SciENcv

Science Experts Network Curriculum Vitae (SciENcv) is a new electronic system that helps researchers assemble the professional information needed for participation in federally funded research. SciENcv gathers and compiles information on expertise, employment, education and professional accomplishments. Researchers can use SciENcv to create and maintain biosketches that are submitted with grant applications and annual reports.

Links to this tool and features are found below:

Reminders

Grant submissions along with their accompanying Proposal Transmittal Form (PTF) are due to OSP no later than 5 business days prior to the sponsor’s submission deadline. Any IDC waivers must also be submitted at that time or sooner. This will ensure a proper and thorough review of your proposal.

To learn more, please refer to our policy which can be found here:
