point average of 3.0 to be considered for admission. Competitive applicants typically have a 3.5 to 3.7 cumulative grade point average. Students are encouraged to finish one full year of studies before seeking admission-in-transfer. Because a record of college achievement would not be available at the time of consideration, first semester freshmen may not apply for admission to the term beginning in January.

All candidates for transfer admission should submit the Transfer Common Application and all other required forms along with the $80 application fee. All portions of the Transfer Application can be found on the transfer website at www.bc.edu/transfer.

NOTE: A College Report must be submitted for every undergraduate institution attended full-time by the applicant. Additional copies of this form may be obtained from the Common Application website.

All supporting documents must be sent directly to the Boston College Undergraduate Processing Center, PO Box 67485, Chestnut Hill, MA 02467 by the sending institution. Transcripts issued to students and photocopies will not be accepted. The deadline for submitting applications is March 15 for the fall and November 1 for the spring. Fall candidates will be notified of action taken on their applications no later than May 20. Spring candidates will be notified no later than December 15.
Transfer of Credit

Boston College transfer credit policies are established by the Deans and Faculty of each undergraduate division. Course evaluations are completed by the Office of Transfer Admission. Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis. Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C- must have been earned. BC students must complete the following number of credit hours for graduation: Morrissey College of Arts and Sciences—120, Carroll School of Management—120, Lynch School of Education and Human Development—120, and Connell School of Nursing—117. A maximum of 60 credit hours will be allowed in transfer. The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit.

No credit will be granted for internships, field experiences, practica, or independent study.

Applicants seeking to have online courses accepted in transfer by Boston College should submit a syllabus for each course, including information about contact hours and exam requirements.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College.

For transfer students, courses taken during the summer prior to enrollment at Boston College should be approved in advance by the Office of Transfer Admission to avoid difficulty in the transfer of credits. For all incoming freshmen and currently enrolled students, all summer courses must be approved in advance by the appropriate deans.

College credit courses taken in high school with high school teachers and other high school students cannot be used for credit. These courses may be assigned advanced placement units only if a corresponding College Board AP exam is taken and a qualifying score is earned.

Date of Graduation

All undergraduate students are expected to spend four years enrolled as full-time students in order to earn a bachelor's degree.

Students generally may not accelerate the date of graduation stated in the acceptance letter, with the following exception: students who enter Boston College after three or four semesters at a school where the normal credit requirements are less than those at Boston College and who experience a loss of one semester in their status as a result. If students have attended only one school prior to Boston College and the loss of status is due solely to differences between academic systems, students will be allowed to make up their status and graduate with their class.

A transfer student's date of graduation is determined by the number of credits accepted in transfer and the number of Boston College semesters these satisfy. The normal academic load for undergraduates is five 3- or 4-credit courses per semester. Thus, students are expected to have completed 30 credits at the end of one year, 45 at the end of a year and a half, and 60 credits at the end of two years. In determining a transfer student's date of graduation, leeway of 6 credits is allowed without loss of status. For example, students completing 24–30 credits are accepted as first-semester sophomores.
Residency Requirement

The requirements for the bachelor's degree generally include a minimum of eight semesters of full-time enrollment, at least four semesters of which must be at Boston College.

Transfer students may need more than eight semesters in total in order to complete all the university's degree requirements. As long as transfer students abide by all relevant University academic regulations, including at least four semesters at Boston College, they may seek to regain their original graduation-year status through course overloads and summer courses. In such cases, transfer students will not incur additional tuition charges for course overloads. Transfer students who seek to regain their original graduation date should consult with their associate dean to confirm that they are eligible to do so.

Special Students

Only those persons who wish to be enrolled as full-time day students are admitted by the Office of Undergraduate Admission. All other students wishing to attend Boston College on a part-time basis, for either day or evening classes, should contact the Dean of the James A. Woods, S.J., College of Advancing Studies, St. Mary's Hall South, Ground Floor, Boston College, Chestnut Hill, MA 02467.

Advanced Placement Units

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Qualifying scores will be assigned advanced placement units as detailed at www.bc.edu/advancedplacement.

College Courses Taken During High School

Advanced placement units can be earned for college courses taken during high school. For more information, visit www.bc.edu/advancedplacement.

Language Proficiency Requirements

Refer to the Language Proficiency Requirements section below.

Introductory Note on Academic Regulations

Academic Regulations are effective from September of the current academic year (2020–2021) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Academic Grievances

Any student who believes he or she has been treated unfairly in academic matters should consult with the chairperson of the undergraduate or graduate department or his or her Academic Dean to discuss the situation and to obtain information about relevant grievance procedures.
Academic Record

A record of each student's academic work is prepared and maintained permanently by the Office of Student Services. While cumulative averages for academic majors are made available to undergraduate students who are currently enrolled, these averages are not maintained as part of a student's academic record. The student's semester averages and final overall cumulative average appear on the academic record. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

Attendance

Students are expected to attend classes regularly, take tests, and submit papers and other work at the times specified by the professor on the course syllabus. Students who are absent repeatedly from class or practica will be evaluated by faculty responsible for the course to ascertain their ability to achieve the course objectives and to continue in the course.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in class.

Professors will announce, reasonably well in advance, tests and examinations based on material covered in class lectures and discussions, as well as other assigned material. A student who is absent from class on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a make-up will be allowed.

A student who is absent from class is responsible for obtaining knowledge of what happened in class, especially information about announced tests, papers, or other assignments.

In cases of prolonged absence the student or a family member should communicate with the student's Academic Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to classes should be made with the Academic Dean's Office as soon as the student's health and other circumstances permit.

Absences for Religious Reasons

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to make up such examination, or study or work requirement, that may have been missed because of such absence on any particular day. However, students should notify professors at the end of the first class meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Undergraduate students may not audit a course with the exception of undergraduates in the Woods College of Advancing Studies.

Core Curriculum—Undergraduate University Core Requirements

The following course requirements comprise the Core Curriculum and are required for all students at Boston College in order to graduate. All Core courses must be 3 credits or more and cannot be taken pass/fail.

- 1 course in the Arts—Art, Art History, Film, Music, Theatre
1 course in Cultural Diversity—The Cultural Diversity requirement may be fulfilled by an approved course taken to fulfill another Core requirement, a major requirement, or an elective. Additionally, there are a number of Difference, Justice, and the Common Good courses, which satisfy the Cultural Diversity requirement, which can be found at bc.edu/core. Lynch students will take APSY1031. The CSON curriculum satisfies the Cultural Diversity requirement.

2 courses in History—one course pre-1800 (History I) and one post-1800 (History II)

1 course in Literature—Classical Studies, English, German Studies, Romance Languages and Literatures, Slavic and Eastern Languages and Literatures

1 course in Mathematics—For CSOM students, one semester of Calculus (MATH1100 or higher) is required, and beginning with the class of 2022, CSOM students may take any course approved for Mathematics Core credit. For CSON students, MATH1180 Principles of Statistics for Health Sciences is the required Mathematics Core course.

2 courses in Natural Sciences—Biology, Chemistry, Earth and Environmental Sciences, Physics

2 courses in Philosophy—one of each: Philosophy I and Philosophy II

2 courses in Social Sciences—Economics (ECON1131 and ECON1132 are required for CSOM students graduating in 2021 and 2022; beginning with the Class of 2023, ECON1101 is required for all CSOM students), Political Science, Psychology, Psychology in Education (APSY1030 and APSY1031 are required for Lynch students), or Sociology

2 courses in Theology—one of each: Sacred Texts and Traditions and Christian Theology

1 course in Writing

Students are advised to select Core courses very carefully. Core courses are identified on the Course Information and Scheduling page (at www.bc.edu/myservices) as well as on the Core website (www.bc.edu/core). For more information on the University Core Curriculum please visit www.bc.edu/core.

University Core Curriculum at Boston College

As a Jesuit, Catholic University, Boston College shares a 450-year old tradition of concern for the integration of the intellectual, moral, and religious development of its students. The centerpiece of Jesuit education has always been a common curriculum that emphasizes the study of the defining works of the humanities, natural sciences, and social sciences.

Our ongoing efforts to renew the University Core Curriculum aim to ensure that engagement with the Core, “broadens the intellectual horizons of students; introduces them to the best of contemporary pedagogy, research, and teaching; promotes their integration of knowledge, beliefs, and actions, and prepares them for lives of freedom, integrity, leadership, and service” (The Vision Animating the Boston College Core Curriculum, 2014). Guided by this vision, students completing the University Core Curriculum will:

- Demonstrate the critical, mathematical, informational, analytic, expressive, and creative skills that are essential tools of the educated person well-prepared for a meaningful life and vocation;
- Understand the major ideas and methods of inquiry of the scholarly disciplines that comprise the university and be able to use those methods of inquiry as beginning practitioners to address complex contemporary problems;
- Be able to identify and articulate the strengths and limitations of the disciplines and the relationship of the disciplines to one another, and demonstrate an understanding of the breadth and diversity of human knowledge as well as its openness to integration in more comprehensive wholes;
- Be conversant with, and able to discuss intelligently, enduring questions and issues that are fundamental to human inquiry and that have shaped the traditions from which the university has emerged;
- Demonstrate the ability to apply more than one disciplinary perspective to the same enduring question or complex contemporary problem;
- Be familiar with the scholarly exploration of religious faith and understand how faith and reason are related in the search for truth;
- Demonstrate the ability to examine their values and experiences and integrate what they learn with the principles that guide their lives; and,
- Be prepared, and disposed, to use their talents and education as engaged global citizens and responsible leaders in service of the common good.

For more information on University Core Curriculum at Boston College, please visit www.bc.edu/core.
Cross Registration

Woods College of Advancing Studies

All full-time undergraduate students are limited to one Woods College of Advancing Studies (WCAS) course each semester. Freshmen may not enroll in any WCAS course.

WCAS courses can be used to fulfill elective requirements. Students must check with the appropriate department if they intend to use a Woods College of Advancing Studies course to fulfill a Core or major requirement. Any exception to this policy must be made with the appropriate Academic Dean's approval.

Boston Theological Interreligious Consortium

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions:

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John’s Seminary and Theological Institute

This consortium offers complete cross-registration in several hundred courses, the use of library facilities in the nine schools, joint seminars and programs, and faculty exchange programs.

Theology majors and students in the School of Theology and Ministry who want to cross register through the Boston Theological Interreligious Consortium should pick up a cross registration petition in Lyons Hall and return it with an authorization by the appropriate date. Students are expected to consult with their advisor or department chairperson before cross registering.

The Consortium

Under a program of cross registration, sophomores, juniors, and seniors may take one elective course during each fall and spring semester at Boston University, Brandeis University, Northeastern University, Pine Manor College, Regis College, or Tufts University if a similar course is not available at Boston College. Cross registration forms are available in the Office of Student Services, Lyons Hall.

Dean's List

The Dean's List recognizes the achievement of undergraduates semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

In order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have withdrawn from or failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.
Degree Audit

A degree audit is a computer-generated analysis that enables an undergraduate (except for Woods College of Advancing Studies) or law student and his or her advisor to assess the student's academic progress and unfulfilled requirements. Students in the Woods College of Advancing Studies can meet with an advisor to review their progress at any time.

The degree audit is a valuable tool for academic planning because it matches the courses that the student has taken with the requirements of his or her degree program or anticipated program. Students receive degree audits each semester prior to registration and have access to actual and simulated degree audits at [www.bc.edu/myservices](http://www.bc.edu/myservices) ("Degree Audit"). Students are responsible for completing all the requirements listed on the degree audit prior to graduation.

Degree with Honors

Academic honors printed in the Commencement program are based on averages at the end of the second semester senior year.

Starting with the class of 2021, the cumulative average for degrees with honors will be as follows:

- *summa cum laude* (with the highest honors)—3.9–4.0
- *magna cum laude* (with high honors)—3.8–3.899
- *cum laude* (with honors)—3.667–3.799

Prior to the class of 2021: The *summa cum laude* was awarded to the top 4.5 percent of the graduating class, *magna cum laude* to the next 9.5 percent, and *cum laude* to the next 15 percent.

Academic honors are not calculated for graduate students.

Enrollment Status

Undergraduate Full-Time Enrollment Status

To be considered full-time, students must be registered for courses totaling at least 12 credits per semester. At least 9 of the credits must be in courses of 3 credits or more. Ordinarily, students should average 15 credits per semester with a target of completing 30 credits per academic year.

Lynch School of Education and Human Development students take a 3-credit First Year Experience course during freshman year. Woods College of Advancing Studies students must be enrolled in 12 credits to be considered full-time.

Undergraduate Part-Time Enrollment Status

Visiting or special students may enroll in one, two, or three courses each semester through the Woods College of Advancing Studies. Additional courses require the Dean's approval.

External Courses

After admission to Boston College, the only courses that a student may apply towards a degree will be those offered at Boston College in a regular course of study during the academic year. Any exceptions to this rule must be approved in writing by the
Academic Dean before the courses are begun. Exceptions may be granted by the Academic Dean for official cross-registration programs, external summer study abroad, certain special study programs at other universities, and summer courses with an AD prefix in the Woods College of Advancing Studies.

A student must earn a grade of C- or better to receive credit for any course taken at another university. In some instances, the Academic Dean may stipulate a higher grade. After the course has been completed, the student should request that the registrar at the host university forward an official transcript to the Office of Student Services at Boston College.

Final Examinations

The final examination schedule for most courses is set before classes begin. It is available to the public, and students are responsible for consulting it. A student who misses a final examination is not entitled, as a matter of right, to a make-up examination except for serious illness and/or family emergency. No student should make travel arrangements to return home which are at odds with his or her examination schedule. Students who schedule a departure without regard to their schedules risk failure in their final examinations.

Courses with multiple sections may have common departmental final examinations at a date and time determined by the Office of Student Services. Students with three final examinations scheduled for the same day are entitled to take a make-up exam at a later date during exam week. If one of the three exams is a common departmental exam, this is the exam that is taken at the later date.

In the Graduate School of the Morrissey College of Arts and Sciences, seminars and teacher-training courses may or may not have a semester examination at the discretion of the instructor.

No exams are to be scheduled during the Study Days designated on the Academic Calendar.

Language Proficiency Requirements

All students in the Morrissey College of Arts and Sciences and the Carroll School of Management* must demonstrate intermediate-level proficiency in a foreign or classical language in order to graduate from Boston College. The Lynch School of Education and Human Development and the Connell School of Nursing do not have a language requirement.

The SAT II Subject and AP test scores below demonstrate intermediate-level proficiency at Boston College.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
*Note: Beginning with the class of 2022, Carroll School will no longer have a language requirement.

Other Exams and Exam Score Minimums

- British A levels: Languages other than English A/B/C levels
- International Baccalaureate: Higher level foreign or modern classical language 6 or 7
- General Certificate of Education: German A level
- DELE exams (Diplomas de Español como Lengua Extranjera): B1 or higher level
- Successful completion of one of Boston College’s language tests (for languages other than French, German, Italian, and Spanish)
- Successful demonstration of native proficiency by documentation or testing by one of Boston College’s language departments

Testing is not available for all languages.

Fulfillment of the proficiency requirement by the examinations listed above does not confer course credit.

Course Work Meeting Language Proficiency Requirement

- Successful completion of the second semester of an intermediate-level Boston College modern or classical language course
- Successful completion of one Boston College modern or classical language course beyond the intermediate level
- Carroll School of Management only: Successful completion of four years of high school language study (need not be the same language, e.g., two years of Latin and two years of French)
- Carroll School of Management only: Successful completion of one year of a new language for students who enter Boston College with three years of high school foreign language

Students may not take foreign language courses on a pass/fail basis until they have completed the university’s language proficiency requirement. Language courses will count as Morrissey College of Arts and Sciences electives. Students with documented learning disabilities may be exempt from the language proficiency requirement and should consult with the Associate Dean.

Grading

The grading system consists of 12 categories, as follows: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. A is excellent; B is good; C is satisfactory; D is passing but unsatisfactory; F is failure.

Students who withdraw from a course after the drop/add period will receive a grade of W. The grade of W is not included in the calculation of the grade point average.

Students in the Connell School of Nursing must achieve a grade of C- or higher in designated nursing courses, or they will be required to retake the course.

With the approval of the Academic Dean of their school or college, students may be permitted to take courses for enrichment. Courses approved for enrichment only, may, with the approval of the relevant department, go toward fulfilling a Core, major, or minor requirement. However, grades for courses taken for enrichment are not computed into the cumulative average and are not counted toward the total course or credit requirement for graduation.
A student’s cumulative average is based on grades in courses taken in the full-time program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student’s transcript and a 0.0 is calculated into the student’s cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Grades will be posted at [www.bc.edu/myservices](http://www.bc.edu/myservices) (“Current Courses and Grades”) at the close of each semester. Any student who believes there is a grade discrepancy on a semester grade should resolve the discrepancy with their professor within the first six weeks of the following semester.

Grading Scale

In computing averages, the following numerical equivalents for the twelve (12) letter grades are used:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

Incomplete and Deferred Grades

All required work in any course must be completed by the date set for the course examination. A student who has not completed the research or written work for a course taken in the fall or spring semester or is absent from the course examination in either semester, may, with adequate reason and at the discretion of the instructor, receive a temporary grade of Incomplete (I). All such I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer.

After that time, generally no further grade change will be allowed.

A faculty member may only assign a grade of J for a 2-semester course when the grade in the first semester is dependent on the grade issued at the end of the semester. The J grade has no GPA value. Instructors should assign a grade for each semester at the end of the second semester. Such courses may include an Internship, Dissertation Direction, or Student Teaching.

Pass/Fail

Sophomores, juniors, and seniors may elect to designate a course as pass/fail during the first seven class-days of the semester. Only electives can be taken pass/fail. Courses being used to fulfill major, minor, Core, or corequisites cannot be taken pass/fail.

Second-semester freshmen who have been approved by their Academic Dean for an overload of a sixth course of 3 credits or more may take that course on a pass/fail basis, in which case the course may not be used to fulfill a major, minor, Core requirement, or corequisites.
No more than one course of 3 or more credits may be taken pass/fail in any semester. No student may take more than six pass/fail courses of 3 or more credits for credit toward a degree.

Courses in the Carroll School of Management and the Woods College may not be taken on a pass/fail basis. Departments may designate some courses as not available in general for pass/fail enrollment.

Students may not take foreign language courses on a pass/fail basis until they have completed the University's language proficiency requirement. Any foreign language course being used to fulfill a major, minor, Core, or corequirement cannot be taken pass/fail.

A student enrolled in a course on a pass/fail basis who earns a grade of D- or higher will receive a grade of Pass for the course.

Pass/Fail Option for 1-Credit Courses in the Major

At the discretion of the school or department, some 1-credit courses that are required for a major or minor may be offered on a pass/fail basis only (e.g., practica, performance).

