Foreword

The *Boston College Fact Book* is a summary of significant statistics gathered from various sources throughout the University. Once again, we wish to extend sincere thanks and appreciation for the excellent cooperation and assistance received from these many sources.

The purpose of the *Fact Book* is to produce a single-source publication and reference document that touches upon and integrates all aspects of the institution's people and its operations. The majority of the information is extracted from management reports produced on a regular basis by the various source offices. When reviewing the figures presented we advise you always to note the time frame referenced in the individual tables, and to contact responsible offices (noted at the bottom of each table) should you have further questions.

With this 29th edition, we continue our efforts to produce a *Fact Book* that provides both current information and an historical perspective. We welcome your comments and suggestions for additional information that might be included or improvements in the way information is presented.

The Mission of Boston College

Strengthened by more than a century and a quarter of dedication to academic excellence, Boston College commits itself to the highest standards of teaching and research in undergraduate, graduate and professional programs and to the pursuit of a just society through its own accomplishments, the work of its faculty and staff, and the achievements of its graduates. It seeks both to advance its place among the nation's finest universities and to bring to the company of its distinguished peers and to contemporary society the richness of the Catholic intellectual ideal of a mutually illuminating relationship between religious faith and free intellectual inquiry.

Boston College draws inspiration for its academic and societal mission from its distinctive religious tradition. As a Catholic and Jesuit university, it is rooted in a world view that encounters God in all creation and through all human activity, especially in the search for truth in every discipline, in the desire to learn, and in the call to live justly together. In this spirit, the University regards the contribution of different religious traditions and value systems as essential to the fullness of its intellectual life and to the continuous development of its distinctive intellectual heritage.

Boston College pursues this distinctive mission by serving society in three ways:

- by fostering the rigorous intellectual development and the religious, ethical and personal formation of its undergraduate, graduate and professional students in order to prepare them for citizenship, service and leadership in a global society;
- by producing nationally and internationally significant research that advances insight and understanding, thereby both enriching culture and addressing important societal needs; and
- by committing itself to advance the dialogue between religious belief and other formative elements of culture through the intellectual inquiry, teaching and learning, and the community life that form the University.

Boston College fulfills this mission with a deep concern for all members of its community, with a recognition of the important contribution a diverse student body, faculty and staff can offer, with a firm commitment to academic freedom, and with a determination to exercise careful stewardship of its resources in pursuit of its academic goals.

A Brief History of Boston College

Boston College was founded by the Society of Jesus in 1863, and is one of twenty-eight Jesuit colleges and universities in the United States. With three teachers and twenty-two students, the school opened its doors on September 5, 1864. At the outset and for more than seven decades of its first century, the college remained an exclusively liberal arts institution with emphasis on the Greek and Latin classics, English and modern languages and with more attention to philosophy than to the physical or social sciences. Religion of course had its place in the classroom as well as in the nonacademic life of the college.

Originally located on Harrison Avenue in the South End of Boston, where it shared quarters with the Boston College High School, the College outgrew its urban setting toward the end of its first fifty years. A new location was selected in Chestnut Hill, then almost rural, and four parcels of land were acquired in 1907. A design competition for the development of the campus was won by the firm of Maginnis and Walsh, and ground was broken on June 19, 1909, for the construction of Gasson Hall. It is located on the site of the Lawrence farmhouse, in the center of the original tract of land purchased by Father Gasson, and is built largely of stone taken from the surrounding property.

Later purchases doubled the size of the property, with the addition of the upper campus in 1941, and the lower campus with the purchase of the Lawrence Basin and adjoining land in 1949. In 1974 Boston College acquired Newton College of the Sacred Heart, a mile-and-a-half from the main campus. With fifteen buildings standing on forty acres, it is now the site of the Boston College Law School and dormitories housing over 800 students, primarily freshmen.

Though incorporated as a University since its beginning, it was not until its second half-century that Boston College began to fill out the dimensions of its University charter. The Summer Session was inaugurated in 1924; the Graduate School of Arts and Sciences in 1925; the Law School, 1929; the Evening College, 1929; the Graduate School of Social Work, 1936; the College of Business Administration, 1938. The latter, along with its Graduate School established in 1957, is now known as The Wallace E. Carroll School of Management. The Schools of Nursing and Education were founded in 1947 and 1952, respectively. Weston Observatory, founded in 1928, was accepted as a Department of Boston College in 1947, offering courses in geophysics and geology.

