Special Library Services

Next-Generation Library Information System

The Libraries are replacing the existing Quest Library Information System with a state of the art web-based system that will provide expanded access to the Libraries' collections, databases and services. As with Quest, the new system will provide a variety of methods for searching the Boston College Online Catalog, which includes approximately 5.2 million books, periodicals, media materials, microforms, newspapers and links to electronic materials. Unlike Quest, the new system will be available 24 hours a day, and will include an expanded array of patron services that allow students, faculty, and staff to locate, request, and renew library materials and to request other library services online. The new system will also provide integrated access to the Libraries' increasing array of electronic resources including over 100 web accessible databases, full text journals and digital collections, such as the Liturgy and Life Collection of the John J. Burns Library. The migration to the new system will be completed in June 2000.

Digital Resource

The Boston College Libraries offer over 500 databases online via the web and in CD-ROM format. A growing number of these databases and journals provide full text access directly to the researcher's desktop. A complete listing of all online databases available through the Libraries can be found by selecting Online Databases from the Resources menu on the Libraries home page <<http://www.bc.edu/libraries.html>>. The databases list includes both groupings by subject and an alphabetical listing by title with special designations for full text databases. Many of the databases can be launched directly by clicking on the web links. All other listings provide information explaining exactly where to access the databases. These can usually be accessed in the Electronic Information Center in the O'Neill Library or the Law Library. Databases range in coverage from very general to very specific and cover a wide range of research areas in the humanities, social sciences, sciences, health sciences, business, law and public affairs. An expanding number of links to electronic journals may also be found under the Resources menu by selecting the Electronic Journals link.

The Libraries also support an expanding digital collection of special and rare materials such as the Thomas P. O'Neill, Jr. Photographs, the Liturgy and Life Artifacts collection and the Boston Gas Company Photographs via the John J. Burns Library Rare Books and Special Collections web page: <http://www/bc/edu/bc_org/avp/ulib/burns/index.html>

Librarians offer training classes in how to search databases effectively, by arrangement with professors, and also provide individual coaching at various library service points or by appointment.

Researchers who cannot locate resources needed may contact a librarian to develop a search strategy to locate relevant information.

Finally, the Libraries facilitate access to many computerized numeric databases in business, economics, and the social sciences. Contact the O'Neill Reference Desk (refer@bc.edu) or

one of the Special Libraries for more information about these services, or to arrange demonstrations, workshops, and classroom presentations.

Interlibrary Loan

The Interlibrary Loan Service is offered to students, faculty, administrators, and staff to obtain materials not available in the Boston College Libraries. Books, photocopies of journal articles, microfilm, theses, and government documents may be borrowed from other libraries. Except for unusual items, the waiting period is from one to four weeks. For anyone willing to use the material at the holding library, a computerized system at the reference desk will provide locations. Requests can be made by using electronic forms available on the Libraries' web site or by visiting a library.

Boston Library Consortium

The Boston College Libraries are part of the Boston Library Consortium, a group of area libraries which includes Brandeis University, Boston University, Brown University, Massachusetts Institute of Technology, Northeastern University, Tufts University, University of Massachusetts System, Wellesley College, as well as the Massachusetts State Library, the Boston Public Library and the Marine Biological Laboratory at Woods Hole. Faculty may apply for a Consortium borrower's card at the Reference Department in the O'Neill Library in order to borrow directly from the member libraries.

United States Government Publications

Boston College is one of 1,370 Federal Depository Libraries located across the United States. As a Depository, the O'Neill Library receives thousands of government documents in print, microfiche and electronic formats and makes them available to the general public. Many government publications are now available via the Web or in CD-ROM format. Further information may be found on the web page: <http://www.bc.edu/bc_org/avp/ulib/ref/govdocs/Govdocs.html>. Questions about the O'Neill collection and the availability of government documents should be directed to the Government Documents and Microforms staff on the first floor of O'Neill Library.

