Foreword

The *Boston College Fact Book* is a summary of significant statistics gathered from various sources throughout the University. Once again, we wish to extend sincere thanks and appreciation for the excellent cooperation and assistance received from these many sources.

The purpose of the *Fact Book* is to produce a single-source publication and reference document that touches upon and integrates all aspects of the institution's people and its operations. The majority of the information is extracted from management reports produced on a regular basis by the various source offices. When reviewing the figures presented we advise you always to note the time frame referenced in the individual tables, and to contact responsible offices (noted at the bottom of each table) should you have further questions.

With this 28th edition, we continue our efforts to produce a *Fact Book* that provides both current information and an historical perspective. We welcome your comments and suggestions for additional information that might be included or improvements in the way information is presented.

Non-Discrimination Statement

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic mission and heritage. Committed to maintaining a welcoming environment for all people, the University recognizes the important contribution a diverse community of students, faculty and administrators makes to the advancement of its goals and ideals.

Boston College rejects and condemns all forms of harassment, and it has developed procedures to redress incidents of harassment against any members of its community, whatever the basis or circumstance. Moreover, in accordance with all applicable state and federal laws, Boston College does not discriminate in employment, housing, or education on the basis of a person's race, religion, color, national origin, age, sex, marital or parental status, veteran status, or disabilities. In addition, in a manner faithful to the Jesuit, Catholic principles and values that sustain its mission and heritage, Boston College is in compliance with applicable state laws providing equal opportunity without regard to sexual orientation.

Boston College has designated the Director of Affirmative Action to coordinate its efforts to comply with and carry out its responsibilities to prevent discrimination in accordance with state and federal laws. Any applicant for admission or employment, as well as all students, faculty members, and employees, are welcome to raise any questions regarding violation of this policy with Barbara Marshall, Director of Affirmative Action, More Hall 315, 552-2947. In addition, any person who believes that an act of discrimination based on Title IX discrimination has occurred at Boston College may raise this issue with the Assistant Secretary for Civil Rights of the United States Department of Education.

The Mission of Boston College

Strengthened by more than a century and a quarter of dedication to academic excellence, Boston College commits itself to the highest standards of teaching and research in undergraduate, graduate and professional programs and to the pursuit of a just society through its own accomplishments, the work of its faculty and staff, and the achievements of its graduates. It seeks both to advance its place among the nation's finest universities and to bring to the company of its distinguished peers and to contemporary society the richness of the Catholic intellectual ideal of a mutually illuminating relationship between religious faith and free intellectual inquiry.

Boston College draws inspiration for its academic and societal mission from its distinctive religious tradition. As a Catholic and Jesuit university, it is rooted in a world view that encounters God in all creation and through all human activity, especially in the search for truth in every discipline, in the desire to learn, and in the call to live justly together. In this spirit, the University regards the contribution of different religious traditions and value systems as essential to the fullness of its intellectual life and to the continuous development of its distinctive intellectual heritage.

Boston College pursues this distinctive mission by serving society in three ways:

- by fostering the rigorous intellectual development and the religious, ethical and personal formation of its undergraduate, graduate and professional students in order to prepare them for citizenship, service and leadership in a global society;
- by producing nationally and internationally significant research that advances insight and understanding, thereby both enriching culture and addressing important societal needs; and
- by committing itself to advance the dialogue between religious belief and other formative elements of culture through the intellectual inquiry, teaching and learning, and the community life that form the University.

Boston College fulfills this mission with a deep concern for all members of its community, with a recognition of the important contribution a diverse student body, faculty and staff can offer, with a firm commitment to academic freedom, and with a determination to exercise careful stewardship of its resources in pursuit of its academic goals.

A Brief History of Boston College

Boston College was founded by the Society of Jesus in 1863, and is one of twenty-eight Jesuit colleges and universities in the United States. With three teachers and twenty-two students, the school opened its doors on September 5, 1864. At the outset and for more than seven decades of its first century, the college remained an exclusively liberal arts institution with emphasis on the Greek and Latin classics, English and modern languages and with more attention to philosophy than to the physical or social sciences. Religion of course had its place in the classroom as well as in the non-academic life of the college.