Grade Change

Grade changes should be made only for exceptional reasons. For all students, the grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete to provide time to finish his or her course work. Such Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

Graduation

Students are expected to satisfactorily complete eight semesters of full-time study (excluding summer terms) in order to earn the bachelor's degree. The University awards degrees in May, August, and December of each year, although commencement ceremonies are held only in May. A diploma will not be dated before all work is completed. Students who graduate in December may participate in commencement exercises the following May. In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at www.bc.edu/myservices ("Diploma Name Information - View/Update") by the following dates:

- February 1 for May graduation
- May 1 for August graduation
- October 1 for December graduation

With permission from the student's Academic Dean, there are two ways the time to degree can be shortened (accelerated): (1) by qualifying for Advanced Standing or (2) by completing all requirements in less than 8 full-time semesters. Details of these two paths are given below.

Advanced Standing

Beginning with the Class of 2024: Students who earn a minimum of 30 Advanced Placement units may be eligible for Advanced Standing and complete their undergraduate studies after six semesters of full-time study. Ordinarily, Advanced Standing is for one full year only. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced
Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.

For further details, visit [www.bc.edu/advancedplacement](http://www.bc.edu/advancedplacement).

Acceleration

After being in residence for at least three semesters, and no later than the end of the drop/add period in the seventh semester, full-time undergraduate students may apply to their Academic Dean to accelerate their degree program by one semester. The following conditions apply:

- Summer courses intended for acceleration must be taken at Boston College.
- Any credits over 15 in a semester used for acceleration are charged the per credit rate for the semester they are taken. Financial aid will not cover these additional charges.
- Students transferring into Boston College with first-semester sophomore status or above are not eligible to accelerate their program of study.
- Students who have elected to take Advanced Standing are not eligible to accelerate their graduation further.

Internal Transfers

Matriculated students wishing to transfer from one undergraduate college to another within Boston College should contact the Academic Dean’s Office of the school to which admission is sought. Students may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page. WCAS students interested in transferring into Morrissey, Lynch, CSON, or CSOM must apply to do so through the Office of Undergraduate Admission.

Leave of Absence

A student in good standing who desires to interrupt the usual progress of an academic program may petition for a leave of absence. The process begins in the appropriate Academic Dean’s Office and will be extended for no more than one year, although petition for renewal is possible. Students on leave of absence may not take courses to advance their status at Boston College without obtaining prior approval from the appropriate Academic Dean’s Office. Students may not participate in extracurricular activities while on a leave of absence. Normally, students returning from a leave of absence may not regain their original graduation year.

To assure re-enrollment for a particular semester following a personal leave of absence, students must notify their appropriate Academic Dean’s Office no later than four weeks in advance of the start of the next semester.

Medical Leave of Absence

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student’s Academic Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student’s health care provider; the student’s consent for the provider to discuss the student’s condition with University clinicians, and/or an independent evaluation of the student’s condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.
Students seeking to return from a medical leave should contact the appropriate Academic Dean’s Office. All documentation pertaining to returning from a medical leave of absence must be submitted no later than August 1 for the fall semester or December 15 for the spring semester. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College’s medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: www.bc.edu/medinsurance. Students granted a medical leave may be entitled to a semester’s tuition credit to be provided upon readmission, and should consult their school’s policy regarding the tuition credit and their financial aid advisor.

Military Leave Policy

Boston College supports the participation of our students in all branches of the United States Military, both active duty and reserve, and recognizes that military obligations for such students may occasionally conflict with academic responsibilities. In such cases students who are in good academic standing and are called to duty for more than 30 days may take a leave of absence for up to three years and be guaranteed readmission to the same academic program and status they held at the start of the leave. The expected graduation date will be adjusted appropriately by the dean upon readmission. The student may qualify for a full tuition credit to be applied upon return from the leave, but will still be responsible for any board and room fees incurred.

The process for initiating the Leave is the same as that for a Medical Leave of Absence and will require official documentation of the student’s service obligation.

Students desiring to return after three years should apply for readmission through the Dean’s Office in their desired program to determine if programs or program requirements have changed.

For students whose military obligation will require fewer than 30 days away from classes, it may be possible to complete some or all of the registered coursework required to complete a successful semester. In such cases, students may be able to maintain their original graduation dates but would need to consult with the Dean’s Office and individual faculty instructors to determine if this is possible. If it is not possible to complete sufficient coursework for the semester, students may apply for a military leave of absence with the process outlined above.

For graduate and professional students, the same process and conditions would apply. But such students receiving Boston College financial aid in the form of teaching or research stipends or tuition remission should consult the Director of Graduate Studies in their respective programs about potential funding issues before taking a leave as financial aid budgets are set annually by program and availability of funds may vary from year to year.

Majors, Minors, and Concentrations

Majors

A major is a systematic concentration of at least 30 credits taken in a given academic discipline that enables a student to acquire a more specialized knowledge of the discipline, its history, its methodologies and research tools, its subfields, and the areas of concern in which the discipline is presently involved. This is done by means of a hierarchical sequence of courses or appropriate distribution requirements. In order to earn a major, students must have at least 27 credits in the major program that are not used to fulfill requirements for another major or minor.
Minors

Morrissey College of Arts and Sciences

Some departments offer a departmental minor for students who wish to complement their major with intensive study in another area. A departmental minor consists of at least 18 credits. These must include one introductory level course and at least one upper-level course or seminar. In order to earn a departmental minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor. Students carrying a double major are advised not to minor.

For a complete list of minors visit the Majors and Minors page.

Interdisciplinary minors in the Morrissey College of Arts and Sciences must consist of at least 18 credits and must include either a required introductory course or a concluding seminar or project. (Note: Some programs require both.) In order to earn an interdisciplinary minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor or a Core requirement. The list and description of the interdisciplinary minors is available in the Morrissey College of Arts and Sciences section of this Catalog. Students choose courses for the minor in consultation with the director of the department's minor program.

Lynch School of Education and Human Development

Lynch School majors may minor in Special Education. Some Lynch School Elementary and Secondary Education majors are eligible to minor in Middle School Mathematics Teaching.

Further information on these minors is available in the Lynch School of Education and Human Development section of the University Catalog.

Connell School of Nursing

CSON students may pursue a Hispanic Studies minor, a Psychology minor, or a Humanities, Health, and Culture minor specifically for Nursing students by contacting the Academic Dean, Undergraduate Nursing Program. Six courses (18 credits) are required to complete the minor. Full details are available on the CSON website.

Carroll School of Management

Students in the Carroll School of Management may select any minor offered by the Morrissey College of Arts and Sciences.

For a complete list of minors visit the Majors and Minors page.

Concentrations

Carroll School of Management (CSOM)

Concentrations, or areas of specialization, are required for students earning degrees from Carroll School of Management and are available to Carroll School of Management students only. Most concentrations require four courses beyond the Core. However, some require five. Students must complete a concentration in one of the following areas: Accounting, Accounting and Information Systems, Accounting for Finance and Consulting, Business Analytics, Economics, Entrepreneurship, Finance, General Management, Information Systems, Management and Leadership, Managing for Social Impact and the Public Good, Marketing, or Operations Management. Students declare a concentration second semester sophomore year or during the junior year.
Overloads

The standard semester course load for undergraduates is five 3-credit courses and a maximum of 20 credits, including labs and other 1- or 2-credit courses. Students are eligible to overload if they have earned at least a 3.0 overall cumulative GPA or a 3.0 GPA in the semester immediately prior to the one for which the overload is sought, in which case they may register online for a sixth course of 3 credits or more and a maximum of 24 credits, including labs and other 1- and 2-credit courses, during the first seven class-days of the semester.

Students are not permitted to take a sixth course of 3 credits or more during their first semester at Boston College. Second-semester freshmen who wish to overload with a sixth course of 3 credits or more must obtain permission from their Academic Dean.

Students with an overall cumulative GPA between 2.0 and 3.0 may, under exceptional circumstances, be allowed by their Academic Dean to enroll in a sixth course.

Students in a Woods College of Advancing Studies degree program may take a maximum course load of three courses per semester. Authorization for one additional course will be given only if the student has completed three courses in the previous semester, each with a grade of B- or better. Additional courses require authorization. Courses taken without reference to this regulation do not advance a student's Woods College degree program.

Readmission

Students who desire readmission must initiate the process in the Office of the appropriate Academic Dean of their school or college. Applications for readmission should be made at least four weeks before the start of the semester in which the student seeks to resume study. The appropriate Academic Dean will then make the decision about readmission, after careful consideration of the best interests of both the student and the University.

In instances where a sustained period of time (more than one year) has elapsed since a student was last enrolled, the appropriate Academic Dean in consultation with the appropriate representative of the student’s department or program will identify the academic requirements, if any, that must be completed after readmission and before awarding the degree. Factors that will determine these requirements include, but are not limited to: the currency of the student’s knowledge in the student’s proposed academic major(s); the pertinence of courses completed at Boston College to current degree and licensure requirements; any academic work completed elsewhere that is relevant to degree and licensure requirements; and the length of the student’s absence.

If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

Satisfactory Academic Progress

The requirements for Satisfactory Academic Progress are specified in the academic regulations for each school.

Study Abroad—Office of International Programs

Boston College international programs are open to BC undergraduate students who meet the requirements for study abroad as outlined by their Academic Dean. In order to be eligible for admission, students must be in good academic standing with a GPA of 3.0 or higher and have a clean disciplinary record. Final approval is at the discretion of the OIP, deans, and Student Affairs. Many programs have additional requirements and a selective application process. Students should consult with the OIP for specific admission requirements.
Students remain subject to the academic policies of their home department as well as the host institution. They are expected to register for a full course load as defined by BC and the host university in order to earn a full semester’s worth of credit. Grades earned abroad on BC programs are converted into the BC grading scale and are factored into GPA calculations; credits are awarded based on the OIP course and credit requirement guidelines. For non-BC programs, students may transfer credit back to BC, as long as they earn the equivalent of a C- or higher. Grades on non-BC programs are not calculated into the BC GPA, though they do appear on the student's BC transcript as transfer credits.

Courses taken abroad which meet BC academic standards automatically count as general elective credit towards graduation. Students wishing to fulfill major, minor, or Core requirements abroad on both BC and non-BC programs may do so with the approval of the appropriate department(s). The OIP maintains a list of abroad courses considered pre-approved for major, minor, and Core requirements; for non-pre-approved courses, students must submit a completed BC Degree Audit Course Substitution and Waiver form to the Office of Student Services. Students are highly encouraged to seek such substitution approvals before taking courses abroad. For Cultural Diversity Core credit, paperwork is not required; instead, students must fill out an online request form here.

A student's enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the Title IV, HEOA programs.

Summer Courses

As of summer 2018, summer courses taken at Boston College, with the exception of courses beginning with an AD prefix, count for academic credit and all grades earned are factored into students’ GPA as regular BC courses. Courses may satisfy Core or major/minor requirements as specified by the department, and will count toward the 120 credits required for the degree.

BC Summer Courses Abroad

BC summer courses taken abroad through the Office of International Programs (OIP) are factored into students' GPA as regular BC courses, and count for academic credit.

Summer Courses at Other Institutions

Summer courses taken at another university—local, national, international—or with an AD prefix in the Woods College of Advancing Studies, must be pre- approved from the Academic Dean using the Course Approval Form. Students will also need departmental approval if they want the summer course to fulfill a Core, language, major, or minor requirement. These summer courses may count for academic degree credit and grades will factor into the GPA if students have credit deficiencies. Students will receive enrichment credit if there is no prior credit deficiency. Enrichment credit means that the course may satisfy Core or major requirements with department permission, but will not count toward the 120 credits required for the degree. Courses, grades, and credits will be listed on the transcript but will not be calculated into the GPA. With the approval of the Academic Dean, students who incur deficiencies may use enrichment courses in previous summers to make up for deficiencies incurred subsequently.

Regardless of the number of summer credits earned, students must successfully complete a minimum of 96 degree credits during the academic year.

Transcripts

All current students submit requests for academic transcripts at www.bc.edu/myservices (“Transcript Request and Status”). Requests for academic transcripts may also be submitted in writing to the following address: Transcript Requests, Office of Student Services, Lyons Hall, Boston College, Chestnut Hill, MA 02467, or faxed to 617-552-4975. For more information visit www.bc.edu/transcript.
Requests are usually processed within 48 to 72 hours of receipt.

Transcript/Diploma Holds

Diplomas will not be issued, nor transcript requests honored, for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

Transfer of Credit

The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit. Courses in transfer with credit values ranging from 1–4 semester hours of credit will be considered on a course by course basis. A maximum of 30 credit hours for a first semester sophomore, 45 for a second semester sophomore and 60 semester hours of credit for an incoming junior will be allowed in transfer.

No transfer credit will be granted for internships, field experiences, practica, or independent study.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student’s career at the University and reflects only work completed as a full-time undergraduate at Boston College. A new grade point average also begins when students transfer from the Woods College of Advancing Studies to one of the full-time undergraduate schools or when a full-time undergraduate transfers to the Woods College of Advancing Studies.

Courses taken at other institutions during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. Courses taken through the Boston College Summer Session during the summer prior to enrollment must be approved by the appropriate Academic Dean.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently-enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal service and Campus mail: For purposes of written communication, the student’s local and permanent addresses on record at Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at www.bc.edu/myservices ("Update Your Address/Phone/Emergency Contact Information") if the addresses are not accurate in university records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address via a link on the Office of International Programs website.

E-mail: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student’s Boston College e-mail address in the “From:” and “Reply To:” lines, and should originate from the student’s Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.
Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

University Degree Requirements

The requirements for the bachelor's degree in the undergraduate day colleges are the completion with a satisfactory cumulative average (at least 1.5 in the Carroll School of Management and at least 1.667 in all other schools) and credit requirements which are distributed as follows:

- Morrissey College of Arts and Sciences students must accumulate at least 120 credits with 96 of the required 120 credits in departments of the Morrissey College of Arts and Sciences. Additional courses may be chosen from the offerings of the professional schools. Students in the Morrissey College of Arts and Sciences complete the Core curriculum, a major of at least 30 credits, and the language proficiency requirement.
- Carroll School of Management students complete 120 credits for graduation. All Lynch School of Education and Human Development majors complete 120 credits.
- Connell School of Nursing students complete at least 117 credits, distributed over eight semesters of full-time academic work.

Withdrawal from a Course

Undergraduates may drop or add a course(s) online **during the first seven class-days of the semester**. Undergraduates only may drop a course until October 1, in the fall and February 15, in the spring semesters in their Academic Dean's office. Students may not drop below 12 credits in a semester.

After the extended drop period, undergraduates who withdraw from a course will have a "W" recorded in the grade column of their academic record. A grade of W has no effect on the GPA. A student may re-take a course for which a W has been recorded, in which case both the W and the subsequent grade are entered on the academic record.

To withdraw from a course all students must go to the Academic Forms page of the Student Services website, print the withdrawal form, and then go to the Office of the Academic Dean for their school. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Students who wish to withdraw from Boston College in good standing are required to file a Withdrawal Form in the Academic Dean's Office. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

University (Senior) Awards and Honors

Morrissey College of Arts and Sciences

*Frank J. Bailey, Sr. Award*

An award, the gift of the Bailey family, in memory of their father Frank J. Bailey, given to the graduating senior with a distinguished academic record in the field of Middle Eastern and Islamic Studies.
John Bapst, S.J., Philosophy Award

An award in honor of John Bapst, S.J., given to the student whose overall performance in philosophy courses has been outstanding.

J. Robert Barth, S.J., Award for Excellence in the Arts

An award in honor of the Dean of the Morrissey College of Arts and Sciences (1988–1999), who established and nurtured departments and programs in the arts. This award is presented annually to a senior who has made outstanding contributions to Boston College in the fine or performing arts.

Andres Bello Award in Spanish

An award offered by Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in Spanish.

George F. and Jean W. Bemis Award

An award in memory of George Fisher Bemis (1899–1971) and Jean Wilmot Bemis (1903–1987) of Milton, MA, a devoted couple quietly of service to others and with whom it was a delight to work. The award seeks to single out a member of the senior class distinguished for service to others.

Albert A. Bennett Award

In honor of Albert A. Bennett (1888–1971), an accomplished mathematician, distinguished teacher, and a Visiting Professor of Mathematics at Boston College from 1962–1971. This award is given to a member of the senior class, who demonstrates a high level of mathematical achievement and who, in their undergraduate years, has shown interest in or a desire for a career in teaching.

Wendy Berson Language Award

An award, the gift of Mrs. Solomon Berson in memory of her daughter, Wendy Berson, given to the senior who demonstrates excellence in the area of Romance Languages in general and, specifically, the ability to speak one or more languages with great expertise.

Laetitia M. Blain Award for Excellence in Musical Performance

An award named in honor of Laetitia M. Blain, Musician-In-Residence at Boston College (1975–2000). This award is given annually to a senior who has contributed to the musical life on campus in a significant and outstanding way.

Alice E. Bourneuf Award

In honor of Alice E. Bourneuf, Professor of Economics at Boston College (1959–1977), this award is given to an outstanding senior in Economics based on achievement in both major and non-major courses, strength of curriculum, quality of written and creative work, and attitude toward the study of Economics.

Francis A. Brick Award
An award, the gift of Mrs. Francis A. Brick, in memory of her husband, Francis A. Brick, LL.D. 1896, given to the student who has been outstanding in character, loyalty, leadership, and scholarship during their four years at Boston College.

The Dr. Donald S. Brown Award

The Donald S. Brown Award was established in honor of the former director of the Office of AHANA Student Programs from 1978–2005. This award honors a senior who throughout their undergraduate career has made extraordinary contributions to the Boston College community in ways that have benefited AHANA students in the areas of leadership, service and academic development.

Donald S. Carlisle Award

An award established by the Department of Political Science in memory of Donald S. Carlisle, Professor of Political Science at Boston College (1968–1997), given each year to a graduating senior for outstanding achievement in political science.

Normand Cartier Award

The Normand Cartier Award is given to a senior who is a member of the Lambda Psi Chapter of the Pi Delta Phi National French Honors Society and has demonstrated leadership in promoting French and francophone literature and culture in the Boston College community.

Brendan Connolly, S.J., Award

An award in honor of Brendan Connolly, S.J. (1913–1974), Director of Libraries at Boston College (1959–1974), a witty and deeply loyal man who loved books and respected learning. This award is made to a member of the senior class who is distinguished for the same characteristics.

Matthew Copithorne Scholarship

An award given to a graduate, exhibiting qualities of character, industry, and intelligence, and plans to do graduate study at Harvard or MIT.

Cardinal Cushing Award

An award donated by Francis Cardinal Spellman, in honor of Richard Cardinal Cushing, given annually to an undergraduate student for the best writing in fiction published in a Boston College undergraduate publication.

Joseph G. and Margaret M. Dever Fellowship

Founded by Robert Muse, Esq. '42, in honor of his classmate, Joseph Dever, the cash grant is given to a graduating senior who shows promise of a career in writing.

John D. Donovan Award

An award named in honor of John D. Donovan (Boston College, A.B. 1939; M.A. 1941; Harvard, Ph.D. 1951), Professor of Sociology (1952–1988). The Department of Sociology presents this award to the undergraduate student who submits the best paper written for a course in sociology during the previous year.
Patrick Durcan Award

An award, the gift of Mrs. J. Greer, in memory of her brother, Rev. Patrick Durcan, given to the student whose overall performance in history courses has been outstanding.

Figurito Family Award for Scholarly Achievement in Italian

An award presented in honor of Joseph Figurito, Professor of French and Italian at Boston College for over half the twentieth century, to a senior for scholarly achievement in Italian.

The Deborah Fine Award

An annual gift, established in 2004, given by Ms. Judith Fine in memory of her daughter, a member of the Class of 1981. This award is given to a female member of the senior class who is going on to medical school in the fall.

Edward H. Finnegan, S.J., Award

An award in memory of Rev. Edward H. Finnegan, S.J., given to the student who has best exemplified in their four years at Boston College the spirit of the College motto, "Ever to Excel."

Mary A. and Katherine G. Finneran Commencement Award

An award, the gift of Misses Elizabeth and Theresa Finneran, given to the student who has achieved outstanding success in studies, while also devoting time and talents to other activities for the enrichment of the College and student life.

William A. Gamson Award

An award established by the Department of Sociology in honor of William A. Gamson, given each year to a graduating senior for outstanding academic achievement in sociology.

Thomas I. Gasson, S.J., Award

An award in honor of Thomas I. Gasson, S. J., President of Boston College (1907–1914), given to the graduating senior with a distinguished academic record over a four-year period.

General Excellence Award

A gift of the Philomatheia Club, given to the student who has achieved general excellence in all branches of studies during their entire four years at Boston College.

Giffuni Prize

An award sponsored by the Giffuni Family Fund in honor of Vincent Giffuni (BC ’65), given to a senior who has written an outstanding thesis in economics.

The George J. Goldsmith Award
An award given in memory of longtime Physics Department faculty member George J. Goldsmith, who is remembered for both his scholarship and his selfless dedication to the students of Boston College, this award is given annually to a graduating physics major in recognition of excellence in academic achievement and research.

*John L. Heineman Award*

This award was established by the History Department in honor of the late John L. Heineman, a challenging and inspirational colleague (1963–2003), a Renaissance man, and a master teacher. It is given each year to a graduating senior in recognition of exceptional historical scholarship.

*Janet Wilson James Essay Prize*

An award in memory of Professor Janet Wilson James, historian and feminist scholar, given to a senior distinguished for scholarship in women’s studies.

*The David A. Karp Award*

An award in honor of David A. Karp, Professor of Sociology from 1971–2012. While leading the Sociology Honors Program, he inspired generations of students to strive for insightful sociological listening and beautiful writing that is the hallmark of his work.

*William A. Kean Memorial Award*

An award, the gift of James M. Kean in memory of his brother, William A. Kean ’35, given to that member of the graduating class deemed the outstanding English major.

*Bishop Kelleher Award*

An award donated by Francis Cardinal Spellman in honor of The Most Reverend Louis F. Kelleher, given to an undergraduate student for the best writing in poetry published in a Boston College undergraduate publication.

*William J. Kenealy, S.J., Award*

An award in memory of the late William J. Kenealy, S.J., Dean of the Boston College Law School (1939–1956), whose life was distinguished by a passion for social justice. This award is given to the graduating senior who has been distinguished in both academic work and social concern.

*T. Frank Kennedy, S.J., Award for Excellence in the Academic Study of Music*

An award given in honor of the co-founder, long-term chair, and guiding spirit of the Music Department to an outstanding senior who has shown consistent excellence in the academic study of Music.

*Joseph M. Larkin, S.J., Award*

An award presented annually to the senior member of the Boston College Dramatics Society who has most clearly exhibited the qualities of dedication and integrity exemplified by the life and career of Rev. Joseph M. Larkin, S.J.

*John Henry Lawton Award*
An award presented in memory of John Henry Lawton, to the member of the senior class who has shown outstanding scholarship in the Department of Communication.

**Allison R. Macomber, Jr., Award in the Fine Arts**

Two awards established and supported primarily by gifts from the Horbach Fund for outstanding work in the Fine Arts in honor of Allison R. Macomber, Jr., Artist-in-Residence at Boston College, 1963–1979, whose presence and teaching opened the eyes not only of his students but of the entire community to the greatness and wonders of art.

**J. Paul Marcoux Award**

An award in honor of J. Paul Marcoux, Professor of Theater at Boston College (1964–1994), presented annually to a senior Theater major for excellence and growth, both academically and artistically, over their four years at Boston College.

**Richard and Marianne Martin Award**

In memory of Richard and Marianne Martin for their dedication to the ideals of art, and for their unstinting devotion to the goals and values of Boston College. Two awards are given by the Boston College Friends of Art; one to an outstanding scholar in art history, the other to a student who excels in studio art.

**Denis A. McCarthy Award**

The Denis A. McCarthy Award is given to an undergraduate for outstanding work in creative writing.

**John McCarthy, S.J., Award**

An award established in memory of Rev. John McCarthy, S.J., a most beloved scholar, faculty member, and Dean in the Morrissey College of Arts and Sciences, for those whose Scholar of the College projects are deemed most distinguished in the Humanities, the Social Sciences, the Natural Sciences and in History.

**Gail A. McGrath Award**

An award presented in memory of Dr. Gail A. McGrath, a beloved professor of Communication at Boston College (1966–1997), to a member of the senior class pursuing a graduate degree in Communication.

**Albert McGuinn, S.J., Award**

This award is in memory of the late Albert McGuinn, S.J., long-time Chairman of the Chemistry Department at Boston College, and presented to the senior candidate for the Bachelor of Science degree. The recipient has most successfully combined proficiency in a major field of study with achievements, either academic, extracurricular, or a combination of both, in the social sciences or humanities.

**Henry J. McMahon Award**

In memory of Henry J. McMahon, faculty member and Associate Dean at Boston College (1946–1984). This award is given annually to the graduating senior of the Morrissey College of Arts and Sciences who has been accepted at a law school and who has been distinguished by scholarship, loyalty, and service to the College.
The John J. Neuhauser Award in Computer Science

An award given to the senior in the Morrissey College of Arts and Sciences who has demonstrated outstanding achievement in computer science.

John F. Norton Award

An award in honor of John F. Norton ’22, Boston College professor (1926–1965), given to the student who best personifies the tradition of humanistic scholarship.

Cardinal O'Connell Theology Award

An award, the gift of the late William Cardinal O’Connell, given to the student whose overall performance in theology courses has been outstanding.

The Thomas H. O’Connor Award

An award established by the History Department in honor of the late Thomas H. O’Connor, who taught in the department from 1950–1999, and who also served as Boston College University Historian. It is given each year to a graduating senior in recognition of outstanding achievement in the study of American history.

Princess Grace of Monaco Award

An award offered by Dr. Helene Day, Consul of Monaco, and Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in French.

E. Paul Robsham Distinguished Service Award

An award given annually by the Theater Department to the graduating senior, who though seldom sharing the spotlight, has worked with exceptional professionalism, dedication, creativity and enthusiasm behind the scenes to bring the benefits of the theater to the Boston College community.

Paul J. Sally, Jr., Award

A cash award, in honor of Paul J. Sally, Jr., ’54, ’56, Professor of Mathematics at the University of Chicago, a highly esteemed mathematician well known for his many contributions to mathematical endeavors at all levels. This award is bestowed on senior mathematics majors who demonstrate excellence in mathematics coursework of a particularly demanding nature.

Secondary Education Minor Award

This award is conferred on a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program within the Lynch School of Education and Human Development and has achieved distinguished success as a student teacher.

Harry W. Smith Award

An award, the gift of the Smith Family, in memory of Harry W. Smith, a leader in corporate and community philanthropic work, to honor a member of the senior class who has used personal talents to an exceptional degree in the service of others.
Dr. Joseph R. Stanton, M.D., ’42 Award

This award is a gift from Stanton Medical Associates in memory of Joseph Stanton, M.D. ’42. The award is intended for a graduating senior who has been accepted by a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Dr. Joseph S. Stanton Memorial Award

An award, the gift of Doctors Richard Stanton ’38 and Joseph R. Stanton ’42 in memory of their father, Joseph Stanton who was also a doctor. The award is given to the student who has been accepted to a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

Tully Theology Award

An award given in memory of the late Dennis H. Tully, given to the student who has written the best paper on a theological subject.

Max Wainer Award

An award, the gift of Anneliese K. Wainer, Ph.D., ’72, in honor of her husband, Max Wainer, given annually to the senior who is deemed the outstanding student in Classics.

Lynch School of Education and Human Development

Charles F. Donovan, S.J., Award

Presented to a member of the senior class in honor of Father Donovan, founding Dean of the School. The recipient exhibits superior leadership, academic, and innovative qualities, and demonstrates excellence in professional and personal commitment, with a genuine concern for the needs and values of others.

General Excellence Award

Presented to a senior who has at the same time manifested outstanding achievement in all courses of study during four academic years and qualifies for teaching licensure.

Saint Edmund Campion Award

Presented for excellence in an academic major.

Reverend Edward H. Finnegan, S.J., Nominee Award

Presented to the Lynch School nominee for the top undergraduate prize given to the graduating senior who best exemplifies the qualities of excellence, humility, and service to others and who best epitomizes the University’s motto, “Ever to Excel.”

Dr. Marie M. Gearan Award
Presented in honor of Professor Gearan, a member of the original faculty and first Director of Student Teaching, to a member of the senior class for outstanding academic achievement, campus leadership, and distinguished success as a student teacher.

Saint Richard Gwyn Award

Presented to a member of the senior class for outstanding promise as a secondary teacher.

Reverend Henry P. Wennerberg, S.J., Award

Presented in honor of Father Wennerberg, first spiritual counselor in the School, to a member of the senior class who is outstanding for participation and leadership in school and campus activities.

John J. Cardinal Wright Award

Presented in honor of Cardinal Wright to that senior who has shown expert use of creativity and imagination in the area of motivation, and at the same time is dedicated to high educational ideals.

John A. Schmitt Award

Presented to a member of the senior class who, as Professor Schmitt did, has consistently demonstrated compassion for fellow human beings, integrity in dealings with others, diligence in his or her profession, and courage in the pursuit of what he or she believes to be right.

Mr. and Mrs. Vincent P. Roberts Award

Presented to a member of the senior class who is distinguished for loyalty to the ideals and purposes of the Lynch School.

James F. Moynihan, S.J., Award

Presented in honor of Father Moynihan, first chair of the Psychology Department and Professor of Psychology in Education for many years, to a student in the Applied Psychology and Human Development Program, who has shown superior scholarship, contributed creatively to the well-being of others, and has manifested dedication and commitment to the enhancement of the human development process.

Patricia M. Coyle Award

Given to the graduating senior in Elementary Education who is a clear thinker in the field, able to translate the theories of child development and learning into the practice of teaching young children with enthusiasm and love, and a person who is a thoughtful, reflective teacher, perceptive and sensitive to the needs of children.

Karen E. Noonan Award

Given to the graduating senior in Elementary Education who has the qualities of a “natural” teacher of young children; a person who can communicate warmth and a sense of excitement for learning; a person who loves the exhilaration of working with challenging students, and making each child in the classroom feel important and unique.

Cynthia J. Sullivan ‘79 Memorial Achievement Award
Presented to members of the junior class who have achieved outstanding academic achievement; demonstrated qualities of loyalty, generosity of self, and integrity; and show an appreciation for the arts.

_Cynthia J. Sullivan Award Winner_

Presented to last year’s winner of the Cynthia J. Sullivan Memorial Achievement Award, this stipend is intended to fund graduate study or post-graduate travel.

_Reverend John Christopher Sullivan, S.J., Award_

Presented in honor of Father Sullivan, first Associate Dean in the School of Education, to a member of the senior class who, as Father Sullivan did, exhibits cheerfulness, creativity, enthusiasm, and high energy; who demonstrates respect for individuals and is supportive of others; who shares with them the gift of personal care, regard, individual attention, warmth, and respectful sense of humor; and whose personality and actions reflect an appreciation of the dignity and value of every individual.

_Bernard A. Stotsky/Professor John Eichorn Prize_

Awarded to a student who has demonstrated excellence in the area of special education at the undergraduate level and does a practicum or pre-practicum at the Campus School as part of an academic program of study in the Lynch School.

_Gretchen A. Bussard Award_

Presented to a member of the junior class in the Applied Psychology and Human Development Program who has used what he or she has learned in the classroom to improve the lives of others.

_Albert A. Bennett Award_

Presented by the Morrissey College of Arts and Sciences, in honor of Professor Bennett (1888–1971), visiting professor of mathematics at Boston College 1962–1971, to a member of the graduating class who demonstrates a high level of mathematical achievement and who has shown interest in or a desire for a career in teaching.

_Secondary Education Award_

Given to the student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program and has achieved distinguished success as a student teacher.

_Lynch School Awards_

Presented to graduating seniors for academic excellence and outstanding performance in a variety of areas.

_Carroll School of Management_

_Thomas I. Gasson, S.J., Award_

Founded by Boston College for general excellence in all courses of study during the four years in the Carroll School of Management.
The Edward H. Finnegan, S.J. Memorial Award Nominee

The top commencement honor which recognizes a senior who best exemplifies the University's motto: "Ever to Excel."

The James Gips Outstanding Student in Information Systems Award

Awarded to the student who has demonstrated outstanding achievement in the field of Information Systems.

The John B. Atkinson Award

Founded by John B. Atkinson for excellence in all courses studied in the field of Operations Management.

George Aragon Outstanding Student Award

For an outstanding senior concentrating in Finance. The selection is made by the faculty committee of the Finance Department.

The Edgar F. Huse Memorial Award

An award presented annually by the faculty for excellence in Management and Leadership.

The Hutchinson Memorial Award

Presented by the Boston chapter of the American Marketing Association to a Marketing student.

The Raymond F. Keyes Service Award

Awarded to a senior concentrating in Marketing who has demonstrated a desire to provide service to the nonprofit community.

Charles W. Lyons, S.J., Award

Founded by Boston College for excellence in all courses studied in the field of Accounting.

The Patrick A. O'Connell Finance Award

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Finance.

The Patrick A. O'Connell Marketing Award

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Marketing.

The Eric Allen Serra Award

Established in 1993 by the friends of Eric Allen Serra and awarded to a graduating senior who is actively involved in the BC community and best represents the attributes for which Eric is remembered by his friends.
The James E. Shaw Memorial Award

An award given to a senior in the Carroll School of Management who has been accepted to a recognized Law School. The student demonstrates a strong personal interest in the welfare of fellow students.

The Rev. Stephen Shea, S.J., Award

Awarded to the senior who has attained the highest average in all courses in Philosophy during four years in the Carroll School of Management.

The James D. Sullivan, S.J., Award

Awarded to a senior outstanding in character and achievement.

The Matthew J. Toomey Award

Founded by Mr. Knowles J. Toomey to honor the outstanding student in the Carroll School of Management Honors Program.

Outstanding Student in Business Analytics Award

Awarded to the senior who demonstrates excellence in all courses studied in the Business Analytics discipline.

Dean’s Letter of Commendation

Awarded to a senior who is recognized for exemplary accomplishment in the Carroll School community.

Connell School of Nursing

Alumni Award

Established by the alumni to honor a nursing student for general excellence in both the classroom and in the wider Boston College community.

Marie S. Andrews Clinical Performance Award

Established by the faculty to honor the student who has demonstrated, through performance across the clinical education portion of the curriculum, sensitivity to the needs of patients, respect for dignity and "wholeness" of the patient, and outstanding ability to deliver quality nursing care.

Cathy Jean Malek Award

Established by the faculty to honor the student who is a role model for his or her fellow classmates and underclassmen with consistent professionalism and integrity.

William F. Connell Award Undergraduate Nominee
Established by the faculty to honor one graduating student who best demonstrates the attributes of leadership, loyalty, service, achievement, humility, and goodwill.

Edward H. Finnegan, S.J., Award Nominee

Established by the faculty to honor the student, who through excellence, humility, and service to others, exemplifies the Boston College motto of “Ever to Excel.” The faculty of the four undergraduate schools at Boston College each nominates a candidate and the winner is announced at the University Commencement. The award winner will accept the degree for the class at the University Commencement.

Reverend Edward J. Gorman, S.J., Leadership Award

Given to the student who, in the judgment of classmates, best exemplifies leadership and who has contributed to the William F. Connell School of Nursing through dedication, service, and sincerity.

Susan E. Donelan Inclusive Community Award

Given to the student who, in the judgment of classmates has promoted a spirit of cultural awareness, inclusivity, and support to foster the success of his or her graduating class.

Jean A. O’Neil Achievement Award

Established by the faculty to honor the graduating senior who has shown the greatest academic growth over the course of their four years of study in the baccalaureate nursing program.

Maureen A. Eldredge Leadership and Volunteer Service Award

Established by the faculty to honor the graduate who embodies the Jesuit ideals of being “men and women in service to others” through demonstrated leadership and substantial commitment to others in volunteer service.

Graduate Academic Regulations

University-wide academic regulations that pertain to all graduate and professional students are presented below. Students are expected to become familiar with the regulations that are specific to their school.

To learn about each school’s academic regulations, please refer to the following sites:

Graduate School of the Morrissey College of Arts and Sciences

[www.bc.edu/bc-web/schools/mcas/graduate/current-graduate-students/policies-and-procedures.html](http://www.bc.edu/bc-web/schools/mcas/graduate/current-graduate-students/policies-and-procedures.html)

Lynch School of Education and Human Development, Graduate Programs

Master’s Students: [www.bc.edu/bc-web/schools/lsoe/sites/current-students/master-s-policies-and-procedures.html](http://www.bc.edu/bc-web/schools/lsoe/sites/current-students/master-s-policies-and-procedures.html)

Doctoral Students: [www.bc.edu/bc-web/schools/lsoe/sites/current-students/doctoral-policies-and-procedures.html](http://www.bc.edu/bc-web/schools/lsoe/sites/current-students/doctoral-policies-and-procedures.html)
Academic Regulations are effective from September of the current academic year (2020–2021) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Associate Dean specifies otherwise in writing at the time of readmission.

Academic Grievances

Any graduate or professional student who believes he or she has been treated unfairly in academic matters should consult with the faculty member or administrator designated by their school to discuss the situation and to obtain information about relevant grievance policies and procedures.

Academic Record

A record of each graduate or professional student's academic work is prepared and maintained permanently by the Office of Student Services. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.
Attendance

Graduate and professional students are expected to meet course requirements in classes, internships, and practica as specified in the syllabus or document prepared explicitly for the academic experience. A student who is absent repeatedly from these academic experiences will be evaluated by the responsible faculty member and/or designated supervisor(s) to ascertain the student's ability to continue in the course and to achieve course objectives.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in the course.

Professors will announce, reasonably well in advance, tests, examinations and other forms of assessment based on the material covered in the course, as well as other assigned material. A student who is absent from a course is responsible for obtaining knowledge of what happened in the course, especially information about announced tests, papers, or other assignments.

A student who is absent from a course on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a makeup will be allowed.

In cases of prolonged absence the student or his or her representative should communicate with the student's graduate Associate Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to the course should be made with the Graduate Associate Dean's Office as soon as the student's health and other circumstances permit.

Absences for Religious Reasons

Any graduate or professional student who is unable, because of his or her religious beliefs, to attend classes, internships, or practica, or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to makeup such examination, study or work requirement that may have been missed because of such absence on any particular day. However, students should notify professors and supervisors at the end of the first course meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

Audits

Graduate and professional students should consult their school or department for specific policies regarding audits.

Comprehensive Examination or Qualifying Papers: Doctoral

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations or qualifying papers for doctoral students.

Comprehensive Examination: Master's Students

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations for master's students.
Continuation: Doctoral Candidacy

Graduate and professional students who have completed all required coursework and who have successfully completed the comprehensive examination or the oral defense of a publishable paper are admitted to doctoral candidacy. Doctoral candidates are required to register and pay for Doctoral Continuation (9999) during each semester of their candidacy or its equivalent.

Please refer to your school's regulation for additional information on doctoral candidacy.

Cross Registration

Boston Theological Interreligious Consortium

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in the BTI.

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John's Seminary and Theological Institute

The Consortium

Boston College is part of a consortium that includes Boston University, Brandeis University, Hebrew College, Hellenic College, Pine Manor College, Regis College, and Tufts University. Eligible students are allowed to take courses at any of these institutions if the same courses are not offered at Boston College at any time during the academic year. Cross registration materials are available from the Office of Student Services. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium.

Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality

Eligible graduate and professional students enrolled in degree programs during the academic year may apply to participate in the Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality, an inter-institutional enterprise established to advance the field of women's studies and enlarge the scope of graduate education through new models of team teaching and interdisciplinary study. Faculty and students are drawn from nine member schools: Boston College, Boston University, Brandeis University, Harvard University, MIT, Northeastern, Simmons, Tufts, and UMass Boston. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium. Eligible students need to obtain permission from their department or school. Registration forms will be mailed from the Consortium to accepted students.

Enrollment Status

Full-Time Enrollment Status

Graduate and professional students should consult their school or department for specific policies regarding full-time enrollment status.
Final Examinations

For graduate level courses that have final examinations, professors may use the University’s final examination schedule, which is public and set before classes begin, or they may set the day and time of their final examination in the syllabus or document prepared explicitly for the academic experience. All students are responsible for knowing when their final examinations will take place and for taking examinations at the scheduled time. Students who miss a final examination are not entitled, as a matter of right, to a makeup examination except for serious illness and/or family emergency. Students who are not able to take a final examination during its scheduled time should contact the person designated by the department or school, preferably prior to the examination date, to inform them of their situation and to make alternative arrangements if granted permission to do so.

Foreign Language Requirement

Graduate and professional students should consult their school or department for specific policies regarding foreign language requirements.

Grading

In each graduate course, in which a graduate or professional student is registered for graduate credit, the student will receive one of the following grades at the end of the semester: A, A-, B+, B, B-, C, F, W, J, U, P, or I. The high passing grade of A is awarded for superior work. The passing grade of B is awarded for work that clearly is satisfactory at the graduate level. The low passing grade of C is awarded for work that is minimally acceptable at the graduate level. The failing grade of F is awarded for work that is unsatisfactory.

A pass/fail option is available for a limited number of courses. A U grade is recorded for ungraded courses such as doctoral continuation.

Please refer to your school’s regulation for additional information on grading.

Grading Scale

In computing averages, the following numerical equivalents are used. The entire grading scale is not used by all schools.

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA
Grade Changes

Grade changes should be made only for exceptional reasons. The grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete. Incompletes may be granted to provide a student time to finish his or her course work after the date set for the course examination or in the course syllabus. Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

All I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer except for students in the Boston College School of Social Work and the Boston College Law School.

Graduate and professional students should consult their school or department for more information on grade changes.

Pass/Fail Electives

Graduate and professional students should consult their school or department for specific policies regarding pass/fail electives.

Good Standing

Grades, satisfactory performance in internships and practica, and timely completion of degree requirements determine a student’s good standing in his or her program. Students should be informed in a timely manner if their good standing is in jeopardy and the conditions needed to maintain or establish good standing.

Graduate and professional students should consult their school or department for specific policies regarding academic good standing.

Graduation

The University awards degrees in May, August, and December of each year except to students in the Law School where degrees are conferred in May and December. Commencement ceremonies are held only in May. Students who have completed all requirements for the degree before a specific graduation date are eligible to receive the degree as of the university’s next official graduation date. A diploma will not be dated before all work is completed. Students who graduate in December or August may participate in commencement exercises the following May.

In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at www.bc.edu/myservices by the following dates:

- February 1 for May graduation
- May 1 for August graduation
- October 1 for December graduation

Leave of Absence

Voluntary Leave of Absence

Graduate students who do not register for course work, Thesis or Dissertation Direction, or Interim Study in any given semester must request a leave of absence for that semester. Leaves of absence are not usually granted for more than two semesters at a
time, and are rarely granted for students on Doctoral Continuation. Students may apply for a personal or medical leave of absence. As described below, appropriate documentation is required for a medical leave of absence.

Students may obtain a personal or medical leave of absence form online at www.bc.edu/studentservices and submit it for their school’s Associate Dean’s approval.

Leave time for either a personal or medical leave of absence will normally be considered a portion of the total time limit for the degree unless the contrary is decided upon initially between the student and the Associate Dean.

**Personal Leave of Absence**

Students on an approved personal leave of absence should contact the Associate Dean’s Office at least six weeks prior to the semester in which they expect to re-enroll. The appropriate Associate Dean will make the decision on the readmission request.

**Medical Leave of Absence**

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student’s Associate Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student’s health care provider; the student’s consent for the provider to discuss the student’s condition with University clinicians, and/or an independent evaluation of the student’s condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College’s medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: www.bc.edu/medinsurance. Students granted a medical leave may be entitled to a semester’s tuition credit to be provided upon readmission, and should consult their school’s policy regarding the tuition credit.

**Involuntary Leave of Absence**

Students may be separated from the University for academic reasons (please refer to specific school or department policies for more information) or for reasons of health, safety, or when a student’s continuance at Boston College poses significant risk to the student or others. For additional information, visit the Division of Student Affairs website.

**Readmission**

Graduate and professional students seeking readmission to the University should consult with the policies and procedures specified by their department or school. The decision to re-admit a student will be based on a consideration of the best interests of both the student and the University.
Summer Courses

In graduate programs, summer courses may be an integral part of the curriculum. Graduate and professional students should consult with their schools or departments for specific policies regarding summer courses.

Time-to-Degree

Graduate and professional students should consult their school or department for specific policies regarding time-to-degree.

Transcripts

All current graduate and professional students submit requests for academic transcripts at www.bc.edu/myservices. Requests for academic transcripts may also be submitted in writing to the following address: Transcript Requests, Office of Student Services, Lyons Hall, Boston College, Chestnut Hill, MA 02467, or faxed to 617-552-4975.

Requests are usually processed within 48 to 72 hours of receipt. For more information, visit www.bc.edu/transcripts.

Transcript/Diploma Holds

The University will not issue diplomas or release transcripts for any graduate or professional student with an outstanding financial obligation to the University, which includes failure to complete a mandatory loan exit interview.

Transfer of Credit

Graduate and professional students should consult their school or department for specific policies regarding transfer of credit.

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled graduate and professional students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal service and Campus mail: For purposes of written communication, the student’s local and permanent addresses on record at the Office of Student Services will be regarded as the student’s official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses and to enter corrections at www.bc.edu/myservices if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester and again soon after submitting any corrections.

E-mail: The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with e-mail accounts as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

Students may forward their e-mail messages from their University e-mail accounts to non-university e-mail systems. In such cases, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure
by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

All student responses to official e-mail communications from the University must contain the student’s University e-mail address in the “From:” and “Reply To:” lines and should originate from the student’s University e-mail account, to assure that the response can be recognized as a message from a member of the University community.

Withdrawal from a Course

Graduate and professional students who withdraw from a course after the drop/add period (after the first seven class-days of the semester) will have a “W” recorded in the grade column of their academic record. To withdraw from a course all students must go to the Forms page of the Office of Student Services website, print the withdrawal form, and then go to the Office of the Associate Dean for their school. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

Withdrawal from Boston College

Graduate and professional students who wish to withdraw from Boston College in good standing are required to file a Withdrawal Form in the Associate Dean’s Office. In the case of students who are dismissed for academic or disciplinary reasons, the Associate Dean will process the withdrawal.

University Awards and Honors

Please refer to your school or department website for information about awards and honors.

Distance Education Policies

Boston College offers a variety of distance education opportunities, designed to offer students a flexible, online alternative to traditional on-campus programs and courses.

In support of Boston College’s distance education initiatives, BC is an approved member of the National Council for State Authorization Reciprocity Agreements, or SARA. Boston College applied and was granted membership to SARA in 2018.

As described by SARA, the network provides a voluntary, regional approach to state oversight of postsecondary distance education (note, “distance education” is instruction offered by any means where the student and faculty member are in separate physical locations. It includes, but is not limited to, online, interactive video, and correspondence courses or programs.) When states join SARA, they agree to follow uniform processes for approving their eligible institutions’ participation. These policies help protect students and provide benefits to both states and institutions carrying out distance education in multiple states. As of April 2020, 49 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands are members of SARA. Over 2,100 colleges and universities participate in SARA.

Accreditation

Boston College is accredited by the New England Commission of Higher Education (NECHE) and has been accredited by NECHE since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer
review process every ten years which involves the preparation of a comprehensive self-study. Boston College’s most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College’s accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 3 Burlington Woods Drive, Suite 100, Burlington, MA 01803 (781-425-7785).

Additional accreditation-related information may be found at Boston College’s Notices and Disclosures site.

Authorization

Boston College has been approved to participate in the National Council for State Authorization Reciprocity Agreements (SARA), which permits the university to offer distance education programming in 49 SARA member states, the District of Columbia, the U.S. Virgin Islands, and Puerto Rico. Note that courses and programs incorporating a “supervised field experience” (sometimes also referred to as an “out-of-state learning placement”) are also covered by the provisions of SARA if under the oversight of a supervisor, mentor, faculty member, or other qualified professional, located in the host state, who has a direct or indirect reporting responsibility to the institution where the student is enrolled. Examples include practica, student teaching, or internships.

Non-SARA States

California does not participate in SARA; however, the California Bureau for Private Postsecondary Education does not regulate non-public higher education institutions that are degree granting, non-profit, and accredited, and so Bureau approval for Boston College to offer distance education activities in California is not required.
Coverage and Limitations of SARA

As described by NC-SARA, SARA only applies to postsecondary distance education activities conducted across state lines; it does not apply to distance education activity inside the SARA-participating institution’s home state or to on-ground campuses. SARA does not affect the applicability of general purpose state laws; similarly, SARA has no effect on state licensing or certification requirements which often require additional approval from the applicable state board.

Physical Presence

As described by NC-SARA, generally, an Institution has “physical presence” when it operates a campus, branch instructional facility whether leased or owned, or administrative office within the boundaries of a state. However, because the specific definitions of physical presence currently vary greatly from state-to-state, SARA has established its own uniform standards.

(A) For purposes of SARA, an institution has physical presence and therefore must meet the state’s current non-SARA requirements if it does any of these things in a state:
1. Establishes a physical location for students to receive synchronous or asynchronous instruction;
2. Requires students to physically meet in a location for instructional purposes more than twice per full-term (quarter or semester) course for a total of more than six hours. It does not apply to designated short courses;
3. Establishes an administrative office;
4. Provides information to students for the purpose of enrolling students, or provides student support services, from a physical site operated by or on behalf of the institution in the state;
5. Offers a “short course” that requires more than 20 contact hours in one six-month period;
6. Provides office space to instructional or non-instructional staff;
7. Maintains a mailing address or phone exchange in a state;
8. Carries out field study or field research located at a field station, research station, or other physical site at which a faculty member or other institutional employee or contractor supervises or otherwise directs two or more students in an activity exceeding the allowable short course length and which either bears academic credit or is a requirement for a course or program.

(B) An Institution does not have physical presence, and is therefore covered by SARA in SARA member states, if it is:

- Offering courses to individuals via distance education in ways that do not require students to gather physically in groups (with some exceptions);
- Advertising to students whether through print, billboard, direct mail, internet, radio, television, or other medium;
- Offering distance education courses on a military base or vessel if enrollment in such courses is limited to active and reserve military personnel, their dependents, and civilian employees of the installation;
- Maintaining a server, router, or similar electronic service device housed in a facility that otherwise would not constitute physical presence;
- Having faculty, adjunct faculty, mentors, tutors, recruiters, or other academic personnel residing in a member state and working from their homes or another private, non-institutional site, provided that such staff is not engaged in activities that would otherwise constitute physical presence as defined by SARA policies;
- Holding proctored exams on behalf of the institution in the host state;
- Having contractual arrangements in the home or host state, e.g., procurement contracts or course offerings through consortium agreements;
- Operating limited supervised field experiences or out-of-state learning placements;
- Using recruiters in a SARA member state. This provision is not restricted to recruiting for courses or programs offered under SARA, and does include athletic recruiting;
- Engaging in field trips to visit existing sites or facilities for academic purposes not involving the establishment of residential or instructional facilities.

Programs Leading to Professional Licensure

Boston College is authorized, pursuant to SARA, to enroll students in online programs in the SARA states and territories. Participation in SARA does not satisfy state requirements pertaining to professional licensure. Any institution operating under SARA that offers courses or programs potentially leading to professional licensure or certification must disclose to applicants and students whether online programs that lead to professional licensure/certification meet licensure/certification requirements in the student’s state.

Boston College makes every effort to ensure information about educational requirements for licensure or certification information is current; however, state requirements often change. Separate from educational requirements, state licensure boards may require applicants to complete professional examinations, background checks, years of professional experience, jurisprudence exams, etc. If you are planning to pursue professional licensure or certification in a state other than Massachusetts, it is strongly recommended that you:

- contact the appropriate licensing entity in that state to seek information and guidance regarding licensure or certification requirements before beginning an academic program
- check with departmental personnel in your specific program if you have questions about whether an online program meets licensure requirements in a specific state
- review additional information on state requirements for all programs that lead to licensure which can be accessed at Boston College’s central repository of Notices and Disclosures
Again, SARA does not provide reciprocity for state professional licensing requirements. Academic programs and individual graduates must meet standards set by a state’s licensure requirements in order for a graduate to be eligible for a license.

Please see the table for license eligibility by state. Contact information by state is sourced from NC-SARA and is updated twice per year.

Resources for Distance Education Students

Distance education students at Boston College have access to a wide range of student and academic services, for example:

- Agora, Institutional Portal
- Boston College Bookstore
- Boston College Libraries
- Student Services
- University Catalog

International Students

International students are advised to understand and be apprised of the rules, regulations, and requirements related to distance education in their country of residence, particularly:

- If the country will recognize an online certificate or degree;
- Whether the program meets licensure or certification requirements in the country; and
- If the country charges any additional taxes, withholdings, or fees associated with online distance education programs.

International students are encouraged to research the policies pertaining to degree recognition in their home country, or anticipated country of residence, and to contact the program-specific administrator at Boston College for additional information prior to enrolling in a Boston College distance education program.

Veterans

Boston College is approved by the National Association of State Approving Agencies, advocates for quality education and training programs for our nation’s veterans.

Student Complaint Procedures

Boston College takes very seriously its commitment to all students and welcomes feedback to ensure the continuous improvement of our community. When issues arise, students have a number of avenues in pursuit of resolution.

After consultation with the appropriate department (which may include, depending on the nature of the complaint, academic program personnel/faculty, Student Affairs, or the Office for Institutional Diversity), any student who has not achieved a satisfactory resolution of their complaint may submit a written complaint to the appropriate unit (for example, an academic grievance should be directed to the department chair or Dean of the student’s academic program for review, typically by an ad hoc grievance committee or academic standards committee). Under some circumstances, the complaint will also be filed with the Executive Director for Institutional Diversity, who serves as the University’s ADA/504 Coordinator.

The written complaint should be submitted no later than ten days following the conclusion of the informal, consultative process. The expected contents of the written complaint vary by campus unit but generally include the following:
1. A full description of the problem and any relevant facts;
2. A summary of the steps the student has already taken in attempt to resolve the problem, including the names of persons involved;
3. A statement of the requested resolution and the student’s rationale for the requested resolution;
4. Any supporting documentation; and
5. The name, contact information, and signature of the person initiating the complaint.

Students should reference the following guidelines based on the type of grievance:

**General and academic-related grievances** may be addressed at the student's program and/or college/school level as outlined in the undergraduate or graduate Policies and Procedures sections of the University Catalog.

Guidance can also be accessed via the Office for Institutional Diversity and Student Affairs for grievances related to nondiscrimination violations such as student disability accommodations.

Additional procedures are associated with distance/online-related programs, as outlined by the National Council for State Authorization Reciprocity Agreements (NC-SARA), of which Boston College is an approved member.

**NC-SARA Student Complaints Procedure**

As outlined by the NC-SARA student complaint process, a Boston College student must first attempt to resolve and file their complaint with the institution. In those instances when a complaint cannot be resolved at the institutional level, a student may file an appeal. For questions related to these procedures, students may contact their department/program office or the Office of Student Services, as well as Department of Education-related resources:

Boston College Department/Program Office contacts—vary by student, degree, field, etc. Please access the Boston College Directory.

Boston College Student Services contact—Agnes Jones, Associate Director, Student Support Services

Lyons Hall 113A, 140 Commonwealth Avenue

Chestnut Hill, MA 02467

(617) 552-1833, agnes.jordan@bc.edu

**Massachusetts Residents' Student Complaint Procedure**

When a complaint cannot be resolved at the institutional level, Massachusetts residents may file a complaint with the Massachusetts Attorney General’s Office (AGO) by using the consumer complaint form. The AGO consumer complaint form should be used by students who are located in:

- Massachusetts
- A Non-SARA Member state or territory (i.e., currently California, American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Guam, Republic of the Marshall Islands, Republic of Palau)
Non-Massachusetts Residents’ Student Complaint Procedure

For non-Massachusetts residents located in NC-SARA member states with complaints not resolved at the institutional level, students may file a SARA complaint utilizing the Massachusetts Department of Higher Education’s NC-SARA Complaint Procedure and Online Form.