The Graduate School of Arts and Sciences began programs at the doctoral level in 1952. Now courses leading to the doctorate are offered by twelve Arts and Sciences departments. The Schools of Education and Nursing, the Carroll Graduate School of Management, and the Graduate School of Social Work also offer doctoral programs.

In 1927 Boston College conferred one earned bachelor's

degree and fifteen master's degrees on women through the Extension Division, the precursor of the Graduate School of Arts and Sciences, the Evening College, and the Summer Session. By 1970 all undergraduate programs had become coeducational. Today women students comprise more than half of the University's enrollment.

In 1996 the Evening College became the College of Advancing Studies, offering a master's degree as well as the bachelor's degree. The university's longest presidency, 24 years, came to an end when Father J. Donald Monan became chancellor and was succeeded in the presidency by Father William P. Leahy.

In 1997, Father Leahy announced the implementation plan for Advancing the Legacy, BC's \$260 million five year investment to strengthen education, reaffirm its Jesuit and Catholic mission, increase research and improve the quality of student life.

The Jesuit Community at Boston College

With nearly 130 members, the Jesuit Community at Boston College is among the largest in the world and is certainly the largest in any college or university. Forty-nine Jesuits work full-time at Boston College, 31 on different faculties and 18 in administrative positions. One third of the community consists of Jesuits nominally retired from academic work at Boston College, but many of these still teach and work in administrative posts on a part-time basis. A number of Jesuits in the community also offer Ignatian retreats and spiritual direction to faculty, staff, and students. Also part of the community are some 25 Jesuits from 17 different countries who are studying for graduate degrees at the University and several visiting scholars from other institutions. The main community residence is St. Mary's Hall, but there are also six smaller communities around the perimeter of the campus. Five Jesuits live in the residence halls. The Jesuits who staff St. Ignatius Parish are also a part of the Boston College Jesuit Community. For further details, including a list of courses taught by Jesuits at Boston College, see the Jesuit Community web page at <http://fmwww.bc.edu/SJ>

¹This statistic includes estimated regular university scholarships and grants (through the operating budget), faculty kin tuition remission, athletic grants, Jesuit Reduction, Alumni Association Scholarships, and endowed monies for scholarships.

²State scholarship funds to students from Massachusetts, Vermont, Connecticut, Pennsylvania, Rhode Island, Maine, New Hampshire; Gilbert Grants; and Herter Scholarships.

³Pell Grant eligibility is determined directly by the federal government.

⁴These loan funds (formerly called "National Direct Student Loans") are obtained by federal government contributions, Boston College contributions, and collections of previous loans awarded.

⁵This is a duplicated total since some students receive more than one type of aid.

***Important Note: The above data do not include Boston College student assistance for graduate and professional students (approximately \$16.33 million in tuition remission, grants, or scholarships and \$15.47 million in stipends during 1999-2000) administered by the various schools and departments. Also excluded are the Nursing Loan Program (\$267,450 during 1999-2000), a variety of grants and scholarships from fraternal organizations and clubs (\$3,800,000 during 1999-2000), and loans processed by the Financial Aid Office (\$82,004,000 during 1999-2000) for undergraduate students, graduate students, or their parents.**

Special Library Services

New Library Information System

The Libraries migrated to a new Web based state of the art integrated library system in June 2000. This new system is a flexible and open system with transparent interface to other systems and databases which allows for easy resource sharing capabilities. It provides expanded access to the Libraries' collections, databases, and services. The new system provides a variety of methods for searching the Boston College online catalog which includes books, periodicals, media materials, microforms, newspapers, and links to electronic materials at www.bc.edu/quest. QUEST can easily be searched from any Web browser regardless of platform or location, 24 hours a day, seven days a week. Users can interact with the system and receive immediate feedback on the status of requests; they can place a hold, recall, or request rush processing for a new book right from their desktop. Users can also initiate and track requests for document delivery and interlibrary loan transactions, and may renew materials that are currently charged to them. The Web interface and expanded cataloging capabilities allow unprecedented access to over 183 Web accessible databases, to full text journals, and to digital collections such as the Liturgy and Life Collection of the John J. Burns Library.