Originally located on Harrison Avenue in the South End of Boston, where it shared quarters with the Boston College High School, the College outgrew its urban setting toward the end of its first fifty years. A new location was selected in Chestnut Hill, then almost rural, and four parcels of land were acquired in 1907. A design competition for the development of the campus was won by the firm of Maginnis and Walsh, and ground was broken on June 19, 1909, for the construction of Gasson Hall. It is located on the site of the Lawrence farmhouse, in the center of the original tract of land purchased by Father Gasson, and is built largely of stone taken from the surrounding property.

Later purchases doubled the size of the property, with the addition of the upper campus in 1941, and the lower campus with the purchase of the Lawrence Basin and adjoining land in 1949. In 1974 Boston College acquired Newton College of the Sacred Heart, a mile-and-a-half from the main campus. With fifteen buildings standing on forty acres, it is now the site of the Boston College Law School and dormitories housing over 800 students, primarily freshmen.

Though incorporated as a University since its beginning, it was not until its second half-century that Boston College began to fill out the dimensions of its University charter. The Summer Session was inaugurated in 1924; the Graduate School of Arts and Sciences in 1925; the Law School, 1929; the Evening College, 1929; the Graduate School of Social Work, 1936; the College of Business Administration, 1938. The latter, along with its Graduate School established in 1957, is now known as The Wallace E. Carroll School of Management. The Schools of Nursing and Education were founded in 1947 and 1952, respectively. Weston Observatory, founded in 1928, was accepted as a Department of Boston College in 1947, offering courses in geophysics and geology.

The Graduate School of Arts and Sciences began programs at the doctoral level in 1952. Now courses leading to the doctorate are offered by twelve Arts and Sciences departments. The Schools of Education and Nursing, the Carroll Graduate School of Management, and the Graduate School of Social Work also offer doctoral programs.

In 1927 Boston College conferred one earned bachelor's

degree and fifteen master's degrees on women through the Extension Division, the precursor of the Graduate School of Arts and Sciences, the Evening College, and the Summer Session. By 1970 all undergraduate programs had become coeducational. Today women students comprise more than half of the University's enrollment.

In 1996 the Evening College became the College of Advancing Studies, offering a master's degree as well as the bachelor's degree. The university's longest presidency, 24 years, came to an end when Father J. Donald Monan became chancellor and was succeeded in the presidency by Father William P. Leahy.

In 1997, Father Leahy announced the implementation plan for Advancing the Legacy, BC's \$260 million five year investment to strengthen education, reaffirm its Jesuit and Catholic mission, increase research and improve the quality of student life.

The Jesuit Community at Boston College

With nearly 130 members, the Jesuit Community at Boston College is among the largest in the world and is certainly the largest in any college or university. Fifty-three Jesuits work full-time at Boston College, 30 on different faculties and 23 in administrative positions. One third of the community consists of Jesuits nominally retired from academic work at Boston College, but many of these still teach and work in administrative posts on a part-time basis. A number of Jesuits in the community also offer Ignatian retreats and spiritual direction to faculty, staff, and students. Also part of the community are some 22 Jesuits from 10 different countries who are studying for graduate degrees at the University and several visiting scholars from other institutions. The main community residence is St. Mary's Hall, but there are also communities at Roberts House and Manresa House (both on Beacon Street) and at Barat House (on the Newton Campus). The Jesuits who staff St. Ignatius Parish are also a part of the Boston College Jesuit Community.

¹This statistic includes estimated regular university scholarships and grants (through the operating budget), faculty kin tuition remission, athletic grants, Jesuit Reduction, Alumni Association Scholarships, and endowed monies for scholarships.

²State scholarship funds to students from Massachusetts, Vermont, Connecticut, Pennsylvania, Rhode Island, Maine, New Hampshire; Gilbert Grants; and Herter Scholarships.

³Pell Grant eligibility is determined directly by the federal government.

⁴These loan funds (formerly called "National Direct Student Loans") are obtained by federal government contributions, Boston College contributions, and collections of previous loans awarded.