Note that for students not located in a SARA member state with a complaint that cannot be resolved at the institutional level, the appropriate authority in your state of residence can be of assistance. Currently, all states are members of NC-SARA, with the exception of California:

California Bureau for Private Postsecondary Education
P.O. Box 980818
W. Sacramento, CA 95798-0818

Complaint form

Student Mobility

A requirement of SARA membership, and as directed by current United States Department of Education regulations as presented in the 2019 Higher Education Authorization, institutions must record in which state a student is located while enrolled in a distance education or correspondence course and apply the method to determine location consistently and to all students. (State Authorization 600.9(c)(1)(i)).

SARA and federal regulations consider a student's location to be the state, territory, or district where the student is located while receiving the instruction; it does not refer to the student's official state of residence. For prospective students, Boston College’s admissions systems reflect the local address as submitted by the student on the student’s application, and this information serves as the source for “student location.” In the event that this information is not populated, home address information serves as the source for “student location.” For enrolled students, Boston College’s student information system (UIS) reflects the local address as recorded at the time of the student’s initial enrollment, and this information serves as the source for “student location.” In the event that this information is not populated, home address information serves as the source for “student location.”

Changing one's location prior to enrollment (i.e., during the application process) or while enrolled does not adversely impact a student’s academic standing although students should be mindful that, if interested or enrolled in a program leading to professional licensure, a new state of location may have licensure regulations that are not met by Boston College’s curriculum. Students should review disclosures on professional licensure and confer with their academic advisor and/or their academic program’s department personnel in the event of a location change outside of Massachusetts.

In addition to recording location information related to academic programming, location is also recorded when students participate in learning placements outside of the classroom such as clinical experiences and internships. This information is typically tracked by program departments.

Applicants may update their location information through the application system appropriate to their program or may contact their program’s Office of Admission. Enrolled students may update their location information at any time via Boston College’s institutional portal, Agora.

In Agora, under the “Account and Personal Info” section, click Address/Phone/Emergency Contact and follow the on-screen instructions. Support for Agora may be found at: www.bc.edu/content/bc-web/offices/its/support/account-network-access/agora.html.
Student Verification for Distance Education Courses

Boston College employs a multi-pronged student identity verification system to help ensure that the identity of students who are admitted and enroll in distance education courses or programs are the same students who participate in and complete those courses or programs for academic credit.

At the time of application, all candidates must affirm that the contents of their submission are valid and reflect their own educational, professional, and related credentials, experiences, and accomplishments.

At the time of matriculation, University students enrolled in on-the-ground and hybrid courses/programs are issued a photo identification card (the "Eagle-One Card") through the Office of Student Services that serves as the official ID card of Boston College. Proof of identification such as a driver’s license or passport must be presented in order to be issued an Eagle-One Card. Students must keep this card available at all times and cards must be presented to authorized University officials upon request; falsifying, altering, or misusing one’s own or another’s Eagle-One Card in any way is strictly prohibited and illegal.

Faculty-student engagement is a fundamental dimension of a program’s curriculum, and thus, regardless of a course’s mode of delivery, the frequent and meaningful interaction between an instructor and student serves as an effective method of student identity assurance. Additionally, course experiences and assignments that encourage student-to-student interaction are also employed, principally to enhance learning, but also to serve as another means by which to verify the identity of students (peers and classmates).

An additional means of assuring student identity are the verification tools available to instructors via Boston College’s learning management system, Canvas. As students access course materials and discussion groups via Canvas, virtual communication technologies that integrate with Canvas, such as discussion boards, facilitate an instructor’s knowledge of a student’s writing style, ability, and tone, thereby helping to spotlight deviations. Identity verification is also supplemented via video conferencing by allowing instructors to confirm a student’s identity via the comparison of the video image with the student’s Eagle-One card image. Noteworthy is that, if necessary, IP addresses used to access Canvas can be investigated (for example, if it is suspected that an individual is attempting to present themselves as the student officially enrolled in the course); other analytics, such as page views and log-in dates/times are also available for review.

Also available to instructors, and specific to online courses, are two additional tools, Respondus and Proctorio.

Respondus is typically used when an instructor’s goal is to “lock down” the online testing environment within Canvas by securing students’ browsers; students are unable to copy, print, access other applications, or visit other websites during an online exam.

Proctorio serves as the most comprehensive live, remote proctoring tool available to Boston College instructors; it monitors audio and video and provides a full secure browser, thereby preventing web usage and the related during an exam.

Boston College’s Center for Teaching Excellence and Center for Digital Innovation in Learning offer support and training for these tools; there is no cost to instructors or students for the use of any of these resources.

Special Programs

Boston College offers a number of special programs, including the following:

Capstone Seminar Program

The Capstone Seminar Program helps students to "cap off" their Boston College experience by a review of their education and a preview of their major life commitments after college. Capstone offers several integrative seminars each semester exclusively for seniors in all schools. The Capstone seminars explore the struggle to discern your own calling in life as you integrate the four
crucial areas of work, relationships, society, and spirituality. Capstone seminars are taught by two dozen faculty from 20 different departments and all four colleges—Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, and Connell School of Nursing. Seminars are limited to 15 to 19 students. All courses are listed between UNCP5500 and UNCP5599 in the Boston College Catalog. Many Capstone Seminars are also cross-listed in the home department of the professor and can be taken for elective credit by majors or minors in that department. Department regulations vary. You may take only one Capstone course during your academic career. Capstones cannot be taken as Pass/Fail. If a course requires permission, contact the instructor directly. For other information, contact the Program Director, Fr. James Weiss at james.weiss@bc.edu or see the University Courses section of this Catalog. You may also reference the Capstone Program website with full course descriptions and syllabi at www.bc.edu/capstone.

Faculty and Staff Children Exchange Program (FACHEX)

FACHEX is an undergraduate tuition remission program for children of full-time faculty, administrators, and staff at participating Jesuit colleges and universities. The program for BC employees is administered through the Benefits Office in cooperation with the Office of Enrollment Management.

For Boston College employees, five consecutive years of full-time employment are required for establishing eligibility for the program. Employees must complete the FACHEX Certification Form available on the Boston College FACHEX website and return it to the Benefits Office for processing before December 1. Only the Benefits Office can certify an employee child as FACHEX eligible in the FACHEX Database, and this form contains the required information for entry. Employees should review the FACHEX website for information regarding rules of the program. In addition, if an employee’s child is interested in applying to any institutions participating in FACHEX, they should be aware of any applicable admission deadlines or requirements at those schools. Contact information for the FACHEX Coordinator at each participating institution can be found on the FACHEX website. BC does not maintain admissions policies of other schools in the program and cannot advise on their behalf.

FACHEX awards tend to be extremely limited in number and are highly competitive in terms of academic selectivity. As a result, there are no guarantees to the children of any given faculty, administrators, or staff that they will be able to utilize the FACHEX benefit at the institution of their choice. Also, many participating schools only consider incoming freshman applicants for FACHEX, so transfer students or upperclassmen may not be eligible.

Employees at other participating institutions should ask their respective Benefits Offices for information on requirements for FACHEX eligibility. Parents and students should then visit the Boston College FACHEX website to view the necessary procedures and conditions for FACHEX applicants.

Gabelli Presidential Scholars Program

The Gabelli Presidential Scholars Program is an undergraduate academic merit program that annually awards full-tuition scholarships and fully-funded, GPSP-sponsored summer programs to 15 incoming freshmen students. Early Decision and Regular Decision applicants who submit their BC applications by the November 1 priority scholarship deadline will be considered. There is no separate application for this scholarship. Students are selected on the basis of superior academic achievement and promise, leadership potential, and a demonstrated commitment to service to society. The Program offers these extraordinary individuals the richest academic experience available at Boston College, one that encourages the pursuit of excellence both within and beyond the University walls. Presidential Scholars receive a full-tuition merit scholarship.

In addition to enrollment in one of the University's several departmental honors programs, during the academic year Scholars meet weekly to discuss their area of concentrations (science and pre-med, humanities, political science and international studies, and management, economics and finance), to share experiences and find greater wisdom in applying for study grants, language programs, internships, and fellowships, and to partake in the cultural life of Boston at the theater or the symphony. To complement the emphasis on ideas and ideals they encounter in their classes, and in their summer programs, Presidential Scholars also give presentations to their fellow scholars about a variety of their experiences including study abroad, Advanced Study Grants, internships, and thesis writing. These presentations serve as additional avenues of inspiration to younger scholars, offering them a glimpse of the opportunities that are open to them throughout their college careers. In addition, these presentations offer the upperclassmen scholars the opportunity to develop and refine their public speaking skills.
During the spring semester freshman Presidential Scholars travel to a country in Europe, while the sophomore Scholars travel to a country in Latin America. These trips are intended to be the starting point in the Scholars’ journey of becoming “global citizens.” In their freshman year, they spend a week in a non-English speaking European country, so as to realize skills that meet the challenge of linguistic differences. In their sophomore year, they have an immersion experience of the social and economic challenges for our neighbors to the South.

In the summers, Scholars are challenged to test and apply what they have learned at Boston College to the world beyond the campus by participating in experiential learning programs focusing on service learning (after the first year), independent international study and travel (after the second year), and professional internship (after the third year).

Through this carefully balanced combination of academic rigor and co-curricular opportunities and challenges, the Gabelli Presidential Scholars Program seeks to develop exceptional scholars and leaders for the Boston College community and far beyond.

Office of International Programs (OIP)

International programs are an integral part of the undergraduate experience at BC. Each year approximately 1,200 students—or nearly 50% of a given graduating class—spend a semester, summer, or academic year studying, interning, conducting research, and/or volunteering abroad. BC collaborates with a variety of partner universities worldwide to administer programs in about 30 countries. To apply for semester/academic year programs abroad, students are required to have a 3.0 GPA and be in good academic and disciplinary standing. Additional non-BC approved programs are listed on the OIP website. The OIP offers around 30 short-term, faculty-led summer programs and internships that are open to both BC and non-BC students and have no minimum GPA requirement. Students should begin planning to go abroad as early as their freshman year. Information on the OIP website, information sessions, and individual meetings with OIP advisors help students choose the best program for their academic needs.

For more information, please visit www.bc.edu/international. The OIP is located in Hovey House (258 Hammond Street, 617-552-3827).

Academic Year Programs*

*Note: “BC in –” programs denote those options where there is a resident director or on-the ground support staff in addition to services offered by the host institution. Services range from full-time coordinators to more limited support.

Argentina

**BC in Buenos Aires: Pontificia Universidad Católica Argentina (UCA)**

Semester or full-year program at this excellent private institution located in downtown Buenos Aires. Offerings include arts and music, economics and business, law and political science, humanities, and communication.

**BC in Buenos Aires: Universidad Torcuato Di Tella**

Semester or full-year program in Buenos Aires at one of Argentina’s most prestigious private universities. Offerings include business, economics, political science, international studies, journalism, and history.

Australia

**Australian Catholic University**
Semester or year program at Australia’s premier Catholic university. Open only to CSON students, who study on ACU’s Melbourne campus.

**Monash University**

One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program in a suburb of Melbourne. Offers courses across all disciplines.

**Notre Dame University**

Semester or full-year program at a small Jesuit university in Fremantle, Western Australia, with a wide range of courses across all subjects, particularly in the arts and humanities. Optional Australian studies course with field trips.

**University of Melbourne**

One of the Group of Eight schools located in the heart of the city. Semester or full-year program. Exceptional in most subject areas.

**University of New South Wales**

Semester or full-year program at one of the Group of Eight schools located in Sydney, with broad offerings across all disciplines. Internship opportunities and an optional pre-semester program to study the environment at the Great Barrier Reef.

**University of Queensland**

Group of Eight school located in Brisbane. Semester or full-year program with a broad curriculum. Exceptional in all subject areas, especially biology, marine studies, psychology, business, and economics. Research opportunities for students.

**University of Western Australia**

Group of Eight school located in Perth. Semester or full-year program with a broad, excellent curriculum. Strong in all subject areas—particularly sciences, environmental sciences, social sciences, business, education, and music.

**University of Sydney**

Group of Eight school located in Sydney. Semester or full-year program with a broad curriculum. The majority of students enroll in arts and social sciences, business, science, engineering, information technologies, or health sciences.

**Austria**

**Vienna University of Economics and Business (WU)**

Semester or full-year program at one of Europe’s top business schools, with courses taught in English for CSOM or Economics students. No prior German language required.
Brazil

*BC in Rio de Janeiro: Pontifícia Universidade Católica do Rio de Janeiro (PUC-Rio)*

Semester or full-year program with courses in all disciplines. For students with elementary, intermediate, and advanced Portuguese as well as advanced Spanish skills. Offers an English-language track in Brazilian and Latin American culture with a mandatory Portuguese course.

Chile

*Pontificia Universidad Catolica de Chile (PUC)*

Semester or full-year program in Santiago at Chile's premier Catholic university. Courses include humanities, social sciences, economics, education, business, and law.

*Universidad Alberto Hurtado (UAH)*

Semester or full-year program at a small, prestigious Jesuit institution in Santiago. Good for social sciences, humanities, philosophy, business, literature, and pre-law.

China

*Chinese University of Hong Kong*

Semester or full-year program in a college system setting, with a wide range of courses taught in English. CUHK offers classes in business administration, education, engineering, the natural and social sciences, as well as a summer academic research opportunity (SURP).

*Hong Kong University of Science and Technology*

Semester or full-year direct enrollment program with a strong focus on business/management for CSOM students only. On-campus housing. Courses taught primarily in English.

*University of Hong Kong*

Semester or full-year program suitable for most students, especially those concentrating in the humanities and sciences. Courses taught primarily in English.

Croatia

*BC in Croatia: War, Peace, and Reconciliation*

Semester program based at the European Center for the Study of War and Peace. Students take five content courses and one language course with the potential to earn major/minor elective credit toward International Studies, Philosophy, Theology, History, Faith, Peace and Justice, and other areas.
Czech Republic

*Charles University: East and Central European Studies*

Semester or full-year program set in Prague. Founded in 1348, Charles is one of the oldest universities in Europe and the premier university in the Czech Republic. Students take courses in English.

Denmark

*Copenhagen Business School*

Semester or full-year program with courses taught in English for CSOM or economics students.

*Copenhagen University*

Semester or full-year program with courses taught in English in the humanities, social sciences, law, health science, natural science, and theology.

Ecuador

*BC in Quito: Universidad San Francisco de Quito (USFQ)*

Semester or full-year program with course offerings across the disciplines. Science and Community health course available for CSON and pre-med students. Students participate in service work as part of the mandatory resident director course.

Egypt

*American University in Cairo*

Semester or full-year program in Cairo, with courses taught in English. BC students are strongly encouraged to enroll in language classes through the Department of Arabic Language Instruction.

England

*BC in London: King’s College London, University of London*

Semester or full-year program in London with course offerings across the disciplines including a pre-medical course track.

*BC in London: London School of Economics (LSE)*

Full-year program in social sciences, including economics, finance, political science, and sociology.

*BC in London: Queen Mary, University of London*
Semester or full-year program in London’s vibrant and diverse East End, with courses across the disciplines.

**BC in London: Royal Holloway, University of London**

Semester or full-year program with a suburban, park land campus, and a wide range of course offerings for MCAS and CSOM students.

**BC in London: School of Oriental and African Studies (SOAS), University of London**

Semester or full-year program in central London with specialist studies of Africa, Asia, and the Near and Middle East, including history, languages, politics, religion, and sociology.

**BC in London: University College London, University of London**

Semester or full-year program for MCAS students at the University of London’s top-ranked college in central London.

**University of Bristol**

Semester or full-year program located in Bristol, England, with courses across the disciplines.

**Durham University**

Full-year program offering courses across many disciplines including English, history, philosophy, theology, economics, and the sciences.

**Lancaster University**

Semester or full-year program with courses across the disciplines, including courses in the sciences for pre-medical students and in management for CSOM students.

**University of Liverpool**

Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

**University of Oxford, Mansfield College**

Full-year program only. Suitable for students in MCAS interested in small, independent study.

**France**

**BC in Paris: Université de Paris**

Semester or full-year program based at the University of Paris. BC students attend the University of Paris IV (Sorbonne) or the University of Paris IX (Dauphine). Offers a wide range of disciplines. Courses are taught in French, with a small number taught in English at the University of Paris IX (Dauphine).
BC in Paris: L'Institut de Langue et de Culture Française (ILCF)

A French language institute connected to L'Institut Catholique de Paris (ICP). French-taught semester program offers courses in French language, phonetics, grammar, and conversation. English-taught courses in other subjects are available.

BC in Paris: L'Institut Catholique de Paris (ICP)

Semester or full-year program offering French-taught courses in humanities, education, theology, and philosophy.

BC in Paris: L'Ecole Supérieure de Commerce (ESCP)

Semester program based at the oldest business school in France. Students take courses in international business, finance, economics, and marketing. Courses taught in French and/or English.

BC in Paris: L'Institut d'Etudes Politiques de Paris (Sciences Po)

Semester or full-year program offering courses in business, history, communications, law, journalism, political science, international relations, economics, and European studies. Courses taught in French and English.

Germany

Eichstätt Catholic University

Spring semester or full-year program at a small university located near Munich, with course offerings in arts and sciences, business, and education. Intensive pre-semester language program in Munich. Offers beginning and advanced track programs.

Frankfurt School of Business and Management

Semester or full-year program offering courses in business and law. Courses are taught in English. Excellent opportunity for business and economics majors in Frankfurt.

Greece

American College of Greece (ACG)

Semester or full-year direct enrollment program in Athens. Course offerings from wide range of curricula taught in English with highlights in business, communication, and psychology. University housing, activities, service, and internship opportunities.

Ireland

BC in Cork: University College Cork

Semester or full-year program offering a broad selection of courses in a wide range of disciplines including business, arts, and sciences. Fall semester students take a university early start program, while spring semester students take a mandatory Irish Studies course taught by the BC resident director.
BC in Dublin: National University of Ireland Maynooth

Semester or full-year program in a small campus environment outside of Dublin. Mandatory Irish Studies course taught by the BC resident director.

BC in Dublin: Trinity College Dublin

Semester or full-year program at one of Europe’s oldest and most prestigious institutions located in the center of Dublin. Wide range of courses across all disciplines. Mandatory Irish Studies course taught by the BC resident director. Some courses are approved for CSON students.

BC in Dublin: University College Dublin (UCD)

Semester or full-year program with offerings across the disciplines, including Arts and Commerce. Students in the Arts and Sciences faculties select two departments in which to take their courses. Commerce students take most classes within the Quinn School. Mandatory Irish Studies course taught by the BC resident director.

BC in Galway: National University of Ireland, Galway

Semester or full-year program with course offerings across the disciplines. Mandatory Irish Studies class taught by BC resident director.

Italy

BC in Parma: University of Parma

Semester or full-year program at the University of Parma, with a wide range of disciplines offered. Courses taught in Italian.