Digital Resources

The Boston College Libraries offer access to hundreds of databases via the Web and in CD-ROM format. A growing number of these databases and journals provide full text access directly to the researcher's desktop. A complete listing of all online databases available through the Libraries can be found by selecting Online Databases on the Resources menu of the Libraries home page: www.bc.edu/libraries.html. The database list includes groupings by subject and an alphabetical listing by title. Many databases can be launched directly by clicking on the web links. All other listings provide information explaining exactly where to access the databases. These can usually be accessed in the Electronic Information Center in the O'Neill Library or the Law Library. Many of these resources are fully cataloged and you can link directly to them from a record in the Boston College Libraries Catalog (www.bc.edu/quest). Databases range in coverage from very general to very specific and cover a wide range of research areas in the humanities, social sciences, sciences, health sciences, business, law, and public affairs. An expanding number of links to electronic journals may also be found under the Resources menu by selecting the Electronic Journals link.

Most databases available through the Boston College Libraries are restricted to the Boston College community. In order to access these databases from off campus, you need to log in as a verified Boston College community member. This can be done in one of two ways: using the modem pool (617-552-2790) or using the VPN (Virtual Private Network) software which allows access to the Boston College network and the Libraries' databases using commercial Internet service providers. For more information, check out the Computing and Communications page: www.bc.edu/infotech.

The Libraries also support an expanding digital collection of special and rare materials such as the Thomas P. O'Neill, Jr. Photographs, the Liturgy and Life Artifacts collection and the Boston Gas Company Photographs via the John J. Burns Library Rare Books and Special Collections web page: www.bc.edu/bc_org/avp/ulib/Burns/.

Librarians offer classes in how to search databases effectively, by arrangement with professors, and also provide individual coaching at various library service points or by appointment. Researchers who cannot locate resources needed may contact a librarian to develop a search strategy to locate relevant information. See the list of Subject Bibliographers to know which librarian to contact: www.bc.edu/bc_org/avp/ulib/ref/subspec.html.

Interlibrary Loan

The Interlibrary Loan Service is offered to students, faculty, administrators, and staff to obtain materials not available in the Boston College Libraries. Books, photocopies of journal articles, microfilm, theses, and government documents may be borrowed from other libraries. Except for unusual items, the waiting period is from one to four weeks. For anyone willing to use the material at the holding library, a computerized system at the reference desk will provide locations. Requests can be made by using electronic forms available on the Libraries' web site or by visiting a library.

Boston Library Consortium

The Boston College Libraries are part of the Boston Library Consortium, a group of area libraries which includes Brandeis University, Boston University, Brown University, Massachusetts Institute of Technology, Northeastern University, Tufts University, University of Massachusetts System, Wellesley College, as well as the Massachusetts State Library, the Boston Public Library, and the Marine Biological Laboratory at Woods Hole. Faculty may apply for a Consortium borrower's card at the Reference Department in O'Neill Library in order to borrow directly from the member libraries. Access to these collections will be enhanced as the Consortium introduces its Virtual Catalog in 2000/2001. The Virtual Catalog will allow searching of all Consortium libraries with the ability to request delivery of books to Boston College. Ask at O'Neill Reference for more information.

Association of Research Libraries

In October 2000, the Libraries became the 112th member of the Association of Research Libraries. Membership in ARL is limited to research institutions sharing common goals, interests, and needs. The mission of ARL is to shape and influence forces affecting the future of research libraries in the process of scholarly communication. Membership is by invitation upon the recommendation of the Board of Directors and approval of the membership.

United States Government Publications

Boston College is one of 1,350 Federal Depository Libraries located across the United States. As a Depository, the O'Neill Library receives thousands of government documents in print, microfiche, and electronic formats, and makes them available to the general public. Many government publications are now available via the Web or in CD-ROM format. Further information may be found on the following web page: www.bc.edu/bc_org/avp/ulib/ref/govdocs/Govdocs.html. Questions about the O'Neill collection and the availability of government documents should be directed to the Government Documents and Microforms staff on the first floor of the O'Neill Library.

Media Center

The Media Center on the second floor of the O'Neill Library houses information in many nonprint formats: videocassettes, DVDs, laserdiscs, compact discs, audiocassettes, LPs, and CD-ROMs. All media may be used by patrons within the Center in individual carrels. Faculty may conduct media classes in either of our two classrooms. There is a Faculty Preview Room for faculty meeting with small groups or previewing media materials. Loans of videos are restricted to BC faculty.

New England Library Information Network/OCLC

Through membership in the New England Library Information Network (NELINET), our users have on-line access to publishing, cataloging, and interlibrary loan location information from the data bank of OCLC, Inc. which contains over 43 million bibliographic records from the Library of Congress and other national libraries, and from over 27,000 other libraries worldwide.