⁵This is a duplicated total since some students receive more than one type of aid.

***Important Note: The above data do not include Boston College student assistance for graduate and professional students (approximately \$14.92 million in tuition remission, grants, or scholarships and \$11.17 million in stipends during 1998-99) administered by the various schools and departments. Also, excluded are the Nursing Loan Program (\$285,550 during 1998-99), a variety of grants and scholarships from fraternal organizations and clubs (\$4,175,958 during 1998-99), and loans processed by the Financial Aid Office (\$81,907,000 during 1998-99) for undergraduate students, graduate students, or their parents.**

Nonoperating revenues consist of gifts, investment income, and realized and unrealized gains on investments.

* FY1996 figures do not include a one-time curtailment charge of \$8.3 resulting from a change in accounting for the University's Postretirement Health Care Plan.

** Beginning in FY1997, costs associated with the operation and maintenance of plant facilities are functionally allocated. These costs totaled \$26.1, \$26.4, and \$26.7 million for fiscal years 1997, 1998, and 1999 respectively.

Special Library Services

Next-Generation Library Information System

The Libraries are replacing the existing Quest Library Information System with a state of the art web-based system that will provide expanded access to the Libraries' collections, databases and services. As with Quest, the new system will provide a variety of methods for searching the Boston College Online Catalog, which includes approximately 5.2 million books, periodicals, media materials, microforms, newspapers and links to electronic materials. Unlike Quest, the new system will be available 24 hours a day, and will include an expanded array of patron services that allow students, faculty, and staff to locate, request, and renew library materials and to request other library services online. The new system will also provide integrated access to the Libraries' increasing array of electronic resources including over 100 web accessible databases, full text journals and digital collections, such as the Liturgy and Life Collection of the John J. Burns Library. The migration to the new system will be completed in June 2000.

Digital Resource

The Boston College Libraries offer over 500 databases online via the web and in CD-ROM format. A growing number of these databases and journals provide full text access directly to the researcher's desktop. A complete listing of all online databases available through the Libraries can be found by selecting Online Databases from the Resources menu on the Libraries home page <<http://www.bc.edu/libraries.html>>. The databases list includes both groupings by subject and an alphabetical listing by title with special designations for full text databases. Many of the databases can be launched directly by clicking on the web links. All other listings provide information explaining exactly where to access the databases. These can usually be accessed in the Electronic Information Center in the O'Neill Library or the Law Library. Databases range in coverage from very general to very specific and cover a wide range of research areas in the humanities, social sciences, sciences, health sciences, business, law and public affairs. An expanding number of links to electronic journals may also be found under the Resources menu by selecting the Electronic Journals link.

The Libraries also support an expanding digital collection of special and rare materials such as the Thomas P. O'Neill, Jr. Photographs, the Liturgy and Life Artifacts collection and the Boston Gas Company Photographs via the John J. Burns Library Rare Books and Special Collections web page: <http://www/bc/edu/bc_org/avp/ulib/burns/index.html>

Librarians offer training classes in how to search databases effectively, by arrangement with professors, and also provide individual coaching at various library service points or by appointment.

Researchers who cannot locate resources needed may contact a librarian to develop a search strategy to locate relevant information.

Finally, the Libraries facilitate access to many computerized numeric databases in business, economics, and the social sciences. Contact the O'Neill Reference Desk (refer@bc.edu) or

one of the Special Libraries for more information about these services, or to arrange demonstrations, workshops, and classroom presentations.

Interlibrary Loan

The Interlibrary Loan Service is offered to students, faculty, administrators, and staff to obtain materials not available in the Boston College Libraries. Books, photocopies of journal articles, microfilm, theses, and government documents may be borrowed from other libraries. Except for unusual items, the waiting period is from one to four weeks. For anyone willing to use the material at the holding library, a computerized system at the reference desk will provide locations. Requests can be made by using electronic forms available on the Libraries' web site or by visiting a library.

Boston Library Consortium

The Boston College Libraries are part of the Boston Library Consortium, a group of area libraries which includes Brandeis University, Boston University, Brown University, Massachusetts Institute of Technology, Northeastern University, Tufts University, University of Massachusetts System, Wellesley College, as well as the Massachusetts State Library, the Boston Public Library and the Marine Biological Laboratory at Woods Hole. Faculty may apply for a Consortium borrower's card at the Reference Department in the O'Neill Library in order to borrow directly from the member libraries.

United States Government Publications

Boston College is one of 1,370 Federal Depository Libraries located across the United States. As a Depository, the O'Neill Library receives thousands of government documents in print, microfiche and electronic formats and makes them available to the general public. Many government publications are now available via the Web or in CD-ROM format. Further information may be found on the web page: <http://www.bc.edu/bc_org/avp/ulib/ref/govdocs/Govdocs.html>. Questions about the O'Neill collection and the availability of government documents should be directed to the Government Documents and Microforms staff on the first floor of O'Neill Library.

Media Center

The Media Center on the second floor of O'Neill Library houses information in many non-print formats: videocassettes, laserdiscs, 16mm films, compact discs, audiocassettes, phonodiscs, and CD-ROMs. All media may be used by patrons within the Center, in individual carrels. Faculty may conduct their classes in each of our two media classrooms. There is a Faculty Preview Room for faculty meeting with small groups or previewing media materials. Loans of videos are restricted to BC faculty.

New England Library Information Network/OCLC

Through membership in the New England Library Information Network (NELINET), our users have on-line access to publishing, cataloging, and interlibrary loan location information from the data bank of OCLC, Inc. which contains over 39 million bibliographic records from the Library of Congress and other national libraries and from over 27,000 other libraries worldwide.

The Burns Library is home to more than one hundred thousand volumes, some twelve million manuscripts, and important collections of architectural records, maps, art works, photographs, films, prints, artifacts, and ephemera. Academic Development Center

The Academic Development Center (ADC) exists to support and enhance all aspects of academic excellence by helping undergraduates, graduate students, and faculty improve learning quality and teaching effectiveness. The ADC, which opened its doors in September 1991, is located on the second floor of O'Neill Library in the Eileen M. and John M. Connors, Jr. Learning Center.

The ADC is a comprehensive, inclusive resource serving all of the University's students and faculty. To address the needs of the great majority of Boston College students, the Center provides tutoring for more than 60 courses, including calculus, statistics, biology, chemistry, nursing, accounting, and classical and foreign languages. In addition, graduate students in English serve as writing tutors. (All ADC tutors are recommended and approved by their relevant academic departments; most are graduate students, juniors, or seniors.)

The Center offers programs designed to challenge the most academically talented, highest achieving students — as well as programs designed to support those who are least prepared and most academically challenged. One of the ADC's three professional staff members assists students with learning disabilities, helping to ensure their academic success at Boston College.

Tutoring, and all other academic support services, are free of charge to all Boston College students and instructors.

The Center also sponsors seminars, workshops, and discussions for faculty and graduate teaching fellows on strategies for successful teaching and learning. Through these and other activities, the Academic Development Center plays an increasingly important role in enhancing the quality of academic life at Boston College.

University Archives

Archives are the official noncurrent papers and records of an institution that are deemed worthy of preservation for their legal, fiscal, or historical values. The University Archives, a department within the John J. Burns Library, contain the office records and documents of the various University offices, academic and otherwise, copies of all University publications, including student publications, movie footage of Boston College football, some audiovisual materials, and tape recordings of the University Lecture Series and other significant events. A significant collection of photographs documents the pictorial history of Boston College. Alumni, faculty, and Jesuit records are also preserved. In addition, the Archives are the repository for the documents of Newton College of the Sacred Heart (1946–1975); the Jesuit Education Association (1934–1970); the Catholic International Education Office (1952–1976); and the documents of the Jesuit Community of Boston College (1863–).

The Language Laboratory

The Boston College Language Laboratory, serving all the language departments, students of English as a foreign language, and the Boston College community at large, is located in Lyons 313. In addition to its 32 state-of-the-art listening/recording stations and teacher console (installed in Summer 1998), the facility includes video viewing rooms, multimedia-equipped Macintosh workstations, and a CD listening station. The Lab's audio and videotape/laserdisc collection, computer software, other audiovisual learning aids, and print materials including mono- and bilingual dictionaries, as well as laboratory manuals for elementary through advanced language courses, directly support and/or supplement the curriculum requirements in international language, literature, and music. The Lab's collection is designed to assist users in the acquisition and maintenance of aural comprehension, oral and written proficiency, and cultural awareness. Prominent among the Lab's offerings that directly address these goals are international news broadcasts and other television programming available through the Boston College cable television network and made accessible to Lab users via EagleNET connections and/or via videotaped off-air recordings. These live or near-live broadcasts from around the world provide a timely resource for linguistic and cultural information in a wide variety of languages. Students (undergraduate and graduate), faculty, and BC community members who wish to use the Language Laboratory facility and its collection will find the Laboratory staff available during the day, in the evening, and on weekends to assist them in the operation of equipment and in the selection of appropriate materials for their course-related or personal language needs.

The McMullen Museum of Art

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums.

Begun in the nineteenth century, the University's permanent collection contains masterpieces that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the sixteenth and seventeenth centuries, American landscape paintings of the nineteenth and early twentieth centuries, and Japanese prints. The collection is displayed on a rotating basis in the Museum's galleries on the ground floor. In keeping with the teaching mission of a university museum, accompanying text explains the significance of each work in its historical context and addresses questions from the current scholarship. The Museum maintains an active special exhibition program, bringing outstanding works from around the world to Chestnut Hill. The Museum also contains a Micro Gallery, an innovative computer system which visitors to the Museum may use to display information and images of works in the permanent collection, as well as photographs of related works. The Museum organizes public lectures, symposia, workshops, film series, and gallery tours in concert with current exhibitions.

Information Technology

Information Technology manages Boston College's computing, communications, and electronic information resources. It provides leadership in shaping technology plans and strategies to support the mission and goals of the University. Boston College's campus technology environment is a highly integrated voice, data, and cable television network with high speed connections to all classrooms, offices, and residence hall rooms. The University's network infrastructure was enhanced in 1999 to double the speed of its connection to the Internet, improve its capacity to intelligently and selectively pass or deny access to network resources, and provide better support for off campus users accessing the network through internet service providers or the University's modem pool. We are in the process of implementing wireless networking across the campus. Information Technology has a staff of approximately 140 employees organized to deal effectively with the challenges of new technologies and customer needs. The organization focuses on rapid implementation of internet, intranet, and extranet applications on an expanding and evolving network computing infrastructure.

Student Learning and Support Center

The Student Learning and Support Center (SLSC) brings together students, customer service, and technology. The SLSC, located in O'Neill Library 250, is Boston College's main computer laboratory. The facility holds 75 Macintosh G3s and 80 IBM Pentium III computers, 2 color scanners, 6 networked email stations, 2 music stations, 9 high speed laser printers, a typewriter, 6 laptop docking stations, and Notary Services. The SLSC is home to the Student Help Desk where students will find assistance in solving hardware, software, and networking problems. Within the facility, users have access to a wide variety of software applications and full access to the internet. For more information about the SLSC, see its web page: <http://www.bc.edu/slsc>

Center for Child, Family, and Community Partnerships

The Center for Child, Family and Community Partnerships is an "outreach scholarship" program that fosters collaboration among Boston College faculty and students, and community leaders in health care, social service, economic development, and education. The goal of the participants is to create stronger, healthier, and more economically sound communities. The Center offers technical assistance, program evaluation, needs assessment, training, and consultation to community organizations.

Center for Corporate Community Relations

The Center for Corporate Community Relations is an international corporate membership organization. The Center partners with businesses worldwide to strengthen their community relationships and investments to achieve healthy, sustainable communities in which to live, work and do business. The Center does this through research, policy, and education that build knowledge of the interdependence of community vitality and business success.

The Center's research and development are dedicated to advancing the understanding and creating new technologies for the practice of corporate citizenship, including best practices that define and measure excellence, national surveys and custom research upon request.

The Center offers a unique Resource Center on Corporate Citizenship. It maintains a collection of corporate citizenship materials from more than 1,000 corporations and background materials on more than 400 non-profit organizations, and provides quick-response, customized searches to provide information about corporate citizenship.

Center for East Europe, Russia, and Asia

The Center's programs encourage faculty and students to participate in interdepartmental endeavors on both the graduate and undergraduate levels. Participating faculty come from the Departments of Fine Arts, History, Philosophy, Political Science, Slavic and Eastern Languages, and Theology and offer over eighty academic courses connected with the study of the culture, history, and political life of East Europe, Russia, the Balkans, and Central Asia.

Center for Ignatian Spirituality

The Center for Ignatian Spirituality is a university operation that offers faculty and staff a resource to carry on the needed dialogue between the values that constitute Boston College and the pluralism that characterizes our contemporary culture. The Center initiates its own programs, inviting faculty and staff to pursue a particular topic; gives support to the Ignatian Society, a student group committed to integrating Ignatian spirituality into the lives of its members and offering other students opportunities to do the same; sponsors retreats and reflection opportunities for faculty and staff; and has a wide range of national and international commitments to other institutions in their efforts to integrate Ignatian spirituality into their educational endeavors.

Center for International Higher Education

Established in 1995 and housed in the Lynch School of Education, the Center for International Higher Education (CIHE) is a research and service agency providing information, publications and a sense of community to colleges and universities worldwide. The main focus of the Center is on academic institutions in the Jesuit tradition, but other universities receive its publications and are part of an informal network. There is a special concern with the needs of academic institutions in the developing countries of the Third World.

Center activities include the publication of a quarterly newsletter dealing with the central concerns of higher education in an international context; a book series on higher education; the maintenance of an international data base of administrators, policy makers, and researchers in the field of higher education; and sponsorship of an international conference on higher education issues. Visiting scholars from Jesuit and other universities worldwide occasionally are in residence at the Center.

Center for Nursing Research

The CNR's central purpose is to serve as an institutional resource for faculty and students in the School of Nursing, the Boston College community, and the greater Boston nursing and health care community. Three interrelated but separate goals support the purpose of the CNR: (1) to strengthen the research productivity of faculty in the School of Nursing, (2) to increase intradisciplinary and interdisciplinary research and scholarship, and (3) to disseminate research findings to facilitate

research utilization in nursing practice and in educational settings. The Center serves as a repository for the Cathy J. Malek Research Collection as well as books and other materials related to quantitative and qualitative research methods, data analysis, grant-seeking and grant-writing.

Center for the Study of Testing, Evaluation, and Educational Policy (CSTEETP)

The Lynch School of Education houses the Center for the Study of Testing, Evaluation, and Educational Policy (CSTEETP), a university-supported research center internationally recognized for its work in the policy uses of tests. This research center is a rich resource for all programs in education. In the past decade, CSTEETP has been involved in assessment issues that address the fairness of testing in culturally and economically diverse populations.

CSTEETP has been joined by the Learning Communities Research Group (LCRG). LCRG projects include Vanguard for Learning, Math Instruction through Video, and World Band. The Group specializes in research on technology in education.

Funding from the Spencer Foundation has enabled researchers from CSTEETP to document and change the educational ecology of classrooms and schools through student drawings in the Drawing on Education project.

Center for Work and Family

The Center for Work and Family at Boston College Wallace E. Carroll School of Management is a research organization that promotes employer and community responsiveness to families. The guiding vision of the Center is the strengthening of families, broadly defined to reflect the diversity throughout our communities today. The Center's activities fall into three broad categories: research, policy initiatives and employer partnerships.

Central to the Center's operating philosophy is collaboration with leading partners who are also committed to advancing the issues of work and family. These partnerships have resulted in several significant outcomes, including:

- Publication of a Policy Paper Series on work and family.
- Ongoing expansion of our two corporate partnerships, the Work and Family Roundtable and the New England Work and Family Association.
- Publication by *Business Week* in 1996 and 1997 of the first-ever corporate ranking of family friendliness.
- Development of a practitioner's manual to guide companies through a strategic planning process linking work/life to business priorities.
- Development of the Principles of Excellence in Work and Family, a set of standards for organizations striving to be leaders in this area.