BC in Parma: L'Istituto Dante Alighieri, Parma

Semester or full-year program at the Istituto Dante Alighieri, offering a range of courses taught in English.

Bocconi University, Milan

Semester or full-year program based at one of the leading business schools in Europe. Courses taught in English and Italian.

Università Cattolica del Sacro Cuore (UCSC)

Semester or full-year program located at the Università Cattolica del Sacro Cuore (“Cattolica”) in Milan. The largest Catholic university in the world, courses are offered in both English and Italian. Students are required to take an intensive pre-semester Italian language course.

Venice International University

Semester or full-year program located at Venice International University, an international higher education and research center co-run by 18 consortium members from around the world. Based on San Servolo Island, a few minutes from St. Mark’s Square in the heart of Venice. Students take courses taught in English in the social sciences and international studies.
Japan

Sophia University

Spring semester or full-year program at a Jesuit sister university, with course offerings in English covering a wide range of disciplines. University housing in Tokyo.

Waseda University

Spring semester or full-year program with course offerings in English. University housing and homestay options in Tokyo.

Lebanon

American University of Beirut

Semester or full-year program with wide ranging course offerings in English in the culturally vibrant scene of Beirut and the Levant. Excellent opportunity for Islamic Studies and Arabic language students. On-campus housing.

Mexico

Universidad Iberoamericana: Mexico City

Semester or full-year program for students in most disciplines at this private, Jesuit institution famed for research and social engagement. Courses are taught in Spanish.

Morocco

Al Akhawayn University

Semester or full-year program in Ifrane, with course offerings in English. Excellent opportunity for business students and those looking to study in francophone North Africa. Recommended for Islamic Studies and intensive Arabic language.

Nepal

BC in Kathmandu: Center for Buddhist Studies at RYI

Semester or full-year program offers an in-depth study of Buddhist philosophy. Highly recommended for students interested in comparative religion, theology, and philosophy. Courses in Tibetan or colloquial Nepali language offered. Homestays with local families.

The Netherlands

Amsterdam University College
Semester or full year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

University College Utrecht

Semester or full year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

University of Amsterdam

Semester or full-year program with English courses available in the humanities and social sciences.

New Zealand

University of Otago

Semester or full-year program at one of New Zealand’s top-ranked universities. Exceptional course offerings across the disciplines, especially environmental sciences, business, theology, arts, and humanities.

Norway

University of Bergen

Semester or full-year program with wide ranging curriculum in English with strengths in natural and marine sciences.

The Philippines

Ateneo de Manila University

Semester or full-year program at a leading Jesuit university, with wide ranging curriculum in English. Good opportunity for CSOM students, as well as those interested in service.

Poland

Jagiellonian University

Semester or full-year program in politics, sociology, Polish language, literature, and culture at the University’s Center for European Studies.

Portugal

NOVA School of Business and Economics
Semester or full-year program at the NOVA School of Business & Economics (Nova SBE), which is located just outside of Lisbon in Carcavelos. NOVA is strictly a business and economics school and does not offer courses outside of these fields. Classes are taught in English.

Scotland

*B C in Glasgow: University of Glasgow*

Semester or full-year program offering courses across all disciplines including economics, business, the sciences, and pre-med.

Singapore

*National University of Singapore (NUS)*

Semester or full-year program at leading research university. Wide variety of courses instructed in English.

South Africa

*BC in Makhanda: Rhodes University*

Semester or full-year program in Makhanda (formerly Grahamstown) with courses across the disciplines. Supervised service-learning placements through the BC program.

*BC in Cape Town: University of Cape Town*

Semester or full-year program in Cape Town with courses across the disciplines. Recommended for students majoring in the sciences, business, and humanities. Volunteer opportunities available.

South Korea

*Seoul National University*

Semester or full-year program at a leading research university with a range of courses offered in English. Opportunities to study Korean language.

*Sogang University*

Semester or full-year program at a Jesuit university in Seoul, with a range of courses offered in English. Opportunity for intensive language study. On-campus housing.

Spain

*BC in Barcelona: Business and Culture*
Spring-only program at the Universitat Pompeu Fabra (UPF), designed specifically for CSOM students. Students take a mandatory core course, focusing on the neighborhoods of Barcelona, and a mixture of additional courses in business, the social sciences, and humanities.

**BC in Barcelona: ESADE**

Semester program in Barcelona offering courses in business and law. English-taught curriculum.

**BC in Barcelona: Universitat Pompeu Fabra (UPF)**

Semester or full-year program in Barcelona offering courses in Spanish in many disciplines, except the sciences.

**BC in Granada: University of Granada, Granada Institute of International Studies (GRIIS)**

Semester or full-year program with courses focusing on Spanish language, culture, history, literature, art history, economics, and politics.

**BC in Madrid: Carlos III Immersion and English Tracks**

Based at the Universidad Carlos III de Madrid (UC3M), semester or full-year program for students in most disciplines, especially in the social sciences and business. Immersion and English tracks are available, based on students' level of Spanish proficiency.

**BC in Madrid: Universidad Pontificia Comillas**

Semester or full-year program for students in many disciplines at this private, Jesuit institution. The ICADE campus offers courses in business, economics, and law. The Sociales campus offers courses in social sciences, humanities, and international relations.

**Universidad de Deusto**

Semester or full-year program in Spain's Basque country on campuses in San Sebastián and Bilbao. San Sebastián offers courses in business, economics, literature, sociology, philosophy, and communications. Bilbao offers courses in most disciplines.

United Arab Emirates

**American University of Sharjah (AUS)**

Semester or full-year program in a diverse, English-language university in the heart of the UAE with a large international population. Courses available in the arts, humanities, sciences, languages, and management.

**Summer Sessions**

Faculty-led summer programs are open to undergraduate and graduate students with OIP approval. Programs are taught in English, with the exception of language courses. A sampling of programs listed are subject to change on an annual basis:
Africa

*Cape Town, Durban, Johannesburg, and Pretoria, South Africa*

Religion, Justice, and Reconciliation in South Africa (3 credits)

Asia

*Bali, Indonesia*

Creative Writing Workshop: "Writing Out of Place" (3 credits)

*Beijing, China*

China: Communication, Media, Culture (3 credits)

Europe

*Ballyvaughn, Ireland*

Imagination and Creativity and the Irish Landscape (3 credits)

*Barcelona, Spain*

Managerial Accounting (3 credits)

*Berlin, Germany*

Berlin: An Enduring Allure (3 credits)

*Bordeaux, France*

Intensive Intermediate French (6 credits)

*Copenhagen, Denmark*

Principles of Public Health: In the Happiest Place (3 credits)

*Dublin, Ireland*

The Business, History, and Politics of Sport (3 credits)

Religion and the Brain: An Introduction to Neuroethology (3 credits)
Ireland, Northern Ireland, and Scotland
The Politics of Self-Rule (3 credits)

Madrid, Spain
Introduction to Law and the Legal Process (3 credits)
Pilgrims, Ways, and Español Avanzado (3 credits)
Spanish Art History: from Al-Andalus to Picasso (3 credits)

Paris, France
Food Writing in Paris (3 credits)
Paris Noir: From La Negritude to Le Hip Hop (3 credits)
Modernity and Modernism in Paris (3 credits)

Paris, France and London, England
Which is better? An Economic Comparison of Health Care in France, the UK, and the USA (3 credits)

Parma, Italy
Food, Power, and Politics (3 credits)

Rome, Italy
Art and Patronage in Renaissance and Baroque Rome and Beyond (3 credits)
Contemporary Italian Culture through Film (3 credits)
Saints and Sinners (3 credits)

Tel Aviv, Israel
Smart Cities: Real Estate, Technology, and the Start-Up Culture (3 credits)

Venice, Italy
The Imaginary City: Why Writers Love Venice (3 credits)
Latin America

*Mexico City and Tijuana, Mexico*

Movilidad Humana: The Ethics of Migration (3 credits)

*Quito, Ecuador*

Global Health Perspectives (3 credits)

*Santiago, Chile*

Through the Eyes of Service: Social Justice in Chile (3 credits)

Internships Abroad

*Dublin, Madrid, Paris, Prague, Shanghai and Singapore*

Eight-week, independent internship program offers students the opportunity to experience the local work culture first-hand. OIP staff work with students to design the best possible internship based on student interests, majors, and previous work experience.

Other Opportunities

**Overseas Teaching Program**

- Students perform pre-practica or full practica in elementary or secondary student teaching abroad.
- Applied Psychology and Human Development Practica Abroad

Lynch School students can do an Applied Psychology and Human Development Practicum while studying abroad. See the Dean's Office for details.

**Washington Semester**

BC offers a semester-long internship program in cooperation with American University in Washington, DC. The program combines academic courses with internship placements in legislative, executive, and interest-group offices in the nation's capital. The academic requirements for participation are the same as those for study abroad, and Washington semester programs are administered as approved external programs through the OIP. The program can be combined with a study abroad experience.

**SEA Education Association Program**

The university offers a semester-long opportunity with SEA Education Association (SEA), an Environmental Studies program, which challenges students intellectually and physically by combining a sailing experience with the study of the deep ocean. The interdisciplinary program tracks are designed for students who wish to gain a comprehensive understanding of the world’s oceans, as well as explore a specific ocean-related theme including a shore component. Students, especially those majoring in the natural sciences, can complete a semester with SEA as an alternative to study abroad or in combination with another semester program. SEA programs are administered as approved external programs through the OIP.
Pre-Health Program

Medical, dental, veterinary, and other health professions schools welcome qualified students from diversified academic backgrounds and from any major from an accredited college or university. Thus, the student planning to pursue a health related career may choose a major field of study in any one of the humanities, natural sciences, or social sciences. Please note that medical and dental schools assume that students major in a field that plays to their strengths, interests, and passion. Below is a brief summary of the program. For detailed information, visit [www.bc.edu/premed](http://www.bc.edu/premed).

Health professions graduate schools expect each applicant to be well grounded in the fundamental sciences and to be familiar, through practical experience, with laboratory techniques. For these reasons, most health profession schools require one year of coursework at the college level in the following disciplines:

- General Chemistry with lab
- Organic Chemistry with lab
- Biology with lab
- Physics with lab (either Algebra-based or Calculus-based)
- English

In addition, one year of mathematics is usually strongly recommended. Some medical schools require calculus and/or statistics. About half of the allopathic medical schools require biochemistry. Please check your target graduate professional schools for specific requirements and recommendations. Some health professions graduate schools have additional requirements, such as, microbiology, physiology, and/or animal nutrition (vet), for example.

Academic Plan

Four (+) Year Program: Given the important demand for health-related experiences and service to the poor through meaningful volunteer experiences, students often select to do the 4-year cycle. The majority of pre-health students (76%) at BC, as well as other institutions, are applying to graduate schools in the health professions at the end of their senior year—or later. Students who elect to apply as a senior have the opportunity to pursue other interests and/or opportunities (e.g., study abroad, completing a thesis, minoring in a non-science discipline, volunteer work, or research) thus potentially making them more attractive candidates. The four year option also allows for greater flexibility in preparing and studying for entrance exams (MCAT, DAT, GRE) in order to reflect their best effort. The average age for students beginning graduate school in the health professions is approximately 25; therefore, the number of applicants taking one or more (gap) growth year(s) is increasing.

For a complete overview of the required pre-health curriculum, course numbers, and recommended course sequencing, please visit the B.C. Pre-Health website [www.bc.edu/premed](http://www.bc.edu/premed).

Three Year or Four Year Sequencing

Three Year Program: Undergraduates who plan to matriculate to health professions graduate school the fall after they graduate will need to complete all required courses (see above) by the end of junior year. Applications are filed the summer before senior year. While simultaneously taking junior year course work, we recommend that students study for and take the Medical College Admissions Test (MCAT) preferably by the end of spring semester (late April/May) of their junior year. Students taking the Dental Admissions Test (DAT) are encouraged to take it in early summer (e.g., May/June). In addition, health professions graduate schools expect a high level of academic performance, significant exposure to the health field, through clinical placements and shadowing as well as other meaningful extra-curricular experiences.

Clearly this is a great deal to accomplish in three years and, for this reason, increasing numbers of students choose the four-year option above. If you follow the three-year program and are a competitive candidate, you would be invited for interviews during the fall/early winter of your senior year. If accepted, you would begin graduate school in August/September following your graduation from BC.
Advanced Placement

For specific information regarding advanced placement, please visit www.bc.edu/premed.

Further Information

If you would like to speak with a staff member call 617-552-4663 or e-mail us at premed@bc.edu.

Pre-Law Advising

Boston College has a dedicated pre-law advisor and offers pre-law advising through the Career Center. The Boston College Career Center and two pre-law student associations, the Bellarmine Law Society and the AHANA Pre-Law Student Association, present panels each year on different aspects of the legal profession and the law school admission process. The pre-law advisor is available to meet individually with students interested in law as a career whenever questions or concerns arise. While no particular major is preferred by law schools, it is suggested that students consider including some of the following courses in their programs of study: logic, mathematics, law, public speaking, English (especially intensive writing courses), history, sociology, and political science. You can indicate your interest in receiving announcements of pre-law panels and activities by officially registering as Pre-Law in the Academic Advising Center or Office of Student Services. Before scheduling a pre-law advising appointment, students should review the Boston College Pre-Law Advising Handbook. For further information, contact the Career Center at 617-552-3430 and view the Career Center's website for information on applying to law school at: bc.edu/prelaw.

PULSE Program for Service Learning

For a description of the PULSE Program, please visit the PULSE website.

Reserve Officers' Training Corps

Air Force Reserve Officers' Training Corps

Through a cross-enrolled program with Boston University, interested Boston College students may participate in the Air Force Reserve Officers’ Training Corps program. Scholarships (full and partial) are available to qualified students for four, three, or two years and include tuition (full or partial), books, fees, and a monthly stipend. Freshmen and sophomores can compete for 2- and 3-year scholarships, some of which would cover full tuition, others which cover $15,000 per academic year. Academic specialties for scholarships include all majors. All training, drills, and classes are held at the BU campus. Service obligations are one year for each scholarship year (active duty), while pilots are obligated for eight years active duty after completion of flight school. To obtain further information, contact the Department of Aerospace Studies, Boston University, 617-353-4705, afrotc-all-mail@bu.edu.

Army Reserve Officers' Training Corps

The U.S. Army offers Reserve Officers' Training Corps (ROTC) at Boston College as a partnership school in cooperation with Northeastern University. Combined, Boston College and Northeastern University make up the Liberty Battalion. Boston College students attend classes and training on the Chestnut Hill campus. Upon graduation and successful completion of all pre-commissioning requirements, Cadets receive a commission as a Second Lieutenant in the U.S. Army and serve on active duty, Reserves, or National Guard in a variety of fields. Qualified graduates may also be selected to attend professional schools, such as medical or law school.

Scholarships may be available for qualified high school students admitted to Boston College and college students currently attending BC. In addition, scholarships may be available to Boston College Nurses through the ROTC program. All scholarships include full tuition and mandatory fees, a monthly stipend, and money for books. Boston College also awards additional incentives for Army ROTC scholarship Cadets. For more information including an application, contact the Liberty Battalion Enrollment and
Scholarship Officer at 617-373-2376 or the Boston College Department of Military Science (Carney Hall 171 and 172) at 617-552-2322/2580 or visit www.bc.edu/bc-web/schools/mcas/sites/army-rotc.html.

Marine Corps Platoon Leaders’ Class (PLC)

Available in connection with the Marine Officers Selection Office, Boston, the PLC Program is open to qualified freshmen, sophomores, and juniors. No formal classes or training takes place during the academic year. Students/candidates attend Officer Candidate School (Quantico, VA) training either in two 6-week sessions (male freshmen/sophomores) or one 10-week session (male and female juniors/seniors). Pay and expenses are received during training. No commitment to the USMC is incurred after OCS until a degree is awarded and a Second Lieutenant’s commission issued. Service obligations are then three and a half years active duty or longer for aviation positions. Students/candidates may drop from the program at any time prior to commissioning. For more information, contact the Marine Officer Selection Office, Boston, at 888-753-8762.

Navy Reserve Officers' Training Corps

Qualified BC students may cross enroll in Navy Reserve Officers' Training Corps (and the Marine Corps Option) at Boston University. There are 3- and 4-year programs with possible scholarships (full tuition, some books/fees expenses, monthly stipend, but no room and board). All classes and drills are held at Boston University. Scholarship students incur an active duty service obligation. For further information, please contact the Department of Naval Sciences, Boston University, 617-358-0471, burotc@bc.edu.

ROTC courses display on the academic record but do not count towards the required number of credits for graduation or in the G.P.A.

Undergraduate Faculty Research Fellows Program

Boston College established the Undergraduate Faculty Research Fellows Program (URF) for the purpose of enhancing the academic experience of undergraduates by cultivating their research skills and fostering mentor relationships between undergraduates and faculty. The program provides a grant to faculty to pay for a student's research assistance with a faculty member's research project. It is considered student employment and the student may work up to 20 hours a week during the academic semester, up to 40 hours a week during semester breaks or the summer, depending on faculty need, the funding available, and student availability. Students do not apply directly.

The application for an Undergraduate Research Fellowship must come from the faculty member whose research project the student will assist. Students can inquire directly with faculty to express their interest in being involved in the faculty member’s research. Students cannot receive academic credit for work done under an URF.
Leadership and University Information

**Trustees & Leadership**

The University is led by [William P. Leahy, S.J.](#), 25th President of Boston College.

Provost and Dean of Faculties [David Quigley](#) oversees the University’s academic life and leads its distinguished faculty.

Boston College’s eight schools and colleges are led by academic deans, who report to the provost and direct the academic initiatives related to their schools. University vice presidents oversee Boston College’s administrative areas.

Scroll down to view members of Boston College’s [Board of Trustees](#), [Trustee Associates](#) and [Board of Regents](#).

Boston College Board of Regents
2020-2021
The Boston College Board of Regents provides counsel and support to the president and the Board of Trustees on strategic priorities and matters essential to the future of the University. Rooted in the ideals of Jesuit higher education and the mission of Boston College, regents explore the value of the University in the world today and imagine the possibility of its impact on the world of tomorrow.

About BC - Boston College

Education with a heart and soul—and the power to transform

Boston College, the first institution of higher education to operate in the city of Boston, is today among the nation’s foremost universities, a leader in the liberal arts, scientific inquiry, and student formation.

Grounded in the ideals that inspired our Jesuit founders, Boston College urges students to look inward but always to reach out—to develop their minds and talents to the fullest and use them in service to others.
We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

Origin

Founded in Boston’s South End in 1863

Colors

Maroon and Gold
Motto

"Ever to Excel" from Book Six of *The Iliad*

Mascot

The Eagle

Boston College Traditions

- **Spotlight**
  - **BC Global**
  True to our Jesuit, Catholic heritage, Boston College has been committed to international collaboration since our founding in 1863. The Global Engagement Committee will explore new opportunities, challenges, and resources needed for enhancing our international presence.
  