Media Center

The Media Center on the second floor of O'Neill Library houses information in many non-print formats: videocassettes, laserdiscs, 16mm films, compact discs, audiocassettes, phonodiscs, and CD-ROMs. All media may be used by patrons within the Center, in individual carrels. Faculty may conduct their classes in each of our two media classrooms. There is a Faculty Preview Room for faculty meeting with small groups or previewing media materials. Loans of videos are restricted to BC faculty.

New England Library Information Network/OCLC

Through membership in the New England Library Information Network (NELINET), our users have on-line access to publishing, cataloging, and interlibrary loan location information from the data bank of OCLC, Inc. which contains over 39 million bibliographic records from the Library of Congress and other national libraries and from over 27,000 other libraries worldwide.

John J. Burns Library of Rare Books and Special Collections

The University's special collections, including the University's Archives, are housed in the magnificently appointed Honorable John J. Burns Library, located in the Bapst Library Building, north entrance. These distinguished and varied collections speak eloquently of the University's commitment to the preservation and dissemination of human knowledge. The Burns Library is home to more than one hundred thousand volumes, some twelve million manuscripts, and important collections of architectural records, maps, art works, photographs, films, prints, artifacts, and ephemera. These materials are housed in the climate-controlled, secure environment of Burns either because of their rarity or because of their importance as part of a special collection. While treated with special care, these resources are available for use at Burns to all qualified students, faculty, and researchers. Indeed, their use is strongly encouraged, and visitors to Burns are always welcome, either simply to browse or to make use of the collections.

Though its collections cover virtually the entire spectrum of human knowledge, the Burns Library has achieved international recognition in several specific areas of research, most notably: Irish studies; British Catholic authors; Jesuitana; fine print; Catholic liturgy and life in America, 1925-1975; Boston history; Caribbeana; Balkan studies; and Congressional archives. It has also won acclaim for significant holdings on nursing, detective fiction, Thomas Merton, Japanese prints, Colonial and early Republic Protestantism, and banking.

Some of the significant collections at Burns include:

The Aylesford Press Collection
Banking Archives: Hibernia Savings Bank, Union Warren, The Provident Institution for Savings, the Yankee Bank for Finance and Savings, and the Savings Banks Association of Massachusetts

The John J. Burns Library is open Monday through Friday, 9:00 a.m. to 5:00 p.m. The Library is closed on all University holidays. Visitors are always welcome and are encouraged to view the permanent exhibition areas of the Library. Guided tours are also available upon request. Patrons using the collections must do so in the Burns Reading Room where specialized reference and copy services are provided. Burns sponsors an active exhibits and lecture series program.

Academic Development Center

The Academic Development Center (ADC) exists to support and enhance all aspects of academic excellence by helping undergraduates, graduate students, and faculty improve learning quality and teaching effectiveness. The ADC, which opened its doors in September 1991, is located on the second floor of O'Neill Library in the Eileen M. and John M. Connors, Jr. Learning Center.

The ADC is a comprehensive, inclusive resource serving all of the University's students and faculty. To address the needs of the great majority of Boston College students, the Center provides tutoring for more than 60 courses, including calculus, statistics, biology, chemistry, nursing, accounting, and classical and foreign languages. In addition, graduate students in English serve as writing tutors. (All ADC tutors are recommended and approved by their relevant academic departments; most are graduate students, juniors, or seniors.)

The Center offers programs designed to challenge the most academically talented, highest achieving students — as well as programs designed to support those who are least prepared and most academically challenged. One of the ADC's three professional staff members assists students with learning disabilities, helping to ensure their academic success at Boston College.

Tutoring, and all other academic support services, are free of charge to all Boston College students and instructors.

The Center also sponsors seminars, workshops, and discussions for faculty and graduate teaching fellows on strategies for successful teaching and learning. Through these and other activities, the Academic Development Center plays an increasingly important role in enhancing the quality of academic life at Boston College.