Institute of Medieval Philosophy and Theology

The Institute is a center that unites the teaching and research efforts of the faculty members in the Philosophy and Theology Departments who specialize in medieval philosophy and theology. Doctoral degrees are awarded in the Theology or Philosophy departments and students matriculate in one of these two departments. The focus of the Institute is on the relationship between medieval philosophy and theology and modern continental philosophy and theology.

To foster this dialogue and encourage the scholarly retrieval of the great medieval intellectual world, the institute offers graduate student fellowships and assistantships, sponsors speakers programs, runs a faculty-student seminar to investigate new areas of medieval philosophical and theological research, and has set up a research center to assist in the publication of monographs and articles.

Institute for Scientific Research

The Institute for Scientific Research (ISR) is engaged in scientific analysis, mathematical modeling and image processing in heavenly explorations—for example, interpreting changes in infrared emissions in space—and in earthbound pursuits—such as designing a database to help understand the behavior of financial markets.

Over the course of its history, the Institute has utilized a diversity of knowledge to develop highly sophisticated techniques for analyzing raw scientific and engineering data and presenting it in meaningful ways. Using state-of-the-art analytical tools and technology including computer-generated modeling, the Institute leads in scientific data analysis and interpretation using statistical data analysis, digital signal and image processing; mathematical signal modeling; animated visualization of real and simulated data; the manipulation and interpretation of scientific images; and the design of specialized databases, data management techniques and interactive scientific software.

Irish Institute

The Irish Institute, established in 1992, utilizes cross-campus resources to create and provide programs in areas such as business, government and education. We believe that this mission—and the personal, educational, and corporate exchanges it facilitates—serves to promote a more lasting peace on the island of Ireland and can provide models for the delivery of good government that can be applied to many regions around the world.

The Irish Institute currently offers programs in education, business management, and political leadership. Featured in 1999-00 are programs in Civic Journalism, Corporate Child Care, Heritage Management, Young Political Leadership, the Ulster University Leadership Program, the Irish Management Institute Leadership Program, The Middle East Higher Education Program, the Ron Brown Business Development Program and the Council of the Isles Program.

In 1997 the Institute was chosen to administer the American component of the Northern Ireland Assembly Transition Program. Boston College continues to host Assembly members, their staff and civil servants, as well as representatives of all the parties from Britain and Ireland, for programs that will allow them to learn about the American political system at city, state and federal level and to forge relationships with their counterparts in the United States.

In recent years, the Institute has applied its programming models to embrace participants from the Middle East and North Africa and in 1999 the Institute opened Boston College-Ireland, a Dublin base for its programming in the European Union.

Jesuit Institute

The Jesuit Institute was established in 1988 to contribute towards the response to the question of identity. The Institute, initially funded by the Jesuit Community at Boston College, is not an additional or separate academic program. It is rather a research institute which works in cooperation with existing schools, programs and faculties, primarily but not exclusively, at Boston College. Within an atmosphere of complete academic freedom essential to a university, the Institute engages positively in the intellectual exchange that constitutes the University. Its overarching purpose is to foster research and collaborate interchange upon those issues that emerge at the intersection of faith and culture. Through its programs, the Institute does this in two ways: by supporting the exploration of those religious and ethical questions raised by this intersection and by supporting the presence of scholars committed to these questions.

Loneragan Center

Studies related to the work of the Jesuit theologian and philosopher Bernard Lonergan (1904-1984) are fostered and advanced in the Lonergan Center at Boston College. Inaugurated in 1986, the Center houses a growing collection of Lonergan's published and unpublished writings as well as secondary materials and reference works, and it also serves as a seminar and meeting room. Boston College sponsors the annual Lonergan Institute, which provides resources, lectures, and workshops for the study of the thought of Bernard Lonergan, S.J.

Management Center

Through its Management Development Program, the Management Center offers a variety of seminars and workshops designed for companies and professional groups. These offerings range from very intense, long term programs to short one-and two-day seminars that emphasize executive education, research, and special programs which extend beyond the customary graduate and undergraduate curriculum.