  Visit the BC Global website

- **Convocation**
  - “*Set the World Aflame*”
  Freshman Eagles begin their BC journey with the traditional “first flight”—a lantern-led procession down the Higgins stairs to the Conte Forum for an inspiring guest speaker.

- **Beanpot**
  Best of Boston
Since 1952, teams from BC, BU, Harvard, and Northeastern have competed for hockey dominance in this legendary two-week tournament.

- **Red Bandana**  
  **Remembering Welles Crowther**  
  Every year, the BC community honors the memory of alumnus and 9/11 hero Welles Remy Crowther ’99 with a 5k “Red Bandana Race” and a dedicated football and lacrosse game.

- **Arts Festival**  
  **Creativity on Campus**  
  Music, theater, dance, poetry—this vibrant community event draws more than 1,000 talented student and faculty performers.

- **ALC Showdown**  
  **Let’s Dance!**  
  BC’s largest annual student dance competition promotes diversity and cultural awareness through dance.

- **Marathon Monday**  
  **A Boston Tradition**  
  Every Patriot’s Day, the BC community cheers on runners in the Boston Marathon, including the BC Campus School team, as they make their way up Commonwealth Avenue.

- **Superfans**  
  **Gold Rush**  
  Superfans wear gold and get loud as they cheer the Eagles to victory.

- **Student Involvement Fair**  
  **Find Your Spot**  
  This annual fair gives incoming students a chance to explore the more than 300 diverse organizations, programs, and offices on campus.

- **Mass of the Holy Spirit**  
  **Blessings for a New Year**  
  A Jesuit tradition dating back to the Middle Ages, the Mass of the Holy Spirit brings the BC community together to mark the opening of the school year.

- **Christmas Tree Lighting**  
  **Celebrating the Holidays**  
  BC kicks off the Christmas season with a tree lighting ceremony featuring festive performances, games, and a chance to take a selfie with Santa.

- **ALS Awareness Game**  
  **Fenway Park Takeover**  
  For one night a year, the BC baseball team plays a home game at Fenway Park to raise money in the fight against ALS.

- **Commencement**  
  **Congrats, Grads!**  
  Graduating students and their families celebrate their academic accomplishments and hear from inspiring speakers at the University Commencement ceremony.

President's Message
Boston College: Answering Society's Call

On behalf of the entire Boston College family, I am pleased to introduce you to Boston College, and to offer my vision for the University.

The history of Boston College is a narrative of response to society's call. In 1863, that call came from an immigrant community that sought a Jesuit education to foster social mobility. Boston College offered that promise.

Today, the call emanates from a world that has experienced an explosion of knowledge, but not a corresponding growth in understanding; a world that too often lacks trust in its leaders and faith in its institutions. It is a world that has developed wondrous technologies that link continents, but isolate human beings, leaving many men and women weary and dispirited, feeling distant from moral purpose, uncertain about knowledge or the very worth of human endeavor.

Boston College is uniquely capable of answering this call, of speaking to this world. As an institution of higher education, Boston College is committed to the discovery and transmission of knowledge. But reflecting its Jesuit and Catholic heritage, it also seeks to integrate excellence and religious commitment, to both inform and form its students.

Boston College endeavors to educate a new generation of leaders—men and women who will be capable of shaping the future with vision, justice, and charity—with a sense of calling, with concern for all of the human family.

We pursue this challenge because it is a worthy goal for any university, but particularly for Boston College, a university uniquely suited to be a beacon of hope and light for all. I invite you to join us, as a prospective student, parent, or friend.

William P. Leahy, S.J.

President
Mission & History

Where We Began

Boston College was founded in 1863 by the Society of Jesus (the Jesuits) to educate Boston’s predominantly Irish, Catholic immigrant community. It opened its doors on September 5, 1864, in a building on Harrison Avenue in Boston’s South End, a “small streetcar college” for commuting students.

When it outgrew the limitations of the space, then-president Rev. Thomas I. Gasson, S.J., bought 31 acres of the former Lawrence Farm in Chestnut Hill, Massachusetts, and broke ground in 1909 on a new campus, today fondly known as “the Heights.”

BC began as an undergraduate liberal arts college, but as its aspirations grew, it added graduate programs and professional schools fulfilling its charter as a university.
Through the decades, Boston College has become an internationally respected research university and a center of academic excellence.

Where We Are Going

Boston College builds upon its traditions. It seeks to be the national leader in the liberal arts; to fulfill its Jesuit, Catholic mission of faith and service; to continue to develop model programs to support students in their formation; and to seek solutions—as researchers, educators, leaders, and caregivers—that directly address the world’s most urgent problems.
Guiding Our Path

Boston College remains committed to leading its students on a comprehensive journey of discovery—one that integrates their intellectual, personal, ethical, and religious formation.

Inspiration for Boston College’s academic and societal mission is drawn from the University’s distinctive religious and intellectual heritage. As a Jesuit, Catholic University, Boston College is rooted in a world view that calls us to learn, to search for truth, and to live in service to others. To fulfill that mission, we welcome and embrace the contributions of a diverse student body from many faith traditions.

Advanced Placement Policies

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For current Boston College students:

If your Advanced Placement scores are not reflected on your record on the Agora Portal, please order a new score report from the College Board and have it sent to Boston College. Our code is 3083. Next, please complete this form and email it to Susan Migliorisi at migliori@bc.edu. Keep in mind that scores take approximately two weeks to arrive from the College Board.

Advanced Placement

Boston College participates in the Advanced Placement program of the College Entrance Examination Board. Applicants interested in advanced placement should make arrangements to take the Advanced Placement Examinations given by the College Board in May of each year.

The following table displays Boston College's Advanced Placement policy. Boston College reserves the right to change this policy, as is determined by campus administrators. In general, a student scoring four or five on the exams will be awarded advanced placement. In some instances, a score of three will make a student eligible for advanced placement. In most cases, students do not earn actual credit, rather, they fulfill corresponding requirements in the University Core Curriculum. You will still be required to take the full 120 credits necessary for graduation unless you have the equivalency of 30 AP credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years.

*Students in the Connell School of Nursing fulfill their Natural Science and Mathematics Core Curriculum requirements through coursework taken during their freshman year. Therefore, qualifying exam scores cannot be used to fulfill those requirements for nursing students.*
Each score of 6 or 7 on Higher Level exams will earn advanced placement units and will generally satisfy a core requirement. You will still be required to take the full 120 credits necessary for graduation, unless you have the equivalency of 30 credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years. Please reference the table below for specific exams.

Physics 6/7 6 2 Natural Science Core

** Students interested in the Computer Science major must consult with the Computer Science Department to determine if these electives can in any way apply to the major.

Sports, Exercise and Health Science IB is not recognized by Boston College.

** SAT Subject Tests **

All students in the Morrissey College of Arts and Sciences must demonstrate intermediate-level proficiency in a foreign language in order to graduate from Boston College. The SAT Subject Test scores below demonstrate intermediate-level proficiency at Boston College.

SAT Subject Test | Exam Score Minimum | Requirements Fulfilled
---|---|---

* IB elective units cannot be used to fulfill the four arts and sciences electives required for CSOM, but can count toward the 30 units required to be eligible to apply for advanced standing. Electives do not count toward the degree in any other scenario because IB units are generally used for placement only, not credit.

</table>

* There are other A-Level courses offered that do not apply to a degree at Boston College. If the course is not listed here, no advanced placement units can be earned.

**French Baccalaureate**

For all subjects with a coefficient of 5 or higher, advanced placement units will be assigned as follows:

- 6 units for scores of 13 or higher
- 3 units for scores of 10-12
- Scores below 10 do not qualify.

Units may be used to fulfill corresponding University Core or major requirements.
No advanced placement units will be awarded for English.

**Italian Maturità**

For students who earn an exam score of 70 or higher on the final exam, advanced placement units will be awarded only for subjects in which the written exam was taken (no placement for oral exams) and the average score for the final exam over the last two years is 7 or higher. No advanced placement units can be earned for English.

**German Abitur**

Placement will be considered for the four subjects scored in the Abitur final exams. For two subjects listed as the "main subject," scores of 10 or higher will earn 6 advanced placement units in corresponding subject areas. For two additional "basic courses" with scores of 10 or higher, 3 advanced placement units will be earned in the corresponding subject areas. No advanced placement units can be earned for English.

**Swiss Maturité**

Advanced placement units can be earned for exam scores of 4 or better. No advanced placement units can be earned for English.

**Advanced Standing - Graduating in 3 Years**

Students who earn a total of 30 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in three years. Students interested in this option should be in touch with their Dean following completion of their first semester at BC. No decisions on Advanced Standing will be made prior to that time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Dean before the start of their third year of undergraduate study.

Advanced placement units can be earned for college courses taken during high school according to the following guidelines:

Students enrolled in courses designated as “college courses” that are taken at the high school with a high school teacher may only earn advanced placement units if corresponding College Board AP exams are taken and qualifying scores are earned. A college transcript alone cannot be used to earn advanced placement units for these courses.

**College Courses Taken During High School**

College coursework taken on a college campus with a college professor and with other college students either during the academic year or over the summer may be evaluated for advanced placement units. Only courses that are deemed equal in depth and breadth to coursework taught at Boston College and are being used to supplement high school coursework (and not to fulfill high school requirements) will be considered.

Each 3 or 4 credit course with a grade of B or better will earn 3 advanced placement units. Students will still be required to take the full 120 credits necessary for graduation, unless they have the equivalency of 30 credits, in which case they may qualify for Advanced Standing and would be eligible to graduate from Boston College in 3 years. College transcripts for these courses should be submitted to the Office of Transfer Admission by August 1. Students who enroll at a local college to satisfy high school graduation requirements are not eligible for advanced placement units unless they take the corresponding College Board AP exams and earn qualifying scores.

**Enrollment Certification**
Enrollment Certification for Current Students and Employees with Access to Agora Portal

Current students can request enrollment certification letters by logging into www.bc.edu/myservices ("Enrollment Certification Request"). These letters may be used to prove enrollment when outside scholarship committees and medical insurance companies request them.

Enrollment Certification for Alumni and External Audiences, Including Employers

Boston College has authorized the National Student Clearinghouse to provide degree and enrollment verifications. The National Student Clearinghouse can be contacted at:

Web: www.degereverify.com

Phone: 703-742-4200

Fax: 703-742-4239

Email: degereverify@studentclearinghouse.org

Mail: National Student Clearinghouse

13454 Sunrise Valley Drive, Suite 300

Herndon, VA 20171

Enrollment Certification for Loan Deferment

The National Student Clearinghouse processes deferment forms. If you need an enrollment certification for deferment of a student loan, mail the forms to the Office of Student Services, Lyons Hall, Chestnut Hill, MA 02467 or stop by Lyons Hall. Your deferment form will be forwarded to the National Student Clearinghouse. If the enrollment certification does not require an official school seal or signature, you may process the certification through www.bc.edu/myservices.

Notices & Disclosures

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services.

Higher Education Opportunity Act (HEOA)

Visit the link below to learn more about the Higher Education Opportunity Act (HEOA).

https://www.bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html
Family Educational Rights and Privacy Act (FERPA)

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the Boston College Bulletin and in the Boston College Student Guide.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.
  Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored. Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.
  Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended. If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

FERPA Release Form: https://www.bc.edu/content/dam/files/offices/stserv/pdf/FERPA_permission_to_release_form_02.20.14.pdf
Student Loan Code of Conduct for Employees

All Boston College employees whose job responsibilities include matters related to student financial aid are expected to maintain exemplary standards of professional conduct and must adhere to this Code of Conduct in compliance with Federal regulations. The Executive Director of Student Services shall notify these employees annually of their obligations under this Code.

Boston College:

- Prohibits all revenue-sharing arrangements with lenders. The University will not promote or recommend any lender in exchange for a fee or other material benefit from that lender.
- Does not request or accept offers of funds for private loans, including opportunity pool loans.
- Certifies loans from any lender selected by a borrower without undue delay, and will not direct a first-time borrower’s loan to a particular lender.
- Ensures that the process through which the student signs a Master Promissory Note preserves the student’s right to select the lender of his or her choice.
- Does not arrange for alternate loan programs that disadvantage students or parents not enrolled in the program or receiving such loan terms.
- Prohibits the request or acceptance of staffing assistance from lenders.
- Prohibits employees or agents of a lender from identifying themselves, either directly or by implication, as an employee of Boston College to students, parents or any persons seeking information from Boston College.
- Bases the selection of lenders for a preferred lender list solely on the best interests of the students and parents.
- Fully discloses the selection process for a preferred lender.
- Provides borrowers with consumer information about the loan products offered by the lenders on a preferred lender list, including any agreements lenders have to sell their loans to other entities.
- Informs students and parents that they are not required to use any of the lenders on a preferred lender list and can select any lender of their choice.

Every Boston College employee involved in any aspect of the loan process (this includes, but is not limited to, the Financial Aid staff, both on the main campus and at the Law School, and the Enrollment Management staff) must avoid any situations that create a potential conflict of interest between the employee's personal or outside interests and his or her role and responsibilities as an employee of Boston College, and must disclose to his or her supervisor any potential conflict as it arises.

Specifically, staff members must not:

- Solicit or accept gifts with more than a de minimis value from any business entity involved in any aspect of student financial aid, including, without limitation, cash payments, stocks, club memberships, favors, discounts, lodging, meals, entertainment, and services. This prohibition extends to a staff member’s family (includes staff member's and spouse's: parent or stepparent; sibling or step-sibling; child or stepchild; and grandchild or step-grandchild, as well as a child's spouse and a sibling's spouse).
- Undertake any activity, whether compensated or not, outside of Boston College that has the potential to create a conflict of interest with the staff member’s duties as a financial aid professional employed by Boston College, including accepting any fee, payment, or other financial benefit as compensation for any type of employment, consulting or other arrangement with a lender, guarantor, or servicer.
- Receive any compensation for serving on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors. A staff member wishing to serve on an advisory board must seek prior approval from his or her supervisor, and may be reimbursed only for reasonable expenses while serving on an approved advisory board.

Staff members should understand and adhere to all institutional policies and any local, state and federal requirements that are applicable to their conduct or job performance. Any staff member who has a question whether a particular situation or activity creates a conflict of interest or violates any law or policy should immediately notify their supervisor prior to commencing such
activity, or at the earliest time when such a question arises. Supervisors shall contact the Office of the General Counsel upon receipt of any inquiries.

Confidentiality of Student Records

Certain personally identifiable information from a student’s education record, designated by Boston College as directory information, may be released without the student’s prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

A student can prevent the release of all directory information including verification of enrollment, and may suppress selected directory information either to the Boston College community or to the general public. In order to do this, students must visit www.bc.edu/myservices to suppress the release of all or selected directory information. Suppression is available by selecting Privacy Preferences. Student directory information will not be blocked from faculty and staff conducting official University business.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's Student Educational Records policy.

Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

Notice of Nondiscrimination

Visit the link below to view the Notice of Nondiscrimination.

https://www.bc.edu/content/bc-web/offices/human-resources/sites/oid/Policies-and-Compliance/Notice-of-Nondiscrimination.html

University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

Postal Service and Campus Mail

For purposes of written communication, the student's local and permanent addresses on record at Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at www.bc.edu/myservices if the addresses are not accurate in University
records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address with the Office of International Programs.

E-mail

The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student's Boston College e-mail address in the "From:" and "Reply To:" lines, and should originate from the student's Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

State Complaint Process

Visit the link below to learn more about the Massachusetts state complaint process.

http://www.mass.edu/forstufam/complaints/complaints.asp

Visit the link below to learn more about the California state complaint process.

Voter Registration Information

Boston College believes that every student has a responsibility to be an engaged community member. To that end, we have partnered with TurboVote to provide you with the information and materials you need to vote in every election from local to presidential.

TurboVote gives you the tools to help you register to vote online. You may learn more about this service at bc.turbovote.org.

Financial Aid

Financial Aid Mission Statement

To serve as a bridge between students and their educational goals while fulfilling our responsibilities as stewards of federal, state and institutional funds:
• **Counsel:** To provide an open and welcoming environment to serve our students and their families in a student-centered culture with clear and effective communication, customer focus, and mutual respect.

• **Access:** To provide the tools and resources to help remove the financial barriers to accessing quality higher education.

• **Equity:** To treat each family equitably, understanding each situation is unique in its circumstance.

**Undergraduate Financial Aid**

Boston College remains committed to admitting students solely on the basis of their academic and personal accomplishments, and without regard to financial need. Boston College makes every effort to supplement family resources for students who require financial assistance. All Boston College grants and scholarships awarded by the Office of Student Services are awarded on the basis of institutional need. Boston College is committed meeting the full demonstrated institutional need of every student applying for financial aid.

We know that applying for financial aid can be a confusing and lengthy process. We hope that the resources provided on this site will give you and your family the tools and information necessary to help make a Boston College education possible. The financial aid staff is committed to working with you as you navigate this process.

**All financial aid awarded by Student Services at Boston College is need-based.**

Need-based aid assumes that the parents and the student are responsible for the cost of education to the extent of their abilities and that financial aid will be used to supplement the effort of the family. It also assumes that need can be calculated with uniformity and equity, meaning that income and assets are defined in the same way for everyone and all allowances are nondiscretionary in nature.

Boston College uses two separate aid formulas to determine eligibility for financial assistance.

Federal Methodology is used to determine a student’s eligibility for all federal and state aid, including the Direct Subsidized and Unsubsidized Loans. Eligibility is determined from the data provided on the Free Application for Federal Student Aid (FAFSA). Boston College does not use the federal expected family contribution (EFC) determined by the FAFSA to award institutional need-based grants/scholarships.

Institutional Methodology is used by Boston College, as well as many other private universities, to determine a family’s eligibility for university funds. Boston College is committed to providing funds to meet the full demonstrated institutional need of every student applying for financial aid on time. The institutional expected family contribution is determined by the data provided on the Profile form (through College Scholarship Services) and appropriate tax documents. Eligibility for need-based institutional aid requires that the student be fully eligible for federal and state aid. The Profile is not required to determine eligibility for federal and state aid.

Financial aid awards for future years will be based on the application materials for that year. In general, the family contribution will not change dramatically unless there is a change in income, family size, number of children enrolled in undergraduate education, assets, or other application figures used in the analysis of a family’s financial strength.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the **Office of Student Services**.

**Graduate & Law Financial Aid**

Financing a graduate or law education can be a daunting task. The information on this site was created to help you move through the process as easily and efficiently as possible.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the **Office of Student Services**.

Medical Insurance

Blue Cross Blue Shield has waived member cost share (co-pays, co-insurance, and deductibles) for many medically-necessary COVID-19 medical expenses. You can find more details on their Coronavirus Resource Center page here: https://home.bluecrossma.com/coronavirus.