Academic Development Center

The Academic Development Center (ADC) exists to support and enhance all aspects of academic excellence by helping undergraduates, graduate students, and faculty improve learning quality and teaching effectiveness. The ADC, which opened its doors in September 1991, is located on the second floor of O'Neill Library in the Eileen M. and John M. Connors, Jr. Learning Center.

The ADC is a comprehensive, inclusive resource serving all of the University's students and faculty. To address the needs of the great majority of Boston College students, the Center provides tutoring for more than 60 courses, including calculus, statistics, biology, chemistry, nursing, accounting, and classical and foreign languages. In addition, graduate students in English serve as writing tutors. (All ADC tutors are recommended and approved by their relevant academic departments; most are graduate students, juniors, or seniors.)

The Center offers programs designed to challenge the most academically talented, highest achieving students — as well as programs designed to support those who are least prepared and most academically challenged. One of the ADC's three professional staff members assists students with learning disabilities, helping to ensure their academic success at Boston College.

Tutoring, and all other academic support services, are free of charge to all Boston College students and instructors.

The Center also sponsors seminars, workshops, and discussions for faculty and graduate teaching fellows on strategies for successful teaching and learning. Through these and other activities, the Academic Development Center plays an increasingly important role in enhancing the quality of academic life at Boston College.

University Archives

Archives are the official noncurrent papers and records of an institution that are deemed worthy of preservation for their legal, fiscal, or historical values. The University Archives, a department within the John J. Burns Library, contains the office records and documents of the various University offices, academic and otherwise, copies of all University publications, including student publications, movie footage of Boston College football, some audiovisual materials, and tape recordings of the University Lecture Series and other significant events. A significant collection of photographs documents the pictorial history of Boston College. Alumni, faculty, and Jesuit records are also preserved. In addition, the Archives is the repository for the documents of Newton College of the Sacred Heart (1946–1975); the Jesuit Education Association (1934–1970); the Catholic International Education Office (1952–1976); and the documents of the Jesuit Community of Boston College (1863–).

The Language Laboratory

The Boston College Language Laboratory, serving all the language departments, students of English as a foreign language, and the Boston College community at large, is located in Lyons 313. In addition to its 32 listening/recording stations and teacher console, the facility includes: 15 networked Macintosh workstations, two laser printers, a Web server, a materials development workstation, two TV/video viewing rooms, two individual carrels for TV/video viewing, and one CD listening station. The Lab's audio and videotape/laserdisc collection, computer/multimedia software, other audiovisual learning aids, and print materials including mono- and bilingual dictionaries, as well as laboratory manuals for elementary through advanced language courses, directly support and/or supplement the curriculum requirements in international language, literature, and music.

The Lab's collection is designed to assist users in the acquisition and maintenance of aural comprehension, oral and written proficiency, and cultural awareness. Prominent among the Lab's offerings that directly address these goals are international news broadcasts and other television programming available through the Boston College cable television network and made accessible to lab users via EagleNet connections and/or via videotaped off-air recordings. These live or near-live broadcasts from around the world provide a timely resource for linguistic and cultural information in a wide variety of languages.

Students (undergraduate and graduate), faculty, and B.C. community members who wish to use the Language Laboratory facility and its collection will find the Laboratory staff available during the day, in the evening, and on weekends to assist them in the operation of equipment and in the selection of appropriate materials for their course-related or personal language needs. Digitized audio programs from the Lab's collection are also available on the Boston College network 24 hours a day, 7 days a week to students officially enrolled in courses in which these programs have been adopted as curricular material. For more information about the Language Laboratory, please visit www.bc.edu/langlab.

The McMullen Museum of Art

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums.

Begun in the nineteenth century, the University's permanent collection contains masterpieces that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the sixteenth and seventeenth centuries, American landscape paintings of the nineteenth and early twentieth centuries, and Japanese prints. The collection is displayed on a rotating basis in the Museum's galleries on the ground floor. In keeping with the teaching mission of a university museum, accompanying text explains the significance of each work in its historical context and addresses questions from the current scholarship. The Museum maintains an active special exhibition program, bringing outstanding works from around the world to Chestnut Hill. The Museum also contains a Micro Gallery, an innovative computer system which visitors to the Museum may use to display information and images of works in the permanent collection, as well as photographs of related works. The Museum organizes public lectures, symposia, workshops, film series, and gallery tours in concert with current exhibitions.

