1. **State the formal learning and/or operational outcomes for the program, service, or department:**
   - Students mandated through the University's Conduct System will complete MODE
   - Students who participate in MODE will have the opportunity to reflect on their marijuana use
   - Students will report fewer negative consequences associated with marijuana use
   - Students will agree or strongly agree that their MODE facilitator created a welcoming and non-judgmental group environment

2. **Where are these learning outcomes published? Be specific. (Where are the department’s learning expectations accessible to potential students: on the web or in your department’s handouts?):**
   - Alcohol and Drug Education Program website and reviewed with participants at the start of each class

3. **What data/evidence is used to determine whether participants have achieved the stated outcomes? (What method did you use? What were you measuring?):**
   - The MODE program was created during the 2014-2015 academic year and program impact has not yet be assessed. We are currently planning an assessment for the 2016-2017 academic year.
     - 50 students participated in the MODE program during the 2014-2015 academic year
     - 50 students completed the MODE program during the 2015-2016 academic year
   - A survey will be developed during the Fall of 2016 and administered to participants from January 2017 - May 2017.

4. **Who collects and interprets the evidence? When and how often does this occur? Who assists in interpreting and analyzing the data?:**
   - The Associate Director of the Office of Health Promotion will collect and analyze the data. We will implement the survey in the Spring of 2017 and analyze the results in May/June 2017.
5. **Individuals with whom the data is shared (list primary and secondary stakeholders and narrative as to why):**

Data will be shared internally with the facilitator of the MODE program in case any adjustments to the program need to be made. Results will be shared with those who refer students to the MODE program - DOS, Res Life, etc.

6. **What changes have been made as a result of using the data/evidence? (What was the change? What data led you to make that change?) If no change, indicate why.:**

7. **How do you know that the changes have resulted in improved learning outcomes? (continuous improvement evidence):**