Boston College is pleased to announce that the Blue Cross Blue Shield Student Blue Plan has been renewed and will continue to be offered to all eligible BC students for the 2020–2021 policy year, effective August 7, 2020. The Student Blue Plan provides comprehensive health insurance that includes access to Blue Cross Blue Shield's networks and pharmacies nationwide.

2020–2021 Medical Insurance Information

Enrollment (2020–2021)

All students enrolled in a degree program, regardless of credit hours, and non-degree students enrolled at least 75% of full-time will be automatically enrolled in and billed for the Student Health Insurance Plan. Seventy-five percent of full-time enrollment is as follows:

- Morrissey College of Arts and Sciences, Graduate—7 or more
- Lynch School of Education and Human Development, Graduate—7 or more
- Carroll School of Management Graduate Programs—7 or more
- Connell Graduate School of Nursing—7 or more
- School of Social Work—7 or more
- Woods College of Advancing Studies, Undergraduate—9 or more
- Woods College of Advancing Studies, Graduate—7 or more
- School of Theology and Ministry—7 or more

Students studying abroad through both BC-sponsored and approved external programs will automatically be enrolled. Post-doctorate students are eligible to enroll on a voluntary basis.

Boston College will also automatically enroll and charge non-degree graduate and WCAS students registering at the credit levels listed above for the Student Health Insurance Plan. Students are responsible for monitoring their eligibility status.

Students who are not citizens or permanent residents of the United States will be automatically enrolled in the Boston College plan regardless of the number of their credit hours.

Insured students have the option of enrolling their eligible dependents (a spouse or a child under the age of 26). The enrollment form is available under the Forms tab. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a
qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 25, 2020 for the fall semester and February 5, 2021 for students newly enrolling for the spring. Enrollment forms received after that date will not be accepted.

First Semester  
(8/7/20–1/14/21)  
Second Semester  
(1/15/21–8/6/21)

*The policy for international students includes coverage for medical evacuation and repatriation.

Blue Cross Blue Shield Student Blue Plan Coverage

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the summary of benefits (PDF) and the information available at GallagherStudent.com/BC for complete details about coverage, limitations and exclusions.

Referrals from University Health Services

A referral is not required with Blue Cross Blue Shield Student Blue Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit University Health Services' website for more information.

Coverage off Campus

If you paid the premium for the entire year, you will be covered from August 7, 2020 through August 6, 2021. Blue Cross Blue Shield Student Blue Plan provides the same benefits for students while they are on campus or on semester breaks, summer vacation, or study or travel abroad.

While studying or traveling abroad, keep your identification card with you and take a copy of the brochure for reference. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you will need to have the itemized bill(s) translated into English and include a letter informing the claims administrator that you are seeking reimbursement for charges previously paid. Be sure to include your name, ID number, address (to receive your reimbursement check), and the University's name on the bill.
Coverage after Graduation

Boston College students insured by BlueCross BlueShield can enroll in BlueCross BlueShield's direct non-group plan after their coverage ends through Boston College's program. The number at BlueCross BlueShield is 800-422-3545 to enroll.

Beginning in 2020, ID cards will be electronic. You can download the Blue Cross Blue Shield MyBlue app on your phone, which provides a digital ID card that you can access anytime. To create an account on the app, you will need your BCBS ID number.

Obtaining your Blue Cross Blue Shield ID:

If you are a returning student, your BCBS ID remains the same. Students who are new to the plan can access their insurance ID at [www.gallagherstudent.com/bc](http://www.gallagherstudent.com/bc) by creating an account. Access the Account Home link within the My Account Menu. Your claims ID is your BCBSMA ID; add the 3-letter prefix XXP to your ID when setting up your account with BCBS. (You can also contact Gallagher Student customer service at (800)394-4026 for your ID.)

If you are unable to access your ID, check the date of the insurance charge on your bill. Allow 5–7 days after the insurance is charged for it to be activated.

Using the BCBS MyBlue App:

Once you have your BCBS Member ID (directions above), download the MyBlue app from the Google Play or App Store. Click “Register Now” and use your Eagle ID number to complete the required fields. Additional information about the app is available at [https://myblue.bluecrossma.com/student](https://myblue.bluecrossma.com/student).
Get Health Care Information Quickly, Easily, and Securely

With a simple tap, you can:

- View your digital ID card, and email it to your doctor
- See your claims and prescription history
- Look up and get directions to doctors, dentists, and hospitals

Learn more at myblue.bluecrossma.com/student or download now using the barcode on the right.

Other Options:

If you do not want to use the MyBlue app, here are other ways to access your insurance information:

- You can print an insurance verification letter from the Gallagher website (see “Obtaining your Blue Cross Blue Shield ID” above).
- You can create a Blue Cross Blue Shield account at https://member.bluecrossma.com/login.
- If you prefer a physical ID card, you can request one from BCBS by calling 800-241-0803. Returning students can use their prior ID card.

Students who are enrolled in the student insurance plan and who are required to take a leave of absence from Boston College for medical reasons will continue to be covered for the remainder of the semester in which the withdrawal takes place. Coverage may also be extended for the following semester with approval from Boston College. Please contact the Office of Student Services for more information.

Students who initially waive participation in the Student Blue Plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver on the www.bc.edu/myservices or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the Student Blue Plan only on the basis of a qualifying event. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, available under the Forms tab.

The medical insurance coverage periods are August 7, 2020 to January 14, 2021 for the fall and January 15, 2021 to August 6, 2021 for the spring. Waivers received by September 25, 2020 are for the entire academic year, and those received by February 5, 2021 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period.

Waivers (2020–2021)

Waiver forms can be found on the Forms tab.

Students who are enrolled in a health plan that is comparable to the Student Blue Plan may waive the BC coverage through www.bc.edu/myservices if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must sign and submit a waiver form before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:
The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2020–2021 academic year.

The student has compared their policy to the Student Blue Plan and certifies that their plan provides benefits that are at least comparable to the Student Blue Plan: [2020–2021 Blue Cross Blue Shield Student Blue Plan Summary of Benefits](https://GallagherStudent.com/BC).

The student’s plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.

The student’s plan is not an out-of-state Medicaid plan, or one of the following MA Medicaid Plans: Children’s Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver. MassHealth plans other than those listed here are acceptable for a waiver.

No claims have been submitted for payment under the Student Blue Plan for the 2020–2021 enrollment periods.

The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred.

Students travelling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2020–2021 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.

Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by September 25, 2020 for the entire academic year or by January 29, 2021 for the spring semester only.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the Student Blue Plan. Once the waiver is submitted, the charge will be removed from the student account within forty-eight hours; students and authorized payers can verify the adjustment by logging in to [www.bc.edu/myservices](http://www.bc.edu/myservices) (“My Bill”) and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through [www.bc.edu/myservices](http://www.bc.edu/myservices) or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the Student Blue Plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Petition to Waive After Published Deadline form, available on the Forms tab.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

In order to ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC's Student Health Insurance Plan.** If you are insured through (1) your own or a parent/guardian/spouse’s health insurance plan offered through a U.S. employer or (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), you may be eligible for a waiver. MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.

### Contacts and Questions (2020–2021)

**Enrollment, Benefits, Replacement IDs**  
Gallagher Student Health & Special Risk  
500 Victory Road, Quincy, MA 02171  
800-394-4026  
[GallagherStudent.com/BC](http://www.GallagherStudent.com/BC) (site includes form to email questions)

**Claims and Claim Payments**  
Blue Cross Blue Shield
Optional Dental Plan:
Students can voluntarily enroll in the Blue Cross Blue Shield Dental Blue plan. This coverage is NOT included with your student medical insurance plan; coverage is optional and purchased separately. Students do not need to be enrolled in the medical insurance plan to purchase the dental plan. The cost is $528 for coverage from August 15, 2020 through August 14, 2021. To enroll, go to GallagherStudent.com/BC and select "Dental Enrollment Form" on the left navigation bar. The deadline to enroll is September 30, 2020 for fall and annual plans and February 28, 2021 for spring plans.

Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the Office of Student Services.

</table>

Tuition does not include the cost of lab fees, textbooks, or other required materials for specific courses. In general, full-time graduate and undergraduate students should anticipate costs for textbooks and course supplies of $1,300–$2,200 for the academic year. Textbook costs for specific courses can be found on the website for the Boston College Bookstore.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary.
The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Collection Cost and Fees

Matriculated students at Boston College are individually, personally, and primarily responsible to the University for paying all tuition and other fees associated with enrollment and room and board. This obligation also applies to any additional tuition and fees resulting from adjustments to course schedules. Students remain responsible in accordance with University policy for tuition and fees for classes for which they register, including any classes for which they have been withdrawn, been dropped, failed, or failed to attend. Students must formally withdraw from any/all classes that they do not attend in a particular semester. Students will not be relieved of their responsibility to pay tuition unless they withdraw from classes in accordance with the withdrawal timelines and procedures published by the Office of Student Services in the University Catalog.

All billing statements are sent electronically. Information on how to access student bills and related account information is available on the Office of Student Services website, including at www.bc.edu/mybill. Students are responsible for reviewing their billing statements, making payments by the due date stated in the billing statement, and notifying the University’s Office of Student Services in a timely manner of any errors or discrepancies. A student may authorize parents, guardians or others to view their statements and pay on their behalf, but each student shall remain individually, personally and primarily responsible for the payment of all amounts charged to their accounts. There may be a $150 late payment fee assessed to unresolved accounts by the due date. Students will also be charged a fee of $25.00 for a returned check or returned electronic payment ($65 for any returned item over $2,000).

In the event a student’s account becomes delinquent or fails to comply with a payment plan approved by Boston College, then Boston College may withdraw the student, place holds on the student’s transcript and diploma, and deny access to University services, including registration, dining, residence hall selection, library, travel abroad and recreation services.

In the event a student’s account becomes delinquent or if the student fails to comply with a payment plan approved by Boston College to bring the delinquent account current, Boston College may refer the student’s delinquent account to a collection agency, attorney or other third party that provides collection-related services. In addition to the student’s responsibility for paying any amounts due on the account prior to referral for collection-related services, the student shall be responsible for (a) paying any and all collection-related fees, which may be based on a percentage of a student’s delinquent account balance, provided that such percentage does not exceed 40%, and (b) paying any and all costs incurred in connection with the efforts to collect on the student’s delinquent account, including without limitation court costs and reasonable attorneys’ fees. The University, or its agents, may also report a student’s account delinquency to one or more of the national credit bureaus.

Notice of Consent to Collection Communications

By registering for a course at Boston College, a student authorizes Boston College and its agents and contractors to contact the student at any current or future phone number(s), email address(es) and wireless device(s) regarding the student’s account and/or any payments owed to Boston College. Students also authorize Boston College and its agents and contractors to use automated telephone dialing equipment, artificial or prerecorded voice or text messages, and personal calls and emails, in their efforts to contact me. Students also consent to Boston College, or its affiliates, agents, and service providers, to recording telephone calls regarding the student’s account in assurance of quality and/or other reasons.

Tuition Refund Schedule

Withdrawals and Refunds

Fees are not refundable.

Tuition is cancelled subject to the following conditions:

- Notice of withdrawal must be made in writing to the dean of the student's school.
- The date of receipt of written notice of withdrawal by the Dean's Office determines the amount of tuition cancelled.

The cancellation schedule that follows will apply to students withdrawing voluntarily, as well as to students who are dismissed from the University for academic or disciplinary reasons. A student who drops, withdraws or fails to attend some or all of the classes for which the student registers will be responsible for paying all or a portion of tuition and fees in accordance with the refund schedules below. A student's failure to attend class does not absolve the student of his or her financial responsibility as described herein.

Undergraduate Refund Schedule

2020–2021 Academic Year

Undergraduate students withdrawing by the following dates will receive the tuition refund indicated below.

First Semester

- by Aug. 28, 2020: 100% of tuition charged is cancelled
- by Sept. 11, 2020: 80% of tuition charged is cancelled
- by Sept. 18, 2020: 60% of tuition charged is cancelled
- by Sept. 25, 2020: 40% of tuition charged is cancelled
- by Oct. 2, 2020: 20% of tuition charged is cancelled
Second Semester

- by Jan. 27, 2021: 100% of tuition charged is cancelled
- by Feb. 5, 2021: 80% of tuition charged is cancelled
- by Feb. 12, 2021: 60% of tuition charged is cancelled
- by Feb. 19, 2021: 40% of tuition charged is cancelled
- by Feb. 26, 2021: 20% of tuition charged is cancelled

No cancellations are made after the fifth week of classes.

Summer Session Refund Schedule: All Schools

Once a class officially begins, you have until Sunday that week to drop the course with the Summer Session office and receive 100% refund. After Sunday, there is no cancellation of tuition for withdrawing from a course.

Graduate and Woods College of Advancing Studies Refund Schedule

2020–2021 Academic Year

Graduate students withdrawing by the following dates will receive the tuition refund indicated below.

First Semester

- by Sept. 11, 2020: 100% of tuition charged is canceled
- by Sept. 18, 2020: 60% of tuition charged is canceled
- by Sept. 25, 2020: 40% of tuition charged is canceled
- by Oct. 2, 2020: 20% of tuition charged is canceled

Second Semester

- by Feb. 5, 2021: 100% of tuition charged is canceled
- by Feb. 12, 2021: 60% of tuition charged is canceled
- by Feb. 19, 2021: 40% of tuition charged is canceled
- by Feb. 26, 2021: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes. Federal Nursing Loans for graduates follow this refund schedule.

Woods College Students enrolled in 7-week courses in the Master's in Healthcare Administration, Master's in Applied Economics, and Graduate Certificate in Data Analytics programs may receive a 100% refund if withdrawn prior to the second class meeting. No refund will be given to students in these programs if withdrawn after the second class meeting.

Summer Session

Once a class officially begins, you have until Sunday that week to drop the course with the Summer Session office and receive 100% refund. After Sunday, there is no cancellation of tuition for withdrawing from a course.

Law School Refund Schedule

2020–2021 Academic Year
Law School students are subject to the refund schedule outlined below.

First Semester

- by Aug. 28, 2020: 100% of tuition charged is canceled
- by Sept. 11, 2020: 80% of tuition charged is canceled
- by Sept. 18, 2020: 60% of tuition charged is canceled
- by Sept. 25, 2020: 40% of tuition charged is canceled
- by Oct. 2, 2020: 20% of tuition charged is canceled

Second Semester

- by Jan. 26, 2021: 100% of tuition charged is canceled
- by Feb. 5, 2021: 80% of tuition charged is canceled
- by Feb. 12, 2021: 60% of tuition charged is canceled
- by Feb. 19, 2021: 40% of tuition charged is canceled
- by Feb. 26, 2021: 20% of tuition charged is canceled

Summer Session

Once a class officially begins, you have until Sunday that week to drop the course with the Summer Session office and receive 100% refund. After Sunday, there is no cancellation of tuition for withdrawing from a course.

Tuition Insurance Plan

Boston College is pleased to offer students a way to help protect their substantial financial investment in a college education. The Tuition Insurance Plan is an optional private insurance plan offered through A.W.G. Dewar, Inc. that assures subscribers who withdraw for illness or accident a refund throughout the semester, even if Boston College’s own refund policy has expired.

For costs, benefit levels, further information, or an application form, please contact John Strain at Dewar, 4 Batterymarch Park, Suite 320, Quincy, MA 02169-7468, 617-774-1555.

Federal Regulations Governing Refunds

If a student does not wish to leave any resulting credit balance on his or her account for subsequent use, he or she should request a refund at www.bc.edu/myservices (“Request Student Account Refund”). If a student has a credit balance as a result of Federal Aid and he or she does not request a refund, the University will, within two weeks, send the credit balance to his/her local address.

Federal regulations establish procedural guidelines applicable to the treatment of refunds whenever the student has been the recipient of financial assistance through any program authorized under Title IV of the Higher Education Act of 1965. These guidelines pertain to the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal College Work-Study, and the Federal Stafford and PLUS Loan. In such cases, the regulations require that a portion of any refund be returned according to federal guidelines. Further, if a student withdraws, the institution must determine if any cash disbursement of Title IV funds, made directly to the student by the institution for non-instructional purposes, is an overpayment that must be repaid to the Title IV program. University policy developed to comply with the regulations at Boston College will be available upon request from the Office of Student Services.

Transcript Requests

The National Student Clearinghouse (NSCH) is the authorized vendor for delivery of official Boston College transcripts. Transcripts can be ordered to be sent electronically or on paper via regular or express mail. Electronic and paper transcript
requests will be processed in 1–3 business days. Historical transcripts (those prior to 2001) may take several additional days for processing. Requests for Federal Express shipping will only expedite the shipping after the processing period.

There is a $5 charge per electronic transcript and a $7 charge per paper transcript (all fees are paid directly to National Student Loan Clearinghouse). Additional fees are required for express mail service. Details including payment options are on the Clearinghouse transcript ordering website.

Current students should request official transcripts via the transcript request link in the Agora Portal. Unofficial transcripts are not available electronically. Please contact Student Services with any questions.

Alumni requesting official transcripts should log into the National Student Clearinghouse transcript ordering site to submit a request. Unofficial transcripts are not available electronically. Contact Student Services with any questions.

- Students must know their Eagle ID number when requesting transcripts via NSCH. If you do not know your Eagle ID number please contact the Office of Student Services at 617-552-3300 or 800-294-0294 for assistance prior to logging into the NSCH site to make your request.
- Students who were enrolled at BC prior to the use of Eagle IDs should contact the Office of Student Services at 617-552-3300 or 800-294-0294 to receive their unique identification number.
- International students should review additional information in the accordion below regarding the social security number (SSN) requirement.
- Transcript requests will not be honored for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

**Additional Instructions for International Students**

In addition to Eagle ID number, a student's social security number (SSN) is required as a secondary security measure when requesting transcripts via the NSCH. For international students without SSNs, the Office of Student Services recommends using 999-99-9999 in the SSN field. This is a completely valid option for international students without SSNs looking to proceed with the request of a transcript.

**Apostilles or Authentication of Documents**

Some foreign governments and agencies require that diplomas, transcripts, or enrollment verifications be certified with an apostille. An apostille is a document issued by the Massachusetts' Secretary of the Commonwealth that verifies the authenticity of the signature on the document; the capacity in which the person signing the document acted; and the identity of any stamp or seal affixed to the document. The apostille is a specific form of authentication for countries that participate in the Hague Convention of 1961. The Secretary of the Commonwealth's office is the only agency in Massachusetts that is authorized to issue an apostille or certification for a notarized document going to a foreign country. Massachusetts does not certify out-of-state documents. They must be certified by the state of origin. Additional information can be found at [http://www.sec.state.ma.us/pre/precom/comidx.htm](http://www.sec.state.ma.us/pre/precom/comidx.htm).

Complete the Apostille Request Form. Boston College will notorize the documents as selected and return them to the requestor for further processing for the Apostille.