Information Technology

Information Technology manages Boston College's computing, communications, and electronic information resources. It provides leadership in shaping technology plans and strategies to support the mission and goals of the University. Boston College's campus technology environment is a highly integrated voice, data, and cable television network with high-speed connections to all classrooms, offices, and residence hall rooms. The University's three-year plan to implement wireless technology was launched in 2000, with wireless service now available in most academic and administrative offices. The entire campus will be blanketed with access points by the end of 2002. A Virtual Private Networking capability was introduced during the summer of 2000 to enhance current off campus access to computing resources. And, in keeping with Information Technology's commitment to web-enabled services, the Tech Products Store was converted from a physical to a virtual store at the end of the Fall semester. A new look and feel for the Boston College web sites was approved, and the Alumni Online site was the first to be published using the new format. The Information Technology organization itself – about 140 strong – underwent significant restructuring during 2000, in a move to support better the rapid implementation of applications and infrastructure.

Student Learning and Support Center

The Student Learning and Support Center (SLSC) brings together students, customer service, and technology. The SLSC, located in O'Neill Library 250, is Boston College's main computer laboratory. The facility holds 75 Macintosh G3s and 80 IBM Pentium III computers, two color scanners, six networked email stations, two music stations, nine high speed laser printers, a typewriter and six laptop docking stations. The SLSC is home to the Student Help Desk where students find assistance in solving hardware, software, and networking problems. Within the facility, users have access to a wide variety of software applications and full access to the internet. For more information about the SLSC, see its web page: <http://www.bc.edu/slsc>.

Office of Research Administration

Highlights of Sponsored Activities during 1999-2000

A total of 292 proposals were submitted in FY2000. The amount of funding requested for the total project period for these proposals was \$71,116,535.

In FY2000, a record was set for the number of award obligations received. There were 283 sponsored project award obligations made in FY2000 for a total of \$31,464,752. The total amount of award obligations received in FY2000 were approximately 5% higher than those received in FY1999. This is an indication of the continued success of Boston College faculty.

Overall, there remains a general upward trend in sponsored project activities at Boston College. There are a greater number of faculty working with the Office of Research Administration to secure external funding from both Federal and non-Federal sponsors.

The CNR's central purpose is to serve as an institutional resource for faculty and students in the School of Nursing, the Boston College community, and the greater Boston nursing and health care community. Three interrelated but separate goals support the purpose of the CNR: (1) to strengthen the research productivity of faculty in the School of Nursing, (2) to increase intradisciplinary and interdisciplinary research and scholarship, and (3) to communicate research findings to facilitate research utilization in nursing practice and in educational settings. The Center serves as a repository for the Cathy J. Malek Research Collection

as well as books and other materials related to quantitative and qualitative research methods, data analysis, grant-seeking and grant-writing. Web site: http://www.bc.edu/bc_org/avp/son/ctrnsresearch/nsgresearch.html

Center for Retirement Research

The Center for Retirement Research at Boston College was established through a 5-year \$5.25 million grant from the Social Security Administration in 1998. The goals of the Center are to promote research on retirement issues, to transmit new findings to the policy community and the public, to help train new scholars, and to broaden access to valuable data sources. The Center is the headquarters for researchers and experts in affiliated institutions including MIT, Syracuse University, the Brookings Institution, the Urban Institute, and the National Academy of Social Insurance. The Center is structured around a research team of interdisciplinary backgrounds in actuarial science, demography, economics, economic history, finance, political science, sociology and social work, and possesses a breadth of knowledge on retirement issues and institutions virtually unmatched in the field. As the nation confronts the myriad issues surrounding how best to ensure adequate retirement income for an aging population, the Center's researchers and experts explore possible policy changes related to Social Security, private pensions, and other sources of retirement income.

Jesuit Institute

The Jesuit Institute was established in 1988 to contribute towards the response to the question of identity. The Institute, initially funded by the Jesuit Community at Boston College, is not an additional or separate academic program. It is rather a research institute which works in cooperation with existing schools, programs and faculties, primarily but not exclusively, at Boston College. Within an atmosphere of complete academic freedom essential to a university, the Institute engages positively in the intellectual exchange that constitutes the University. Its overarching purpose is to foster research and collaborate interchange upon those issues that emerge at the intersection of faith and culture. Through its programs, the Institute does this in two ways: by supporting the exploration of those religious and ethical questions raised by this intersection and by supporting the presence of scholars committed to these questions.