University Archives

Archives are the official noncurrent papers and records of an institution that are deemed worthy of preservation for their legal, fiscal, or historical values. The University Archives, a department within the John J. Burns Library, contain the office records and documents of the various University offices, academic and otherwise, copies of all University publications, including student publications, movie footage of Boston College football, some audiovisual materials, and tape recordings of the University Lecture Series and other significant events. A significant collection of photographs documents the pictorial history of Boston College. Alumni, faculty, and Jesuit records are also preserved. In addition, the Archives are the repository for the documents of Newton College of the Sacred Heart (1946–1975); the Jesuit Education Association (1934–1970); the Catholic International Education Office (1952–1976); and the documents of the Jesuit Community of Boston College (1863–).

The Language Laboratory

The Boston College Language Laboratory, serving all the language departments, students of English as a foreign language, and the Boston College community at large, is located in Lyons 313. In addition to its 32 state-of-the-art listening/recording stations and teacher console (installed in Summer 1998), the facility includes video viewing rooms, multimedia-equipped Macintosh workstations, and a CD listening station. The Lab's audio and videotape/laserdisc collection, computer software, other audiovisual learning aids, and print materials including mono- and bilingual dictionaries, as well as laboratory manuals for elementary through advanced language courses, directly support and/or supplement the curriculum requirements in international language, literature, and music. The Lab's collection is designed to assist users in the acquisition and maintenance of aural comprehension, oral and written proficiency, and cultural awareness. Prominent among the Lab's offerings that directly address these goals are international news broadcasts and other television programming available through the Boston College cable television network and made accessible to Lab users via EagleNET connections and/or via videotaped off-air recordings. These live or near-live broadcasts from around the world provide a timely resource for linguistic and cultural information in a wide variety of languages. Students (undergraduate and graduate), faculty, and BC community members who wish to use the Language Laboratory facility and its collection will find the Laboratory staff available during the day, in the evening, and on weekends to assist them in the operation of equipment and in the selection of appropriate materials for their course-related or personal language needs.

The McMullen Museum of Art

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums.

Begun in the nineteenth century, the University's permanent collection contains masterpieces that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the sixteenth and seventeenth centuries, American landscape paintings of the nineteenth and early twentieth centuries, and Japanese prints. The collection is displayed on a rotating basis in the Museum's galleries on the ground floor. In keeping with the teaching mission of a university museum, accompanying text explains the significance of each work in its historical context and addresses questions from the current scholarship. The Museum maintains an active special exhibition program, bringing outstanding works from around the world to Chestnut Hill. The Museum also contains a Micro Gallery, an innovative computer system which visitors to the Museum may use to display information and images of works in the permanent collection, as well as photographs of related works. The Museum organizes public lectures, symposia, workshops, film series, and gallery tours in concert with current exhibitions.

Information Technology

Information Technology manages Boston College's computing, communications, and electronic information resources. It provides leadership in shaping technology plans and strategies to support the mission and goals of the University. Boston College's campus technology environment is a highly integrated voice, data, and cable television network with high speed connections to all classrooms, offices, and residence hall rooms. The University's network infrastructure was enhanced in 1999 to double the speed of its connection to the Internet, improve its capacity to intelligently and selectively pass or deny access to network resources, and provide better support for off campus users accessing the network through internet service providers or the University's modem pool. We are in the process of implementing wireless networking across the campus. Information Technology has a staff of approximately 140 employees organized to deal effectively with the challenges of new technologies and customer needs. The organization focuses on rapid implementation of internet, intranet, and extranet applications on an expanding and evolving network computing infrastructure.

Student Learning and Support Center

The Student Learning and Support Center (SLSC) brings together students, customer service, and technology. The SLSC, located in O'Neill Library 250, is Boston College's main computer laboratory. The facility holds 75 Macintosh G3s and 80 IBM Pentium III computers, 2 color scanners, 6 networked email stations, 2 music stations, 9 high speed laser printers, a typewriter, 6 laptop docking stations, and Notary Services. The SLSC is home to the Student Help Desk where students will find assistance in solving hardware, software, and networking problems. Within the facility, users have access to a wide variety of software applications and full access to the internet. For more information about the SLSC, see its web page: <http://www.bc.edu/slsc>