Mathematics Institute

The Boston College Mathematics Institute was established in 1957 as a unit separate from the Mathematics Department to assist in the effort to improve the content and instructional practice of mathematics at school level. In the 1960's and 1970's the primary focus of the Institute was on providing veteran teachers with renewal programs and professional development opportunities to update and deepen their background in mathematics. The National Science Foundation was a major source of funding. Concurrently, Institute staff developed some supplementary instructional materials to use with students in the grades K-12.

At present, the Mathematics Institute offers professional enhancement courses for teachers in the summers at Boston College and other sites. Other current projects include research studies and content development related to school level mathematics concerns.

Center for Religion and American Public Life

The Center for Religion and American Public Life was founded to bring together high quality research and scholarship on religion to bear on issues of public policy in America. The Center's goal is not to advance any ideological agenda, whether liberal or conservative. The Center seeks instead to be the sponsor of dialogue and discussion which brings together people whose primary concerns are religious with people whose primary concerns are political, in the belief that they will find common ground. The main goals of the Center include the promotion of scholarship dealing with religion and public life, faculty and student development at Boston College, and outreach activities that contribute to a more robust public discussion of critical issues.

Small Business Development Center

The Small Business Development Center (SBDC) provides managerial, financial, and technical assistance and training to small business persons in the Greater Boston Area.

The services provided by the SBDC may be classified as business counseling and management training. Small business persons may receive one-on-one counseling and consultative help in a range of business areas such as finance, marketing, planning, accounting and controls, and operations. The SBDC offers educational opportunities for active and prospective small business persons. Topics vary, but areas covered include starting a business, financial planning, marketing, strategic planning, merchandising, and management. The Massachusetts Small Business Development Center program is a partnership of the U.S. Small Business Administration, the Massachusetts Executive Office of Economic Affairs, and Boston College in cooperation with the University of Massachusetts/Amherst under a consortium agreement.

Social Welfare Research Institute

The Social Welfare Research Institute (SWRI) is a multidisciplinary research center specializing in the study of spirituality, wealth, philanthropy, and other aspects of cultural life in an age of affluence. Founded in 1970, SWRI is a recognized authority on the relation between economic wherewithal and philanthropy, the motivations for charitable involvement, and the underlying meaning and practice of care. Over the past twelve years SWRI has received generous support from the T.B. Murphy Foundation Charitable Trust, which funded SWRI's groundbreaking Study on Wealth and Philanthropy, and from the Indiana University Center on Philanthropy, the W. K. Kellogg Foundation, and the Lilly Endowment, Inc.

TIMSS International Study Center

The Third International Mathematics and Science Study (TIMSS) International Study Center is housed in the Lynch School of Education and is conducted under the auspices of the International Association for the Evaluation of Educational Achievement (IEA). With 45 countries participating, five grades assessed in two school subjects, more than half a million students tested in more than 30 languages, and millions of open-ended responses generated, TIMSS is the largest and most ambitious study of comparative achievement ever undertaken.

Another project being conducted by the TIMSS International Study Center is the Progress in Reading Literacy Study (PIRLS). PIRLS is the first in the series of international studies designed to measure trends in reading literacy for fourth-grade students.

The TIMSS International Study Center is funded by the IEA, the U.S. National Center for Education Statistics, and the U.S. National Science Foundation.

Weston Observatory

Weston Observatory, formerly Weston College Seismic Station (1928-1949), is a part of the Department of Geology and Geophysics of Boston College. Located 10 miles from the main campus, the Observatory is an interdisciplinary research facility of the Department, and a center for research in the fields of geophysics, geology, and related fields. Weston Observatory was one of the first participating facilities in the Worldwide Standardized Seismograph Network and operates a twelve-station regional seismic network that records data on earthquakes in the northeast, as well as distant earthquakes. The facilities at Weston Observatory offer students a unique opportunity to work on exciting projects with modern, sophisticated, scientific research equipment in a number of different areas of scientific and environmental interest.
