

THE McMULLEN MUSEUM OF ART

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums. The Museum maintains an active special exhibition program, bringing outstanding works from around the world to Chestnut Hill. The Museum organizes public lectures, symposia, workshops, film series, and gallery tours to accompany current exhibitions. Begun in the nineteenth century, the University's permanent collection contains works that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the sixteenth and seventeenth centuries, American landscape paintings of the nineteenth and early twentieth centuries, and Japanese prints. The collection is displayed on a rotating basis in the Museum's galleries. In keeping with the teaching mission of a university museum, accompanying text explains the significance of each work in its historical context and addresses questions from the current scholarship.

INFORMATION TECHNOLOGY SERVICES

Information Technology Services manages Boston College's computing, communications, and electronic information resources, and working with key constituencies throughout the university, provides the leadership to shape future technology plans and strategies to meet the mission and goals of the University. The highly integrated Boston College campus technology environment provides voice, data, and cable television connections to classrooms, offices, and residence hall rooms. IT staff work to keep up with rapidly changing applications and technology infrastructure, providing faculty, staff and students with the tools and technologies needed to compete and succeed. As the development of Web-enabled services matures, BC continues providing new Web-based online services, such as enhanced email services, and personal information management options.

STUDENT LEARNING AND SUPPORT CENTER

The Student Learning and Support Center (SLSC) is Boston College's main computer laboratory on campus and assists students in accessing computing resources on campus and hosts a student computer lab. Currently, the computer lab has 137 Pentium 4 Dells PCs and 29 eMacs G3s and 19 G4s running OSX. In addition to the workstations, the facility has 5 color scanners, 2 music stations, 9 high speed laser printers, 10 laptop docks, a disk vending machine, a typewriter, notary services, resume printing, print only stations and training classes for students in PhotoShop, HTML, Dreamweaver, Flash, Excel, etc. The SLSC is also home to the Student Help Desk (552-HELP) offering software troubleshooting and virus assistance. Users also find fast connection to the internet. For more information see the SLSC web site at: www.bc.edu/slsc.
